On behalf of the Board of Directors (the "Board"), I am pleased to present the annual report of Capital Estate Limited (the "Company") and its subsidiaries (together the "Group") for the year ended 31st July, 2011.

REVIEW OF THE RESULTS

The Group reported gross proceeds of approximately HK\$257.5 million for the year ended 31st July, 2011 (2010: HK\$\$226.9 million), which comprised gross proceeds from sales of securities of HK\$125.1 million (2010: HK\$118.5 million) and income from hotel operations and other business segments totalling HK\$132.4 million (2010: HK\$108.4 million).

Loss for the year attributable to owners of the Company for the year ended 31st July, 2011 was HK\$17.2 million, as compared to HK\$70.2 million for last year.

DIVIDEND

The Directors do not recommend the payment of any dividends for the year ended 31st July, 2011.

LIQUIDITY AND FINANCIAL RESOURCES

The Group continued to maintain a liquid position. At 31st July, 2011, the Group had cash of HK\$50.4 million (2010: HK\$33.0 million) mainly in Hong Kong dollars and marketable securities totalling HK\$41.6 million (2010: HK\$50.4 million).

Total bank borrowings (other than corporate credit card payable classified as "other payable") were HK\$142.0 million at 31st July, 2011 (2010: HK\$145.6 million), of which HK\$19.4 million were repayable within one year and HK\$122.6 million within two to five years. The bank borrowings were denominated in Renminbi and carried interest on a floating rate basis.

Convertible notes of face value HK\$20.0 million outstanding at 31st July, 2011 were repayable in 2013.

The Group's gearing ratio, expressed as a percentage of the Group's total liabilities over the shareholders' fund, was 27.4% at 31st July, 2011 (2010: 38.4%).

EXCHANGE RATE EXPOSURE

The assets and liabilities and transactions of several major subsidiaries of the Group are principally denominated in Renminbi or Hong Kong dollars pegged currencies, which expose the Group to foreign currency risk and such risk has not been hedged. It is the Group's policy to monitor such exposure and to use appropriate hedging measures when required.

BUSINESS REVIEW

For the year ended 31st July, 2011, the principal activities of the Group are property investment and development, hotel operation, financial investment and related activities.

Property investment and development

The Group continues to own the vacant land of approximately 10,154 square meters located in Coloane, Macau for the construction of 48 luxury residential houses and related facilities with a total gross floor area of approximately 19,934 square meters. The Group is awaiting the government's approval for the commencement of the development.

The Group holds an effective 5% interest in the land site at Avenida Commercial de Macau through an investee company, Sociedade de Investmento Imboiliaro Pun Keng Van, SARL. The site is for the development of a 51-storey (plus 4 basement levels) luxurious residential building on the waterfront at Nam Van Lake with a maximum permitted gross floor area of approximately 55,800 square meters. The progress of the project will be monitored closely.

Hotel operation

The Group owns 100% interest in Hotel Fortuna, Foshan, a hotel with 408 rooms located at Le Cong Zhen, Shun De District, Foshan, the PRC, through a wholly owned subsidiary, Foshan Fortuna Hotel Company Limited. During the year ended 31st December, 2010, the occupancy rate of the hotel has increased by 7.7% and recorded a turnover of approximately HK\$117.9 million in 2010 compared to HK\$93.7 million in 2009.

The Group also holds a 32.5% interest in Hotel Fortuna, Macau which is owned and operated by Tin Fok Holding Company Limited, an associated company of the Group. Despite the keen competition in the Macau hotel industry, Hotel Fortuna, Macau continued to maintain a high occupancy rate of approximately 97% and recorded a stable turnover of approximately HK\$181.2 million in 2010 when compared to the turnover of HK\$181.8 million in 2009.

EMPLOYEES

The Group offers its employees competitive remuneration packages to commensurate with their experience, performance and job nature, which include basic salary, bonuses, share options, retirement and other benefits.

At 31st July, 2011, the Group had approximately 650 employees of which approximately 630 employees were stationed in Mainland China. Total staff remuneration incurred for the year ended 31st July, 2011 amounted to approximately HK\$42.5 million (2010: HK\$36.7 million).

PROSPECTS

A new recreational building of Hotel Fortuna, Foshan is under construction and will offer a gross floor area of approximately 6,000 square meters with swimming pool, gym, sauna, karaoke and other club house facilities. These new facilities are expected to enhance the operational efficiency, competitiveness and revenue of the hotel. After the completion of the recreational building, the site of Hotel Fortuna, Foshan still has an undeveloped permissible gross floor area for residential and commercial uses in excess of 64,000 square meters. It is the management's objective to launch feasible development plans to fully realise such development potential at the right time.

On 8 November 2010, the Company issued HK\$135 million aggregate principal amount of 4% convertible notes (the "Notes") due in 2013 and successfully raised approximately HK\$131 million of net proceeds (after deducting expenses). Up to the date of this report, Notes totalling HK\$115 million in face value have been converted into 319,444,440 new shares of the Company. The issue of the Notes has broadened the capital and shareholder base of the Company and effectively strengthened the Group's financial capabilities.

