STOCK CODE 260

While the Group continued to achieve significant growth of 54% in turnover in 2010, the operating results were below expectation due to squeeze in profit margins amid an increasingly competitive operating environment and high selling and distribution costs and administrative expenses. Consolidated loss attributable to owners of the parent for the year ended 31 December 2010 amounted to HK\$27,937,000 which was largely due to a one-off non-cash share-based payment expense of HK\$21,196,000 arising from the grant of 200,000,000 share options under the Group's share option incentive scheme to eligible participants. If this one-off non-cash expense item was excluded, the underlying consolidated loss attributable to owners of the parent would have been HK\$6,741,000 in 2010 (2009: HK\$5,023,000). Appropriate measures are being taken by management to improve overall operating efficiency and for more effective deployment of resources of the Group.

The outlook for the natural gas sector in China is bright. In China's 12th Five-Year Plan, it is estimated that annual growth in production of natural gas will be maintained at 13% - 15%. The proportion of natural gas to the total energy consumption in China is anticipated to increase from the current level of approximately 4% to 8% by the end of the 12th Five-Year Plan. It is estimated that the consumption of natural gas will increase by 20% to reach 130 billion m³ in 2011. There are supporting government policies to encourage the usage of natural gas as an alternative source of clean energy to petrol as well as setting a target to gradually raise natural gas prices for vehicle use to an average of 75% of petrol prices. The Group is well-positioned to capture the growth potential of the natural gas sector in China.

Barring unforeseen circumstances, the Group's operating results are expected to improve in 2011 after implementation of appropriate measures to improve the overall operating efficiency. Meanwhile, the Group will continue to look for appropriate investment opportunities to enhance shareholder return and maximize long-term benefits for shareholders, staff and the community. On behalf of the Group, I would like to thank Mr. Sun Wenhao (who resigned as executive director of the Company in December 2010) for his valuable contributions to the Group in the past and extend its warm welcome to Mr. Zang Zheng in joining the board of directors of the Company (the "Board"). I would also like to extend my thanks to the Board, all staff, professionals and shareholders for their support during the year.

Ji Guirong Chairman

Hong Kong 10 March 2011

FINANCIAL REVIEW

The Group continued to register strong growth in consolidated revenue amounting to HK\$943,433,000 for the year ended 31 December 2010, up 54% from the previous year. The consolidated revenue was derived from the operation of compressed natural gas ("CNG") and liquefied petroleum gas ("LPG") vehicle refueling stations in China.

The Group's gross profit for the year ended 31 December 2010 was HK\$147,742,000 (2009: HK\$139,258,000), an increase of 6% over the corresponding period of last year.

Despite the substantial increase in revenue, the operating result was below expectation due to a significant decline of gross profit margin from 23% in 2009 to 16% in 2010, which was mainly caused by (i) overall lower profit margins of LPG and CNG businesses (ii) as mentioned in the 2010 interim report, there was a time lag (up to 4 months in certain regions) between the hike of natural gas standard supply price of 23-25% sanctioned by National Development and Reform Commission of China and the grant of local government approval for the Group to raise the sales price to its customers (iii) several months prior to and during the period of the Asian Games held in Guangzhou, the municipal government put a temporary freeze on LPG prices, as a result of that, higher LPG supply prices could not be passed on to customers during that period and (iv) intensified competition.

The Group's consolidated loss attributable to owners of the parent for the year ended 31 December 2010 was HK\$27,937,000, up significantly from a loss of HK\$5,023,000 in 2009 due to hefty increases in selling and distribution costs and administrative expenses, which was largely due to a one-off non-cash share-based payment expense of HK\$21,196,000 included in administrative expenses arising from the grant of 200,000,000 share options under the share option incentive scheme to eligible participants in 2010. If this one-off non-cash expense item was excluded, the underlying consolidated loss attributable to owners of the parent would have been HK\$6,741,000 in 2010 (2009: HK\$5,023,000).

OPERATIONAL REVIEW

(1) Gas Business

The Group continued to achieve significant growth: sales of CNG and LPG reached 142,260,000 m³ and 49,236 tons respectively for the year ended 31 December 2010, representing an increase of 32% and 49% respectively over the previous year.

OPERATIONAL REVIEW (Continued)

(1) Gas Business (Continued)

Major business development of the gas business is summarised below:

South-western China District: The Group's business in this district concentrates in Chengdu, the hub of Southwest. The Group has reached an agreement in principle with an entity under Chengdu municipal government to form a joint venture to build 8 CNG refueling stations in stages in the vicinity of the Third Ring Road.

Inland China District: In Zhengzhou, 2 new CNG stations have commenced operation. The Group has expanded its business to provide refueling service to taxis and private cars as well.

Central China District: In Anhui, 4 CNG stations are now in operation. In Xuzhou, the Group maintained a strong market position with over 50% market share.

Southern China District: In Guangzhou and Ganzhou, the Group further enhanced its market position and competitiveness.

Shandong District: Despite keen competition, the Group has increased its market share in Jinan to over 50% and has begun selling gas to industrial users.

North-eastern China District: In addition to maintaining its leading market position in the area the Group operates in, the Group is in discussion with a potential joint venture partner to build a LNG storage tank in Changchun.

(2) Vehicle Conversion Kit

A new generation of multiple-injection vehicle conversion kits developed by the Group has passed the testing standards of the Chinese government for production. However, in light of the fierce competition in China for similar products, the Group will make further study on the market situation before taking a decision on the future development plan of this product.

BUSINESS OUTLOOK

Since the Group commenced its LPG/CNG refueling stations business in China in 2004, the development of China's market for LPG/CNG fueled vehicles is gradually taking shape. As the economy continued to improve in 2009 and 2010, a number of major state-owned energy enterprises and privately-owned enterprises have entered this market segment, which led to intensified competition for the Group's business. Nonetheless, the use of CNG as an alternative source of clean energy to petrol is well supported by China's government policies and is in line with China's commitment to reducing the emission of CO_2 to the international community at the 2009 Copenhagen Climate Change Summit and the 2010 UN Climate Summit in Cancun. Following the increase in car ownership and growing concern of pollution in China, it is expected that both the usage and prices of CNG as vehicle fuel will be on an upward trend in the coming years.

On the other hand, the Group operates in an increasingly challenging environment where profit margins are squeezed as a result of intensified competition and tight gas supply coupled with inflationary pressure on operating costs. To address these difficulties, management is taking measures to reduce costs, increase the utilization rate of the designed capacity of its gas stations and look for ways for more effective deployment of its resources in 2011.

Barring unforeseen circumstances, the Group's operating results in 2011 are expected to improve after implementation of the above-mentioned measures. The Board is optimistic about the long term development of the Group and will continue to look for suitable investment opportunities to broaden its earnings base and enhance its shareholder value.

FINANCIAL RESOURCES

During the year ended 31 December 2010, the financial position of the Group was strengthened by the net proceeds of approximately HK\$125.3 million received from the issuance of totaling 335,000,000 Company's ordinary shares in April, May and June 2010. The proceeds are used for the Group's general working capital.

FINANCIAL RESOURCES (Continued)

At 31 December 2010, the Group's borrowings (including interest-bearing bank and other borrowings and loans from a shareholder) amounted to approximately HK\$140.3 million (2009: HK\$198.2 million), of which HK\$107.2 million (2009: HK\$142.6 million) were related to bank and other borrowings at operating subsidiaries level funding the local PRC operations denominated in Renminbi, and therefore the Group's gearing ratio, representing the ratio of Group's borrowings to equity attributable to owners of the parent of HK\$602.8 million (2009: HK\$466.3 million) was 23.3% (2009: 42.5%). Cash and bank balances were HK\$146.8 million (2009: HK\$118.9 million).

During the year ended 31 December 2010, the Group was not materially exposed to foreign currency risk.

DIVIDEND

The Board does not recommend the payment of dividend for the year ended 31 December 2010 (2009: Nil).

STAFF BENEFIT

At 31 December 2010, the Group had a total of 1,332 employees (2009: 1,171). The staff costs for the year ended 31 December 2010 amounted to approximately HK\$80.6 million (2009: HK\$46.3 million). The Group continues to provide remuneration package to employees according to market practices, their experience and performance. Other benefits include contribution of statutory mandatory provident fund for the employees and medical scheme. There was no major change on staff remuneration policies during the year.

HUMAN RESOURCES

The Group firmly believes that talent is the most important corporate asset, therefore, it places a lot of emphasis in recruiting and cultivation of talent.

In 2009, the Group signed an agreement with a vocational school in Chongqing for training of technical personnel in the natural gas sector. With this program, a continuous supply of technical professionals to join the Group is guaranteed enhancing the skill level and professionalism of the Group.

HUMAN RESOURCES (Continued)

The Group treasures its existing staff. Apart from remunerating and promoting staff according to an established mechanism based on individual performance, experience, professional qualification and prevailing market practices, the Group provides internal training for existing staff and makes further study part of the welfare or incentive system for staff. This aims to encourage staff to embark on life-long study, and to formulate a feasible plan for their career development, which lays a solid foundation for sound and sustainable development of the Group.

BIOGRAPHICAL DETAILS OF DIRECTORS

NON-EXECUTIVE DIRECTOR

Mr. Ji Guirong, aged 49, was appointed as an executive director, the Chairman of the Board and, a member and the chairman of the remuneration committee of the Company in January 2005. He was re-designated as a non-executive director of the Company in April 2007. Mr. Ji holds a Master's Degree in Engineering Management and a Bachelor's Degree in Engineering and is a Senior Engineer. He has extensive experience in engineering, corporate finance, mergers and acquisitions and project investments. Mr. Ji is an executive director, a deputy chairman and the chief executive officer of AVIC International Holding (HK) Limited, which is listed on the main board of The Stock Exchange of Hong Kong Limited and a substantial shareholder of the Company and, a director and the vice chairman of NavInfo Co., Ltd., a company listed on the Shenzhen Stock Exchange.

EXECUTIVE DIRECTORS

Mr. Ji Hui, aged 41, was appointed as an executive director of the Company in May 2005, and he is currently the Chief Executive Officer of the Company. Mr. Ji holds a Master of Science Degree in Environmental Engineering from the University of Southern California, Los Angeles. Mr. Ji has 19 years of experience in equipment, facilities and product sales in the PRC and the USA. He also has research experience in environmental engineering.

Mr. Zang Zheng, aged 60, was appointed as an executive director of the Company in December 2010. Mr. Zang was educated in Northwestern Polytechnical University, the PRC in Aeronautics Material. Mr. Zang is currently a professional senior engineer in the Aviation Industry Corporation of China Group (the "AVIC Group"). He has held various executive positions in the AVIC Group in the past 30 years and has over 30 years of experience in management and investment. Mr. Zang is a vice president of the Group's subsidiary, Beijing Sinogas Company Limited since 2008.

INDEPENDENT NON-EXECUTIVE DIRECTORS

Mr. Wang Zhonghua, aged 49, was appointed as an independent non-executive director of the Company in January 2005. Mr. Wang is currently a member as well as an examiner of the Royal Institution of Chartered Surveyors (MRICS). Mr. Wang holds a Bachelor's Degree in Engineering from Lanzhou Jiaotong University. Mr. Wang is a Senior Engineer, Registered Consulting (Investment) Engineer, Supervising Engineer, Pricing Engineer, Tenderer; Mr. Wang is also a senior expert in Shenzhen Construction Bureau, inspectorate expert of Shenzhen Development and Reform Bureau, member of Guangdong Province Senior Engineer (Railway Engineering Specialized) Evaluation Committee, member of Shenzhen Senior Engineer (Construction Management Specialized and Pricing Specialized) Evaluation Committee, and senior member of Shenzhen Pricing Engineers Association. Mr Wang has been working in the engineering field for over 28 years with extensive experience. He has been serving Shenzhen Province Mass Transit Railway Company Limited since 1993.

