## **Management's Statement**

#### Dear Fellow Shareholders,

On behalf of the Company, we hereby present to our shareholders the audited results of the Company and its subsidiaries for the year ended 30 April 2010.

The Vongroup corporate model exemplifies an innovative multiple-division listed group, which is coalesced by shared business development initiatives, as well as a unifying corporate ethos. Given the uncertainties that were incumbent in the prevailing market environment, I am pleased with your team's accomplishments during this past year. In achieving our results, including, for example, a reduction in our loss for the year to HK\$7.9 million, from HK\$50.3 million, we owe a great deal, as usual, to our investment and operational strategy, as well as careful execution by your team of management professionals.

The economic stimulus packages and measures taken by many governments have gradually taken effect, and the financial and investment climate appear to be improving steadily. To stay focused, we will continue our long-standing practice of prioritising investment opportunities that leverage upon our many years of experience and accumulated credibility, and we will continue to make investment decisions based on highly prudent and rigorously calculated risk-adjusted reward analysis. Finally, I wish to say that I am proud of your team, who have been working continuously and with drive to enhance the interests of our shareholders.

Vong Tat leong, David Executive Director 23 August 2010

## **Management Discussion and Analysis**

#### **OVERALL PERFORMANCE**

For the year ended 30 April 2010, the Group generated revenue of approximately HK\$102.8 million (2009: approximately HK\$156.2 million) with a loss for the year of approximately HK\$7.9 million (2009: approximately HK\$50.3 million).

#### **BUSINESS REVIEW**

#### **Financial Services**

During this year, the revenue of our financial services businesses was approximately HK\$1.6 million, which reflected no significant change as compared to last year.

#### Securities

Our securities business returned a profit of approximately HK\$9.7 million (2009: loss of approximately HK\$18.6 million) which was mainly contributed by net realised and unrealised gain on securities investment of approximately HK\$11.4 million (2009: loss of approximately HK\$16.9 million) for this year.

#### Property

Our property business contributed steady rental income to the Group. The revenue of the Group's property business segment was approximately HK\$554,000 (2009: approximately HK\$444,000). The business segment contributed a profit of approximately HK\$9.4 million (2009: loss of approximately HK\$2.2 million) to the Group. The increase in segment profit was mainly due to (i) the unrealised fair value gain on investment properties of approximately HK\$7.0 million (2009: fair value loss of approximately HK\$2.4 million) as at 30 April 2010; and (ii) gain on disposal of certain investment properties of approximately HK\$2.1 million during this year. Excluding the gain on unrealised fair value and disposed of certain properties in 2010, the recurring profit of the property business segment would have been approximately HK\$310,000 (2009: approximately HK\$283,000).

#### **Technology & Media**

Our technology & media businesses recorded a loss of approximately HK\$1.9 million, a decrease in loss of approximately HK\$9.3 million or 83.3% as compared to last year.

## **Management Discussion and Analysis**

#### Food & Beverage

During this year, revenue for our food & beverage businesses was approximately HK\$100.6 million (2009: approximately HK\$154.1 million), resulting in a segment loss of approximately HK\$5.8 million (2009: approximately HK\$7.8 million).

#### SEASONAL/CYCLICAL FACTORS

The sales volume during festive periods is normally higher than the sales volume in the slack periods of the year for food and beverage operations.

#### **FINANCIAL REVIEW**

#### **Liquidity and Financial Resources**

The Group maintains a stable financial position with cash and cash equivalents of the Group as at 30 April 2010 amounting to approximately HK\$235.2 million (2009: approximately HK\$291.5 million). The Group's current ratio as at 30 April 2010 is 6.7 (2009: 7.8). The total equity of the Group amounted to approximately HK\$365.2 million (2009: approximately HK\$373.6 million) as at 30 April 2010.

#### Gearing

The gearing ratio, as a ratio of bank borrowings to total equity, was 0.04 as at 30 April 2010 (2009: 0.01).

#### **Exchange Rate Exposure**

As at 30 April 2010, the Group's cash and cash equivalents amounted to approximately HK\$235.2 million, the majority of which was in Hong Kong dollars. Since the majority of the Group's transactions, monetary assets and liabilities are denominated in Hong Kong dollars, United States dollars and Renminbi, with relatively stable exchange rates of Renminbi to Hong Kong dollars and Hong Kong's linked exchange rate between United States dollar and Hong Kong dollar, the Group has minimal exposure to exchange rate fluctuations.

#### **Treasury Policies**

The Group generally finances its ordinary operations with internally generated resources. The interest rates of most of the borrowings, if applicable, are charged by reference to prevailing market rates.

## **Management Discussion and Analysis**

#### **Contingent Liabilities**

- (a) In December 2005, a legal action was commenced by a former employee of Kamboat Chinese Cuisine Company Limited ("KCCC"), a wholly owned subsidiary of the Company, against KCCC for the claim of approximately HK\$1,569,000 for personal injuries, loss and damages suffered during work in KCCC. In the opinion of the directors, such claim should be adequately covered by the Group's insurance. Hence, no provision has been made in the financial statements.
- (b) As at 30 April 2010, a number of current employees achieved the required number of years of service to the Group in order to be eligible for long service payments under the Employment Ordinance should their employment be terminated under certain prescribed circumstances. A provision has not been recognised in respect of such possible payments, as it is not considered probable that there will be a material future outflow of resources from the Group in respect thereof. The Group has a contingent liability in respect of possible future payments to employees under the Employment Ordinance with a maximum possible amount of approximately HK\$233,000 (2009: approximately HK\$976,000) at 30 April 2010.
- (c) As at 30 April 2009 and 2010, KCCC provided corporate guarantee to a landlord to the extent of approximately HK\$370,000 and HK\$190,000 respectively in respect of the operating lease payments. No recognition of such guarantee was made for the years ended 30 April 2009 and 2010 because the directors of the Company did not consider it probable that a claim would be made against the Group under the guarantee.

#### Commitments

The Group has capital commitments, which are contracted but not provided for, in respect of purchase of property, plant and equipment and investment properties amounting to HK\$nil as at 30 April 2010 (2009: approximately HK\$5.7 million).

#### **FUTURE PROSPECTS**

The Group anticipates that the next year will be no less challenging than the previous year, but we will continue to seek potential investment opportunities, to diversify our business portfolios, and improve our business performance.

#### **EMPLOYMENT AND REMUNERATION POLICY**

As at 30 April 2010, the Group had 344 (2009: 431) employees in Hong Kong and the PRC. The Group has not had any significant problems with its employees or disruptions due to labour disputes nor has it experienced difficulties in the recruitment and retention of experienced staff. The Group remunerates its employees based on industry practices. Its staff benefits, welfare, share options and statutory contributions, if any, are made in accordance with individual performance and prevailing labour laws of its operating entities.

## **Profile of Directors**

#### **EXECUTIVE DIRECTORS**

**Mr Vong Tat leong, David**, aged 48, has been a director of the Company since 2005 and serves as the Chief Executive Officer of the Company. #### DIRECTORS

The Directors during the year and up to the date of this report were:

Executive Directors: Mr Vong Tat leong, David *(Chief Executive Officer)* Mr Wong Chi Man (resigned as of 29 September 2009) Mr Xu Siping

Independent non-executive Directors: Mr Fung Ka Keung, David Dr Lam Lee G. Ms Wong Man Ngar, Edna

In accordance with article 87 of the Company's articles of association, Mr Xu Siping and Mr Fung Ka Keung, David, will retire by rotation and, being eligible, will offer themselves for re-election at the forthcoming annual general meeting.

#### **INDEPENDENCE CONFIRMATION**

The Company has received from each of the independent non-executive Directors a confirmation of independence pursuant to Rule 3.13 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"). The board of Directors is satisfied with the independence of each of the independent non-executive Directors.

#### **DIRECTORS' INTERESTS IN CONTRACTS**

Apart from the transactions disclosed in note 41 to the financial statements, no Director had a material interest, either directly or indirectly, in any contract of significance to the business of the Group to which the Company, or any of its holding companies, subsidiaries or fellow subsidiaries was a party during the year.

