CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid reports in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Midland IC&I Limited (the “Directors”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM for the purpose of giving information with regard to Midland IC&I Limited. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:- (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

NOTES TO THE FINANCIAL INFORMATION

1. General information

Midland IC&I Limited (formerly EVI Education Asia Limited) (the “Company”) is a limited liability company incorporated in the Cayman Islands and listed on the Growth Enterprise Market (the “GEM”) of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). The address of its registered office is Cricket Square, Hutchins Drive, P. O. Box 2681, Grand Cayman KY1-1111, Cayman Islands and its principal office in Hong Kong is Room 1801A, 18th Floor, One Grand Tower, 639 Nathan Road, Mongkok, Kowloon, Hong Kong.

On 6th June 2007, the Company completed the acquisition of the entire interest of Ketanfall Group Limited (“Ketanfall”), a holding company of a group of companies principally engaged in the business of industrial and commercial (office and shop) property brokerage in Hong Kong, from an indirect wholly-owned subsidiary of Midland Holdings Limited (“Midland”), the ultimate holding company of the Company, for a consideration of HK\$640 million (the “Acquisition”), which was satisfied by (i) the issuance of convertible notes by the Company in the principal amount of HK\$540 million; and (ii) cash payment of HK\$100 million.

The principal activities of the Company and its subsidiaries (collectively the “Group”) are provision of property brokerage services in respect of industrial and commercial (office and shop) properties in Hong Kong and internet education services in Hong Kong and Mainland China.

2. Basis of preparation and principal accounting policies

i Basis of preparation

Since the Company and Ketanfall are ultimately owned by Midland immediately before and after the Acquisition, this interim financial information has been prepared using the principle of merger accounting, as prescribed in Hong Kong Accounting Guideline (“HKAG”) 5 “Merger Accounting for Common Control Combinations” issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”).

For the purpose of interim financial information, the consolidated income statements, consolidated cash flow statements and consolidated statements of changes in equity for the three months and six months ended 30th June 2006 and 2007 have been prepared on a combined basis and include the financial information of the companies under common control and comprising the Group as if the current group structure had been in existence throughout the period or since the date when the combining companies first came under the control of the controlling shareholder, where it is a shorter period. The consolidated balance sheets as at 31st December 2006 and 30th June 2007 have been prepared to present the assets and liabilities of the companies under common control comprising the Group at these dates, as if the current group structure had been in existence as at these dates.

Following the Acquisition as set out in note 1 and the adoption of HKAG5, the opening consolidated reserve as at 1st January 2006 and 2007 has been increased by approximately HK\$108,407,000 and HK\$95,118,000 respectively, which represent the inclusion of the results of Ketanfall and its subsidiaries as well as reserve arising from the Acquisition.

ii Principal accounting policies

The interim financial information has been prepared under the historical cost convention as modified by the revaluation of financial assets at fair value through profit or loss, which are carried at fair value, and also presented in accordance with Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the HKICPA and the applicable disclosure requirements of Chapter 18 of the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”).

The accounting policies and methods of computation adopted for the preparation of the interim financial information are consistent with those described in the 2006 annual financial statements except for the following:

- (i) The Group has applied a number of new standards, amendments and interpretations that are effective for accounting periods beginning on or after 1st January 2007 as follows:

HKAS 1 (Amendment)	Presentation of Financial Statements: Capital Disclosures
HK (IFRIC)-Int 9	Reassessment of Embedded Derivatives
HK (IFRIC)-Int 10	Interim Reporting and Impairment
HKFRS 7	Financial Instruments: Disclosures

The adoption of these new standards, amendments and interpretations and does not have any significant impact on the results and financial position or changes in the accounting policies of the Group, with the exception of HKAS 1 (Amendment) and HKFRS 7 which require additional disclosures in the annual financial statements.

The Group has not early adopted HKFRS 8 “Operating Segments” that is relevant to its operation and mandatory for accounting period beginning or after 1st January 2009. HKFRS 8 requires the reporting of financial and descriptive information about the reportable segments on the basis of internal reports that are regularly reviewed by its management. The Group will apply HKFRS 8 for the accounting period beginning on 1st January 2009, but it does not expect application of this standard to have significant impact on its financial statements.

(ii) In addition, the Group has adopted certain new accounting policies following the Acquisition (note 1), details of which are set out below:

(a) *Merger accounting for common control combination*

The consolidated financial statements incorporate the financial statements of the combining entities or businesses in which the common control combination occurs as if they had been combined from the date when the combining entities or businesses first came under the control of the controlling party.

The net assets of the combining entities or businesses are combined using the existing book values from the perspective of controlling party. No amount is recognised in consideration for goodwill or excess of the interest of the acquirer in the net fair value of the identifiable assets of the acquiree, liabilities and contingent liabilities over cost at the time of common control combination, to the extent of the continuation of the interest of controlling party.

The consolidated income statement includes the results of each of the combining entities or businesses from the earliest date presented or since the date when the combining entities or businesses first came under the common control, where there is a shorter period, regardless of the date of the common control combination.

The comparative amounts in the consolidated financial statements are presented as if the entities or businesses had been combined at the previous balance sheet date or when they first came under common control, whichever is shorter.

A uniform set of accounting policies is adopted by those entities. All intra-group transactions, balances and unrealised gains on transactions between combining entities or businesses are eliminated on consolidation.

Transaction costs, including professional fees, registration fees, costs of furnishing information to shareholders, costs or losses incurred in combining operations of the previously separate businesses, incurred in relation to the common control combination that is to be accounted for by using merger accounting is recognised as an expense in the period in which it is incurred.

(b) *Convertible notes*

Convertible notes that can be converted to equity share capital at the option of the holders, where the number of shares that would be issued on conversion and the value of the consideration that would be received do not vary, are accounted for as compound financial instruments which contain both a liability component and an equity component.

At initial recognition, the liability component of the convertible notes are determined using a market interest rate for an equivalent non-convertible notes. The remainder of the proceeds is allocated to the conversion option as equity component. Transaction costs that relate to the issue of a compound financial instrument are allocated to the liability and equity components in proportion to the allocation of proceeds.

The liability component is subsequently carried at amortised cost, calculated using the effective interest method, until extinguished on conversion or maturity. The equity component is recognised in equity, net of any tax effects.

When the note is converted, the relevant equity component and the carrying amount of the liability component at the time of conversion are transferred to share capital and share premium for the shares issued.

(c) *Revenue recognition*

Agency fee revenues from property brokerage are recognised when the relevant agreements become unconditional or irrevocable.

Hong Kong profits tax has been provided at the rate of 17.5% on the estimated assessable profit for the periods.

7. Earnings per share

The calculation of basic and diluted earnings per share is based on the following:

	Three months ended 30th June		Six months ended 30th June	
	2007 HK\$'000	2006 HK\$'000	2007 HK\$'000	2006 HK\$'000
Profit attributable to equity holders	9,504	3,585	21,356	12,900
Effect on interest expense on convertible notes, net of tax	450	-	450	-
Profit for calculation of basic and diluted earnings per share	9,954	3,585	21,806	12,900
Weighted average number of shares in issue (thousands)	8,300,000	8,300,000	8,300,000	8,300,000
Effect on conversion of convertible notes (thousands)	5,400,000	5,400,000	5,400,000	5,400,000
Weighted average number of shares for calculation of basic earnings per share (thousands)	13,700,000	13,700,000	13,700,000	13,700,000
Effect on conversion of share options (thousands)	60,311	-	53,625	-
Weighted average number of shares for calculation of diluted earnings per share (thousands)	13,760,311	13,700,000	13,753,625	13,700,000
Basic earnings per share (HK cents)	0.07	0.03	0.16	0.09
Diluted earnings per share (HK cents)	0.07	0.03	0.16	0.09

Basic earnings per share is calculated by adjusting the weighted average number of shares to take effect of the convertible notes since the convertible notes are mandatory convertible. The convertible notes are assumed to have been converted into shares from the date when the combining entities first came under the control of the controlling party, and the net profit is adjusted to eliminate the interest expense less the tax effect.

In calculating the diluted earnings per share the weighted average number of shares is further adjusted to assume conversion of all dilutive potential shares from share options. Adjustment has been made to determine the number of shares that could have been acquired at fair value (according to the average annual market share price of the shares of the Company) based on the monetary value of the subscription rights attached to the outstanding share options. The number of shares calculated above is compared with the number of shares that would have issued assuming the exercise of the share options.

8. Interim dividend

The Board does not recommend the payment of an interim dividend for the Interim Period (2006: Nil).