BIOGRAPHICAL DETAILS OF DIRECTORS

INDEPENDENT NON-EXECUTIVE DIRECTORS (Continued)

Mr. Zhong Qiang, aged 43, was appointed as an independent non-executive director of the Company in February 2005. Mr. Zhong graduated from Changsha Railway University. Mr. Zhong is an accountant and has been working in the accounting field for over 20 years with extensive experience. He is currently a director of Shanghai Jun Zheng Ke Mao Company Limited.

Mr. Xiao Wei, aged 48, was appointed as an independent non-executive director of the Company in May 2005. Mr. Xiao graduated from the Electric Engineering Department of Shanghai Tong Ji University. Mr. Xiao has 26 years of experience in engineering and management.

REPORT OF THE DIRECTORS

The directors present their report and the audited financial statements of the Company and the Group for the year ended 31 December 2010.

PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding. Details of the principal activities of the principal subsidiaries are set out in note 18 to the financial statements. There were no significant changes in the nature of the Group's principal activities during the year.

RESULTS

The Group's loss for the year ended 31 December 2010 and the state of affairs of the Company and the Group at that date are set out in the financial statements on pages 31 to 139.

SUMMARY FINANCIAL INFORMATION

A summary of the published results and assets, liabilities and non-controlling interests of the Group for the last five financial years, as extracted from the audited financial statements and restated/ reclassified as appropriate, is set out on page 140. This summary does not form part of the audited financial statements.

PROPERTY, PLANT AND EQUIPMENT AND INVESTMENT PROPERTY

Details of movements in the property, plant and equipment, and investment property of the Company and the Group during the year are set out in notes 14 and 15 to the financial statements, respectively.

SHARE CAPITAL, SHARE OPTIONS AND CONVERTIBLE BONDS

Details of movements in the Company's share capital, share options and convertible bonds during the year are set out in notes 30, 31 and 29 to the financial statements, respectively.

PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities during the year.

RESERVES

Details of movements in the reserves of the Company and the Group during the year are set out in note 32(b) to the financial statements and in the consolidated statement of changes in equity, respectively.

8

REPORT OF THE DIRECTORS

DISTRIBUTABLE RESERVES

At 31 December 2010, the Company had no reserves available for distribution in accordance with the provisions of Section 79B of the Hong Kong Companies Ordinance.

MAJOR CUSTOMERS AND SUPPLIERS

In the year under review, sales to the Group's five largest customers accounted for 19% of the total sales for the year and sales to the largest customer included therein amounted to 11%. Purchases from the Group's five largest suppliers accounted for less than 43% of the total purchases for the year and purchases from the largest supplier included therein amounted to 15%.

None of the directors of the Company or any of their associates or any shareholders (which, to the best knowledge of the directors, own more than 5% of the Company's issued share capital) had any beneficial interest in the Group's five largest customers or suppliers.

DIRECTORS

The directors of the Company during the year were:

Non-executive director:

Ji Guirong

Executive directors:

Ji Hui	
Zang Zheng	(appointed on 23 December 2010)
Sun Wenhao	(resigned on 23 December 2010)

Independent non-executive directors:

Wang Zhonghua Zhong Qiang Xiao Wei

In accordance with article 87 of the Company's articles of association (the "Articles"), Mr. Ji Guirong and Mr. Wang Zhonghua will retire by rotation, and in accordance with Article 86(B), Mr. Zang Zheng will retire as director, and being eligible, each of them will offer himself for reelection at the forthcoming annual general meeting. The terms of office of all directors (including non-executive director and independent non-executive directors) are subject to reappointment or retirement by rotation in accordance with Articles 86(B), 87 and 88.

REPORT OF THE DIRECTORS

DIRECTORS (Continued)

The Company has received annual confirmations of independence from Mr. Wang Zhonghua, Mr. Zhong Qiang and Mr. Xiao Wei and as at the date of this report, still considers them to be independent.

DIRECTORS' BIOGRAPHIES

Biographical details of the directors of the Company are set out on pages 9 to 10 of the annual report.

DIRECTORS' SERVICE CONTRACTS

Mr. Ji Hui has a service contract with the Company which commenced on 17 May 2005 and is subject to termination by either party giving not less than two months' written notice. He is subject to reappointment or retirement by rotation in accordance with Articles 86(B), 87 and 88.

Apart from the foregoing, no director proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

DIRECTORS' REMUNERATION

The directors' fees are subject to shareholders' approval at general meetings. Other emoluments are determined by the Company's board of directors with reference to directors' duties, responsibilities and performance and the results of the Group.

DIRECTORS' INTERESTS IN CONTRACTS

Save for Mr. Ji Guirong (a director of the Company) who is also a director of AVIC International Holding (HK) Limited ("AVIC Int'I") (a substantial shareholder of the Company), no director had a material interest, either directly or indirectly, in any contract of significance to the business of the Group to which the Company or any of its subsidiaries was a party during the year.

REPORT OF THE DIRECTORS

DIRECTORS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES

At 31 December 2010, the interests and short positions of the directors in the share capital and underlying shares of the Company or its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")) as recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO, or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") in the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") were as follows:

Long positions in share options of the Company:

	Number of options directly
Name of director	beneficially owned
Ji Guirong	34,900,000
Ji Hui	22,000,000
	56,900,000

Save as disclosed above, as at 31 December 2010, none of the directors of the Company had registered an interest or a short position in the shares and underlying shares of the Company or any of its associated corporations (within the meaning of Part XV of SFO), as recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO, or as otherwise notified to the Company and the Stock Exchange pursuant to the Model Code.

REPORT OF THE DIRECTORS

SHARE OPTION SCHEME

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Further details of the Scheme are disclosed in note 31 to the financial statements.

The following table discloses movements in the Company's share options under the Scheme outstanding during the year.

			Number of sha	re options			Date of		Exercise price of share

	12,900,000	75,000,000	-	-	(2,900,000)	85,000,000			
	144,100,000	200,000,000	-	-	(2,900,000)	341,200,000			

Notes to the table of share options outstanding during the year:

- * The vesting period of the share options is from the date of grant until the commencement of the exercise period.
- ** The exercise price of the share options is subject to adjustment in the case of rights or bonus issues, or other similar changes in the Company's share capital.
- *** The closing price of the Company's shares immediately before the date on which the options granted on 31 August 2010 was HK\$0.33 per share.

REPORT OF THE DIRECTORS

SHARE OPTION SCHEME (Continued)

The directors have estimated the values of the share options granted during the year, calculated using the binomial model as at the date of grant of the options:

Grantee	Number of options granted during the year	Theoretical value of share options HK\$	
Ji Guirong	20,000,000	2,120,000	
Ji Hui	20,000,000	2,120,000	
Consultants	85,000,000	9,008,000	
Other employees	75,000,000	7,948,000	
	200,000,000	21,196,000	

Save as disclosed above, at no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any director or their respective spouses or minor children, or were any such rights exercised by them; or was the Company, or any of its subsidiaries a party to any arrangement to enable the directors to acquire such rights in any other body corporate.

REPORT OF THE DIRECTORS

SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES

At 31 December 2010, the following interests and short positions of 5% or more of the issued share capital and convertible bonds of the Company were recorded in the register of interests required to be kept by the Company pursuant to Section 336 of the SFO:

Name	Notes	Long/short position	Capacity and nature of interest	Number of ordinary shares held	Percentage of the Company's issued share capital	Number of convertible shares (issuable under the convertible bonds) held	Percentage of the Company's issued share capital if the convertible shares were exercised
Billirich Investment Limited ("Billirich")	(a)	Long	Beneficial owner	549,430,000	25.65%	137,500,000	6.42%

18 ANNUAL REPORT 2010

REPORT OF THE DIRECTORS

SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTERESTS AND SHORT **POSITIONS IN SHARES AND UNDERLYING SHARES (Continued)**

Notes:

- (a) Billirich is a wholly-owned subsidiary of AVIC Int'l. Tacko International Limited, together with its wholly-owned subsidiary, hold in aggregate approximately 39.87% of the issued capital of AVIC Int'l. Tacko International Limited is a wholly-owned subsidiary of AVIC International (HK) Group Limited, which in turn is a wholly-owned subsidiary of AVIC International Holding Corporation. AVIC International Holding Corporation is a non-wholly-owned subsidiary of AVIC. Accordingly, all these corporations are deemed to be interested in the shares and convertible shares held by Billirich.
- The 36,730,000 shares and 156,000,000 convertible shares to be issued upon exercise (b) of the convertible bonds are beneficially held by Grand Win Overseas Ltd., a whollyowned subsidiary of Sun Shining Investment Corp. Tai Yuen Textile Company Limited beneficially owns 82.85% equity interest in Sun Shining Investment Corp. and therefore these corporations are deemed to be interested in the aforesaid shares and convertible shares.

Save as disclosed above, as at 31 December 2010, no person, other than the directors of the Company, whose interests are set out in the section "Directors' interests and short positions in shares and underlying shares" above, had registered an interest or a short position in the shares or underlying shares of the Company that was required to be recorded pursuant to Section 336 of the SFO.

REPORT OF THE DIRECTORS

CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS

During the year, the Company and the Group had the following connected and continuing connected transactions, certain details of which had been disclosed in compliance with the requirements of Chapter 14A of the Listing Rules.

Connected transaction

On 12 April 2010, the Company entered into a subscription agreement with Billirich pursuant to which Billirich agreed to subscribe for 80,000,000 new shares of the Company at HK\$0.377 per share. As at the date of the subscription agreement, Billirich was interested in approximately 24.59% of the issued share capital of the Company. Billirich is a substantial shareholder of the Company and a connected person of the Company. Accordingly, the entering into the subscription agreement constituted a connected transaction under the Listing Rules. The subscription was completed on 2 June 2010, upon which Billirich's equity interest in the Company became approximately 24.48%.

Continuing connected transactions

On 14 March 2005, the Company and Beijing Sinogas Company Limited ("Beijing Sinogas"), an indirect 69.4% owned subsidiary of the Company, entered into a loan facility agreement, pursuant to which the Company agreed to provide a facility of up to HK\$40,000,000 to Beijing Sinogas. As at 31 December 2010, a facility of HK\$34,300,000 was utilised by Beijing Sinogas.

On 27 November 2008, Zhuhai Sinogas Transportation Company Limited ("Zhuhai Sinogas"), an indirect 45% owned subsidiary of the Company, entered into an agreement with AVIC I International Leasing Co., Ltd. ("AVIC Leasing") whereby AVIC Leasing agreed to provide to Zhuhai Sinogas a loan facility of RMB8,700,000 which has subsequently been increased to RMB20,000,000 pursuant to memorandum of agreement between the contracting parties on 30 December 2008. The loan facility was used to finance the Group's purchase of vehicles and gas station equipment. The facility bears interest at 7.71% per annum and is repayable in 12 quarterly payments within three years after its drawdown date. AVIC Leasing is a wholly-owned subsidiary of AVIC, a corporation which is deemed to be a substantial shareholder of the Company. Accordingly, the entering into of the agreement constituted a connected transaction under the Listing Rules.

REPORT OF THE DIRECTORS

CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS (Continued)

Continuing connected transactions (Continued)

On 8 January 2009, Beijing Sinogas entered into an agreement with Guangdong Zi Yu Tai Finance Leasing Company Limited ("ZYT") to obtain from ZYT a loan facility of up to RMB150,000,000 to finance the Group's purchases of gas station equipment. As at the agreement date, ZYT was owned as to 10.42% by the Company through its wholly-owned subsidiary, 47.91% by AVIC Int'l through its wholly-owned subsidiary and 41.67% by independent third parties. AVIC Int'l is a substantial shareholder of the Company. Accordingly, the entering into of the agreement constitutes a connected transaction under the Listing Rules. As at 31 December 2010, ZYT was owned as to 35.42% by the Company through its wholly-owned subsidiary, 47.91% by AVIC Int'l through its wholly-owned subsidiary and 16.67% by an independent third party.