Chairman's Statement

In spite of the uncertainties in the global economy, the Group is optimistic with the long term prospects of the property and hospitality sectors in Macau and the PRC. With healthy financial position and business operation, the Group will continue its prudent approach to identify and seek sound business opportunities to enhance shareholders' return.

ACKNOWLEDGEMENTS

I would like to thank my fellow directors and staff for their invaluable contribution and commitment during the year.

Independent Auditor's Report

TO THE MEMBERS OF CAPITAL ESTATE LIMITED

冠中地產有限公司 (incorporated in Hong Kong with limited liability)

We have audited the consolidated financial statements of Capital Estate Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 17 to 74, which comprise the consolidated and Company's statements of financial position as at 31st July, 2011, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with section 141 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31st July, 2011, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the Hong Kong Companies Ordinance.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2011

1. GENERAL

The Company is a public limited company incorporated in Hong Kong and its shares are listed on The Stock Exchange of Hong Kong Limited. The address of the registered office and principal place of business of the Company is 17/F., Asia Orient Tower, Town Place, 33 Lockhart Road, Wan Chai, Hong Kong.

The Company acts as an investment holding company. The activities of its principal subsidiaries and associates are set out in notes 18 and 19 respectively.

The consolidated financial statements are presented in Hong Kong dollars, which is also the functional currency of the Company.

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs")

In the current year, the Group has applied the following new and revised standards, amendments and interpretations ("new and revised HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and are mandatorily effective for the Group's financial year beginning 1st August, 2010, as follows:

HKFRSs (Amendments)	Improvements to HKFRSs 2009
HKFRSs (Amendments)	Improvements to HKFRSs 2010 ¹
HKAS 32 (Amendments)	Classification of Rights Issues

HK(IFRIC) — Int 19	Extinguishing Financial Liabilities with Equity Instruments
HK — Int 5	Presentation of Financial Statements Classification by
	the Borrower of a Term Loan that Contains a
	Repayment on Demand Clause

¹ Except for the amendments that are effective for annual periods beginning on or after 1st January, 2011.

The adoption of the above new and revised HKFRSs has had no material effect on the consolidated financial statements of the Group and the financial statements of the Company for the current or prior accounting periods.

Improvements to HKFRSs 2010 except for the amendments

For the year ended 31st July, 2011

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

The Group has not early applied the following new and revised standards, amendments and interpretations that have been issued but are not yet effective:

HKFRS 9 "Financial Instruments" (as issued in November 2009) introduces new requirements for the classification and measurement of financial assets. HKFRS 9 "Financial Instruments" (as revised in November 2010) adds requirements for financial liabilities and for derecognition.

Under HKFRS 9, all recognised financial assets that are within the scope of HKAS 39 "Financial Instruments: Recognition and Measurement" are subsequently measured at either amortised cost or fair value. Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. All other debt investments and equity investments are measured at their fair values at the end of subsequent accounting periods.

In relation to financial liabilities, the significant change relates to financial liabilities that are designated as at fair value through profit or loss. Specifically, under HKFRS 9, for financial liabilities that are designated as at fair value through profit or loss, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is presented in other comprehensive income, unless the presentation of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Previously, under HKAS 39, the entire amount of the change in the fair value of the financial liability designated as at fair value through profit or loss.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2011

2. APPLICATION OF NEW AND REVISED HONG KONG FINANCIAL REPORTING STANDARDS ("HKFRSs") (Continued)

The Directors anticipate that HKFRS 9 that will be adopted in the Group's consolidated financial statements for the annual period beginning 1st August, 2013 will affect the classification and measurement of the Group's available-for-sale investments based on the Group's financial assets and financial liabilities as at 31st July, 2011.

The directors anticipate that the applications of other new and revised Standards, Amendments and Interpretations will have no material impact on the consolidated financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for investment properties and certain financial instruments, which are measured at fair values, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange of goods.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition and up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein.

Allocation of total comprehensive income to non-controlling interests

Total comprehensive income and expense of a subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. Prior to 1st August, 2009, losses applicable to the non-controlling interests in excess of the non-controlling interests in the subsidiary's equity were allocated against the interests of the Group except to the extent that the non-controlling interests had a binding obligation and were able to make an additional investment to cover the losses.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations

Business combinations prior to 1st August, 2009

Acquisition of businesses was accounted for using the purchase method. The cost of the acquisition was measured at the aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree, plus any costs directly attributable to the business combination. The acquiree's identifiable assets, liabilities and contingent liabilities that met the relevant conditions for recognition were generally recognised at their fair values at the acquisition date.

Goodwill arising on acquisition was recognised as an asset and initially measured at cost, being the excess of the cost of the acquisition over the Group's interest in the recognised amounts of the identifiable assets, liabilities and contingent liabilities recognised. If, after re-assessment, the Group's interest in the recognised amounts of the acquiree's identifiable assets, liabilities and contingent liabilities exceeded the cost of the acquisition, the excess was recognised immediately in profit or loss.

The non-controlling interest in the acquiree was initially measured at the non-controlling interest's proportionate share of the recognised amounts of the assets, liabilities and contingent liabilities of the acquiree.

Contingent consideration was recognised, if and only if, the contingent consideration was probable and could be measured reliably. Subsequent adjustments to contingent consideration were recognised against the cost of the acquisition.