(b) Share options

On 6th June 2005, the Company adopted a new share option scheme (the “Scheme”) pursuant to an ordinary resolution. Under the Scheme, the Company may grant options to any employees, senior executives or officers, managers, Directors (including Executive, Non-executive and Independent Non-executive Directors) or consultants of the Company and its subsidiaries, or any other eligible persons, who, as determined by the Directors of the Company, have contributed or will contribute to the growth and development of the Group to subscribe for shares of the Company, subject to a maximum of 10% of the nominal value of the issued share capital of the Company at the adoption time, excluding for this purpose shares issued on the exercise of options. The subscription price will be determined by the Directors of the Company, and will not be less than the higher of: (i) the nominal value of the shares of the Company; (ii) the average of the closing price of the shares of the Company quoted on the GEM of the Stock Exchange on the five trading days immediately preceding the date of offer of the options; or (iii) the closing price of the shares quoted on the GEM of the Stock Exchange on the date of offer of the options, which must be a business day as defined in GEM Listing Rules. The Scheme will remain in force for a period of ten years commencing from 6th June 2005.

Particulars and movements of share options which were granted under the Scheme are set out in pages 25 to 28 of this report.

12. Convertible notes

On 6th June 2007, the Company issued an aggregate of HK\$540,000,000 1% convertible notes due to June 2012 as part of the consideration for the Acquisition as set out in note 1 above. The note has the right to convert into new shares of HK\$0.01 each of the Company, during a period commencing from the date immediately after six months from date of issue of the note, unless with the prior written consent from the Company, to date of maturity, at an initial conversion price of HK\$0.10 per share. Unless previously converted, the note will be mandatory converted at date of maturity on 6th June 2012.

No convertible note was converted into ordinary shares during the period ended 30th June 2007.

13. Trade creditors

The trade creditors mainly represent the commissions payable to property consultants and cooperative estate agents, and are due for payment only upon the receipt of corresponding agency fees from customers. The trade creditors of HK\$6,863,000 (31st December 2006: HK\$6,420,000) were due for payment within 30 days. All the remaining trade creditors were not yet due.

MANAGEMENT DISCUSSION AND ANALYSIS

Review

In the second quarter, our business continued to gain ground with new income stream from a group reorganisation. For the period under review, sales revenue reached HK\$170,858,000, representing an increase of 10.99% from a year earlier. Profit attributable to shareholders rose 65.55% to approximately HK\$21,356,000.

2007 has been a milestone year for the Company. Through the business merger with Ketanfall Group of Midland Holdings Limited, our ultimate holding company, the scale and the reach of our business has been materially extended. Ketanfall is the holding company of a group of companies principally engaged in the business of industrial and commercial (office and shops) property brokerage in Hong Kong.

The reorganisation was completed on 6th June 2007. Since the Group adopted merger accounting for common control combination was adopted, the interim results already reflected the full contributions from the industrial and commercial (office and shops) property brokerage business during the whole period. In addition, previous income statements have been restated to factor in the business extension. In the first six months, the income from the real estate agency business accounted for 94.33% of the Group's revenue.

In June, the chief executive officer of Ketanfall Group took the helm of the Group, a move in line with the change in our principal business. The name of the Company has been changed to Midland IC&I Limited to reflect the shift in business focus.

In fact, the industrial and commercial (office and shops) property sector in Hong Kong performed strongly in the period from January through June 2007. The growth trend continued because of the favorable economic conditions and the strong demand from investors.

Buoyed by strong economy, local corporations kept expanding and consumers increased their spending. As a result, the strong interest in office premises and retail space turned even stronger. The bull-run in the equity market also helped. After making huge profits from stock trading, some investors shifted their focus to fixed assets and looked for investment opportunities in the property market.

The education and training related business remained lackluster. The turnover from this area dropped by 22.9% as a result of the fall in the net subscription income from EVI on-line system and the uninspiring performance of website development and commercial projects segment. However, thanks to the launch by the Government of "One-off School Development Grant" to kindergartens earlier this year and the Group's corresponding marketing initiatives, the turnover of sales and installation of computer hardware and software surged by 16%.

Outlook

After extending the scope of business, the Group is about to embark on a year of transformation in 2007. In the second half, the new management will concentrate on transforming the Group into a property agency group with enhanced business strengths. As local economy continues to grow, the Group is optimistic that demand for non-residential properties will strengthen further, which will support our business expansion.

Office Sector

Grade A office take-up in the past three years, according to the Rating and Valuation Department, amounted to 7.05 million sq. ft., which is 5.6 times more than the total take up during 2001 to 2003. Office supply, however, declined. Grade A office supply during 2002 to 2004 reached 6.6 million sq. ft., but it declined dramatically to only 1.3 million sq. ft. over 2005 to 2006. The declining completion together with strong take up in the past two years sent rents to a new high and drove vacancy rate down to a recent-year low. Looking ahead, the demand-supply balance will still propel this sector.

