

## HK\$50 donation for every Shareholder who chooses electronic communication

Last year CLP offered to donate HK\$50 to charity for each Shareholder who elected to receive corporate communications electronically, in order to encourage increased use of this environmentally friendly method. 561 Shareholders responded to this offer. As a result CLP donated HK\$98,050 (which included HK\$70,000 on behalf of those Shareholders who had already chosen electronic communication), to Médecins Sans Frontières. In recognition of stakeholders who provided feedback on our Social and Environmental Report, CLP also donated HK\$50 for every feedback we received, amounting HK\$2,350, to Médecins Sans Frontières, making a total donation of HK\$100,400. **SER**

This donation is being applied by Médecins Sans Frontières towards its AIDS project in Xiangfan, Hubei Province, China which provides comprehensive care and treatment (including antiretroviral therapy) free of charge to HIV/AIDS patients.

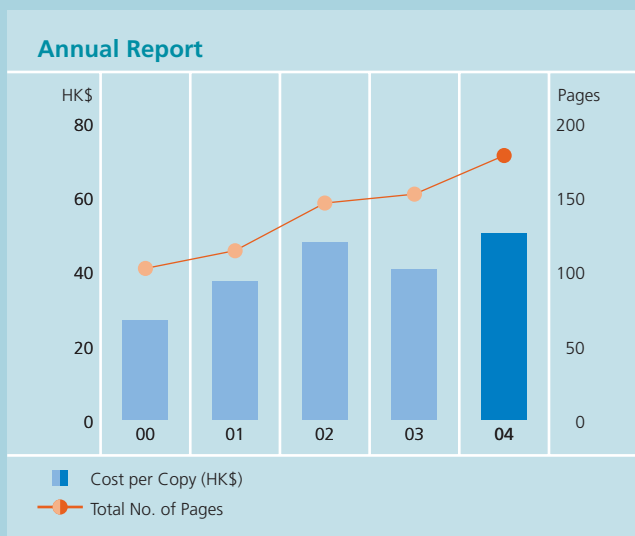

CLP is repeating this initiative this year. We will donate HK\$50 to the Society for the Welfare of the Autistic Persons, an

association founded by the parents of autistic children in Hong Kong for mutual support and for improving the daily lives of autistic people, for each Shareholder who elects electronic communication instead of his or her previous choice of printed form. This will be in addition to a donation of HK\$100,000 on behalf of those Shareholders who have already opted for electronic communication.

The donation will be applied for the purchase of sensory integration equipment for autistic children. This equipment will be used by occupational therapists and/or physical therapists to assist the autistic children in organising the central nervous system, inhibiting and/or modulating sensory information and processing a more organised response to sensory stimuli.

Shareholders can indicate their support by completing and returning to us the notification form which accompanies this Annual Report, in the provided prepaid reply envelope or by e-mail to [cosec@clp.com.hk](mailto:cosec@clp.com.hk) on or before 30 June 2006.

In response to increasing regulatory requirements and CLP's choice to enhance disclosure to Shareholders, the Annual Report has grown significantly in length in recent years.

To control the length and cost of the Annual Report, coverage of social and environmental issues is now centred in the Social and Environmental Report. Above all, we regularly review the scope and content of our website, so that shareholders and all stakeholders can draw on this as a primary and up-to-date resource on all information about CLP. **SER**

Both the Annual Report and the Social and Environmental Report are printed on environmentally friendly paper. **SER**
