Interim Report 2007

Characteristics of the Growth Enterprise Market ("GEM") of The Stock Exchange of Hong Kong Limited (the "Exchange")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination of GEM is publication on the internet website operated by the Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange of Hong Kong Limited takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

The report, for which the directors of Vertex Group Limited (the "Company") collectively and individually accept full responsibility, include particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to the Company. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:- (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

The computation of diluted loss per share for the three months and six months ended 30th June 2007 did not assume the exercise of the Company's potential ordinary shares granted under the Company's share option schemes and warrants since their exercises would result in a reduction in net loss per share.

("LIM Fund") with a maturity date due on 31 March 2011 (the "Convertible Bonds"). The Convertible Bonds will, at the option of LIM Fund, be convertible on or after 27 March 2006 up to and including 31 March 2011 into ordinary shares of CPCL at an initial conversion price of US\$36 per share subject to adjustment. The Company has the right to repay early part or the entire amount and the accrued interest of the Bonds at any time prior to the maturity date. The Directors had assessed the fair value of the early redemption right and considered the fair value is insignificant.

The Bonds, which are transferable, bear a coupon of 2 per cent, per annum which will be payable biannually on the last business day in June and December of each year and will mature on 27 February 2009. The Company may, at any time by giving 30 days prior notice to the bondholders, redeem the Bonds prior to the maturity date. The bondholders have no right to request for early repayment.

The Bonds are secured by a charge of 10,000 ordinary shares in Vertex Media Ltd. 160,000 ordinary shares in Vertex (Gulf) Enterprises Holdings Limited and 2 ordinary shares in Vertex TRC Publishing Company Limited, being the Company's entire interests in these companies, in favour of LIM Fund.

The net proceeds received from the issue of Bonds attaching the warrants therefore contain a liability element and an equity element which are required to be separately accounted for in accordance with HKAS 32. An effective rate of 6.4% p.a. is used to determine the fair value of the liability element at initial recognition.

FINANCIAL REVIEW

For the six months ended 30th June 2007, the Group recorded an increase in revenue of approximately HK\$5 million, representing a surge of approximately 87% over the corresponding period in 2006. The increase was mainly attributed to management consultation services provided to energy related business and advertising income from print media business.

Staff cost for the period under review increased slightly as compared to the corresponding period in the previous year. The effect of additional headcounts for providing management consultation services during the period under review was offset by downsizing of sales and marketing staff in Beijing and Shanghai.

For the six months ended 30th June 2007, the royalty and production cost amounted to HK\$4.8 million. The decrease in the royalty and production costs was mainly attributed to shifting of focus on publication of Newsweek Select during the period under review.

The other operating expenses for the period ended 30 June 2007 amounted to approximately HK\$4.4 million. More other operating expenses incurred in the previous period under review was mainly attributable to compliance, legal and professional expenses in relation to issuance of bonds in an aggregate amount of HK\$31 million at end of March 2006.

HUMAN RESOURCES & REMUNERATION POLICY

The directors of the board (the "Directors") believe that the quality of its employees is the most important factor in sustaining the Group's growth and improving its profitability. The Group's remuneration package is structured with reference to the individual performance, working experience and prevailing salary levels in the market. In addition to basic salaries and mandatory provident fund, staff benefits include medical coverage scheme and share option schemes.

The Group has not experienced any significant problems with its employees or disruption to its operation due to labour disputes nor has it experienced any difficulties in the recruitment and retirement of experienced staff. The Directors believe that the Group has a good working relationship with its employees.

MANAGEMENT DISCUSSION AND ANALYSIS

Management will focus on increasing greater recognition by local and international brand clients in the PRC by devoting more resources on developing sophisticated editorial, premium circulation channel and outstanding marketing strategies. Monthly circulation will be increased from 100,000 copies per month to 150,000 copies per month at the second half of 2007 in order to stay competitive in the high-end media market. However, advertising market in the PRC remains very competitive especially more and more international magazines have launched their Chinese language editions and substantial advertising budget from international clients has been allocated to online media. We are cautious about the growth of advertising revenue at the second half of 2007.

The Group has invested a considerable amount of resources in developing energy-related business in the last 12 months, including investment in China Hong Kong Power, power system consultancy, and engineering and management of power plants overseas. Progress has been made in these efforts and we are well-positioned in this area of business. We believe that this side of business will see significant growth in the future.