Business combinations achieved in stages were accounted for as separate steps. Goodwill was determined at each step. Any additional acquisition did not affect the previously recognised goodwill.

Business combinations that took place on or after 1st August, 2009

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are generally recognised in profit or loss as incurred.

At the acquisition date, the identifiable assets acquired and liabilities assumed are recognised at their fair values at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with HKAS 12 *Income Taxes* and HKAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to the share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment transactions with share-based payment transactions of the Group are measured in accordance with HKFRS 2 Share-based Payment at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are measured in accordance with that Standard.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations (Continued)

Business combinations that took place on or after 1st August, 2009 (Continued)

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any noncontrolling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any noncontrolling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interest are measured at their fair value or another measurement basis required by another standard.

Where the consideration the Group transfers in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration is measured at its acquisitiondate fair value and considered as part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments being made against goodwill or gain on bargain purchase. Measurement period adjustments are adjustments that arise from additional information obtained during the measurement period about facts and circumstances that existed as of the acquisition date. Measurement period does not exceed one year from the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset or a liability is remeasured at subsequent reporting dates in accordance with HKAS 39, or HKAS 37 Provisions, Contingent Liabilities and Contingent Assets, as appropriate, with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquire is remeasured to fair value at the acquisition date (i. e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquire prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

Changes in the value of the previously held equity interest recognised in other comprehensive income and accumulated in equity before the acquisition date are reclassified to profit or loss when the Group obtains control over the acquiree.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations (Continued)

Business combinations that took place on or after 1st August, 2009 (Continued)

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see above), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

Investments in subsidiaries

Investments in subsidiaries are included in the Company's statement of financial position at cost less any identified impairment loss. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

Investments in associates

An associate is an entity over which the investor has significant influence and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy discussions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method of accounting. Under the equity method, investments in associates are initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associates. When the Group's share of losses of an associate equals or exceeds its interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of that associate.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate recognised at the date of acquisition is recognised as goodwill, which is included within the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognised immediately in profit or loss.

The requirements of HKAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with HKAS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with HKAS 36 to the extent that the recoverable amount of the investment subsequently increases.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investments in associates (Continued)

From 1st July, 2010 onwards, upon disposal of an associate that results in the Group losing significant influence over that associate, any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset in accordance with HKAS 39. The difference between the previous carrying amount of the associate attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate. In addition, the Group accounts for all amounts previously recognised in other comprehensive income in relation to that associate on the same basis as would be required if that associate had directly disposed of the related assets or liabilities. Therefore, if a gain or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) when it loses significant influence over that associate.

Where a group entity transacts with its associate, profits and losses resulting from the transactions with the associate are recognised in the Group's consolidated financial statements only to the extent of interests in the associate that are not related to the Group.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair values using the fair value model. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the item is derecognised.

Property, plant and equipment

Property, plant and equipment including buildings held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Properties in the course of construction for production supply or administrative purposes are carried at cost less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment (Continued)

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Properties for development

Properties for development represent leasehold land located in Macau for development for future sale in the ordinary course of business. Cost comprises the costs of land use rights and other costs directly attributable to bringing the leasehold land to the condition necessary for it to be ready for development. Properties for development are stated at the lower of cost and net realisable value.

Prepaid lease payments

The up-front payments to acquire leasehold interest in land are accounted for as operating leases and are stated at cost and amortised over the lease term on a straight-line basis.

Premium on prepaid lease payments

Premium on prepaid lease payments of leasehold land represents premium on acquisition of prepaid lease payments of land use rights as a result of acquisition of subsidiaries, which are stated at cost and amortised on the same basis as the related land use rights.

Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold and services provided in the normal course of business, net of discounts and sales related taxes.

Revenue from hotel operation, which comprise room rental, food and beverage sales and other ancillary services in the hotel, are recognised when the relevant services have been rendered.

Sales of trading securities are recognised when the related bought and sold contract notes are executed.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount can be measured reliably. Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipt through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Dividend income from investments is recognised when the Group's rights to receive payment have been established.

Notes to the Consolidated Financial Statements

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the weighted average method.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. If the recoverable amount of an asset is estimate to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on differences between the carrying amount of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary difference to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax is recognised in profit or loss, except when it relates to items that recognised in other comprehensive income or directly in equity, in which case the deferred tax is also recognised in other comprehensive income or directly in equity respectively.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollars) at the rate of exchange prevailing at the end of the reporting period, and their income and expenses are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity (the translation reserve).

From 1st July, 2010 onwards, on the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a jointly controlled entity that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences accumulated in equity in respect of that operation attributable to the owners of the Company are reclassified to profit or loss. In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are re-attributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (i.e. partial disposals of associates or jointly controlled entities that do not result in the Group losing significant influence or joint control), the proportionate share of the accumulated exchange differences is reclassified to profit or loss.

Equity-settled share-based payment transactions

The fair value of services received determined by reference to the fair value of share options granted at the grant date is recognised as an expense in full at the grant date when the share options granted vest immediately, with a corresponding increase in equity (share options reserve).

At the time when the share options are exercised, the amount previously recognised in share option reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share option reserve will continue to be held in share option reserve.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Retirement benefit costs

Payments to defined contribution scheme/state-managed retirement benefit schemes/the Mandatory Provident Fund Scheme ("MPF Scheme") are charged as expenses when employees have rendered services entitling them to the contributions.