On the demand front, the growth will be supported by local and foreign interest. First, the continuous expansion of local economy will prompt companies to restart their expansion plan. Second, as a gateway to Mainland China, Hong Kong will attract a lot of multinational corporations to set up offices in the core business districts. In fact, the number of oversea companies choosing Hong Kong as their region headquarters increased 27% from 966 in 2003 to 1,228 in 2006. Last but not least, if the financial market stays booming, a good number of companies will seek listing status in Hong Kong. And this will lead to strong take up in prime office space from the finance related companies.

Industrial Sector

According to Rating and Valuation Department's figures, there was no new supply of industrial properties in 2006. Because of limited supply, rents and prices registered a year-on-year growth of 12% and 25% in the final quarter of 2006 respectively. The Group believes that demand will keep outstripping supply in coming years, and that a persistent downtrend of the vacancy rate is inevitable, supporting prices and rents of industrial properties.

Another driving force is the strong investment demand. In fact, a lot of big-ticket transactions took place in the industrial sector. Investment demand emerges because of the strong interest in converting the usage of the industrial buildings. Also a favorable factor for the industrial sector is the relocation of businesses. Since rents of the office premises have increased sharply, the Group believes that some companies will move from traditional office towers to industrial buildings for the purpose of cost saving, creating new demand for this sector.

Retail Sector

Local demand will be the major driving force for the retail market. Undeniably, mainland travelers still provide a good source of income to the local retailers, but there are signs that growth in tourism spending has slowed down. The good news is, however, the retail sector can rely on domestic demand to drive the growth momentum further. The reason for optimism is that Hong Kong people are earning more today. According to government's tally, the family income of the households living in private residential units increased 3.3% year-on-year in the first quarter of current year. Based on the job market outlook, the rising tide of income will not ebb any time soon.

More importantly, the spending habits of Hong Kong people may change if zero or negative real interest rate environment re-emerges. Real interest rate is still in positive territory; it is quite likely that it will approach zero or even turn negative as inflation is set to increase. By then, Hong Kong people will lose appetite to save and increase their propensity to spend. So the Group expects prices and rents of retail space to rise in the second half of the year.

Two-pronged Strategy

Against a backdrop of increasing demand in the high-end market, the Group has implemented new business initiatives to tap the opportunities. First, the Group set up a new professional team comprising surveyors and experienced salesmen to focus on tender sale of non-residential sites and properties. Second, the Group formed a "Leasing Unit" to further penetrate the leasing market. This unit is specializing in providing one-stop-solution to corporate clients.

This two-pronged strategy represents the strong initiative to develop high-end markets, with a firm foothold established in the segment of strata-titled properties. The Group believes that the new business units will enable the Group to expand its market share by penetrating the market which has long been dominated by the international surveying firms. Among our target groups of customers are institutional investors who are looking for expert advice. The Group has allocated more resources to upgrade its marketing materials and professional reports. In the coming months, the Group will launch numerous indices to keep institutional investors informed of the latest market developments.

Looking ahead, the Group is committed to creating new growth drivers to enhance shareholders value.

Financial Resources and Liquidity

As at 30th June 2007, the Group maintained healthy financial position with current assets amounted to approximately HK\$240 million, of which trade debtors amounted to approximately HK\$115 million and cash and bank balances amounted to approximately HK\$109 million. The equity holders' funds of the Company amounted to approximately HK\$119 million. The Company and its subsidiaries did not have outstanding bank loan during the Interim Period. The Group's current liabilities amounted to approximately HK\$104 million, mainly comprising trade creditors and other creditors and accrued charges amounted to approximately HK\$75 million and HK\$18 million respectively.

The gearing ratio, which represents the percentage of long term borrowings over total equity was 19% as at 30th June 2007. The liquidity ratio of the Group, which represents a ratio of current assets over current liabilities, to reflect the adequacy of the financial resources, was 2.3.

Capital Structure and Foreign Exchange Exposure

During the Interim Period, other than the issue of convertible note, there was no change in the Company's capital structure. The Group generally finances its operations and investing activities with equity holders' funds.

The Group's income and monetary assets and liabilities are mainly denominated in Hong Kong dollars. The Directors considered that the foreign exchange exposure of the Group is minimal.

Very Substantial Acquisition

On 6th June 2007, the Company completed the acquisition of the entire issued share capital of Ketanfall Group Limited, a holding company of a group of companies principally engaged in the business of industrial and commercial (office and shops) property brokerage in Hong Kong, from an indirect wholly-owned subsidiary of Midland, for a total consideration of HK\$640 million satisfied as to HK\$540 million by the Company issuing the convertible note (the "Convertible Note") in the principal amount of HK\$540 million and as to HK\$100 million by cash. Following the abovementioned completion, Ketanfall has become a wholly-owned principal operating subsidiary of the Company.

