4 Sino-Life Group Limited Annual Report 2017

#### REVIEW

I am pleased to present the results of Sino-Life Group Limited (the "Company") and its subsidiaries (collectively the "Group") for the year ended 31 December 2017 ("Year 2017") on behalf of the Board of Directors (the "Board").

In Year 2017, the Group recorded an increase in revenue of approximately 5.9% over the previous year. In particular, a large part of our revenue was derived from the PRC market while the Taiwan, Hong Kong and Vietnam markets constituted a marginal share. The increase in revenue is mainly due to growth experienced by the Group's funeral services business in Chongging offsetting the slide in businesses outside the PRC. As provision for impairment on inventories and development and formation costs decreased substantially by RMB7,068,000, overall gross profit margin increased substantially from 38.7% in the previous year to 50.4%. In addition, sales, administrative and other operating expenses experienced slight swings, while other income fell by approximately RMB6,019,000 over the previous year. There was no impairment loss on goodwill during the year, while impairment of RMB15,129,000 was recorded for the previous year. As a result of the foregoing, loss attributable to shareholders for Year 2017 was RMB19,334,000, a drop of RMB12,186,000 over the previous year.

#### PROSPECTS

The economy of the PRC market continues to grow and general consumption continues to rise, and as such remains considered by the Group to be the focus of future business development. The Group's management will continue to effectively apply its professional and unique business model to divisions in different regions, and at the same time actively expand our market and seek other regions that have potential and massive business opportunity to extend our business reach and increase market share.

### 回顧

本人謹代表董事會(「董事會」)欣然提呈中 國生命集團有限公司(「本公司」)及其附屬 公司(統稱「本集團」)截至二零一七年十二 月三十一日止年度(「二零一七年度」)之業 績。

在二零一七年度,本集團的收益比對往年 上升約5.9%。其中大部份來自中國大陸市 場,而來自台灣、香港及越南市場只佔輕 微比重。收益增加的主要原因由於本集團 於中國重慶的殯儀服務業務錄得增長,抵 消於中國大陸境外之業務下跌。由於本年 度之存貨減值撥備和開發及成立成本比往 年大幅減少約人民幣7,068,000元,整體毛 利率由去年之38.7%大幅上升至約50.4%。 此外,在銷售、行政和其他經營開支方面 略有增減,而其他收入則比去年減少約人 民幣6,019,000元。本年度的商譽並無減值 虧損而往年則錄得人民幣15,129,000元的減 值。基於上述原因,二零一七年度股東應 佔虧損約為人民幣19,334,000元,比去年 减少約人民幣12.186.000元。

# 展望

中國大陸市場經濟持續增長,整體民生消 費不斷上升,故本集團仍視為未來業務的 發展重點。本集團管理層將繼續以其專業 而獨特的業務模式有效地套用於不同地區 分部,同時亦積極擴充市場和尋找其他具 備潛力及擁有龐大商機的地區,藉此擴展 業務範圍及增加市場份額。

# Chairman's Statement 主席報告

The Group's businesses are relatively concentrated in the PRC market, where the industry of its businesses is rather stable. It is believed that with the rising trend in population aging and mortality rate in the PRC, it is anticipated that there will be growing demand for funeral parlour and funeral services, while there will also be increasingly keen demand for quality funeral related services and dedicated service providers. Accordingly, the Board expects that there is still room for growth for the Group's business in 2018, although the relentless increase in the number of funeral service providers will also put pressure on the Group's performance.

On behalf of the Board of Directors, I would like to thank our management and staff for their efforts over the past year and their contribution to the Group's success in our business operations. I would also like to take this opportunity to express heartfelt thanks to the Company's shareholders and business partners for their support and trust. 集團業務較為集中於中國大陸市場,所處 行業業務較為穩定。相信隨著中國人口老 化及死亡率的上升趨勢,預計中國殯儀館 及殯儀服務的潛在需求將日益增加,同時 對優質殯儀相關服務及更為專業的服務 供應商的需求亦將日趨殷切。故此,董事 預期本集團之業務於二零一八年度仍有上 升空間,惟殯儀服務供應商的數目不斷增 多,對本集團業績亦會帶來一定壓力。

本人謹代表董事會向感謝管理層及員工於 過去一年的辛勤努力及為本集團業務作出 的寶貴貢獻。我們亦藉此機會向本公司股 東及業務合作夥伴長期的支持及信賴致以 衷心感謝。

#### **BUSINESS REVIEW**

In Year 2017, the Group benefited from the growing economy and increasing consumption in the PRC and experienced growth in its business in the PRC over last year. In addition, the performance of markets in other regions varied. Except for the Hong Kong market which achieved favorable growth, the markets in Taiwan and Vietnam recorded a decline. The development of the elderly care services established recently in Taiwan was slower than expected. At the same time, the business in Vietnam was impacted by their funerary customs and did not achieve expected results.

The revenue and performance of the Group's segments for the Year 2017 are as follows:

#### The PRC-Funeral services

Funeral business in the PRC continues to be the driving force of the Group's operations. Revenue derived from funeral business in the PRC market was approximately RMB56,933,000 (2016: RMB53,195,000), representing an increase of approximately 7.0% compared to last year and accounted for approximately 93.8% of the Group's total revenue.

#### Hong Kong-Funeral services

The funeral services in the Hong Kong market generated an approximate revenue of RMB1,012,000 (2016: RMB741,000), representing an increase of approximately 36.6% compared to last year and accounted for approximately 1.7% of the Group's total revenue.

#### Taiwan-Funeral services

The funeral services in the Taiwan market generated an approximate revenue of RMB2,175,000 (2016: RMB1,985,000), representing an increase of approximately 9.6% compared to last year and accounted for approximately 3.6% of the Group's total revenue.

#### Vietnam-Funeral services

Revenue derived from the sales of cemeteries in Vietnam was approximately RMB462,000 (2016: RMB516,000), representing a decrease of approximately 10.5% and accounted for approximately 0.8% of the Group's total revenue.

The revenue increase of the two services described above was mainly due to the increase in the number funeral services provided for the year from 2,027 to 2,183. At the same time, the average spending per service increased from approximately RMB19,319 to approximately RMB19,721 in 2017. The number of additional cremation services provided slightly increased from 9,077 to 9,298 in 2017, while the average spending per service slightly decreased from approximately RMB1,457 to approximately RMB1,354. Under the funeral parlour management agreement and funeral service centre management agreements, the Group is entitled to all income and is responsible for all liabilities and all expenses incurred in the funeral parlour and funeral service centres under the Group's management.

The revenue generated from sales of burial plots and tombstones was approximately RMB462,000 (2016: RMB515,000), representing a decrease of approximately 10.3%. The revenue generated from elderly care and related consultancy services was approximately RMB127,000 (2016: RMB905,000), representing a decrease of approximately 86.0%, which was due to the development not achieving expected results.

# 財務回顧

#### Gross Profit and Gross Profit Margin

Gross profit for the year was approximately RMB30,598,000 (2016: RMB22,193,000), and gross profit margin increased approximately 11.7% to approximately 50.4% (2016: 38.7%). The increase in gross profit margin was mainly due to increase in revenue and decrease in cost of sales. Inventories written-down of approximately RMB245,000 (2016: RMB1,129,000) and the development and formation costs of RMB1,702,000 (2016: RMB7,886,000) decreased significantly over last year, resulting in a significant drop in cost of sales from RMB35,149,000 last year to RMB30,111,000, representing a 14.3% decrease.

The Group's cost of sales primarily consists of costs directly attributable to the provision of its services, which mainly include: (i) direct labour and staff cost for the funeral services provided by individuals during the funeral ceremony held in a funeral parlour or a funeral service centre managed by the Group; (ii) subcontracting charges for services provided by the subcontractors in Taiwan; (iii) commission expenses from the recognition of commission paid to sales agents for funeral services deeds at the point when the services of the funeral services deeds are provided; (iv) the management fee and operating lease charges for hire of funeral parlours and funeral service centres, and (v) materials used for funeral ceremonies and cremation services such as fresh flowers, fuel for the cremation furnace and cost of the goods sold in the funeral parlour and funeral service centres under the Group's management in the PRC.

#### Selling and Administrative Expenses

Selling expenses for the year was approximately RMB6,770,000 (2016: RMB5,841,000), representing an increase of approximately 15.9%, which was mainly due to the increase in commission expenses as a result of the increase of revenue. The proportion of selling expenses to revenue was approximately 11.2% (2016: 10.2%). Administrative expenses was approximately RMB29,016,000 (2016: RMB30,230,000), accounting for approximately 47.8% (2016: 52.7%) of revenue. Administrative expenses decreased by approximately 4% over last year, as a result of continuing the efforts in expense control.

#### 毛利及毛利率

本年度毛利約人民幣30,598,000元(二零一 六年:人民幣22,193,000元),毛利率上升 約11.7%至約50.4%(二零一六年:38.7%)。 毛利率上升主要由於收益增加及銷售成本 下降所致。由於本年度存貨減值約人民幣 245,000元(二零一六年:人民幣1,129,000 元)以及開發及成立成本的減值約人民幣 1,702,000元(二零一六年:人民幣7,886,000 元)均比往年大幅減少,銷售成本由去年 人民幣35,149,000元減少14.3%至約人民幣 30,111,000元。

本集團之銷售成本主要包括提供服務之直 接應佔成本,主要包括(i)個人於本集團管理 之殯儀館或殯儀服務中心舉行的殯儀儀式 上提供殯儀服務之直接勞工及員工成本; (ii)台灣分包商提供服務的分包費用;(iii)於 提供殯儀服務契約的服務時確認支付予殯 儀服務契約銷售代理之佣金所產生之佣金 開支;(iv)租用殯儀館及殯儀服務中心之管 理費及經營租賃費,及(v)殯儀儀式及火化 服務所使用之物料,如鮮花、焚化爐燃料 以及本集團於中國所管理的殯儀館及殯儀 服務中心出售貨品之成本。

#### 銷售及行政開支

本年度銷售開支約人民幣6,770,000元(二 零一六年:人民幣5,841,000元),增加約 15.9%。主要由於收益上升以致佣金開支 增加,銷售開支佔收益的比例約為11.2% (二零一六年:10.2%)。行政開支約人 民幣29,016,000元(二零一六年:人民幣 30,230,000元),佔收益的比例約為47.8% (二零一六年:52.7%)。行政開支比往年減 少約4%,乃因持續控制開支的成果。

Due to the slight increase in impairment and provision, other operating expenses was approximately RMB14,874,000 (2016: RMB10,468,000), representing an increase of approximately 42.1%. Finance costs slightly increased to approximately RMB197,000 (2016: RMB184,000). Income tax expense was mainly incurred by operations in the PRC, which was approximately RMB1,513,000 (2016: RMB1,727,000) for the year parallel to our increased revenue, representing a decrease of approximately RMB214,000 or approximately 12.4%.