#### **DIRECTORS' SERVICE CONTRACTS**

Mr Vong Tat leong, David has an employment agreement with a subsidiary of the Group commencing on 3 September 2005, which will continue thereafter unless and until terminated by either party giving not less than one month's notice in writing or until terminated by mutual consent. Mr Vong has elected to waive part of his entitled compensation under the employment agreement for the year ended 30 April 2010.

Mr Xu Siping has an employment agreement with a subsidiary of the Group commencing on 3 September 2005, which will continue thereafter unless and until terminated by either party giving not less than one month's notice in writing or until terminated by mutual consent.

Other emoluments are determined by the Company's board of Directors with reference to the Directors' duties, responsibilities and performance and the results of the Group.

Save as disclosed above, no Director proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

# DIRECTOR'S AND CHIEF EXECUTIVE'S INTERESTS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 30 April 2010, the interests and short positions of the Director and chief executive of the Company in the shares, underlying shares and debentures of the Company or its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")), as recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO, or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code"), were set out as follows:

| Name of Director                          | The Company/<br>Name of<br>associated company | Capacity                              | Interest in shares                                    | Appropriate<br>percentage of<br>shareholding |
|---|---|---------------------------------------|---|--|

#### Interests in the Shares of the Company

Note: / The interest of Mr Vong is held by Vongroup Holdings Limited, of which he is the ultimate beneficial owner.

Save as disclosed above, as at 30 April 2010, none of the Directors had registered an interest in the shares, underlying shares or debentures of the Company or any of its associated corporations that was required to be recorded pursuant to Section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code.

#### **DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES**

Save as disclosed in the share option scheme disclosures in note 36 to the financial statements, at no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any Director or their respective spouse or minor children, or were any such rights exercised by them or was the Company, or any of its holding companies, subsidiaries or fellow subsidiaries a party to any arrangement to enable the Directors to acquire such rights in any other body corporate.

# SUBSTANTIAL SHAREHOLDER'S INTEREST IN SHARES AND UNDERLYING SHARES

As at 30 April 2010, the following interests of 5% or more of the issued share capital of the Company were recorded in the register of interests required to be kept by the Company pursuant to Section 336 of the SFO.

| Name of shareholders             | Interest in shares | Percentage of<br>the Company's<br>issued share<br>capital |
|----------------------------------|--------------------|---|
| Mr Vong Tat leong, David (note)  | 3,962,000,000      | 67.61%  |
| Vongroup Holdings Limited (note) | 3,962,000,000      | 67.61%  |

*Note:* The relationship between Vongroup Holdings Limited and Mr Vong is disclosed under "Director's and Chief Executive's Interests in Shares, Underlying Shares and Debentures" above.

Save as disclosed above, as at 30 April 2010, no person other than the Directors of the Company, whose interests are set out in the section "Director's and Chief Executive's Interests in Shares, Underlying Shares and Debentures" had registered an interest in the shares, underlying shares and debentures of the Company that was required to be recorded under Section 336 of the SFO.

#### SHARE OPTION SCHEME

The Company adopted a share option scheme on 15 September 2001 ("the Share Option Scheme"). Pursuant to the Share Option Scheme, the Directors of the Company, at their discretion, may grant options to Directors, officers and employees (whether full time or part-time) of the Company or a subsidiary and any other groups or classes of suppliers, customers, sub-contractors or agents of the Group from time to time determined by the Directors as having contributed or may contribute to the development and growth of the Group. No share options were outstanding nor granted during the year ended 30 April 2010.

# DIRECTOR'S INTERESTS IN COMPETING BUSINESSES AND CONFLICTS OF INTERESTS

During the year ended 30 April 2010, the following Director was considered to have interests in businesses which compete or are likely to compete, either directly or indirectly, with the businesses of the Group, as defined in the Listing Rules, as set out below:

Mr Wong Chi Man, a former executive Director who resigned as of 29 September 2009, and his associates have interests in other companies which are engaged in food & beverage businesses in and outside Hong Kong as follows:

| Company                                 | Place of operations | Position<br>held | Percentage of<br>interest held |
|---|---------------------|------------------|--------------------------------|
| Golden Cup Industries Limited           | Hong Kong           | None             | 5.3                            |
| East Ocean Teochew Restaurant Pte. Ltd. | Singapore           | Director         | 50.0                           |
| East Ocean Seafood Restaurant Pte. Ltd. | Singapore           | Director         | 39.0                           |

Mr Wong Chi Man and his associates have only minority interests in the company listed above which has operation in Hong Kong.

In respect of those companies in which Mr Wong Chi Man and his associates have a controlling stake, food & beverage businesses are located and operate in Singapore, where the Group has no operations. The Directors therefore consider that the Group is capable of carrying on its business independently of, and at arm's length from, the businesses of the abovementioned companies.

Save as disclosed above, none of the executive Directors or any of their respective associates have engaged in any business that competes or may compete with the businesses of the Group or have any other conflict of interests with the Group.

#### **CONNECTED TRANSACTIONS**

Certain related party transactions entered by the Group during the year ended 30 April 2010, which also constitute connected transactions under the Listing Rules, are disclosed in note 41 to the financial statements.

#### **CORPORATE GOVERNANCE**

The Company is committed to maintaining a high standard of corporate governance and has compiled with the Code on Corporate Governance Practices as set out in Appendix 14 to the Listing Rules. Further information on the Company's corporate governance practices is set out in the Corporate Governance Report.

#### SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the Directors, at least 25% of the Company's issued share capital was held by the public as at the date of this report.

#### AUDITOR

A resolution for re-appointment of CCIF CPA Limited as the auditor of the Company for the ensuing year is to be proposed at the forthcoming Annual General Meeting.

ON BEHALF OF THE BOARD

Vong Tat leong, David Executive Director

Hong Kong 23 August 2010

The Company is firmly committed to maintaining and improving the quality of corporate governance so to ensure better transparency of the Company, protection of shareholders' and stakeholders' rights and enhance shareholder value.

The Stock Exchange of Hong Kong Limited (the "Stock Exchange") introduced the Code on Corporate Governance Practices (the "CG Code") as set out in Appendix 14 to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") effective from 1 January 2005. The Board of Directors (the "Board") responded promptly to review its corporate governance practice and took appropriate actions to ensure that they are in compliance with the CG Code. The Board also reviewed its corporate governance practices and ensured that they are in compliance with the CG Code in the year ended 30 April 2010.

Set out below are the status and details of compliance by the Company of the CG Code in the year ended 30 April 2010.

#### DIRECTORS' SECURITIES TRANSACTIONS

#### INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF VONGROUP LIMITED

(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Vongroup Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 24 to 114, which comprise the consolidated and Company statements of financial position as at 30 April 2010, and the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flow for the year then ended, and a summary of significant accounting policies and other explanatory notes.

#### DIRECTORS' RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation and the true and fair presentation of these financial statements in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

#### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of the report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

## **Independent Auditor's Report**

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **OPINION**

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 30 April 2010 and of the Group's result and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

#### 1. CORPORATE INFORMATION

The Company was incorporated in the Cayman Islands as an exempted company with limited liability under the Companies Law of the Cayman Islands. The address of its registered office is Cricket Square Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111. The address of its principal place of business is 1208 Great Eagle Centre, 23 Harbour Road, Wanchai, Hong Kong. The Company's shares are listed on the Main Board on The Stock Exchange of Hong Kong Limited (the "Stock Exchange").

The Company is an investment holding company. The principal activities of its subsidiaries are set out in note 17.

In the opinion of the directors of the Company, at 30 April 2010, Vongroup Holdings Limited, a company incorporated in the British Virgin Islands, which owns 67.61% of the issued share capital of the Company, is the ultimate holding company and Mr. Vong Tat leong, David is the ultimate controlling party of the Company.

#### 2. PRINCIPAL ACCOUNTING POLICIES

#### (a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. A summary of the significant accounting policies adopted by the Group is set out below.

The HKICPA has issued certain amendments and interpretations which are or have become effective. It has also issued certain new and revised HKFRSs which are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 3 provides information on initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

#### (b) Basis of preparation

The consolidated financial statements for the year ended 30 April 2010 comprise the Company and its subsidiaries, the Group's interest in a jointly-controlled entity and interest in an associate.

