FIRST QUARTERLY RESULTS ANNOUNCEMENT FOR THE THREE MONTHS ENDED 31 DECEMBER 2014

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed in the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this announcement, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this announcement.

This announcement, for which the directors (the “Directors”) of Brilliance Worldwide Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, (i) the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive; and (ii) there are no other matters the omission of which would make any statement herein or this announcement misleading.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group's turnover contributed from innerwear, casual wear and baby and children wear for the three months ended 31 December 2014 were HK\$10.2 million, HK\$3.2 million and HK\$6.0 million (2013: HK\$12.5 million, HK\$ 4.4 million and HK\$5.3 million) respectively.

The product mix of the Group reflects that the portion of sales of innerwear and casual wear to the total sales has dropped from 56.3% to 52.7% and 19.8% to 16.5%, respectively. Due to the drop of sales in innerwear and casual wear, the portion of sales of baby and children wear has increased from 23.9% to 30.8%. The innerwear products remain as the main products of the Group.

FINANCIAL REVIEW

The turnover of the Group for the three months ended 31 December 2014 was approximately HK\$19.4 million, representing a decrease of 12.7% from the same period last year. Cost of sales of the Group decreased by approximately 11.5% from approximately HK\$20.0 million for the three months ended 31 December 2013 to approximately HK\$17.7 million the three months ended 31 December 2014. The decrease in cost of sales was mainly due to the decrease in sales order and shrinking of profit margin during the period. The gross profit has decreased by HK\$505,000, representing a decrease of 23.5 % from the same period last year.

During the period, the Group carried apparel distribution activities and has saved a lot of factory operation overheads comparing with garment manufacturing activities in 2013. Further, in changing mode of operation, the group focused on providing considerate services to the old and main customers in order to stabilise the business, and consequently sales promotional activities and expenses have been reduced.

LIQUIDITY AND FINANCIAL POSITION

At 31 December 2014, cash and bank balances and pledged bank deposits of the Group amounted to approximately HK\$3.6 million (At 30 September 2014: HK\$9.4 million). The current ratio (current asset divided by current liabilities) of the Group was 11.3 times and 5.4 times as at 31 December 2014 and 30 September 2014, respectively. In view of the Group's current level of cash and bank balances, funds generated internally from our operations and the banking facilities available, the Board is confident that the Group will have sufficient resources to meet its finance needs for its operations.

OUTLOOK

During the period, the Group has re-focused the business on apparel distribution. The Directors believe that the Group will be able to shift its resources to better serve its customers, which in turn to improve its profitability. Although competition is keen, we have valuable and long term relationships with our customers as our solid base for development. In order to strengthen our competitiveness, the Directors will cautiously control the risk and enhance the efficiency of the operation.

The Group will develop sales in China. Internet shopping is a prevalent mode of customers in China. It is an advancement of market segment that we will capture in future. The Directors will prudently consider the costs and returns of each investment opportunities with the aim to achieve the best utilization of resources and to maximize the returns to shareholders.

CAPITAL MANAGEMENT

The Group's objectives when managing capital are to ensure that entities in the Group will be able to continue as a going concern while maximising the return to owners through the optimisation of the debt and equity balance. The management reviews the capital structure by considering the cost of capital and the risks associated with each class of capital. In view of this, the company will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debt or the redemption of existing debt as it sees fit and appropriate.

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt/(cash) is calculated as total borrowings (including "current and non-current borrowings" as shown in the consolidated statement of financial position) less cash and cash equivalents. Total capital is calculated as "equity" as shown in the consolidated statement of financial position plus net debt, if any.

EMPLOYEES AND REMUNERATION POLICY

Total staff costs, including Directors' emoluments, amounted to approximately HK\$529,000 for the three months ended 31 December 2014. The Group's remuneration policies were determined with reference to the performance, qualification and experience of individual employee, as well as the results of the Group and the market conditions. The Company adopted a share option scheme on 3 November 2010, under which the Company can grant options to, among others, employees of the Group to subscribe for shares of the Company with a view to rewarding them for their contributions to the Group and giving incentives to them for optimizing their future contributions to the Group.