#### Impairment of Goodwill

In 2016, the Group completed the acquisition of Bu Lao Lin Limited, a company which provides elderly care services in Taiwan, and provided nursing care services and consultancy services to other service providers in the elderly care market by developing business into the market on the golden-ager through business combination. In accordance with the original plan, the Group has established one day-care centre; however, the result was far lower than what was expected. Moreover, the Group has not completed the process of negotiation for the hire of day-care centres or elderly homes and related acquisition plans. For the above reasons, the management considers the business development in the Taiwan market unsatisfactory. After referencing the business valuation performed by an independent valuer, an approximate RMB15,129,000 impairment allowance was made.

With the impairment allowance made in the 2016 financial year, the carrying amount of goodwill has been significantly lowered. According to the results of business revaluation performed by independent valuers, the Directors are of the opinion that no provision for impairment is necessary for the year.

#### Loss for the year

Loss attributable to owners of the Company for the Year 2017 was approximately RMB19,334,000 (2016: RMB31,520,000). The decrease in loss was mainly due to (i) increase in revenue; (ii) increase in gross profit; and (iii) the absence of impairment on goodwill for the year.

由於減值及撥備稍為增加,其他經營開支 為約人民幣14,874,000元(二零一六年:人 民幣10,468,000元),上升約42.1%。融資 成本略為增加至約人民幣197,000元(二零 一六年:人民幣184,000元)。所得税開支 主要為中國大陸業務所產生,對應收益上 升本年度計提約人民幣1,513,000元(二零一 六年:人民幣1,727,000元),減少約人民幣 214,000元或約12.4%。

#### 商譽減值

經過二零一六年財政年度計提的減值準備 後,商譽的賬面值已大幅降低。經過獨立 估值師重新進行業務估值後所得結果,董 事認為本年度的商譽並無減值需要。

#### 年度虧損

於二零一七年度,本公司擁有人應佔虧損約為人民幣19,334,000元(二零一六年:人民幣31,520,000元)。虧損減少主要原因為(i)收益增加;(ii)毛利上升;及(iii)本年度並無商譽減值所致。

# LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL STRUCTURE

The Group maintains a stable financial position. As at 31 December 2017, the Group had cash and bank balances of approximately RMB98,186,000 (2016: RMB98,550,000), while short and long term bank borrowings were approximately RMB1,059,000 and approximately RMB9,071,000 respectively (2016: RMB1,023,000 and RMB9,959,000). All bank loans were denominated in New Taiwan Dollars, at prevailing market interest. During the year, the Group did not use any financial instruments for hedging purposes. As at 31 December 2017, the gearing ratio representing the ratio of total borrowing to the total assets of the Group remained to be 4.4% (2016: 4.3%), a number reflecting that the Group did not solely depend on loans and borrowings to maintain its operations, thus the Group's lending risk was very low.

# EXPOSURE TO FLUCTUATION IN EXCHANGE RATES

During the year, the Group's major operations were geographically based in the PRC, and diversified across Taiwan, Hong Kong and Vietnam. The revenue derived from Taiwan, Hong Kong and Vietnam only accounted for 6.2% (2016: approximately 7.2%) of the total revenue. The Group's financial statements are denominated in Renminbi, except for certain incomes and expenses which are denominated in United States Dollar, New Taiwan Dollar, Hong Kong Dollar and Vietnamese Dong. It is possible that the value of Renminbi may fluctuate against that of United States Dollar, New Taiwan Dollar, Hong Kong Dollar and Vietnamese Dong. The Group's operating results and financial position may be affected by changes in the exchange rates of Renminbi against United States Dollar, New Taiwan Dollar, Hong Kong Dollar and Vietnamese Dong, in which the Group's revenue and expenses are denominated. As at 31 December 2017, the Group did not have any bank liabilities, foreign exchange contracts, interest or currency swaps or other financial derivatives for hedging purpose. Therefore, the Group is not exposed to any material interest and exchange risks.

for Bau Shan for a term of ten years commencing on 14 March 2003. Ms. Li has agreed that she shall act in the interest of Bau Shan in relation to the Niao Song Property during the term of the Niao Song Deed. On 15 March 2013, a renewal of Niao Song Deed was entered into for a term of ten years commencing on 15 March 2013.

The Group entered into a trust arrangement instead of transferring the Niao Song Property to the Group because, as advised by the Taiwan legal adviser to the Group, the Niao Song Property is a piece of agricultural land and the Law of Agriculture Development of Taiwan does not allow Bau Shan being a private corporate body, to be registered as an owner of a piece of agricultural land. Therefore, the Niao Song Property is held on trust by Ms. Li for Bau Shan. The Taiwan legal adviser to the Group has advised that the Niao Song Deed complies with the Trust Act and other relevant laws and regulations in Taiwan.

#### The key audit matter 關鍵審計事項

The Group held burial plots under development and completed burial plots for sale of RMB5,055,000 and RMB655,000 respectively as at 31 December 2017. These assets are carried at the lower of cost and net realisable value ("NRV"). The cost of these assets may not be recoverable if these assets are aged and damaged, if they have become obsolete, or if their selling prices have declined. For the year ended 31 December 2017, the Group has written down development and formation costs of cemetery assets and inventories (completed burial plots) of RMB1,702,000 and RMB245,000 respectively 貴集團於二零一七年十二月三十一日持有開發中墓地 及已完工待售墓地分別約人民幣5,055,000元及人民幣 655,000元。資產乃按成本與可變現淨值(「可變現淨 值」)之較低者列賬。倘資產已經陳舊、損壞、過時或 售價下跌,則可能無法收回資產成本。截至二零一七 年十二月三十一日止年度, 貴集團分別撇銷墓園資產 開發及成立成本及存貨(已竣工墓地)人民幣1,702,000 元及人民幣245,000元。

Management determines the lower of cost and NRV • of these assets by considering the ageing profile, obsolescence and estimated selling price of individual items taking into account the estimated time of realisation.

管理層釐定該等資產的成本及可變現淨值之較低者時, 會考慮個別項目的庫齡、是否過時和個別項目的預測 售價並計入預計變現時間。

Management calculates the NRV at each period end based on the estimated selling price less selling expenses, which requires significant judgements and assumptions to be made to determine the estimated selling price of individual product, including historical experience of selling products of similar nature and expectation of future sales based on current market conditions. 管理層以其預測售價減去出售開支來計算各期末的可 變現淨值,在釐定個別產品之預測售價時須作出重大 判斷及假設,包括考慮以往出售類似性質產品的經驗 以及按現有市況對未來銷售作出之預測。

We focused on this area due to the estimation of NRV of these assets involves significant judgement and various uncertainties as a result of changing customer demand and competitors actions.

本核數師關注此範疇是鑑於對該等資產的可變現淨值 估計涉及重大判斷,以及客戶需求及競爭者之行為導 致多種不明朗因素。

#### How the matter was addressed in our audit 審計中處理有關事項的方法

Audit approach: 審計方法:

- understood and validated the control procedures performed by management, including its procedures in estimating the NRV of the development and formation costs of cemetery assets and inventories
- 理解和驗證管理層執行的監控程序,包括其 估計墓園資產開發及成立成本的可變現淨值 及存貨的程序
- tested on a sample basis, the NRV of selected items, by comparing the selling price subsequent to the year end, against the carrying values of these individual items
- 以抽樣方式測試選定之可變現淨值,在測試 中將個別項目於年末後的售價與其賬面值作 一比較
- evaluated the Group's sales plan on the realisation of the development and formation costs of cemetery assets and inventories which takes into account costs to completion based on historical results and prevailing market conditions
- 評估 貴集團將墓園資產的開發及成立成本 及存貨變現的銷售計劃,當中已計及根據過 往業績及當前市況得出的完工成本
- assessed the reasonableness of the sales forecasts used in the Group's estimation model by considering actual performance against budget
- 透過將實際表現與預算進行比對,評估 貴 集團估計模型所使用的銷售預測數字

#### Impairment of prepayment for purchase of goods 購買貨物預付款項的減值

Refer to note 2(m) to the accounting policy and financial disclosure in note 22 to the financial statements 請參閱附註2(m)的會計政策及財務報表附註22的財務 資料披露

#### The key audit matter 關鍵審計事項

The Group prepaid to its supplier for purchase of Audit approach: marble stones prior to the delivery of the goods. As at 審計方法: 31 December 2017, the Group had a prepayment for purchase of marble stones of RMB12,080,000, which • is carried at cost less impairment. The prepayment is non-refundable and thus may not be recoverable. For the • year ended 31 December 2017, the Group has further recorded an impairment loss of RMB2,793,000 for this • prepayment.

貴集團就購買大理石於收到貨物前預先向供應商支付 的款項。截至二零一七年十二月三十一日止年度,本集 團擁有用於購買大理石的預付款項人民幣12,080,000 元,乃按成本扣除減值入賬。該預付款項為不可退款 • 款項,因此可能無法收回。截至二零一十年十二月三 十一日止年度,本集團就該預付款項進一步錄得人民 幣2,793,000元之減值虧損。

In determining whether non-refundable prepayments are recoverable, the Group must make judgements over the likely future sales of the tombstones or consider to • dispose the goods at the prevailing market prices taking into account the cost of disposal. Where insufficient sales are forecasted by the Group or the fair value less cost of disposal is lower than the carrying amount, an impairment is recorded.

