2. Results estimate:

As a preliminary estimate made by China Eastern Airlines Corporation Limited (the “**Company**”), the unaudited net profit of the Company and its subsidiaries for the first quarter of 2012 drawn up in conformity with China Accounting Standards for Business Enterprises (**CASBE**) is expected to represent a more than 50% decrease compared to that of the corresponding period last year.

Detailed results will be disclosed in the 2012 first quarterly report of the Company.

1. Net profit attributable to the equity holders of the Company: RMB1,012.77 million
2. Basic earnings per share: RMB0.0898

### III. REASONS FOR THE CHANGE IN RESULTS

The slowdown in the growth of the demand in the civil aviation market of passenger traffic and the inadequate demand in the international cargo traffic market in the first quarter of 2012 affected the growth of the air transportation business of the Company. Meanwhile, the substantial year-on-year growth in the price of jet fuel resulted in an increase in the operating costs of the Company. Furthermore, under the influence of the bilateral fluctuation in the exchange rate of Renminbi, the exchange gain of the Company for this period was significantly lower than the figure recorded in the corresponding period last year.

### IV. RISK ALERT

The directors of the Company hereby caution investors that the results estimate set forth above represents a preliminary estimate based on CASBE and has not been audited. Exact figures are subject to the disclosure to be made in the 2012 first quarterly report of the Company. **The Company's shareholders and potential investors are advised to exercise caution when dealing in the securities of the Company and be mindful of risks associated with their investments.**