For the year ended 30 April 2010

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (b) Basis of preparation (Continued)

Items included in the financial statements of each entity in the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to the entity. These financial statements are presented in Hong Kong dollars ("HK\$"), rounded to the nearest thousand except for per share data. Hong Kong dollar is the Company's functional and presentation currency.

The measurement basis used in the preparation of the financial statements is the historical cost convention, except for the available-for-sale financial assets, investment properties and financial assets at fair value through profit or loss that have been measured at fair value.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 42.

#### (c) Consolidation

The consolidated financial statements include the financial statements of the Company and all of its subsidiaries made up to 30 April. The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition or up to the effective date of disposal, as appropriate.

All material inter-company transactions and balances within the Group are eliminated on consolidation.

For the year ended 30 April 2010

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (c) Consolidation (Continued)

The gain or loss on the disposal of a subsidiary represents the difference between the sales proceeds and the Group's share of its net assets together with any goodwill or capital reserve which was not previously charged or recognised in the consolidated statement of comprehensive income.

Minority interests represent the interests of outside shareholders in the operating results and net assets of subsidiaries.

#### (d) Subsidiaries and minority interests

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases.

Intra-group balances and transactions and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Minority interests represent the portion of the net assets of subsidiaries attributable to interests that are not owned by the Company, whether directly or indirectly through subsidiaries, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. Minority interests are presented in the consolidated statement of financial position with equity, separately from equity attributable to the owners of the Company. Minority interests in the results of the Group are presented on the face of the consolidated statement of comprehensive income as an allocation of the total profit or loss for the year between minority interests and the owners of the Company.

Where losses applicable to the minority exceed the minority's interest in the equity of a subsidiary, the excess, and any further losses applicable to the minority, are charged against the Group's interest except to the extent that the minority has a binding obligation to, and is able to, make additional investment to cover the losses. If the subsidiary subsequently reports profits, the Group's interest is allocated all such profits until the minority's share of losses previously absorbed by the Group has been recovered.

For the year ended 30 April 2010

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (d) Subsidiaries and minority interests (Continued)

Loans from holders of minority interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of financial position in accordance with note 2(p) depending on the nature of the liability.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less any impairment losses (see note 2(j)), unless the investment is classified as held for sale.

#### (e) Associates

An associate is an entity in which the Group or Company has significant influence, but not control or joint control, over its management, including participation in the financial and operating policy decisions.

An investment in an associate is accounted for in the consolidated financial statements under the equity method and is initially recorded at cost and adjusted thereafter for the post acquisition change in the Group's share of the associate's net assets, unless it is classified as held for sale. The consolidated statement of comprehensive income includes the Group's share of the post-acquisition, post-tax results of the associates for the year, including any impairment loss on goodwill relating to the investments in associates recognised for the year (see notes 2(g) and (j)).

When the Group's share of losses exceeds its interest in the associate, the Group's interest is reduced to nil and recognition of further losses is discontinued except to the extent that the Group has incurred legal and constructive obligations or made payments on behalf of the associate. For this purpose, the Group's interest in the associate is the carrying amount of the investment under the equity method together with the Group's long term interests that in substance form part of the Group's net investment in the associate.

Unrealised profits and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associate, except where unrealised losses provide evidence of an impairment of the asset transferred, in which case they are recognised immediately in profit or loss.

In the Company's statement of financial position, investments in associates are stated at cost less impairment losses (see note 2(j)), unless it is classified as held for sale.

For the year ended 30 April 2010

#### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (f) Jointly-controlled entities

A joint venture is a contractual arrangement whereby two or more parties undertake an economic activity which is subject to joint control and none of the participating parties has unilateral control over the economic activity.

A jointly-controlled entity is a contractual arrangement that involves the establishment of a corporation, partnership or other entity in which each venturer has an interest.

The Group's share of the post acquisition results and reserves of jointly-controlled entities is included in the consolidated statement of comprehensive income and consolidated reserves, respectively. The Group's interest in jointly-controlled entity is stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting less any provision for diminution in value other than that considered to be temporary in nature deemed necessary by the directors.

#### (g) Goodwill

Goodwill represents the excess of the cost of a business combination or an investment in an associate or a jointly-controlled entity over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities.

Goodwill is stated at cost less accumulated impairment losses. Goodwill is allocated to cashgenerating units and is tested annually for impairment (note 2(j)). In respect of associates or jointly-controlled entities, the carrying amount of goodwill is included in the carrying amount of the interest in the associate or jointly-controlled entity.

Any excess of the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the cost of a business combination or an investment in an associate or a jointly-controlled entity is recognised immediately in profit or loss.

On disposal of a cash generating unit, an associate or a jointly-controlled entity during the year, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

#### (h) Property, plant and equipment

Property, plant and equipment other than investment properties are stated at cost less accumulated depreciation and impairment losses.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (h) **Property, plant and equipment (Continued)**

Major costs incurred in restoring property, plant and equipment to their normal working condition are charged to the statement of comprehensive income. Improvements are capitalised and depreciated over their expected useful lives.

Subsequent expenditure relating to property, plant and equipment that has already been recognised is added to the carrying amount of the asset when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the enterprise. All other subsequent expenditure is recognised as an expense in the period in which it is incurred.

The gain or loss on disposal of property, plant and equipment other than investment properties is the difference between the net sales proceeds and the carrying amount of the relevant asset, and is recognised in the statement of comprehensive income.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

- buildings situated on leasehold land held for own use are depreciated on a straight-line basis over the shorter of the unexpired term of lease and their estimated useful lives, being no more than 50 years after the date of completion;
- other property, plant and equipment are depreciated on a straight-line method over their estimated useful lives as follows:

| Leasehold improvements            | 20% or over the remaining term of the lease, |
|-----------------------------------|--|
|                                   | if shorter                                   |
| Furniture, fixtures and equipment | 10% – 20%                                    |
| Motor vehicles                    | 20%  |
| Utensils and supplies             | 331/3%                                       |

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

For the year ended 30 April 2010

## 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (i) Investment properties

Investment properties are land and/or buildings which are owned or held under a leasehold interest (see note 2(w)) to earn rental income and/or for capital appreciation. These include land held for a currently undetermined future use and property that is being constructed or developed for future use as an investment property.

Investment properties are stated in the statement of financial position at fair value, unless they are still in the course of construction or development at the end of the reporting period and their fair value cannot be reliably determined at that time. Any gain or loss arising from a change in fair value or from the retirement or disposal of an investment property is recognised in profit or loss. Rental income from investment properties is accounted for as described in note 2(m)(v).

When the Group holds a property interest under an operating lease to earn rental income and/or for capital appreciation, the interest is classified and accounted for as an investment property on a property-by-property basis. Any such property interest which has been classified as an investment property is accounted for as if it were held under a finance lease (see note 2(w)), and the same accounting policies are applied to that interest as are applied to other investment properties leased under finance leases. Lease payments are accounted for as described in note 2(w).

### (j) Impairment of assets

#### (i) Impairment of investments in equity securities and other receivables

Investments in equity securities (other than investments in subsidiaries, associates and jointly-controlled entities: see note 2(j)(ii)) and other current and non-current receivables that are stated at cost or amortised cost or are classified as available-for-sale equity securities are reviewed at the end of each financial period date to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and

### (j) Impairment of assets (Continued)

(i)

Impairment of investments in equity securities and other receivables (Continued)

a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

If any such evidence exists, any impairment loss is determined and recognised as follows:

For unlisted equity securities carried at cost, the impairment loss is measured as the difference between the carrying amount of the financial asset and the estimated future cash flows, discounted at the current market rate of return for a similar financial asset where the effect of discounting is material. Impairment losses for equity securities are not reversed.

For trade receivables and other financial assets carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where financial assets carried at amortised cost share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assets with credit risk characteristics similar to the collective group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

For available-for-sale securities, the cumulative loss that has been recognised directly in equity is removed from equity and is recognised in profit or loss. The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost (net of any principal repayment and amortisation) and current fair value, less any impairment loss on that asset previously recognised in profit or loss.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (j) Impairment of assets (Continued)

#### (i) Impairment of investments in equity securities and other receivables (Continued)

Impairment losses recognised in profit or loss in respect of available-for-sale equity securities are not reversed through profit or loss. Any subsequent increase in the fair value of such assets is recognised directly in equity.