於釐定不可退款之預付款項是否可收回時, 貴集團 必須就墓碑的可能未來銷售額作出判斷,或於計及出 售成本後考慮以當前市價出售貨品。倘 貴集團所預 測的銷售額不足,或公平值減出售成本低於賬面值, 則記錄一項減值。

This is a significant risk area as there is inherent uncertainty regarding the future sales of tombstones and estimation of the recoverable amount.

重大風險範疇為墓碑的未來銷售及可收回金額的估算 存在固有的不確定因素。

#### How the matter was addressed in our audit 審計中處理有關事項的方法

- evaluated the supplier's capability of providing the goods to the Group
- 已評估供應商向 貴集團提供貨品的能力
- challenged the assumptions underlying the forecasts for future sales by analysing the accuracy of historical estimates of recoverability, and comparing forecasts made in prior periods to actual outcomes
- 已透過分析過往就可收回性所作估計的準確 性,以及將過往期間所作預測與實際結果進 行比對,對未來預測的相關假設提出質疑
- evaluated the appropriateness of the resale values estimated by the management based on market information obtained by the Group 已根據 貴集團可取得的市場資料,評估管 理層所估計的轉售價值是否恰當

#### INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

董事對其他資料負責。其他資料包括年報 內綜合財務報表及就其發出的核數師報告 以外的資料。

本核數師就綜合財務報表發出的意見並不 涵蓋其他資料,本核數師亦不對該等資料 發表任何形式的核證結論。

就綜合財務報表的審計而言,本核數師的 責任為閱讀其他資料,並在過程中考慮其 他資料與綜合財務報表或本核數師於審計 過程中所瞭解的情況是否有重大抵觸,或 是否可能有重大錯誤陳述。

基於本核數師已執行的工作,倘本核數師 認為其他資料存在重大錯誤陳述,本核數 師需要報告有關事實。就此而言,本核數 師並無任何報告。

#### 核數師對綜合財務報表的審計 責任

董事須負責根據香港會計師公會頒佈的香 港財務報告準則及香港《公司條例》的披露 規定編製真實而公平的綜合財務報表,以 及落實其認為屬必要的內部控制,以使所 編製的綜合財務報表不存在由於欺詐或錯 誤而導致的重大錯誤陳述。

於編製綜合財務報表時,董事負責評估 貴集團繼續以持續基準經營的能力, 並在適用情況下披露與以持續基準經營 有關的事項,以及使用持續經營的會計基 礎,惟董事有意將 貴集團清盤或停止經 營,或除此以外別無其他實際的替代方案 則除外。

董事在審核委員會協助下履行彼等監督 貴 集團財務報告流程的職責。

#### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL 責任 **STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- 評估董事所採用會計政策是否恰當, 以及董事所作出的會計估計及相關 披露是否合理。

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement director on the audit resulting in this independent auditor's report is Alvin Yeung Sik Hung.

從與審核委員會溝通的事項中,本核數師 決定對本期綜合財務報表的審計工作最為 重要的事項,而有關事項因而為關鍵審計 事項。除非法律或法規不容許公開披露此 等事項,或於極罕見的情況下,本核數師 認為由於可合理預期披露此等事項的不良 後果將超越公眾知悉此等事項的利益,因 而不應於報告中披露,否則本核數師會於 核數師報告中説明此等事項。

#### (a) Statement of compliance (Continued)

The HKICPA has issued certain new and revised HKFRSs which are first effective or available for early adoption for the current accounting period of the Group. Note 3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

(b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2017 comprise the Company and its subsidiaries.

Items included in the financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The functional currency of the Company is United States dollars ("US\$"). The functional currencies of its subsidiaries are Renminbi ("RMB"), New Taiwan dollars ("NTD"), US\$, Hong Kong dollars ("HK\$") and Vietnamese dong ("VND") for subsidiaries incorporated/established in the People's Republic of China (the "PRC"), Taiwan, Hong Kong and Vietnam respectively. The consolidated financial statements are presented in RMB, rounded to the nearest thousand, except when otherwise indicated, which is different from the functional currency of the Company as majority of the Group's transactions are denominated in RMB.

For the year ended 31 December 2017 截至二零一七年十二月三十一日止年度

## 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

(b) Basis of preparation of the financial statements (Continued)

The measurement basis used in the preparation of the financial statements is the historical cost basis except that the following assets and liabilities are stated at their fair value as explained in the accounting policies set out below:

- investment properties (see note 2(e));
- freehold land and buildings (see note 2(f)); and
- financial assets designated as at fair value through profit or loss (see note 2(h)).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying amounts of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 41.

(b) 編製財務報表之基準(續)

編製財務報表時所使用之計量 基準為歷史成本基準,惟以下 資產與負債乃以其公平值列賬 (誠如下文所載會計政策所闡 釋):

- 投資物業(見附註2(e));
- 永久業權土地及樓宇(見 附註2(f))及;
- 指定為按公平值計入損
  益之財務資產(見附註
  2(h))。

估計及相關假設乃按持續基準 審閱。倘修訂僅影響修訂估計 之期間,則對會計估計之修訂 乃於修訂估計之期間確認,而 倘修訂影響目前及未來期間, 則會於修訂及未來期間確認。

#### 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

(c) Subsidiaries and non-controlling interests Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intragroup transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. (c) 附屬公司及非控股權益 附屬公司為本集團控制之實體。 當本集團承受或享有參與實體 所得的可變回報,且有能力透 過其對實體的權力影響該等回 報時,則本集團控制該實體。 於評估本集團是否擁有有關權 力時,僅會考慮其實質權利(由 本集團及其他方擁有)。

> 非控股權益指並非由本公司直 接或間接擁有之附屬公司權益, 而本集團未有就此與該等權益 持有人達成任何附加條款,致 令本集團整體上對該等權益產 生符合財務負債定義之合約義 務。

## 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

# (c) Subsidiaries and non-controlling interests (Continued)

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income or loss for the year between non-controlling interests and the owners of the Company. Total comprehensive income or loss of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position.

# Changes in the Group's ownership interests in existing subsidiaries

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and noncontrolling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised. (c) 附屬公司及非控股權益 (續)

> 非控股權益會在綜合財務狀況 表之權益中,與本公司擁有人 應佔權益分開呈報。非控股權 益所佔本集團業績之權益則會 在綜合損益及其他全面收益表 中列作為非控股權益與本公司 擁有人之間的本年度總損益及 全面收益或虧損總額分配。即 使其將導致非控股權益出現虧 絀結餘,附屬公司之全面收益 或虧損總額仍劃撥至本公司擁 有人及非控股權益。來自非控 股權益持有人之貸款及對該等 持有人之其他合約責任,於綜 合財務狀況表中呈列為財務負 倩。

#### 本集團於現有附屬公司之擁 有權權益變動

倘本集團於附屬公司之權益出 現變動,但並無導致本集團失 去控制權,則入賬列作權益交 易。控股與非控股權益之金額 於綜合權益內均予以調整,以 反映相關權益之變動,惟不會 對商譽作出調整,亦不會確認 任何盈虧。

## 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

(c) Subsidiaries and non-controlling interests (Continued)

Changes in the Group's ownership interests in existing subsidiaries (Continued)

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2(m)), unless the investment is classified as held for sale (or included in a disposal group that is classified as held for sale).

#### (d) Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred. (c) 附屬公司及非控股權益 (續) 本集團於現有附屬公司之擁 有權權益變動(續)

> 於本公司財務狀況報表中,於 附屬公司之投資按成本減減值 虧損(見附註2(m))列賬,惟投 資分類為持作出售(或計入分類 為持作出售之出售組別)。

### (d) 業務合併

# 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

- (d) Business combinations (Continued) At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value, except that:
  - deferred tax assets or liabilities, and assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Incomes Taxes* and HKAS 19 *Employee Benefits* respectively;
  - liabilities or equity instruments related to share-based payment arrangements of the acquiree or share-based payment arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with HKFRS 2 *Share-based Payment* at the acquisition date; and
  - assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amount of the identifiable assets acquired and the liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

- (d) 業務合併(續) 於收購日期,所收購可識別資 產及所承擔負債按其公平值確 認,惟下列項目除外:
  - 遞延税項資產或負債及與 僱員福利安排有關的負債 或資產分別根據香港會計 準則第12號「所得税」及香 港會計準則第19號「僱員 福利」確認及計量;
  - 與被收購方以股份支付安 排或本集團訂立以股份支 付安排取代被收購方以股 份支付安排有關的負債或 股本工具,於收購日期根 據香港財務報告準則第 2號[以股份支付款項]計 量;及
  - 根據香港財務報告準則第
     5號「持作出售的非流動資 產及已終止經營業務」分 類為持作出售的資產(或 出售組合)根據該項準則 計量。

For the year ended 31 December 2017 截至二零一七年十二月三十一日止年度

# 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

### (d) Business combinations (Continued)

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the relevant subsidiary's net assets in the event of liquidation are initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at their fair value.

Where the consideration transferred by the Group in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisition-date fair value and included as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that gualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments against goodwill. Measurement period adjustments are adjustments that arise from additional information obtained during the "measurement period" (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured to fair value at subsequent reporting dates, with the corresponding gain or loss being recognised in profit or loss. (d) 業務合併(續) 屬現時所有權權益且於清盤時 讓持有人有權按比例分佔相關 附屬公司資產淨值的非控股權 益,初步按公平值或非控股權 益應佔被收購方可識別資產淨 值按面值的已確認金額比例計 量。計量基準視乎每項交易而 作出選擇。其他類別的非控股 權益乃按其公平值。

# 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

### (d) Business combinations (Continued)

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment. (d) 業務合併(續) 倘業務合併分階段達成,本集 團以往所持的被收購方股本權 益於收購日期(即本集團取得控 制權當日)按公平值重新計量, 所產生的盈虧(如有)在損益賬 中確認。倘出售於被收購方權 益,則以往在其他全面收益中 確認的從該等於被收購方的權 益於收購日期前產生的金額重 新分類至損益(如此處理方法 合適)。

# 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

### (d) Business combinations (Continued)

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently whenever there is indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal (or any of the cash-generating unit within group of cash-generating units in which the Group monitors goodwill).