The independent non-executive directors of the Company have reviewed the continuing connected transactions set out above and have confirmed that these continuing connected transactions were entered into (i) in the ordinary and usual course of business of the Group; (ii) on normal commercial terms or on terms no less favourable to the Group than terms available to independent third parties; and (iii) in accordance with the relevant agreements governing them on terms that are fair and reasonable and in the interests of the Company and the shareholders of the Company as a whole.

SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the directors, at least 25% of the Company's total issued share capital was held by the public as at the date of this report.

AUDITORS

Ernst & Young retire and a resolution for their reappointment as auditors of the Company will be proposed at the forthcoming annual general meeting.

ON BEHALF OF THE BOARD

Ji Hui Chief Executive Officer

Hong Kong 10 March 2011

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PRACTICES

The Company is committed to pursuing strict and high standards of corporate governance since the Board believes that good corporate governance practices are essential to achieve the Group's objectives of enhancing corporate value as well as safeguarding the interests of shareholders.

The Company has complied with the relevant provisions of the Code on Corporate Governance Practices (the "CG Code") as set out in Appendix 14 to the Listing Rules throughout the year ended 31 December 2010, save and except that the independent non-executive directors of the Company have not been appointed for a specific term, deviating from the code provision A.4.1 of the CG Code. However, the independent non-executive directors of the Company are subject to retirement and re-election at least once every three years in accordance with the Articles.

A. DIRECTORS

The Board

The Board has the responsibility to lead and control the Company and is collectively responsible for promoting the success of the Company by directing and supervising the Company's affairs.

During the year ended 31 December 2010, the Board held four meetings which were participated by the directors either in person or through other electronic means of communication. The attendance record of each director is set out below:

Directors	Attendance
Non-Executive Director	
Ji Guirong (Chairman)	4/4
Executive Directors	
Ji Hui (Chief Executive Officer)	4/4
Sun Wenhao*	4/4
Zang Zheng**	0/0
Independent Non-executive Directors	
Wang Zhonghua	4/4
Zhong Qiang	4/4
Xiao Wei	4/4
* resigned with effect from 23 December 2010	

* appointed with effect from 23 December 2010

CORPORATE GOVERNANCE REPORT

A. DIRECTORS (Continued) Chairman and Chief Executive Officer

The Company segregates the role of chairman and chief executive officer. Mr. Ji Guirong is the Chairman of the Board (the "Chairman") and Mr. Ji Hui is the chief executive officer of the Company (the "Chief Executive Officer").

The roles of the Chairman and the Chief Executive Officer are clearly defined to ensure their independence, accountability and responsibilities. The Chairman provides leadership for the Board and oversees the overall strategic planning and corporate development of the Group, whilst the Chief Executive Officer is responsible for day-to-day management of the Group's business.

Board Composition

Mr. Sun Wenhao has resigned as an executive director with effect from 23 December 2010 for pursuing other business engagement, and Mr. Zang Zheng has appointed as an executive director with effect from 23 December 2010. As at 31 December 2010, the Board consisted of six directors including one non-executive director; two executive directors and three independent non-executive directors. The biographical details of the directors are set out on pages 9 to 10 of this annual report.

The Board has met the recommended best practice under the CG Code that independent nonexecutive directors represents at least one-third of the Board.

Appointments, re-election and removal

The Board is empowered under the Articles to appoint any person to be a director either to fill a casual vacancy or as an additional director. The selection criteria is based on the professional expertise and qualification; business and management experience; operation knowledge; integrity and commitment of a particular candidate.

Any director so appointed shall hold office only until the next following general meeting of the Company (in the case of filling a casual vacancy) or until the next following annual general meeting of the Company (in the case of an addition to their number) and shall be eligible for re-election at that meeting. At every annual general meeting, one-third of the directors for the time being (or, if their number is not three or a multiple of three, then the number nearest to but not less than one-third) shall retire from office by rotation provided that every director including those appointed for a specific term, shall be subject to retirement by rotation at least once every three years. A retiring director shall be eligible for election. As such no director has a term of appointment longer than three years.

CORPORATE GOVERNANCE REPORT

A. DIRECTORS (Continued)

Appointments, re-election and removal (Continued)

The Board from time to time reviews the size, structure and composition of the Board on a regular basis and assess the independence of its independent non-executive directors in accordance with the criteria prescribed under the Listing Rules and the CG Code. The Company has received annual confirmation from each of the independent non-executive director acknowledging full compliance with relevant requirements in respect of their independence pursuant to Rule 3.13 of the Listing Rules. The Board considers all independent non-executive directors are independent within the definition of the Listing Rules. All directors of the Company (including non-executive directors) are subject to retirement by rotation at least once every three years and are subject to re-election in accordance with the Articles.

Responsibilities of Directors

The management of the Company always keep members of the Board appraised of the latest development of the Group's business and operation activities as well as change of regulatory requirements so that the Board members are able to discharge their responsibilities properly.

The Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers set out in Appendix 10 of the Listing Rules (the "Code of Conduct"). All directors of the Company have confirmed their compliance with the required standards set out in the Code of Conduct during the year under review. The Code of Conduct also applies to the directors of the Company, employees of the Company and managers or directors of subsidiaries of the Company.

Supply of and access to information

The management of the Company regularly provides the Board and its committees with relevant and adequate information in a timely manner to assist them to make informed decisions.

Each director has separate and independent access to the company secretary and other senior management and, upon reasonable request, is given access to independent professional advice in circumstances he may deem appropriate and necessary for the discharge of his duties to the Company, at the expense of the Company.

CORPORATE GOVERNANCE REPORT

B. REMUNERATION OF DIRECTORS AND SENIOR MANAGEMENT

The Board has established the remuneration committee of the Company (the "Remuneration Committee") with specific written terms of reference defining its duties and authorities. As at 31 December 2010, the Remuneration Committee comprised three members which included one non-executive director namely Mr. Ji Guirong and two independent non-executive directors namely Mr. Zhong Qiang and Mr. Xiao Wei.

The primary duties of the Remuneration Committee are to make recommendations to the Board on the Company's policy and structure for remuneration of directors and senior management, review and approve performance-based remuneration by reference to corporate goals and objectives resolved by the Board.

The Company's emolument policy is to maintain fair and competitive remuneration packages for its employees with reference to individual performance, profitability of the Group as well as prevailing market conditions. The Company has adopted a share option scheme in order to give incentive to reward eligible participants who has contributed or may contribute to future development and expansion of the Group.

During the year ended 31 December 2010, the Remuneration Committee held one meeting to discuss remuneration related matters. The attendance record of each committee member is set out below:

Directors	Attendance
Non-executive Director	
Ji Guirong (committee chairman)	1/1
Independent Non-executive Directors	
Zhong Qiang	1/1
Xiao Wei	1/1

CORPORATE GOVERNANCE REPORT

C. ACCOUNTABILITY AND AUDIT Financial Reporting

The Board takes responsibility for the preparation of financial statements which gives a true and fair view of the state of affairs of the Group in accordance with applicable accounting standards and relevant statutory requirements. The financial statements are prepared on a going concern basis and the Board are not aware of any material uncertainties or events which may have a significant impact on the Company's ability to operate as a going concern.

The responsibility of the auditors with respect to the financial statements are set out in the Independent Auditors' Report annexing in this annual report.

The Company has published its annual and interim results, in accordance with the requirements of the Listing Rules and other relevant regulations, in a timely manner within three months and two months respectively after the end of the relevant periods.

Internal Controls

The Board has established an internal control system over accounting and finance; operational; regulation and compliance; information technology; human resources and administration for safeguarding the Company's assets against unauthorised use or misappropriation, maintaining proper accounting records, and ensuring the reliability of financial information.

The Board reviews and evaluates the effectiveness of the internal control system periodically to meet with the changing business operation environment and will continue to improve such systems to comply with regulatory requirements and to enhance corporate governance.

Audit Committee

The audit committee of the Company (the "Audit Committee") comprised the three independent non-executive directors. Under its terms of reference, the Audit Committee assists the Board to fulfill its responsibilities in overseeing the financial reporting system, internal control and risk management of the Company.

CORPORATE GOVERNANCE REPORT

C. ACCOUNTABILITY AND AUDIT (Continued) Audit Committee (Continued)

The Audit Committee reviewed the interim and full year consolidated financial statements, including the Group's adopted accounting principles and practices, internal controls, and financial reporting matters in conjunction with the external auditors. The Audit Committee held two meetings during the year ended 31 December 2010. The attendance record of each committee member is set out below:

Independent Non-executive Directors	Attendance
	0.40

Wang Zhonghua	2/2
Zhong Qiang	2/2
Xiao Wei (committee chairman)	2/2

Auditors' Remuneration

For the year ended 31 December 2010, the fee paid/payable to the auditors of the Group, for audit and non-audit services are set out below:

	Amount
	(HK\$′000)
Audit services	2,694
Non-audit services	325

CORPORATE GOVERNANCE REPORT

D. DELEGATION BY THE BOARD Management Functions

The Board is primarily responsible for determining overall strategic planning and policy formulation of the Group. Matters that needed to be determined or considered by the Board included substantial investments, acquisitions and disposals; business and investment plans; financial and project budgeting; dividend policy; annual and interim results and reports; recommendations on appointments or re-election of directors and other substantial operating and financial matters.

Implementation of the decisions and plans of the Board and direction of the day-to-day operation are delegated to the management.

Board Committees

Throughout the year under review, the Board has maintained the Audit Committee and Remuneration Committee each with its own specific written terms of reference which deal clearly with the committees' authorities and duties.

E. COMMUNICATION WITH SHAREHOLDERS

The Board recognises the importance of good and effective communication with all shareholders, including institutional investors for ensuring good corporate governance.

To ensure high level of accountability and to stay informed of the Group's strategy and goals, shareholders are encouraged to attend annual general meeting of the Company to exchange views with the Board at which the Chairman and the chairman or member(s) of the Board Committees are available to answer questions raised by shareholders.

The Company holds regular briefings with institutional investors, fund managers and financial analysts as part of its investor relations program to maintain a constant dialogue on the Group's performance and objective. The Company is proactive in dealing with general enquiries raised by individuals, institutional investors and investment analysts.

As a channel of further promoting effective communication as well as fulfilling the requirements of the Listing Rules, the Company maintains a website, www.irasia.com/listco/ hk/sinogas, where relevant financial and non-financial information is posted on in a timely basis. The published information will be maintained at the above website for at least five years.

The Company keeps shareholders informed of the right to demand a poll and the procedure for voting by poll in all circulars which are from time to time despatched to shareholders together with notices of general meetings of the Company.

To the shareholders of Sino Gas Group Limited

(Incorporated in Hong Kong with limited liability)

We have audited the consolidated financial statements of Sino Gas Group Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 31 to 139, which comprise the consolidated and company statements of financial position as at 31 December 2010, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, in accordance with Section 141 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

INDEPENDENT AUDITORS' REPORT

当 ERNST&YOUNG 安永

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2010, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

1. CORPORATE INFORMATION

Sino Gas Group Limited is a limited liability company incorporated in Hong Kong. The registered office of the Company is located at Unit 704D, 7/F, Tower 1, Admiralty Centre, 18 Harcourt Road, Admiralty, Hong Kong.

During the year, the Group was principally involved in the operation of compressed natural gas ("CNG") and liquefied petroleum gas ("LPG") refueling stations.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

Basis of consolidation

Basis of consolidation from 1 January 2010

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 December 2010. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date of acquisition, being the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases. All intra-group balances, transactions, unrealised gains and losses resulting from intra-group transactions and dividends are eliminated on consolidation in full.

Losses within a subsidiary are attributed to the non-controlling interest even if that results in a deficit balance.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

2.1 BASIS OF PREPARATION (Continued) Basis of consolidation (Continued)

Basis of consolidation from 1 January 2010 (Continued)

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate.