Impairment losses are written off against the corresponding assets directly, except for impairment losses recognised in respect of trade debtors included within trade and other receivables, whose recovery is considered doubtful but not remote. In this case, the impairment losses for doubtful debts are recorded using an allowance account. When the Group is satisfied that recovery is remote, the amount considered irrecoverable is written off against trade debtors directly and any amounts held in the allowance account relating to that debt are reversed. Subsequent recoveries of amounts previously charged to the allowance account and subsequent recoveries of amounts previously written off directly are recognised in profit or loss.

#### (ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- lease premium for land;
- investments in subsidiaries, associates and jointly-controlled entity (except for those classified as held for sale); and
- goodwill.

For the year ended 30 April 2010

## 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (j) Impairment of assets (Continued)

#### (ii) Impairment of other assets (Continued)

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, the recoverable amount is estimated annually whether or not there is any indication of impairment.

Calculation of recoverable amount

The recoverable amount of an asset is the higher of its fair value less costs to sell and value in use. In assessing its value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

#### Recognition of impairment losses

An impairment loss is recognised in profit or loss whenever the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cashgenerating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, or value in use, if determinable.

#### Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of impairment losses is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (j) Impairment of assets (Continued)

#### (iii) Interim financial reporting and impairment

Under the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited, the Group is required to prepare an interim financial report in compliance with HKAS 34, Interim financial reporting, in respect of the first six months of the financial year. At the end of the interim period, the Group applies the same impairment testing, recognition, and reversal criteria as it would at the end of the financial year.

Impairment losses recognised in an interim period in respect of goodwill and available-forsale equity securities carried at cost are not reversed in a subsequent period. This is the case even if no loss, or a smaller loss, would have been recognised had the impairment been assessed only at the end of the financial year to which the interim period relates.

#### (k) Provisions and contingent liabilities

Provisions are recognised for liabilities of uncertain timing or amount when the Company or Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (I) Financial assets

The Group classified its investments in securities in the following categories: Available-for-sale financial assets, financial assets at fair value through profit or loss and loans and receivables. The classification depends on the purpose for which the investments were acquired.

#### *(i)* Available-for-sale financial assets

Available-for-sale financial assets are initially recognised at fair value plus transaction costs. At the end of each reporting period the fair value is remeasured, with any resultant gain or loss being recognised directly in equity. Dividend income from these investments is recognised in profit or loss in accordance with the policy set out in note 2(m) and, where these investments are interest-bearing, interest calculated using the effective interest method is recognised in profit or loss as set out in note 2(m). When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is recognised in profit or loss.

For available-for-sale financial assets that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses at the end of each reporting period subsequent to initial recognition. An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired. The amount of the impairment loss is measured as the difference between the carrying amount of the asset and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses will not reverse in subsequent period.

Investments are recognised/derecognised on the date the Group and/or the company commits to purchase/sell the investments or when they expire.

Financial assets at fair value through profit or loss

#### (ii)

This category has two sub-categories: financial assets held for trading, and those designated at fair value through profit or loss at inception. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within 12 months of the end of reporting period. Financial assets at fair value through profit or loss are carried at fair value, realised and unrealised gains and losses arising from changes in the fair value of these investments are included in the statement of comprehensive income in the period in which they arise.

For the year ended 30 April 2010

## 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (I) Financial assets (Continued)

#### (iii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains or losses are recognised in the income statement when the loans and receivables are derecognised or impaired, as well as through the amortisation process. They arise when the Group provides money or services directly to a debtor or a related company with no intention of trading the receivable. They are included in current assets, except for maturities greater than 12 months after the end of reporting period. These are classified as non-current assets.

#### (m) Revenue recognition

Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

#### *(i) Revenue from food & beverage businesses*

Revenue from food & beverage businesses is recognised when catering services have been provided to customers.

#### (ii) Revenue from financial services charges and loan interest income

- Financial service charge income, which is collected from the customer at the inception of the financial services, is recognised ratably over the term of the loan made.
- Loan interest income is recognised using the effective interest method for all loans that the Group deems to be collectible based on historical loan redemption statistics.

### (iii) Interest income

Interest income is recognised on a time proportion basis, taking into account the principal amounts outstanding and the interest rates applicable.

For the year ended 30 April 2010

## 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (m) Revenue recognition (Continued)

#### (iv) Sales of forfeited collateral

Sales of forfeited collateral are recognised on the transfer of risks and rewards of ownership, which generally coincides with the time when the forfeited collateral is delivered and the title has passed to customers.

#### (v) Rental income from operating leases

Rental income receivable under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable. Contingent rentals are recognised as income in the accounting period in which they are earned.

#### (vi) Dividends

Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established. Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend.

#### (vii) Sale of trading securities

Revenue on sale of trading securities is recognised on a trade date basis when the relevant transactions are executed.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (n) Trade and other receivables

Trade and other receivables are initially recognised at fair value and thereafter stated at amortised cost less allowance for impairment of doubtful debts, except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment of doubtful debts (see note 2(j)).

#### (o) Moneylending loan receivables

Moneylending loan receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. A typical moneylending loan has a term of thirty days. If the loan is not repaid, the loan principal becomes the cost of the forfeited collateral, if any, which is held for sale.

#### (p) Trade and other payables

Trade and other payables are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

#### (q) Foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss, except those arising from foreign currency borrowings used to hedge a net investment in a foreign operation which are recognised directly in equity. Non-monetary assets and liabilities measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies stated at fair value are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies stated at fair value are translated using the foreign exchange rates ruling at the transaction dates.

The results of foreign operations are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items, including goodwill on consolidation of foreign operations acquired on or after 1 January 2005, are translated into Hong Kong dollars at the foreign exchange rates ruling at the end of the reporting period. The resulting exchange differences are recognised directly in a separate component of equity. Goodwill on consolidation of a foreign operation acquired before 1 January 2005 is translated at the foreign exchange rate that applied at the date of acquisition of the foreign operation.

### (r) Retirement scheme

The Group operates a defined contribution mandatory provident fund retirement benefits scheme (the "Hong Kong Scheme") under the Mandatory Provident Fund Scheme Ordinance, for those employees who are eligible to participate in the Hong Kong Scheme. The Hong Kong Scheme became effective on 1 December 2000. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of comprehensive income as they become payable in accordance with the rules of the Hong Kong Scheme. The assets of the Hong Kong Scheme are held separately from those of the group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the Hong Kong Scheme.

The Group's PRC operations participate in defined contribution retirement plans managed by the local municipal government in the locations in which it operates. The relevant authorities of the local municipal government in the PRC is responsible for the retirement benefit obligations payable to the Group's retire employees. The Group has no obligation for payment of retirement benefits beyond the annual contribution. The contribution payable is charged as an expense to profit or loss as and when incurred.

#### (s) Inventories

Inventories are carried at the lower of cost and net realisable value.

Cost is calculated using the first-in, first-out basis and comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (t) Forfeited collateral held for sale

Forfeited collateral held for sale consists of forfeited collateral, from moneylending loans not repaid. The forfeited collateral is stated at the lower of cost (moneylending loan principal) and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale. The cost of forfeited collateral held for sale, computed on the specific identification basis, is recorded as a cost of revenue at the time of sale.

#### (u) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts that the repayable on demand and form an integral part of the Group's cash management are also included as a component of cash and cash equivalents for the purpose of the statement of cash flow.

### (v) / Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised directly in equity, in which case they are recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (v) Income tax (Continued)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax assets can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

For the year ended 30 April 2010

## 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (v) Income tax (Continued)

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
    - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

### (w) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (w) Leased assets (Continued)

#### (i) Classification of assets leased to the Group

Assets held by Group under leases which transfer to the Group substantially all the risks and rewards of ownership are classified as being held under finance leases. Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases, with the following exception:

Land held for own use under an operating lease, the fair value of which cannot be measured separately from the fair value of a building situated thereon at the inception of the lease, is accounted for as being held under a finance lease, unless the building is also clearly held under an operating lease. For these purposes, the inception of the lease is the time that the lease was first entered into by the Group, or taken over from the previous lessee, or at the date of construction of those buildings, if later.