Significant Investment Plan

As at 30th June 2007, the Group did not hold any significant investment plan.

Employee Information

As at 30th June 2007, the Group employed 575 full-time employees. The Group provides remuneration package to employees largely based on industry practice, individual performance, qualification and experience. In addition, discretionary bonus, profit sharing and share option may be granted to eligible staff by reference to the Group's performance and individual performance. The Group also provides other benefits to its employees such as education subsidies, medical and retirement benefits. On staff development, both in-house and external training and development programmes are conducted on a regular basis.

Share Option Scheme

At the Company's extraordinary general meeting held on 6th June 2005, a share option scheme (the "Share Option Scheme") of the Company was adopted and approved by its shareholders.

1. *Major Terms of the Share Option Scheme*

The major terms of the Share Option Scheme are summarized as follows:

(a) *Purposes of the Share Option Scheme*

The principal purposes of the Share Option Scheme are to enable the Group and its Invested Entities to recruit and retain high calibre Eligible Persons and attract human resources that are valuable to the Group or Invested Entities, to recognise the contributions of the Eligible Persons to the growth of the Group or Invested Entities by rewarding them with opportunities to obtain ownership interest in the Company and to motivate and give incentives to these Eligible Persons to continue to contribute to the long term success and prosperity of the Group or Invested Entities.

(b) *Participants of the Share Option Scheme*

The Board may invite any Eligible Person as the Board may in its absolute discretion select, having regard to each person's qualifications, skills, background, experience, service records and/or contribution or potential value to the relevant member(s) of the Group or Invested Entity.

(c) *Total number of shares available for issue*

Total number of shares available for issue is 747,000,000, representing approximately 9% of the issued share capital of the Company as at the date of this announcement.

(d) *Maximum entitlement of each Eligible Person*

The maximum number of shares issued and to be issued upon exercise of options granted under the Share Option Scheme and any other share option schemes of the Company to each eligible person, in any 12-month period must not exceed 1% of the shares in issue.

Any further grant of share options in excess of the abovementioned limit shall be separately approved by the shareholders of the Company and, for so long as the Company remains a subsidiary of Midland Holdings Limited ("Midland"), the shareholders of Midland in their respective general meeting with such grantee and his associates abstaining from voting and/other requirements prescribed under the Rules Governing the Listing of Securities on the The Growth Enterprise Market ("GEM") of The Stock Exchange of Hong Kong Limited (The "Stock Exchange") (the "GEM Listing Rules") and the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") from time to time.

(e) *Maximum entitlement of each Eligible Person who is a connected person*

The maximum number of shares issued and to be issued upon exercise of options granted under the Share Option Scheme and any other share option schemes of the Company to each eligible person who is an independent non-executive director or substantial shareholder of the Company, in any 12-month period shall not exceed 0.1% of the shares in issue and an aggregate value which based on the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the date of each grant shall not exceed HK\$5,000,000.

Any further grant of share options in excess of the abovementioned limit shall be subject to the issue of a circular by the Company and shall be separately approved by the shareholders of the Company and, for so long as the Company remains a subsidiary of Midland, the shareholders of Midland in their respective general meeting with such grantee and his associates abstaining from voting and/other requirements prescribed under the GEM Listing Rules and the Listing Rules from time to time.

(f) *Time of exercise of Option*

The Share Option Scheme will remain in force for a period of ten years commencing from the Adoption Date, after which no further Options shall be granted. The Options which are granted during the life of the Share Option Scheme may, however, continue to be exercisable in accordance with their terms of issue and, for such purposes only, the provisions of the Share Option Scheme shall remain in full force and effect.

(g) *Basis of determining the subscription price*

The subscription price for the shares under the Share Option Scheme shall be a price determined by the Board at its absolute discretion and notified to an Eligible Person but shall not be less than the highest of:

- (i) the closing price of the shares as stated in the Stock Exchange's daily quotations sheet on the Offer Date;
- (ii) the average closing price of the shares as stated in the Stock Exchange's daily quotations sheets for the five (5) business days immediately preceding the Offer Date; and
- (iii) the nominal value of a share.

(h) *Remaining life of the Share Option Scheme*

The Share Option Scheme became effective on 6th June 2005 will remain in force for a period of ten years from the date of adoption.
