Notes to the Unaudited Condensed Financial Statements

1 General information

Tracker Fund of Hong Kong (the "Fund") is a unit trust which is governed by its Trust Deed dated on 23rd October 1999 (the "Trust Deed"). The Fund is authorized by the Securities & Futures Commission of Hong Kong under Section 104(1) of the Hong Kong Securities and Futures Ordinance. The Fund is also listed on the Stock Exchange of Hong Kong Limited (a subsidiary of The Hong Kong Exchanges and Clearing Limited).

The Fund's objective is to provide investment results that closely correspond to the performance of the Hang Seng Index (the "Index").

2 Basis of preparation and accounting policies

These unaudited condensed interim financial statements ("Interim Financial Statements") have been prepared in accordance with Hong Kong Accounting Standard ("HKAS") 34 "Interim Financial Reporting", issued by the Hong Kong Institute of Certified Public Accountants. The financial statements are prepared under the historical cost convention as modified by the revaluation of investments.

The accounting policies and methods of computation used in the preparation of these Interim Financial Statements are consistent with those used in the annual financial statements for the year ended 31 December 2005.

These Interim Financial Statements have been prepared in accordance with those HKFRS standards and interpretations issued and effective in July 2005.

The changes to the Fund's accounting policies and the effect of adopting these new policies are set out in note 3 below.

3 Effect of adoption of new/revised accounting standards

The adoption of new/revised accounting standards applicable to the Fund on total net assets attributable to unitholders are as follows:

5 Income

(a) Transaction fee

For each application for the creation of units or for the redemption of units, the Fund was entitled to receive a transaction fee of HK\$30,000 per application. With effect from 1 June 2006, the transaction fee with respect to the creation and redemption application has been reduced from HK\$30,000 per application to HK\$15,000 per total aggregate creation and redemption application per day per Participating Dealer.

(b) Other income

Other income represents registrar charges levied on unitholders (other than HKSCC Nominees) who hold units registered in their own names as at each Record Date for the relevant distribution. Currently, these charges amount to HK\$80 per year per unitholder. Such charges are deducted on a half-yearly basis from the half-yearly distributions payable to the relevant unitholders.

6 Number of units in issue and net assets attributable to unitholders per unit

In accordance with the provisions of the Fund's Trust Deed, listed investments and investments with prices quoted in over the counter markets or by market makers are stated at the last traded price on the valuation day for the purpose of determining net asset value per unit for subscriptions and redemptions and for various fee calculations. However, as stated in note 2 the accounting policy of the Fund for the purpose of compliance with HKAS 39 and for reporting purpose is to value its investments at the relevant bid market prices on the Statement of Assets and Liabilities date. The difference between the valuation stated in the financial statement of investments and the valuation methodology indicated in the Fund's Trust Deed, results in a decrease in value of investment by HK\$44,452,288 (for the period ended 30th June 2005: HK\$84,079,901).

14 Financial risk management

The objective of the Fund is to provide investment results that closely correspond to the performance of the index. The risk exposures inherent in the Fund as at 30 June 2006 are summarized below.

(a) Market Price Risk

The Fund's investments are subject to the securities price risk inherent in all securities i.e. the value of holdings may fall as well as rise. The Fund's market risk is managed through deliberate stock selection and diversification of investment portfolio.

(b) Credit Risk

Credit risk is the risk that an issuer or counterparty will be unable or unwilling to pay amounts in full when due.

The Fund's financial assets which are potentially subject to concentrations of credit risk consist principally of securities and bank balances.

The Fund limits its exposure to credit risk by transacting the majority of its securities and contractual commitment activity with well established brokerdealers, banks with high credit ratings and regulated exchanges that the Fund considers to be well established.

All transactions in securities are settled / paid for upon delivery using approved and reputable brokers. The risk of default is considered minimal since delivery of securities sold is only made once the broker has received payment. On a purchase, payment is made once the securities have been received by the broker. If either party fails to meet its obligation, the trade will fail.

Accordingly, the Fund has no signification concentration of credit risk.

(c) Interest Rate Risk

The Fund is exposed to a minimal interest rate risk as the Fund invests mainly in equity securities and only the bank balances are exposed to interest rate risk which is considered to be minimal.

14 Financial risk management (Continued)

(d) Currency Risk

Currency risk is the risk that the value of financial instruments will fluctuate due to the changes in foreign exchange rates.

The Fund has no significant currency risk because substantially all assets and liabilities are denominated in Hong Kong Dollars, the Fund's reporting currency.

(e) Fair Values of Financial Instruments

The Fund's carrying amounts of securities, other assets and liabilities approximate to their fair values. Other assets and liabilities include bank balances, accruals and other payables which are realized or settled within a short period of time.

(f) Liquidity risk

The Fund is exposed to redemptions of units in the Fund. The Fund invests the majority of its assets in investments that are traded in an active market and can be readily disposed of.
