**FIRST QUARTERLY RESULTS ANNOUNCEMENT  
FOR THE THREE MONTHS ENDED 31 JANUARY 2009**

**CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

## **MANAGEMENT DISCUSSION AND ANALYSIS**

### **Financial review**

For the three months ended 31 January 2009, the Group recorded a decrease in turnover of approximately 28.5% from HK\$42.4 million in the corresponding period in the last financial year to HK\$30.3 million. Net profits attributable to shareholders amounted to approximately HK\$2.1 million (2008: HK\$4.8 million), represented a decrease of around 56.3% to that of the last corresponding period.

In this review period, the trading business had been adversely affected by the financial tsunami mostly in two directions. Turnover was decreased 38.8% compared to the last corresponding period mainly due to customers in the manufacturing sector reduced their orders significantly and tightening credit in China during last year and the global slowdown of business. Further, profits had been eroded by sharp appreciation of Japanese yen which is one of our main payment currencies to major suppliers.

Gross profits for the three months ended 31 January 2009 amounted to approximately HK\$6.9 million, representing a decrease of approximately 18.1% compared to that of last corresponding period. However, gross profits ratio had been increased from 19.9% to 22.8% due to change of product mix. Gross profit ratio for trading of industrial environmental products (which is the major business) is approximately 21.9% in this review period (2008: 21.1%).

Selling expenses increased approximately HK\$99,000 which is approximately an increase of 17.5% compared to that of the last corresponding period. The increase is mainly due to increase of business in manufacturing activities.

Administrative expenses for the three months ended 31 January 2009 increased 42.7% from HK\$4.4 million in the last corresponding period to HK\$6.2 million. Comparing to the last corresponding period, additional administration expenses of approximately HK\$486,000 is incurred for business in manufacturing activities, approximately additional HK\$241,000 is incurred for water supply plant and additional HK\$242,000 is incurred for foreign exchange losses.

### **Business review and prospectus**

The Group is continuously involved in the marketing, sales, servicing, research and development of environmental protection and quality health related products and services.

New representative office had been established in Chengdu to capture the business of industrial environmental protection products in infrastructure related business in Northwest China. Additional representative offices will be opened in other locations in PRC to ensure prompt services to customers.

Furthermore, our jointly controlled entity in Jiangsu province had successfully concluded contracts to supply and install a highly efficient small-size wastewater treatment system known as “Compact Wasterwater Treatment System (CWT-M)” in several rural towns of Kunshan city. It is expected that operation of this jointly controlled entity will have positive contribution to the Group.

Revenue from water supply business is steady and gradual increase of water consumption is expected.

The Group expect the global financial tsunami will continue to have adverse affect to the business and operation in the coming quarters. Although business will inevitably be slowdown in coming months, the Group will work together to overcome the challenges by taking appropriate timely actions to reduce unfavorable effects of the recession.