Basis of consolidation prior to 1 January 2010

Certain of the above-mentioned requirements have been applied on a prospective basis. The following differences, however, are carried forward in certain instances from the previous basis of consolidation:

- Acquisitions of non-controlling interests (formerly known as minority interests), prior to 1 January 2010, were accounted for using the parent entity extension method, whereby the differences between the consideration and the book value of the share of the net assets acquired were recognised in goodwill.
- Losses incurred by the Group were attributed to the non-controlling interest until the balance was reduced to nil. Any further excess losses were attributable to the parent, unless the non-controlling interest had a binding obligation to cover these. Losses prior to 1 January 2010 were not reallocated between non-controlling interest and the parent shareholders.
- Upon loss of control, the Group accounted for the investment retained at its proportionate share of net asset value at the date control was lost. The carrying amount of such investment at 1 January 2010 has not been restated.

31 December 2010

2.2 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES

The Group has adopted the following new and revised HKFRSs for the first time for the current year's financial statements.

HKFRS 1 (Revised)	First-time Adoption of Hong Kong Financial Reporting Standards
HKFRS 1 Amendments	Amendments to HKFRS 1 First-time Adoption of Hong Kong Financial Reporting Standards – Additional Exemptions for First-time Adopters
HKFRS 2 Amendments	Amendments to HKFRS 2 Share-based Payment – Group Cash-settled Share-based Payment Transactions
HKFRS 3 (Revised)	Business Combinations
HKAS 27 (Revised)	Consolidated and Separate Financial Statements
HKAS 39 Amendment	Amendment to HKAS 39 Financial Instruments: Recognition and Measurement – Eligible Hedged Items
HK(IFRIC)-Int 17	Distributions of Non-cash Assets to Owners
HKFRS 5 Amendments	Amendments to HKFRS 5 Non-current Assets Held for
included in <i>Improvements to HKFRSs</i> issued in October 2008	Sale and Discontinued Operations – Plan to sell the controlling interest in a subsidiary
Improvements to HKFRSs 2009	Amendments to a number of HKFRSs issued in May 2009
HK Interpretation 4	Amendment to HK Interpretation 4 Leases – Determination of
Amendment	the Length of Lease Term in respect of Hong Kong Land Leases
HK Interpretation 5	Presentation of Financial Statements – Classification by the Borrower of Term Loan that Contains a Repayment on Demand Clause

NOTES TO FINANCIAL STATEMENTS

31 December 2010

2.2 CHANGES IN ACCOUNTING POLICY AND DISCLOSURES (Continued)

Other than as further explained below regarding the impact of HKFRS 3 (Revised), HKAS 27 (Revised), amendments to HKAS 7 included in *Improvements to HKFRSs 2009* and HK Interpretation 4 (Revised in December 2009), the adoption of the new and revised HKFRSs has had no significant financial effect on these financial statements.

The principal effects of adopting these new and revised HKFRSs are as follows:

 (a) HKFRS 3 (Revised) Business Combinations and HKAS 27 (Revised) Consolidated and Separate Financial Statements
HKFRS 3 (Revised) introduces a number of changes in the accounting for business combinations that affect the initial measurement of non-controlling interests, the accounting for transaction costs, the initial recognition and subsequent measurement of a contingent consideration and business combinations achieved in stages. These changes will impact the amount of goodwill recognised, the reported results in the period that an acquisition occurs, and future reported results.

HKAS 27 (Revised) requires that a change in the ownership interest of a subsidiary without loss of control is accounted for as an equity transaction. Therefore, such a change will have no impact on goodwill, nor will it give rise to a gain or loss. Furthermore, the revised standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. Consequential amendments were made to various standards, including, but not limited to HKAS 7 Statement of Cash Flows, HKAS 12 Income Taxes, HKAS 21 The Effects of Changes in Foreign Exchange Rates, HKAS 28 Investments in Associates and HKAS 31 Interests in Joint Ventures.

The changes introduced by these revised standards are applied prospectively and affect the accounting of acquisitions, loss of control and transactions with non-controlling interests after 1 January 2010.

(b) Improvements to HKFRSs 2009 issued in May 2009 sets out amendments to a number of HKFRSs. There are separate transitional provisions for each standard. While the adoption of some of the amendments results in changes in accounting policies, none of these amendments has had a significant financial impact on the Group.

31 December 2010

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING **STANDARDS**

The Group has not applied the following new and revised HKFRSs, that have been issued but are not yet effective, in these financial statements:

HKFRS 1 Amendment	Amendment to HKFRS 1 First-time Adoption of Hong Kong Financial Reporting Standards – Limited Exemption from Comparative HKFRS 7 Disclosures for First-time Adopters ²
HKFRS 1 Amendments	Amendments to HKFRS 1 First-time Adoption of Hong Kong Financial Reporting Standards – Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters ⁴
HKFRS 7 Amendments	Amendments to HKFRS 7 Financial Instruments: Disclosures – Transfers of Financial Assets ⁴
HKFRS 9	Financial Instruments ⁶
HKAS 12 Amendments	Amendments to HKAS 12 Deferred tax: Recovery of Underlying Assets ⁵
HKAS 24 (Revised)	Related Party Disclosures ³
HKAS 32 Amendment	Amendment to HKAS 32 Financial Instruments: Presentation – Classification of Rights Issues ¹
HK(IFRIC)-Int 14 Amendments	Amendments to HK(IFRIC)-Int 14 Prepayments of a Minimum Funding Requirement ³
HK(IFRIC)-Int 19	Extinguishing Financial Liabilities with Equity Instruments ²

Apart from the above, the HKICPA has issued Improvements to HKFRSs 2010 which sets out amendments to a number of HKFRSs primarily with a view to removing inconsistencies and clarifying wording. The amendments to HKFRS 3 and HKAS 27 are effective for annual periods beginning on or after 1 July 2010, whereas the amendments to HKFRS 1, HKFRS 7, HKAS 1, HKAS 34 and HK(IFRIC)-Int 13 are effective for annual periods beginning on or after 1 January 2011 although there are separate transitional provisions for each standard.

- 1 Effective for annual periods beginning on or after 1 February 2010
- 2 Effective for annual periods beginning on or after 1 July 2010
- 3 Effective for annual periods beginning on or after 1 January 2011
- 4 Effective for annual periods beginning on or after 1 July 2011
- 5 Effective for annual periods beginning on or after 1 January 2012
- 6 Effective for annual periods beginning on or after 1 January 2013

NOTES TO FINANCIAL STATEMENTS

31 December 2010

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

Further information about those changes that are expected to significantly affect the Group is as follows:

HKFRS 9 issued in November 2009 is the first part of phase 1 of a comprehensive project to entirely replace HKAS 39 *Financial Instruments: Recognition and Measurement*. This phase focuses on the classification and measurement of financial assets. Instead of classifying financial assets into four categories, an entity shall classify financial assets as subsequently measured at either amortised cost or fair value, on the basis of both the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. This aims to improve and simplify the approach for the classification and measurement of financial assets compared with the requirements of HKAS 39.

In November 2010, the HKICPA issued additions to HKFRS 9 to address financial liabilities (the "Addition") and incorporated in HKFRS 9 the current derecognition principles of financial instruments of HKAS 39. Most of the Additions were carried forward unchanged from HKAS 39, while changes were made to the measurement of financial liabilities designated at fair value through profit or loss using the fair value option ("FVO"). For these FVO liabilities, the amount of change in the fair value of a liability that is attributable to changes in credit risk must be presented in other comprehensive income ("OCI"). The remainder of the change in fair value is presented in profit or loss, unless presentation of the fair value change in respect of the liability's credit risk in OCI would create or enlarge an accounting mismatch in profit or loss. However, loan commitments and financial guarantee contracts which have been designated under the FVO are scoped out of the Additions.

HKAS 39 is aimed to be replaced by HKFRS 9 in its entirety. Before this entire replacement, the guidance in HKAS 39 on hedge accounting and impairment of financial assets continues to apply. The Group expects to adopt HKFRS 9 from 1 January 2013.

HKAS 24 (Revised) clarifies and simplifies the definition of related parties. It also provides for a partial exemption of related party disclosure to government-related entities for transactions with the same government or entities that are controlled, jointly controlled or significantly influenced by the same government. The Group expects to adopt HKAS 24 (Revised) from 1 January 2011 and the comparative related party disclosures will be amended accordingly.

31 December 2010

2.3 ISSUED BUT NOT YET EFFECTIVE HONG KONG FINANCIAL REPORTING STANDARDS (Continued)

Improvements to HKFRSs 2010 issued in May 2010 sets out amendments to a number of HKFRSs. The Group expects to adopt the amendments from 1 January 2011. There are separate transitional provisions for each standard. While the adoption of some of the amendments may result in changes in accounting policies, none of these amendments are expected to have a significant financial impact on the Group. Those amendments that are expected to have a significant impact on the Group's policies are as follows:

HKFRS 3 Business Combinations: Clarifies that the amendments to HKFRS 7, HKAS 32 (a) and HKAS 39 that eliminate the exemption for contingent consideration do not apply to contingent consideration that arose from business combinations whose acquisition dates precede the application of HKFRS 3 (as revised in 2008).

In addition, the amendments limit the measurement choice of non-controlling interests at fair value or at the proportionate share of the acquiree's identifiable net assets to components of non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation. Other components of non-controlling interests are measured at their acquisition date fair value, unless another measurement basis is required by another HKFRS.

The amendments also added explicit guidance to clarify the accounting treatment for non-replaced and voluntarily replaced share-based payment awards.

- (b) HKAS 1 Presentation of Financial Statements: Clarifies that an analysis of other comprehensive income for each component of equity can be presented either in the statement of changes in equity or in the notes to the financial statements.
- HKAS 27 Consolidated and Separate Financial Statements: Clarifies that the (c) consequential amendments from HKAS 27 (as revised in 2008) made to HKAS 21, HKAS 28 and HKAS 31 shall be applied prospectively for annual periods beginning on or after 1 July 2009 or earlier if HKAS 27 is applied earlier.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Subsidiaries

A subsidiary is an entity in which the Company, directly or indirectly, controls more than half of its voting power or issued share capital or controls the composition of its board of directors; or over which the Company has a contractual right to exercise a dominant influence with respect to that entity's financial and operating policies.

The results of subsidiaries are included in the Company's income statement to the extent of dividends received and receivable. The Company's interests in subsidiaries are stated at cost less any impairment losses.

Joint ventures

A joint venture is an entity set up by contractual arrangement, whereby the Group and other parties undertake an economic activity. The joint venture operates as a separate entity in which the Group and the other parties have an interest.

The joint venture agreement between the venturers stipulates the capital contributions of the joint venture parties, the duration of the joint venture and the basis on which the assets are to be realised upon its dissolution. The profits and losses from the joint venture's operations and any distributions of surplus assets are shared by the venturers, either in proportion to their respective capital contributions, or in accordance with the terms of the joint venture agreement.

A joint venture is treated as:

- (a) a subsidiary, if the Group, directly or indirectly, controls more than half of its voting power or issued share capital or controls the composition of its board of directors; or over which the Group has a contractual right to exercise a dominant influence with respect to the joint venture's financial and operating policies;
- (b) a jointly-controlled entity, if the Group does not have unilateral control, but has joint control, directly or indirectly, over the joint venture;
- (c) an associate, if the Group does not have unilateral or joint control, but holds, directly or indirectly, generally not less than 20% of the joint venture's registered capital and is in a position to exercise significant influence over the joint venture; or

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Joint ventures (Continued)

(d) an equity investment accounted for in accordance with HKAS 39, if the Group holds, directly or indirectly, less than 20% of the joint venture's registered capital and has neither joint control of, nor is in a position to exercise significant influence over, the joint venture.

Jointly-controlled entities

A jointly-controlled entity is a joint venture that is subject to joint control, resulting in none of the participating parties having unilateral control over the economic activity of the jointlycontrolled entity.

The Group's investments in jointly-controlled entities are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. The Group's share of the post-acquisition results and reserves of jointly-controlled entities is included in the consolidated income statement and consolidated reserves, respectively. Unrealised gains and losses resulting from transactions between the Group and its jointly-controlled entities, except where unrealised losses provide evidence of an impairment of the asset transferred.

Associates

An associate is an entity, not being a subsidiary or a jointly-controlled entity, in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence.