#### (e) Investment property

Investment property is land and/or building which are owned or held under a leasehold interest (see note 2(g)) to earn rental income and/or for capital appreciation. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as investment property.

Investment property is stated in the statement of financial position at fair value, unless they are still in the course of construction or development at the end of the reporting period and their fair value cannot be reliably measured at that time. Any gain or loss arising from a change in fair value or from the retirement or disposal of an investment property is recognised in profit or loss. Rental income from investment property is accounted for as described in note 2(r)(v).

#### (e) Investment property (Continued)

When the Group holds a property interest under an operating lease to earn rental income and/or for capital appreciation, the interest is classified and accounted for as an investment property on a property-by-property basis. Any such property interest which has been classified as an investment property is accounted for as if it were held under a finance lease (see note 2(g)), and the same accounting policies are applied to that interest as are applied to other investment properties leased under finance leases. Lease payments are accounted for as described in note 2(g).

#### (f) Property, plant and equipment

The freehold land and buildings held for own use are stated in the statement of financial position at their revalued amount, being their fair value at the date of the revaluation less any subsequent accumulated depreciation.

Revaluations are performed by qualified valuers with sufficient regularity to ensure that the carrying amount of these assets does not differ materially from that which would be determined using fair values at the end of the reporting period.

The other property, plant and equipment, other than construction in progress, are stated in the statement of financial position at cost less accumulated depreciation and any accumulated impairment losses (see note 2(m)).

(f) Property, plant and equipment (Continued)

Changes arising on the revaluation of properties held for own use are generally dealt with in other comprehensive income and are accumulated separately in equity in the properties revaluation reserve. The only exceptions are as follows:

- when a deficit arises on revaluation, it will be charged to profit or loss to the extent that it exceeds the amount held in the properties revaluation reserve in respect of that same asset immediately prior to the revaluation; and
- when a surplus arises on revaluation, it will be credited to profit or loss to the extent that a deficit on revaluation in respect of that same asset had previously been charged to profit or loss.

Depreciation is calculated to write off the cost or valuation of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

- freehold land is not depreciated;
- buildings situated on freehold land are depreciated over their estimated useful life, being no more than 50 years after the date of completion;

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are recognised in profit or loss during the reporting period in which they are incurred.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net proceeds on disposal and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal. Any related revaluation surplus is transferred from the properties revaluation reserve to accumulated losses and is not reclassified to profit or loss.

Properties, plant and equipment in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other assets, commences when the assets are ready for their intended use.

(f) Property, plant and equipment (Continued)

The Group transfers a property from property, plant and equipment to investment property when there is a change in use to hold the property to earn rentals or land for capital appreciation rather than for own use in the ordinary course of business, which is evidenced by the commencement of an operation lease to another party. The Group accounts for such property in accordance with the policy stated under "Property, plant and equipment" up to the date of change in use.

(g) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

(i) Classification of assets leased to the Group

For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee.

#### (ii) Operating lease charges

Where the Group has the use of assets under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged as expenses in the accounting period in which they are incurred.

The cost of acquiring land held under an operating lease is amortised on a straightline basis over the period of the lease term except where the property is classified as an investment property (see note 2(e)).

#### (g) Leased assets (Continued) (iii) Leasehold land for own use

When the Group makes payments for a property interest which includes both leasehold land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is accounted as an operating lease. Specifically, the entire consideration (including any lumpsum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis except for those that are classified and accounted for as investment property under the fair value model. When the lease payments cannot be allocated reliably between the leasehold land and the building elements, the entire property is generally classified as if the leasehold land is under finance lease.

### (h) Financial instruments

Financial assets and financial liabilities are recognised when the Group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

#### Financial assets

Financial assets are classified into the following specified categories: financial assets "at fair value through profit or loss" ("FVTPL"), "loans and receivables". The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

#### Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

### Financial assets at FVTPL

Financial assets are classified as at FVTPL when the financial asset is either held for trading or it is designated as at FVTPL.

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial asset other than a financial asset held for trading may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or

AFS financial assets are non-derivatives that are either designated as available-for-sale or are not classified as (a) loans and receivables, (b) held-tomaturity investments or (c) financial assets at FVTPL. The Group designated certain items as AFS financial assets on initial recognition of financial assets at FVTPL.

Equity and debt securities held by the Group that are classified as AFS financial assets and are traded in an active market are measured at fair value at the end of each reporting period. Changes in the carrying amount of AFS monetary financial assets relating to interest income calculated using the effective interest method and dividends on AFS equity investments are recognised in profit or loss. Other changes in the carrying amount of AFS financial assets are recognised in other comprehensive income and accumulated under the heading of investments revaluation reserve. AFS equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity investments are measured at cost less any identified impairment losses at the end of each reporting period.

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables, cash and bank balances) are measured at amortised cost using the effective interest method, less any impairment, except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less any impairment.

Interest income is recognised by applying the effective interest rate, except for short-term receivables where the recognition of interest would be immaterial.

  - the amount initially recognised less, where appropriate, cumulative amortisation recognised in accordance with the revenue recognition policies.

#### Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group continues to recognise the asset to the extent of its continuing involvement and recognises an associated liability. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss. On derecognition of a financial asset other than in its entirety, the Group allocates the previous carrying amount of the financial asset between the part it continues to recognise, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that no longer recognised on the basis of the relative fair values of those parts.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

#### (i) Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses (see note 2(m)). Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

### (i) Intangible assets (Continued)

The following intangible assets with finite useful lives are amortised from the date they are available for use and their estimated useful lives are as follows:

– trademark	5	to	10	years
-------------	---	----	----	-------

- computer system 2 to 2.5 years

#### Derecognition of intangible assets

An intangible asset is derecognition on disposal, or when no future economic benefits are expected from use or disposal.

Gains and losses arising from derecognised of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

#### (j) Development and formation costs

The development and formation costs represent development costs incurred for a cemetery site which will be completed for sale and are stated at the lower of cost and net realisable value.

The development costs comprise specifically identified cost, including the acquisition cost of land, aggregate cost of development, materials and supplies, wages and other direct expenses, an appropriate proportion of overheads and borrowing costs capitalised (see note 2(t)). Net realisable value represents the estimated selling price less estimated costs of completion and costs to be incurred in selling the burial plots.

- (i) 無形資產(續) 以下可使用年期有限之無形資 產乃自可使用日期起按以下估 計可使用年期攤銷:
  - 商標 5至10年
  - 電腦系統 2至2.5年

#### 取消確認無形資產

無形資產於出售,或預計不會 自使用或出售產生未來經濟利 益時取消確認。

因取消確認無形資產而產生的 盈虧,乃按出售所得款項淨額 與該項資產賬面值之間的差額 計量,並於有關資產取消確認 時在損益內確認。

### (j) 開發及成立成本 開發及成立成本指於將完成待 出售之墓園產生之開發成本並 按成本及可變現淨值兩者中之 較低者列賬。

開發成本包括特別指定成本, 包括收購土地成本、開發、材 料及供應之成本總額、工資及 其他直接開支、適當比例之間 接費用及撥充資本之借貸成本 (見附註2(t))。可變現淨值指估 計銷售價格減估計完成成本及 銷售墓地所產生之成本。

## 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

### (k) Inventories

Inventories are carried at the lower of cost and net realisable value.

Cost of merchandises for resale and marble stones is calculated using the weighted average cost formula and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Cost of burial plots developed for sale is determined by an apportionment of the total development costs (see note 2(j)) attributable to completed but unsold units.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the writedown or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

#### (I) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the consolidated statement of cash flows. (k) 存貨 存貨乃以成本與可變現淨值兩 者中之較低者列賬。

> 轉售貨品及大理石之成本以加 權平均成本法計算,並包括所 有採購成本、兑換成本及將存 貨運至現址及變成現狀之其他 成本。

> 發展墓地以供銷售之成本釐定 為已落成惟未售出單位應佔總 發展成本(見附註2(j))之份額。

> 可變現淨值乃按正常業務過程 中之估計售價減估計完成成本 及估計銷售所需之成本。

(1) 現金及現金等價物 現金及現金等價物指銀行及手 頭現金、存於銀行及其他金融 機構之活期存款,以及可隨時 轉換為已知金額現金且沒有重 大價值變動風險之短期及高流 通量投資,而於購入後三個月 內到期。就綜合現金流量表而 言,按要求償還及構成本集團 現金管理一個不可或缺部分之 銀行透支亦列入現金及現金等 價物部分。

### (m) Impairment of assets

- (i) Impairment of other receivables Investments in equity securities and other current and non-current receivables that are stated at cost or amortised cost are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:
  - significant financial difficulty of the debtor;
  - a breach of contract, such as a default or delinquency in interest or principal payments;
  - it becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
  - significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor.

#### (m) 資產減值

- (i) 其他應收款項之減值 按成本或攤銷成本列賬 之股本證券投資及其他流 動及非流動應收款項會於 各報告期末進行檢討,以 釐定有否存在客觀減值證 據。減值之客觀證據包括 本集團發覺到之有關以下 之一項或以上虧損事件之 可觀察數據:
  - 債務人出現重大財
     務困難;
  - 違反合約,如欠交 或拖欠利息或本金 付款;
  - 債務人可能破產或 進行其他財務重組;
     及
  - 技術、市場、經濟 或法律環境發生對 債務人有不利影響 之重大變動。

- (m) Impairment of assets (Continued)
  - *(i) Impairment of other receivables (Continued)*

If any such evidence exists, any impairment loss is determined and recognised as follows:

For trade receivables and other receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (that is the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective group.

