Our results for fiscal 2010 were broadly in line with our expectations. The decisions we made in the previous year, most notably the closure of our Brand business and the termination of a Share Acquisition Agreement, enabled us to fully focus on our core OEM business and respond to the ongoing challenges, both internal and external.

In our second quarter we saw an increase in production orders as a result of the market starting to regain confidence in inventory management, with matching deliveries scheduled for our second half. Whilst our unit output in fiscal 2010 was less than last year and turnover marginally decreased, we were able to improve our gross margin, primarily due to changes in our product mix together with our ongoing efforts to trim our most expensive capacity. This improvement was reflected in our pre-tax profit which, in addition, was not subject to the one-off costs incurred during the previous period. Subsequent to the year end, we were pleased to reach a satisfactory settlement with Hong Kong Inland Revenue Department (the "IRD") on our long-running tax case and this settlement has been reflected in the current year's tax charge.

The industry is facing a variety of challenges. The sustainability of the market recovery is not certain and could well in the future be characterized by caution and volatility. Labour availability in China is a key issue with cost and capacity implications and the relatively recent decision to allow the RMB to appreciate, albeit in a controlled manner, against the US dollar will have the effect of driving up our China costs. The decline in the value of the Euro is a concern to those industries serving that market.

We at Top Form are determined to meet these challenges. We will continue to reshuffle our capacities in China and expand our labour sources by setting up sewing facilities in less industry-concentrated locations; we have successfully increased the capacity in Thailand through expansion and improvement of efficiency; we have secured additional capacity through dedicated contractors to help meet demand and we are scouting for expansion opportunities in locations outside of China. All in all we are making moves in ensuring the growth and sustainability of our core business.

We look forward to the remainder of fiscal 2011 with cautious optimism.

Your Board, having taken into account the current business climate, our cash position and reinvestment needs, has decided to propose a final dividend of HK\$0.025 per share for the fiscal year ended 30 June 2010 (2009: HK\$0.025 per share). Together with the interim dividend of HK\$0.015 per share, this represents an aggregate distribution of HK\$0.04 per share (2009: HK\$0.025 per share).

I would like to take this opportunity to express my sincere thanks to our Board members for their support and counsel and also our employees for their dedicated efforts in responding to the challenges of the past year.

MANAGEMENT DISCUSSION AND ANALYSIS

Following the closure of the Brand business in fiscal 2009, the Group's operational focus is in its core Manufacturing activity together with a Corporate cost center.

| | Revenue | | Profit (Loss/Expenses) | |
|----------------------|------------------|------------------|------------------------|------------------|
| | 2010 HK\$'000 | 2009 HK\$'000 | 2010 HK\$'000 | 2009 HK\$'000 |
| Manufacturing | 1,342,480 | 1,352,735 | 101,463 | 64,022 |
| Brand (discontinued) | – | 17,291 | – | (25,139) |
| Corporate | – | – | (13,944) | (25,046) |
| | <u>1,342,480</u> | <u>1,370,026</u> | <u>87,519</u> | <u>13,837</u> |

For the year ended 30 June 2010, the Group recorded manufacturing sales revenues of HK\$1,342 million, similar to the previous year. After tax profit amounted to HK\$54 million compared to a loss of HK\$14 million last year. Earnings per share were HK\$0.044 in the current period.

The 2009 results were severely impacted by the one-off costs incurred from our strategic decision to exit from our Brand business, together with the termination of a Share Acquisition Agreement. In order to provide a meaningful comparison, after adjusting for these items, the 2009 HK\$14 million loss reported in that year would have been a profit of HK\$12.1 million. On this basis, the 2010 after tax profit represents an increase of 344% over the adjusted prior period.

MANUFACTURING

During the year, our core OEM business achieved global sales of 42.9 million units of brassieres compared to 45.8 million units in 2009.

Our first half accounted for 20.2 million units, compared to 24.4 million units in 2009. In our second half we sold 22.7 million units compared to 21.4 million units in 2009.

Following the market weakness experienced in 2009, the latter months of the calendar year and our second half of the fiscal year benefited from the market recovery. During the fiscal year, in monetary terms, 65% of our sales were to the US market compared to 66% in the previous year. The EU accounted for 21% (23% in the previous year) and the rest of the world 14% (11% in the previous year).

Gross margin improved from 19% to 22% as we trimmed our most expensive capacity as well as low margin sales. Production was migrated to our most effective locations and, in order to broaden our labour sources, smaller new facilities were developed. For the majority of the year, our performance was aided by the relatively stabilized environment in China where minimum wage levels and the tax rebate on imported materials for processing and export of textile and garment products remained unchanged.

China accounted for 56% of our global capacity, Thailand 33%, and the Philippines 11%.

FINANCIAL POSITION

The financial position of the Group remains robust with shareholders' funds standing at HK\$550.7 million as at 30 June 2010 compared with HK\$545.8 million at the previous year end.

As of 30 June 2010, bank balances and cash stood at HK\$220.6 million. Credit facilities available to the Group amounted to HK\$150 million whilst gearing remained at an insignificant level.

As detailed in note 11 to the consolidated financial statements, subsequent to the balance sheet date the Group reached a full and final settlement with the IRD relating to the tax audit for the years of assessment 2002/03 to 2009/10. Additional income tax of HK\$16,037,000 has been charged to the consolidated income statement for the year ended 30 June 2010.

Capital expenditure during the year amounted to HK\$19.3 million.

CORPORATE

The costs attributable to our corporate cost center amounted to HK\$14 million compared to HK\$15.8 million in the previous year after adjusting one-off charges incurred during that year.

OUTLOOK

In early summer 2010, the Chinese Government announced increases of between 10-25% in minimum wage levels in the industrial regions of the country and our manufacturing locations are no exception. This, together with a dwindling supply of labour in Southern China, and the relatively recent decision to allow the RMB to appreciate against the US dollar in a controlled manner, will inevitably impact on costs. The weakening EURO may impact on our business with the EU. While less than 8% of our revenues are received in that currency, the weakening currency may discourage consumption and erode margin if we fail to pass on the cost to customers.

Current customer demand, however, remains healthy. We will, in appropriate locations, continue to expand our capacity to meet that demand as well as continuing our rigorous approach to controlling our costs, and to diversify our global capacities.

We remain confident in the sustainability of our manufacturing operations.

CORPORATE GOVERNANCE REPORT

The Group continues to commit itself to maintaining high standards of corporate governance principles and practices with an emphasis on enhancing transparency and accountability and ensuring the application of these principles and practices within the Group and thereby, enhancing shareholder value and benefiting our stakeholders at large.

During the year under review, the Company has complied with the code provisions as well as some recommended best practices of the Code on Corporate Governance Practices (“Code Provisions”) as set out in Appendix 14 to the Rules (“Listing Rules”) Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“the Hong Kong Stock Exchange”) except for the following deviations:

- A.4.1 – Non-executive Directors are not appointed for a specific term. They are, however, subject to retirement by rotation and re-election at least once every three years in accordance with the Company’s Bye-laws.
- A.4.2 – The Chairman and the Group Managing Director are not, while holding such office, subject to retirement by rotation or taken into account in determining the number of Directors to retire in each year. In the opinion of the Board, it is important for the stability and growth of the Company that there is, and is seen to be, continuity of leadership in these roles and, in consequence, the Board is of the view that both should not be subject to retirement by rotation or hold office for a limited term at the present time.

The Board is pleased to present the key corporate governance principles and practices followed by the Group during the year.

Business Integrity

Maintaining the highest professional and ethical standards is central to the Group’s core operating philosophy. The Group has formally adopted a Code of Conduct (the “Code”) addressing guiding principles governing conduct of Directors and senior employees. The Code is intended to establish minimum general standards of conduct encompassing the most common and sensitive areas in which the business operates.

In summary, executives of the Group are expected to:

- Conduct business of the Group in full compliance with both the letter and spirit of the Law and of the Code.
- Maintain the highest possible standards in the way we operate and the way we treat our employees in order to satisfy the expectations of both the business and social communities.
- Use confidential information properly.
- Recognize and avoid conflicts of interest.
- Protect the ownership of property of the Group, including information, products, rights and services.
- Conduct outside activities in a way which does not compromise the individual or the Group.

Communications with the Investment Community

The Company is committed to maintaining a continuing open dialogue with institutional investors and analysts to facilitate understanding of the group’s management, financial position, operations, strategy and plans.

The Chairman and Chief Financial Officer have the prime responsibility for these activities, with the Chairman taking the lead in the period immediately following the interim and final results announcements.

Regular one-on-one meetings are held with the financial community which, in a number of instances, involve visits to production facilities.

The Company endeavours to be responsive to all media requests.

DIRECTORS' REPORT

CONNECTED TRANSACTIONS

The Group has been for the past 28 years conducting transactions with Van de Velde N.V. ("VdV") by supplying ladies' intimate apparel to VdV. VdV is a connected person of the Company by virtue of its being a substantial shareholder of the Company and Mr. Lucas A.M. Laureys and Mr. Herman Van de Velde, the President and the Managing Director of VdV respectively, are Non-executive Directors of the Company. All transactions between VdV and the Group would constitute continuing connected transactions ("Continuing Connected Transactions") pursuant to the Listing Rules of the Hong Kong Stock Exchange. Accordingly, a master agreement dated 18 September 2005 (the "Master Agreement") had been entered into between VdV and the Company to govern the Continuing Connected Transactions and to set annual caps for the Continuing Connected Transactions in respect of the three financial years ended 30 June 2008.

On 18 June 2008, the Company had entered into a renewal agreement (the "Renewal Agreement") with VdV to renew the Master Agreement for further three years up to the financial year ending 30 June 2011 regarding the sale of ladies' intimate apparel to VdV.

An announcement dated 18 June 2008 and a circular dated 4 July 2008 regarding the Continuing Connected Transactions contemplated under the Renewal Agreement and the annual caps for the respective financial years 2009, 2010 and 2011 had been duly published and despatched to shareholders and approval had been obtained from independent shareholders of the Company on 23 July 2008.

Details of the Continuing Connected Transactions conducted during the year were set out below:

| Name of the Connected Person | Nature of the Continuing Connected Transactions | Amount HK\$'000 |
|------------------------------|---|--------------------|
| VdV | Sales of ladies' intimate apparel by the Group to VdV | <u>51,666</u> |

Pursuant to Rule 14A.37 of the Listing Rules of the Hong Kong Stock Exchange, the Independent Non-executive Directors of the Company have conducted an annual review and confirmed to the Board that during the year the Continuing Connected Transactions have been entered into:

1. in the ordinary and usual course of business of the Group;
2. on normal commercial terms or on terms no less favourable to the Company than terms available to or from independent third parties; and
3. in accordance with the terms of the relevant agreement governing such transactions that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

Pursuant to Rule 14A.38 of the Listing Rules of the Hong Kong Stock Exchange, the Board of Directors engaged the auditor of the Company to perform certain agreed upon procedures in respect of the Continuing Connected Transactions of the Group. The auditor has reported the factual findings on these procedures to the Board of Directors.

DIRECTORS' INTERESTS IN CONTRACTS

Other than the Continuing Connected Transactions as disclosed under the section headed "Connected Transactions" above, there were no contracts of significance to which the Company or any of its subsidiaries was a party and in which any one of the Directors of the Company had a material interest, whether directly or indirectly, subsisting at the end of the year or at any time during the year.

DIRECTORS' INTERESTS IN COMPETING BUSINESS

During the year, the following Directors were considered to have interests in the following business, which compete or is likely to compete, either directly or indirectly, with the business of the Group as required to be disclosed pursuant to Rule 8.10 of the Listing Rules:

Mr. Lucas A.M. Laureys, the President of VdV, has an indirect interest of 56.26% in VdV whose principal business activity is the manufacture and marketing of luxury lingerie. The Board considers that the business of VdV may indirectly compete with the business of the Group.

Mr. Herman Van de Velde, the Managing Director of VdV, has an indirect interest of 56.26% in VdV whose principal business activity is the manufacture and marketing of luxury lingerie. The Board considers the business of VdV may indirectly compete with the business of the Group.

Save as disclosed above, none of the Directors during the year has any interest in businesses which compete or may compete with the business of the Group, or have or may have any other conflicts of interest with the Group.

TO THE SHAREHOLDERS OF TOP FORM INTERNATIONAL LIMITED

黛麗斯國際有限公司

(incorporated in Bermuda with limited liability)

We have audited the consolidated financial statements of Top Form International Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 44 to 95, which comprise the consolidated balance sheet as at 30 June 2010, and the consolidated income statement, consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation and the true and fair presentation of these consolidated financial statements in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance. This responsibility includes designing, implementing and maintaining internal control relevant to the preparation and the true and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with Section 90 of the Bermuda Companies Act and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and true and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 30 June 2010 and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

1. GENERAL

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Hong Kong Stock Exchange"). The addresses of the registered office and principal place of business of the Company are disclosed in the section of corporate information of the annual report.

The consolidated financial statements are presented in Hong Kong dollars, which is different from the functional currency of the Company, being United States dollars ("USD"). As the Company is a public company with shares listed on the Hong Kong Stock Exchange and most of its investors located in Hong Kong, the directors consider that Hong Kong dollars is preferable in presenting the operating result and financial position of the Group.

The Company is an investment holding company. Its principal subsidiaries are engaged in the design, manufacture and distribution of ladies' intimate apparel, principally brassieres.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

In the current year, the Group has applied the following new and revised Standards, Amendments and Interpretations ("new and revised HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

| | |
|--|---|
| HKFRSs (Amendments) | Improvements to HKFRSs issued in 2008 |
| HKFRSs (Amendments) | Improvements to HKFRSs issued in 2009 in relation to the amendment to HKFRS 2, HKAS 38, paragraph 80 of HKAS 39, HK(IFRIC) – Int 9 and HK(IFRIC) – Int 16 |

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS (“HKFRSs”) – continued

Except as described below, the application of the new and revised HKFRSs had no material effect on the consolidated financial statements of the Group.

HKAS 1 (Revised 2007) Presentation of Financial Statements

HKAS 1 (Revised 2007) has introduced terminology changes (including revised titles for the consolidated financial statements) and changes in the format and content of the consolidated financial statements.

HKFRS 8 Operating Segments

HKFRS 8 is a disclosure standard that has not resulted in a redesignation of the Group’s reportable segments (see note 5).

HKAS 23 (Revised 2007) Borrowing Costs

In previous years, the Group expensed all borrowing costs when they were incurred. HKAS 23 (Revised 2007) removes the option previously available to expense all borrowing costs when incurred. The adoption of HKAS 23 (Revised 2007) has resulted in the Group changing its accounting policy to capitalise all borrowing costs that were directly attributable to the acquisition, construction or production of a qualifying asset as part of the cost of the qualifying asset.

The application of HKAS 23 (Revised 2007) had no material effect on the consolidated financial statements of the Group.

HKFRS 3 (Revised) Business Combinations

HKAS 27 (Revised) Consolidated and Separate Financial Statements

The Group applies HKFRS 3 (Revised) *Business Combinations* prospectively to business combinations for which the acquisition date is on or after 1 January 2010. The requirements in HKAS 27 (Revised) *Consolidated and Separate Financial Statements* in relation to accounting for changes in ownership interests in a subsidiary after control is obtained and for loss of control of a subsidiary are also applied prospectively by the Group on or after 1 January 2010.

As there was no transaction during the current year in which HKFRS 3 (Revised) and HKAS 27 (Revised) are applicable, the application of HKFRS 3 (Revised), HKAS 27 (Revised) and the consequential amendments to other HKFRSs had no effect on the consolidated financial statements of the Group for the current or prior years.

Results of the Group in future periods may be affected by future transactions for which HKFRS 3 (Revised), HKAS 27 (Revised) and the consequential amendments to the other HKFRSs are applicable.

² Effective for annual periods beginning on or after 1 July 2010 and 1 January 2011, as appropriate

³ Effective for annual periods beginning on or after 1 February 2010

⁴ Effective for annual periods beginning on or after 1 July 2010

⁵ Effective for annual periods beginning on or after 1 January 2011

⁶ Effective for annual periods beginning on or after 1 January 2013

As part of *Improvements to HKFRSs* issued in 2009, HKAS 17 *Leases* has been amended in relation to the classification of leasehold land. The amendments will be effective from 1 January 2010, with earlier application permitted. Before the amendments to HKAS 17, lessees were required to classify leasehold land as operating leases and presented as prepaid lease payments in the consolidated balance sheet. The amendments have removed such a requirement. Instead, the amendments require the classification of leasehold land to be based on the general principles set out in HKAS 17, that are based on the extent to which risks and rewards incidental to ownership of a leased asset lie with the lessor or the lessee. The application of the amendments to HKAS 17 might affect the classification of the Group’s leasehold land.

The directors of the Company (“Directors”) anticipate that the application of the other new and revised Standards, Amendments or Interpretations will have no material impact on the consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared on the historical cost basis.

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Hong Kong Stock Exchange and by the Hong Kong Companies Ordinance.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

Non-controlling interests in subsidiaries are presented separately from the equity of the owners of the Company.

Allocation of total comprehensive income to non-controlling interests

Total comprehensive income and expense of a subsidiary is attributed to the owners of the Company and to the non-controlling interests even if the results in the non-controlling interests having a deficit balance. Prior to 1 July 2009, losses applicable to the non-controlling interests in excess of the non-controlling interests in the subsidiary's equity were allocated against the interests of the Group except to the extent that the non-controlling interests had a binding obligation and were able to make an additional investment to cover the losses.

Investments in associates

An associate is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, investments in associates are carried in the consolidated balance sheet at cost as adjusted for post-acquisition changes in the Group's share of the net assets of the associates, less any identified impairment loss. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. An additional share of losses is provided for and a liability is recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Where a group entity transacts with an associate of the Group, profits and losses are eliminated to the extent of the Group's interest in the relevant associate.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold in the normal course of business, net of discounts and sales related taxes.

Revenue from sales of goods are recognised when goods are delivered and title has been passed.

Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Property, plant and equipment

Property, plant and equipment including leasehold land and buildings held for use in the production or supply of goods, or for administrative purposes, other than construction in progress, are stated at cost less subsequent accumulated depreciation and accumulated impairment losses.

Depreciation is provided to write off the cost of items of property, plant and equipment, other than construction in progress, over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

Construction in progress includes property, plant and equipment in the course of construction for production or for its own use purposes. Construction in progress is carried at cost less any recognised impairment loss. Construction in progress is classified to the appropriate category of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the profit or loss in the period in which the item is derecognised.

Prepaid lease payments for leasehold land

Prepaid lease payments represent upfront premium paid for use of land. Prepaid lease payments are released to the consolidated income statement over the lease term on a straight-line basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost, which comprises all cost of purchase and cost of conversion, where applicable, other costs that have been incurred in bringing the inventories to their present location and condition, is calculated using the weighted average method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Impairment

At each balance sheet date, the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated balance sheet as a finance lease obligation. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss.

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are recognised as a reduction of rental expense over the lease term on a straight-line basis.

Leasehold land and building

The land and building elements of a lease of land and building are considered separately for the purpose of lease classification, unless the lease payments cannot be allocated reliably between the land and building elements, in which case, the entire lease is generally treated as a finance lease and accounted for as property, plant and equipment. To the extent the allocation of the lease payments can be made reliably, leasehold interests in land are accounted for as operating leases and amortised over the lease term on a straight-line basis.

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the rate of exchange prevailing at the balance sheet date, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (the translation reserve).

Textile quota entitlements

The cost of textile quota entitlements is charged to the consolidated income statement at the time of utilisation or expiration.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to the Mandatory Provident Fund Scheme and state-managed retirement benefit schemes are charged as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each balance sheet date. Actuarial gains and losses which exceed 10 per cent of the greater of the present value of the Group's pension obligations and the fair value of plan assets are amortised over the expected average remaining working lives of the participating employees. Past service cost is recognised immediately to the extent that the benefits are already vested, and otherwise is amortised on a straight-line basis over the average period until the amended benefits become vested.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Retirement benefit costs – continued

The amount recognised in the consolidated balance sheet represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses and unrecognised past service cost, and as reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to unrecognised actuarial losses and past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

Termination benefits

Termination benefits are recognised as a liability and an expense when, and only when, the Group is demonstrably committed to either (a) terminate the employment of an employee or group of employees before the normal retirement date; or (b) provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

Termination benefits do not provide the Group with future economic benefits and are recognised as an expense immediately.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated income statement because it excludes items of income or expense that are taxable or deductible in other years, and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Taxation – continued

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the balance sheet date, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is recognised in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated balance sheet when a group entity becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial assets

The Group's financial assets are classified as loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. At each balance sheet date, subsequent to initial recognition, loans and receivables (including debtors, bills receivable, other receivables, bank balances and cash) are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy in respect of impairment loss on loans and receivable below).

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instrument.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Financial instruments – continued

Financial assets – continued

Impairment of loans and receivables

Loans and receivables are assessed for indicators of impairment at each balance sheet date. Loans and receivables are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the loans and receivables, the estimated future cash flows of the loans and receivables have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

An impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

The carrying amount of the loans and receivables is reduced by the impairment loss directly for all loans and receivables with the exception of debtors, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

If, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

3. SIGNIFICANT ACCOUNTING POLICIES – continued

Financial instruments – continued

Financial liabilities and equity

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. The accounting policy of the Group's financial liabilities are set out below.

Financial liabilities

Financial liabilities (including creditors and bank borrowings and other liabilities) are subsequently measured at amortised cost, using the effective interest method.

Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest expense is recognised on an effective interest basis.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

The Group makes estimates and assumptions concerning the future in preparing accounting estimates. The resulting accounting estimates may not equal to the actual results. The key estimates and assumptions that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next financial year are discussed below.

Allowance of doubtful debts

The Group recognises an allowance for doubtful debts based on assessment of recoverability of trade debtors. The Group has a concentration of risk with the top five customers comprising HK\$109 million (2009: HK\$89 million) of total trade debtors. The Group has a concentration of risk with the top five customers domiciled in the United States of America ("USA"), Europe and New Zealand comprising 81% (2009: 81%) of the Group's total revenue. Any adverse changes in the economic environment of the USA, Europe and New Zealand may impact the recoverability of the trade debtors. Any change in circumstances pertaining to one of these customers would have a material effect to the carrying amount of trade debtors. Allowances are applied to trade debtors where events or changes in circumstances provide objective evidence that the balances may not be collectible. The identification of doubtful debts requires the use of judgment and estimates. Where the actual cash flows are less than expectations, such difference will impact the carrying value of trade debtors and doubtful debts expense.

Allowance of inventories

The Group makes allowance for inventories based on an assessment of the net realisable value of inventories. Allowances are applied to inventories where events or changes in circumstances indicate that the net realisable value is lower than the cost of inventories or that the inventories have no further use. The Group has a concentration of risk with the top five customers domiciled in the USA, Europe and New Zealand comprising 81% (2009: 81%) of the Group's total revenue. Any adverse changes in the economic environment of the USA, Europe and New Zealand may impact demand for the Group's products and the net realisable value of the inventory. The allowance also depends on management's assessment of the condition and usefulness of the inventories. Where the expectation of the net realisable value or use of inventories is different from the original estimate, such difference will impact the carrying value of inventories and the allowance of inventories in the consolidated income statement. The Group's carrying amount for inventories as at 30 June 2010 was approximately HK\$225,085,000 (2009: HK\$162,920,000) net of allowance of inventories of HK\$44,818,000 (2009: HK\$44,101,000).

5. SEGMENT INFORMATION

The Group has adopted HKFRS 8 *Operating Segments* with effect from 1 July 2009. HKFRS 8 is a disclosure standard that requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision makers in order to allocate resources to segments and to assess their performance. In contrast, the predecessor standard, HKAS 14 *Segment Reporting*, required an entity to identify two sets of segments (business and geographical) using a risks and returns approach, with the entity's "system of internal financial reporting to key management personnel" serving only as the starting point for the identification of such segments.

In the past, the Group's primary segment reporting format was based on type of business carried out by the Group being manufacturing and brand business. The application of HKFRS 8 has not resulted in a redesignation of the Group's operating segments for the year ended 30 June 2009. Subsequent to the closure of the brand business in the year ended 30 June 2009, for the purpose of resources allocation and performance assessment, the Group's executive directors, being the Group's chief operating decision makers, review the operations on a plant by plant basis. No discrete financial information is available for each plant and the Group's executive directors review financial information on a consolidated basis. The Group has therefore only one operating segment for the year ended 30 June 2010.

(a) The following is an analysis of the Group's revenue and results by operating segment for the year ended 30 June 2009:

| | Manufacturing business HK\$'000 | Brand business HK\$'000 | Elimination HK\$'000 | Consolidated HK\$'000 |

5. SEGMENT INFORMATION – continued

Notes:

1. Inter-segment sales were charged at prevailing market rates.
2. Included in the segment results of manufacturing business was the impairment losses on property, plant and equipment of approximately HK\$8,517,000. Included in the segment results of brand business was the impairment losses and other costs of approximately HK\$16,791,000. Details are set out in note 6.
3. The amount included professional fees and other expenses amounting to approximately HK\$9,219,000. Details are set out in note 7.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 3. Segment profit represents profit earned by each segment without allocation of corporate expenses, interest income and finance costs. This is the measure reported to the Group's chief operating decision makers for the purposes of resource allocation and performance assessment.

All the Group's assets and liabilities are under the manufacturing business as at 30 June 2009 and 2010.

(b) Geographical information

The following table sets out information about the geographical location of revenue from external customers and information about its non-current assets. The geographical location of customers is based on the location at which the goods are delivered.

11. INCOME TAX EXPENSE

| | 2010 HK\$'000 | 2009 HK\$'000 |
|--|------------------|------------------|
| The charge comprises: | | |
| Current tax | | |
| Hong Kong Profits Tax calculated at 16.5% of the estimated assessable profit for the year | 12,301 | 9,965 |
| Taxation in other jurisdictions calculated at the rates prevailing in the respective jurisdictions | 3,525 | 3,734 |
| | <u>15,826</u> | <u>13,699</u> |
| Underprovision in prior years | | |
| Hong Kong Profits Tax | 16,037 | 14,638 |
| Taxation in other jurisdictions | 682 | 579 |
| | <u>16,719</u> | <u>15,217</u> |
| Deferred taxation (<i>note 25</i>) | | |
| Current year | 1,290 | (1,129) |
| | <u>33,835</u> | <u>27,787</u> |

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for the year.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

Certain subsidiaries of the Group operating in the PRC are eligible for certain tax holidays and concessions in respect of PRC income tax and are exempted from PRC income taxes for the two years commencing from their first profit making year of operation and thereafter, these PRC subsidiaries will be entitled to a 50% relief from PRC income tax for the following three years. The PRC income tax charges are arrived at after taking into account of these tax incentives.

Under the Law of the People's Republic of China on Enterprise Income Tax (the "EIT Law") and Implementation Regulation of the EIT Law, the tax rate of the PRC subsidiaries is 25% from 1 January 2008 onwards. The EIT Law provides a five-year transition period from 1 January 2008 for those subsidiaries which were established before the promulgation date of the EIT Law and which are entitled to a preferential lower tax rate under the effective tax laws or regulations and hence the 25% tax rate is only applicable to certain subsidiaries after the expiry of tax holidays and concessions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

11. INCOME TAX EXPENSE – continued

During the years ended 30 June 2008, 2009 and 2010, certain subsidiaries of the Company were subject to a tax audit raised by the Hong Kong Inland Revenue Department (the “IRD”) for the years of assessment from 2001/02 to 2009/10. The IRD requested information and documents relating to certain subsidiaries of the Group for the purpose of the tax audit.

During the year ended 30 June 2009, the IRD issued the notices of estimated assessment demanding final tax for the year of assessment 2002/03 on certain subsidiaries and the estimated assessment was settled in the form of a tax reserve certificate (“TRC”) amounting to HK\$3,520,000.

During the year, the IRD further issued notices of estimated assessment demanding final tax on certain subsidiaries for the years of assessment from 2003/04 to 2007/08. TRC amounting to HK\$74,400,000 relating to these estimated assessments were purchased.

Subsequent to the balance sheet date, the Group reached a settlement with the IRD at a sum of HK\$136,431,000, inclusive of HK\$21,000,000 as a compound penalty, as a full and final settlement of the whole case for all of the relevant years of assessment. As a result, additional income tax of HK\$16,037,000 for the relevant years of assessment has been provided for during the year ended 30 June 2010.

The taxation charge for the year can be reconciled to the profit before taxation in the consolidated income statement as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|---|------------------|------------------|
| Profit before taxation | <u>87,519</u> | <u>13,837</u> |
| Tax at Hong Kong Profits Tax rate of 16.5% | 14,441 | 2,283 |

| Total debtors and other receivables | <u>159,743</u> | <u>150,477</u> |

Before accepting any new customers, the Group will assess the potential customer's credit quality. 97% (2009: 95%) of the trade receivables that are neither past due nor impaired have the best credit quality.

The Group allows an average credit period of 30 days to its trade customers.

The following is an aged analysis of trade debtors presented based on the invoice date at the balance sheet date.

| | 2010 HK\$'000 | 2009 HK\$'000 |
|--------------|------------------|------------------|
| 0 – 30 days | 131,086 | 118,456 |

20. OTHER FINANCIAL ASSETS

Bills receivable

Included in bills receivable is an amount of HK\$27,270,000 (2009: HK\$17,791,000) aged within 30 days, HK\$2,399,000 (2009: HK\$2,698,000) aged within 31 to 60 days and HK\$7,000 (2009: HK\$nil) aged within 61 – 90 days. The Group does not hold any collateral over these balances.

Bank balances and cash

Bank balances and cash comprise cash held by the Group and short-term bank deposits with an original maturity of three months or less. The bank balances carry floating-rate interest at market rates which range from 0.01% to 0.95% (2009: 0.01% to 3.3%) per annum.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

21. CREDITORS AND ACCRUED CHARGES

Included in the balance are trade creditors of HK\$58,607,000 (2009: HK\$58,015,000).

The following is an aged analysis of trade creditors presented based on the invoice date at the balance sheet date.

| | 2010 HK\$'000 | 2009 HK\$'000 |

22. BANK BORROWINGS AND OTHER LIABILITIES – continued

Notes:

- (a) These bank borrowings are unsecured, repayable within one year and are all denominated in USD.
- (b) Other liabilities as at 30 June 2009 represented Renminbi denominated loans from the PRC government. The amounts were interest-free, unsecured and repayable within 1 year.

Trust receipts and import loans are arranged at the Singapore Interbank Rate (“SIBOR”) + 0.8% (2009: SIBOR + 0.8%) per annum, thus exposing the Group to cash flow interest rate risk.

The effective interest rate for trust receipts and import loans was 3% (2009: 2.5%) per annum.

23. OBLIGATIONS UNDER FINANCE LEASES

| | Minimum lease payments | | Present value of minimum lease payments | |

It is the Group’s policy to lease certain of its motor vehicles under finance leases. The average lease term is three years. For the year ended 30 June 2010, the average effective borrowing rate was 12.13% (2009: 12.13%) per annum. Interest rates underlying all obligations under finance leases are fixed at respective contract date. All leases are on a fixed repayment basis and no arrangements have been entered into for contingent payments.

24. RETIREMENT BENEFIT SCHEMES

(a) Provision for long service payments

Under the Hong Kong Employment Ordinance, the Group is required to make long service payments to its employees in Hong Kong upon the termination of their employment or retirement when the employees fulfill certain conditions and the termination meets the required circumstances. However, where an employee is simultaneously entitled to a long service payment and to a retirement scheme payment (e.g. from the Mandatory Provident Fund Scheme), the amount of the long service payment will be reduced by the benefits arising from the retirement scheme including investment return (loss) accumulated in the scheme.

The most recent actuarial valuation of the present value of the Group's obligation for long service payments was carried out at 30 June 2010 by Hewitt Associates LLC, an independent firm of human resource consultants and actuaries. The present value of the Group's obligation for long service payments, the related current service cost and actuarial (gain) loss were measured using the projected unit credit method.

The principal assumptions used for the purposes of the actuarial valuations were as follows:

| | 2010 | 2009 |
|-----------------------------------|----------------|-----------------|
| Discount rate | 2.5% per annum | 2.75% per annum |
| Expected rate of salary increases | 4% per annum | 4% per annum |
| Interest return on contributions | 6% per annum | 5% per annum |

Amounts recognised in profit or loss in respect of these long service payments are as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|---|------------------|------------------|
| Current service cost | (80) | (27) |
| Interest cost | 193 | 105 |
| Actuarial (gain) loss recognised in the year | (804) | 3,906 |
| Amount (credited) charged for the year (included in general and administrative expenses) | (691) | 3,984 |

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

24. RETIREMENT BENEFIT SCHEMES – continued

(a) Provision for long service payments – continued

The credit for the year of HK\$691,000 (2009: charge of HK\$3,984,000) is included in staff costs in the consolidated income statement.

Movements in the present value of the long service payments in the current and prior years are as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|--------------------------|------------------|------------------|
| At beginning of the year | 7,057 | 3,166 |
| Current service cost | (80) | (27) |
| Interest cost | 193 | 105 |
| Actuarial (gain) loss | (804) | 3,906 |
| Benefits paid | (45) | (93) |
| At end of the year | <u>6,321</u> | <u>7,057</u> |

(b) Defined contribution schemes

The Group has joined the Mandatory Provident Fund Scheme (“MPF Scheme”) for all employees in Hong Kong who have registered with the Mandatory Provident Fund Scheme Authority under the Mandatory Provident Fund Schemes Ordinance. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rules of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rates specified in the rules. The only obligation of the Group with respect of the MPF Scheme is to make the required contributions under the MPF Scheme. No forfeited contributions are available to reduce the contributions payable in the future years.

The eligible employees of the Company’s subsidiaries in the PRC are members of pension schemes operated by the Chinese local government. The subsidiaries are required to contribute a certain percentage of the relevant part of the payroll of these employees to the pension schemes to fund the benefits. The assets of the schemes are held separately from those of the Group in funds under the control of the Chinese local government.

The total cost charged to consolidated income statement of HK\$21,294,000 (2009: HK\$22,144,000) represents contributions payable to these schemes by the Group in respect of the current year.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

24. RETIREMENT BENEFIT SCHEMES – continued

(c) Defined benefit scheme

Eligible employees of the Company's subsidiaries in the Philippines currently participate in a defined benefit pension scheme operated by the local municipal government. The calculation of contributions to the scheme is based on certain percentages of the employees' salaries. The assets of the schemes are held separately from those of the Group in funds under the control of the local municipal government.

Under the plan, the employees are entitled to retirement benefits equal to 22.5 day's pay for every year of credited service in accordance with the Retirement Pay Law of The Philippines. No other post-retirement benefits are provided.

The most recent actuarial valuation of the present value of the defined benefit obligation was carried out on 30 June 2010 by E.M. Zalamea Actuarial Services, Inc., an independent firm of actuaries. The present value of the defined benefit obligation, the related current service cost, past service costs and actuarial loss (gain) were measured using the projected unit credit method.

The principal assumptions used for the purpose of the actuarial valuation were as follows:

| | 2010 | 2009 |
|-----------------------------------|----------------|---------------|
| Expected rate of salary increases | 5% per annum | 7% per annum |
| Discount rate | 8.8% per annum | 10% per annum |

Amounts recognised in profit or loss in respect of the defined benefit obligation are as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|---|------------------|------------------|
| Current service cost | 296 | 305 |
| Interest cost | 436 | 340 |
| Actuarial loss recognised in the year | 30 | – |
| Amount charged for the year (included in general and administrative expenses) | <u>762</u> | <u>645</u> |

The amount included in consolidated balance sheet, arising from the Group's obligation in respect of its defined benefit plans is as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|---|------------------|------------------|
| Present value of defined benefit obligation | 3,208 | 4,121 |

25. DEFERRED TAXATION

The following are the major deferred tax liabilities (asset) recognised by the Group and movements thereon during the current and prior years:

| | Accelerated tax depreciation HK\$'000 | Unrealised profit on inventory HK\$'000 | Tax losses HK\$'000 | Total HK\$'000 |
|---|--|--|---------------------------|-------------------|

25. DEFERRED TAXATION – continued

The following is the analysis of the deferred tax balances for financial reporting purposes:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|--------------------------|------------------|------------------|
| Deferred tax asset | 1,152 | 2,401 |
| Deferred tax liabilities | <u>(4,216)</u> | <u>(4,175)</u> |
| | <u>(3,064)</u> | <u>(1,774)</u> |

At the balance sheet date, the Group has unused estimated tax losses of approximately HK\$108,441,000 (2009: HK\$125,149,000), available for offset against future taxable profits. A deferred tax asset has been recognised in respect of HK\$6,982,000 (2009: HK\$14,553,000) of such losses. No deferred tax asset has been recognised in respect of the remaining tax losses of HK\$101,459,000 (2009: HK\$110,596,000) due to the unpredictability of future taxable profit streams. Included in unrecognised tax losses of the Group are losses of HK\$18,690,000 (2009: HK\$23,673,000) of subsidiaries in the PRC that will gradually expire up to 2014. Other losses may be carried forward indefinitely.

At the balance sheet date, the Group has unrecognised deductible temporary differences of approximately HK\$1,975,000 (2009: HK\$1,755,000) in respect of accelerated accounting depreciation. No deferred tax asset has been recognised in relation to such deductible temporary differences as it is not probable that taxable profit will be available against which the deductible temporary differences can be utilised.

At the balance sheet date, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries for which deferred tax liabilities have not been recognised was HK\$590,000 (2009: HK\$890,000). No liabilities has been recognised in respect of these differences because the Group is in a position to control the timing of reversal of the temporary differences and it is probable that such differences will not reverse in the foreseeable future.

26b. Financial risk management objectives and policies

The Group's major financial instruments include debtors, bills receivable, other receivables, creditors, bank balances and cash and bank borrowings. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (currency risk and interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

There has been no significant change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

Market risk

(i) Currency risk

Several subsidiaries of the Company have foreign currency sales and purchases, which expose the Group to foreign currency risk. Approximately 5% (2009: 9%) of the Group's sales are denominated in currencies other than the functional currency of the group entity making the sale, while almost 13% (2009: 21%) of purchase costs are not denominated in the group entity's functional currency. The Group does not have a foreign currency hedging policy. However, management monitors the foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The above assets and liabilities include outstanding EUR, RMB, USD, THB, PHP and HK\$ debtors and creditors, bank balances and cash and bank borrowings.

Sensitivity analysis

The Group is mainly exposed to fluctuations in exchange rates of EUR, RMB, USD, THB, PHP and HK\$. For fluctuations of USD against HK\$, there will be no significant impact as HK\$ is pegged with USD.

Sensitivity analysis – continued

The following table details the Group's sensitivity to a 5% increase and decrease in functional currency against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in the foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at year end for a 5% (2009: 5%) change in foreign currency rates. The sensitivity analysis includes external receivables and payables and also current accounts with the group entities where the denomination of the current accounts is in a currency other than the functional currency of the relevant group entities. A positive number below indicates increase in post-tax profit (2009: a decrease in loss) for the year where functional currencies of relevant group entities strengthens 5% (2009: 5%) against the relevant foreign currencies. For a 5% (2009: 5%) weakening of functional currencies against the relevant foreign currencies, there would be an equal and opposite impact on the profit for the year.

(ii) Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate bank balances and bank borrowings (see note 22 for details of these borrowings). It is the Group's policy to keep its borrowings at floating rates of interests so as to minimise the fair value interest rate risk.

The Group's exposure to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of the SIBOR arising from the Group's USD denominated borrowings.

Sensitivity analysis

As at 30 June 2010 and 2009, the management expects interest rate risk will not have material impact on the Group's operating result. Hence, a sensitivity analysis is not presented.

Credit risk

As at 30 June 2010 and 2009, the Group's maximum exposure to credit risk which would cause a financial loss to the Group due to failure to discharge an obligation by the counterparties was arising from the carrying amount of the respective recognised financial assets as stated in the consolidated balance sheet.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the Directors consider that the Group's credit risk is significantly reduced.

The bank balances and deposits are concentrated on certain counterparties and the credit risk on liquid funds is limited because the counterparties are banks with high crediting ratings assigned by international credit rating agencies.

In respect of debtors, the Group's exposure to credit risk is influenced mainly by the market demand in intimate apparel industry and economic conditions in the USA, Europe and New Zealand. At the balance sheet date, the Group had a certain concentration risk as approximately 81% (2009: 71%) of trade debtors was due from the top five major customers.

Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities based on the agreed repayment terms. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the balance sheet date.

At 30 June 2010, the Group had undrawn bank borrowing facilities of HK\$149,172,000 (2009: HK\$149,420,000).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

26. FINANCIAL INSTRUMENTS – continued

26c. Fair value

The fair value of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transaction.

The Directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate to their fair values.

27. SHARE CAPITAL

| | 2010 Number of shares | 2009 Number of shares | 2010 HK\$'000 | 2009 HK\$'000 |
|--------------------------------------|-----------------------------|-----------------------------|------------------|------------------|
| Ordinary shares of HK\$0.10 each | | | | |
| Authorised: | | | | |
| At beginning and the end of the year | <u>1,500,000,000</u> | <u>1,500,000,000</u> | <u>150,000</u> | <u>150,000</u> |
| Issued and fully paid: | | | | |
| At beginning and the end of the year | <u>1,075,188,125</u> | <u>1,075,188,125</u> | <u>107,519</u> | <u>107,519</u> |

28. SHARE OPTION SCHEME

The Company's share option scheme (the "Scheme") was adopted pursuant to a resolution passed on 22 November 2001 (the "Adoption Date") for the primary purpose of providing incentives or rewards to the Directors, employees or any other persons at the discretion of the Board, and the Scheme will expire on 21 November 2011. Under the Scheme, the Board of Directors of the Company may grant options to eligible employees, including executives or officers of the Company and its subsidiaries and any other persons at the discretion of the Board to subscribe for shares in the Company.

The total number of shares in respect of which options may be granted under the Scheme is not permitted to exceed 10% of the shares of the Company in issue on the Adoption Date, being 73,560,874 shares (the "Scheme Limit"). With prior approval from the Company's shareholders, the Company may refresh the Scheme Limit by 10% of the shares of the Company in issue as at the date of such shareholder's approval. The number of shares in respect of which options may be granted to any individual in any one year is not permitted to exceed 1% of the shares of the Company in issue at any point in time, without prior approval from the Company's shareholders. Options granted to substantial shareholders or independent non-executive directors in excess of 0.1% of the Company's share capital and with a value in excess of HK\$5 million must be approved in advance by the Company's shareholders.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

28. SHARE OPTION SCHEME – continued

Options granted must be taken up within 14 days of the date of grant, upon payment of HK\$1 per grant. Options may generally be exercised at any time from the second anniversary of the date of acceptance to the tenth anniversary of the date of grant. In each grant of options, the Board of Directors of the Company may at their discretion determine the specific exercise period. The exercise price is determined by the Directors of the Company, and will not be less than the highest of the closing price of the Company's shares on the date of grant and the average closing price of the shares for the five business days immediately preceding the date of grant and the nominal value of the Company's shares.

As at 30 June 2010 and 2009, no share options of the Company are being held by the Directors or anyone else under the Scheme.

During the years ended 30 June 2010 and 2009, no share options were granted, exercised, cancelled or lapsed.

29. OPERATING LEASE COMMITMENTS

At the balance sheet date, the Group had outstanding commitments for future minimum lease payments under non-cancellable operating leases in respect of land and buildings, which fall due as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|---------------------------------------|------------------|------------------|
| Within one year | 12,757 | 11,388 |
| In the second to fifth year inclusive | 14,556 | 19,957 |
| Over five years | 9,072 | 3,994 |
| | <u>36,385</u> | <u>35,339</u> |

Leases are negotiated for lease term of one to fifteen years and rentals are fixed over the terms of the relevant leases.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

30. RELATED PARTY TRANSACTIONS/BALANCES

During the year ended 30 June 2010, the Group sold finished products of approximately HK\$51,666,000 (2009: HK\$45,156,000), to a related company, Van de Velde N.V. ("VdV").

Messrs. Herman Van de Velde and Lucas A.M. Laureys, Directors of the Company, are beneficial owners of VdV, which also held an effective interest of 23.31% (2009: 23.31%) in the Company as at 30 June 2010.

As at 30 June 2010, trade debtors from VdV amounted to HK\$1,459,000 (2009: HK\$494,000).

Compensation of key management personnel

The remuneration of Directors and other members of key management during the year is as follows:

| | 2010 HK\$'000 | 2009 HK\$'000 |
|---|------------------|------------------|
| Salaries and other benefits | 13,092 | 19,254 |
| Retirement benefit scheme contributions | 33 | 36 |
| | <u>13,125</u> | <u>19,290</u> |

The remuneration of Directors and key management is determined by the Group's compensation committee having regard to the performance of individuals and market trends.

31. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of debt (which includes borrowings), cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital, reserves and retained profits.

The Directors review the capital structure on a quarterly basis. As part of this review, the Directors consider the cost of capital and the risks associated with each class of capital. Based on recommendations of the Directors, the Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debt or the repayment of existing debt.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2010

32. PRINCIPAL SUBSIDIARIES – continued

Shenzhen Top Form Underwear Co., Limited 深圳黛麗斯內衣有限公司 (“SZTF”) is a joint venture company established in the PRC and was originally held for a period of twelve years from 28 February 1987. On 18 September 1998, an extension agreement was entered into between the Group and the joint venture partner to extend the joint venture period for a further 10 years to 28 February 2009. On 12 November 2008, the Group entered into a revised joint venture agreement with the joint venture partner to extend the joint venture period for a further 3 years to 28 February 2012. Pursuant to the joint venture agreement and the revised joint venture agreement under which the joint venture were established, the Group has contributed 70% of the registered capital of SZTF. However, under another agreement entered into between the Group and the joint venture partner, the Group is entitled to 100% of this joint venture company’s profit after deducting a fixed annual amount attributable to assets contributed by the joint venture partner. The Group is entitled to receive its attributable share of the net assets upon liquidation of the joint venture, and so this joint venture is being accounted for as a subsidiary of the Group.

As at 30 June 2010, all of the deferred shares issued by subsidiaries were held by group companies. The deferred shares carry no right to dividend or to receive notice of or to attend or vote at any general meeting of the respective companies. On winding-up, the holders of the deferred shares are entitled to one half of the remaining assets of the respective companies after the first HK\$100 trillion has been distributed equally amongst the holders of the ordinary shares.

None of the subsidiaries had any debt securities subsisting as at 30 June 2010 or at any time during the year.

The above tables list the subsidiaries of the Group which, in the opinion of the Directors, principally affected the Group’s assets or results. To give details of other subsidiaries would, in the opinion of the Directors, result in particulars of excessive length.