#### (ii) Assets acquired under finance leases

Where the Group acquires the use of assets under finance leases, the amounts representing the fair value of the leased asset, or, if lower, the present value of the minimum lease payments, of such assets are included in fixed assets and the corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. Depreciation is provided at rates which write off the cost or valuation of the assets over the term of the relevant lease or, where it is likely the Company or Group will obtain ownership of the asset, the life of the asset, as set out in note 2(j). Impairment losses are accounted for in accordance with the accounting policy as set out in note 2(j). Finance charges implicit in the lease payments are charged to profit or loss over the period of the leases so as to produce an approximately constant periodic rate of charge on the remaining balance of the obligations for each accounting period.

#### *(iii)* Operating lease charges

Where the Group has the use of assets under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are written off as an expense of the accounting period in which they are incurred.

The cost of acquiring land held under an operating lease is amortised on a straight-line basis over the period of the lease term except where the property is classified as an investment property.

For the year ended 30 April 2010

## 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (x) Employee benefits

Salaries, annual bonuses, paid annual leave, leave passage and the cost to the group of nonmonetary benefits are accrued in the year in which the associated services are rendered by employee of the Group. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in capital reserve within equity. The fair value is measured at grant date using the binomial lattice pricing model, taking into account the terms and conditions upon which the options were granted. Where the employees have to meet vesting conditions before becoming unconditionally entitled to the options, the total estimated fair value of the options is spread over the vesting period, taking into account the probability that the options will vest.

During the vesting period, the number of share options that is expected to vest is reviewed. Any adjustment to the cumulative fair value recognised in prior years is charged/credited to the profit or loss for the year of the review, unless the original employee expenses qualify for recognition as an asset, with a corresponding adjustment to the capital reserve. On vesting date, the amount recognised as an expense is adjusted to reflect the actual number of options that vest (with a corresponding adjustment to the capital reserve) except where forfeiture is only due to not achieving vesting conditions that relate to the market price of the Company's shares. The equity amount is recognised in the capital reserve until either the option is exercised (when it is transferred to the share premium account) or the option expires (when it is released directly to retained profits).

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

### (y) Related parties

For the purpose of these financial statements, parties are considered to be related to the Group if:

- the party has the ability, directly or indirectly through one or more intermediaries, to control the Group or exercise significant influence over the Group in making financial and operating policy decisions, or has joint control over the Group;
- (ii) the Group and the party are subject to common control;
- (iii) the party is an associate of the Group or a joint venture in which the Group is a venturer;
- (iv) the party is a member of key management personnel of the Group or the Group's parent, or a close family member of such an individual, or is an entity under the control, joint control or significant influence of such individuals;
- (v) the party is a close family member of a party referred to in (i) or is an entity under the control, joint control or significant influence of such individuals; or
- (vi) the party is a post-employment benefit plan which is for the benefit of employees of the Group or of any entity that is a related party of the Group.

Close family members of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

### (z) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

For the year ended 30 April 2010

### 2. PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (aa) Borrowing costs

Borrowing costs are expensed in profit or loss in the period in which they are incurred, except to the extent that they are capitalised as being directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

### (ab) Research and development costs

Research and development costs are expensed as incurred, except where the product or process is clearly defined and the costs attributable to the product or process can be separately identified and measured reliably; is technically feasible; the Group intends to produce and market, or use the product or process; the existence of a market for the product or process or, if it is to be used internally rather than sold, its usefulness to the Group, can be demonstrated; and adequate resources exist, or their availability can be demonstrated, to complete the project and market or use the product or process.

Such development costs are recognised as an asset to the extent of the amount that, taken together with further development costs, related production costs, and selling and administrative costs directly incurred in marketing the product, is probable of being recovered from related future economic benefits. The excess amount is written off as incurred.

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised as an expense in the period in which it is incurred.

Expenditure on development activities is capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources and the intention to complete development. The expenditure capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads. Capitalised development costs are stated at cost less accumulated amortisation and impairment losses (see note 2(j)). Other development expenditure is recognised as an expense in the period in which it is incurred.

# 3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

The Group has adopted the following new and revised Standards, Amendments and Interpretations ("new and revised HKFRSs") that are first effective for the current accounting period.

| HKAS 1 (Revised 2007)  | Presentation of Financial Statements                     |
|------------------------|--|
| HKAS 23 (Revised 2007) | Borrowing Costs  |
| HKFRS 1 & HKAS 27      | Cost of an Investment in a Subsidiary,                   |
| (Amendments)           | Jointly Controlled Entity or Associate                   |
| HKFRS 2 (Amendment)    | Vesting Conditions and Cancellations                     |
| HKFRS 7 (Amendment)    | Improving Disclosures about Financial Instruments        |
| HKFRS 8                | Operating Segments                                       |
| HKFRSs (Amendments)    | Improvements to HKFRSs issued in 2008, except for the    |
|                        | amendment to HKFRS 5 which is effective for annual       |
|                        | periods beginning or after 1 July 2009                   |
| HKFRSs (Amendments)    | Improvements to HKFRSs issued in 2009 in relation to the |
|                        | amendment to paragraph 80 of HKAS 39                     |

Except as described below, the adoption of the new and revised HKFRSs has had no material effect on the consolidated financial statements of the Group for the current or prior accounting periods.

The amendments to HKAS 23, HKFRS 2 and HKFRS 7 have had no material impact on the Group's financial statements as the amendments and interpretations were consistent with policies already adopted by the Group. The impact of the remainder of these developments is as follows:

• HKFRS 8 requires segment disclosure to be based on the way that the Group's chief operating decision maker regards and manages the Group, with the amounts reported for each reportable segment being the measures reported to the Group's chief operating decision maker for the purposes of assessing segment performance and making decisions about operating matters. This contrasts with the presentation of segment information in prior years which was based on a disaggregation of the Group's financial statements into segments based on related products and services and on geographical areas. The adoption of HKFRS 8 has resulted in the presentation of segment information in a manner that is more consistent with internal reporting provided to the Group's chief operating decision maker, and has resulted in additional reportable segments being identified and presented (see note 4). Corresponding amounts have been provided on a basis consistent with the revised segment information.

For the year ended 30 April 2010

### 3. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (CONTINUED)

- As a result of the adoption of HKAS 1 (revised 2007), details of changes in equity during the period arising from transactions with equity shareholders in their capacity as such have been presented separately from all other income and expenses in a revised consolidated statement of changes in equity. All other items of income and expense are presented in the consolidated statement of comprehensive income, if they are recognised as part of profit or loss for the period, or otherwise in a new primary statement, the consolidated statement of comprehensive income. Corresponding amounts have been restated to conform to the new presentation. This change in presentation has no effect on reported profit or loss, total income and expense or net assets for any period presented.
- The "Improvements to HKFRSs (2008)" comprise a number of amendments to a range of HKFRSs. Of these, the following three amendments have resulted in changes to the Group's accounting policies:
  - As a result of amendments to HKAS 28, Investments in associates, impairment losses recognised in respect of the associates and jointly-controlled entities carried under the equity method are no longer allocated to the goodwill inherent in that carrying value. As a result, when there has been a favourable change in the estimates used to determine the recoverable amount, the impairment loss will be reversed. Previously, the Group allocated impairment losses to goodwill and, in accordance with the accounting policy for goodwill, did not consider the loss to be reversible. In accordance with the transitional provisions in the amendment, this new policy will be applied prospectively to any impairment losses that arise in the current or future periods and previous periods have not been restated.
  - As a result of amendments to HKAS 40, Investment property, investment property which is under construction will be carried at fair value at the earlier of when the fair value first becomes reliably measurable and the date of completion of the property. Any gain or loss will be recognised in profit or loss, consistent with the policy adopted for all other investment properties carried at fair value. Previously such property was carried at cost until the construction was completed, at which time it was fair valued with any gain or loss being recognised in profit or loss. As the Group does not currently have any investment property under construction, this change in policy has no impact on the net assets or profit or loss for any of the periods presented.
  - The amendments to HKAS 27 have removed the requirement that dividends out of preacquisition profits should be recognised as a reduction in the carrying amount of the investment in the investee, rather than as income. As a result, as from 1 January 2009, all dividends receivable from subsidiaries, associates and jointly-controlled entities, whether out of pre- or post-acquisition profits, will be recognised in the entity's profit or loss and the carrying amount of the investment in the investee will not be reduced unless that carrying amount is assessed to be impaired as a result of the investee declaring the dividend. In such cases, in addition to recognising dividend income in profit or loss, the entity would recognise an impairment loss. In accordance with the transitional provisions in the amendment, this new policy will be applied prospectively to any dividends receivable in the current or future periods and previous periods have not been restated.

For the year ended 30 April 2010

### 4. SEGMENT INFORMATION

The Group has adopted HKFRS 8 Operating Segments with effect from 1 April 2009. HKFRS 8 is a disclosure standard that requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker for the purpose of allocating resources to segments and assessing their performance. In contrast, the predecessor standard (HKAS 14 "Segment Reporting") required an entity to identify two sets of segments (business and geographical) using a risks and returns approach. In the past, the Group's primary reporting format was business segment. The application of HKFRS 8 has not resulted in a redesignation of the Group's reportable segments as compared with the primary reportable segments determined in accordance with HKAS 14.

Operating segments are identified on the basis of internal reports which provides information about components of the Group. These information are reported to and reviewed by the chief operating decision maker for the purposes of resource allocation and performance assessment.

#### (a) Segment revenue, results, assets and liabilities

For the purpose of assessing segment performance and allocating resources between segments, the Group's chief operating decision maker monitors the results, assets and liabilities attributable to each reportable segment on the following bases:

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segment. Head office and corporate expenses are not allocated to individual segments.

Segment assets principally comprise all tangible assets, intangible assets and current assets directly attributable to each segment. Segment liabilities include trade creditors, accruals and deposit received attributable to each segments and finance lease payable and bank borrowings managed directly by the segments.

## 13. PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

The carrying amount of a motor vehicle of the Group held under finance lease at 30 April 2010 amounted to HK\$510,000 (2009: HK\$671,000).

During the year, the Group carried out a review of the recoverable amount of its buildings held for own use in the Group's food & beverage businesses segment. The review led to the recognition of an impairment loss of HK\$nil (2009: HK\$340,000), that has been recognised in profit or loss. The recoverable amount of the relevant assets has been determined on the basis of their fair value less cost to sell. An independent valuation of the Group's land and buildings was performed by Asset Appraisal Limited to determine the fair value of Group's buildings held for own use.

The impairment losses have been included in line item in the consolidated statement of comprehensive income.

The carrying amount of the Group's buildings held for own use, which is held under long term lease, is analysed as follows:

## **15. INVESTMENT PROPERTIES**

The fair value of the Group's investment properties at 30 April 2010 have been arrived at on the basis of a valuation carried out on that date by Asset Appraisal Limited, an independent qualified professional valuer not connected with the Group. Asset Appraisal Limited has appropriate qualifications and recent experience in the valuation of similar properties in the relevant locations. The valuation, which conforms to Hong Kong Institute of Surveyors Valuation Standards on Properties, was mainly arrived at by reference to comparable market transactions for similar properties.

All of the Group's properties interests held under operating leases to earn rentals and/or for capital appreciation purposes are measured using the fair value model and are classified and accounted for as investment properties.

Two investment properties are leased to third parties under operating leases, further details of which are included in note 40(a) to the financial statements.

#### Impairment test for cash-generating unit containing goodwill

Goodwill is allocated to the Group's cash-generating unit ("CGU") identified according to business segment as follows:

|                               | Gre              | oup              |
|-------------------------------|------------------|------------------|
|                               | 2010<br>HK\$'000 | 2009<br>HK\$'000 |
| Financial services businesses | 8,988            | 8,988            |

The recoverable amount of the CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period.

Key assumptions for financial services businesses used for value-in-use calculations:

|                              |  | Gr               | oup       |

| Growth rate<br>Discount rate |  | 12%<br>9%        | 12%<br>9% |

Management determined the budgeted gross margin based on past performance and its expectation for market development. The weighted average growth rate used is consistent with forecasts included in industry reports. The discount rate used is pre-tax and reflect specific risks relating to the relevant segments.

Based on the impairment test performed, no impairment loss is recognised for the year (2009: Nil).

## **17. INTERESTS IN SUBSIDIARIES**

The impairment was recognised for certain interests in subsidiaries and for the amounts due from subsidiaries. During the year, an additional impairment of HK\$Nil (2009: HK\$66,019,000) was charged to the statement of comprehensive income as the present value of estimated cash flows, discounted at the effective interest rate, is lower than their carrying amounts.

The amounts due from subsidiaries are unsecured, interest free and have no fixed terms of repayment.

The following list contains only the particulars of subsidiaries which principally affected the results, assets or liabilities of the Group:

## 23. ACCOUNTS RECEIVABLE (CONTINUED)

Receivables that were neither past due nor impaired relate to a wide range of customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

#### Movement in the allowance for doubtful debts

Included in the allowance for doubtful debts made for the year are individually impaired trade receivables with a balance of HK\$nil (2009: HK\$15,000 which have been placed under liquidation). The impairment recognised represents the difference between the carrying amount of these trade receivables and the present value of the expected liquidation proceeds. The Group does not held any collateral over these balances.

## **36. SHARE OPTION SCHEME**

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Scheme include the Company's directors, including non-executive directors, employees of the Group, any other groups or classes of suppliers, customers, subcontractors or agents of the Group and the Company's shareholders determined by the directors as having contributed or who may contribute to the development and growth of the Group. The Scheme became effective on 9 October 2001 and, unless otherwise cancelled or amended, remains in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period, is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholder's approval in a general meeting.

For the year ended 30 April 2010

## **36. SHARE OPTION SCHEME (CONTINUED)**

Share options granted to any director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors of the Company. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the official closing price of the Company's shares at the date of the grant) in excess of HK\$5 million, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 21 days from the date of offer, upon the payment of a nominal consideration of HK\$1 in total by the grantee. An option may be exercised in accordance with the terms of the Scheme at any time during the period commencing from the date on which the option is deemed to be granted and accepted and expiring on a date to be notified by the directors to each grantee, which shall not be more than 10 years from the date on which the option is deemed and accepted. There is no minimum holding period before an option may be exercised.

The exercise price of the share options is determinable by the directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Company's shares on the date of grant of the share options; (ii) the average Stock Exchange closing price of the Company's shares for the five trading days immediately preceding the date of grant; and (iii) the nominal value of the Company's shares.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

No share options under the Share Option Scheme were granted and outstanding during the years ended 30 April 2009 and 2010.

For the year ended 30 April 2010

The Company's reserves as at 30 April 2010 available for distribution to owners of the Company as calculated under the provision of the Companies Law of Cayman Islands are approximately HK\$359,585,000 (2009: approximately HK\$366,098,000).

#### Nature and purpose of reserves

#### (i) Share premium

The application of the share premium account is governed by the Companies Law of the Cayman Islands. Under the Companies Law of the Cayman Islands, the funds in share premium account are distributable to shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company will be in a position to pay off its debts as they fall due in the ordinary course of business.

#### (ii) Capital redemption reserve

The capital redemption reserve represents the amount by which the Company's issued share capital has been diminished on the cancellation of the shares purchased. Under the Companies Law of the Cayman Islands, the capital redemption reserve may be applied by the Company in paying up its unissued shares to be allocated to shareholders of the Company as fully-paid bonus shares.

For the year ended 30 April 2010

## **37. RESERVES (CONTINUED)**

#### (iii) Statutory surplus reserve

According to the Company's PRC subsidiaries' articles of association, the PRC company is required to transfer 10% of its net profit after tax, as determined in accordance with the PRC accounting rules and regulations, to the statutory surplus reserve. When the balance of the statutory surplus reserve reaches 50% of the PRC company's registered capital, any further appropriation is optional. The transfer to this reserve must be made before distribution of a dividend to the shareholders.

Statutory surplus reserve can be used to make up previous years' losses, if any, and may be converted into capital in proportion to their existing shareholdings, provided that the balance after such conversion is not less than 25% of the registered capital.

#### (iv) Exchange translation reserve

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of operations outside Hong Kong. The reserve is dealt with in accordance with the accounting policy set out in note 2(q).

### **38. DISPOSAL OF SUBSIDIARIES**

On 23 December 2008, the Group disposed of its 100% equity interest in Kamboat Group Company Limited and its wholly-owned subsidiary, 東莞新聯食品有限公司 ("東莞新聯") to an independent third party. The consideration of HK\$158,000 was satisfied in cash.

|   |          |

Kamboat Group Company Limited and its subsidiary disposed of during the year 2009 contributed revenue of HK\$85,000 and loss after tax of HK\$309,000 to the Group for the period from 1 May 2008 to 23 December 2008.

For the year ended 30 April 2010

### **39. CONTINGENT LIABILITIES**

- (a) In December 2005, a legal action was commenced by a former employee of KCCC, a wholly owned subsidiary of the Company, against KCCC for the claim of approximately HK\$1,569,000 for personal injuries, loss and damages suffered during the work in KCCC. In the opinion of the directors, such claim should be adequately covered by the Group's insurance. Hence, no provision has been made in the financial statements.
- (b) At 30 April 2010, a number of current employees achieved the required number of years of service to the Group in order to be eligible for long service payments under the Employment Ordinance should their employment be terminated under certain prescribed circumstances. A provision has not been recognised in respect of such possible payments, as it is not considered probable that there will be a material future outflow of resources from the Group in respect thereof. The Group has a contingent liability in respect of possible future payments to employees under the Employment Ordinance with a maximum possible amount of approximately HK\$233,000 (2009: approximately HK\$976,000) at 30 April 2010.
- (c) At 30 April 2009 and 2010, KCCC provided corporate guarantee to a landlord to the extent of approximately HK\$370,000 and HK\$190,000 respectively in respect of the operating lease payments. No recognition of such guarantee was made for the years ended 30 April 2009 and 2010 because the directors of the Company did not consider it probable that a claim would be made against the Group under the guarantee.

#### 40. OPERATING LEASE ARRANGEMENTS

#### (a) As lessor

The Group leases its investment properties (note 15) under operating lease arrangement, typically with leases negotiated for terms of two years. The terms of the lease generally also require the lessee to pay security deposit.

At 30 April 2010, the Group had total future minimum lease receivables under non-cancellable operating leases with lessees falling due as follows:

|   | Group    |          |

## 41. RELATED PARTY TRANSACTIONS (CONTINUED)

#### (a) The Group had the following transactions with its related parties during the year: (Continued)

#### Notes:

- (i) The Group purchased bakery products from its associate in the prior year. The prices were determined through negotiations with its associate on a case-by-case basis.
- (ii) The legal fees were charged for legal services rendered by a law firm, a partner of which is a close relative of a director, Mr. Vong Tat leong, David. The corporate secretarial services fees were charged for services rendered by corporate secretarial firms which were controlled by a close relative of a director, Mr. Vong Tat leong, David.
- (iii) The rental expense was charged in accordance with a licence agreement between the Group and the licensor which was controlled by a close relative of Mr. Vong Tat leong, David. The agreement was terminated in the year ended 30 April 2009.
- (iv) The Group paid rental expense to a landlord of which Mr. Wong is a shareholder. The lease was terminated in the year ended 30 April 2009.
- (v) The salaries and other allowances were paid to a close relative of Mr. Wong. There was no such expense in the year ended 30 April 2010.

#### (b) Key management personnel:

The key management personnel of the Group comprises all directors, details of their emoluments are disclosed in note 9(i).

### 42. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

#### (a) Key sources of estimation uncertainty

In the process of applying the Group's accounting policies which are described in note 2, management has made certain key assumptions concerning the future, and other key sources of estimated uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as discussed below.

For the year ended 30 April 2010

## 42. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

#### (a) Key sources of estimation uncertainty (Continued)

#### (i) Impairment of property, plant and equipment and lease premium for land

The recoverable amount of an asset is the greater of its net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset, which requires significant judgement relating to level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of revenue and operating costs. Changes in these estimates could have a significant impact on the carrying value of the assets and could result in additional impairment charge or reversal of impairment in future periods.

#### (ii) Estimate fair value of investment properties

The investment properties were revalued at the end of the reporting period on market value existing use basis by independent qualified valuers. Such valuations were based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In making the judgement, the Group considers information from current prices in an active market for similar properties and uses assumptions that are mainly based on market conditions existing at each balance sheet date.

#### (iii) Impairment of receivables

The Group maintains impairment allowance for doubtful accounts based upon evaluation of the recoverability of the account receivables and other receivables, where applicable, at each end of the reporting period. The estimates are based on the aging of the account receivables and other receivables balances and the historical write-off experience, net of recoveries. If the financial condition of the debtors were to deteriorate, additional impairment allowance may be required.

#### (iv) Estimated impairment of goodwill

Determining whether goodwill is impaired requires an estimation of the fair value in use of the cash-generating units to which goodwill has been allocated. The value in use calculation requires the Group to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value.

### 42. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

#### (a) Key sources of estimation uncertainty (Continued)

#### (v) Estimated fair value of available-for-sale financial assets

The fair value of financial instruments in active markets (such as trading securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Group is the closing bid price at the end of the reporting period.

The fair value of financial instruments that are not traded in active market is determined based on available recent market information such as most recent market transaction price with third parties and the latest available financial information existing at each end of the reporting period.

#### (vi) Allowance for inventories

The management of the Group reviews its inventories at each end of the reporting period and make allowance for obsolete and slow-moving inventory items identified that no longer suitable for use in production. Management estimates the net realisable value for such items based primarily on the latest invoice prices and current market conditions. The Group carries out an inventory review on a product-by-product basis at each end of the reporting period and make allowance for obsolete items.

#### (b) Critical accounting judgements in applying the Group's accounting policies

In determining the carrying amounts of some assets and liabilities, the Group makes assumptions for the effects of uncertain future events on those assets and liabilities at the end of the reporting period. These estimates involve assumptions about such items as cash flows and discount rates used. The Group's estimates and assumptions are based on historical experience and expectations of future events and are reviewed periodically. In addition to assumptions and estimations of future events, judgements are also made during the process of applying the Group's accounting policies.

### 43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

#### (a) Financial risk factors

The Group's major financial instruments include equity investments, borrowings, trade receivables and trade payables. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include credit risk, liquidity risk, currency risk, interest rate risk and equity price risk. The policies on how to mitigate these risks are set out below. The Group's management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

#### (i) Credit risk

Credit risk arises mainly from the risk that counterparties defaulting on the terms of their agreements. The carrying amounts of accounts receivable, cash and cash equivalents, pledged cash and cash equivalents, loan receivables and other receivables represent the Group's maximum exposure to credit risk in relation to financial assets.

The Group monitors the exposure to credit risk on an ongoing basis and credit evaluations are performed on debtors requiring credit over a certain amount. In addition, receivable balances are also monitored on an ongoing basis; therefore, the Group's exposure to bad debts is not significant. The credit risk on balances of cash and cash equivalents and pledged cash and cash equivalents is low as these balances are placed with reputable financial institutions.

In respect of accounts receivable, the Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk. At the end of the reporting period, the Group had no significant concentrations of credit risk which individual account and other receivables balance exceeds 10% of the total account and other receivables at the end of the reporting period.

Further quantitative data in respect of the Group's exposure to credit risk arising from other receivables is disclosed in notes 23, 24 and 25 to the financial statements.

#### (ii) Liquidity risk

Individual operating entities within the Group are responsible for its own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demand, subject to board approval. The Group's policy is to regularly monitor current and expected liquidity requirements and its compliance with lending covenants to ensure that it maintains sufficient amount of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term. The Group relies on bank borrowings as a significant source of liquidity.