The Group's investments in associates are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. The Group's share of the post-acquisition results and reserves of associates is included in the consolidated income statement and consolidated reserves, respectively. Unrealised gains and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's investments in the associates, except where unrealised losses provide evidence of an impairment of the asset transferred. Goodwill arising from the acquisition of associates is included as part of the Group's investments in associates and is not individually tested for impairment.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Business combinations and goodwill

Business combinations from 1 January 2010

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the acquirer measures the noncontrolling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value as at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability is recognised in accordance with HKAS 39 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it shall not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the net identifiable assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets of the subsidiary acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Business combinations and goodwill (Continued)

Business combinations from 1 January 2010 (Continued)

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill forms part of a cash-generating unit (group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Business combinations prior to 1 January 2010 but after 1 January 2005

In comparison to the above-mentioned requirements which were applied on a prospective basis, the following differences applied to business combinations prior to 1 January 2010:

Business combinations were accounted for using the purchase method. Transaction costs directly attributable to the acquisition formed part of the acquisition costs. The non-controlling interest was measured at the proportionate share of the acquiree's identifiable net assets.

Business combinations achieved in stages were accounted for as separate steps. Any additional acquired share of interest did not affect previously recognised goodwill.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Business combinations and goodwill (Continued)

Business combinations prior to 1 January 2010 but after 1 January 2005 (Continued) When the Group acquired a business, embedded derivatives separated from the host contract by the acquiree were not reassessed on acquisition unless the business combination resulted in a change in the terms of the contract that significantly modified the cash flows that otherwise would have been required under the contract.

Contingent consideration was recognised if, and only if, the Group had a present obligation, the economic outflow was more likely than not and a reliable estimate was determinable. Subsequent adjustments to the contingent consideration were recognised as part of goodwill.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets and goodwill), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cashgenerating unit's value in use and its fair value less costs to sell, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the income statement in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill and certain financial assets is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the income statement in the period in which it arises.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Related parties

A party is considered to be related to the Group if:

- (a) the party, directly or indirectly through one or more intermediaries, (i) controls, is controlled by, or is under common control with, the Group; (ii) has an interest in the Group that gives it significant influence over the Group; or (iii) has joint control over the Group;
- (b) the party is an associate;
- (c) the party is a jointly-controlled entity;
- (d) the party is a member of the key management personnel of the Group or its parent;
- (e) the party is a close member of the family of any individual referred to in (a) or (d);
- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) the party is a post-employment benefit plan for the benefit of the employees of the Group, or of any entity that is a related party of the Group.

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the income statement in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset or as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Property, plant and equipment and depreciation (Continued)

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	2% or over the lease terms, whichever is shorter
Leasehold improvements	4% to 20% or over the lease terms, whichever is shorter
Plant and machinery	10% to 20%
Furniture and fixtures	15% to 25%
Motor vehicles	10% to 25%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the income statement in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents gas stations under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

Investment properties

Investment properties are interests in land and buildings (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and any impairment losses.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Investment properties (Continued)

Depreciation is calculated on the straight-line basis as to write-off the cost of each investment property to its residual value over its estimated useful life at an annual rate of 2%. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

Any gains or losses on the retirement or disposal of an investment property are recognised in the income statementin the year of the retirement or disposal.

Leases

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the income statement so as to provide a constant periodic rate of charge over the lease terms.

Assets acquired through hire purchase contracts of a financing nature are accounted for as finance leases, but are depreciated over their estimated useful lives.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the income statement on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases are charged to the income statement on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms. When the lease payments cannot be allocated reliably between the land and buildings elements, the entire lease payments are included in the cost of the land and buildings as a finance lease in property, plant and equipment.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Investments and other financial assets

Initial recognition and measurement

Financial assets within the scope of HKAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Group determines the classification of its financial assets at initial recognition. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

The Group's financial assets include cash and bank balances, trade and bills receivables, deposits and other receivables, amounts due from non-controlling shareholders and a jointly-controlled entity, and unquoted financial instruments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in the income statement. The loss arising from impairment is recognised in the income statement.

Available-for-sale financial investments

Available-for-sale financial investments are non-derivative financial assets in unlisted equity and debt securities. Equity investments classified as available for sale are those which are neither classified as held for trading nor designated at fair value through profit or loss. Debt securities in this category are those which are intended to be held for an indefinite period of time and which may be sold in response to needs for liquidity or in response to changes in market conditions.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Investments and other financial assets (Continued)

Available-for-sale financial investments (Continued)

After initial recognition, available-for-sale financial investments are subsequently measured at fair value, with unrealised gains or losses recognised as other comprehensive income in the available-for-sale investment valuation reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in the income statement in other income, or until the investment is determined to be impaired, at which time the cumulative gain or loss is recognised in the income statement and removed from the available-for-sale investment valuation reserve. Interest and dividends earned are reported as interest income and dividend income, respectively and are recognised in the income statement as "Other income".

When the fair value of unlisted equity securities cannot be reliably measured because (a) the variability in the range of reasonable fair value estimates is significant for that investment or (b) the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value, such securities are stated at cost less any impairment losses.

The Group evaluates its available-for-sale financial investments whether the ability and intention to sell them in the near term are still appropriate. When the Group is unable to trade these financial assets due to inactive markets and management's intent to do so significantly changes in the foreseeable future, the Group may elect to reclassify these financial assets in rare circumstances. Reclassification to loans and receivables is permitted when the financial assets meet the definition of loans and receivables and the Group has the intent and ability to hold these assets for the foreseeable future or to maturity. Reclassification to the held-to-maturity category is permitted only when the entity has the ability and intent to hold until the maturity date of the financial asset.

For a financial asset reclassified out of the available-for-sale category, any previous gain or loss on that asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the effective interest rate. Any difference between the new amortised cost and the expected cash flows is also amortised over the remaining life of the asset using the effective interest rate. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the income statement.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group's continuing involvement in the asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Impairment of financial assets

The Group assesses at the end of each reporting period whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred "loss event") and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses individually whether objective evidence of impairment exists for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition). If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Impairment of financial assets (Continued)

Financial assets carried at amortised cost (Continued)

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in the income statement. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to the income statement.

Financial assets carried at cost

If there is objective evidence that an impairment loss has been incurred on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on these assets are not reversed.

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at the end of each reporting period whether there is objective evidence that an investment or a group of investments is impaired.

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in the income statement, is removed from other comprehensive income and recognised in the income statement.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Impairment of financial assets (Continued)

Available-for-sale financial investments (Continued)

In the case of equity investments classified as available for sale, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. The determination of what is "significant" or "prolonged" requires judgement. "Significant" is evaluated against the original cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss - measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the income statement - is removed from other comprehensive income and recognised in the income statement. Impairment losses on equity instruments classified as available for sale are not reversed through the income statement. Increases in their fair value after impairment are recognised directly in other comprehensive income.

In the case of debt instruments classified as available for sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in the income statement. Future interest income continues to be accrued based on the reduced carrying amount of the asset and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of finance income. Impairment losses on debt instruments are reversed through the income statement if the increase in fair value of the instruments can be objectively related to an event occurring after the impairment loss was recognised in the income statement.

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of HKAS 39 are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and in the case of loans and borrowings, plus directly attributable transaction costs.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Financial liabilities (Continued)

Initial recognition and measurement (Continued)

The Group's financial liabilities include trade and other payables, amounts due to an associate, a jointly-controlled entity, non-controlling shareholders and a shareholder, and interest-bearing loans and borrowings.

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the income statement when the liabilities are derecognised as well as through the effective interest rate method amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the income statement.

Convertible bonds

The component of convertible bonds that exhibits characteristics of a liability is recognised as a liability in the statement of financial position, net of transaction costs. On issuance of convertible bonds, the fair value of the liability component is determined using a market rate for an equivalent non-convertible bond; and this amount is carried as a long term liability on the amortised cost basis until extinguished on conversion or redemption. The remainder of the proceeds is allocated to the conversion option that is recognised and included in shareholders' equity, net of transaction costs. The carrying amount of the conversion option is not remeasured in subsequent years. Transaction costs are apportioned between the liability and equity components of the convertible bonds based on the allocation of proceeds to the liability and equity components when the instruments are first recognised.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the income statement.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if, and only if, there is currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Fair value of financial instruments

The fair value of financial instruments that are traded in active markets is determined by reference to quoted market prices or dealer price quotations (bid price for long positions and ask price for short positions), without any deduction for transaction costs. For financial instruments where there is no active market, the fair value is determined using appropriate valuation techniques. Such techniques include using recent arm's length market transactions; reference to the current market value of another instrument which is substantially the same; a discounted cash flow analysis.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the statement of financial position, cash and bank balances comprise cash on hand and at banks which are not restricted as to use.

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Income tax (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- where the deferred tax liability arises from goodwill or the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carryforward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carryforward of unused tax credits and unused tax losses can be utilised, except:

- where the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Income tax (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the periods necessary to match the grant on a systematic basis to the costs that it is intended to compensate. Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the income statement over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the income statement by way of a reduced depreciation charge.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of petroleum, CNG, LPG and gas-related products, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) from the rendering of services, when the services have been rendered;
- (c) rental income, on a time proportion basis over the lease terms; and
- (d) interest income, on an accrual basis using the effective interest method by applying the rate that discounts the estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Share-based payment transactions

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of sharebased payment transactions, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees for grants after 7 November 2002 is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in note 31 to the financial statements.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the income statement for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Share-based payment transactions (Continued)

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph. All cancellations of equity-settled transaction awards are treated equally.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Other employee benefits

Pension schemes and other retirement benefits

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its Hon Kong employees. Contributions are made based on a percentage of the employees' basic salaries and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF scheme.

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute certain percentage of their payroll costs to the central pension scheme. The contributions are charged to the income statement as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

31 December 2010

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued) Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates ruling at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. All differences are taken to the income statement. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

The functional currencies of certain overseas subsidiaries, jointly-controlled entities and associates are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates ruling at the end of the reporting period and their income statements are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the income statement.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of the overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Operating lease commitments – Group as lessor

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of this property which is leased out on an operating lease.

Impairment of assets

In determining whether an asset is impaired or the event previously causing the impairment no longer exists, the Group has to exercise judgement in the area of asset impairment, particularly in assessing: (1) whether an event has occurred that may affect the asset value or such event affecting the asset value has not been in existence; (2) whether the carrying value of an asset can be supported by the net present value of future cash flows which are estimated based upon the continued use of the asset or derecognition; and (3) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management to determine the level of impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could materially affect the net present value used in the impairment test.

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

31 December 2010

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued) Estimation uncertainty (Continued)

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating unit and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill on the acquisition of subsidiaries at 31 December 2010 was HK\$128,462,000 (2009: HK\$128,462,000). Further details are given in note 17 to the financial statements on the impairment testing of goodwill on acquisition of subsidiaries.

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs to sell and its value in use. The calculation of the fair value less costs to sell is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amounts of the Group's and the Company's property, plant and equipment at 31 December 2010 were HK\$423,051,000 (2009: HK\$426,842,000) and HK\$395,000 (2009: HK\$586,000), respectively. The carrying amount of the Group's investment property at 31 December 2010 was HK\$5,834,000 (2009: Nil). More details are given in notes 14 and 15 to the financial statements.

NOTES TO FINANCIAL STATEMENTS 31 December 2010

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued) Estimation uncertainty (Continued)

Deferred tax assets

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The amounts of unrecognised tax losses arising in Hong Kong and in Mainland China were HK\$146,235,000 (2009: HK\$146,235,000) and HK\$23,260,000 (2009: HK\$41,971,000) as at 31 December 2010. Further details are given in note 11 to the financial statements.

Impairment of trade and bills receivables and prepayments, deposits and other receivables The Group maintains an allowance for estimated losses arising from the inability of its customers to make the required payments. The Group makes its estimates based on the ageing of its trade and bills receivable balances, customers' creditworthiness, and historical write-off experience. If the financial condition of its customers was to deteriorate so that the actual impairment loss might be higher than expected, the Group would be required to revise the basis of making the allowance, and its future results would be affected.

