#### 1. CORPORATE INFORMATION

The registered office of the Company is located at 11th Floor, Lai Sun Commercial Centre, 680 Cheung Sha Wan Road, Kowloon, Hong Kong.

During the year, the Group was involved in the following principal activities:

- manufacture and sale of garments;
- property investment;
- property letting; and
- operation of a restaurant.

In the opinion of the directors, the ultimate holding company is Lai Sun Garment (International) Limited, which was incorporated in Hong Kong.

# 2. IMPACT OF REVISED STATEMENTS OF STANDARD ACCOUNTING PRACTICE ("SSAPs")

The following SSAPs have been adopted for the first time in the preparation of the current year's consolidated financial statements, together with a summary of their major effects.

- SSAP 1: Presentation of Financial Statements
- SSAP 2: Net Profit or Loss for the Period, Fundamental Errors and Changes in Accounting Policies

SSAP 1 prescribes the basis for the presentation of financial statements and sets out guidelines for their structure and minimum requirements for the content thereof. The formats of the profit and loss account and the balance sheets as set out on pages 22, 23 and 25 respectively, have been revised in accordance with the SSAP. Additional disclosures as required are included in the supporting notes to the financial statements.

SSAP 2 prescribes the classification, disclosure and accounting treatment of certain items in the profit and loss account, and specifies the accounting treatment for changes in accounting estimates, changes in accounting policies and the correction of fundamental errors. The principal impact of the SSAP on the preparation of these financial statements is that exceptional items, previously disclosed on the face of the profit and loss account, are now disclosed primarily by way of note, (note 6 to the financial statements) and are no longer specifically referred to as "exceptional".

# 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Statements of Standard Accounting Practice, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for the remeasurement of investment properties and certain fixed assets, as further explained below.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and its subsidiaries for the year ended 31st July, 2000. The results of subsidiaries acquired or disposed of during the year are consolidated from or to their effective dates of acquisition or disposal, respectively. All significant intercompany transactions and balances within the Group are eliminated on consolidation.

### Capital reserve arising on consolidation

The capital reserve arising on consolidation represents the excess of the fair value ascribed to the net assets of subsidiaries at the date of acquisition over the purchase consideration in respect thereof.

#### Subsidiaries

A subsidiary is a company in which the Company, directly or indirectly, controls more than half of its voting power or issued share capital or controls the composition of its board of directors.

Interests in subsidiaries are stated at cost unless, in the opinion of the directors, there have been permanent diminutions in values, when they are written down to values determined by the directors.

# Fixed assets and depreciation

Fixed assets are stated at cost or valuation less accumulated depreciation.

The cost of an asset comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after the fixed assets have been put into operation, such as repairs and maintenance, is normally charged to the profit and loss account in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the fixed asset, the expenditure is capitalised as an additional cost of that asset.

The transitional provisions set out in paragraph 72 of Statement of Standard Accounting Practice No. 17 "Property, Plant and Equipment" issued by the Hong Kong Society of Accountants ("SSAP17") have been adopted for assets stated at valuation. As a result, those assets stated at revalued amounts based on revaluations which were reflected in financial statements for periods ended before 30th September, 1995, have not been revalued to fair value by class at the balance sheet date. It is the directors' intention not to revalue these assets in the future.

The gain or loss on disposal or retirement of a fixed asset recognised in the profit and loss account is the difference between the net sales proceeds and the carrying amount of the relevant asset. On disposal of a revalued asset, the relevant portion of the revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

# **Notes to Financial Statements**

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Fixed assets and depreciation (continued)

Depreciation of fixed assets is calculated on the straight-line basis to write off the cost or valuation of each asset over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold land Over the lease terms

Buildings 2%–5%
Plant and machinery 10%
Furniture and fixtures 10%–20%
Computer equipment 20%
Vehicles 20%

#### Investment properties

Investment properties are interests in land and buildings in respect of which construction work and development have been completed and which are intended to be held on a long term basis for their investment potential. Such properties are not depreciated and are stated at their open market values on the basis of annual professional valuations. Changes in the values of investment properties are dealt with as movements in the investment property revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on a portfolio basis, the excess of the deficit is charged to the profit and loss account.

Upon the disposal of an investment property, the relevant portion of the revaluation reserve realised in respect of previous valuations is released to the profit and loss account.

#### Leased assets

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases are included in fixed assets and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the profit and loss account so as to provide a constant periodic rate of charge over the lease terms.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor company are accounted for as operating leases. Rentals applicable to such operating leases are charged to the profit and loss account on the straight-line basis over the lease terms.

#### Stocks

Stocks are stated at the lower of cost and net realisable value. Cost includes the cost of materials computed using the first-in, first-out method and, in the case of work in progress and finished goods, direct labour and an appropriate portion of production overheads. Net realisable value is determined by reference either to the net sales proceeds of items in the ordinary course of business subsequent to the balance sheet date, or to management estimates based on prevailing market conditions.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) rental income, on a straight-line basis over the terms of the lease;
- (c) revenue from restaurant operations, upon delivery of food and beverages to customers; and
- (d) interest income, on a time proportion basis taking into account the principal outstanding and the effective interest rate applicable.

### Cash equivalents

For the purpose of the consolidated cash flow statement, cash equivalents represent short term highly liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired, less advances from banks repayable within three months from the date of the advance.

#### Deferred tax

Provision is made for deferred tax, using the liability method, on all material timing differences to the extent that it is probable that the liability will crystallise in the foreseeable future. A deferred tax asset is not recognised until its realisation is assured beyond reasonable doubt.

Timing differences are differences between profits or losses as computed for tax purposes and as stated in the financial statements. Such differences arise from the inclusion of items of income and expenditure in tax computations in periods different from those in which they are included in the financial statements. Timing differences which originate in one period are capable of reversal in one or more subsequent periods.

### Pension costs

The Group operates a defined benefit retirement scheme for its employees, the assets of which are held separately from those of the Group in an independently administered fund. Contributions to the scheme are charged to the profit and loss account so as to charge the cost of the retirement benefits over the eligible employees' working lives within the Group. The contribution rate is recommended by independent, qualified actuaries on the basis of triennial valuations, using the aggregate method.

### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Foreign currencies

The financial records of the Company and its subsidiaries are maintained and the financial statements are stated in Hong Kong dollars.

Monetary assets and liabilities denominated in foreign currencies are translated at the applicable rates of exchange ruling at the balance sheet date. Foreign currency transactions during the year are recorded at the applicable rates existing on the respective transaction dates. Profits and losses on exchange are dealt with in the profit and loss account.

# Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party, or exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

### 4. RELATED PARTY TRANSACTIONS (continued)

The remaining interest expense of HK\$184,000 was charged on the Group's banking facilities obtained and guaranteed by the ultimate holding company, which bore interest at 1% per annum on the banking facilities amounting HK\$20,000,000.

During the year, the Company's ultimate holding company advanced a loan of HK\$16,400,000 to the Company pursuant to an agreement dated 31st March, 2000. This loan is unsecured, interest-bearing at Hong Kong dollar three months' deposit rate plus 1% per annum, and is repayable in six months from the date of grant, subject to further renewal by both parties. Pursuant to a supplemental agreement dated 1st October, 2000, the repayment of the loan was extended for another six months to 31st March, 2001. Also, during the year, the Group obtained a banking facility of HK\$20,000,000 from a bank which was secured by the guarantee granted by the Company's ultimate holding company.

The Company's directors considered that the above transactions have been conducted in the ordinary and usual course of the Group's business.

#### 5. TURNOVER AND REVENUE