> If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

- (m) Impairment of assets (Continued)
  - *(i) Impairment of other receivables (Continued)*

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade receivables and other receivables included within trade and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade receivables and other receivables directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account are reversed against the allowance account. Other changes in the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

(m) 資產減值(續)

(i) 其他應收款項之減值 (續)

減值虧損應從相應之資 產中直接撇銷,惟計入貿 易及其他應收款項中、可 收回性被視為可疑但並非 微乎其微之應收貿易賬款 及其他應收款項之已確 認減值虧損除外。在該情 況下,呆賬之減值虧損以 撥備賬記錄。倘本集團信 納能收回應收款項之機會 甚微,則被視為不可收回 之金額會從應收貿易賬款 及其他應收款項中直接撇 銷,而在撥備賬中持有有 關該債務之任何金額會被 撥回。倘過往計入撥備賬 之款項在其後收回,則相 關撥備會被撥回。撥備賬 之其他變動及過往直接撇 銷而其後收回之款項,均 直接在損益中確認。

#### (m) Impairment of assets (Continued) (ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment (other than properties carried at revalued amounts);
- prepaid lease payments;
- intangible assets;
- goodwill;
- deposits and prepayments; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, intangible assets that are not yet available for use and intangible assets that have indefinite useful lives, the recoverable amount is estimated annually whether or not there is any indication of impairment.

- (m) 資產減值(續)
  - (ii) 其他資產減值 於每個呈報期末審閱內部 及外部資料來源,以識別 是否有跡象顯示以下資產 可能出現減值,或先前確 認之減值虧損不再存在或 可能已減少:
    - 物業、廠房及設備 (按經重估金額列賬 之物業除外);
    - 預付租賃付款;
    - 無形資產;
    - 商譽;
    - 按金及預付款項;及
    - 載於本公司財務狀 況表之附屬公司投 資。

如出現任何上述跡象,則 估計資產可收回金額。此 外,就商譽、未可供使用 的無形資產及具有不確定 限期可用限期的無形資產 而言,其可收回金額會每 年進行評估(無論是否存 在任何減值跡象)。

# 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

- (m) Impairment of assets (Continued)
  - (ii) Impairment of other assets (Continued)
    - Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (that is a cashgenerating unit).

- Recognition of impairment losses

An impairment loss is recognised in profit or loss whenever the carrying amount of an asset, or the cashgenerating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying amount of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

- (m) 資產減值(續)
   (ii) 其他資產減值(續)
  - 可收回金額之計
     算

資產的可收回金額 乃其公平值減銷售 成本與其使用價值 兩者中之較高者。 在評估使用價值 時,估計未來現金 流量會按可以反映 當時市場對貨幣時 間價值及資產特定 風險的評估之税前 貼現率,貼現至其 現值。倘資產並不 產生基本上獨立於 其他資產之現金流 入,則就能獨立產 生現金流入之最小 資產組別(即現金產 生單位)釐定可收回 余額。

- 減值虧損之確認

倘資產或其所屬現 金產生單位之賬面 值超過其可收回金 額,則於損益中確 認減值虧損。就現 金產生單位確認之 減值虧損,會首先 分配以按比例減少 該單位(或該單位組 別)內其他資產之 賬面值,惟資產之 賬面金額不會減至 低於其本身之公平 值減去出售成本(如 可計量)或使用價值 (如能確定)。

## 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

- (m) Impairment of assets (Continued)
   (ii) Impairment of other assets (Continued)
  - Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

# *(iii) Interim financial reporting and impairment*

Under the GEM Listing Rules, the Group is required to prepare an interim financial report in compliance with HKAS 34, *Interim Financial Reporting*, every three months. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year (see notes 2(m)(i) and (ii)).

Impairment losses recognised in an interim period in respect of goodwill are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

於中期內就商譽確認之減 值虧損並不於其後期間撥 回。倘於中期相關之財政 年度完結時方評估減值, 此時即使不用確認虧損或 確認較少虧損時,亦不會 撥回減值虧損。

### (n) Employee benefits

*(i) Short term employee benefits and contributions to defined contribution retirement plans* 

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of nonmonetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

#### (ii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

### (o) Share-based payments

Share options granted to employees (i) The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in the sharebased compensation reserve within equity. The fair value is measured at grant date using the Binomial Option Pricing model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the share options, the total estimated fair value of the share options is spread over the vesting period, taking into account the probability that the options will vest.

- (o) Share-based payments (Continued)
  - *(i) Share options granted to employees (Continued)*

During the vesting period, the number of share options expected to vest is reviewed. Any resulting adjustment to the cumulative fair value recognised in prior years is charged/ credited to the profit or loss for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the share-based compensation reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of share options that vest (with a corresponding adjustment to the sharebased compensation reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the share-based compensation reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to accumulated losses).

(ii) Share options granted to consultants Share options issued in exchange for services are measured at the fair values of the services received, unless that fair value cannot be reliably measured, in which case the services received are measured by reference to the fair value of the share options granted. The fair values of the services received are recognised as expenses, with a corresponding increase in equity (share-based compensation reserve), when the counterparties render services, unless the services qualify for recognition as assets.

### (p) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided that those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

(p) 所得税

本年度所得税包括即期税項和 遞延税項資產及負債的變動。 即期税項和遞延税項資產及負 債的變動均在損益中確認,倘 與於其他全面收益或直接於權 益中確認的項目相關,在此情 況下,其相關税項金額分別在 其他全面收益或直接在權益中 確認。

即期税項是按本年度應課税收 入,根據在報告期末已生效或 實質上已生效的税率計算的預 期應付税項,加上以往年度應 付税項的任何調整。

遞延税項資產及負債分別由可 抵扣及應課税暫時差異產生。 暫時差異是指資產及負債在就 財務申報而言的賬面值與彼 育的税基的差異。遞延税項資產 亦可以由未利用税項虧損和未 利用税項抵減產生。

除了某些有限的例外情況外,所 有遞延税項負債和所有遞延税 項資產(只限於很可能獲得能利 用該遞延税項資產來抵扣的未 來應課税溢利)均會確認。支持 確認由可抵扣暫時差異所產生 遞延税項資產的未來應課税溢 利包括因撥回目前存在的應課 税暫時差異而產生的數額;但這 些撥回的差異必須與同一税務 機關和同一應課税實體有關, 並預期在可抵扣暫時差異預計 撥回的同一期間或遞延税項資 產所產生税項虧損可向後期或 向前期結轉的期間內撥回。在 決定目前存在的應課税暫時差 異是否足以支持確認由未利用 税項虧損和抵減所產生的遞延 税項資產時,亦會採用同一準 則,即差異是否與同一税務機 關和同一應課税實體有關,以 及是否預期在能夠使用未利用 税項虧損或抵減撥回的同一期 間內轉回。

For the year ended 31 December 2017 截至二零一七年十二月三十一日止年度

# 2. SIGNIFICANT ACCOUNTING POLICIES 2. 主要會計政策(續) (Continued)

#### (p) Income tax (Continued)

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

Where investment properties are carried at their fair value in accordance with the accounting policy set out in note 2(e), the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying value at the reporting date unless the property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodies in the property over time, rather than through sale. In all other cases, the amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

### (p) Income tax (Continued)

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

#### (q) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation. (p) 所得税(續)

#### (c) Fair value measurement of properties (i) Fair value hierarchy

The following table presents the fair value of the Group's properties measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair Value Measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs, that is, unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs, that is, observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available

#### (c) 物業之公平值計量 (i) 公平值層級

下表呈列於報告期末按經 常性基準計量的本集團物 業的公平值,歸類為香港 財務報告準則第13號公平 值計量定義的三級公平值 層級。公平值計量歸類的 層級經參考估值技術中使 用的輸入值的可觀察性及 重要性釐定如下:

- 第一層估值:只以第 一層輸入值計量公 平值,即相同資產 或負債於計量日在 活躍市場的未調整 報價
- 第二層估值:以第二 層輸入值(而非重要 之不可觀察輸入值) 計量公平值,即 輸入值之可觀察位 並未如第一層輸入 值為並無市場數據 可作參考之輸入值

The Group's investment property was revalued as at 31 December 2017. The valuations for the year ended 31 December 2017 and 2016 were carried out by an independent firm of surveyors, APAC Asset Valuation and Consulting Limited, an independent firm of chartered surveyors with recent experience in the location and category of property being valued. The Group's directors have discussed with the surveyors on the valuation assumptions and valuation results when the valuation is performed at each interim and annual reporting date.

As refer to note 39, the Group obtained control of BLL through the acquisition of 100% equity voting interest in BLL which is engaged in provision of elderly care and related consultancy services. The primary reason for the business combination is to enable the Group to develop the business for the golden-ager and further penetrate the elderly care market through (a) provision of nursery services to the elderly and (b) consultancy services to other service providers in the elderly care market by means of:

- (i) establishment and/or hire of day-care centres; and
- (ii) establishment and/or hire of elderly homes; and
- (iii) provision of on-site nursery service at elderly's premises.

誠如附註39所述,本集團透過收購 取得從事提供護老及相關諮詢服務 的不老林之控制權。進行有關業務 合併的主要理由是通過(a)向長者提 供看護服務及(b)向護老市場其他服 務提供商提供諮詢服務讓本集團開 發銀髮族業務,以及透過下列方式 進一步進入護老業務市場:

- (i) 設立及/或租用日間護理中心; 及
- (ii) 設立及/或租用安老院;及
- (iii) 於長者護理院舍提供在場服務。

According to the plan, a day-care centre was completed and started operation in June 2016. However, the Group only generated consulting services income of approximately RMB127,000 (2016: RMB905,000) during the year ended 31 December 2017, and which is far beyond the Group's expectation. On the other hand, the Group has started the negotiation with various owners of elderly home and day-care centres. However, the negotiation was still in progress and the Group foresees that longer time is required to conclude the negotiation and to enter into the service contracts, and such timing is still uncertain.

Due to the unexpectedly low income generated from day-care centre and delay in the time required for the establishment and/or hire of elderly home, the management revised the business plan and forecast which led to the impairment.

#### Impairment tests for cash-generating units containing goodwill

The carrying amount of goodwill was allocated to a cashgenerating unit ("CGU") as follows:

根據上述計劃,本集團已於二零一 六年六月建成並開設一間日間護理 中心。惟截至二零一七年十二月三十 一日止年度僅錄得約人民幣127,000元 (二零一六年:人民幣905,000元)之收 入, 遠低於預期。另一方面, 本集團 已與不同安老院及日間護理中心擁有 者展開磋商。然而由於溢利分攤及租 用費用未能達成一致而仍處於磋商 階段。本集團預計,完成磋商及訂立 服務合約需時更長。

由於日間護理中心所產生收入低於預 期,及設立及/或相用安老院需時延 長,管理層已修訂導致減值之計劃及 預測。

The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements, and the expected market development. The long term growth rates used are consistent with the industry growth rates. The discount rates used are pre-tax and reflect specific risks relating to the business.