As at 31 December 2010, the directors had conducted impairment testing on the Group's trade and bills receivables, and deposits and other receivables, and considered the status of recoverability of certain of these balances based on the financial position of the respective counterparties or the collection of some of the receivables which were provided in prior years. Accordingly, provision for impairment of trade and bills receivables of HK\$1,550,000 (2009: HK\$196,000) and provision for impairment of deposits and other receivables of HK\$2,061,000 (2009: write-back of provision for impairment of deposits and other receivables of HK\$3,168,000) were charged/credited to the consolidated income statement during the year.

The carrying amounts of the Group's trade and bills receivables and the Group's and the Company's prepayments, deposits and other receivables at 31 December 2010 were HK\$15,077,000 (2009: HK\$11,751,000), HK\$51,559,000 (2009: HK\$62,138,000) and HK\$813,000 (2009: HK\$326,000), respectively. Further details are given in notes 23 and 24 to the financial statements.
31 December 2010

4. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued) Estimation uncertainty (Continued)

Useful lives and residual values of items of property, plant and equipment, and investment property

In determining the useful lives and residual values of items of property, plant and equipment, and investment property, the Group has to consider various factors, such as expected usage of the asset, expected physical wear and tear, the care and maintenance of the asset, and legal or similar limits on the use of the asset. The estimation of the useful life of the asset is based on the experience of the Group with similar assets that are used in a similar way. Additional depreciation is made if the estimated useful lives and/or the residual values of items of property, plant and equipment, and investment property are different from previous estimates. Useful lives and residual values are reviewed at each financial year end date based on changes in circumstances.

5. OPERATING SEGMENT INFORMATION

In determining the Group's geographical segments, revenues and results are attributed to the segments based on the location of the customers, and assets are attributed to the segments based on the location of the assets. As the Group's major operations and markets are located in the Mainland China, no further geographical segment information is provided.

For management purpose, the Group has only one reportable operating segment, which is the operation of gas stations and engaging in the operation of CNG and LPG refueling stations.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

6. REVENUE, OTHER INCOME AND GAINS

Revenue, which is also the Group's turnover, represents sales of CNG and LPG by operation of gas stations during the year.

An analysis of the Group's revenue, other income and gains is as follows:

	2010	2009
Note	HK\$′000	HK\$′000
Revenue		
Operation of gas stations	943,433	614,325
Other income		
Interest income	645	409
Installation service income	-	10,260

11. INCOME TAX (Continued)

		2009	
		Mainland	
	Hong Kong	China	Total
	HK\$'000	HK\$'000	HK\$'000
Profit/(loss) before tax	(24,333)	55,367	31,034
Tax at the statutory tax rates	(4,015)	13,842	9,827
Lower tax rates for tax holiday	-	(3,644)	(3,644)
Profits and losses attributable			
to jointly-controlled entities	_	(445)	(445)
Income not subject to tax	(335)	(3,051)	(3,386)
Expenses not deductible for tax	4,350	7,628	11,978
Tax losses utilised from previous periods	_	(2,337)	(2,337)
Tax losses not recognised	_	2,371	2,371
Others	-	(419)	(419)
Tax charge at the Group's effective rate	_	13,945	13,945

Certain subsidiaries of the Group in Mainland China were eligible for exemption from corporate income tax ("CIT") for two years starting from the first year in which assessable profits were generated, and a 50% exemption from CIT for the following three years.

The share of tax attributable to jointly-controlled entities amounting to HK\$967,000 (2009: HK\$701,000) is included in "Share of profits and losses of jointly-controlled entities" in the consolidated income statement.

The Group has tax losses arising in Hong Kong of HK\$146,235,000 (2009: HK\$146,235,000) and in Mainland China of HK\$23,260,000 (2009: HK\$41,971,000) that are available indefinitely and for five years, respectively, for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of these losses as they have arisen in subsidiaries that have been loss-making for some time.

31 December 2010

11. INCOME TAX (Continued)

Pursuant to the PRC Corporate Income Tax Law, 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between China and the jurisdiction of the foreign investors. For the Group, the applicable rate is 10%. The Group is therefore liable to withholding taxes on dividends distributed by those subsidiaries and jointly-controlled entities established in Mainland China in respect of earnings generated from 1 January 2008.

At 31 December 2010, no deferred tax has been recognised for withholding taxes that would be payable on the unremitted earnings that are subject to withholding taxes of the Group's subsidiaries and jointly-controlled entities established in Mainland China. In the opinion of the directors, it is not probable that these subsidiaries and jointly-controlled entities will distribute such earnings in the foreseeable future.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

12. LOSS ATTRIBUTABLE TO OWNERS OF THE PARENT

The consolidated loss attributable to owners of the parent for the year ended 31 December 2010 includes a loss of HK\$63,329,000 (2009: HK\$34,274,000) which has been dealt with in the financial statements of the Company *(note 32(b))*.

13. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic loss per share amount is based on the loss for the year attributable to ordinary equity holders of the parent of HK\$27,937,000 (2009: HK\$5,023,000), and the weighted average number of ordinary shares of 2,031,135,848 (2009: 1,807,355,026) in issue during the year.

No adjustment has been made to the basic loss per share amounts presented for the years ended 31 December 2010 and 2009 in respect of a dilution as the impact of the share options and convertible bonds outstanding had an anti-dilutive effect on the basic loss per share amounts presented.

14. PROPERTY, PLANT AND EQUIPMENT (Continued)

An analysis of the Group's buildings held under medium term leases is as follows:

	2010	2009
	HK\$′000	HK\$′000
At cost, located in:		
Hong Kong	_	23,300
Mainland China	98,529	93,333
	98,529	116,633

As at 31 December 2009, certain of the Group's buildings, plant and machinery and motor vehicles with net book values of approximately HK\$21,725,000, HK\$11,000,000 and HK\$12,657,000, respectively, were pledged to secure certain bank loans granted to the Group (note 28(a)).

The directors had conducted impairment testing on the Group's property, plant and equipment, and they considered that the carrying amounts of certain property, plant and equipment are in excess of their recoverable amounts as a result of the continuing operating losses of certain subsidiaries and the economic downturn. Accordingly, a provision for impairment of HK\$1,058,000 was charged to the consolidated income statement as at 31 December 2009 (note 7).

Impairment testing of goodwill

Goodwill acquired through business combinations has been allocated to the gas station operation cash-generating unit for impairment testing.

The recoverable amount of the gas station operation cash-generating unit has been determined based on a value in use calculation using cash flow projections based on financial budgets approved by senior management covering a 20-year period. The discount rate applied to cash flow projections is 14.2% (2009: 12.2%).

The key assumptions on which management has based its cash flow projections to undertake impairment testing of goodwill are as follows:

Budgeted gross margins – The basis used to determine the value assigned to the budgeted gross margins is the past performance of the unit and management's expectations of market development.

Company

NOTES TO FINANCIAL STATEMENTS

31 December 2010

17. GOODWILL (Continued)

Impairment testing of goodwill (Continued)

Discount rate – The discount rate used is before tax and reflect specific risks relating to the relevant unit.

The values assigned to key assumptions are consistent with external information sources.

18. INVESTMENTS IN SUBSIDIARIES

	Company		
	2010	2009	
	HK\$′000	HK\$'000	
Unlisted shares, at cost	99,022	99,022	
Due from subsidiaries	609,707	565,355	
Loans to a subsidiary	118,885	61,885	
	827,614	726,262	
Impairment on unlisted shares [#]	(71,740)	(71,740)	
Impairment on amount due from subsidiaries [#]	(184,475)	(169,165)	
	571,399	485,357	

An impairment of HK\$71,740,000 (2009: HK\$71,740,000) and HK\$184,475,000 (2009: HK\$169,165,000) was recognised for the unlisted investments in certain subsidiaries with carrying amount of HK\$99,022,000 (2009: HK\$99,022,000) (before deducting impairment loss) and amounts due from subsidiaries, respectively, as a result of the continuing non-performance of the businesses of those subsidiaries.

The amounts due from subsidiaries of HK\$609,707,000 (2009: HK\$565,355,000) are unsecured and interest-free and have no fixed terms of repayment. In the opinion of the directors, these balances are not repayable within one year and are considered as quasi-equity loans to the subsidiaries.

As at 31 December 2010, the loans advanced to a subsidiary were unsecured, bore interest at 3-month Hong Kong Interbank Offered Rate ("HIBOR") plus 2.5% per annum and had no fixed terms of repayment. In the opinion of the directors, the loans are not repayable within one year and are considered as quasi-equity loans to the subsidiaries and therefore the loans were classified as non-current assets and were included in investments in subsidiaries.

31 December 2010

18. INVESTMENTS IN SUBSIDIARIES (Continued)

- * These companies are subsidiaries of non-wholly-owned subsidiaries of the Company and are accordingly accounted for as subsidiaries by virtue of the Company's control in the board of directors of these companies.
- ^ These subsidiaries are registered as co-operative joint ventures under the PRC laws.
- * These subsidiaries are registered as wholly-foreign-owned enterprises under the PRC laws.

The statutory financial statements of all of the above subsidiaries were not audited by Ernst & Young, Hong Kong or another member firm of the Ernst & Young global network.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

18. INVESTMENTS IN SUBSIDIARIES (Continued)

Note:

China Full Limited is owned as to 50% by the Group and the remaining 50% is owned by Sanlin Resources Limited.

The board of China Full Limited consisted of one sole director who was assigned by the Group. Accordingly, in the opinion of the directors, the Group can exercise a majority control over the financial and operating policies of China Full Limited and accordingly, China Full Limited has been accounted for as a subsidiary of the Group.

19. INVESTMENTS IN JOINTLY-CONTROLLED ENTITIES

	Group	
	2010 2	
	HK\$′000	HK\$'000
Share of net assets	14,625	14,176

The balances with jointly-controlled entities are unsecured, interest-free and have no fixed terms of repayment.

Particulars of the principal jointly-controlled entities at the end of the reporting period, which are held indirectly through wholly-owned and non-wholly-owned subsidiaries of the Company, are as follows:

	Particulars		Per	centage of		
Name	of registered capital held	Place of registration	Ownership interest	Voting power	Profit sharing	Principal activities
Henan Blue Sky Sinopetroleum Clean Energy Science & Technology Co. Limited	RMB20,000,000	PRC	50	50	50	Operation of gas stations

31 December 2010

19. INVESTMENTS IN JOINTLY-CONTROLLED ENTITIES (Continued)

The statutory financial statements of all of the above jointly-controlled entities were not audited by Ernst & Young, Hong Kong or another member firm of the Ernst & Young global network.

The following table illustrates the summarised financial information of the Group's jointlycontrolled entities:

	2010	2009
	HK\$′000	HK\$'000
Share of the jointly-controlled entities' assets and liabilities:		
Current assets	4,542	8,316
Non-current assets	16,524	10,128
Current liabilities	(6,441)	(4,268)
Net assets	14,625	14,176
Share of the jointly-controlled entities' results:		
Revenue	20,644	14,349
Other income	144	71
	20,788	14,420
Total expenses	(17,410)	(11,940)
Tax	(967)	(701)
Profit after tax	2,411	1,779

31 December 2010

20. INVESTMENTS IN ASSOCIATES

	Group	
	2010	
	HK\$′000	HK\$'000
Share of net assets	18,135	18,291
Provision for impairment	(17,151)	(17,151)
	984	1,140
Goodwill on acquisition	61,659	58,764
Provision for impairment	(58,764)	(58,764)
	2,895	-
Loans to an associate	29,755	-
	33,634	1,140

The loans to an associate are unsecured, interest-free and have no fixed terms of repayment. In the opinion of the directors, these loans are not repayable within one year and are considered as guasi-equity investment in an associate.

The balance due to an associate included in the Group's current liabilities is unsecured, interest-free and has no fixed terms of repayment.

Impairment testing of investments in associates and goodwill

For the purpose of impairment testing, the goodwill is mainly attributable to three cashgenerating units related to the development and manufacture of bio-agricultural pesticide products, the operation of gas stations and the finance leasing of the Group's associates.

Due to the continuing non-performance of certain associates, the directors considered that the carrying amounts of the investments in associates exceeded their recoverable amounts, and a provision for impairment of HK\$75,915,000 (2009: HK\$75,915,000) in aggregate was made by the Group against its investments in those associates, including the related goodwill on acquisition, as at 31 December 2010.

31 December 2010

20. INVESTMENTS IN ASSOCIATES (Continued)

Particulars of the principal associates, which are held indirectly through wholly-owned and non-wholly-owned subsidiaries of the Company, are as follows:

Name	Particulars of issued shares/registered share capital held	Place of incorporation/ registration	Perce of owr inte attribu to the	nership rest utable	Principal activities
			2010	2009	
Fidelity Finance Leasing Limited	HK\$1,200	Hong Kong	35	10	Investment holding
Guangdong Zi Yu Tai Finance Leasing Company Limited	Registered capital of US\$10,000,000	PRC	35	10	Provision of finance lease
Fuyuxian Sinogas Company Limited	Registered capital of RMB7,800,000	PRC	22	25	Not yet commenced business

The statutory financial statements of the above associates were not audited by Ernst & Young, Hong Kong or another member firm of the Ernst & Young global network.

The above table lists the associates of the Group which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other associates would, in the opinion of the directors, result in particulars of excessive length.

The financial years of the associates are coterminous with those of the Group. All the associates have been accounted for using the equity method in these financial statements.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

20. INVESTMENTS IN ASSOCIATES (Continued)

The following table illustrates the summarised financial information of the Group's principal associates extracted from their management accounts:

	2010	2009
	HK\$′000	HK\$'000
Assets	100,184	4,560
Liabilities	94,829	
Revenues	4,089	
Profit	862	-

21. AVAILABLE-FOR-SALE INVESTMENTS

	Group		Company		Company	
	2010	2009	2010	2009		
	HK\$′000	HK\$′000	HK\$′000	HK\$′000		
Overseas unlisted equity investments, at cost	145,666	148,992	145,666	145,666		
Unlisted debt investment, at fair value Impairment	23,600 (145,666)	- (145,666)	- (145,666)	- (145,666)		
	23,600	3,326	-			

The above investments consist of investments in equity securities and debt investment which were designated as available-for-sale financial assets and have no fixed maturity date or coupon rate.

At 31 December 2010, the Group's and the Company's unlisted equity investments were stated at cost less impairment because the range of reasonable fair value estimates is so significant that the directors are of the opinion that their fair values cannot be measured reliably. The Group does not intend to dispose of them in the near future.

31 December 2010

21. AVAILABLE-FOR-SALE INVESTMENTS (Continued)

Available-for-sale investments include the Company's investment in the 35% interest in the issued share capital of CMEP Limited ("CMEP") at a cost of HK\$137,858,000 (2009: HK\$137,858,000) acquired from China Media International Group Limited ("CMI") in 2003 which had been fully provided for in 2005. Under the sales and purchase agreement for this investment, CMI had made certain undertakings in favour of the Company, including profit guarantees for CMEP.

However, such undertakings and guarantees were not fulfilled. The Company instigated legal proceedings against CMI in 2004 to claim for, among others, damages for breach of the agreement. A judgement was granted by the court in favour of the Company but was not able to be enforced up to the date of this report.

In the opinion of the directors, the Group is unable to enforce the judgement of the court since management of CMI is no longer contactable. Accordingly, the directors considered that the investment of HK\$137,858,000 was fully impaired as at 31 December 2005.

The remaining impairment losses of HK\$7,808,000 (2009: HK\$7,808,000) as at 31 December 2010 represent impairment losses recognised in respect of the other availablefor-sale investments determined by the directors with reference to the present value of the estimated cash flows of those investments.

22. INVENTORIES

	Group		
	2010	2009	
	HK\$′000	HK\$'000

23. TRADE AND BILLS RECEIVABLES

	Gro	Group	
	2010	2009	
	HK\$′000	HK\$'000	
Trade and bills receivables	16,682	11,947	
Impairment	(1,605)	(196)	
	15,077	11,751	

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally 90 to 120 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables to minimise credit risk. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade and bills receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. Trade and bills receivables are non-interest-bearing.

An aged analysis of the trade and bills receivables as at the end of the reporting period, based on the invoice date, is as follows:

	Group	
	2010	
	HK\$′000	HK\$'000
0 to 90 days	15,006	11,371
91 to 120 days	71	43
Over 120 days	1,605	533
	16,682	11,947

31 December 2010

23. TRADE AND BILLS RECEIVABLES (Continued)

The movements in provision for impairment of trade and bills receivables are as follows:

	Group		
	2010	2009	
	НК\$′000	HK\$'000	
At 1 January	196	5,211	
Impairment losses recognised (note 7)	1,550	196	
Amount written off as uncollectible	-	(5,252)	
Exchange realignment	(141)	41	
	1,605	196	

Included in the above provision for impairment of trade and bills receivables is a provision for individually impaired trade and bills receivables of HK\$1,550,000 (2009: HK\$196,000) with carrying amounts before provision of HK\$1,550,000 (2009: HK\$196,000).

The aged analysis of the trade and bills receivables that are neither individually nor collectively considered to be impaired is as follows:

	Group		
	2010 2		
	HK\$′000	HK\$'000	
Neither past due nor impaired	15,006	11,314	
Less than 30 days past due	71	43	
31 to 180 days past due	-	394	
	15,077	11,751	

NOTES TO FINANCIAL STATEMENTS

31 December 2010

23. TRADE AND BILLS RECEIVABLES (Continued)

Receivables that are neither past due nor impaired relate to a large number of diversified customers for which there is no recent history of default.

Receivables that are past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral or other credit enhancement over these balances.

24. PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	Group)	Company		
	2010	2009	2010	2009	
	HK\$′000	HK\$'000	HK\$′000	HK\$′000

Exchange realignment	4,409	4,358	-	-
	130,078	123,608	6,202	6,202

Included in the above provision for impairment of deposits and other receivables of the Group is a provision for individually impaired deposits and other receivables of HK\$130,078,000 (2009: HK\$123,608,000) with aggregate carrying amount of HK\$130,078,000 (2009: HK\$123,608,000).

25. CASH AND BANK BALANCES

At the end of the reporting period, the cash and bank balances of the Group denominated in Renminbi ("RMB") amounted to HK\$144,410,000 (2009: HK\$116,290,000). The RMB is not freely convertible into other currencies, however, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange RMB for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. The bank balances are deposited with creditworthy banks with no recent history of default.

Notes:

- (a) As at 31 December 2009, certain of the Group's bank loans which were repaid during the year were secured by pledge of the Group's buildings, plant and machinery and motor vehicles with carrying value of HK\$21,725,000, HK\$11,000,000 and HK\$12,657,000, respectively (note 14).
- (b) Except for the bank loans of HK\$89,680,000 (2009: HK\$107,160,000) and other loans of HK\$17,470,000 (2009: HK\$35,430,000) which are denominated in RMB, all other borrowings are in Hong Kong dollars.
- (c) Except for the Group's other loans of HK\$17,470,000 (2009: HK\$35,430,000) which are interest-bearing at 7.71% per annum and repayable by 12 quarterly instalments commencing from 1 March 2009, all other loans of the Group and the Company are unsecured, interest-free and repayable within one year.
31 December 2010

28. INTEREST-BEARING BANK AND OTHER BORROWINGS (Continued)

The carrying amounts of the Group's and the Company's interest-bearing bank and other borrowings approximate to their fair values.

The fair values of the interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows at the prevailing interest rates.

29. CONVERTIBLE BONDS

On 18 March 2009 and 15 April 2009, the Company issued convertible bonds with an aggregate nominal value of HK\$58,700,000. The bonds are convertible at the option of the bondholders into ordinary shares at the initial conversion price of HK\$0.2 per share anytime after the issuance of the convertible bonds. Any convertible bonds not converted will be redeemed at par in two years after the date of issuance or will be further extended as agreed between the bondholders and the Company. The convertible bonds are interest-bearing at 2% per annum and payable half-yearly in arrears.

Pursuant to the convertible bond agreements, the conversion price of these convertible bonds can be adjusted from time to time when there is (i) share consolidation or share split; (ii) issue of new shares by the Company; (iii) capital distribution made by the Company; (iv) offer of new class of shares or grant of any options or warrants by the Company to the existing shareholders.

In addition, the bondholders have the right to convert the whole or part of the principal amount of the convertible bonds into shares anytime after issuance of the convertible bonds and from time to time in an amount of not less than HK\$1,000,000 on each conversion, except when the principal outstanding amount of the convertible bonds is less than HK\$1,000,000, the entire principal outstanding amount of the convertible bonds may be converted. Moreover, if the market price of the Company's shares met certain predetermined mandatory conversion prices, the Company shall have the right to require the conversion of certain portion of the outstanding principal amount under each convertible bond and all interest accrued thereon into the shares at the respective mandatory conversion prices.

The fair value of the liability component was estimated at the issuance date using an equivalent market interest rate for a similar bond without a conversion option. The residual amount is assigned as the equity component and is included in shareholders' equity.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

29. CONVERTIBLE BONDS (Continued)

The convertible bonds issued have been split as to the liability and equity components, as follows:

	Group and Co	ompany

Share options

Details of the Company's share option scheme and the share options issued under the scheme are included in note 31 to the financial statements.

31 December 2010

31. SHARE OPTION SCHEME

The Company operates a share option scheme (the "Scheme") for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Eligible participants of the Scheme are the employees of the Group including directors of the Group or any person who, as determined by the directors of the Company, have contributed or may contribute to the Group. The Scheme became effective on 15 April 2005 and, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of unexercised share options currently permitted to be granted under the Scheme is an amount equivalent, upon their exercise, to 10% of the shares of the Company in issue at any time, subject to refreshment with shareholders' approval. Pursuant to the shareholders' meeting on 14 March 2007, the terms of the Scheme were amended and the limit on the number of shares which may be issued upon exercise of all outstanding options granted and yet to be exercised under the Scheme and any other schemes of the Company must not exceed 30% of the shares in issue from time to time. The maximum number of shares issuable under share options to each eligible participant in the Scheme within any 12-month period is limited to 1% of the shares of the Company in issue at any time. Any further grant of share options in excess of this limit is subject to shareholders' approval in a general meeting.

Share options granted to a director, chief executive or substantial shareholder of the Company, or to any of their associates, are subject to approval in advance by the independent non-executive directors. In addition, any share options granted to a substantial shareholder or an independent non-executive director of the Company, or to any of their associates, in excess of 0.1% of the shares of the Company in issue at any time or with an aggregate value (based on the price of the Company's shares at the date of grant) in excess of HK\$5,000,000, within any 12-month period, are subject to shareholders' approval in advance in a general meeting.