Financial instruments

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

The Group's financial assets are classified into one of the three categories, including financial assets at fair value through profit or loss ("FVTPL"), loans and receivables and available-for-sale financial assets. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL, of which interest income is included in net gains or losses.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Financial assets at fair value through profit or loss

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near future; or
- it is a part of an identified portfolio of financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

Financial assets at FVTPL are measured at fair value, with changes in fair value arising from remeasurement recognised directly in profit or loss in the period in which they arise. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial assets.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including amounts due from associates, amounts due from subsidiaries, trade and other receivables, pledged bank deposits and bank balances and cash) are carried at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment loss on financial assets below).

Available-for-sale financial assets

Available-for-sale financial assets are non-derivatives that are either designated or not classified as financial assets at FVTPL, loans and receivables or held-to-maturity investments.

Available-for-sale financial assets are measured at fair value at the end of the reporting period. Changes in fair value are recognised in other comprehensive income and accumulated in revaluation reserve, until the financial asset is disposed of or is determined to be impaired, at which time, the cumulative gain or loss previously accumulated in the revaluation reserve is reclassified to profit or loss (see accounting policy on impairment loss on financial assets below).

For available-for-sale equity investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured and derivatives that are linked to and must be settled by delivery of such unquoted equity instruments, they are measured at cost less any identified impairment losses at the end of each reporting period (see accounting policy on impairment loss on financial assets below).

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets

Financial assets, other than those at FVTPL, are assessed for indicators of impairment at the end of the reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the financial assets have been affected.

For an available-for-sale equity investment, a significant or prolonged decline in the fair value of that investment below its cost is considered to be objective evidence of impairment.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation; or
- the disappearance of an active market for that financial asset because of financial difficulties.

For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period of 30 days, observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, an impairment loss is recognised in profit or loss when there is objective evidence that the asset is impaired, and is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the original effective interest rate.

For financial assets carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial assets (Continued)

Impairment of financial assets (Continued)

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment losses was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Impairment losses on available-for-sale equity investments will not be reversed in profit or loss in subsequent periods. Any increase in fair value subsequent to impairment loss is recognised directly in other comprehensive income and accumulated in revaluation reserve. For available-for-sale debt investments, impairment losses are subsequently reversed if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss.

Financial liabilities and equity instruments

Financial liabilities and equity instruments issued by a group entity are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of the group after deducting all of its liabilities.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

Interest expense is recognised on an effective interest basis other than those financial liability classified as FVTPL, of which the interest expense is included in net gains or losses.

Financial liabilities

Financial liabilities including trade and other payables, amount due to a related company, bank borrowings, amounts due to subsidiaries, and consideration payable for acquisition of subsidiaries are subsequently measured at amortised cost, using the effective interest method.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Financial liabilities and equity instruments (Continued)

Convertible notes issued by the Group

Convertible notes containing liability and equity components

Convertible notes issued by the Company that contain liability (together with the early redemption option which is closely related to the host liability component) and conversion option are classified separately into respective items on initial recognition. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is classified as an equity instrument.

On initial recognition, the fair value of the liability component is determined using the prevailing market interest rate of similar non-convertible debts. The difference between the gross proceeds of the issue of the Convertible notes and the fair value assigned to the liability component, representing the conversion option for the holder to convert the loan notes into equity, is included in equity (Convertible notes reserve).

In subsequent periods, the liability component of the Convertible notes is carried at amortised cost using the effective interest method. The equity component, representing the option to convert the liability component into ordinary shares of the Company, will remain in Convertible notes reserve until the embedded option is exercised (in which case the balance stated in Convertible notes reserve will be transferred to share premium). Where the option remains unexercised at the expiry date, the balance stated in Convertible notes reserve will be released to the retained profits. No gain or loss is recognised in profit or loss upon conversion or expiration of the option.

Transaction costs that relate to the issue of the Convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are charged directly to equity. Transaction costs relating to the liability component are included in the carrying amount of the liability portion and amortised over the period of the Convertible notes using the effective interest method.

Equity instruments

Equity instruments issued by the Group are recorded at the proceeds received, net of direct issue costs.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets expire or, the financial assets are transferred and the Group has transferred substantially all the risks and rewards of ownership of the financial assets.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

For the year ended 31st July, 2011

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial instruments (Continued)

Derecognition (Continued)

Financial liabilities are derecognised when the obligation specified in the relevant contract is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Estimated impairment on available-for-sale investments

Management reviews the recoverability of the Group's available-for-sale investments with reference to current market environment whenever events or changes in circumstances indicate that the carrying amounts of the assets exceeds their corresponding recoverable amounts. Appropriate impairment for estimated irrecoverable amounts are recognised in profit and loss when there is objective evidence that the asset is impaired.

In determining whether impairment on available-for-sale investments is required, the Group takes into consideration the current market environment and the estimates of future cash flows which the Group expect to receive. Impairment is recognised based on the present value of estimated future cash flows. If the market environment/circumstances changes significantly, resulting in a decrease in the recoverable amount of these available-for-sale investments, additional impairment loss may be required. As at 31st July, 2011, the carrying amount of available-for-sale investments is approximately HK\$59,850,000 (2010: HK\$59,850,000).