The recoverable amount of the elderly care and related consultancy services business CGU was based on its value in use and was determined with the assistance of APAC Asset Valuation and Consulting Limited, an independent professional qualified valuer not connected with the Group. Both the management and the valuer observe and refer to HKAS 36 Impairment of Assets when estimating the value in use of the CGU involves estimating the future cash inflows and outflows to be derived from continuing use of the CGU in its current condition and applying the appropriate discount rate to those future cash flows. Accordingly, the management and the valuer consider the future cash flows from the provision of consultancy services to other service providers only for the purpose of impairment assessment.

The value-in-use calculations use pre-tax cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below. The growth rate does not exceed the long-term average growth rate for the business in which the CGU operates.

During the year ended 31 December 2017, the Group recognised an impairment loss of RMB Nil (2016: RMB15,129,000) for the goodwill allocated to the segment of elderly care and related consultancy services.

- Bau Shan and Sino-Life (Hong Kong) Limited ("Sino-Life (a)(HK)"), subsidiaries of the Company, sold funeral services deeds to customers ("Deed Holders"). The funeral services deeds are prepaid funeral services packages which mainly comprise particular types of funeral services at the choice of the customers to be arranged in future. The Deed Holders can elect to make payment on a lump sum basis or settle the outstanding amount of the funeral services deeds by up to a maximum of 120 monthly instalments. The Group determines the pricing of the funeral services deeds by adding a margin to the estimated costs of delivering these services, after having taking into account of major factors including the timing of the instruction of the Deed Holders. Amounts received from funeral services deeds sold are recorded as receipts in advance. When the Deed Holders have defaulted payment for two months and do not pay back the defaulted amounts after the Group's not less than 30-day's demand notice, the funeral services deeds would be regarded as lapsed and a minimum of 20% of the total sum of the funeral services deeds or the instalments paid, whichever is lower, will be forfeited as income. The Deed Holders can request for funeral services or terminate the funeral services deeds at any time after the funeral services deeds are sold. Accordingly, receipts in advance is classified as current liabilities in the consolidated statement of financial position.

As all of the Group's foreign-invested enterprises in the PRC are directly and wholly owned by Hong Kong incorporated subsidiaries, a rate of 5% is applicable to the calculation of this withholding tax. Deferred taxation has not been provided for in the consolidated financial statements in respect of the tax that would be payable on the distribution of the retained profits of RMB5,731,000 (2016: RMB3,373,000) as the Company controls the dividend policy of these subsidiaries and it has been determined that it is probable that these profits will not be distributed in the foreseeable future.

The Group determines the pricing of the funeral services deeds by adding a margin to the estimated cost of delivering funeral services in future, after taking into account of major factors including the timing of the instruction of the Deed Holders.

This estimate is based on the sub-contracting fee payable to the sub-contractor for each funeral service deed performed, the current market conditions and the price of deeds. Management reassesses these estimates at the end of each reporting period to estimate if the receipts in advance for funeral service deeds can cover the estimated future costs of delivering funeral services and determine the need of making a provision in the consolidated financial statements. 本集團經考慮主要因素(包括契約持 有人之指示時間)後,透過對於未來 提供殯儀服務之估計成本加上邊際 利潤,從而釐定殯儀服務契約之價 格。

### 32. FINANCIAL RISK MANAGEMENT 32. 財務風隙 AND FAIR VALUES OF FINANCIAL 公平值 INSTRUMENTS

The Group has exposure to the credit risk, liquidity risk and market risk arising from financial instruments. The Group's exposure to these risks and the financial risk management policies and practices used by the Group to manage these risk are described below.

### (a) Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

(i) In respect of trade receivables from funeral services, the credit risk is relatively low as the receivable for each individual customer is not significant and the Group generally offer credit period of 45 days to customers. The Group does not obtain collateral in respect of its financial assets. 32. 財務風險管理及財務工具之 公平值

> 與本集團之財務工具有關之風險包 括信貸風險、流動資金風險及市場風 險。下文載述本集團所面臨風險及本 集團就管理該等風險所採取之財務 管理政策及措施。

### (a) 信貸風險 信貸風險指交易對方將違反其 合約責任而導致本集團出現財 務損失之風險。本集團已採納 一套僅與具信譽交易對方交易 及獲得充足抵押品之政策(如適 用),作為減輕因違約帶來之財 務損失風險。

(i) 就殯儀服務之應收貿易 賬款而言,由於應收各個 別服務客戶之款項並不重 大,且本集團一般向客戶 提供45日之信貸期,故信 貸風險相對較低。本集團 並無就其財務資產獲得抵 押品。

### 32. FINANCIAL RISK MANAGEMENT 32. 財務風險管理及財務工具之 AND FAIR VALUES OF FINANCIAL 公平值(續) INSTRUMENTS (Continued)

### (a) Credit risk (Continued)

(ii) In respect of other receivables, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each debtor. At the end of the reporting period, the Group had certain concentrations of credit risk as 40% (2016: 22%) and nil (2016: 27%) of the total loans and receivables (excluding cash and cash equivalents) are due from a funeral parlour and a representative of a funeral parlour respectively.

In order to minimise risk, the management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis. Ongoing credit evaluation is performed on the financial condition of customers. These evaluations focus on the debtor's current ability to pay, and take into account information specific to the debtor as well as pertaining to the economic environment in which the debtor operates. The Group does not require collateral in respect of its financial assets.

(iii) The majority of the Group's investments are financial assets designated as at FVTPL which include mutual funds and unit trusts established in Taiwan. Given the high credit standing of investment counterparties, management does not expect any investment counterparties to fail to meet their obligations.

- (a) 信貸風險(續)
  - (ii) 就其他應收賬款而言,本 集團面對之信貸風險主 要受各債務人之個別情況 影響。於報告期末,本集 團就貸款及應收款項總額 (不包括現金及現金等價 物)之40%(二零一六年: 22%)及無(二零一六年: 27%)分別為應收一間殯 儀館及一名殯儀館代表款 項,而具有若干集中信貸 風險。

為盡量減低風險,管理層 已制定信貸政策及所承受 之該等信貸風險並持續監 察許估乃持續進行。該等 算估集中債務人目前之 業能力,並兼顧債務人時 定資環境之資料。本集團 並無要求就其財務資產提 供抵押品。

(iii) 本集團大部分投資為指定 為按公平值計入損益之財 務資產,包括於台灣設立 的互惠基金及單位信託基 金。鑑於投資對手方具有 高信貸評級,管理層並不 預期有任何投資對手方會 無法履行彼等之責任。

### 32. FINANCIAL RISK MANAGEMENT 32. 財務風險管理及財務工具之 AND FAIR VALUES OF FINANCIAL 公平值(續) INSTRUMENTS (Continued)

### (c) Interest rate risk (Continued) (ii) Sensitivity analysis (Continued)

At 31 December 2017, it is estimated that a general increase/decrease of 100 basis points in interest rates for variable-rate borrowings, with all other variables held constant, would have increased/decreased the Group's loss after tax and accumulated losses by approximately RMB84,000 (2016: RMB91,000). Other components of consolidated equity would not change in response to the general increase/decrease in interest rates.

The sensitivity analyses above have been determined based on the exposure to interest rates at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period were outstanding for the whole year. A 100 basis points (2016: 100 basis points) increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates. The analysis is performed on the same basis for 2016.

### (d) Currency risk

The Group currently does not have a foreign currency hedging policy. However, the Executive Directors monitor the Group's foreign currency exposures and will consider hedging significant foreign currency exposures should the need arises.

### (i) Exposure to currency risk

10

The Group is exposed to currency risk primarily through bank deposit denominated in a foreign currency that is a currency other than the functional currency of the operations to which they relate. The currency giving rise to this risk is USD, RMB and HK\$. The Group's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot values when necessary to address short-term imbalances.

# (c) 利率風險(續)*(ii) 敏感度分析(續)*

於二零一七年十二月三十 一日,倘浮息借款之利率 整體上升下降100個基點, 而所有其他變數維持不 變,則估計本集團之除税 後虧損將增加減少約人民 幣84,000元(二零一六年: 人民幣91,000元)。其他綜 合權益部份不會因整體利 率上升下降而出現變動。

上述敏感度分析乃根據報 告期末所面對之利率風險 釐定。編製分析時假設於 報告期末未平倉之財務工 具於整個年度均未平倉。 於向主要管理人員內部報 告利率風險時使用增減 100個基點(二零一六年: 100個基點)作出,其為管 理層所評估利率可能出現 之合理變動。於二零一六 年乃使用相同基準進行分 析。

The Group has a team headed by the financial controller performing valuations for the financial instruments. The team reports directly to the Executive Directors and the audit committee. A valuation report with analysis of changes in fair value measurement is prepared by the team at each interim and annual reporting date, and is reviewed and approved by the Executive Directors. (k) Fair value of share options and assumptions (Continued)

#### (ii) Granted to consultants

The fair value for share options granted is measured using the market-based approach, by reference to the discounted cash flows to estimate the fair value of the professional fees that should have been paid. The value was developed by discounting future cash flows from the services to be provided by the consultants, taking into account the uniqueness of the services provided by the consultants, the historical monthly payments to similar services provided by the consultants and the service period, along with other out of pocket expenses.

Up to 31 December 2017, 41,900,000 share options under the Share Option Scheme are granted by the Company to the consultants of the Group which entitles the holder thereof to subscribe for an aggregate of 41,900,000 ordinary shares of HK\$0.1 each in the capital of the Company with an exercise price of HK\$1.18 per share during the exercisable period from 11 August 2010 to 11 February 2020.

