Third Quarterly Report

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of China Ocean Fishing Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

2. STATEMENT OF COMPLIANCE (*Continued*)

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss. They are carried at fair value, with any resultant gain and loss recognised in profit or loss.

Financial assets are classified as held for trading if they are (i) acquired principally for the purpose of selling in the near future; (ii) part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or (iii) derivatives that are not financial guarantee contracts or not designated and effective hedging instruments.

Financial assets are designated at initial recognition as at fair value through profit or loss only if (i) the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on a different basis; or (ii) they are part of a group of financial assets and/or financial liabilities that are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management strategy; or (iii) they contain embedded derivatives that would need to be separately recorded.

Where a contract contains one or more embedded derivatives, the entire hybrid contract may be designated as a financial asset at fair value through profit or loss, except where the embedded derivative does not significantly modify the cash flows or it is clear that separation of the embedded derivative is prohibited.

The adoption of the new/revised HKFRSs that are relevant to the Group and effective from the current period had no significant effects on the results and financial position of the Group for the current and prior periods.

MANAGEMENT DISCUSSION AND ANALYSIS

Operational Review

Supply chain management and related services

The supply chain management service is the main focus of the Group. The Group is providing intermediate service between suppliers and customers and it takes advantage of the business networks and resources in order to assist small and medium-sized enterprises in various industries to minimize the overall operation cost. Owing to the solid financial background of the Group and the great demand for supply chain service in mainland China, the Group has established many strategic partnerships with other supply chain companies, so as to undertake the operation of purchase and sales based on the services on import and export trade, logistic, customs clearance and storage.

Money lending business

During the Period, the Group began to explore new opportunities to broaden its source of income and expand the business operations, e.g. the money lending business, in order to generate profits and return for the Group and the shareholders. The Group obtained a money lender license in Hong Kong under the Money Lenders Ordinance through the acquisition of a subsidiary in June 2016. The Group commenced the granting of loans to independent third parties during the Period. At the end of the Period, unsecured loans totaling HK\$97,000,000 were granted to 7 individuals and 3 corporations. Depending on the financial strength of the various lenders, the Group charged interest at rates which varied from 6% to 24% per annum. The Group regularly assessed the recoverability risk of its loan receivables portfolio to ensure that impairment loss, if any, would be made in a timely manner. During the Period, the Group generated interest income of HK\$5,298,000 from its money lending business which resulted in a profit of HK\$4,992,000.

Financial Review

After the completion of the various trading contracts, the revenue for the Group reduced significantly for the Period to approximately HK\$109,500,000 as compared to approximately HK\$1,761,474,000 for the corresponding period in 2015. The Group has continued to develop business relationship with its business partners and potential partners in the PRC in order to increase and explore new sources of income.

The Group experienced substantial decreases in the service fee income from the energy management business, as a result, the Group disposed the energy management business during the Period.

The Group recorded a decrease in gross profit to approximately HK\$8,216,000 in the Period as compared with approximately HK\$9,938,000 in the corresponding period in 2015. The gross profit margin, however, improved from 0.46% in the corresponding period in 2015 to 7.51% in the Period because of the interest income from loans receivables. The Group will continue to control the material costs and explore new business so as to improve the gross profit of the Group.

During the reporting period, administrative expenses from continuing operation incurred by the Group were approximately HK\$33,749,000 (2015: approximately HK\$83,737,000). The major component of the Group's expenses were exchange losses, rent and rates, salaries and payroll. However, the Group recorded a gain on disposal of subsidiaries for the energy management business of approximately HK\$17,129,000 during the Period (2015: loss on disposal of subsidiaries for the lightning electromagnetic pulse business of HK\$4,164,000) from its discontinued operation. Overall, net loss attributable to equity holders of the Company for the Period amounted to approximately HK\$6,066,000 (2015: approximately HK\$88,901,000).

Outlook

With the slow-down in the development of the PRC economy, the Group would try its best endeavour to further explore and enhance its business of supply chain management and broaden its customer base and geographic reach. The Group will continue to work with partners from different sectors to build a national and comprehensive integrated supply chain platform. Meanwhile, the Group will continue to look for opportunities to create shareholders' value through making investments and/or acquiring business or projects that have promising outlooks and prospects, in particular, marine fishing business.

In December 2016, the Group entered into a series of contractual arrangement with the beneficial owner of Shenzhen Jinyutang Fishery Company Limited (深圳市進玉堂漁業有限公司) ("Jinyutang") to obtain effective control of Jinyutang with effective from 1 January 2017. Jinyutang is an investment holding company and operates a small scale fishery trading operation.

Jinyutang entered into a joint venture agreement with Khmer First Investment Holding Group Co., Limited on 20 January 2017 to set up a joint venture company (the "JV Company") to invest in fishing activities in Cambodia. Jinyutang will hold 80% of the issued shares of the JV Company. The capital commitment under this joint venture agreement will be US\$8 million.

Liquidity, financial resources and capital structure

As at 31 December 2016, the Group had total assets of approximately HK\$373,014,000 (31 March 2016: approximately HK\$344,763,000), including bank balances and cash of approximately HK\$3,116,000 (31 March 2016: approximately HK\$7,444,000).

For the Period, the Group financed its operations mainly with its own working capital and there were no general banking facilities. There was no charge on the Group's assets as at 31 December 2016 (31 March 2016: Nil).

As at 31 December 2016, the gearing ratio (defined as the ratio between total bank borrowings and total assets) was zero (31 March 2016: Nil). The Group had no bank borrowings as at 31 December 2016 (31 March 2016: Nil).