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Income taxes

As at 31st July, 2011, the Group had unused tax losses of HK\$270,376,000 (2010: HK\$228,258,000) available to offset aginst future profits. A deferred tax asset has been recognised in respect of HK\$13,010,000 (2010: HK\$12,039,000) of tax losses in the Group's consolidated statement of financial position. No deferred tax asset has been recognised on the tax losses of HK\$257,366,000 (2010: HK\$216,219,000) due to the unpredictability of future profit streams. The realisability of the deferred tax asset mainly depends on whether sufficient future taxable profits or taxable temporary differences will be available in the future. In cases where the actual future taxable profits generated are less or more than expected, a material reversal or recognition of deferred tax assets may arise, which would be recognised in profit or loss in the period in which such a reversal or recognition takes places.

Properties for development

An assessment of the net realisable value is made in each reporting period. The Group takes into consideration the current market environment and the estimated market value of leasehold land. Such assessment was made based on certain assumptions, which are subject to uncertainty and might materially differ from actual results. In making the assessment, the Group's management has made estimates concerning estimated prices to be generated by the completed properties and made deductions for the estimated development costs and required estimated development profits from the properties. The assumptions used are intended to reflect conditions existing at the end of the reporting period. Impairment is made if the estimated market value is less than the carrying amount. If the actual net realisable value on properties under development cost, a material provision for impairment loss may result. The carrying amount of the properties under development is HK\$227,200,000 (2010: HK\$227,200,000).

7. SEGMENT INFORMATION

The following is an analysis of the Group's revenue and results by operating segment, based on information provided to the chief operating decision maker ("CODM") representing the board of directors of the Company, for the purpose of allocating resources to segments and assessing their performance. This is also the basis upon which the Group is arranged and organised. The Group's operating and reportable segments are as follows:

Hotel operations	—	hotel business and its related services
Financial investment	—	trading of listed securities and other financial Instruments
Property	—	leasing of properties and sale of properties held for sale and
		property under development

Information regarding these segments is reported below.

	2011 HK\$'000	2010 HK\$'000
The credit comprises:		
Deferred taxation (note 32)	(2,706)	(2,351)

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years.

PRC Enterprise Income Tax is calculated at the applicable rates of 25% in accordance with the relevant laws and regulations in the People's Republic of China (the "PRC"). Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions.

No provision for Hong Kong Profits Tax and Enterprise Income Tax in PRC subsidiaries has been made for both years as the Company and its subsidiaries either did not generate any assessable profits for the years or have available tax losses brought forward from prior years to offset against any assessable profits generated during the years.

The tax credit for the year can be reconciled to the loss before taxation per the consolidated statement of comprehensive income as follows:

	2011 HK\$'000	2010 HK\$'000
Loss before taxation	(20,261)	(73,018)

During the years ended 31st July, 2011 and 2010, no directors waived any emoluments.

12. EMPLOYEES' EMOLUMENTS

Of the five highest paid individuals in the Group, one (2010: one) was director of the Company whose emoluments was included in note 11 above. The emoluments of the remaining four (2010: four) employees were as follows:

	2011 HK\$'000	2010 HK\$'000
Salaries and other benefits Retirement benefit scheme contributions	2,373 24	1,957 36
	2,397	1,993

Their emoluments were within the following bands:

	2011 No. of employees	2010 No. of employees
Nil to HK\$1,000,000	4	4

During the year ended 31st July, 2011, no emoluments were paid by the Group to the five highest paid individuals, including directors, as an inducement to join or upon joining the Group or as compensation for loss of office (2010: Nil).

13. LOSS PER SHARE

The calculation of basic and diluted loss per share is based on the following data:

	2011 HK\$'000	2010 HK\$'000
Loss for the year attributable to owners of the Company		
for the purposes of basic and diluted loss per share	(17,248)	(70,209)
	2011	2010
Number of shares:		
Weighted average number of ordinary shares for the		
purposes of basic and diluted loss per share	2,316,159,854	2,137,815,169

For the year ended 31st July, 2011, the computation of diluted loss per share does not include the effects of outstanding convertible notes because the assumed exercise of convertible notes would result in a decrease in loss per share.

For the year ended 31st July, 2010, the computation of diluted loss per share does not include the effects of the share options because the assumed exercise of the share options would result in a decrease in loss per share.

For the year ended 31st July, 2011

18. INVESTMENTS IN SUBSIDIARIES/AMOUNTS DUE FROM SUBSIDIARIES (Continued)

None of the subsidiaries had issued any debt securities at the end of the reporting period or at any time during the reporting period.

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results or assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length.