### **39. BUSINESS COMBINATION**

On 25 March 2016, the Group obtained control of BLL through the acquisition of 100% voting equity interest in BLL, a company engaged in provision of elderly care and related consultancy services, for a consideration of NTD92,000,000 (equivalent to approximately RMB18,505,000). The primary reason for the business combination is to enable the Group to develop the business for the golden-ager and further penetrate the elderly care business market which leads to a vertical expansion of the Group's existing business.

From the date of acquisition to 31 December 2016, BLL contributed revenue and loss of RMB905,000 and RMB730,000 (before impairment of goodwill of RMB15,129,000), respectively, to the revenue and loss of the Group for the year ended 31 December 2016.

Had the business combination been effected at 1 January 2016, the revenue of the Group from continuing operations and loss for the year would have been RMB57,342,000 and RMB34,661,000 respectively. The directors consider these 'pro-forma' numbers to represent an approximate measure of the performance of the combined group on an annualised basis and to provide a reference point for comparison in future periods.

### 41. ACCOUNTING JUDGEMENTS AND 41. 會計判斷及估計 ESTIMATES

- (a) Critical accounting judgements in applying the Group's accounting policies
  - *(i) Consolidation of an entity in which the Group does not hold any equity interests*

The Group does not hold any ownership interests in the entity, HLV Duc Hoa. However, based on the terms of the contract under which HLV Duc Hoa was established and controlled by the Group, the Group receives substantially all of the variable returns related to involvement in HLV Duc Hoa's operations and net assets and has the ability to direct HLV Duc Hoa's activities that most significantly affect those returns. The directors of the Company considered that the Group has maintained de facto control in HLV Duc Hoa and the Group continues to report it as a subsidiary.

### *(ii) Revenue recognition for sale of burial plots under instalment plans*

The Group enters into contracts with its customers in Vietnam for sales of burial plots under which customers are allowed to settle the contract amount by interest-free instalments.

The Group recognises revenue from the sale of burial plots when risks and rewards of ownership of burial plots transferred, i.e. the contract is signed by the customers, the burial plots are delivered, and collectability of the contract sum is reasonably assured. Before a significant amount of the contract sum has been collected and the burial plots are delivered, the Group does not recognise it as revenue. At this stage, the Group records all payments received as "receipts in advance". When significant amount of the contract sum has been collected and the burial plots are delivered, the Group records the full contract sum as revenue and any unsettled contract sum is recognised as receivables.

- (a) Critical accounting judgements in applying the Group's accounting policies (Continued)
  - *(ii) Revenue recognition for sale of burial plots under instalment plans (Continued)*

The directors exercise significant judgement in evaluation whether revenue recognition criteria are met. In their evaluation, the possibility of terminating such transactions due to non-payment by customers, are taken into account after considering the local industry practice. The directors concluded that when 20% of the total contract sums in relation to sales of burial plots is received and the burial plots were delivered, the collectability of the remaining contract sum is reasonably assured, sales is recognised to profit or loss.

During the year ended 31 December 2017, the amounts of revenue recognised from the sale of burial plots amounted to RMB334,000 (2016: RMB425,000).

As at 31 December 2017, the receipts in advance in relation to sale of burial plots before sales are recognised as revenue amounted to RMB2,128,000 (2016: RMB2,128,000).

### 41. ACCOUNTING JUDGEMENTS AND 41. 會計判斷及估計(續) ESTIMATES (Continued)

#### (b) Key sources of estimation uncertainty The following are the key assumptions concerning the future, and other key sources of estimation

uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

(i) Impairment of non-financial assets (including property, plant and equipment, prepaid lease payments, intangible assets, goodwill, deposits ad prepayments)

The Group assesses whether there are any indicators of impairment for all nonfinancial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

- (b) 估計不明朗因素之主要來源 以下為涉及未來之若干主要假 設以及於報告期末涉及重大風 險可能導致下個財政年度之資 產與負債之賬面值須作大幅調 整之估計不明朗因素之其他主 要來源。
  - 非财務資產的減值(包 (i) 括物業、廠房及設備、 預付租賃款項、無形資 產、商譽、按金及預付 款項) 本集團於各報告期末評估 所有非財務資產是否存在 任何減值跡象。倘非財務 資產賬面值有不可收回跡 象,則對有關資產進行減 值測試。資產或現金產生 單位 之 賬 面 值 招 谕 其 可 收回金額(即其公平值減 出售成本與其使用價值中 之較高者)時,即出現減 值。公平值減出售成本乃 按類似資產以公平交易方 式從具法律約束力之銷售 交易中可獲得數據、或可 觀察市價減出售資產之增 量成本計算。計算使用價 值時,管理層必須估計資 產或現金產生單位之預期 未來現金流,並選擇合適 的貼現率以計算該等現金 流之現值。

### 41. ACCOUNTING JUDGEMENTS AND 41. 會計判斷及估計(續) ESTIMATES (Continued)

- (b) Key sources of estimation uncertainty (Continued)
  - (ii) Estimated impairment of receivables When there is objective evidence of impairment loss, the Group takes into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition, where applicable). Where the actual future cash flows are less than expected or being revised downward due to changes in facts and circumstances, a material impairment loss/further impairment loss may arise. As at 31 December 2017, the carrying amount of loans and receivables included in trade and other receivables are RMB3,030,000, (net of allowance for doubtful debts of RMB4,650,000 (2016: carrying amount of RMB4,547,000, net of allowance for doubtful debts of RMB291,000).
- (b) 估計不明朗因素之主要來源 (續)

### 41. ACCOUNTING JUDGEMENTS AND 41. 會計判斷及估計(續) ESTIMATES (Continued)

(b) Key sources of estimation uncertainty (Continued)

#### (iii) Net realisable value of inventories and development and formation costs of burial plots

Net realisable value of inventories is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated cost to make the sale. These estimates are based on the current market conditions and the historical experience of selling products of similar nature. It could change significantly as a result of changes in customer preferences and competitor actions in response to severe industry cycles. Management reassesses these estimates at the end of each reporting period.

The Group writes down development and formation costs of graves to net realisable value based on assessment of the realisability of the development and formation costs of burial plots which takes into account costs to completion based on management's experience and net sales value based on prevailing market conditions. If there is an increase in cost to completion or a decrease in net sales value, the net realisable value will decrease which may result in writing down development and formation costs of burial plots to net realisable value. Write-downs are recorded where events or changes in circumstances indicate that the balances may not be realised. The identification of writedowns requires the use of judgement and estimates. Where the expectation is different from the original estimate, the carrying value of development and formation costs of burial plots is adjusted in the period in which such estimate is changed.

- (b) 估計不明朗因素之主要來源 (續)
  - (iii) 存貨及墓地開發及成立 成本的可變現淨值

本集團評估墓園發展及成 立成本是否可能變現(當 中根據管理層經驗計及完 成成本及根據現行市況之 銷售淨值),據此撇減墓 地發展及成立成本至其可 變現淨值。倘完成成本增 加,或銷售淨值減少,可 變現淨值將下跌,或會導 致墓地開發及成立成本撇 減至其可變現淨值。於事 態中有事項或變動顯示結 餘可能無法變現時,撇減 將予記錄。釐定撇減須作 出判斷及估計。倘預期與 原定估計有異,則墓地開 發及成立成本之賬面值會 於有關估計變動之期間調 整。

(b) Key sources of estimation uncertainty (Continued)

#### (iv) Depreciation and amortisation

The management reviews the estimated useful lives of the assets regularly in order to determine the amount of depreciation and amortisation charge for the year.

This estimate is based on the historical experience of the actual useful lives of assets of similar nature and functions and taking into account anticipated technological changes. The depreciation and amortisation expenses for future periods are adjusted if there are significant changes from previous estimates.

#### (v) Income tax

The subsidiaries of the Company are subject to income taxes in Hong Kong, the PRC, Vietnam and Taiwan. Significant judgement is required in determining the provision for income taxes. There are many transactions for which the ultimate tax determination is uncertain during the ordinary course of business. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the current tax and deferred tax provisions in the financial period in which such determination is made.

### (vi) Provision on funeral services deeds

The Group determines the pricing of the funeral services deeds by adding a margin to the estimated cost of delivering funeral services in future, after taking into account of major factors including the timing of the instruction of the Deed Holders. (b) 估計不明朗因素之主要來源 (續)

  - (vi) Provision on funeral services deeds (Continued)

This estimate is based on the sub-contracting fee payable to the sub-contractor for each funeral service deed performed, the current market conditions and the price of deeds from sub-contractors. Management reassesses these estimates at the end of each reporting period to estimate if the receipts in advance for funeral service deeds can cover the estimated future costs of delivering funeral services and determine the need of making a provision in the consolidated financial statements.

### (vii) Fair value measurements and valuation processes

Some of the Group's assets are measured at fair value for financial reporting purposes. The directors of the Company have to determine the appropriate valuation techniques and inputs for fair value measurements. In estimating the fair value of an asset, the Group uses market-observable data to the extent it is available and appropriate valuation technique. Where market-observable data are not available, the Group may adopt unobservable inputs based on their best estimate. Management may also engages third party qualified valuers to perform the valuation. Management work closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The Group uses established the appropriate valuation techniques that include inputs that are not based on observable market data to estimate the fair value of certain assets. Note 14 and 16 provide detailed information about the valuation techniques, inputs and key assumptions used in the determination of the fair value of various assets.

Of those standards, HKFRS 9 and HKFRS 15 will be applicable for the Group's financial year ending 31 December 2018 and are expected to have impact upon adoption. Whilst management has performed a detailed assessment of the estimated impacts of these standards, that assessment is based on the information currently available to the Group. The actual impacts upon adoption could be different to those below, depending on additional reasonable and supportable information being made available to the Group at the time of applying the standards.

Except for the new and amendments to HKFRSs and Interpretations mentioned below, the directors anticipate that the application of all other new and amendments to HKFRSs and Interpretations will have no material impact on the consolidated financial statements in the foreseeable future. 42. 於截至二零一七年十二月三 十一日止年度已頒佈但尚未 生效之修訂、新準則及詮釋 之可能影響(續)

#### **HKFRS 9 Financial Instruments**

HKFRS 9 introduces new requirements for the classification and measurement of financial assets, financial liabilities, general hedge accounting and impairment requirements for financial assets.

