### Info Communication Holdings Limited

(Incorporated in the Cayman Islands with limited liability) (Stock Code: 8082)

FIRST QUARTERLY REPORT 2008

#### CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Exchange. Listed companies are not generally required to issue paid announcement in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange of Hong Kong Limited takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Info Communication Holdings Limited collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules") for the purpose of giving information with regard to Info Communication Holdings Limited. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: 1. The information contained in this report is accurate and complete in all material respects and not misleading; 2. There are no other matters the omission of which would make any statement in this report misleading; and 3. All opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

#### MANAGEMENT DISCUSSION AND ANALYSIS

#### **Business and financial review**

During the three months ended 30 June 2008, the Group organised certain exhibitions in the People's Republic of China (the "PRC") including Hong Kong, details of some major exhibitions are set out below:

Date and venue	Exhibition
28 April – 1 May 2008 Asia World-Expo, Chek Lap Kok, Hong Kong	Hong Kong International Auto Parts & Accessories Fair
23-26 May 2008 Asia World-Expo, Chek Lap Kok, Hong Kong	Asia International Arts & Antiques Fair (AIAA 2008)
10-13 June 2008 Guangdong Modern International Exhibition Centre, Dongguan, the PRC	20th China Dongguan International Linkage Industry, Mould & Die Exhibition 16th China Dongguan International Plastics & Packaging Exhibition

During the three months period under review, the Group continued to organise a number of well-known exhibitions in Hong Kong and in the PRC, in particular, the Asia International Arts & Antiques Fair 2008. The concurrent exhibitions had received satisfactory responses from all the exhibitors as well as the visitors.

The Group's turnover for the three months period amounted to approximately HK\$12,975,000, represented a minor reduction of approximately HK\$855,000 compared to the corresponding period in 2007. The decrease was mainly attributable to the direct challenges in the exhibition service sector in terms of quick development of exhibition industries in nearby countries.

Loss attributable to equity holders of the Company for the three months ended 30 June 2008 was approximately HK\$13,415,000 (2007: HK\$4,276,000), the losses was mainly resulted from the rising exhibition and staff costs, interest expenses from the loans and the associated expenses in acquiring the coal mining business in the PRC.

#### **Prospects**

In order to discover new sources of business growth and further broaden the Group's revenue base, during the three months period under review, the Group has entered into energy business of mining, sales and distributions of coal by acquiring equity interests of a mining business in the PRC. In the rest of the financial year ending 31 March 2009, the newly acquired mining business will be operated side by side with the Group's core business of exhibition organisation with the Directors best efforts.

The Directors consider that, owing to the rapid growth of the economy in China, there has been a strong demand of coal consumptions by primary industries, such as power, metallurgy, building material, chemical and so on, this in turns will further increase the demand of coal. Coal is one of the main natural energy resources. As the prices of oil and natural gas have reached successively new high records, it provides rooms for the rise of coal price. The position of coal as basic energy will be uplifted. The Directors expected that the demand of coal will remain robust and the coal price will keep at a high level.

In addition, the PRC Government has been aware of the importance of energy saving and the reduction in green house effect gases emission, which will accelerate the consolidation of the coal industry. It will in turn improve the centralisation of coal industry in the PRC and therefor enhance the competitive advantages of large-scale coal enterprises.

The Directors are cautiously optimistic about the new business in coal mining, as the overall business environment is on an upward trend, the Directors expect that a reasonable returns will be delivered to the shareholders of the Company in the rest of the financial year ending 31 March 2009.

Set out below is a schedule of the exhibitions that will be organised by the Group, together with their proposed date and venue, for the three months ending 30 September 2008:
