Notes:

- The purpose of this reserve is to reduce, by means of rebates, electricity tariffs to customers.
- The tariff stabilisation fund is not part of shareholders' funds.
- Up to 2001, these reserves include a Scheme of Control tax adjustment, calculated in accordance with the renewed Scheme of Control Agreement effective 1st January 1994. These represent the accumulated difference between depreciation and the Inland Revenue tax allowances, applying the tax rate applicable to each respective year. This Scheme of Control tax adjustment was required to be retained within The Hongkong Electric Company, Limited ("HEC") until such time as it may be required to pay the tax. Starting from 2002 following the implementation of Hong Kong Statement of Standard Accounting Practice No. 12 (revised) "Income Taxes", a deferred tax liability has been recognised on HEC's balance sheet and this Scheme of Control tax adjustment is no longer considered necessary.
- Hong Kong Statement of Standard Accounting Practice No. 12 (revised) "Income Taxes" was first effective for accounting periods beginning on or after 1st January 2003. In order to comply with this revised Statement, the Group adopted a new accounting policy for deferred tax in 2003. Figures for 2002 have been adjusted. However, it is not practicable to restate earlier years for comparison purposes.