## 43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (a) Financial risk factors (Continued)

#### (iii) Cash flow interest-rate risk

Except for certain interest-bearing bank deposits and bank borrowings, the Group has no significant interest-bearing assets and liabilities. The Group's income and operating cash flows are substantially independent of changes in market interest rates. Bank deposits and bank borrowings issued at variable rates expose the Group to cash flow interest-rate risk. Details of the Group's bank borrowings have been disclosed in note 32 to the financial statements.

The Group has not entered into any interest rate swaps to hedge its exposure to interest risks.

The Group's exposures to interest rates on financial assets and financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of prime rate arising from the Group's Hong Kong dollar borrowings.

#### i) Interest rate profile

The following table details the interest rate profile of the Group's borrowings at the end of reporting period:

#### (a) Financial risk factors (Continued)

#### (iii) / Cash flow interest-rate risk (Continued)

ii) Sensitivity analysis

At 30 April 2010, it is estimated that a general increase/decrease of 100 basis points in interest rates would decrease/increase the Group's loss after tax and accumulated losses by approximately HK\$130,000 (2009 HK\$39,000).

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of reporting period and had been applied to the exposure to interest rate risk for non-derivative financial instruments in existence at that date. The 100 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the next end of reporting period.

#### (iv) Currency risk

Presently, there is no hedging policy with respect to the Group's foreign exchange exposure. The Group's transactional currency is mainly HK\$ as most of the revenue is in HK\$.

Considering the gradual appreciation of RMB against Hong Kong dollars which is expected to continue, the management is of the view that the currency risk is not significant.

The following table details the Group's exposure at the end of the reporting period to currency risk arising from recognised assets or liabilities denominated in a currency other than the functional currency of the entity to which they relate. The currency giving rise to this risk is primarily Renminbi. The Company is not exposed to material currency risk at the end of the reporting period.

## 43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (a) Financial risk factors (Continued)

- (iv) / Currency risk (Continued)
  - ii) Sensitivity analysis

The following table indicates the approximate change in the Group's loss after tax (and accumulated losses) and other components of consolidated equity in response to reasonably possible changes in the foreign exchange rate to which the Group has significant exposure at the end of the reporting period.

|     | 20            | 10             | 20            | 09             |

|     |               |                |               |                |

|     | (5%)          | (301)          | (5)%          | (322)          |

The sensitivity analysis has been determined assuming that the change in foreign exchange rates had occurred at the end of the reporting period and had been applied to the Group's exposure to currency risk for both derivative and non-derivative financial instruments in existence at that date, and that all other variables, in particular interest rates, remain constant.

The stated changes represent management's assessment of reasonably possible changes in foreign exchange rate over the period until the next annual end of the reporting period. In this respect, it is assumed that the pegged rate between the Hong Kong dollar and the United States dollar would be materially unaffected by any changes in movement in value of the United States dollar against other currencies. Results of the analysis as presented in the above table represent an aggregation of the effects on each of the Group's entities loss after tax and equity measured in the respective functional currencies, translated into Hong Kong dollar at the exchange rate ruling at the end of the reporting period for presentation purposes. The analysis is performed on the same basis as for 2009.

## 43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (a) Financial risk factors (Continued)

#### (v) Equity price risk

The Group is exposed to equity price changes arising from equity investments classified as financial assets at fair value through profit or loss (see note 27).

The Group's listed investments are listed on the Stock Exchange and Canadian Stock Exchange. Decisions to buy or sell trading securities are based on daily monitoring of the performance of individual securities compared to that of the stock market index and other industry indicators, as well as the Group's liquidity needs.

At 30 April 2010, it is estimated that an increase/(decrease) of 5% (2009: 5%) in the relevant stock market index (for listed investments), with all other variables held constant, would have increased/decreased the Group's loss after tax (and accumulated losses) as follows:

|   |                      | 2010      | )           | 2009 |             |

#### The Group

The sensitivity analysis indicates the instantaneous change in the Group's loss after tax (and accumulated losses) and other components of consolidated equity that would arise assuming that the changes in the stock market index or other relevant risk variables had occurred at the end of reporting period and had been applied to re-measure those financial instruments held by the Group which expose the Group to equity price risk at the end of the reporting period. It is also assumed that the fair values of the Group's equity investments would change in accordance with the historical correlation with the relevant stock market index or the relevant risk variables, that none of the Group's available-for-sale investments would be considered impaired as a result of the decrease in the relevant stock market index or other relevant risk variables, and that all other variables remain constant. The analysis is performed on the same basis as for 2009.

(vi) Fair values

i) Financial instruments carried at fair value

The following table presents the carrying value of financial instruments measured at fair value at the end of the reporting period across the three levels of the fair value hierarchy defined in HKFRS 7, Financial Instruments: Disclosures, with the fair value of each financial instruments categorised in its entirety based on the lowest level of input that is significant to that fair value measurement. The levels are defined as follows:

- Level 1 (highest level): fair values measured using quoted prices (unadjusted) in active markets for identical financial instruments
- Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data
- Level 3 (lowest level): fair values measured using valuation techniques in which any significant input is not based on observable market data

## 43. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

#### (a) Financial risk factors (Continued)

#### (vi) Fair values (Continued)

ii) Fair value of financial instruments carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortised cost are not materially different from their fair values as at 30 April 2009 and 2010.

#### (b) Capital risk management

The Group's objective when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

The Group monitors capital on the basis of the gearing ratio, which is calculated as total borrowings divided by total equity as shown in the consolidated statement of financial position. The gearing ratios as at 30 April 2010 and 2009 were as follows:

|                       | Group          |         |

#### (c) Estimation of fair values

The following summarises the major methods and assumptions used in estimating the fair values of the following financial instruments.

#### (i) Securities

Fair value is based on listed market price at the end of the reporting period without any deduction for transaction costs.

#### (ii) Bank borrowings

Fair value is estimated as the present value of future cash flows, discounted at current market interest rates for similar financial instruments.

## 44. CAPITAL COMMITMENTS

The application of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 July 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent's ownership interest in a subsidiary.

For the year ended 30 April 2010

## 46. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 30 APRIL 2010 (CONTINUED)

HKPRS 9 Financial Instruments introduces new requirements for the classification and measurement of financial assets and will be effective from 1 January 2013, with earlier application permitted. The Standard requires all recognised financial assets that are within the scope of HKAS 39 Financial Instruments: Recognition and Measurement to be measured at either amortised cost or fair value. Specifically, debt investments that (i) are held within a business model whose objective is to collect the contractual cash flows and (ii) have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost. All other debt investments and equity investments are generally recognised in other comprehensive income, with only dividend income recognised in profit or loss. The application of HKFRS 9 might affect the classification and measurement of the Group's financial assets.

In addition, as part of Improvements to HKFRSs issued in 2009, HKAS 17 Leases has been amended in relation to the classification of leasehold land. The amendments will be effective form 1 January 2010, with earlier application permitted. Before the amendments to HKAS 17, leases were required to classify leasehold land as operating leases and present them as prepaid lease payments in the consolidated statement of financial position. The amendments have removed such a requirement. Instead, the amendments require the classification of leasehold land to be based on the general principles set out in HKAS 17 that are based on the extent to which risks and rewards incidental to ownership of a leased asset lie with the lessor or the lessee. The application of the amendments to HKAS 17 might affect the classification and measurement of the Group's leasehold land at revalued amount.

The directors of the Company anticipate that the application of the other new and revised Standards, Amendments or Interpretations will have no material impact on the consolidated financial statements.

## 47. MAJOR NON-CASH TRANSACTIONS

During the year, deposits paid for acquisition of property, plant and equipment and investment properties of HK\$3,503,000 were transferred to investment properties upon acceptance of the title of ownership by the Group.

## 48. EVENTS AFTER REPORTING PERIOD

Subsequent to the end of the reporting period, KCCC and Win Investment Limited, subsidiaries of the Group, entered into sale and purchase agreements with independent third parties to dispose of four premises in buildings held for own use and the related lease premium for land with carrying value of HK\$2,459,000 and HK\$739,000 respectively and completion took place on 30 July 2010 at an aggregate consideration of HK\$4,480,000.