Key requirements of HKFRS 9 which are relevant to the Group are:

- All recognised financial assets that are within the scope of HKFRS 9 are required to be subsequently measured at amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are generally measured at fair value through other comprehensive income (FVTOCI). All other financial assets are measured at their fair value at subsequent accounting periods. In addition, under HKFRS 9, entities may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- In relation to the impairment of financial assets, HKFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under HKAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

#### 香港財務報告準則第9號「金融工 具 |

香港財務報告準則第9號引入有關分 類及計量金融資產、金融負債、一般 對沖會計及金融資產的減值要求的 新要求。

香港財務報告準則第9號與本集團有 關的重要要求為:

- 所有於香港財務報告準則第9號 範圍內確認的金融資產其後須 按攤銷成本或公平值計量。具 體而言,倘於業務模型中持有 的債務投資的目的為收取合約 現金流,以及合約現金流僅用 於支付本金及未償還本金的利 息,該債務投資一般於其後會 計期末按攤銷成本計量。倘於 業務模型中持有的債務投資的 目的由收取合約現金流及銷售 金融資產達成,以及合約期會 於指定日期產生僅用於支付本 金及未償還本金的利息的現金 流,則該債務投資一般於其他 全面收益按公平值計量。所有 其他金融資產均於其後會計期 間按其公平值計量。此外,根 據香港財務報告準則第9號,實 體可不可撤回地選擇於其他全 面收益呈列股本投資(非持作出 售)公平值的其後變動,並僅將 股息收入確認於損益。
- 就金融資產減值而言,香港財務報告準則第9號要求一項預期 信貸虧損模型,而非香港會計 準則第39號要求的所產生信貸 虧損模型。該預期信貸虧損模型 型要求實體就各報告期末的預 期信貸虧損變動記賬,以反映 自初步確認起的信貸風險的變 動。換言之,信貸事件毋須再 於確認信貸虧損前發生。

#### HKFRS 9 Financial Instruments (Continued)

Application of HKFRS 9 in the future will have an impact to the Group as the expected credit loss model will result in early provision of credit losses which are not yet incurred in relation to the Group's financial assets measured at amortised cost. However, the directors of the Company consider the impact of early provision of credit losses (if any in future) will not be significantly affecting the financial performance and financial position of the Group based on analysis of the Group's existing business model.

#### HKFRS 15 Revenue from Contracts with Customers

HKFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. HKFRS 15 will supersede the current revenue recognition guidance including HKAS 18 Revenue, HKAS 11 Construction Contracts and the related Interpretations when it becomes effective.

The core principle of HKFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

#### 香港財務報告準則第9號「金融工 具」(續)

由於預期信貸虧損模型將導致提早 按攤銷成本為與本集團金融資產有 關而未產生的信貨虧損作出撥備, 未來採納香港財務報告準則第9號將 對本集團產生影響。然而,本公司董 事基於本集團現有業務模型的分析, 認為提早為信貸虧損作出撥備(於未 來如有)將不會對本集團的財務表現 及財務狀況產生重大影響。

#### 香港財務報告準則第15號「來自客 戶合約之收入」

香港財務報告準則第15號已獲發行, 其訂立一個單一全面模式予實體計量 來自客戶合約之收入之用。於其生效 後,香港財務報告準則第15號將取代 現有的收入確認指引,其中包括香港 會計準則第18號「收入」、香港會計準 則第11號「建築合約」及相關詮釋。

香港財務報告準則第15號的核心原則 為,一個實體須確認收入以一筆可反 映實體預期就該等商品或服務有權 換取的代價的金額描述向客戶交付 的承諾商品或服務。具體而言,該準 則就收入確認引入一套分為五個步驟 的方法:

- 第一步:確認客戶合約
- 第二步:確認合約規定的履約 義務
- 第三步:釐定交易價格
- 第四步:將交易價格分配到合約規定的履約義務
- 第五步:當(或於)實體實行履約
  義務時確認收入

### 42. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2017 (Continued)

HKFRS 15 Revenue from Contracts with Customers (Continued)

Under HKFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in HKFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by HKFRS 15.

In 2016, the HKICPA issued Clarifications to HKFRS 15 in relation to the identification of performance obligations, principal versus agent considerations, as well as licensing application guidance.

The directors anticipate that the application of HKFRS 15 in the future may have impact on the amounts reported and disclosures made in the Group's consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of HKFRS15 until the Group completed the detailed review. 42. 於截至二零一七年十二月三 十一日止年度已頒佈但尚未 生效之修訂、新準則及詮釋 之可能影響(續)

#### 香港財務報告準則第15號「來自客 戶合約之收入」(續)

根據香港財務報告準則第15號,當 (或於)履約義務獲實行時(即在與特 定履約義務有關的產品或服務的「控 制權」已轉嫁給客戶時),實體須確認 收入。香港財務報告準則第15號中增 加了許多規範性指導以處理特定情 況。此外,香港財務報告第15號要求 作出廣泛披露。

二零一六年,香港會計師公會發佈香 港財務報告準則第15號的澄清,該等 澄清與確認履約義務、當事人與代理 人的考慮以及牌照申請指引有關。

董事預期於未來採納香港財務報告 準則第15號可能對本集團綜合財務報 表所呈報及披露的金額產生重大影 響。然而,直至本集團完成詳細審閱 之前,就香港財務報告準則第15號的 影響提供合理估計並不實際可行。

#### **HKFRS 16 Leases**

As disclosed in note 2(g), currently the Group classifies leases into finance leases and operating leases and accounts for the lease arrangements differently, depending on the classification of the lease. The Group enters into some leases as the lessor and others as the lessee.

HKFRS 16 is not expected to impact significantly on the way that lessors account for their rights and obligations under a lease. However, once HKFRS 16 is adopted, lessees will no longer distinguish between finance leases and operating leases. Instead, subject to practical expedients, lessees will account for all leases in a similar way to current finance lease accounting, i.e. at the commencement date of the lease the lessee will recognise and measure a lease liability at the present value of the minimum future lease payments and will recognise a corresponding "right-of-use" asset. After initial recognition of this asset and liability, the lessee will recognise interest expense accrued on the outstanding balance of the lease liability, and the depreciation of the right-of-use asset, instead of the current policy of recognising rental expenses incurred under operating leases on a systematic basis over the lease term. As a practical expedient, the lessee can elect not to apply this accounting model to short-term leases (i.e. where the lease term is 12 months or less) and to leases of lowvalue assets, in which case the rental expenses would continue to be recognised on a systematic basis over the lease term.

**香港財務報告準則第16號「租賃」** 誠如附註2(g)所披露,目前本集團將 租賃分類為融資租賃及經營租賃,並 視乎租賃所屬分類,用不同方法為租 賃安排入賬。本集團作為出租人訂立 若干租賃,並作為承租人訂立其他租 賃。

預期香港財務報告第16號並不會如出 租人根據租賃行使權利及義務般產 生重大影響。然而,一旦香港財務報 告準則第16號獲採納,承租人將無法 再能夠分辨融資租賃及經營租賃。相 反,根據實際可行的權宜之計,承租 人將以目前融資租賃會計相若的方法 為所有租賃入賬(即承租人將於租賃 開始日期按最低未來租賃付款的現 值確認及計量租賃負債,並將確認 相關「使用權」資產)。於初步確認該 資產及負債後,承租人將確認租賃 負債未清償結餘所產生的利息開支, 以及使用權資產的折舊,而非根據目 前的規例於租期按有系統基準確認 經營租賃所產生的租金開支。作為 實際可行的權宜之計,承租人可選擇 不就短期租賃(即租期為12個月或以 下)及低價值資產採納該會計模型, 於該等情況下,租金開支將繼續於租 期按有系統基準獲確認。

### 42. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2017 (Continued)

#### HKFRS 16 Leases (Continued)

HKFRS 16 will primarily affect the Group's accounting as a lessee of leases for properties, plant and equipment which are currently classified as operating leases. The application of the new accounting model is expected to lead to an increase in both assets and liabilities and to impact on the timing of the expense recognition in the statement of profit or loss over the period of the lease. As disclosed in note 34, at 31 December 2017 the Group's future minimum lease payments under non-cancellable operating leases amount to RMB67,707,000, the majority of which is payable either between 1 and 5 years after the reporting date or in more than 5 years. Some of these amounts may therefore need to be recognised as lease liabilities, with corresponding right-of-use assets, once HKFRS 16 is adopted. The Group will need to perform a more detailed analysis to determine the amounts of new assets and liabilities arising from operating lease commitments on adoption of HKFRS 16, after taking into account the applicability of the practical expedient and adjusting for any leases entered into or terminated between now and the adoption of HKFRS 16 and the effects of discounting.

At this stage, the Group does not intend to adopt the standard before its effective date. The Group intends to apply the simplified transition approach and will not restate comparative amounts for the year prior to first adoption. 42. 於截至二零一七年十二月三 十一日止年度已頒佈但尚未 生效之修訂、新準則及詮釋 之可能影響(續)

#### 香港財務報告準則第16號「租賃」 (續)

香港財務報告準則第16號將主要影 響本集團作為物業、廠房及設備租賃 (目前分類為經營租賃)的出租人的會 計。採納新的會計模型預期導致資 產及負債的增長,以及影響於租期內 確認於損益表的開支的時間。誠如 附註34所披露,於二零一七年十二月 三十一日,本集團在不可撤銷經營租 賃下的未來最低租賃付款達人民幣 67.707.000元,其中大部分須於報告 期後1至5年內或多於5年內償付。因 此,倘採納香港財務報告準則第16號 後,若干金額及相關使用權資產須 確認為租賃負債。本集團在考慮實際 可行權官之計的適用性並為現在與 採納香港財務報告準則第16號之間 期間訂立或終止的任何租賃作出調 整以及貼現影響後,將須作出更詳 細的分析,以釐定採納香港財務報 告準則第16號後,經營租賃承擔所產 生的新資產及負債的金額。

於本階段,本集團並不計劃於其生效 日期前採納該準則。本集團計劃採 納簡化過渡方法,以及並不會就初步 採納前年度重申比較金額。