The offer of a grant of share options may be accepted within 28 days from the date of offer, upon payment of a nominal consideration of HK\$1 per grant. The exercise period of the share options granted is determinable by the directors, and commences after certain vesting periods and ends on a date which is not later than 10 years from the date of offer of the share options or the expiry date of the Scheme, if earlier.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

31. SHARE OPTION SCHEME (Continued)

The exercise price of share options is determinable by the directors, but may not be less than the higher of (i) the Stock Exchange closing price of the Company's shares on the date of offer; and (ii) the average closing price of the Company's shares for the five trading days immediately preceding the date of offer.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

The movements in share options under the Scheme during the year are as follows:

	2010		20	009
	Weighted		Weighted	
	average	Number	average	Number
	exercise price	of options	exercise price	of options
	HK\$	′000	HK\$	<i>'</i> 000

Expired during the year	-	-	0.20	(12,000)
Forfeited during the year	0.35	(2,900)	0.29	(26,900)
Issued during the year	0.34	200,000	-	-
At 31 December	0.34	341,200	0.34	144,100

31 December 2010

31. SHARE OPTION SCHEME (Continued)

The exercise prices and exercise periods of the share options outstanding as at the end of the reporting period are as follows:

2010

Number of options	Exercise price*	Exercise period
'000	HK\$ per share	
12,000	0.20	1-7-06 to 31-1-15
43,067	0.35	1-10-07 to 31-1-15
43,067	0.35	1-1-08 to 31-1-15
43,066	0.35	1-7-08 to 31-1-15
200,000	0.34	31-8-10 to 30-8-20
341,200		

2009

Number of options		
·000	HK\$ per share	
12,000	0.20	1-7-06 to 31-1-15
44,034	0.35	1-10-07 to 31-1-15
44,033	0.35	1-1-08 to 31-1-15
44,033	0.35	1-7-08 to 31-1-15
144,100		

* The exercise price of the share options is subject to adjustment in case of rights or bonus issues, or other similar changes in the Company's share capital.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

31. SHARE OPTION SCHEME (Continued)

The fair value of the share options granted during the year was HK\$21,196,000 (HK\$0.11 each) (2009: Nil) for which the Group recognised share option expense of HK\$21,196,000 (2009: Nil) during the year ended 31 December 2010.

The fair value of equity-settled share options granted during the year was estimated as at the date of grant, using a binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

	2010
Historical volatility (%)	63.85
Risk-free interest rate (%)	1.95
Expected exercise multiple	1.50
Expected life of options (year)	10.0
Share price at grant date (HK\$ per share)	0.33

The expected life of the options is based on the historical data over the past three years and is not necessarily indicative of the exercise patterns that may occur.

No other feature of the options granted was incorporated into the measurement of fair value.

At the end of the reporting period, the Company had 341,200,000 share options outstanding under the Scheme. The exercise in full of the outstanding share options would, under the present capital structure of the Company, result in the issue of 341,200,000 additional ordinary shares of the Company and additional share capital of HK\$68,240,000 and share premium of HK\$47,768,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 341,200,000 share options outstanding under the Scheme, which represent approximately 15.93% of the Company's shares in issue as at that date.

31 December 2010

32. RESERVES

(a) Group

The amounts of the Group's reserves and the movements therein for the current and prior years are presented in the consolidated statement of changes in equity on pages 35 to 36 of the financial statements.

The Group's reserve fund represents the Group's share of the statutory surplus reserve funds of certain subsidiaries operating as co-operative joint ventures/foreign investment enterprises in Mainland China. Pursuant to these subsidiaries' articles of association and the PRC Company Law, these subsidiaries shall make an allocation from its profit after tax at the rate of 10% to the statutory surplus reserve fund, until such reserve reaches 50% of the registered capital of the subsidiaries. Part of the statutory surplus reserve may be capitalised as the subsidiaries' registered capital, provided that the remaining balance after the capitalisation is not less than 25% of the registered capital of the subsidiaries.

The special capital reserve represents the undertaking given by the Company (the "Undertaking") in connection with the capital reduction during the year ended 31 March 2000. The special capital reserve shall not be treated as realised profits and shall be treated as an undistributable reserve as long as there shall remain any outstanding debts or claims which were in existence on the date of the cancellation of the shares of the Company pursuant to the capital reduction, provided that the amount of the reserve may be reduced by the amount of any future increase in the share capital and the share premium account. Any part of the reserve so reduced is released from the terms of the Undertaking and the Company may apply that part so released as a distributable reserve.

NOTES TO FINANCIAL STATEMENTS

Corporate guarantees given to banks in connection with				
facilities granted to subsidiaries	-	-	41,300	71,910

As at 31 December 2010, the corporate guarantees granted to subsidiaries of HK\$41,300,000 (2009: HK\$71,910,000) by the Company were utilised to the extent of approximately HK\$41,300,000 (2009: HK\$71,910,000) (note 38(c)).

In addition to the pending litigation set out in note 21 above, the Company is currently a defendant in a lawsuit brought by a third party alleging the Company for a debt amounting to HK\$2,150,000 under a loan agreement dated 12 October 2004 together with the interest thereon since 12 February 2005. The Company is in the course of defending such litigation, and the related liabilities were accrued for in the financial statements at the end of the reporting period.

31 December 2010

36. OPERATING LEASE ARRANGEMENTS

(a) As lessor

The Group leases certain of its gas station equipment and motor vehicles under noncancellable operating lease arrangements with terms ranging from one to fifteen years.

At 31 December 2010, the Group had total future minimum lease receivables under non-cancellable operating leases falling due as follows:

	Group			
	2010 2			
	HK\$′000	HK\$'000		
Within one year	2,246	1,378		
In the second to fifth years, inclusive	5,282	5,652		
After five years	15,322	14,803		
	22,850	21,833		

(b) As lessee

The Group leases certain of its office premises, land and staff quarters under noncancellable operating lease arrangements with terms ranging from one to twenty years.

At 31 December 2010, the Group had total future minimum lease payments under non-cancellable operating leases falling due as follows:

	Gro	Group		
	2010	2009		
	HK\$′000	HK\$'000		
Within one year	14,568	11,485		
In the second to fifth years, inclusive	38,268	33,845		
After five years	52,730	62,986		
	105,566	108,316		

NOTES TO FINANCIAL STATEMENTS

31 December 2010

37. COMMITMENTS

In addition to the operating lease commitments detailed in note 36 above, the Group had capital commitments in respect of the acquisition of items of property, plant and equipment of HK\$57,388,000 (2009: HK\$57,907,000) contracted but not provided for in the financial statements as at the end of the reporting period.

38. RELATED PARTY TRANSACTIONS

(a) In addition to the transactions detailed elsewhere in these financial statements, the Group had the following transactions with related parties during the year:

	Group				
		2010			
	Notes	HK\$′000	HK\$'000		
Associate:					
Rental income	(i)	-	433		
Non-controlling shareholders:					
Sales of products	(ii)	135,803	97,605		
Shareholder:					
Interest expenses	(iii)	1,132	1,114		

Notes:

- (i) The rental income received from an associate was related to leasing of land, CNG station and CNG trailers by the Group at terms which were mutually agreed between the Group and the associate with reference to the market rent.
- (ii) The sales of gas to non-controlling shareholders were made at prices mutually agreed between the parties, which approximated market rates.
- (iii) The interest expenses paid to a shareholder were charged at an interest rate of 3.65% per annum.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

38. RELATED PARTY TRANSACTIONS (Continued)

(b) Outstanding balances with related parties

- (i) The balances with non-controlling shareholders are unsecured, non-interestbearing and except for a balance of HK\$17,700,000 (2009: HK\$17,100,000) which is not expected to be repaid within 12 months from the end of the reporting period, have no fixed terms of repayment. The loan to a non-controller shareholder as at 31 December 2009 was unsecured, non-interest bearing and repayable within one year. In the current year, HK\$9,000,000 of the loan to a non-controlling shareholder was used by the non-controlling shareholder to purchase equity interests in a subsidiary. The remaining portion with a carrying amount of HK\$500,000 was impaired as in the opinion of directors, such amount is not expected to be recovered.
- (ii) Details of the balances with jointly-controlled entities and an associate as at the end of the reporting period are disclosed in notes 19 and 20 to the financial statements, respectively.
- (iii) The loans from a shareholder are unsecured, bear interest at 3.65% (2009: 3.65%) per annum and repayable in year 2012 (2009: year 2010).
- (iv) The amount due from a subsidiary is unsecured, non-interest-bearing and has no fixed terms of repayment.
- (c) Corporate guarantees aggregating HK\$41,300,000 (2009: HK\$71,910,000) are executed by the Company in favour of the banks regarding certain bank loans of the Company's subsidiaries (note 35).

NOTES TO FINANCIAL STATEMENTS

Convertible bonds	57,237	50,570	57,237	50,570	
	91,484	86,871	91,484	86,871	

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

Cash and bank balances, trade and bills receivables, trade payables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals, amounts with an associate, jointly-controlled entities and noncontrolling shareholders, and loan to a non-controlling shareholder, approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of the interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments on similar terms, credit risk and remaining maturities. The fair value of the liability portion of the convertible bonds is estimated using an equivalent market interest rate for a similar convertible bond.

31 December 2010

40. FAIR VALUE AND FAIR VALUE HIERARCHY (Continued) Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of financial instruments:

- Level 1: fair values measured based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: fair values measured based on valuation techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly
- Level 3: fair values measured based on valuation techniques for which any inputs which have a significant effect on the recorded fair value are not based on observable market data (unobservable inputs)

Assets measured at fair value:

Group

As at 31 December 2010

	Level 1	Level 2	Level 3	Total
	HK\$'000	HK\$′000	HK\$′000	HK\$′000
Available-for-sale investment	-	-	23,600	23,600

The Group did not have any financial assets measured at fair value as at 31 December 2009.

NOTES TO FINANCIAL STATEMENTS

31 December 2010

40. FAIR VALUE AND FAIR VALUE HIERARCHY (Continued)

The movement in fair value measurement in Level 3 during the year is as follows:

	2010
	НК\$′000
Available-for-sale investment – unlisted:	
At 1 January	-
Purchase	23,600
At 31 December	23,600

During the year ended 31 December 2009, there were no transfers into or out of Level 3 fair value measurement.

The Company did not have any financial assets measured at fair value as at 31 December 2010 and 2009.

The Group and the Company did not have any financial liabilities measured at fair value as at 31 December 2010 and 2009.

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank and other borrowings, and cash and bank balances. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade and bills receivables, and trade payables, which arise directly from its operations.

It is, and has been, throughout the year under review, the Group's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The board reviews and agrees policies for managing each of these risks and they are summarised below.

31 December 2010

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued) Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with a floating interest rate. The Group has no specific policy to deal with cash flow interest rate risk. However, management monitors the exposure and will consider hedging the interest rate risk exposure for significant cash flow risks should the need arise.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's profit/(loss) before tax (through the impact on floating rate borrowings) and the Group's and the Company's equity.

		Group		Comp	any
		Increase/			
		(decrease) in	Increase/		Increase/

Hong Kong dollar	-1	(281)	-	-1	-

* Excluding retained profits

NOTES TO FINANCIAL STATEMENTS

31 December 2010

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued) Foreign currency risk

The Group's functional currency is RMB since the operations of its major subsidiaries are mainly in Mainland China.

The Group's transactions were mainly conducted in RMB and its major trade and bills receivables, and borrowings were denominated in RMB, hence the exposure to foreign currency risk is minimal. The Group currently does not have a foreign currency hedging policy. However, management monitors foreign exchange exposure and will consider hedging significant foreign currency exposures should the need arise.

Credit risk

Most of the gas stations of the Group trade on a cash-on-delivery basis. However, the Group also trades on credit with certain recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant.

The credit risk of the Group's other financial assets, which comprise cash and bank balances, available-for-sale investments, other receivables and an amount due from a non-controlling shareholder, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer/ counterparty, by geographical region and by industry sector. There are no significant concentrations of credit risk within the Group as the customer bases of the Group's trade and bills receivables are widely dispersed in different geographical regions.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade and bills receivables, and other receivables are disclosed in notes 23 and 24 to the financial statements.

31 December 2010

41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued) Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade and bills receivables) and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank borrowings and other funds raising activities in the capital market. The Group has detailed operating plans for future development and will also consider arranging necessary financing through fund raising activities in the capital market.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

0010

#### **Capital management**

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2010 and 2009.

### NOTES TO FINANCIAL STATEMENTS

31 December 2010

# 41. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued) Capital management (Continued)

The Group monitors capital using a gearing ratio, which is net debt divided by adjusted capital plus net debt. The Group's policy is to maintain the gearing ratio to below 20%. Net debt includes interest-bearing bank and other borrowings, amounts due to related parties, trade and other payables, accruals, less cash and bank balances. Capital includes convertible bonds and equity attributable to owners of the parent. The gearing ratios as at the ends of the reporting periods were as follows:
