Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Overview

The Group's business was established since 1999 under the name of AL Design, which is a well-established interior design and fit out solutions provider in Hong Kong. The Group believes that its success is firmly rooted in its extensive experience and portfolio in interior design and fit out works as well as project management. The Group's services can be broadly categorized as (i) design and fit out and (ii) design only. In addition, the Group also provides maintenance and aftersales services which could cater for its customers' different requirements.

Excluding projects relating to maintenance and aftersales service, during the six months ended 30 June 2018, the total revenue increased by approximately 48.5% and the number of projects increased by 75.0% over the same period in 2017. The average revenue per project decreased by approximately 18.8% from same period in 2017 to approximately HK\$1.3 million, mainly attributable to the fact that more smaller-scaled projects (with individual contract sum under HK\$1 million) were contributed by the performance of the non-wholly owned subsidiary, which was acquired in November 2017.

The tables below summarized the number of on-going and completed projects and revenue, by type of service and customer, and the average revenue per project during the six months ended 30 June 2018 respectively and their comparative figures:

Financial Overview

In HK\$' million	For the six months ended 30 June	
	2018	2017
Revenue	66.5	45.0
Gross Profit (Note 1)	16.1	13.1
Gross Profit Margin	24.2%	29.1%
EBITDA (Note 2)	1.5	1.4
Profit for the period attributable to owners of the Company	0.3	0.7

Note 1: The Group's gross profit represents revenue less subcontracting and material costs.

Note 2: The Group's EBITDA represents earnings before finance interest income and cost, income tax, depreciation of property, plant and equipment and share of profit of associate. While EBITDA is commonly used in the interior design industry worldwide as an indicator of operating performance, leverage and liquidity, it is not presented as a measure of operating performance in accordance with Hong Kong Financial Reporting Standards and should not be considered as representing net cash flows from operating activities. The computation of the Group's EBITDA may not be comparable to similarly-titled measures of other companies.

For the six months ended 30 June 2018, the Group's revenue increased significantly when compared to the same period in 2017. The Group's revenue amounted to approximately HK\$66.5 million, representing an increase of approximately 47.9% from the same period in 2017, mainly driven by the additional revenue from the non-wholly owned subsidiary.

The Group's gross profit for the six months ended 30 June 2018 amounted to approximately HK\$16.1 million, representing an increase of approximately 22.9% over the same period in 2017. Gross profit margin decreased from approximately 29.1% to approximately 24.2%, which was mainly due to the larger-scaled projects (with individual contract sum over HK\$5 million) continued to contribute revenue in 2018, while the projects had incurred more costs than anticipated and resulted in a lower profit margin. The larger-scaled projects enhanced the Group's reputation and achieved our business growth. The Group will take in-depth analysis in the future in order to better control our costs.

MANAGEMENT DISCUSSION AND ANALYSIS (CONTINUED)

The Group's total operating expenses (Note 3) for the six months ended 30 June 2018 were approximately HK\$15.3 million when compared to approximately HK\$12.4 million for the same period in 2017. The increase in total operating expenses was mainly due to additional staff costs, rental expenses and depreciation expenses from the non-wholly owned subsidiary.

Note 3: The Group's total operating expenses represented the aggregate of employee benefit expenses, rental expenses and other expenses as shown in the unaudited condensed consolidated statement of comprehensive income.

For the six months ended 30 June 2018, the Group's EBITDA amounted to approximately HK\$1.5 million as compared to approximately HK\$1.4 million for the same period in 2017. The Group's net profit slightly decreased to approximately HK\$0.3 million for the six months ended 30 June 2018 when compared to approximately HK\$0.7 million for the same period in 2017. The decrease in net profit during the six months ended 30 June 2018 was mainly due to the loss on early redemption of promissory note, fair value losses and disposal losses on the financial assets at fair value through profit or loss.

Liquidity, Financial Resources and Capital Structure

The Group practiced prudent financial management and maintained a strong and sound financial position during the six months ended 30 June 2018. As of 30 June 2018, the Group had cash and cash equivalents of approximately HK\$35.6 million (31 December 2017: approximately HK\$57.9 million). As at 30 June 2018, the gearing ratio, expressed as a percentage of non-current debt over net assets was approximately 49.7% (31 December 2017: Nil). The change in gearing ratio was mainly resulted by the issue of promissory note for the acquisition of Primo Group (BVI) Limited ("Primo").

As at 30 June 2018, the Company's total number of issued shares was 595,000,000 (31 December 2017: 480,000,000) at HK\$0.01 each. The Company's capital comprises ordinary shares and capital reserves. 2 Basis of preparation

This condensed consolidated interim financial information for the six months ended 30 June 2018 has been prepared in accordance with HKAS 34, ‘Interim financial reporting’ issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the applicable disclosure provisions of the GEM Listing Rules. 3 Accounting policies

Except as described below, the accounting policies applied are consistent with those of the annual financial statements for the year ended 31 December 2017, as described in those annual financial statements.

New and amended standards adopted by the Group

The following new and amended standards have been adopted by the Group for the first time for the financial period beginning on or after 1 January 2018:

HKAS 28 (Amendments)	Investment in Associates and Joint Ventures
HKAS 40 (Amendments)	Investment Property
HKFRS 1 (Amendments)	First Time Adoption of HKFRS
HKFRS 2 (Amendments)	Classification and Measurement of Share-based Payment Transactions
HKFRS 4 (Amendments)	Applying HKFRS 9 Financial Instruments with HKFRS 4 Insurance contracts
HKFRS 9	Financial Instruments
HKFRS 15	Revenue from Contracts with Customers
HKFRS 15 (Amendments)	Classifications to HKFRS 15
HK (IRFIC)-Int 22	Foreign Currency Transactions and Advance Consideration

HKFRS 9 Financial Instruments

As a result of the change in the equity accounting policies, prior year financial statements had to be restated. As explained below, HKFRS 9 was generally adopted without restating comparative information with the exception of certain aspects of hedge accounting. The reclassifications arising from the new impairment rules are therefore not reflected in the condensed consolidated statement of financial position as at 31 December 2017, but are recognized in the opening condensed consolidated statement of financial position on 1 January 2018.

Equity investments previously classified as available-for-sale

The Group elected to present other comprehensive income changes in fair value of all its equity investments previously classified as available-for-sale, because these investments are held as long-term strategic investments that are not expected to be sold in the short to medium term. As a result, assets with a fair value of HK\$1,874,668 were reclassified from available-for-sale financial assets to financial assets at fair value through other comprehensive income and revaluation gains of HK\$420,818 were reclassified from available-for-sale financial assets revaluation reserve to the investment revaluation reserve on 1 January 2018.

Other than the effect on HKFRS 9 as disclosed above, the adoption of the above new or amended standards or interpretations did not have a material impact on the Group's condensed consolidated interim financial information.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (CONTINUED)

3 Accounting policies (Continued)

Impact of standards issued but not yet adopted by the Group

		Effective for annual periods beginning on or after
HKFRS 16	Leases	1 January 2019
HK (IFRIC)-Int 23	Uncertainty over Income Tax Treatments	1 January 2019
HKFRS 17	Insurance Contracts	1 January 2021
HKFRS 10 and HKAS 28 (Amendments)	Sale or Contribution of Assets Between Investor	To be announced

None of the above is expected to have a significant effect on the Group's consolidated financial statements, except the following:

(i) **HKFRS 16 Leases**

HKFRS 16 was issued in January 2016. It will result in almost all leases being recognised on the statement of financial position, as the distinction between operating and finance leases is removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short-term and low-value leases.

The accounting for lessors will not significantly change.

The standard will affect primarily the accounting for the Group's operating leases. As at the end of the reporting period, the Group has non-cancellable operating lease commitments of HK\$1,291,185 relating to payments for short-term and low value leases which will be recognised on a straight-line basis as an expense in profit or loss.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION (CONTINUED)

3 Accounting policies (Continued)

Impact of standards issued but not yet adopted by the Group (Continued)

(i) HKFRS 16 Leases (Continued)

However, the Group has not yet determined what other adjustments, if any, are necessary for example because of the change in the definition of the lease term and the different treatment of variable lease payments and of extension and termination options. It is therefore not yet possible to estimate the amount of right-of-use assets and lease liabilities that will have to be recognised upon adoption of the new standard and how this may affect the Group's profit or loss and classification of cash flows going forward.

The standard is mandatory for first interim periods within annual reporting periods beginning on or after 1 January 2019. At this stage, the Group does not intend to adopt the standard before its effective date. The Group intends to apply the simplified transition approach and will not restate comparative amounts for the year prior to first adoption.

There are no other standards that are not yet effective and that would be expected to have a material impact on the entity in the current or future reporting periods and on foreseeable future transactions.

Use of Listing Proceeds

The shares of the Company were listed on GEM of the Stock Exchange on 12 July 2016 for which the Company issued 120,000,000 new shares at HK\$0.64 per share. The net listing proceeds received by the Company, after deducting underwriting fees and other related expenses, are approximately HK\$57.0 million. These proceeds are intended to be applied in the manner as described in the section headed "Future Plans and Use of Proceeds" in the Prospectus.

The future plan and scheduled use of proceeds as disclosed in the Prospectus were based on the best estimation of future market conditions made by the Group at the time of preparing the Prospectus, while the proceeds were applied with consideration of the actual development of business and market.

Due to the recent acquisitions of new companies in November 2017 and June 2018, the Company has been prudently formulating the future business strategies within the Group. Accordingly, the Company has adopted a more conservative approach and shall postpone the utilisation of the remaining proceeds. The Directors shall continue to pitch out for expanding the market coverage and develop effective marketing strategies for the Group as and when appropriate and consider such postponement in use of listing proceeds is in the interests of the Company and the shareholders as a whole.

As at 30 June 2018, the Group does not anticipate any change to the plan as to the use of listing proceeds. The unutilised net proceeds have been placed in the licensed banks in Hong Kong.