19. INTERESTS IN ASSOCIATES

	THE G	THE GROUP	
	2011	2010	
	HK\$'000	HK\$'000

	221,247	209,263	
Long term advance to an associate	-	12,068	
	221,247	221,331	

At 31st July, 2010 and 2011, the Group had interests in the following associates:

Name of entity	Place of incorporation/principal place of operation	Proportion of quoted capital held by the Group	Principal activities
Tin Fok Holdings Company Limited ("Tin Fok") (note i)	Macau	32.5%	Hotel operation
Singon Holding Limited ("Singon") (note ii)	Hong Kong/ Macau	25%	Dormant

Note:

- (i) This associate is controlled by Mr. Sio Tak Hong, a director and a substantial shareholder of the Company with significant influence over the Company. Approximately HK\$221 million (2010: HK\$209 million) was included in interests in associates in respect of the Group's interest in Tin Fok.
- Singon held certain interest in leasehold land located in Macau for property development. In October 2010, Singon disposed of its interest in such leasehold land to an independent third party, repaid the long term advance to its shareholders, and hence became dormant since then.

Included in the cost of investments in associates is goodwill of HK\$2,362,000 arising on acquisition of Tin Fok.

19. INTERESTS IN ASSOCIATES (Continued)

The summarised financial information in respect of the Group's associates is set out below:

	2011 HK\$'000	2010 HK\$'000
Total assets Total liabilities	1,540,962 (867,456)	953,419 (268,536)

Group's share of net assets of associates	218,885	218,969
Revenue	278,972	200,662
Profit (loss) for the year	38,078	(7,338)
Group's share of profits (losses) of associates	12,281	(2,382)

20. AVAILABLE-FOR-SALE INVESTMENTS

	THE GR	THE GROUP	
	2011 HK\$'000	2010 HK\$'000

Unlisted equity securities, at cost Impairment loss recognised	69,890 (10,040)	69,890 (10,040)	
	59,850	59,850	

The available-for-sale investments represent investments in unlisted equity securities issued by private entities incorporated and operate in the United States of America and Macau involved in property investment. They are measured at cost less impairment at the end of each reporting period because the range of reasonable fair value estimates is so significant that the directors of the Company are of the opinion that their fair values cannot be measured reliably.

The Group's available-for-sale investments that are denominated in currencies other than functional currencies of the relevant group entities are set out below:

	2011 HK\$'000	2010 HK\$'000
USD	13,640	13,640

For the year ended 31st July, 2011

21. AMOUNT DUE FROM (TO) ASSOCIATES/A RELATED COMPANY

The amounts are unsecured, non-interest bearing, non-trade nature and repayable on demand.

The amount due from an associate is expected to be recovered within one year from the end of the reporting period.

At 31st July, 2011, an amount of HK\$150,000 due to a related company represents advance from Santa Cove (China) Real Estate Limited, in which Mr. Sio Tak Hong, a director of the Company has beneficial interests. At 31st July, 2010, an amount of HK\$5,713,000 due to a related company represents advance from JiangMen Wuyi Golf Course Entertainment Company Limited, in which Mr. Sio Tak Hong, a director of the Company has beneficial interests.

22. PROPERTIES FOR DEVELOPMENT

Properties for development represent leasehold land located in Macau for development and future sale in the ordinary course of business. Cost comprises the costs of land use rights under medium-term lease and other cost directly attributable to bringing the leasehold land to the condition necessary for it to be ready for development. Properties for development are stated at lower of cost and net realizable value. No finance cost on development has been capitalized. During the year ended 31st July, 2011, the Group has no impairment loss identified (2010: HK\$20,000,000) on properties for development.

23. INVENTORIES

All of the Group's inventories at 31st July, 2011 and 31st July, 2010 represent food and beverage for hotel business.

24. TRADE AND OTHER RECEIVABLES

The Group allows an average credit period of 30 days to its trade customers of hotel business and property rental, an aged analysis of trade receivables based on invoice date is as follows:

	THE GROUP	
	2011 HK\$'000	2010 HK\$'000
Trade receivables:

29. CONSIDERATION PAYABLE FOR ACQUISITION OF SUBSIDIARIES

On 29th February, 2008, the Company entered into an agreement with Mason Creation Limited, Upper Way Holdings Limited and Mr. Siu Ka Kuen (the "Vendors") and Mr. Sio Tak Hong and Mr. Tang Fung (the "Warrantors"), pursuant to which, the Company has conditionally agreed to acquire from the Vendors the entire issued share capital of Hotel Fortuna (Hong Kong) Company Limited ("Hotel Fortuna (Hong Kong)") and all outstanding liabilities owed by Hotel Fortuna (Hong Kong) to each of the Vendors as at completion date of the agreement at an aggregate consideration of approximately HK\$550,000,000 (subject to adjustments).

Hotel Fortuna (Hong Kong) is an investment holding company and its principal asset is its 100% equity interest in 佛山市財神酒店有限公司 Foshan Fortuna Hotel Company Limited, which is established in the PRC and owns a hotel situated at Le Cong Zhen, Shun De District, Foshan, Guangdong Province, the PRC.

During the year ended 31st July, 2010, the principal of HK\$33,316,000 and interest of HK\$2,252,000 were settled and the remaining balance of the accrued interest was included in other payables as at 31st July, 2010. During the year ended 31st July, 2011, the remaining principal amount of HK\$80,277,000 and interest of HK\$1,532,000 was fully settled.

30. CONVERTIBLE NOTES

On 8th November, 2010, the Company issued an aggregate principal amount of HK\$135,000,000 unsecured 4% convertible notes due 2013.

The convertible notes bear interest at 4% per annum and will mature on 8th November, 2013. The holders of the convertible notes have the right to convert their convertible notes into ordinary shares of the Company at a conversion price of HK\$0. 36 per share at any time commencing from the issue date up to the business day last preceding the fifth business day prior to the maturity date.

Unless previously redeemed, converted or repaid in accordance with the terms and conditions of the convertible notes, the Company will redeem all convertible notes at their principal amount together with accrued and unpaid interest thereon on the maturity date. The Company may early redeem any portion of the outstanding convertible notes at par at any time prior to the maturity date.

The convertible notes contain two components, liability (together with embedded derivative for early redemption right by the Company which is closely related to the host debt) and equity elements. The equity element is presented in equity under the heading of "convertible notes reserve". The effective interest rate of the liability component of the convertible notes is 11.58% at the date of initial recognition.

During the year ended 31st July, 2011, convertible notes with a principal amount of HK\$115,000,000 were converted into shares of HK\$0.1 each in the Company at the conversion price of HK\$0.36 per share. Accordingly, a total of 319,444,444 ordinary shares of HK\$0.1 each were issued.

The movement of liability component of the convertible notes is as follows:

34. SHARE-BASED PAYMENT TRANSACTIONS

Pursuant to a resolution passed on 30th December, 2002, the existing share option scheme was adopted (the "Scheme") for the primary purpose of providing incentives to directors, employees and eligible participants. The Scheme will expire on 29th December, 2012.

Under the Scheme, the Board of Directors of the Company (the "Board") may grant options to executive directors, employees of the Company and its subsidiaries and such eligible participants at the discretion of the Board pursuant to the terms of the Scheme, to subscribe for shares of the Company at a price per share not less than the highest of i) the closing price of a share of the Company listed on the Stock Exchange at the date of grant of the option; ii) the average of the closing price of a share of the Company on the Stock Exchange for the five trading days immediately preceding the date of grant of the option; and iii) the nominal value of a share of the Company.

The maximum number of shares in respect of which options shall be granted under the Scheme shall not exceed 10% in aggregate of the issued share capital of the Company at the date of its adoption. No director, employee or eligible participant may be granted options under the Scheme which will enable him or her if exercise in full to subscribe for exceeding 1% of the issued share capital of the Company in any 12-month period. The option period for which the options granted can be exercisable, shall be such period as notified by the Board, save that it shall not be more than 10 years from the date of grant subject to the terms of the Scheme. Nominal consideration of HK\$1 is payable on acceptance of each grant and the share options granted shall be accepted within 28 days from the date of grant.

Both at 31st July, 2011 and 2010, no shares options granted had remained outstanding under the Scheme.

Under the capital reduction exercise carried out in October 2002, the Company undertook to maintain a capital reduction reserve account. This account would not be treated as realised profits and should be treated as reserve of the Company, which should not be distributable until or unless the creditors of the Company as at the date of the sanction of the reduction of capital (the "Creditors") were fully settled, provided for by the Company or the remaining Creditors and each of them did consent by which time the account would be cancelled and provided that prior to the cancellation of the account, the Company might apply it in paying up unissued shares of the Company to be issued to members as fully paid bonus shares.

36. PLEDGE OF ASSETS

At 31st July, 2011, hotel properties of HK\$331,140,000 (2010: HK\$322,452,000) of the Group were pledged to secure bank borrowings of RMB117,200,000 equivalent to approximately of HK\$142,038,000 (2010: RMB127,600,000, equivalent to approximately of HK\$145,584,000) granted to the Group. Bank deposit of HK\$641,000 (2010: HK\$641,000) of the Group was pledged to banks to secure credit facilities to the extent of HK\$600,000 (2010: HK\$600,000) granted to the Group, of which HK\$22,000 (2010: HK\$5,000) was utilised by the Group.

For the year ended 31st July, 2011

37. RETIREMENT BENEFIT SCHEME

Prior to 1st December, 2000, the Group operated defined contribution retirement benefit schemes ("Defined Contribution Schemes") for its qualifying employees in Hong Kong. The assets of the schemes were held separately from those of the Group in funds under the control of independent trustees. Where there are employees who leave the Defined Contribution Schemes prior to vesting fully in the contributions, the amount of the forfeited contributions would be used to reduce future contributions payable by the Group. Since the Defined Contribution Schemes were terminated on 1st December, 2000, forfeited contributions in respect of unvested benefits of employees leaving the Group under the Defined Contribution Schemes cannot be used to reduce ongoing contributions. The Group did not have forfeited contributions for both years.

Effective on 1st December, 2000, the Group has joined the MPF Scheme for all of its employees in Hong Kong. The MPF Scheme is registered with the Mandatory Provident Fund Scheme Authority under the Mandatory Provident Fund Scheme or Group in Hong Kong. The assets of the MPF Scheme are held separately from those of the Group in funds under the control of an independent trustee. Under the rule of the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at rate specified in the rules. The only obligation of the Group with respect to the MPF Scheme is to make the required contributions under the scheme.

The employees employed by PRC subsidiaries are members of the state-managed retirement benefits schemes operated by the PRC government. The PRC subsidiaries are required to contribute a certain percentage of their payroll to the retirement benefits schemes to fund the benefits. The only obligation of the Group with respect of the retirement benefits schemes is to make the required contributions under the schemes.

The retirement benefit scheme contributions arising from the MPF Scheme and the PRC state-managed retirement benefit scheme charged to the consolidated statement of comprehensive income represent contributions payable to the scheme by the Group at rates specified in the rules of the scheme. For the year ended 31st July, 2011, contributions of the Group under the MPF Scheme and the PRC state-managed retirement benefit scheme amounted to HK\$2,105,000 (2010: HK\$2,021,000).

38. OPERATING LEASES

The Group as lessee

Minimum lease payments paid under operating leases for premises during the year was HK\$3,170,000 (2010: HK\$2,813,000).

At the end of the reporting period, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	THE GRO	THE GROUP		
	2011 HK\$'000

Short-term benefits Post-employment benefits	3,700 12	3,700 12
	3,712	3,712

The remuneration of directors and key executives is determined by the board of directors after recommendation from the Remuneration Committee, having regard to the performance of individuals and market trends.

41. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debt, which includes the bank borrowing and convertible notes disclosed in notes 28 and 30 respectively, net of cash and cash equivalents and equity attributable to owners of the Company, comprising issued share capital and various reserves.

The directors of the Company review the capital structure on a semi-annual basis. As part of this review, the directors consider the cost of capital and the risks associates with each class of capital. Based on recommendations of the directors, the Group will balance its overall capital structure through the payment of dividends, new share issues as well as the issue of new debts.

The Group and the Company is mainly exposed to the fluctuation in USD. The foreign currency risk is not significant as HKD is pegged with USD.

(ii) Interest rate risk

Convertible notes at fixed rates expose the Group and the Company to fair value interest rate risk. At 31st July, 2010, the Group was also exposed to fair value interest rate risk in relation to the consideration payable for acquisition of subsidiaries.

Details of the Group's and the Company's interest bearing financial instruments have been disclosed in their respective notes to the consolidated financial statements.

The Group's and the Company's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note.

The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of the rate determined by the People's Bank of China arising from the Group's RMB borrowings. Certain amounts of the amounts due from subsidiaries of the Company also expose the Company to cash flow interest rate due to the fluctuation of the Hong Kong Prime Rate.

(ii) Interest rate risk

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for variable rate non-derivative instruments (including bank borrowings) at the end of the reporting period. The analysis is prepared assuming the financial instruments outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

The effect of an increase/decrease in interest rates by 50 (2010: 50) basis points, with all other variables held constant, on the Group's and the Company's loss for both years would be insignificant.

(iii) Other price risk

The Group is exposed to equity price risk arising from investments held for trading and available-for-sale investments (which are stated at cost as their fair values cannot be estimated reliably). Management manages this exposure by maintaining a portfolio of investments with different risks. The Group's equity price risk is mainly concentrated on listed equity instruments quoted on the Stock Exchange. In addition, the Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

Sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to equity price risks assuming all other variables were held constant, at the reporting date.

If the prices of the respective equity investments had been 5% higher/lower, the Group's loss for the year ended 31st July, 2011 would decrease/increase by HK\$1,735,000 (2010: decrease/increase by HK\$2,103,000) as a result of the changes in fair value of investments held for trading.

For the year ended 31st July, 2011

Credit risk

The Group's and the Company's maximum exposure to credit risk which will cause a financial loss to the Group and the Company due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated and Company's statements of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The Group does not expose to significant concentration of credit risk in both years, with exposure spread over a number of counterparties and customers. The management continues to monitor the financial performance of the listed company for the purpose of monitoring its credit risk exposure.

The Company has concentration of credit risk on amounts due from subsidiaries as 91% (2010: 90%) of the balance due from five (2010: five) operating subsidiaries. However, the Company's credit risk is limited because the counterparties are subsidiaries with positive operating cash flow position. In order to minimise the credit risk, the directors of the Company review the recoverable amount of each individual amounts due from subsidiaries at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Company's credit risk is significantly reduced.

The credit risks of the Group and the Company on liquid funds are limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

Liquidity risk

In the management of the liquidity risk, the Group and the Company monitors and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of borrowings and ensures compliance with loan covenants.

As at 31st July, 2011, all the Company's financial liabilities except convertible notes - liability portion are either repayable in less than 3 months or repayable on demand. As at 31st July, 2010, all the Company's financial liabilities except consideration payable for acquisition of subsidiaries are either repayable in less than 3 months or repayable on demand.

The following tables detail the Group's remaining contractual maturity for its financial liabilities. For non-derivatives financial liabilities, the tables have been drawn up based on the undiscounted cash flows of the financial liabilities based on the earliest dates on which the Group can be required to pay. The table includes both interest and principal cash flows. To the extent that interest are at floating rate, the undiscounted amount is based on the interest rate at the end of the reporting period.

42c. Fair value

The fair value of financial assets and financial liabilities are determined as follows:

- the fair value of financial assets and financial liabilities, with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market bid prices and ask prices, respectively; and
- the fair value of other financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors consider that the carrying amount of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their respective fair values.

Fair value measurements recognised in the consolidated statement of financial position

The financial instruments that are measured subsequent to initial recognition at fair value are grouped into Levels 1 to 3 based on the degree to which the fair value is observable are as follows:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active market for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices);
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).
