PROSPECTUS

Manager

China Asset Management (Hong Kong) Limited

Investment Adviser

China Asset Management Co., Ltd.

10 August 2012

The Stock Exchange of Hong Kong Limited, Hong Kong Exchanges and Clearing Limited, Hong Kong Securities Clearing Company Limited and the Hong Kong Securities and Futures Commission (the "SFC") take no responsibility for the contents of this Prospectus, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this Prospectus. The Trust and the Sub-Fund have each been authorised as collective investment schemes by the SFC. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

IMPORTANT INFORMATION

This Prospectus relates to the offer in Hong Kong of units (the “Units”) in the ChinaAMC CSI 300 Index ETF (the “Sub-Fund”), a sub-fund of ChinaAMC ETF Series (the “Trust”), an umbrella unit trust established under Hong Kong law by a trust deed dated 28 May 2012 (the “Trust Deed”) between China Asset Management (Hong Kong) Limited (the “Manager”) and Cititrust Limited (the “Trustee”). The Sub-Fund is a physical exchange traded fund investing directly in underlying A-Shares.

The information contained in this Prospectus has been prepared to assist potential investors in making an informed decision in relation to investing in the Sub-Fund. It contains important facts about the Sub-Fund whose Units are offered in accordance with this Prospectus. A product key facts statement which contains the key features and risks of the Sub-Fund is also issued by the Manager and such product key facts statement shall form part of this Prospectus, and shall be read, in conjunction with, this Prospectus.

The Manager accepts full responsibility for the accuracy of the information contained in this Prospectus and confirms having made all reasonable enquiries, that to the best of its knowledge and belief there are no other facts the omission of which would make any statement misleading. The Manager also confirms that this Prospectus includes particulars given in compliance with the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and the Code on Unit Trusts and Mutual Funds (the “Code”) and the “Overarching Principles” of the SFC Handbook for Unit Trusts and Mutual Funds, Investment-Linked Assurance Schemes and Unlisted Structured Investment Products for the purposes of giving information with regard to the Units of the Sub-Fund. The Trustee is not responsible for the preparation of this Prospectus and shall not be held liable to any person for any information disclosed in this Prospectus, except for the information regarding the Trustee itself under the paragraph headed “The Trustee” in the section on “Management of the Trust”.

The Sub-Fund is a fund falling within Chapter 8.6 and Appendix I of the Code. The Trust and the Sub-Fund are authorised by the SFC in Hong Kong under Section 104 of the Securities and Futures Ordinance. The SFC takes no responsibility for the financial soundness of the Trust, the Sub-Fund or for the correctness of any statements made or opinions expressed in this Prospectus. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

You should consult your financial adviser, consult your tax advisers and take legal advice as appropriate as to whether any governmental or other consents are required, or other formalities need to be observed, to enable you to acquire Units as to whether any taxation effects, foreign exchange restrictions or exchange control requirements are applicable and to determine whether any investment in the Sub-Fund is appropriate for you.

Units are listed on The Stock Exchange of Hong Kong Limited (the “SEHK”). The Units have been accepted as eligible securities by Hong Kong Securities Clearing Company Limited (“HKSCC”) for deposit, clearing and settlement in the Central Clearing and Settlement System (“CCASS”) with effect from the date of commencement of dealings in the Units on the SEHK. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

No action has been taken to permit an offering of Units or the distribution of this Prospectus in any jurisdiction other than Hong Kong and, accordingly, the Prospectus does not constitute an offer or solicitation to anyone in any jurisdiction in which such offer is not authorised or to any person to whom it is unlawful to make such offer or solicitation. In particular neither the Trust nor the Sub-Fund is registered as an investment company with the United States Securities and Exchange Commission. The Units have not been, and will not be, registered under the United States Securities Act of 1933 or any other United States Federal or State law and, except in a transaction which does not violate the U.S. Securities Act, may not be directly or indirectly offered or sold in the United States of America or any of its territories or for the benefit of a US Person (as defined in Regulations of the U.S. Securities Act). Units may not, except pursuant to a relevant exemption, be acquired or owned by, or acquired with the assets of an ERISA Plan. An ERISA Plan is defined as (i) any retirement plan subject to Title 1 of the United States Employee Retirement Income Securities Act of 1974, as amended; or (ii) any individual retirement account or plan subject to Section 4975 of the United States Internal Revenue Code of 1986, as amended.

Furthermore, distribution of this Prospectus shall not be permitted unless it is accompanied by a copy of the latest annual report and accounts of the Sub-Fund (where existing) and, if later, its most recent interim report.

You should note that any amendment or addendum to this Prospectus will only be posted on the Manager’s website (<http://etf.chinaamc.com.hk/HKen/CSI300>). This Prospectus may refer to information and materials included in websites. Such information and materials do not form part of the Prospectus and they have not been reviewed by the SFC or any regulatory body. Investors should note that the information provided in websites may be updated and changed periodically without any notice to any person.

Questions and Complaints

Investors may raise any questions on or make any complaints about the Trust (including the Sub-Fund) by contacting the Manager at its address as set out in the Directory of this Prospectus, or by phone at its telephone number: (852) 3406 8686.

What is the Investment Objective?

The investment objective of the Sub-Fund is to provide investment results that, before fees and expenses, closely correspond to the performance of the Index. There can be no assurance that the

Sub-Fund will achieve its investment objective.

What is the Investment Strategy?

In seeking to achieve the Sub-Fund's investment objective, the Manager will primarily use a full replication strategy through investing directly in Securities included in the Index in substantially the same weightings in which they are included in the Index, through the RQFII investment quota granted to the Manager by the SAFE.

The Manager may also use a representative sampling strategy where it is not possible to acquire certain Securities which are constituents of the Index due to restrictions or limited availability. This means that the Sub-Fund will invest directly in a representative sample of Securities that collectively has an investment profile that aims to reflect the profile of the Index, through the RQFII investment quota granted to the Manager by the SAFE (as explained in the section on "What is the RQFII regime" below). The Securities constituting the representative sample may or may not themselves be constituents of the Index.

The Sub-Fund may also invest not more than 5% of its Net Asset Value in money market funds and in cash deposits for cash management purpose.

Currently the Manager has no intention to invest the Sub-Fund in any financial derivative instruments (including structured products or instruments) for hedging or non-hedging (i.e. investment) purposes. The Manager will seek the prior approval of the SFC and provide at least one month's prior notice to Unitholders before the Manager engages in any such investments.

The investment strategy of the Sub-Fund is subject to the investment and borrowing restrictions set out in Schedule 1.

What is the RQFII regime?

Under current regulations in the PRC, foreign investors can invest only in the domestic securities market through certain foreign institutional investors that have obtained status as a QFII or a RQFII from the CSRC and have been granted quota by the SAFE to remit foreign freely convertible currencies (in the case of a QFII) and RMB (in the case of a RQFII) into the PRC for the purpose of investing in the PRC's domestic securities markets.

The RQFII regime is governed by (i) the "Pilot Scheme for Domestic Securities Investment through Renminbi Qualified Foreign Institutional Investors which are Asset Management Companies or Securities Companies" (基金管理公司、證券公司人民幣合格境外機構投資者境內證券投資試點辦法) issued by the CSRC, the PBOC and the SAFE and effective from 16 December 2011; (ii) the "Circular on Issues Related to the Pilot Scheme for Domestic Securities Investment through Renminbi Qualified Foreign Institutional Investors which are Asset Management Companies or Securities Companies", Huifa 2011 No. 50 (國家外匯管理局關於基金管理公司、證券公司人民幣合格境外機構投資者境內證券投資試點有關問題的通知, 匯發[2011]50 號) issued by SAFE and effective from 20 December 2011; and (iii) any other applicable regulations promulgated by the relevant authorities (collectively, the "RQFII Regulations").

The Manager has obtained RQFII status and has been granted, on behalf of the Sub-Fund, an initial RQFII quota of RMB5 billion. To the extent that the Manager has, on behalf of the Sub-Fund, utilised its entire RQFII quota, the Manager may, subject to any applicable regulations, apply for an increase of the RQFII quota and will make an announcement on its website of its application for additional quota and upon receiving additional quota.

All of the Sub-Fund's assets in the PRC (including onshore PRC cash deposits and its onshore A-Shares portfolio) will be held by the PRC Custodian in accordance with the terms of the PRC Custody Agreement and PRC RQFII Agreement. A securities account shall be opened with CSDCC in the joint names of the Manager (as the RQFII holder) and the Sub-Fund. An RMB cash account shall also be established and maintained with the PRC Custodian in the joint names of the

Manager (as the RQFII holder) and the Sub-Fund. The PRC Custodian shall, in turn, have a cash clearing account with CSDCC for trade settlement according to applicable regulations.

The Manager has obtained a legal opinion confirming that, as a matter of PRC law:

- (a) securities account(s) with the CSDCC and maintained by the PRC Custodian and RMB cash account(s) with the PRC Custodian (respectively, the “Securities Account” and the “Cash Account”) have been opened in the joint names of the Manager (as RQFII holder) and the Sub-Fund in accordance with all applicable laws and regulations of the PRC and with approval from all competent authorities in the PRC;
- (b) the assets held/credited in the Securities Account(s) (i) belong solely to the Sub-Fund, and (ii) are segregated and independent from the proprietary assets of the Manager (as RQFII holder), the PRC Custodian and any broker appointed by the Manager to execute transactions for the Sub-Fund in the PRC (a “PRC Broker”), and from the assets of other clients of the Manager (as RQFII holder), the PRC Custodian and any PRC Broker;
- (c) the assets held/credited in the Cash Accounts (i) become an unsecured debt owing from the PRC Custodian to the Sub-Fund, and (ii) are segregated and independent from the proprietary assets of the Manager (as RQFII holder) and any PRC Broker, and from the assets of other clients of the Manager (as RQFII holder) and any PRC Broker;
- (d) the Trustee, for and on behalf of the Sub-Fund, is the only entity which has a valid claim of ownership over the assets in the Securities Account(s) and the debt in the amount deposited in the Cash Accounts of the Sub-Fund;
- (e) if the Manager or any PRC Broker(s) is liquidated, the assets contained in the Securities Account(s) and Cash Accounts of the Sub-Fund will not form part of the liquidation assets of the Manager or such PRC Broker in liquidation in the PRC; and
- (f) if the PRC Custodian is liquidated, (i) the assets contained in the Securities Account(s) of the Sub-Fund will not form part of the liquidation assets of the PRC Custodian in liquidation in the PRC, and (ii) the assets contained in the Cash Accounts of the Sub-Fund will form part of the liquidation assets of the PRC Custodian in liquidation in the PRC and the Sub-Fund will become an unsecured creditor for the amount deposited in the Cash Accounts.

Repatriations in RMB conducted by the Manager as RQFII on behalf of the Sub-Fund are permitted daily and are not subject to any lock-up periods or prior approval.

There are specific risks associated with the RQFII regime and investors’ attention is drawn to the risk factors under “Risks associated with the RQFII regime” in the section on “Risk Factors” below.

What are the Index’s characteristics?

The Index is a free-float adjusted, category-weighted index which measures the performance of A-Shares traded on the Shanghai Stock Exchange or the Shenzhen Stock Exchange. The Index consists of the 300 stocks with the largest market capitalisation and good liquidity from the entire universe of listed A-Shares companies in the PRC. The Index is calculated and disseminated in RMB on a real-time basis and is maintained by China Securities Index Co., Ltd. The Index is quoted in RMB.

The Index is a price return index. A price return index calculates the performance of the Index constituents on the basis that any dividends or distributions are not reinvested.

As of 31 July 2012, the Index had a total free-float market capitalisation of RMB4,266.79 billion and 300 constituents.

Please see Schedule 2 for information regarding the Index and the Index Provider’s disclaimer.

Are there any special RMB payment or account procedures?

Investors may apply for Units through Participating Dealers only if they have sufficient RMB to pay the application monies and the related fees. Investors should note that RMB is the only official currency of the PRC. While both onshore RMB ("CNY") and offshore RMB ("CNH") are the same currency, they are traded in different and separated markets. Since the two RMB markets operate independently where the flow between them is highly restricted, CNY and CNH are traded at different rates and their movement may not be in the same direction. Although there is a significant amount of RMB held offshore (i.e. outside the PRC), CNH cannot be freely remitted into the PRC and is subject to certain restrictions, and vice versa. As such whilst CNH and CNY are both the same currency, certain special restrictions do apply to RMB outside the PRC. The liquidity and trading price of the Sub-Fund may be adversely affected by the limited availability of, and restrictions applicable to, RMB outside the PRC.

Application monies from Participating Dealers to the Sub-Fund will be paid in RMB. Accordingly a Participating Dealer may require you (as its client) to pay RMB to it. Payment details will be set out in the relevant Participating Dealer's documentation such as the application form for its clients. As such, you may need to have opened a bank account (for settlement) and a securities dealing account if a Participating Dealer is to subscribe for Units on your behalf as you will need to have accumulated sufficient RMB to pay at least the aggregate Issue Price and related costs, to the Participating Dealer or if an application to the Participating Dealer is not successful or is successful only in part, the whole or appropriate portion of the monies paid will need to be returned to you by the Participating Dealer by crediting such amount into your RMB bank account. Similarly, if you wish to buy and sell Units in the secondary market on the SEHK, you may need to open a securities dealing account with your broker. You will need to check with the relevant Participating Dealer and/or your broker for payment details and account procedures.

If any investors wish to buy or sell Units on the secondary market, they should contact their brokers and they are reminded to confirm with their brokers their readiness for dealing and/or clearing transactions in RMB securities and other relevant information published by the SEHK regarding readiness of its participants for dealing in RMB securities from time to time. CCASS Investor Participants who wish to settle the payment in relation to their trades in the Units using their CCASS Investor Participant account should make sure that they have set up an RMB designated bank account with CCASS.

Investors intending to purchase Units from the secondary market should consult their stockbrokers as to the RMB funding requirement and settlement method for such purchase. Investors may need to open and maintain securities dealing accounts with the stockbroker first before any dealing in Units can be effected.

Investors should ensure they have sufficient RMB to settle the trades. When investors open the RMB bank accounts for settling RMB payment, they should be noted that under the current regulations, only Hong Kong residents with Hong Kong identity cards may open personal RMB bank accounts in Hong Kong. The daily maximum exchange limit for RMB is RMB20,000 per individual. Investors should consult the banks for the account opening procedures as well as terms and conditions of the RMB bank account. Some banks may impose restrictions on their RMB cheque account and fund transfer to third party account. For non-bank financial institutions (e.g. brokers), however, such restriction may not be applicable and investors should consult their brokers as to the currency exchange service arrangement.

The transaction costs of dealings in the Units on the SEHK include the SEHK trading fee and SFC transaction levy. All these secondary trading related fees and charges will be collected in Hong Kong dollars and calculated based on an exchange rate as determined by the Hong Kong Monetary Authority on the date of the trade which will be published on the SEHK's website by 11:00 a.m. or earlier on each trading day.

Investors should consult their own brokers or custodians as to how and in what currency the trading related fees and charges and brokerage commission should be paid by the investors.

The Renminbi Equity Trading Support Facility (the "TSF") was launched on 24 October 2011 by the Hong Kong Exchanges and Clearing Limited to provide a facility to enable investors who wish to buy RMB-traded shares (RMB shares) in the secondary market with Hong Kong dollars if they do

not have sufficient RMB or have difficulty in obtaining RMB from other channels. With effect from 6 August 2012, the coverage of TSF has been extended and the Sub-Fund is eligible for the TSF. Investors should consult their financial advisers if they have any questions concerning the TSF. More information with regard to the TSF is available on the SEHK's website www.hkex.com.hk/eng/market/sec_tradinfra/tsf/tsf/htm.

Where payment is to be made by cheque investors are advised to consult the bank at which their respective RMB bank accounts are opened in advance whether there are any specific requirements in relation to the issue of RMB cheques. In particular, investors should note that some banks have imposed an internal limits (usually RMB80,000) on the balance of RMB cheque account of their clients or the amount of cheques that their clients can issue in a day and such limit may affect an investor's arrangement of funding for an application (through a Participating Dealer) for Units.

When an individual investor opens an RMB bank account or settle RMB payments, he or she will be subject to a number of restrictions, including:

- (a) RMB bank accounts are only available to Hong Kong residents;
- (b) the existing permitted conversions in relation to personal customers are up to RMB20,000 conducted through RMB bank accounts per person per day or up to RMB20,000 per transaction per person in bank notes for walk-in personal customers; and
- (c) the daily maximum remittance amount to the PRC is RMB80,000 and a remittance service is only available to an RMB deposit account-holder who remits from his or her RMB deposit account to the PRC and provided that the account name of the account in the PRC is identical with that of the RMB bank account with the bank in Hong Kong.

Please also refer to the section entitled "Risks associated with the RMB currency" in the section on "Risk Factors" for further details.

Umbrella Fund

The Trust is an umbrella unit trust created by the Trust Deed made under Hong Kong law between the Manager and the Trustee. The Manager and the Trustee shall create and establish separate and distinct sub-trusts within the Trust, each of which is a sub-fund, and units relating to any sub-fund may be issued in one or more classes.

The Sub-Fund is a sub-fund of the Trust.

The Manager and the Trustee reserve the right to establish other sub-funds and/or issue further classes of units relating to the Sub-Fund or any of the sub-funds in the future in accordance with the provisions of the Trust Deed.

THE OFFSHORE RMB MARKET AND THE A-SHARES MARKET

The Offshore RMB Market

What Led to RMB Internationalisation?

RMB is the lawful currency of the PRC. RMB is not a freely convertible currency and it is subject to foreign exchange control policies of and repatriation restrictions imposed by the PRC government. Since July 2005, the PRC government began to implement a controlled floating exchange rate system based on the supply and demand in the market and adjusted with reference to a portfolio of currencies. The exchange rate of RMB is no longer pegged to US dollars, resulting in a more flexible RMB exchange rate system.

Over the past two decades, the PRC's economy grew rapidly at an average annual rate of 10.5% in real terms. This enables it to overtake Japan to become the second largest economy and trading country in the world. The International Monetary Fund has projected that the PRC will contribute to more than one-third of global growth by 2015. As the PRC's economy becomes increasingly integrated with the rest of the world, it is a natural trend for its currency – the RMB, to become more widely used in the trade and investment activities.

Accelerating the Pace of the RMB Internationalisation

The PRC has been taking gradual steps to increase the use of RMB outside its borders by setting up various pilot programmes in Hong Kong and neighbouring areas in recent years. For instance, banks in Hong Kong were the first permitted to provide RMB deposits, exchange, remittance and credit card services to personal customers in 2004. Further relaxation occurred in 2007 when the authorities allowed PRC financial institutions to issue RMB bonds in Hong Kong. As of 31 March 2012, there are 135 banks in Hong Kong engaging in RMB business, with RMB deposits amounting to about RMB554 billion, as compared to about RMB63 billion in December 2009. Up to 17 April 2012, there had been 145 RMB bond issues, with a total issuance size amounting to about RMB182 billion.

The pace of RMB internationalisation has accelerated since 2009 when the PRC authorities permitted cross-border trade between Hong Kong / Macau and Shanghai / four Guangdong cities, and between Association of Southeast Asian Nations (ASEAN) and Yunnan/Guangxi, to be settled in RMB. In June 2010, the arrangement was expanded to 20 provinces / municipalities on the PRC and to all countries / regions overseas. As of the end of 2011, nearly RMB2.3 trillion worth of cross-border trade was settled in Hong Kong with RMB.

Onshore versus Offshore RMB Market

Following a series of policies introduced by the PRC authorities, a RMB market outside the PRC has gradually developed and started to expand rapidly since 2009. RMB traded outside the PRC is often referred as “offshore RMB” with the denotation “CNH”, which distinguishes it from the “onshore RMB” or “CNY”.

Both onshore and offshore RMB are the same currency but are traded in different markets. Since the two RMB markets operate independently where the flow between them is highly restricted, onshore and offshore RMB are traded at different rates and their movement may not be in the same direction. Due to the strong demand for offshore RMB, CNH used to be traded at a premium to onshore RMB, although occasional discount may also be observed. The relative strength of onshore and offshore RMB may change significantly, and such change may occur within a very short period of time.

Notwithstanding that the offshore RMB market showed a meaningful growth during the past 2 years, it is still at an early stage of the development and is relatively sensitive to negative factors or market uncertainties. For instance, the value of offshore RMB had once dropped by 2% against the US dollars in the last week of September 2011 amidst the heavy selloff of the equities market. In general, the offshore RMB market is more volatile than the onshore one due to its relatively thin liquidity.

There have been talks on the potential convergence of the two RMB markets but that is believed to be driven by political decisions rather than just economics. It is widely expected that the onshore and offshore RMB markets would remain two segregated, but highly related, markets for the next few years.

Recent Measures

More measures to relax the conduct of offshore RMB business were announced in 2010. On 19

July 2010, restrictions on interbank transfer of RMB funds were lifted, as well as granting permission for companies in Hong Kong to exchange foreign currencies for RMB without limit. One month later, the PRC authorities announced the partial opening up of PRC's interbank bond market for foreign central banks, RMB clearing banks in Hong Kong and Macau and other foreign banks participating in the RMB offshore settlement programme.

The National Twelfth Five-Year Plan adopted in March 2011 explicitly supports the development of Hong Kong as an offshore RMB business centre. In August 2011, PRC Vice-Premier Li Keqiang has announced more new initiatives during his visit, such as allowing investments on the PRC equity market through the RMB Qualified Foreign Institutional Investor scheme and the launch of an exchange-traded fund with Hong Kong stocks as the underlying constituents in the PRC. Also the PRC Government has given approval for the first non-financial PRC firm to issue RMB-denominated bonds in Hong Kong.

RMB Internationalisation is a Long-Term Goal

Given the PRC's economic size and growing influence, the RMB has the potential to become an international currency in the same rank as US dollars and euro. But the PRC has to first accelerate the development of its financial markets and gradually make the RMB fully convertible on the capital account. Although the internationalisation of RMB will bring benefits such as increasing political influence and reduced exchange rate risks, it also entails risks including rising volatility of the RMB exchange rate.

The process of RMB internationalisation is a long and gradual one. It took US dollars many decades to replace the British pound to become a dominant reserve currency. It will also take time for RMB to gain importance in coming years. The RMB will not be in a position to challenge the US dollar's main reserve currency status for some time to come.

The A-Share Market

Introduction

China's A-Share market commenced in 1990 with two exchanges, Shanghai Stock Exchange and Shenzhen Stock Exchange. Shanghai Stock Exchange was established on 26 November 1990 and stocks are further divided into class A-Shares and class B-Shares, with A-Shares limited to domestic investors as well as QFIIs and RQFIIs only and B Shares available to both domestic and foreign investors. As of 31 March 2012, there are 924 A-Share listed companies in Shanghai Stock Exchange with total market capitalisation of RMB15.4 trillion and free float market capitalisation of RMB4.8 trillion. Shanghai Stock Exchange's products cover equities, mutual funds and bonds. The product lines include A-Shares, B-Shares, indices, mutual funds (including exchange traded funds and listed open-end funds), fixed income products, and diversified financial derivative products (including warrants and repurchases).

Shenzhen Stock Exchange was founded on 1 December 1990 and stocks are further divided into class A-Shares and class B-Shares, with A-Shares limited to domestic investors as well as QFIIs and RQFIIs only and B-Shares available to both domestic and foreign investors. As of 31 March 2012, there are 1,443 A-Share listed companies in Shenzhen Stock Exchange, 472 of which are listed on the Shenzhen Stock Exchange main board with total market capitalisation of RMB3.3 trillion and free float market capitalisation of RMB1.6 trillion, 665 of which are listed on the SME board (Small and Medium Enterprise Board) with total market capitalisation of RMB2.9 trillion and free float market capitalisation of RMB1.0 trillion, and 306 of which are listed on the ChiNext (the board mainly for hi-tech companies) with total market capitalisation of RMB750 billion and free float market capitalisation of RMB239 billion. Shenzhen Stock Exchange's products cover equities, mutual funds and bonds. The product lines include A-Shares, B-Shares, indices, mutual funds (including exchange traded funds and listed open-end funds), fixed income products, and diversified financial derivative products (including warrants and repurchases).

The A-Share market has grown significantly in the past 20 years, with the latest total market capitalisation reaching RMB26 trillion comprising 2,367 A-Share listed companies by 31 March 2012.

In terms of investor breakdown, there is an increasing number of institutional investors participating in the A-Shares market since the inception, which include securities investment funds, social pension funds, qualified foreign institutional investors, insurance companies, ordinary investment institutions. However, on a daily basis, retail investors still make up for the majority of the trading volume.

THE OFFERING

After Listing

The After Listing phase commenced on the Listing Date.

You can acquire or dispose the Units in either of the following two ways:

- (a) buy and sell Units on the SEHK; or
- (b) apply for cash creation and cash redemption of Units through Participating Dealers.

Buying and selling of Units on the SEHK

After Listing, all investors can buy and sell Units in Trading Board Lot Size (as described in the section “Summary”) or whole multiples thereof like ordinary listed stocks through an intermediary such as a stockbroker or through any of the share dealing services offered by banks or other financial advisers at any time the SEHK is open. The Trading Board Lot Size is currently 200 Units.

However, please note that transactions in the secondary market on the SEHK will occur at market prices which may vary throughout the day and may differ from Net Asset Value per Unit due to market demand and supply, liquidity and scale of trading spread for the Units in the secondary market. As a result, the market price of the Units in the secondary market may be higher or lower than Net Asset Value per Unit.

Please refer to the section on “Exchange Listing and Trading (Secondary Market)” for further information in respect of buying and selling of Units on the SEHK.

Creations and redemptions through Participating Dealers

Units are created by cash creation and redeemed by cash redemption at the Issue Price and Redemption Value respectively through Participating Dealers in Application Unit size or multiples thereof. The Application Unit Size is currently 150,000 Units.

The current Dealing Deadline After Listing is 10:45 a.m. (Hong Kong time) on the relevant Dealing Day, or such other time as the Manager (with the approval of Trustee) may determine on any day when the trading hours of the SEHK or the Shanghai Stock Exchange and the Shenzhen Stock Exchange are changed. If a Creation Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Creation Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application. Participating Dealers are under no obligation to create or redeem generally or for their clients and may charge their clients such fee or fees as such Participating Dealers determine.

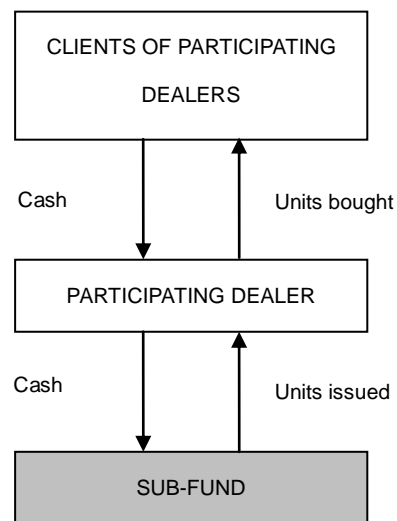

Settlement in cash for subscribing Units is due by such time as agreed in the Operating Guidelines on the relevant Dealing Day or for redeeming Units is due 2 Business Days after the Dealing Day, unless the Manager agrees with the relevant Participating Dealer to accept later settlement generally or in any particular case.

After Listing, all Units are registered in the name of HKSCC Nominees Limited on the register of the Trust. The register of the Trust is the evidence of ownership of Units. The beneficial interests in Units of any client of the Participating Dealers shall be established through such client's account with the relevant Participating Dealer or with any other CCASS participants if the client is buying from the secondary market.

CREATIONS AND REDEMPTIONS (PRIMARY MARKET)

Investment in the Sub-Fund

There are 2 methods of making an investment in the Sub-Fund and of disposing of Units to realise an investment in the Sub-Fund.

The first method is to create or to redeem Units at Net Asset Value directly with the Sub-Fund in the primary market through a Participating Dealer, being a licensed dealer that has entered into a Participation Agreement in respect of the Sub-Fund. Because of the size of the capital investment (i.e. Application Unit size) required either to create or redeem Units through the Participating Dealer in the primary market, this method of investment is more suitable for institutional investors and market professionals. Participating Dealers are under no obligations to create or redeem Units for their clients and may impose terms, including charges, for handling creation or redemption orders as they determine appropriate, as described in more detail in this section.

The second method is to buy or to sell Units in the secondary market on the SEHK which is more suitable for retail investors. The secondary market price of Units may trade at a premium or discount to the Net Asset Value of the Sub-Fund.

This section of this Prospectus describes the first method of investment and should be read in conjunction with the Operating Guidelines and the Trust Deed. The section on “Exchange Listing and Trading (Secondary Market)” relates to the second method of investment.

Creation of Units through Participating Dealer

Any application for the creation of Units of the Sub-Fund must only be made through a Participating Dealer in respect of an Application Unit size or whole multiple thereof as set out in the “Summary” section. Investors cannot acquire Units directly from the Sub-Fund. Only Participating Dealers may submit Creation Applications to the Manager.

Units in the Sub-Fund are continuously offered through a Participating Dealer, who may apply for them on any Dealing Day for its own account or for your account as their client(s), in accordance with the Operating Guidelines, by submitting a Creation Application to the Registrar, with a copy to the Manager and the Trustee.

In relation to cash creation of Units, the Manager reserves the right to require the Participating Dealer to pay an additional sum for the purpose of compensating or reimbursing the Sub-Fund for the difference between:

- (a) the prices used when valuing the Securities of the Sub-Fund for the purpose of such issue of Units; and
- (b) the prices which would be used when acquiring the same Securities if they were acquired by the Sub-Fund with the amount of cash received by the Sub-Fund upon such issue of Units.

The Participating Dealer may pass on to the relevant investor such additional sum.

Each initial Participating Dealer has indicated to the Manager that it will generally accept and submit creation request(s) received from you as its client(s), subject always to (i) mutual agreement between the relevant initial Participating Dealer and you as to its fees for handling such request(s); (ii) completion to its satisfaction of client acceptance procedures and requirements; (iii) no objection from the Manager to create Units for the relevant initial Participating Dealer on your behalf (please refer to the sub-section on “Creation process” below for the examples of exceptional circumstances under which the Manager shall have the right to reject a Creation Application); and (iv) mutual agreement between the relevant initial Participating Dealer and you as to the method of effecting such creation request(s).

In addition, a Participating Dealer reserves the right to reject, acting in good faith, any creation request received from a client under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the Sub-Fund, (ii) the redemption of Units of the Sub-Fund, and/or (iii) the determination of Net Asset Value of the Sub-Fund is suspended;
- (b) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities in the Index;
- (c) where acceptance of the creation request would render the Participating Dealer in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Participating Dealer and/or any of its Connected Persons; or
- (d) circumstances outside the control of the Participating Dealer make it for all practicable purposes impossible to process the creation request.

Requirements relating to creation requests by potential investors

As of the date of this Prospectus, only cash creation is available to the Participating Dealers in respect of the Sub-Fund.

Any cash payable by a Participating Dealer in a cash Creation Application should be in RMB.

A Participating Dealer may impose fees and charges in handling any creation request which would increase the cost of investment. You are advised to check with the Participating Dealer as to relevant fees and charges. Although the Manager has a duty to monitor the operations of the Sub-Fund closely, neither the Manager nor the Trustee is empowered to compel a Participating Dealer to disclose its fees agreed with specific clients or other proprietary or confidential information to the Manager or the Trustee or to accept any such creation requests received from clients. In addition, neither the Trustee nor the Manager can ensure effective arbitrage by a Participating Dealer.

A Participating Dealer may also impose timing deadlines for the submission by its clients of any creation request and require any such clients to complete the relevant client acceptance procedures and requirements (including, where necessary, providing such documentation and certifications as required by the Participating Dealer) in order to ensure that an effective Creation Application in respect of the Sub-Fund can be submitted by it to the Registrar with a copy to the Manager and the Trustee. You are advised to check with the Participating Dealer as to the relevant timing deadlines and the client acceptance procedures and requirements.

The Application Unit size for the Sub-Fund is 150,000 Units. Creation Applications submitted in respect of Units other than in Application Unit size or whole multiples thereof will not be accepted. The minimum subscription for the Sub-Fund is one Application Unit.

Creation process

A Participating Dealer may from time to time submit Creation Applications in respect of the Sub-Fund to the Registrar, with a copy to the Manager and the Trustee, following receipt of creation requests from clients or where it wishes to create Units of the Sub-Fund for its own account.

If a Creation Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Creation Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application. The current Dealing Deadline After Listing is 10:45 a.m. (Hong Kong time) on the relevant Dealing Day, or such other time as the

Manager (with the approval of Trustee) may determine on any day when the trading hours of the SEHK, the Shanghai Stock Exchange or the Shenzhen Stock Exchange are reduced.

To be effective, a Creation Application must:

- (a) be given by a Participating Dealer in accordance with the Trust Deed, the relevant Participation Agreement and the relevant Operating Guidelines;
- (b) specify the number of Units and the class of Units (where applicable) which is the subject of the Creation Application; and
- (c) include the certifications required in the Operating Guidelines (if any) in respect of creations of Units, together with such certifications and opinions of counsel (if any) as each of the Trustee and the Manager may separately consider necessary to ensure compliance with applicable Securities and other laws in relation to the creation of Units which are the subject of the Creation Application.

The Manager shall have the right to reject, acting in good faith, any Creation Application under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the Sub-Fund, (ii) the redemption of Units of the Sub-Fund, and/or (iii) the determination of Net Asset Value of the Sub-Fund is suspended;
- (b) where in the opinion of the Manager, acceptance of the Creation Application would have an adverse effect on the Sub-Fund;
- (c) where in the opinion of the Manager, acceptance of the Creation Application would have a material impact on the A-Share market;
- (d) the Manager does not have adequate RQFII quota to fully satisfy the Creation Application;
- (e) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities in the Index;
- (f) where acceptance of the Creation Application would render the Manager in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Manager and/or any of its Connected Persons;
- (g) circumstances outside the control of the Manager make it for all practicable purposes impossible to process the Creation Application; or
- (h) an Insolvency Event occurs in respect of the relevant Participating Dealer.

In the event of such rejection, the Manager shall notify the relevant Participating Dealer and the Trustee of its decision to reject such Creation Application in accordance with the Operating Guidelines.

The Manager's right to reject a Creation Application is separate and in addition to a Participating Dealer's right to reject, acting in good faith, any creation request received from a client of the Participating Dealer under exceptional circumstances. Notwithstanding a Participating Dealer has accepted creation requests from its clients and in that connection submitted an effective Creation Application, the Manager may exercise its rights to reject such Creation Application in the circumstances described herein.

Where for any reason there is a limit to the number of Units which can be created, priority will be given to Participating Dealers and the relevant Creation Applications as set out in the Operating Guidelines.

Where the Manager accepts a Creation Application from a Participating Dealer, it shall instruct the Trustee to effect (i) for the account of the Sub-Fund, the creation of Units in Application Unit size in exchange for a transfer of cash; and (ii) the issue of Units to the Participating Dealer, both in accordance with the Operating Guidelines and the Trust Deed.

Issue of Units

Units will be issued at the Issue Price prevailing on the relevant Dealing Day, provided that the Trustee may add to such Issue Price such sum (if any) as represents an appropriate provision for Duties and Charges. Please refer to the section on “Issue Price and Redemption Value of Units” for the calculation of the Issue Price.

Units are denominated in RMB and no fractions of a Unit shall be created or issued by the Trustee.

The creation and issue of Units pursuant to a Creation Application shall be effected on the Dealing Day on which the Creation Application is received (or deemed received) and accepted in accordance with the Operating Guidelines but (i) for valuation purposes only, Units shall be deemed created and issued after the Valuation Point on the Dealing Day on which the relevant Creation Application was received or deemed received, and (ii) the register will be updated on Settlement Day or the Dealing Day or immediately following Settlement Day or, if the settlement period is extended, the relevant Settlement Day. If a Creation Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Creation Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Creation Application. An Extension Fee may be payable in relation to such an extension. See the section on “Fees and Expenses” for further details.

The Trustee shall be entitled to refuse to enter (or allow to be entered) Units in the register if at any time the Trustee is of the opinion that the provisions as set out in the Trust Deed, the relevant Operating Guidelines or the relevant Participation Agreement, in regard to the issue of Units, are being infringed.

Fees relating to Creation Applications

The Service Agent, the Registrar and/or the Trustee may charge a Transaction Fee in respect of Creation Applications and may on any day vary the rate of the Transaction Fee they charge (but not as between different Participating Dealers in respect of the Sub-Fund). The Transaction Fee shall be paid by or on behalf of the Participating Dealer applying for such Units. See the section on “Fees and Expenses” for further details.

Any commission, remuneration or other sum payable by the Manager to any agent or other person in respect of the issue or sale of any Unit shall not be added to the Issue Price of such Unit and shall not be paid from the assets of the Sub-Fund.

Cancellation of Creation Applications

A Creation Application once given cannot be revoked or withdrawn without the consent of the Manager.

The Trustee, after consultation with the Manager, may cancel a creation order in respect of any Units deemed created pursuant to a Creation Application if it has not received the full amount of the cash (including Transaction Fee, Duties and Charges) relating to the Creation Application by the relevant time on the Dealing Day, provided that the Manager may at its discretion extend the settlement period and such extension to be on such terms and conditions (including as to the

payment of any fees to the Manager or Extension Fee to the Trustee or their respective Connected Persons or otherwise) as the Manager may determine and in accordance with the provisions of the Operating Guidelines.

In addition to the preceding circumstances, the Manager may also cancel any creation order of any Units if it determines by such time as it specifies in the Operating Guidelines that it is unable to invest the cash proceeds of any Creation Application.

Upon the cancellation of any creation order of any Units deemed created pursuant to a Creation Application as provided for above, any cash received by or on behalf of the Trustee in connection with a Creation Application shall be redelivered to the Participating Dealer (without interest) as soon as practicable and the relevant Units shall be deemed for all purposes never to have been created and the Participating Dealer shall have no right or claim against the Manager, the Trustee and/or the Service Agent in respect of such cancellation provided that:

- (a) the Trustee may charge the relevant Participating Dealer for the account of the Registrar an application cancellation fee (see the section on “Fees and Expenses” for further details);
- (b) the Manager may at its discretion require the Participating Dealer to pay to the Trustee, for the account of the Sub-Fund, in respect of each Unit so cancelled Cancellation Compensation, being the amount (if any) by which the Issue Price of each such Unit exceeds the Redemption Value which would have applied in relation to each such Unit if the Participating Dealer had, on the date on which such Units are cancelled, made a Redemption Application, together with charges, expenses and losses incurred by the Sub-Fund as a result of such cancellation;
- (c) the Transaction Fee in respect of such Creation Application shall remain due and payable (notwithstanding that the Creation Application shall be deemed to never have been made) and once paid shall be retained by and for the benefit of the Trustee, the Registrar and/or the Service Agent (see the section on “Fees and Expenses” for further details); and
- (d) no previous valuations of the Trust Fund shall be re-opened or invalidated as a result of the cancellation of such Units.

Redemption of Units through Participating Dealer

Any application for the redemption of Units of the Sub-Fund must only be made through a Participating Dealer in respect of an Application Unit size or whole multiples thereof. Investors cannot redeem Units directly from the Sub-Fund. Only Participating Dealers may submit Redemption Applications to the Registrar (with a copy to the Manager and the Trustee).

A Participating Dealer may redeem Units on any Dealing Day for its own account or for the account of its clients in accordance with the Operating Guidelines, by submitting a Redemption Application to the Registrar (with a copy to the Manager and the Trustee).

In relation to cash redemption of Units as described above, the Manager reserves the right to require the Participating Dealer to pay an additional sum for the purpose of compensating or reimbursing the Sub-Fund for the difference between:

- (a) the prices used when valuing the Securities of the Sub-Fund for the purpose of such redemption of Units; and
- (b) the prices which would be used when selling the same Securities if they were sold by the Sub-Fund in order to realize the amount of cash required to be paid out of the Sub-Fund upon such redemption of Units.

The Participating Dealer may pass on to the relevant investor such additional sum.

Each initial Participating Dealer has indicated to the Manager that it will generally accept and submit redemption request(s) received from you as its client(s), subject always to (i) mutual agreement between the relevant initial Participating Dealer and you as to its fees for handling such request(s); (ii) completion to its satisfaction of client acceptance procedures and requirements; (iii) no objection from the Manager to redeem Units for the relevant initial Participating Dealer on your behalf (please refer to the sub-section on “Redemption process” below for the examples of exceptional circumstances under which the Manager shall have the right to reject a Redemption Application); and (iv) mutual agreement between the relevant initial Participating Dealer and you as to the method of effecting such redemption request(s).

In addition, a Participating Dealer reserves the right to reject, acting in good faith, any redemption request received from a client under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the Sub-Fund, (ii) the redemption of Units of the Sub-Fund, and/or (iii) the determination of Net Asset Value of the Sub-Fund is suspended;
- (b) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities in the Index;
- (c) where acceptance of the redemption request would render the Participating Dealer in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Participating Dealer and/or any of its Connected Persons; or
- (d) circumstances outside the control of the Participating Dealer make it for all practicable purposes impossible to process the redemption request.

Requirements relating to redemption requests by potential investors

As of the date of this Prospectus, only cash redemption is available to the Participating Dealers in respect of the Sub-Fund.

Any cash proceeds received by a Participating Dealer in a cash Redemption Application shall be in RMB.

A Participating Dealer may impose fees and charges in handling any redemption request which would increase the cost of investment and/or reduce the redemption proceeds. You are advised to check with the Participating Dealer as to relevant fees and charges. Although the Manager has a duty to monitor the operations of the Sub-Fund closely, neither the Manager nor the Trustee is empowered to compel a Participating Dealer to disclose its fees agreed with specific clients or other proprietary or confidential information to the Manager or the Trustee or to accept any such redemption requests received from clients. In addition, neither the Trustee nor the Manager can ensure effective arbitrage by a Participating Dealer.

A Participating Dealer may also impose timing deadlines for the submission by its clients of any redemption request and require any such clients to complete the relevant client acceptance procedures and requirements (including, where necessary, providing such documentation and certifications as required by the Participating Dealer) in order to ensure that an effective Redemption Application in respect of the Sub-Fund can be submitted by it to the Registrar (with a copy to the Manager and the Trustee). You are advised to check with the Participating Dealer as to the relevant timing deadlines and the client acceptance procedures and requirements.

Redemption process

A Participating Dealer may from time to time submit Redemption Applications in respect of the Sub-Fund to the Manager, following receipt of redemption requests from clients or where it wishes to redeem Units of the Sub-Fund for its own account.

If a Redemption Application is received on a day which is not a Dealing Day or is received after the relevant Dealing Deadline on a Dealing Day, that Redemption Application shall be treated as having been received at the opening of business on the next following Dealing Day, which shall be the relevant Dealing Day for the purposes of that Redemption Application. The current Dealing Deadline After Listing is 10:45 a.m. (Hong Kong time) on the relevant Dealing Day, or such other time as the Manager (with the approval of Trustee) may determine on any day when the trading hours of the SEHK, the Shanghai Stock Exchange or the Shenzhen Stock Exchange are reduced.

To be effective, a Redemption Application must:

- (a) be given by a Participating Dealer in accordance with the Trust Deed, the relevant Participation Agreement and the relevant Operating Guidelines;
- (b) specify the number of Units and the class of Units (where applicable) which is the subject of the Redemption Application; and
- (c) include the certifications required in the Operating Guidelines (if any) in respect of redemptions of Units, together with such certifications and opinions of counsel (if any) as each of the Trustee and the Manager may separately consider necessary to ensure compliance with applicable securities and other laws in relation to the redemption of Units which are the subject of the Redemption Application.

The Manager shall have the right to reject, acting in good faith, any Redemption Application under exceptional circumstances, including without limitation the following circumstances:

- (a) any period during which (i) the creation or issue of Units of the Sub-Fund, (ii) the redemption of Units of the Sub-Fund, and/or (iii) the determination of Net Asset Value of the Sub-Fund is suspended;
- (b) where in the opinion of the Manager, acceptance of the Redemption Application would have an adverse effect on the Sub-Fund;
- (c) where there is in existence any trading restriction or limitation such as the occurrence of a market disruption event, suspected market misconduct or the suspension of dealing in relation to any of the Securities in the Index;
- (d) where acceptance of the Redemption Application would render the Manager in breach of any regulatory restriction or requirement, internal compliance or internal control restriction or requirement of the Manager and/or any of its Connected Persons; or
- (e) circumstances outside the control of the Manager make it for all practicable purposes impossible to process the Redemption Application.

In the event of such rejection, the Manager shall notify the relevant Participating Dealer and the Trustee of its decision to reject such Redemption Application in accordance with the Operating Guidelines.

The Manager's right to reject a Redemption Application is separate and in addition to a Participating Dealer's right to reject, acting in good faith, any redemption request received from a client under exceptional circumstances. Notwithstanding a Participating Dealer has accepted redemption requests from clients and in that connection submitted an effective Redemption Application, the Manager may exercise its rights to reject such Redemption Application in the circumstances described herein.

Where the Manager accepts a Redemption Application from a Participating Dealer, it shall (i) effect the redemption and cancellation of the relevant Units; and (ii) require the Trustee to transfer to the Participating Dealer cash in accordance with the Operating Guidelines and the Trust Deed.

The Participating Dealer will then transfer the cash to the relevant client if the Redemption Application was submitted by the Participating Dealer for the account of its client.

Redemption of Units

Any accepted Redemption Application will be effected on the Settlement Day provided that a Redemption Application duly signed by a Participating Dealer (to the satisfaction of the Manager and the Trustee) has been received and provided further that the Trustee shall have received (unless otherwise provided in the Operating Guidelines) the original (and not a faxed copy) of the certificates (if any) representing the Units to be cancelled (or an indemnity in terms acceptable to the Trustee) and the full amount of any amount payable by the Participating Dealer including the Transaction Fee and any other Duties and Charges have been either deducted or otherwise paid in full.

For valuation purposes only, Units shall be deemed to have been redeemed and cancelled after the Valuation Point on the Dealing Day on which the Redemption Application was received or deemed received. The name of the Unitholder of such Units shall be removed from the Register in respect of those Units redeemed and cancelled on the relevant Settlement Day.

The Redemption Value of Units tendered for redemption shall be the Net Asset Value per Unit of the Sub-Fund rounded to the nearest four decimal places (0.00005 or above being rounded up). The benefit of any rounding adjustments will be retained by the Sub-Fund. For the purpose of valuation, the relevant Valuation Point shall be the Valuation Point for the Dealing Day on which the Redemption Application is treated as having been received.

The interval between the receipt of a properly documented Redemption Application and payment of redemption proceeds may not exceed one calendar month provided that there is no delay in submitting all duly completed redemption documentation and the determination of the Net Asset Value or dealing in Units is not suspended.

The Manager may at its discretion extend the settlement period upon receipt of the extended settlement request in respect of the Redemption Application on such terms and conditions (including as to the payment of any fees to the Manager or Extension Fee to the Trustee or their respective Connected Persons or otherwise) as the Manager may in its discretion determine, in accordance with the Operating Guidelines.

Fees relating to Redemption Applications

The Service Agent, the Registrar and/or the Trustee may charge a Transaction Fee in respect of Redemption Applications and may on any day vary the rate of the Transaction Fee they charge (but not as between different Participating Dealers in respect of the Sub-Fund). The Transaction Fee shall be paid by or on behalf of the Participating Dealer submitting the Redemption Application(s) (and may be set off and deducted against any amount due to the Participating Dealer in respect of such Redemption Application(s)) for the benefit of the Trustee, the Registrar and/or the Service Agent. See the section on "Fees and Expenses" for further details.

The Trustee may deduct from the redemption proceeds such sum (if any) as the Trustee may consider represents an appropriate provision for the Transaction Fee and/or other Duties and Charges.

Cancellation of Redemption Applications

A Redemption Application once given cannot be revoked or withdrawn without the consent of the Manager.

No cash amount shall be paid in respect of any Redemption Application unless Units, which are the subject of the Redemption Application, have been delivered to the Trustee free and clear of any Encumbrance for redemption by such time on the Settlement Day or other dealing set forth in the Trust Deed and/or Operational Guidelines as the Trustee and the Manager shall for the time being prescribe for Redemption Applications generally.

In the event that Units, which are the subject of a Redemption Application, are not delivered to the Trustee for redemption in accordance with the foregoing or are not free and clear of any Encumbrance:

- (a) the Trustee may charge the relevant Participating Dealer for the account of the Registrar an application cancellation fee (see the section on "Fees and Expenses" for further details);
- (b) the Manager may at its discretion require the Participating Dealer to pay to the Trustee, for the account of the Sub-Fund, in respect of each Unit so cancelled Cancellation Compensation, being the amount (if any) by which the Redemption Value of each such Unit is less than the Issue Price which would have applied in relation to each such Unit if the Participating Dealer had, on the actual date when the Manager is able to repurchase any replacement Securities made a Creation Application in accordance with the provisions of the Trust Deed plus such other amount as the Manager reasonably determines as representing any charges, expenses and losses incurred by the Sub-Fund as a result of such cancellation;
- (c) the Transaction Fee in respect of such Redemption Application shall remain due and payable (notwithstanding that the Redemption Application shall be deemed to never have been made) and once paid, shall be retained by and for the benefit of the Trustee, the Registrar and/or the Service Agent (see the section on "Fees and Expenses" for further details); and
- (d) no previous valuations of the Trust Fund shall be re-opened or invalidated as a result of an unsuccessful Redemption Application.

Deferred Redemption

In the event that redemption requests are received for the redemption of Units representing in aggregate more than 10% (or such higher percentage as the Manager may determine in respect of the Sub-Fund) of the total number of Units in the Sub-Fund then in issue, the Manager may direct the Trustee to reduce the requests rateably and pro rata amongst all Unitholders seeking to redeem Units on the relevant Dealing Day and carry out only sufficient redemptions which, in aggregate, amount to 10% (or such higher percentage as the Manager may determine in respect of a Sub-Fund) of the Units in the Sub-Fund then in issue. Units which are not redeemed but which would otherwise have been redeemed will be redeemed on the next Dealing Day (subject to further deferral if the deferred requests in respect of the Sub-Fund themselves exceed 10% (or such higher percentage as the Manager may determine in respect of that Sub-Fund) of the Units in the Sub-Fund then in issue) in priority to any other Units in the Sub-Fund for which redemption requests have been received. Units will be redeemed at the Redemption Value prevailing on the Dealing Day on which they are redeemed.

Suspension of Creations and Redemptions

The Manager may, at its discretion, after giving notice to the Trustee (and where practicable, after consultation with Participating Dealers) suspend the creation or issue of Units of the Sub-Fund, suspend the redemption of Units of the Sub-Fund and/or (subject to the approval of the SFC where payment of redemption monies exceeds one calendar month) delay the payment of any monies in respect of any Creation Application or Redemption Application in the following circumstances:

- (a) during any period when trading on the SEHK or any other Recognised Stock Exchange or

Recognised Futures Exchange is restricted or suspended;

- (b) during any period when a market on which a Security (that is a component of the Index) has its primary listing, or the official clearing and settlement depositary (if any) of such market, is closed;
- (c) during any period when dealing on a market on which a Security (that is a component of the Index) has its primary listing is restricted or suspended;
- (d) during any period when, in the opinion of the Manager, settlement or clearing of Securities in the official clearing and settlement depositary (if any) of such market is disrupted;
- (e) during the existence of any state of affairs as a result of which delivery or purchase of Securities, as appropriate or disposal of investments for the time being comprised in the Sub-Fund cannot, in the opinion of the Manager, be effected normally or without prejudicing the interests of Unitholders of the Sub-Fund;
- (f) during any period when the Index is not compiled or published;
- (g) during any breakdown in any of the means normally employed in determining the Net Asset Value of the Sub-Fund or when for any other reason the value of any Securities or other property for the time being comprised in the Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (h) during any period when the determination of the Net Asset Value of the Sub-Fund is suspended or if any circumstance specified in the section on "Suspension of Determination of Net Asset Value" below arises; or
- (i) during any period when the business operations of the Manager in respect of the Sub-Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes or acts of God.

The Manager will, after giving notice to the Trustee, suspend the right to subscribe for Units of the Sub-Fund if, or if as a result of the investment of the proceeds of issue of such Units in accordance with its investment objective, the Trust collectively holds or would hold in aggregate more than 10% of the ordinary shares issued by any single issuer or such other percentage permitted under Schedule 1. In addition, where the sub-funds under the Trust hold in aggregate more than the limit of 10% of the ordinary shares issued by any single issuer and the SFC has not agreed to waive this prohibition under the Code, the Manager will make it a priority objective to take all other necessary steps within a reasonable period to remedy such breach, taking into account the interests of the Unitholders.

The Manager shall notify the SFC and publish a notice of suspension following the suspension, and at least once a month during the suspension, on its website at <http://etf.chinaamc.com.hk/HKen/CSI300> or in such other publications as it decides.

The Manager shall consider any Redemption Application or any Creation Application received during the period of suspension (that has not been otherwise withdrawn) as having been received immediately following the termination of the suspension. The period for settlement of any redemption will be extended by a period equal to the length of the period of suspension.

A Participating Dealer may, at any time after a suspension has been declared and before termination of such suspension, withdraw any Creation Application or Redemption Application by notice in writing to the Manager and the Manager shall promptly notify and request the Trustee to return to the Participating Dealer any cash received by it in respect of the Creation Application (without interest) as soon as practicable.

A suspension shall remain in force until the earlier of (a) the Manager declaring the suspension is at an end; and (b) the first Dealing Day on which (i) the condition giving rise to the suspension shall have ceased to exist; and (ii) no other condition under which suspension is authorised exists.

Evidence of Unitholding

Units will be deposited, cleared and settled by the CCASS. Units are held in registered entry form only, which means that no Unit certificates are issued. HKSCC Nominees Limited is the registered owner (i.e. the sole holder of record) of all outstanding Units deposited with the CCASS and is holding such Units for the participants in accordance with the General Rules of CCASS. Furthermore, the Trustee and the Manager acknowledge that pursuant to the General Rules of CCASS neither HKSCC Nominees Limited nor HKSCC has any proprietary interest in the Units. Investors owning Units in CCASS are beneficial owners as shown on the records of the participating brokers or the relevant Participating Dealer(s) (as the case may be) who are CCASS participants.

Restrictions on Unitholders

The Manager has power to impose such restrictions as it may think necessary for the purpose of ensuring that no Units are acquired or held which would result in such holding being:

- (a) a breach of the law or requirements of any country or governmental authority or any stock exchange on which the Units are listed in circumstances which, in the Manager's opinion, might result in the Trust or the Sub-Fund suffering any adverse effect which the Trust or the Sub-Fund might not otherwise have suffered; or
- (b) in the circumstances which, in the Manager's opinion, may result in the Trust or the Sub-Fund incurring any tax liability or suffering any other pecuniary disadvantage which the Trust or the Sub-Fund might not otherwise have incurred or suffered.

Upon notice that any Units are so held, the Manager may require such Unitholders to redeem or transfer such Units in accordance with the provisions of the Trust Deed. A person who becomes aware that he is holding or owning Units in breach of any of the above restrictions is required either to redeem his Units in accordance with the Trust Deed or to transfer his Units to a person whose holding would be permissible under this Prospectus and the Trust Deed in a manner that would result in such Unitholder no longer being in breach of the restrictions above.

Transfer of Units

The Trust Deed provides that a Unitholder may transfer Units with the consent of the Manager. As all Units will be held in CCASS, the Manager's consent is deemed given where the Unitholder is transferring his interest in Units within CCASS. A Unitholder is entitled to transfer Units held by him by using the standard transfer form issued by SEHK or by an instrument in writing in such other form (and if the transferor or the transferee is a clearing house or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution) as the Trustee may from time to time approve. The transferor will be deemed to remain the Unitholder of the Units transferred until the name of the transferee is entered in the register of Unitholders in respect of the Units being transferred. Each instrument of transfer must relate to a single Sub-Fund only. If and to the extent that all Units are deposited, cleared and settled in CCASS, HKSCC Nominees Limited will be the sole Unitholder, holding such Units for the persons admitted by HKSCC as a participant of CCASS and to whose account any Units are for the time being allocated in accordance with the General Rules of CCASS.

EXCHANGE LISTING AND TRADING (SECONDARY MARKET)

Dealings on the SEHK in Units began on 17 July 2012. Units are neither listed nor dealt on any other stock exchange and no application for such listing or permission to deal is being sought as at the date of this Prospectus. Application may be made in the future for a listing of Units on one or more other stock exchanges.

Units trade on the SEHK in board lots of 200 Units.

The purpose of the listing of the Units on the SEHK is to enable investors to buy and sell Units on the secondary market, normally via a broker or dealer in smaller quantities than would be possible if they were to subscribe and/or redeem Units in the primary market.

The market price of a Unit listed or traded on the SEHK may not reflect the Net Asset Value per Unit. Any transactions in the Units on the SEHK will be subject to the customary brokerage commissions and/or transfer taxes associated with the trading and settlement through the SEHK. There can be no guarantee that once the Units are listed on the SEHK they will remain listed.

It is the Manager's expectation that at least one Market Maker will maintain a market for the Units. Broadly, the obligations of a Market Maker will include quoting bid and offer prices on the SEHK with the intention of providing liquidity. Given the nature of the Market Maker's role, the Manager will make available to a Market Maker, the portfolio composition information made available to a Participating Dealer.

Units may be purchased from and sold through the Market Maker. However, there is no guarantee or assurance as to the price at which a market will be made. In maintaining a market for Units, the Market Makers may make or lose money based on the differences between the prices at which they buy and sell Units, which is to a certain extent dependent on the difference between the purchase and sale prices of the underlying Securities comprised within the Index. Market Makers may retain any profits made by them for their own benefit and they are not liable to account to the Sub-Fund in respect of their profits.

If you wish to buy or sell Units on the secondary market, you should contact your brokers.

The Units have been accepted as eligible securities by HKSCC for deposit, clearance and settlement in CCASS with effect from the date of commencement of dealings in the Units on the SEHK. Settlement of transactions between participants of the SEHK is required to take place in CCASS on the second CCASS Settlement Day after any trading day. All activities under CCASS are subject to the General Rules of CCASS and CCASS Operational Procedures in effect from time to time.

If trading of the Units on the SEHK is suspended or trading generally on the SEHK is suspended, then there will be no secondary market dealing for the Units.

DETERMINATION OF NET ASSET VALUE

Calculation of Net Asset Value

The Net Asset Value of the Sub-Fund will be determined by the Administrator as at each Valuation Point applicable to the Sub-Fund by valuing the assets of the Sub-Fund and deducting the liabilities of the Sub-Fund, in accordance with the terms of the Trust Deed.

Set out below is a summary of how various Securities held by the Sub-Fund are valued:

- (a) Securities that are quoted, listed, traded or dealt in on any Market shall unless the Manager (with the consent of the Trustee) determines that some other method is more appropriate, be valued by reference to the price appearing to the Manager to be the official closing price, or if unavailable, the last traded price on the Market as the Manager may consider in the circumstances to provide fair criterion, provided that (i) if a Security is quoted or listed on more than one Market, the Manager shall adopt the price quoted on the Market which in its opinion provides the principal market for such Security; (ii) if prices on that Market are not available at the relevant time, the value of the Securities shall be certified by such firm or institution making a market in such investment as may be appointed for such purpose by the Manager; (iii) interest accrued on any interest-bearing Securities shall be taken into account, unless such interest is included in the quoted or listed price; and (iv) the Manager and the Trustee shall be entitled to use and rely on electronic price feeds from such source or sources as they may from time to time determine, notwithstanding that the prices so used are not the official closing prices or last traded prices as the case may be;
- (b) the value of each interest in any unlisted mutual fund corporation or unit trust shall be the latest available net asset value per share or unit in such mutual fund corporation or unit trust or if not available or appropriate, the last available bid or offer price for such unit, share or other interest;
- (c) except as provided for in paragraph (b), the value of any investment which is not listed, quoted or ordinarily dealt in on a Market shall be the initial value thereof equal to the amount expended on behalf of the Sub-Fund in the acquisition of such investment (including, in each case the amount of stamp duties, commissions and other acquisition expenses) provided that the Manager may at the request of the Trustee cause a revaluation to be made by a professional person approved by the Trustee as qualified to value such investments (which may, if the Trustee agrees, be the Manager);
- (d) cash, deposits and similar investments shall be valued at their face value (together with accrued interest) unless, in the opinion of the Manager, any adjustment should be made to reflect the value thereof; and
- (e) notwithstanding the foregoing, the Manager may adjust the value of any investment if, having regard to relevant circumstances, the Manager considers that such adjustment is required to fairly reflect the value of the investment.

The Trustee will perform any currency conversion at rates as may be agreed between the Trustee and the Manager from time to time.

The above is a summary of the key provisions of the Trust Deed with regard to how the various assets of the Sub-Fund are valued.

Suspension of Determination of Net Asset Value

The Manager may, after giving notice to the Trustee, declare a suspension of the determination of the Net Asset Value of the Sub-Fund for the whole or any part of any period during which:

- (a) there exists any state of affairs prohibiting the normal disposal and/or purchase of the investments of the Sub-Fund;

- (b) circumstances exist as a result of which, in the opinion of the Manager, it is not reasonably practicable to realise any Securities held or contracted for the account of the Sub-Fund or it is not possible to do so without seriously prejudicing the interest of Unitholders of Units of the Sub-Fund;
- (c) for any other reason the prices of investments of the Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (d) there is a breakdown in any of the means normally employed in determining the Net Asset Value of the Sub-Fund or the Net Asset Value per Unit of the relevant class or when for any other reason the value of any Securities or other property for the time being comprised in the Sub-Fund cannot, in the opinion of the Manager, reasonably, promptly and fairly be ascertained;
- (e) the remittance or repatriation of funds which will or may be involved in the realisation of, or in the payment for, the Securities of the Sub-Fund or the subscription or redemption of Units of the Sub-Fund is delayed or cannot, in the opinion of the Manager, be carried out promptly or at normal rates of exchange; or
- (f) the business operations of the Manager, the Trustee or the Registrar are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolution, civil unrest, riot, strikes, or acts of God.

Any suspension shall take effect upon its declaration and thereafter there shall be no determination of the Net Asset Value of the Sub-Fund and the Manager shall be under no obligation to rebalance the Sub-Fund until the suspension is terminated on the earlier of (i) the Manager declaring the suspension is at an end; and (ii) the first Dealing Day on which (1) the condition giving rise to the suspension shall have ceased to exist; and (2) no other condition under which suspension is authorised exists.

The Manager shall notify the SFC and publish a notice of suspension following the suspension, and at least once a month during the suspension, on its website at <http://etf.chinaamc.com.hk/HKen/CSI300> or in such other publications as the Manager decides.

No Units will be issued or redeemed during any period of suspension of the determination of the Net Asset Value.

Issue Price and Redemption Value of Units

The Issue Price of Units created and issued by a Creation Application, will be the prevailing Net Asset Value of the Sub-Fund as at the relevant Valuation Point divided by the total number of Units in issue rounded to the nearest four decimal places (0.00005 or above being rounded up).

The Redemption Value on a Dealing Day shall be the prevailing Net Asset Value of the Sub-Fund as at the relevant Valuation Point divided by the total number of Units in issue rounded to the nearest four decimal places (0.00005 or above being rounded up).

The benefit of any rounding adjustments will be retained by the Sub-Fund.

The latest Net Asset Value of the Units will be available on the Manager's website at <http://etf.chinaamc.com.hk/HKen/CSI300> or published in such other publications as the Manager decides.

Neither the Issue Price nor the Redemption Value takes into account Duties and Charges, Transaction Fees or fees payable by a Participating Dealer.

FEES AND EXPENSES

There are different levels of fees and expenses applicable to investing in the Sub-Fund as set out below, current as at this date of the Prospectus.

(a) Fees and expenses payable by Participating Dealers on creations and redemptions (as applicable) of Units	Amount
Transaction Fee and Service Agent's Fee	RMB12,000 ¹ per Application and HK\$1,000 ¹ per book-entry deposit and withdrawal transaction
	See Note ²
Application cancellation fee	RMB8,000 ³ per Application
Extension Fee	RMB8,000 ⁴ per Application
Stamp duty	Nil
All other Duties and Charges incurred by the Trustee or the Manager in connection with the creation or redemption	As applicable
(b) Fees and expenses payable by investors	Amount
<i>(i) Fees payable by clients of the Participating Dealers in respect of creations and redemptions (as applicable) via the Participating Dealer</i>	
Fees and charges imposed by the Participating Dealer ⁵	Such amounts as determined by the relevant Participating Dealer
<i>(ii) Fees payable by all investors in respect of dealings in the Units on SEHK</i>	
Brokerage	Market rates

¹ RMB12,000 is payable to the Trustee and HK\$1,000 is payable to the Service Agent.

² The Transaction Fee of RMB12,000 is payable by a Participating Dealer to the Trustee for the benefit of the Trustee and/or Registrar. The Service Agent's fee of HK\$1,000 is payable by a Participating Dealer to the Service Agent. The Registrar will charge a fee for each Creation Application and Redemption Application and the Service Agent will charge a fee for each book-entry deposit and withdrawal transaction. Both fees will be met out of the Transaction Fee. A Participating Dealer may pass on to the relevant investor such Transaction Fee.

³ An application cancellation fee is payable to the Trustee for the account of the Registrar in respect of either a withdrawn or failed Creation Application or Redemption Application.

⁴ An Extension Fee is payable to the Trustee on each occasion the Manager, upon a Participating Dealer's request, grants the Participating Dealer an extended settlement in respect of a Creation Application or Redemption Application.

⁵ The Participating Dealer may increase or waive the level of its fees in its discretion. Information regarding these fees and charges is available upon request to the relevant Participating Dealer.

⁶ Transaction levy of 0.003% of the trading price of the Units, payable by the buyer and the seller.

(c) Fees and expenses payable by the Sub-Fund (See further disclosure below)

No money should be paid to any intermediary in Hong Kong which is not licensed or registered to carry on Type 1 regulated activity under Part V of the SFO.

Fees and Expenses Payable by the Sub-Fund

Manager's Fee

The Manager is entitled to receive a management fee of up to 1.00% per year of the Net Asset Value of the Sub-Fund. The current management fee is 0.70% per year of the Net Asset Value of the Sub-Fund and is accrued daily and calculated as at each Dealing Day and payable monthly in arrears. This fee is payable out of the Trust Fund.

The Manager may pay a distribution fee to any distributor or sub-distributors of the Trust out of the management fees it receives from the Trust. A distributor may re-allocate an amount of the distribution fee to the sub-distributors. The fees of the Investment Adviser, if any, will be paid by the Manager and not out of the assets of the Sub-Fund.

Trustee's Fee

The Trustee is entitled to receive out of the assets of the Sub-Fund a trustee fee of up to 1.00% per year of the Net Asset Value of the Sub-Fund. The current Trustee's fee is payable monthly in arrears, accrued daily and calculated as at each Dealing Day at the following percentages per year of the Net Asset Value of the Sub-Fund: 0.10% if the Net Asset Value equals or is less than the RMB equivalent of US\$200 million, 0.09% if the Net Asset Value exceeds the RMB equivalent of US\$200 million up to and including US\$600 million and 0.07% if the Net Asset Value exceeds the RMB equivalent of US\$600 million, subject to a minimum fixed fee of US\$4,000 per month. The Trustee will bear the fees of the Custodian, the PRC Custodian and the Administrator. The trustee fee may be increased by agreement with the Manager up to the maximum on giving one month's notice to the Unitholders. The Trustee is also entitled to an inception fee of US\$10,000 for the establishment of the Sub-Fund.

The Trustee shall also be entitled to be reimbursed out of the assets of the Sub-Fund all out-of-pocket expenses incurred.

Registrar's Fee

The Registrar is entitled to receive an initial placing fee of HK\$180,000 and an ongoing registry service fee of HK\$96,000 per annum in respect of the Sub-Fund. These fees are payable out of the assets of the Sub-Fund.

The Registrar shall also be entitled to be reimbursed out of the assets of the Sub-Fund all out-of-pocket expenses incurred.

Service Agent's Fee

The Service Agent is entitled to receive a monthly reconciliation fee of HK\$5,000 from the Manager. The Manager shall pass on to the Sub-Fund such reconciliation fee.

For any period less than a month, the reconciliation fee is on a pro-rata basis and accrues on a daily basis. The Trustee, on behalf of the Trust, will pay all other expenses chargeable by the Service

⁷ Trading fee of 0.005% of the trading price of the Units, payable by the buyer and the seller.

Agent in connection with the Service Agent's role.

Total Expense Ratio

The total expense ratio ("TER") of the Sub-Fund, which is the sum of anticipated charges to the Sub-Fund expressed as a percentage of the Net Asset Value of the Sub-Fund, is estimated to be 0.99% per annum. The TER does not represent the estimated tracking error and does not include extraordinary items (if any) borne by the Sub-Fund.

Promotional Expenses

The Sub-Fund will not be responsible for any promotional expenses including those incurred by any marketing agents and any fees imposed by such marketing agents on their customers investing in the Sub-Fund will not be paid (either in whole or in part) out of the Trust Fund.

Other Expenses

The Sub-Fund will bear all operating costs relating to the administration of the Sub-Fund including but not limited to stamp and other duties, governmental charges, brokerages, commissions, exchange costs and commissions, bank charges and other costs and expenses payable in respect of the acquisition, holding and realisation of any investment or any monies, deposit or loan, charges and expenses of its legal counsel, auditors and other professionals, index licensing fees, the costs in connection with maintaining a listing of the Units on the SEHK and maintaining the Trust's and the Sub-Fund's authorisation under the SFO, costs incurred in the preparation, printing and updating of any offering documents and the costs incurred in the preparation of supplemental deeds, any disbursements or out-of-pocket expenses properly incurred on behalf of the Sub-Fund by the Trustee, the Manager or the Registrar or any of its service providers, the expenses incurred in convening meetings of Unitholders, printing and distributing annual and half-yearly reports, accounts and other circulars relating to the Sub-Fund and the expenses of publishing Unit prices.

Establishment Costs

The cost of establishing the Trust and the Sub-Fund including the preparation of this Prospectus, inception fees, the costs of seeking and obtaining the listing and authorisation by the SFC and all initial legal and printing costs (which are estimated to be RMB1,900,000) will be borne by the Sub-Fund (unless otherwise determined by the Manager) and amortised over the first 5 financial years of the Sub-Fund or such other period as determined by the Manager after consulting the Auditor.

Increase in Fees

The current fees payable to the Manager and the Trustee as described above may be increased on one month's notice to Unitholders (or such shorter period as approved by the SFC), subject to the maximum rates set out in the Trust Deed.

RISK FACTORS

An investment in the Sub-Fund carries various risks. Each of these may affect the Net Asset Value, yield, total return and trading price of the Units. There can be no assurance that the investment objective of the Sub-Fund will be achieved. You should carefully evaluate the merits and risks of an investment in the Sub-Fund in the context of your overall financial circumstances, knowledge and experience as an investor. The risk factors set forth below are the risks which are believed by the Manager and its directors to be relevant and presently applicable to the Sub-Fund.

Risks associated with the RQFII regime

RQFII systems risk

The current RQFII Regulations include rules on investment restrictions applicable to the Sub-Fund. Transaction sizes for RQFIIs are relatively large (with the corresponding heightened risk of exposure to decreased market liquidity and significant price volatility leading to possible adverse effects on the timing and pricing of acquisition or disposal of securities).

Onshore PRC securities are registered in the joint names of the Manager (as the RQFII holder) and the Sub-Fund in accordance with the relevant rules and regulations, and maintained in electronic form via a securities account with the CSDCC. The account is required to bear the name of “China Asset Management (Hong Kong) Limited” as this is the name under which the RQFII is approved by the relevant regulator. The RQFII selects a PRC broker (the “PRC Broker”) to act on its behalf in each of the two onshore PRC securities markets as well as the PRC Custodian to maintain its assets in custody in accordance with the terms of the PRC RQFII Agreement.

In the event of any default of either the relevant PRC Broker or the PRC Custodian in the execution or settlement of any transaction or in the transfer of any funds or securities in the PRC, the Sub-Fund may encounter delays in recovering its assets which may in turn adversely impact the net asset value of the Sub-Fund.

There can be no assurance that additional RQFII quota can be obtained to fully satisfy subscription requests. This may result in a need for the Manager to close the Sub-Fund to further subscriptions. In extreme circumstances, the Sub-Fund may incur significant loss due to limited investment capabilities, or may not be able fully to implement or pursue its investment objectives or strategies, due to RQFII investment restrictions, illiquidity of the PRC’s securities markets, and delay or disruption in execution of trades or in settlement of trades.

The regulations which regulate investments by RQFIIs in the PRC and the repatriation of capital from RQFII investments are relatively new. The application and interpretation of such investment regulations are therefore relatively untested and there is no certainty as to how they will be applied as the PRC authorities and regulators have been given wide discretion in such investment regulations and there is no precedent or certainty as to how such discretion may be exercised now or in the future.

PRC Custodian and PRC Broker risk

Onshore PRC assets will be maintained by the PRC Custodian in electronic form via a securities account with the CSDCC and a cash account with the PRC Custodian.

The RQFII also selects the PRC Broker to execute transactions for the Sub-Fund in the PRC markets. The Manager can only appoint one broker in the PRC for each market (the Shenzhen Stock Exchange and the Shanghai Stock Exchange) in the PRC. As such the Sub-Fund will rely on only one broker for each market (which may be the same broker). Should, for any reason, the Manager be unable to use the relevant broker in the PRC, the operation of the Sub-Fund would be adversely affected and may cause Units to trade at a premium or discount to the Sub-Fund’s Net Asset Value or unable to track the index. The Sub-Fund may also incur losses due to the acts or omissions of either the PRC Broker(s) or the PRC Custodian in the execution or settlement of any transaction or in the transfer of any funds or securities. Subject to the applicable laws and regulations in the PRC, the Manager will make arrangements to ensure that the relevant PRC Broker and PRC Custodian have appropriate procedures to properly safe-keep the Sub-Fund’s assets.

According to the RQFII Regulations and market practice, the securities and cash accounts for the Sub-Fund in the PRC are maintained in the joint names of the Manager as the RQFII and the Sub-Fund. Although the Manager has obtained a legal opinion that the assets in such securities account would belong to the Sub-Fund, such opinion cannot be relied on as being conclusive, as the RQFII Regulations are subject to the interpretation of the relevant authorities in the PRC.

Investors should note that cash deposited in the cash account of the Sub-Fund with the PRC Custodian will not be segregated but will be a debt owing from the PRC Custodian to the Sub-Fund as a depositor. Such cash will be co-mingled with cash belong to other clients of the PRC Custodian. In the event of bankruptcy or liquidation of the PRC Custodian, the Sub-Fund will not have any proprietary rights to the cash deposited in such cash account, and the Sub-Fund will become an unsecured creditor, ranking *pari passu* with all other unsecured creditors, of the PRC Custodian. The Sub-Fund may face difficulty and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the Sub-Fund will suffer losses.

Repatriation risk

Repatriations by RQFIIs in respect of fund such as the Sub-Fund conducted in RMB are permitted daily and are not subject to any lock-up periods or prior approval. There is no assurance, however, that PRC rules and regulations will not change or that repatriation restrictions will not be imposed in the future. Any new restrictions on repatriation of the invested capital and net profits may impact on the Sub-Fund's ability to meet redemption requests.

RQFII quota risk

The Sub-Fund will utilize the Manager's RQFII quota granted under the RQFII Regulation. This RQFII quota is limited and may be reached. In such event, unless the Manager is able to acquire additional RQFII quota, it may be necessary for the Manager to suspend creations of Units. In such event it is possible that the trading price of a Unit on the SEHK will be at a significant premium to the Net Asset Value of each Unit (which may also increase tracking error of the Sub-Fund).

Risks associated with the RMB currency

RMB is not freely convertible and subject to exchange controls and restrictions risk

It should be noted that the RMB is currently not a freely convertible currency as it is subject to foreign exchange control policies and repatriation restrictions imposed by the PRC government. Since 1994, the conversion of RMB into US dollar has been based on rates set by the PBOC, which are set daily based on the previous day's PRC interbank foreign exchange market rate. On 21 July 2005, the PRC government introduced a managed floating exchange rate system to allow the value of RMB to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. In addition, a market maker system was introduced to the interbank spot foreign exchange market. In July 2008, China announced that its exchange rate regime was further transformed into a managed floating mechanism based on market supply and demand. Given the domestic and overseas economic developments, the PBOC decided to further improve the RMB exchange rate regime in June 2010 to enhance the flexibility of the RMB exchange rate. In April 2012, the PBOC decided to take a further step to increase the flexibility of the RMB exchange rate by expanding the daily trading band from +/- 0.5% to +/- 1%. However it should be noted that the PRC government's policies on exchange control and repatriation restrictions are subject to change, and any such change may adversely impact the Sub-Fund. There can be no assurance that the RMB exchange rate will not fluctuate widely against the US dollar or any other foreign currency in the future.

Foreign exchange transactions under the capital account, including principal payments in respect of foreign currency-denominated obligations, currently continue to be subject to significant foreign exchange controls and require the approval of the SAFE. On the other hand, the existing PRC foreign exchange regulations have significantly reduced government foreign exchange controls for transactions under the current account, including trade and service related foreign exchange transactions and payment of dividends. Nevertheless, the Manager cannot predict whether the PRC government will continue its existing foreign exchange policy or when the PRC government will allow free conversion of the RMB to foreign currency.

RMB trading and settlement of Units risk

The trading and settlement of RMB denominated securities are recent developments in Hong Kong and there is no assurance that there will not be problem with the systems or that other logistical problems will not arise. Although end-to-end simulation trading and clearing of listed RMB products testing sessions and payment pilot runs for participants of the SEHK were held by the SEHK in March, September and October 2011, some stockbrokers may not have participated in such testing sessions and pilot runs and for those who have, not all of them may be able to successfully complete such testing sessions and pilot runs, there is no assurance of their readiness for dealing in RMB denominated securities. Investors should note that not all stockbrokers may be ready and able to carry out trading and settlement of Units of the Sub-Fund and thus they may not be able to deal in the Units through some stockbrokers.

Non-RMB or late settlement redemption risk

Where, in extraordinary circumstances, the remittance or payment of RMB funds on the redemption of Units cannot, in the opinion of the Manager in consultation with the Trustee, be carried out normally due to legal or regulatory circumstances beyond the control of the Trustee and the Manager, redemption proceeds may be delayed or, if necessary in exceptional circumstances, be paid in US dollars or Hong Kong dollars instead of in RMB (at an exchange rate determined by the Manager after consultation with the Trustee). As such, there is a risk that investors may not be able to receive, through Participating Dealers, settlement upon a redemption of Units in RMB (and may receive US dollars or Hong Kong dollars) or may receive settlement in RMB on a delayed basis.

RQFII late settlement risk

The Sub-Fund will be required to remit RMB from Hong Kong to the PRC to settle the purchase of A-Shares by the Sub-Fund from time to time. In the event such remittance is disrupted, the Sub-Fund will not be able to fully replicate the Index by investing in the relevant A-Shares and this may increase the tracking error of the Sub-Fund.

Exchange rates movement between the RMB and other currencies risk

Investors whose assets and liabilities are predominantly in Hong Kong dollars or in currencies other than RMB (being the currency in which the Units are denominated) should take into account the potential risk of loss arising from fluctuations in value between the such currencies and RMB. There is no guarantee that RMB will appreciate in value against Hong Kong dollar or any other currency, or that the strength of RMB may not weaken. In such case an investor may enjoy a gain in RMB terms but suffer a loss when converting funds from RMB back into Hong Kong dollar (or any other currency).

Future movements in RMB exchange rates risk

The exchange rate of RMB ceased to be pegged to US dollars on 21 July 2005, resulting in a more flexible RMB exchange rate system. China Foreign Exchange Trading System, authorised by the PBOC, promulgates the central parity rate of RMB against US dollars, Euro, Yen, pound sterling and Hong Kong dollar at 9:15 a.m. on each business day, which will be the daily central parity rate for transactions on the Inter-bank Spot Foreign Exchange Market and OTC transactions of banks. The exchange rate of RMB against the above-mentioned currencies fluctuates within a range above or below such central parity rate. As the exchange rates are based primarily on market forces, the exchange rates for RMB against other currencies, including US dollars and Hong Kong dollars, are susceptible to movements based on external factors. There can be no assurance that such exchange rates will not fluctuate widely against US dollars, Hong Kong dollars or any other foreign currency in the future. From 1994 to July 2005, the exchange rate for RMB against US dollar and the Hong Kong dollar was relatively stable. Since July 2005, the appreciation of RMB has begun to accelerate. Although the PRC government has constantly reiterated its intention to maintain the stability of RMB, it may introduce measures (such as a reduction in the rate of export tax refund) to address the concerns of the PRC's trading partners. Therefore, the possibility that the appreciation of RMB will be further accelerated cannot be excluded. On the other hand, there can be no

assurance that RMB will not be subject to devaluation.

Offshore RMB ("CNH") market risk

The onshore RMB ("CNY") is the only official currency of the PRC and is used in all financial transactions between individuals, state and corporations in the PRC. Hong Kong is the first jurisdiction to allow accumulation of RMB deposits outside the PRC. Since June 2010, the offshore RMB ("CNH") is traded officially, regulated jointly by the Hong Kong Monetary Authority and the PBOC. While both CNY and CNH represent RMB, they are traded in different and separated markets. The two RMB markets operate independently where the flow between them is highly restricted. Though the CNH is a proxy's of the CNY, they do not necessarily have the same exchange rate and their movement may not be in the same direction. This is because these currencies act in separate jurisdictions, which leads to separate supply and demand conditions for each, and therefore separate but related currency markets.

However, the current size of RMB-denominated financial assets outside the PRC is limited. As at 29 February 2012, the total amount of RMB (CNH) deposits held by institutions authorised to engage in RMB banking business in Hong Kong amounted to approximately RMB566 billion. In addition, participating authorised institutions are also required by the Hong Kong Monetary Authority to maintain a total amount of RMB (in the form of cash and its settlement account balance with the Renminbi Clearing Bank) of no less than 25% of their RMB deposits, which further limits the availability of RMB that participating authorised institutions can utilise for conversion services for their customers. RMB business participating banks do not have direct RMB liquidity support from PBOC. The Renminbi Clearing Bank only has access to onshore liquidity support from PBOC (subject to annual and quarterly quotas imposed by PBOC) to square open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement and for individual customers of up to RMB20,000 per person per day. The Renminbi Clearing Bank is not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services and the participating banks will need to source RMB from the offshore market to square such open positions. Although it is expected that the offshore RMB market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or the Settlement Agreement will not be terminated or amended in the future which will have the effect of restricting availability of RMB offshore. The limited availability of RMB outside the PRC may affect the ability of investors to acquire Units or sell Units of the Sub-Fund affecting the liquidity and trading price of the Units on the SEHK. To the extent the Manager is required to source RMB in the offshore market, there is no assurance that it will be able to source such RMB on satisfactory terms, if at all.

Risks associated with the PRC

A-Share market trading hours difference risk

Differences in trading hours between foreign stock exchanges (e.g. Shanghai Stock Exchange and Shenzhen Stock Exchange) and the SEHK may increase the level of premium/discount of the Unit price to its Net Asset Value because if a PRC stock exchange is closed while the SEHK is open, the Index level may not be available. The prices quoted by the SEHK market maker would therefore be adjusted to take into account any accrued market risk that arises from such unavailability of the Index level and as a result, the level of premium or discount of the Unit price of the Sub-Fund to its Net Asset Value may be higher.

A-Share market suspension risk

A-Shares may only be bought from, or sold to, the Sub-Fund from time to time where the relevant A-Shares may be sold or purchased on the Shanghai Stock Exchange or the Shenzhen Stock Exchange, as appropriate. Given that the A-Share market is considered volatile and unstable (with the risk of suspension of a particular stock or government intervention), the creation and redemption

of Units may also be disrupted. A Participating Dealer is unlikely to redeem or create Units if it considers that A-Shares may not be available.

Economic, political and social risks

The economy of China, which has been in a state of transition from a planned economy to a more market oriented economy, differs from the economies of most developed countries in many respects, including the level of government involvement, its state of development, its growth rate, control of foreign exchange, and allocation of resources.

Although the majority of productive assets in China are still owned by the PRC government at various levels, in recent years, the PRC government has implemented economic reform measures emphasising utilisation of market forces in the development of the economy of China and a high level of management autonomy. The economy of China has experienced significant growth in the past 20 years, but growth has been uneven both geographically and among various sectors of the economy. Economic growth has also been accompanied by periods of high inflation. The PRC government has implemented various measures from time to time to control inflation and restrain the rate of economic growth.

For more than 20 years, the PRC government has carried out economic reforms to achieve decentralisation and utilisation of market forces to develop the economy of the PRC. These reforms have resulted in significant economic growth and social progress. There can, however, be no assurance that the PRC government will continue to pursue such economic policies or, if it does, that those policies will continue to be successful. Any such adjustment and modification of those economic policies may have an adverse impact on the securities market in the PRC as well as the underlying Securities of the Sub-Fund. Further, the PRC government may from time to time adopt corrective measures to control the growth of the PRC economy which may also have an adverse impact on the capital growth and performance of the Sub-Fund.

Political changes, social instability and adverse diplomatic developments in the PRC could result in the imposition of additional government restrictions including expropriation of assets, confiscatory taxes or nationalisation of some or all of the property held by the underlying issuers of the Securities in the Sub-Fund's portfolio.

PRC laws and regulations risk

The regulatory and legal framework for capital markets and joint stock companies in the PRC may not be as well developed as those of developed countries. PRC laws and regulations affecting securities markets are relatively new and evolving, and because of the limited volume of published cases and judicial interpretation and their non-binding nature, interpretation and enforcement of these regulations involve significant uncertainties. In addition, as the PRC legal system develops, no assurance can be given that changes in such laws and regulations, their interpretation or their enforcement will not have a material adverse effect on their business operations.

Restricted markets risk

The Sub-Fund may invest in Securities in respect of which the PRC imposes limitations or restrictions on foreign ownership or holdings. In such circumstances, the Sub-Fund may be required to make investments indirectly. Such legal and regulatory restrictions or limitations may have adverse effects on the liquidity and performance of the Sub-Fund holdings as compared to the performance of the Index. This may increase the risk of tracking error.

Accounting and reporting standards risk

Accounting, auditing and financial reporting standards and practices applicable to PRC companies may be different to those standards and practices applicable to countries that have more developed financial markets. For example, there are differences in the valuation methods of properties and assets and in the requirements for disclosure of information to investors.

Changes in PRC taxation risk

The PRC Government has implemented a number of tax reform policies in recent years. The current tax laws and regulations may be revised or amended in the future. Any revision or amendment in tax laws and regulations may affect the after-taxation profit of PRC companies and foreign investors in such companies. In particular, please refer to the risk factor on “Risk associated with PRC taxation” below.

PRC withholding taxation risk

In light of the uncertainty on the income tax treatment on capital gains and in order to meet this potential tax liability for capital gains, the Manager reserves the right to provide for withholding tax (“WIT”) on such gains or income and withhold the tax for the account of the Sub-Fund. The Manager will at present make a provision of 10% for the account of the Sub-Fund in respect of any potential WIT on capital gains. The Manager will further assess and seek to ascertain the Hong Kong tax resident status of the Sub-Fund for exemption from WIT on capital gains under the avoidance of double taxation arrangements between Mainland China and Hong Kong (the “China-HK Arrangements”) and will revisit if a lower or nil provision for the account of the Sub-Fund in respect of any potential WIT on capital gains should be required. The amount of actual provision will be disclosed in the accounts of the Sub-Fund. Investors should note that such provision may be excessive or inadequate to meet actual PRC tax liabilities on investments made by the Sub-Fund. As a result, investors may be advantaged or disadvantaged depending on the final rules of the relevant PRC tax authorities. It should also be noted that the actual applicable tax rates imposed by SAT may be different and may change from time to time. There is a possibility of the rules being changed and taxes being applied retrospectively. As such, any provision for taxation made by the Manager may be excessive or inadequate to meet final PRC tax liabilities. Consequently, Unitholders may be advantaged or disadvantaged depending upon the final tax liabilities, the level of provision and when they subscribed and/or redeemed their Units. If the actual applicable tax rate levied by SAT is higher than that provided for by the Manager so that there is a shortfall in the tax provision amount, investors should note that the Net Asset Value of the Sub-Fund may suffer more than the tax provision amount as the Sub-Fund will ultimately have to bear the additional tax liabilities. In this case, the then existing and new Unitholders will be disadvantaged. On the other hand, if the actual applicable tax rate levied by SAT is lower than that provided for by the Manager so that there is an excess in the tax provision amount, Unitholders who have redeemed their Units before SAT’s ruling, decision or guidance in this respect will be disadvantaged as they would have borne the loss from the Manager’s overprovision. In this case, the then existing and new Unitholders may benefit if the difference between the tax provision and the actual taxation liability under that lower tax rate can be returned to the account of the Sub-Fund as assets thereof. Notwithstanding the above provisions, Unitholders who have already redeemed their Units in the Sub-Fund before the return of any overprovision to the account of the Sub-Fund will not be entitled or have any right to claim any part of such overprovision. Please refer to the sub-section on “PRC Taxation” for further information in this regard.

Risks associated with investment in the Sub-Fund

New product risk

The Sub-Fund is a physical RQFII, RMB denominated exchange traded fund investing directly in A-Shares. Although there have been RMB denominated RQFII mutual funds and a commodities exchange traded fund denominated in RMB, the Sub-Fund was the first equities exchange traded funds denominated in RMB and relying on the RQFII regime. Whilst there have been synthetic exchange traded funds listed on the SEHK which track A-Share indices (including the Index), unlike the Sub-Fund these exchange traded funds do not invest in or hold A-Shares on a direct and cross border basis. The novelty and untested nature of RQFII and the fact that the Sub-Fund is the first of its kind makes the Sub-Fund riskier than traditional exchange traded funds investing in markets other than the PRC.

Investment objective risk

There is no assurance that the investment objective of the Sub-Fund will be achieved. Whilst it is

the intention of the Manager to implement strategies which are designed to minimise tracking error, there can be no assurance that these strategies will be successful. It is possible that you as an investor may lose a substantial proportion or all of its investment in the Sub-Fund where the Index value declines. As a result, each investor should carefully consider whether you can afford to bear the risks of investing in the Sub-Fund.

Market risk

The Net Asset Value of the Sub-Fund will change with changes in the market value of the Securities it holds. The price of Units and the income from them may go down as well as up. There can be no assurance that an investor will achieve profits or avoid losses, significant or otherwise. The capital return and income of the Sub-Fund is based on the capital appreciation and income on the Securities it holds, less expenses incurred. The Sub-Fund's return may fluctuate in response to changes in such capital appreciation or income. Furthermore, the Sub-Fund may experience volatility and decline in a manner that broadly corresponds with the Index. Investors in the Sub-Fund are exposed to the same risks that investors who invest directly in the underlying Securities would face. These risks include, for example, interest rate risks (risks of falling portfolio values in a rising interest rate market); income risks (risks of falling incomes from a portfolio in a falling interest rate market); and credit risk (risk of a default by the underlying issuer of a Security that forms part of the Index).

Asset class risk

Although the Manager is responsible for the continuous supervision of the investment portfolio of the Sub-Fund, the returns from the types of Securities in which the Sub-Fund invests may underperform or outperform returns from other Securities markets or from investment in other assets. Different types of securities tend to go through cycles of out-performance and underperformance when compared with other general Securities markets.

Passive investments

The Sub-Fund is not actively managed. Accordingly, the Sub-Fund may be affected by a decline in the market segments relating to the Index. The Manager will not take defensive positions in declining markets. Investors may lose a significant part of their respective investments if the Index falls. The Sub-Fund invests in the Securities included in or representative of the Index regardless of their investment merit, except to the extent of any representative sampling strategy. The Manager does not attempt to select stocks individually or to take defensive positions in declining markets. You should note that the lack of discretion on the part of the Manager to adapt to market changes due to the inherent investment nature of the Sub-Fund will mean that falls in the Index are expected to result in corresponding falls in the value of the Sub-Fund.

Possible business failure risk

In the current economic environment, global markets are experiencing very high level of volatility and an increased risk of corporate failures. The insolvency or other corporate failures of any one or more of the constituents of the Index may have an adverse effect on the Index's and therefore the Sub-Fund's performance. You may lose money by investing in the Sub-Fund.

Management risk

Because there can be no guarantee that the Sub-Fund will fully replicate the Index, it is subject to management risk. This is the risk that the Manager's strategy, the implementation of which is subject to a number of constraints, may not produce the intended results. In addition, the Manager has absolute discretion to exercise Unitholders' rights with respect to Securities comprising the Sub-Fund. There can be no guarantee that the exercise of such discretion will result in the investment objective of the Sub-Fund being achieved.

Securities risk

The investments of the Sub-Fund are subject to risks inherent in all Securities (including settlement

and counterparty risks). The value of holdings may fall as well as rise. The global markets are currently experiencing very high levels of volatility and instability, resulting in higher levels of risk than is customary (including settlement and counterparty risks).

Equity risk

Investing in equity Securities may offer a higher rate of return than those investing in short term and longer term debt securities. However, the risks associated with investments in equity Securities may also be higher, because the investment performance of equity Securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies. The fundamental risk associated with any equity portfolio is the risk that the value of the investments it holds might suddenly and substantially decrease in value.

Tracking error risk

Although the Manager will adopt a primarily full replication strategy to reduce tracking error, the Manager may use representative sampling (for example where it is not possible to acquire certain Securities which are constituents of the Index due to restrictions or limited availability), and there can be no assurance of exact or identical replication at any time of the performance of the Index. Because the Manager has no other strategy to minimise tracking error and representative sampling may not provide identical performance, the Net Asset Value of the Sub-Fund may not correlate exactly with the Index. Factors such as the fees and expenses of the Sub-Fund, imperfect correlation between the Sub-Fund's assets and the Securities constituting the Index, inability to rebalance the Sub-Fund's holdings of Securities in response to changes in the constituents of the Index, rounding of Security prices, and changes to the regulatory policies may affect the Manager's ability to achieve close correlation with the Index. These factors may cause the Sub-Fund's returns to deviate from the Index.

Concentration risk

The Sub-Fund is subject to concentration risk as a result of tracking the performance of a single geographical region (the PRC). It is likely to be more volatile than a broad-based fund, such as a global or regional equity fund, as it is more susceptible to fluctuations in value resulting from adverse conditions in the PRC.

Trading risk

While the creation/redemption feature of the Sub-Fund is designed to make it likely that Units will trade close to their Net Asset Value, disruptions to creations and redemptions (for example, as a result of imposition of capital controls by a foreign government) may result in trading prices that differ significantly from the Net Asset Value). The secondary market prices of Units will fluctuate in accordance with changes in the Net Asset Value and supply and demand on any exchange on which Units are listed. The Manager cannot predict whether Units will trade below, at, or above their Net Asset Value. Since, however, Units must be created and redeemed in Application Unit size (unlike shares of many closed-end funds, which frequently trade at appreciable discounts from, and sometimes at premiums to, their Net Asset Value) the Manager believes that ordinarily large discounts or premiums to the Net Asset Value of Units should not be sustained. If the Manager suspends creations and/or redemptions of Units, the Manager anticipates that there may be larger discounts or premiums as between the secondary market price of Units and the Net Asset Value.

Loss of capital risk

There is no guarantee that the Sub-Fund's investments will be successful. In addition, trading errors are an intrinsic factor in any complex investment process, and will occur, notwithstanding the execution of due care and special procedures designed to prevent such errors.

No trading market in the Units risk

Although the Units are listed on the SEHK and one or more Market Makers have been appointed,

there may be no liquid trading market for the Units or that such Market Maker(s) may cease to fulfil that role. Further, there can be no assurance that Units will experience trading or pricing patterns similar to those of exchange traded funds which are issued by investment companies in other jurisdictions or those traded on the SEHK which are based upon indices other than the Index.

Indemnity risk

Under the Trust Deed, the Trustee and the Manager have the right to be indemnified against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to them in performing their respective duties except as a result of their own negligence, fraud, default, breach of duty or trust of which they may be liable in relation to their duties. Any reliance by the Trustee or the Manager on the right of indemnity would reduce the assets of the Sub-Fund and the value of the Units.

Dividends or distributions may not be paid risk

It is the Manager's intention that the Sub-Fund will pay distributions on Units but this will mainly depend on dividends or distributions declared and paid in respect of the Securities of the Index. Such dividends or distributions received by the Sub-Fund may be applied towards meeting the costs and expenses of the Sub-Fund. Dividend or distribution payment rates in respect of such Securities will depend on factors beyond the control of the Manager or Trustee including, general economic conditions, and the financial position and dividend or distribution policies of the relevant underlying entities. There can be no assurance that such entities will declare or pay dividends or distributions.

Possible early termination of the Sub-Fund risk

The Sub-Fund may be terminated early under certain circumstances, including but not limited to (i) the aggregate Net Asset Value of all the Units is less than RMB150 million or (ii) any law is passed or amended or regulatory directive or order is imposed which renders it illegal or in the opinion of the Manager, impracticable or inadvisable to continue the Sub-Fund or (iii) within a reasonable time and using commercially reasonable endeavours, the Manager is unable to find a person acceptable to act as the new trustee after deciding to remove the Trustee in accordance with the Trust Deed or (iv) the Index is no longer available for benchmarking or if the Units are no longer listed on the SEHK or any other Recognised Stock Exchange or (v) at any time, the Sub-Fund ceases to have any Participating Dealer. Upon the Sub-Fund being terminated, the Trustee will distribute the net cash proceeds (if any) derived from the realisation of the investments comprised in the Sub-Fund to the Unitholders in accordance with the Trust Deed. Any such amount distributed may be more or less than the capital invested by the Unitholder.

Risks associated with market trading

Absence of active market and liquidity risks

Although Units of the Sub-Fund are listed for trading on the SEHK, there can be no assurance that an active trading market for such Units will develop or be maintained. In addition, if the underlying Securities which comprise the Sub-Fund themselves have limited trading markets, or if the spreads are wide, this may adversely affect the price of the Units and the ability of an investor to dispose of its Units at the desired price. If you need to sell your Units at a time when no active market for them exists, the price you receive for your Units — assuming you are able to sell them — is likely to be lower than the price received if an active market did exist.

Suspension of trading risk

Investors and potential investors will not be able to buy, nor will investors be able to sell, Units on the SEHK during any period in which trading of the Units is suspended. The SEHK may suspend the trading of Units whenever the SEHK determines that it is appropriate and in the interest of a fair and orderly market to protect investors. The subscription and redemption of Units may also be suspended if the trading of Units is suspended.

Trading differences risk

As the Shanghai Stock Exchange and the Shenzhen Stock Exchange may be open when Units in the Sub-Fund are not priced, the value of the Securities in the Sub-Fund's portfolio may change on days when investors will not be able to purchase or sell the Sub-Fund's Units. Furthermore, the market price of underlying Securities listed on the above stock exchanges which are established outside Hong Kong may not be available during part or all of the SEHK trading sessions due to trading hour differences which may result in the trading price of the Sub-Fund deviating away from the Net Asset Value. A-Shares are subject to trading bands which restrict increases and decreases in the trading price. Units listed on the SEHK are not. This difference may also increase the level of premium or discount of the Unit price to its Net Asset Value.

Effect of redemptions risk

If significant redemptions of Units are requested by the Participating Dealers, it may not be possible to liquidate the Sub-Fund's investments at the time such redemptions are requested or the Manager may be able to do so only at prices which the Manager believes does not reflect the true value of such investments, resulting in an adverse effect on the return to investors. Where significant redemptions of Units are requested by the Participating Dealers, the right of Participating Dealers to require redemptions in excess of 10% of the total number of Units in the Sub-Fund then in issue (or such higher percentage as the Manager may determine) may be deferred, or the period for the payment of redemption proceeds may be extended.

In addition, the Manager may also in certain circumstances suspend the determination of the Net Asset Value of the Sub-Fund for the whole or any part of any period. Please see the section on "Determination of Net Asset Value" for further details.

Units may trade at prices other than Net Asset Value risk

Units of the Sub-Fund trade on the SEHK at prices above or below the most recent Net Asset Value. The Net Asset Value per Unit of the Sub-Fund is calculated at the end of each Dealing Day and fluctuates with changes in the market value of the Sub-Fund's holdings. The trading prices of the Sub-Fund's Units fluctuate continuously throughout the trading hours based on market supply and demand rather than Net Asset Value. The trading price of the Units may deviate significantly from Net Asset Value particularly during periods of market volatility. Any of these factors may lead to the Units of the Sub-Fund trading at a premium or discount to the Net Asset Value. On the basis that Units can be created and redeemed in Application Units at Net Asset Value, the Manager believes that large discounts or premiums to Net Asset Value are not likely to be sustained over the long-term. While the creation/redemption feature is designed to make it likely that the Units will normally trade at prices close to the Sub-Fund's next calculated Net Asset Value, trading prices are not expected to correlate exactly with the Sub-Fund's Net Asset Value due to reasons relating to timing as well as market supply and demand factors. In addition, disruptions to creations and redemptions or the existence of extreme market volatility may result in trading prices that differ significantly from Net Asset Value. In particular, if an investor purchases Units at a time when the market price is at a premium to Net Asset Value or sells when the market price is at a discount to Net Asset Value, then the investor may sustain losses.

Borrowing risks

The Trustee, at the request of the Manager, may borrow for the account of the Sub-Fund (up to 25% of the Net Asset Value of the Sub-Fund) for various reasons, such as facilitating redemptions or to acquire investments for the account of the Sub-Fund. Borrowing involves an increased degree of financial risk and may increase the exposure of the Sub-Fund to factors such as rising interest rates, downturns in the economy or deterioration in the conditions of the assets underlying its investments. There can be no assurance that the Sub-Fund will be able to borrow on favourable terms, or that the Sub-Fund's indebtedness will be accessible or be able to be refinanced by the Sub-Fund at any time.

Government intervention and restrictions risk

Governments and regulators may intervene in the financial markets, such as by the imposition of trading restrictions, a ban on “naked” short selling or the suspension of short selling for certain stocks. This may affect the operation and market making activities of the Sub-Fund, and may have an unpredictable impact on the Sub-Fund. Furthermore, such market interventions may have a negative impact on the market sentiment which may in turn affect the performance of the Index and as a result the performance of the Sub-Fund.

Cost of trading Units risk

As investors will pay certain charges (e.g. trading fees and brokerage fees) to buy or sell Units on the SEHK, investors may pay more than the Net Asset Value per Unit when buying Units on the SEHK, and may receive less than the Net Asset Value per Unit when selling Units on the SEHK.

In addition, investors on the secondary market will also incur the cost of the trading spread, being the difference between what investors are willing to pay for the Units (bid price) and the price at which they are willing to sell Units (ask price). Frequent trading may detract significantly from investment results and an investment in Units may not be advisable particularly for investors who anticipate making small investments regularly.

No right to control the Sub-Fund's operation risk

Investors will have no right to control the daily operations, including investment and redemption decisions, of the Sub-Fund.

Secondary market trading risk

Units may trade on the SEHK when the Sub-Fund does not accept orders to subscribe or redeem Units. On such days, Units may trade in the secondary market with more significant premiums or discounts than might be experienced on days when the Sub-Fund accepts subscription and redemption orders.

Reliance on the Manager risk

Unitholders must rely upon the Manager in formulating the investment strategies and the performance of the Sub-Fund is largely dependent on the services and skills of its officers and employees as well as the utilisation of its RQFII quota. In the case of loss of service of the Manager or any of its key personnel, as well as any significant interruption of the Manager's business operations or in the extreme case of the insolvency of the Manager, the Trustee may not find successor managers with the requisite skills, qualifications and RQFII quota quickly (or at all) and the new appointment may not be on equivalent terms or of similar quality.

New manager and reliance on the Investment Adviser risk

It should be noted that whilst the Manager's group (in particular the Investment Adviser) has significant exchange traded fund experience in the PRC, the Manager has no or limited experience of managing exchange traded funds. It will make use of the Investment Adviser's expertise and systems to support the Sub-Fund's investments in the A-Share market. Any disruption in the communication with or assistance from the Investment Adviser may adversely affect the operations of the Sub-Fund.

Reliance on Market Makers risk

Although it is the Manager's expectation that at least one Market Maker will maintain a market for the Units and at least one Market Maker gives not less than 3 months prior notice before termination of market making under the market maker agreement, liquidity in the market for the Units may be adversely affected if there is no Market Maker for the Sub-Fund. There may be less interest by potential Market Makers in making a market in Units denominated in RMB. Further, any disruption to the availability of RMB may adversely affect the capability of Market

Makers in providing liquidity for the Units. It is possible that there is only one SEHK Market Maker to the Sub-Fund or the Manager may not be able to engage a substitute Market Maker within the termination notice period of a Market Maker, and there is also no guarantee that any market making activity will be effective.

Reliance on Participating Dealers risk

The creation and redemption of Units may only be effected through Participating Dealers. A Participating Dealer may charge a fee for providing this service. Participating Dealers will not be able to create or redeem Units during any period when, amongst other things, dealings on the SEHK are restricted or suspended, settlement or clearing of Securities through the CCASS is disrupted or the Index is not compiled or published. In addition, Participating Dealers will not be able to issue or redeem Units if some other event occurs that impedes the calculation of the Net Asset Value of the Sub-Fund or disposal of the Sub-Fund's Securities cannot be effected. Since the number of Participating Dealers at any given time will be limited, and there may even be only one Participating Dealer at any given time, there is a risk that investors may not always be able to create or redeem Units freely.

Risks associated with the Index

Fluctuations risk

The performance of the Units should, before fees and expenses, correspond closely with the performance of the Index. If the Index experiences volatility or declines, the price of the Units will vary or decline accordingly.

Licence to use Index may be terminated risk

The Manager is granted a licence by the Index Provider to use the Index to create the Sub-Fund based on the Index and to use certain trade marks and any copyright in the Index. The Sub-Fund may not be able to fulfil its objective and may be terminated if the licence agreement is terminated. The initial term of the licence agreement is 3 years and is thereafter renewable every 2 years. Although the licence agreement was renewed for 2 years after the initial 3 years term expired, there can be no guarantee that the licence agreement will be perpetually renewed. For further information on the grounds for terminating the licence agreement, please refer to the section on "Index Licence Agreement". The Sub-Fund may also be terminated if the Index ceases to be compiled or published and there is no replacement Index using the same or substantially similar formula for the method of calculation as used in calculating the Index.

Compilation of Index risk

The Securities of the Index are determined and composed by the Index Provider without regard to the performance of the Sub-Fund. The Sub-Fund is not sponsored, endorsed, sold or promoted by the Index Provider. The Index Provider makes no representation or warranty, express or implied, to investors in the Sub-Fund or other persons regarding the advisability of investing in Securities generally or in the Sub-Fund particularly. The Index Provider has no obligation to take the needs of the Manager or investors in the Sub-Fund into consideration in determining, composing or calculating the Index. There is no assurance that the Index Provider will compile the Index accurately, or that the Index will be determined, composed or calculated accurately. In addition, the process and the basis of computing and compiling the Index and any of its related formulae, constituent companies and factors may at any time be changed or altered by the Index Provider without notice. Consequently there can be no guarantee that the actions of the Index Provider will not prejudice the interests of the Sub-Fund, the Manager or investors.

Composition of the Index may change risk

The Securities constituting the Index will change as the Securities of the Index are delisted, or as the Securities mature or are redeemed or as new Securities are included in the Index. When this happens the weightings or composition of the Securities owned by the Sub-Fund will change as considered appropriate by the Manager to achieve the investment objective. Thus, an investment in

Units will generally reflect the Index as its constituents change and not necessarily the way it is comprised at the time of an investment in Units. However, there can be no guarantee that the Sub-Fund will, at any given time accurately reflect the composition of the Index (refer to the section on “Tracking Error Risk”).

Risks associated with regulation

Withdrawal of SFC authorisation risk

The Trust and the Sub-Fund have been authorised as a collective investment scheme under the Code by the SFC under Section 104 of the SFO. SFC authorisation is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. This does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors. The SFC reserves the right to withdraw the authorisation of the Trust or the Sub-Fund or impose such conditions as it considers appropriate. If the Manager does not wish the Trust or the Sub-Fund to continue to be authorised by the SFC, the Manager will give Unitholders at least three months’ notice of the intention to seek SFC’s withdrawal of such authorisation. In addition, any authorisation granted by the SFC may be subject to certain conditions which may be withdrawn or varied by the SFC. If, as a result of such withdrawal or variation of conditions, it becomes illegal, impractical or inadvisable to continue the Trust or the Sub-Fund, the Trust or the Sub-Fund (as applicable) will be terminated.

General legal and regulatory risk

The Sub-Fund must comply with regulatory constraints or changes in the laws affecting it or its investment restrictions which might require a change in the investment policy and objectives followed by the Sub-Fund. Furthermore, such change in the laws may have an impact on the market sentiment which may in turn affect the performance of the Index and as a result, the performance of the Sub-Fund. It is impossible to predict whether such an impact caused by any change of law will be positive or negative for the Sub-Fund. In the worst case scenario, a Unitholder may lose a material part of its investments in the Sub-Fund.

Units may be delisted from the SEHK risk

The SEHK imposes certain requirements for the continued listing of securities, including the Units, on the SEHK. Investors cannot be assured that the Sub-Fund will continue to meet the requirements necessary to maintain the listing of Units on the SEHK or that the SEHK will not change the listing requirements. If the Units of the Sub-Fund are delisted from the SEHK, Unitholders will have the option to redeem their Units by reference to the Net Asset Value of the Sub-Fund. Where the Sub-Fund remains authorised by the SFC, such procedures required by the Code will be observed by the Manager including as to notices to Unitholders, withdrawal of authorisation and termination, as may be applicable. Should the SFC withdraw authorisation of the Sub-Fund for any reason it is likely that Units may also have to be delisted.

Taxation risk

Investing in the Sub-Fund may have tax implications for a Unitholder depending on the particular circumstances of each Unitholder. Prospective investors are strongly urged to consult their own tax advisers and counsel with respect to the possible tax consequences to them of an investment in the Units. Such tax consequences may differ in respect of different investors.

Valuation and accounting risk

The Manager intends to adopt IFRS in drawing up the annual accounts of the Sub-Fund. However, the calculation of the Net Asset Value in the manner described under the section on “Determination of Net Asset Value” will not necessarily be in compliance with generally accepted accounting principles, that is, IFRS. Under IFRS (i) investments should be valued at fair value (bid and offer pricings are considered to be representative of fair value for listed investments) rather than last traded price; and (ii) establishment costs should be expensed as incurred rather than amortised over a period of time. Accordingly, the Net Asset Value as described in this Prospectus will not

necessarily be the same as the net asset value to be reported in the annual accounts as the Manager will make necessary adjustments in the annual accounts to comply with IFRS (although the Manager does not consider the differences between IFRS and the calculation of Net Asset Value are material). Any such adjustments will be disclosed in the annual accounts, including a reconciliation. Otherwise, non-compliance with IFRS may result in the auditors issuing a qualified or an adverse opinion on the annual accounts depending on the nature and level of materiality of the non-compliance.

Contagion across sub-funds risk

The Trust Deed allows the Trustee and the Manager to issue Units in separate sub-funds. The Trust Deed provides for the manner in which the liabilities are to be attributed across the various sub-funds under the Trust, including the Sub-Fund (liabilities are to be attributed to the specific sub-fund in respect of which the liability was incurred). A person to whom such a liability is owed has no direct recourse against the assets of the relevant sub-fund (in the absence of the Trustee granting that person a security interest). However, the Trustee will have a right of reimbursement and indemnity out of the assets of the Trust as a whole or any part thereof, against any action, costs, claims, damages, expenses or demands relating to the Trust as a whole, which may result in Unitholders of one sub-fund being compelled to bear the liabilities incurred in respect of other sub-funds in which such Unitholders do not themselves own units, if there are insufficient assets in that other sub-fund to satisfy the amount due to the Trustee. Accordingly, there is a risk that liabilities of one sub-fund may not be limited to that particular sub-fund and may be required to be paid out of one or more other sub-funds.

Non-recognition of sub-fund segregation risk

The assets and liabilities of each sub-fund (including the Sub-Fund) under the Trust will be tracked, for book keeping purposes, separately from the assets and liabilities of any other sub-funds, and the Trust Deed provides that the assets of each sub-fund should be segregated from each other. There is no guarantee that the courts of any jurisdiction outside Hong Kong will respect the limitations on liability and that the assets of any particular sub-fund will not be used to satisfy the liabilities of any other sub-fund.

MANAGEMENT OF THE TRUST

The Manager

The Manager of the Trust is China Asset Management (Hong Kong) Limited, which is a fully-owned subsidiary of China Asset Management Co., Ltd. ("ChinaAMC"). Established on 9 April 1998 with approval from the CSRC, ChinaAMC is one of the first nation-wide fund management firms in the PRC and is currently the largest fund management company in the PRC in terms of assets under management (US\$41.07 billion as of 31 March 2012).

The Manager was established in September 2008 as ChinaAMC's first venture in expanding its overseas activities. The Manager is now an integral part and extension of ChinaAMC's overseas investment and research team, providing international clients with investment products and discretionary investment management services.

In accordance with Section 116 of the SFO, the Manager is licensed to conduct types 1, 4 and 9 regulated activities as defined in Schedule 5 of the SFO. These regulated activities consist of dealing in securities, advising on securities and asset management.

Under the Trust Deed, the monies forming part of the Sub-Fund are invested, at the direction of the Manager, in accordance with the Trust Deed. The Manager is responsible for placing purchase and sale orders and providing continuous supervision of the investment portfolio of the Trust.

Without limiting the other powers mentioned in this Prospectus, the Manager may purchase and sell investments for the account of the Sub-Fund and subject to the provisions of the Trust Deed and enter into such contracts including sale and purchase agreements, loans and broker and trading agreements in accordance with the Trust Deed, as it deems appropriate in the performance of its role as Manager.

The Directors of the Manager

The Directors of the Manager are:

Dr. FAN Yonghong is currently the Vice Chairman of ChinaAMC. Prior to joining ChinaAMC, Dr. Fan worked as the Assistant President and Chief Director of Northern-China Region of China Securities and the General Manager of Sales Department of China Securities from January 1993 to April 1998. He also worked as an officer in the Head Office of China Construction Bank from July 1988 to January 1993. Dr. Fan holds a Doctorate in Economics from the Research Institute for Fiscal Science (the Ministry of Finance, the PRC).

Mr. WANG Dongming is the Chairman of ChinaAMC. He currently also serves as Assistant General Manager and Director of CITIC Group, and Chairman of the Board of CITIC Securities Co. Ltd. and CITIC Fund Management Co Ltd. Mr. Wang is also a director of CITIC Capital Holdings Ltd, CITIC International Financial Holdings, CITIC Holdings Ltd. and CITIC Securities International. Mr. Wang received a Master's degree from Georgetown University, United States.

Mr. TENG Tianming is currently the Chief Executive Officer of ChinaAMC. Mr. Teng holds a Master's degree in Science from Tsinghua University, PRC.

Mr. CHENG Haiyong is currently a Director of the Manager, the Chief Investment Officer of ChinaAMC and a member of its Investment Decision Committee. He joined ChinaAMC in 2004 after serving with Invesco Great Wall Fund Management Co., Ltd. from July 2003 to March 2004, Baoying Fund Management Co., Ltd. from December 2000 to June 2003 and J&A Securities from July 1997 to September 1998. Mr. Cheng graduated from Peking University, PRC in 1997 with a Bachelor's degree in Economics.

Mr. ZHOU Quan is currently a Director of the Manager. He is also the Head of International Investment Department of ChinaAMC. Mr. Zhou joined ChinaAMC in 2000 as a research assistant, and then worked as the head of Trading Department from 2002 to 2005. Mr. Zhou worked as an equity research analyst from 2006 and 2007, responsible for offshore PRC Stock investments. Mr.

Zhou holds a Master degree of Finance from Graduate School of People's Bank of China and a Bachelor degree of Economics from Huazhong University of Science and Technology, PRC.

The Investment Adviser

The Manager has appointed China Asset Management Co., Ltd. (the "Investment Adviser") as its Investment Adviser. The Investment Adviser will advise the Manager with regard to the investments of the Sub-Fund and will not exercise investment discretion in respect of the investments of the Sub-Fund.

The Investment Adviser is the parent company of the Manager and was established on 9 April 1998 with approval from the CSRC. The Investment Adviser is one of the first nation-wide fund management firms in the PRC and is currently the largest fund management company in the PRC in terms of assets under management (US\$41.07 billion as of 31 March 2012). The Investment Adviser's advisory fees will be reimbursed out of the Manager's management fee.

The Manager has in place the necessary operating systems for a smooth and efficient cross border money-flow, creation/redemption and operation. The Manager will use of the Investment Adviser's expertise and systems to support the Sub-Fund's investments in the PRC A-Share market.

In order to successfully launch the Sub-Fund, the Investment Adviser's group has helped the Manager to establish a comprehensive IT platform that uses advanced automated systems to ensure that the Sub-Fund operates in an efficient and stable manner.

The Investment Adviser will provide investment advice to the Manager for the Sub-Fund. They will assist the Manager in producing the portfolio composition file.

The Trustee

The Trustee of the Trust is Cititrust Limited, which is a registered trust company in Hong Kong. Cititrust Limited is a wholly-owned subsidiary of Citigroup Inc. ("Citigroup"). As a global financial services group, Citigroup and its subsidiaries provide a broad range of financial products and services, including consumer banking, corporate and investment banking, securities brokerage and wealth management to consumers, corporations, governments and institutions.

Under the Trust Deed, the Trustee is responsible for the safe-keeping of the assets of the Trust and the Sub-Fund, subject to the provisions of the Trust Deed.

The Trustee may from time to time appoint such person or persons as it thinks fit (including, without limitation, any of its Connected Persons) to hold as custodian, nominee or agent, all or any of the investments, assets or other property comprised in the Trust Fund or any of the sub-funds and may empower any such custodian, nominee or agent to appoint, with the prior consent in writing of the Trustee, co-custodians and/or sub-custodians (each such custodian, nominee, agent, co-custodian and sub-custodian a "custodian"). The Trustee is required to (a) exercise reasonable care and diligence in the selection, appointment and monitoring of such custodians and (b) be satisfied that such custodians retained remain suitably qualified and competent to provide the relevant custodial services to the Sub-Fund. The Trustee shall be responsible for the acts and omissions of any custodian (including the Custodian and the PRC Custodian) which is a Connected Person of the Trustee as if the same were the acts or omissions of the Trustee, but provided that the Trustee has discharged its obligations set out in (a) and (b) as set out in this paragraph, the Trustee shall not be liable for any act, omission, insolvency, liquidation or bankruptcy of any custodian which is not a Connected Person of the Trustee. The Trustee has appointed Citibank, N.A. (which also acts as the Trust's Administrator) as the Custodian of the Sub-Fund. The Custodian has appointed Citibank (China) Co, Limited as the PRC Custodian of the Sub-Fund.

The Trustee shall not be liable for: (i) any act, omission, insolvency, liquidation or bankruptcy of Euro-clear Clearing System Limited or Clearstream Banking S.A. or any other recognised depositary or clearing system which may from time to time be approved by the Trustee and the Manager; or (ii) the custody or control of any investments, assets or other property which is under

the custody or held by or on behalf of a lender in respect of any borrowing made by the Trustee for the purposes of the Trust or any sub-fund.

Subject as provided in the Trust Deed, the Trustee is entitled to be indemnified from the assets of the Trust and/or the Sub-Fund from and against any and all actions, proceedings, liabilities, costs, claims, damages, expenses, including all reasonable legal, professional and other similar expenses (other than those resulting from the fraud, negligence or wilful default on the part of the Trustee or any of its officers, employees, agents or delegates for which the Trustee would be liable under the Trust Deed), which may be incurred by or asserted against the Trustee in performing its obligations or duties in connection with the Trust or the Sub-Fund. Subject to applicable law and the provisions of the Trust Deed, the Trustee shall not, in the absence of fraud, negligence or wilful default by it or any agent, sub-custodian or delegate appointed by the Trustee, be liable for any losses, costs or damage to the Trust, the Sub-Fund or any Unitholder.

The Trustee in no way acts as guarantor or offeror of the Units or any underlying investment. The Trustee has no responsibility or authority to make investment decisions, or render investment advice with respect to the Trust or the Sub-Fund, which is the sole responsibility of the Manager.

The appointment of the Trustee may be terminated in the circumstances set out in the Trust Deed.

The Trustee is entitled to the fees set out below under the section on “Fees and Expenses Payable by the Sub-Fund” and to be reimbursed for all costs and expenses in accordance with the provisions of the Trust Deed.

The Manager has sole responsibility for making investment decisions in relation to the Trust and/or the Sub-Fund and the Trustee (including its delegate) is not responsible and has no liability for any investment decision made by the Manager. Except as expressly stated in this Prospectus and/or required by the Code, neither the Trustee nor any of its employees, service providers or agents are or will be involved in the business affairs, organisation, sponsorship or investment management of the Trust or the Sub-Fund, and they are not responsible for the preparation or issue of this Prospectus other than the description under the section on “The Trustee”.

Since the Sub-Fund invests directly into the PRC’s securities markets pursuant to the RQFII regime, the Trustee has put in place proper arrangements to ensure that:

- (a) the Trustee takes into its custody or under its control the assets of the Sub-Fund, including onshore PRC assets which will be maintained by the PRC Custodian in electronic form via a securities account with the CSDCC and any assets deposited in a cash account with the PRC Custodian (“Onshore PRC Assets”), and holds the same in trust for the relevant Unitholders;
- (b) cash and registrable assets of the Sub-Fund, including Onshore PRC Assets, are registered in the name of or to the order of the Trustee; and
- (c) the PRC Custodian will look to the Trustee for instructions and solely act in accordance with the Trustee’s instructions as provided under the PRC RQFII Agreement.

The Custodian

The Trustee has appointed Citibank, N.A. (which also acts as the Administrator) as the Custodian of the Sub-Fund.

The Custodian has been a provider of custodial and settlement services to domestic and international clients since its establishment in the United States of America in 1814. The Custodian’s global custodial network covers all mature and major emerging markets. The Custodian began offering securities services in Hong Kong in the mid-1970’s and developed a full-blown capability by the mid 1980s.

The PRC Custodian

Citibank (China) Co, Limited has been appointed by the Custodian to act as PRC Custodian

responsible for the safe custody of the assets managed by the Manager within the PRC under the RQFII scheme in accordance with the PRC Custody Agreement and the PRC RQFII Agreement.

The PRC Custodian is not responsible for the preparation of this Prospectus and accepts no responsibility for the information contained here other than the description under the section “The PRC Custodian”.

The Registrar

Computershare Hong Kong Investor Services Limited acts as the registrar of the Sub-Fund under the terms of the Trust Deed. The registrar provides services in respect of the establishment and maintenance of the Register of the Unitholders of the Sub-Fund.

The Service Agent

HK Conversion Agency Services Limited acts as Service Agent under the terms of the Service Agreement entered into among the Manager, the Trustee, the Registrar, the Participating Dealer, the Service Agent and HKSCC. The Service Agent performs, through HKSCC, certain of its services in connection with the creation and redemption of Units in the Sub-Fund by Participating Dealers.

The Auditor

The Manager has appointed Ernst & Young to act as the auditor of the Trust and the Sub-Fund (the “Auditor”). The Auditor is independent of the Manager and the Trustee.

The Participating Dealer

A Participating Dealer may act for its own account or for your account as its clients in making cash Creation Applications and cash Redemption Applications. The latest list of the Participating Dealers is available at <http://etf.chinaamc.com.hk/HKen/CSI300>.

The Market Maker

A Market Maker is a broker or dealer permitted by the SEHK to make a market for the Units in the secondary market and whose obligations include quoting bid prices to potential sellers and offer prices to potential buyers when there is a wide spread between the prevailing bid prices and offer prices for the Units on the SEHK. Market Makers facilitate the efficient trading of Units by providing liquidity in the secondary market when it is required, in accordance with the market making requirements of the SEHK.

Subject to applicable regulatory requirements, the Manager intends to ensure that there is at least one Market Maker for the Sub-Fund on the listing date on the SEHK. If the SEHK withdraws its permit to the existing Market Maker(s), the Manager will endeavour to ensure that there is at least one other Market Maker to facilitate the efficient trading of Units.

Conflicts of Interest and Soft Dollars

The Manager and the Trustee may, from time to time, act as manager, sub-investment manager, investment adviser, trustee or custodian or in such other capacity in connection with any collective investment scheme separate and distinct from the Trust and the Sub-Fund and retain any profit or benefit made in connection therewith.

In addition:

- (a) The Manager or any of its Connected Persons may purchase and sell investments for the account of the Sub-Fund as agent for the Trustee.
- (b) The Trustee, the Manager and any of their Connected Persons may contract or enter into any financial, banking or other transaction with one another or with any Unitholder or any

company or body any of whose shares or securities form part of the Sub-Fund's assets.

- (c) The Trustee or the Manager or any of their Connected Persons may become the owner of Units and hold, dispose or otherwise deal with them with the same rights which it would have had if it had not been the Trustee or the Manager or any of their Connected Persons.
- (d) The Trustee, the Manager and any of their Connected Persons may buy, hold and deal in any securities, commodities or other property for their own account or for the account of their other customers notwithstanding that similar securities, commodities or other property may be held by the Sub-Fund.
- (e) Any arrangements for the borrowing or deposit of any monies for the account of the Sub-Fund may be made with any of the Trustee, the Manager, any investment adviser or any of their Connected Persons being a banker or other financial institution provided that such person shall charge or pay (as the case may be) interest or fees at a rate or amount no higher (in the case of a borrowing) or lower (in the case of a deposit) than the prevailing rates or amounts for transactions of a similar size and duration, in the same currency and with institutions of similar standing.
- (f) Neither the Trustee nor the Manager nor any of their Connected Persons shall be liable to account to each other or to the Sub-Fund or to the Unitholders for any profits or benefits made or derived from or in connection with any such transaction mentioned above.

It is, therefore, possible that any of the Trustee, the Manager or any of their Connected Persons may, in the course of business, have potential conflicts of interest with the Sub-Fund. Each will, at all times, have regard in such event to its obligations to the Sub-Fund and the Unitholders and will endeavour to ensure that such conflicts are resolved fairly.

Subject to applicable rules and regulations, the Manager, its delegate or any of its Connected Persons may enter into portfolio transactions for or with the Sub-Fund as agent in accordance with normal market practice, provided that commissions charged to the Sub-Fund in these circumstances do not exceed customary full service brokerage rates. If a broker does not provide research or other lawful services in addition to brokerage execution, such broker will generally charge a brokerage commission that is discounted from customary full service brokerage rates. Where the Manager invests the Sub-Fund in shares or units of a collective investment scheme managed by the Manager, its delegates or any of its Connected Persons, the manager of the scheme in which the investment is being made by the Sub-Fund must waive any preliminary or initial charge which it is entitled to charge for its own account in relation to the acquisition of shares or units and there must be no increase in the overall total of annual management fees (or other costs and charges payable to the Manager or any of its Connected Persons) borne by the Sub-Fund.

None of the Manager, its delegates or any of its Connected Persons shall retain any cash commission rebates or other payment or benefit (except as otherwise provided for in this Prospectus or in the Trust Deed) received from a third party (either directly or indirectly) arising out of the sale or purchase or loan of investments for the Sub-Fund, and any such rebates or payments or benefits which are received shall be credited to the account of the Sub-Fund.

The Manager, its delegates or any of its Connected Persons may receive, and are entitled to retain, research products and services (known as soft dollar benefits) which are of demonstrable benefit to the Sub-Fund (as may be permitted under the Code, applicable rules and regulations) from brokers and other persons through whom investment transactions are carried out ("brokers") provided that the quality of transaction execution is consistent with best execution standards.

The services of the Trustee provided to the Trust and the Sub-Fund are not deemed to be exclusive and the Trustee shall be free to render similar services to others so long as its services hereunder are not impaired thereby and to retain for its own use and benefit all fees and other monies payable thereby and the Trustee shall not be deemed to be affected with notice of or to be under any duty to disclose to the Sub-Fund any fact or thing which comes to the notice of the Trustee in the course of the Trustee rendering similar services to others or in the course of its business in any other capacity

or in any manner whatsoever otherwise than in the course of carrying out its duties under the Trust Deed.

Conflicts of interest may also arise due to the widespread business operations of the Trustee, the Manager, the Registrar and the Service Agent and their respective holding companies, subsidiaries and affiliates. The foregoing parties may effect transactions where those conflicts arise and shall not, subject to the terms of the Trust Deed, be liable to account for any profit, commission or other remuneration arising. However, all transactions carried out by or on behalf of the Sub-Fund will be on arm's length terms. For so long as the Sub-Fund is authorised by the SFC and it is an applicable requirement of the Code, the Manager, if transacting with brokers or dealers connected to the Manager, investment advisers or any of their respective Connected Persons, must ensure it complies with the following obligations:

- (a) such transactions should be on arm's length terms;
- (b) it must use due care in the selection of brokers or dealers and ensure that they are suitably qualified in the circumstances;
- (c) transaction execution must be consistent with applicable best execution standards;
- (d) the fee or commission paid to any such broker or dealer in respect of a transaction must not be greater than that which is payable at the prevailing market rate for a transaction of that size and nature;
- (e) the Manager must monitor such transactions to ensure compliance with its obligations; and
- (f) the nature of such transactions and the total commissions and other quantifiable benefits received by such broker or dealer shall be disclosed in the annual report of the Sub-Fund.

STATUTORY AND GENERAL INFORMATION

Reports and Accounts

The financial year-end of the Trust and the Sub-Fund is 31 December every year, commencing December 2012. Audited accounts are to be prepared (according to IFRS) and published on the Manager's website within 4 months of each financial year-end. Half-yearly unaudited reports are also to be prepared up to the last Dealing Day in June of each year and published on the Manager's website within 2 months of such date. Once these reports are made available on the Manager's website, investors will be notified within the relevant timeframe.

The first audited accounts and the first half-yearly unaudited reports will be for the year end December 2012 and half year June 2013 respectively.

The audited accounts and the half-yearly unaudited reports of the Sub-Fund will be available in the English language only. Printed copies may be requested free of charge from the Manager by contacting it, as described below under "Notices".

The reports provide details of the assets of the Sub-Fund and the Manager's statement on transactions during the period under review (including a list of any constituent Securities of the Index, if any, that each accounts for more than 10% of the weighting of the Index as at the end of the relevant period and their respective weighting showing any limits adopted by the Sub-Fund have been complied with). The reports shall also provide a comparison of the Sub-Fund's performance and the actual Index performance over the relevant period and such other information as is required under the Code.

Trust Deed

The Trust and the Sub-Fund were established under Hong Kong law by the Trust Deed made between the Manager and the Trustee. All Unitholders are entitled to the benefit of, are bound by and are deemed to have notice of, the provisions of the Trust Deed. The Trust Deed contains provisions for the indemnification of the Trustee and the Manager out of the assets of the Trust Fund and their relief from liability in certain circumstances (summarised below in "Indemnities of the Trustee and Manager"). Unitholders and intending applicants are advised to consult the terms of the Trust Deed.

Indemnities of the Trustee and Manager

The Trustee and the Manager benefit from various indemnities in the Trust Deed. Except as provided under the Trust Deed, the Trustee and the Manager shall be entitled to be indemnified out of, and have recourse to, the Trust Fund in respect of any action, costs, claims, damages, expenses or demands arising directly or indirectly from the proper performance of the Sub-Fund. Nothing in the Trust Deed may provide that either the Trustee or the Manager (as the case may be) shall be exempted from or enjoy any indemnity against any liability for breach of trust or any liability which by virtue of any rule of Hong Kong law would arise in respect of any negligence, fraud, default, breach of duty or trust of which either may be liable in relation to its duties.

Modification of Trust Deed

The Trustee and the Manager may agree to modify, alter or add to the provisions of the Trust Deed by supplemental deed provided that in the opinion of the Trustee and the Manager such modification, alteration or addition (i) does not materially prejudice the interests of Unitholders, does not operate to release to any material extent the Trustee or the Manager or any other person from any responsibility to the Unitholders and (with the exception of the costs incurred in connection with the relevant supplemental deed) does not increase the costs and charges payable out of the assets of the Sub-Fund or (ii) is necessary in order to make possible compliance with any fiscal, statutory or official requirement (whether or not having the force of law) or (iii) is made to correct a manifest error. In all other cases, modifications, alterations and additions require the sanction of an extraordinary resolution of the Unitholders affected. The SFC must also give its prior approval to all amendments to the Trust Deed.

The Manager will notify affected Unitholders of the amendments as soon as practicable after they are made if such notification is required under the Code.

Name of the Trust and Sub-Fund

Under the Trust Deed the Manager may, on notice to the Trustee, change the name of the Trust and the Sub-Fund, subject to the prior written approval of the SFC.

Meetings of Unitholders

Proxies may be appointed. A Unitholder who is the holder of two or more Units may appoint more than one proxy to represent him and vote on his behalf at any meeting of the Unitholders. If a clearing house (or its nominee(s)), being a corporation, is a Unitholder, it may authorise such persons as it think fit to act as its representatives at any meeting of the Unitholders provided that, if more than one person is so authorised, the authorisation shall specify the number and class of Units in respect of which each such representative is so authorised. Each person so authorised shall be deemed to have been duly authorised without further evidence of the facts and shall be entitled to exercise the same rights and powers on behalf of the clearing house (or its nominee(s)) as if such person were the registered Unitholder of the Units held by the clearing house (or its nominee(s)), including the right to vote individually on a show of hands or on a poll.

Voting Rights

Unitholders' meetings may be convened by the Manager, by the Trustee or by Unitholders representing at least 10% of the Units in issue, on not less than 21 days' notice.

These meetings may be used to modify the terms of the Trust Deed, including increasing the maximum fees payable to the service providers, removing the Manager or terminating the Sub-Fund at any time. Such amendments to the Trust Deed must be considered by Unitholders of at least 25% of the Units in issue and passed by a 75% majority of the votes cast.

Other matters that require an ordinary resolution being passed would be considered by Unitholders of at least 10% of the Units in issue and passed by a simple majority of 50% of the votes cast.

The Trust Deed contains provisions for the holding of separate meetings of Unitholders holding Units of different classes where only the interests of Unitholders of such class are affected.

Termination

The Trust may be terminated by the Trustee if: (i) the Manager goes into liquidation or a receiver is appointed and not discharged within 60 days or (ii) in the opinion of the Trustee, the Manager is incapable of performing its duties satisfactorily or (iii) the Manager has failed to perform its duties satisfactorily or has, in the opinion of the Trustee, done something calculated to bring the Trust into disrepute or that is harmful to the interests of Unitholders or (iv) a law is passed that renders it illegal, or in the opinion of the Trustee, impracticable or inadvisable to continue the Trust or (v) the Trustee is unable to find an acceptable person to replace the Manager within 30 days after the removal of the Manager, or the person nominated shall fail to be approved by Extraordinary Resolution or (vi) 30 days after the Trustee notifies the Manager of its intention to retire, no new person willing to act as trustee has been identified.

The Manager may terminate the Trust if: (i) after one year from the date of the Trust Deed, the aggregate Net Asset Value of all the Units in each Sub-Fund is less than RMB150 million; (ii) any law or regulation is passed or amended or any regulatory directive or order is imposed that affects the Trust and which renders the Trust illegal or in the good faith opinion of the Manager, makes it impracticable or inadvisable to continue the Trust; or (iii) within a reasonable time and using commercially reasonable endeavours, the Manager is unable to find a person acceptable to act as the new trustee after deciding to remove the Trustee in accordance with the Trust Deed.

The Manager may, in its absolute discretion, by notice in writing to the Trustee, terminate the Sub-Fund if: (i) after one year from the date of establishment of the Sub-Fund, the aggregate Net

Asset Value of all the Units in the Sub-Fund is less than RMB150 million; (ii) any law or regulation is passed or amended or any regulatory directive or order is imposed that affects the Sub-Fund and which renders the Sub-Fund illegal or in the good faith opinion of the Manager makes it impracticable or inadvisable to continue the Sub-Fund; (iii) its Index is no longer available for benchmarking or if the Units of the Sub-Fund are no longer listed on the SEHK or any such other stock exchange from time to time determined by the Manager; (iv) at any time, the Sub-Fund ceases to have any Participating Dealer; or (v) the Manager is unable to implement its investment strategy. Further, the Unitholders may at any time authorise termination of the Trust or the Sub-Fund by extraordinary resolution.

The Trustee may, in its absolute discretion, by notice in writing to the Manager, terminate the Sub-Fund if: (i) the Trustee forms the opinion for good and sufficient reason that the Manager is incapable of performing its duties satisfactorily in respect of the Sub-Fund; (ii) the Trustee forms the opinion for good and sufficient reason that the Manager has failed to perform its duties satisfactorily in respect of the Sub-Fund or has done something calculated to bring the Sub-Fund into disrepute or that is harmful to the interests of Unitholders of the Sub-Fund; or (iii) any law or regulation is passed or amended or any regulatory directive or order is imposed that affects the Sub-Fund and which renders the Sub-Fund illegal or in the good faith opinion of the Trustee makes it impracticable or inadvisable to continue the Sub-Fund.

Unless previously terminated as described above or under another provision in the Trust Deed, the Trust shall in any event terminate at the expiry of 80 years from the date of the Trust Deed.

Notice of the termination of the Trust or the Sub-Fund will be given to the Unitholders after the SFC has approved the notice. The notice will contain the reasons for the termination, the consequences to Unitholders of terminating the Trust or the Sub-Fund and the alternatives available to them, and any other information required by the Code.

Distribution Policy

The Manager intends to distribute income to Unitholders at least annually (usually in July) having regard to the Sub-Fund's net income after fees and costs. Distribution payment rates in respect of Units will depend on factors beyond the control of the Manager or Trustee including, general economic conditions, and the financial position and dividend or distribution policies of the relevant underlying entities. There can be no assurance that such entities will declare or pay dividends or distributions.

Inspection of Documents

Copies of the following documents are available for inspection free of charge at the offices of the Manager and copies thereof (other than (f)) may be purchased from the Manager at a reasonable price:

- (a) Trust Deed;
- (b) Registrar Agreement
- (c) PRC Custody Agreement;
- (d) Service Agreement;
- (e) Participation Agreement(s); and
- (f) The most recent annual report and accounts of the Trust and the Sub-Fund (if any) and the most recent interim report of the Trust and the Sub-Fund (if any).

Part XV of the SFO

Part XV of the SFO sets out the Hong Kong disclosure of interests' regime applicable to Hong Kong listed companies. The regime does not apply to unit trusts that are listed on the SEHK like the Trust.

Consequently, Unitholders are not obliged to disclose their interest in the Sub-Fund.

Anti-Money Laundering Regulations

As part of the Manager's, the Trustee's and the Participating Dealer's responsibility for the prevention of money laundering and to comply with all applicable laws to which the Manager, the Trustee, the Sub-Fund or the relevant Participating Dealer is subject, the Manager, the Registrar, the Trustee or the relevant Participating Dealer may require a detailed verification of an investor's identity and the source of payment of any applications for Units. Depending on the circumstances of each application, a detailed verification might not be required where:

- (a) the investor makes the payment from an account held in the investor's name at a recognised financial institution; or
- (b) the application is made through a recognised intermediary.

These exceptions apply only if the financial institution or intermediary is within a country recognised by the Trustee and the Manager as having sufficient anti-money laundering regulations.

Index Licence Agreement

The Manager has entered into a license agreement with China Securities Index Co., Ltd. The term of the licence agreement commenced on 22 May 2012 and should remain in full force and effect for 3 years. The licence agreement should renew automatically for 2 year terms, subject to the terms of the licence agreement.

Material Changes to the Index

The SFC should be consulted on any events that may affect the acceptability of the Index. Significant events relating to the Index will be notified to the Unitholders as soon as practicable. These may include a change in the methodology/rules for compiling or calculating the Index, or a change in the objective or characteristics of the Index.

Replacement of Index

The Manager reserves the right, with the prior approval of the SFC and provided that in its opinion the interests of the Unitholders would not be adversely affected, to replace the Index with another index in accordance with the provisions of the index licence agreement. The circumstances under which any such replacement might occur include but are not limited to the following events:

- (a) the Index ceasing to exist;
- (b) the licence to use the Index being terminated;
- (c) a new index becoming available that supersedes the existing Index;
- (d) a new index becoming available that is regarded as the market standard for investors in the particular market and/or would be regarded as more beneficial to the Unitholders than the existing Index;
- (e) investing in the Securities comprised within the Index becomes difficult;
- (f) the Index Provider increasing its licence fees to a level considered too high by the Manager;
- (g) the quality (including accuracy and availability of the data) of the Index having in the opinion of the Manager, deteriorated;
- (h) a significant modification of the formula or calculation method of the Index rendering that index unacceptable in the opinion of the Manager; and

- (i) the instruments and techniques used for efficient portfolio management not being available.

The Manager may change the name of the Sub-Fund if the Index changes or for any other reasons including if licence to use the Index is terminated. Any change to (i) the use by the Sub-Fund of the Index and/or (ii) the name of the Sub-Fund will be notified to investors.

Information available on the Internet

The Manager will publish important news and information with respect to the Sub-Fund (including in respect of the Index), both in the English and in the Chinese languages, on the Manager's website at <http://etf.chinaamc.com.hk/HKen/CSI300> including:

- (a) this Prospectus and the product key fact statement in respect of the Sub-Fund (as revised from time to time);
- (b) the latest annual and semi-annual financial reports (in English only);
- (c) any notices for material alterations or additions to this Prospectus or the Sub-Fund's constitutive documents;
- (d) any public announcements made by the Sub-Fund, including information with regard to the Sub-Fund and Index, notices of the suspension of the calculation of the Net Asset Value, changes in fees and the suspension and resumption of trading;
- (e) near real time estimated Net Asset Value per Unit throughout each Dealing Day;
- (f) the last closing Net Asset Value of the Sub-Fund and the Net Asset Value per Unit;
- (g) the composition of the Sub-Fund (updated on a daily basis); and
- (h) the identity of the Participating Dealers and Market Makers.

Real-time updates about the Index can be obtained through other financial data vendors. It is your own responsibility to obtain additional and the latest updated information about the Index (including without limitation, a description of the way in which the Index is calculated, any change in the composition of the Index, any change in the method for compiling and calculating the Index) via the website <http://etf.chinaamc.com.hk/HKen/CSI300> or <http://www.csindex.com.cn>. TAXATION

The following summary of Hong Kong and PRC taxation is of a general nature, for information purposes only, and is not intended to be an exhaustive list of all of the tax considerations that may be relevant to a decision to purchase, own, redeem or otherwise dispose of Units. This summary does not constitute legal or tax advice and does not purport to deal with the tax consequences applicable to all categories of investors. Prospective investors should consult their own professional advisers as to the implications of their subscribing for, purchasing, holding, redeeming or disposing of Units both under the laws and practice of Hong Kong or PRC and the laws and practice of their respective jurisdictions. The information below is based on the law and practice in force in Hong Kong or PRC at the date of this Prospectus. The relevant laws, rules and practice relating to tax are subject to change and amendment (and such changes may be made on a retrospective basis). As such, there can be no guarantee that the summary provided below will continue to be applicable after the date of this Prospectus. Furthermore, tax laws can be subject to different interpretations and no assurance can be given that relevant tax authorities will not take a contrary position to the tax treatments described below.

Hong Kong Taxation

The Trust and Sub-Fund

As the Trust and the Sub-Fund have been authorised as a collective investment scheme by the SFC under Section 104 of the SFO, profits of the Trust and the Sub-Fund arising from the sale or disposal of Securities, net investment income received by or accruing to the Trust and other profits of the Trust are exempt from Hong Kong profits tax.

Under a remission order issued by the Secretary for the Treasury on 20 October 1999, any Hong Kong stamp duty on the transfer of Securities to the Trust by a Participating Dealer by a Creation Application will be remitted or refunded. Similarly, Hong Kong stamp duty on the transfer of Securities by the Trust to a Participating Dealer upon redemption of Units will also be remitted or refunded.

No Hong Kong stamp duty is payable by the Sub-Fund on an issue or redemption of Units.

The Unitholders

Hong Kong profits tax is not payable by a Unitholder (other than Unitholders carrying on a trade, profession or business of investing in Securities in Hong Kong) on any gains or profits made on the sale, redemption or other disposal of the Units and on any distributions made by the Trust. In accordance with the practice of the Inland Revenue Department of Hong Kong (as at the date of this Prospectus) tax should not be payable in Hong Kong in respect of distributions payable to Unitholders.

Approval has been given for remission or refund in full of stamp duty payable or paid in respect of any contract notes or instruments of transfer relating to transactions in Units immediately before the listing of the Units on the SEHK.

Investors pay no Hong Kong ad valorem stamp duty when the Sub-Fund issues or redeems Units.

PRC Taxation

By investing in securities (including A-Shares) issued by PRC tax resident enterprises, irrespective of whether such securities are issued or distributed onshore ("onshore PRC securities") or offshore ("offshore PRC securities", and together with onshore PRC securities, the "PRC Securities"), the Sub-Fund may be subject to PRC taxes.

Corporate Income Tax

Dividend income and interest income – If the Trust or the Sub-Fund is considered as a tax resident enterprise of the PRC, it will be subject to PRC Corporate Income Tax ("CIT") at 25% on its

worldwide taxable income. If the Trust or the Sub-Fund is considered as a non-tax resident enterprise with an establishment or place of business (“PE”) in the PRC, the profits and gains attributable to that PE would be subject to CIT at 25%.

The Manager and the Trustee intend to manage and operate the Trust and the Sub-Fund in such a manner that the Trust and the Sub-Fund should not be treated as tax resident enterprises of the PRC or non-tax resident enterprises with an establishment or place of business in the PRC for CIT purposes, although this cannot be guaranteed.

Unless a specific exemption or reduction is available under current PRC tax laws and regulations or relevant tax treaties, non-tax resident enterprises without PE in the PRC are subject to CIT on a withholding basis (“WIT”), generally at a rate of 10%, to the extent it directly derives the PRC sourced passive income. PRC sourced passive income (such as dividend income or interest income) may arise from investments in the PRC Securities. The entity distributing such dividends is required to withhold such tax. Accordingly, the Trust or the Sub-Fund may be subject to WIT and/or other PRC taxes on any cash dividends, distributions and interest it receives from its investment in PRC Securities. Under the PRC CIT Law, interests derived from government bonds are exempt from PRC WIT.

Under current regulations in the PRC, foreign investors (such as the Trust and the Sub-Fund) may invest in onshore PRC securities, generally, only through a QFII or a RQFII (in this section and for the Sub-Fund referred to as the “relevant RQFII”). Since only the relevant RQFII’s interests in onshore PRC securities are recognised under PRC laws, any tax liability would, if it arises, be payable by the relevant RQFII. However under the terms of the arrangement between the relevant RQFII and the Trust, the relevant RQFII will pass on any tax liability to the Trust for the account of the Sub-Fund. As such, the Trust is the ultimate party which bears the risks relating to any PRC taxes which are so levied by the relevant PRC tax authority. Under current PRC tax laws and regulations, a relevant RQFII is subject to a WIT of 10% on cash dividends, distributions and interest from the PRC securities unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Under the China-HK Arrangements, the tax charged on interests received by the non-resident holders of debt instruments (including enterprises and individuals) will be 7% of the gross amount of the interest, if Hong Kong tax residents are the beneficial owners under the China-HK Arrangements.

As the Sub-Fund seeks to achieve its investment objective by investing through the Manager’s (which is a Hong Kong tax resident) RQFII quota, the interest derived from such investment may be subject to the reduced tax rate of 7% under the China-HK Arrangements. In order to qualify for this preferential rate, approval of the PRC tax authority is required. The Manager will further assess and seek to apply for approval from the PRC tax authorities in relation to the Sub-Fund, although this cannot be guaranteed. If the required approval is not obtained, the general rate of 10% will be applicable to the Sub-Fund on interest.

Also pursuant to the China-HK Arrangements, the tax charged on dividends received by the non-resident holders of shares issued by Chinese resident companies will be 5% of the gross amount of the dividends, if Hong Kong tax residents are the beneficial owners and directly hold at least 25% of the equity of the company paying the dividends. Due to the Sub-Fund’s investment restriction, the Sub-Fund will not hold more than 10% of any ordinary shares issued by any single issuer. In this connection, dividends derived from A-Shares invested through RQFII will not be able to benefit from the reduced tax rate of 5% and the general tax rate of 10% will be applicable to the Sub-Fund.

Capital gains – Specific rules governing taxes on capital gains derived by QFIIs or RQFIIs from the trading of PRC Securities have yet to be announced. It is possible that the relevant tax authorities may in the future clarify the tax position on capital gains realised by the Sub-Fund dealing in PRC Securities or by a relevant QFII from dealing in onshore PRC securities. In the absence of such specific rules, the income tax treatment should be governed by the general tax provisions of the PRC CIT Law. If the foreign investor is a non-tax resident enterprise without PE in the PRC, a 10%

WIT would be imposed on the PRC-sourced capital gains, unless exempt or reduced under current PRC tax laws and regulations or relevant tax treaties.

Under the China-HK Arrangements, capital gains derived by Hong Kong tax residents from alienation of shares issued by Chinese companies may be taxed in China if the recipient, at any time preceding such alienation, had a participation of at least 25% in that Chinese company. The Sub-Fund will invest in A-Shares through the Manager's (which is a public Hong Kong tax resident) RQFII quota. Due to the Sub-Fund's investment restriction, the Sub-Fund will not hold more than 10% of any ordinary shares issued by any single issuer. In that case, the capital gains derived from alienation of A-Shares may only be taxed in Hong Kong as trading income under the laws of Hong Kong.

The above capital gain tax exemption will only apply if approval is obtained from the PRC tax authorities. In this connection, the Manager will further assess and seek to apply with PRC tax authorities to treat the Sub-Fund and/or the Manager as Hong Kong tax resident and be able to enjoy the above capital gain tax exemption under the China-HK Arrangements, although this cannot be guaranteed. If the relevant approval is not obtained, the general rate of 10% will be applicable to the capital gains derived by the Sub-Fund on dealing of A-Shares and bonds issued by PRC resident issuers.

In light of the uncertainty on the income tax treatment on capital gains and in order to meet this potential tax liability for capital gains, the Manager reserves the right to provide for the WIT on such gains or income and withhold the tax for the account of the Sub-Fund. The Manager will at present make a provision of 10% for the account of the Sub-Fund in respect of any potential WIT on capital gains. The Manager will further assess and seek to ascertain the Hong Kong tax resident status of the Sub-Fund for exemption from WIT on capital gains under the China-HK Arrangements and will revisit if a lower or nil provision for the account of the Sub-Fund in respect of any potential WIT on capital gains should be required. The amount of actual provision will be disclosed in the accounts of the Sub-Fund. Investors should note that such provision may be excessive or inadequate to meet actual PRC tax liabilities on investments made by the Sub-Fund. As a result, investors may be advantaged or disadvantaged depending on the final rules of the relevant PRC tax authorities. Upon any future resolution of the above-mentioned uncertainty or further changes to tax law or policies, the Manager will, as soon as practicable, make relevant adjustments to the amount of tax provision as it considers necessary.

Business Tax ("BT") and other surtaxes

The revised PRC Provisional Regulations of Business Tax ("BT Law") which came into effect on 1 January 2009 stipulates that gains derived by taxpayers from the trading of marketable securities would be subject to BT at 5%.

Caishui [2005] 155 states that gains derived by QFII from the trading of Chinese securities are exempt from BT. The new PRC BT law which came into effect on 1 January 2009 has not changed this exemption treatment at the time of this Prospectus. However, it is not clear whether a similar exemption would be extended to RQFIIs. Since both RQFIIs and QFIIs are qualified foreign institutional investors which are allowed to make investments in the PRC domestic capital markets, there should be a basis to apply the exemption treatment of Caishui [2005] 155 on RQFIIs.

However, for marketable securities other than those trading under QFIIs, the new BT law shall apply to levy BT at 5% on the difference between the selling and buying prices of those marketable securities. Where capital gains are derived from trading of offshore PRC securities (e.g. H-shares), BT in general is not imposed as the purchase and disposal are often concluded and completed outside China.

The new BT law has not specifically stated that whether BT would be imposed on interest earned by non-financial institution from bond investments. Nevertheless, based on Guoshuifa [1993] 149 which states that purchase of financial products is not subject to BT, there should be a basis to treat the interest income derived from bonds held to coupon date/maturity as not under the scope of charge of BT.

Dividend income or profit distributions on equity investment derived from China are not included in the taxable scope of BT.

If BT is applicable, there are also other surtaxes (which include Urban Construction and Maintenance Tax, Education Surcharge and Local Education Surcharge) that would amount to as high as 12% of BT payable.

Stamp duty

Stamp duty under the PRC laws generally applies to the execution and receipt of all taxable documents listed in the PRC's Provisional Rules on Stamp Duty. Stamp duty is levied on the execution or receipt in China of certain documents, including contracts for the sale of China A- and B-Shares traded on the PRC stock exchanges. In the case of contracts for sale of China A- and B-Shares, such stamp duty is currently imposed on the seller but not on the purchaser, at the rate of 0.1%.

It should also be noted that the actual applicable tax rates imposed by SAT may be different and may change from time to time. There is a possibility of the rules being changed and taxes being applied retrospectively. As such, any provision for taxation made by the Manager may be excessive or inadequate to meet final PRC tax liabilities. Consequently, Unitholders may be advantaged or disadvantaged depending upon the final tax liabilities, the level of provision and when they subscribed and/or redeemed their Units.

If the actual applicable tax rate levied by SAT is higher than that provided for by the Manager so that there is a shortfall in the tax provision amount, investors should note that the Net Asset Value of the Sub-Fund may suffer more than the tax provision amount as the Sub-Fund will ultimately have to bear the additional tax liabilities. In this case, the then existing and new Unitholders will be disadvantaged. On the other hand, if the actual applicable tax rate levied by SAT is lower than that provided for by the Manager so that there is an excess in the tax provision amount, Unitholders who have redeemed their Units before SAT's ruling, decision or guidance in this respect will be disadvantaged as they would have borne the loss from the Manager's overprovision. In this case, the then existing and new Unitholders may benefit if the difference between the tax provision and the actual taxation liability under that lower tax rate can be returned to the account of the Sub-Fund as assets thereof. Notwithstanding the above provisions, Unitholders who have already redeemed their Units in the Sub-Fund before the return of any overprovision to the account of the Sub-Fund will not be entitled or have any right to claim any part of such overprovision.

Unitholders should seek their own tax advice on their tax position with regard to their investment in the Sub-Fund.

It is possible that the current tax laws, regulations and practice in the PRC will change, including the possibility of taxes being applied retrospectively, and that such changes may result in higher taxation on PRC investments than currently contemplated.

SCHEDULE 1

INVESTMENT RESTRICTIONS, SECURITY LENDING AND BORROWING

Investment Restrictions

If any of the restrictions or limitations set out in this Schedule 1 is breached, the Manager will make it a priority objective to take all necessary steps within a reasonable period to remedy such breach, taking into account the Unitholders' interests.

The Trustee will take reasonable care to ensure compliance with the investment and borrowing limitations set out in the constitutive documents and the conditions under which the Sub-Fund was authorised.

The investment restrictions applicable to the Sub-Fund that are included in the Trust Deed are summarised below:

- (a) not more than 10% of the Net Asset Value of the Sub-Fund may be invested in Securities (other than Government and other public securities) issued by any single issuer (save as permitted by Chapter 8.6(h) and as varied by paragraph 11 of Appendix I (Guidelines for regulating index tracking exchange traded funds) of the Code (see the Note below));
- (b) Securities of a single class (other than Government and other public securities) held for the account of the Sub-Fund, when aggregated with other holdings of the same class of Securities held for the account of all other sub-funds under the Trust collectively may not exceed 10% of the nominal amount of the Securities issued by a single issuer;
- (c) not more than 15% of the Net Asset Value of the Sub-Fund may be invested in Securities which are neither listed, quoted nor dealt in on a stock exchange, over-the-counter market or other organised securities market which is open to the international public and on which such Securities are regularly traded;
- (d) except as permitted by Chapter 8.6(i) of the Code, not more than 30% of the Net Asset Value of the Sub-Fund may be invested in Government and other public securities of the same issue;
- (e) subject to (d) and Chapter 8.6(i) of the Code, the Sub-Fund may be fully invested in Government and other public securities in any number of different issues;
- (f) the Sub-Fund may enter into financial futures contracts for hedging purposes;
- (g) not more than 20% of the Net Asset Value of the Sub-Fund may be invested in (i) futures contracts on an unhedged basis (by reference to the net aggregate value of contract prices, whether payable to or by the Sub-Fund under all outstanding futures contracts) and (ii) physical commodities (including gold, silver, platinum or other bullion) and other commodity-based investments (excluding, for this purpose, Securities of companies engaged in producing, processing or trading in commodities);
- (h) the value of warrants and options held for the account of the Sub-Fund, in terms of the total amount of premium paid (other than for hedging purposes), may not exceed 15% of the Net Asset Value of the Sub-Fund; and
- (i) where the Sub-Fund invests in units or shares of other collective investment schemes ("underlying schemes"),
 - (i) the value of units or shares in underlying schemes which are neither recognised jurisdiction schemes (as determined by the SFC) nor authorised by the SFC, held for the account of the Sub-Fund, may not exceed 10% of the Net Asset Value of the Sub-Fund; and

- (ii) the Sub-Fund may invest in one or more underlying schemes which are either recognised jurisdiction schemes or schemes authorised by the SFC, but the value of the units or shares held for the account of the Sub-Fund in each such underlying scheme may not exceed 30% of the Net Asset Value of the Sub-Fund, unless the underlying scheme is authorised by the SFC and its name and key investment information are disclosed in the offering document of the Sub-Fund,

provided that:

- (1) the objective of each underlying scheme may not be to invest primarily in any investment prohibited by the investment restrictions set out herein, and where that underlying scheme's objective is to invest primarily in investments restricted by the provisions under the Trust Deed, such holdings may not be in contravention of the relevant limitation;
- (2) where an investment is made in any underlying scheme(s) managed by the Manager or any of its Connected Persons, all initial charges on the underlying scheme(s) must be waived; and
- (3) the Manager may not obtain a rebate on any fees or charges levied by an underlying scheme or the management company of an underlying scheme,

save to the extent that any of the above holdings is permitted under the Code.

The Sub-Fund shall not:

- (a) invest in a Security of any class in any company or body if any director or officer of the Manager individually owns more than 0.5% of the total nominal amount of all the issued securities of that class or the directors and officers of the Manager collectively own more than 5% of those securities;
- (b) invest in any type of real estate (including buildings) or interests in real estate (including options or rights, but excluding shares in real estate companies and interests in real estate investment trusts (REITs));
- (c) make short sales if as a result the Sub-Fund would be required to deliver Securities exceeding 10% of the Net Asset Value of the Sub-Fund (and for this purpose Securities sold short must be actively traded on a market where short selling is permitted);
- (d) write uncovered options;
- (e) write a call option on portfolio investments of the Sub-Fund if the aggregate of the exercise prices of all such call options written in respect of the Sub-Fund would exceed 25% of the Net Asset Value of the Sub-Fund;
- (f) lend or make a loan out of the assets of the Sub-Fund without the prior written consent of the Trustee except to the extent that the acquisition of bonds or the making of a deposit (within the applicable investment restrictions) might constitute a loan;
- (g) assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person without the prior written consent of the Trustee;
- (h) enter into any obligation in respect of the Sub-Fund or acquire any asset for the account of the Sub-Fund which involves the assumption of any liability which is unlimited; or
- (i) apply any part of the Sub-Fund in the acquisition of any investments which are for the time being nil paid or partly paid in respect of which a call is due to be made unless such call could be met in full out of cash or near cash forming part of the Sub-Fund which has not been appropriated and set aside for any other purposes (including in respect of any writing

of call options).

Note: The investment restrictions set out above apply to the Sub-Fund, subject to the following: A collective investment scheme authorised by the SFC under the Code is usually restricted from making investments which would result in the value of that collective investment scheme's holdings of the Securities of any single issuer exceeding 10% of the collective investment scheme's total net asset value. Given the investment objective of the Sub-Fund and nature of the Index, the Sub-Fund is allowed under Chapter 8.6(h) of the Code to hold investments in Securities of any single issuer exceeding 10% of the Sub-Fund's latest available Net Asset Value if such constituent Securities account for more than 10% of the weighting of the Index and the Sub-Fund's holding of any such constituent Securities does not exceed their respective weightings in the Index, except where the weightings are exceeded as a result of changes in the composition of the Index and the excess is only transitional and temporary in nature, or otherwise approved by the SFC. Subject to Chapter 8.6(h) of the Code, more than 30% of the latest available Net Asset Value of the Sub-Fund may also be invested in government and other public Securities of the same issue. However, the Manager may cause the Sub-Fund to deviate from the index weighting (in pursuing a representative sampling strategy) under Appendix I of the Code (the "ETF Guidelines") on condition that the maximum deviation from the index weighting of any constituent will not exceed 4% or such other percentage as determined by the Manager after consultation with the SFC. Under the ETF Guidelines, the Manager shall report to the SFC on a timely basis if there is any non-compliance with this limit. The annual and semi-annual reports of the Sub-Fund shall also disclose whether or not such limit has been complied with during such period and account for any non-compliance in those reports.

Security Lending

There is no current intention for the Sub-Fund to engage in securities lending, repurchase transaction or other similar over-the-counter transactions, but this may change in light of market circumstances and where the Sub-Fund does engage in these types of transactions, prior approval shall be obtained from the SFC and no less than one month's prior notice will be given to the Unitholders.

Borrowing Policy

Borrowing against the assets of the Sub-Fund is allowed up to a maximum of 25% of its latest available Net Asset Value. The Trustee may at the request of the Manager borrow for the account of the Sub-Fund any currency, and charge or pledge assets of the Sub-Fund, for the following purposes:

- (a) facilitating the creation or redemption of Units or defraying operating expenses;
- (b) enabling the Manager to acquire Securities for the account of the Sub-Fund; or
- (c) for any other proper purpose as may be agreed by the Manager and the Trustee.

SCHEDULE 2

INDEX AND DISCLAIMER

General Information on the Index

The Index is a free float adjusted, category-weighted index which measures the performance of A-Shares traded on the Shanghai Stock Exchange or the Shenzhen Stock Exchange. The Index consists of the 300 stocks with the largest market capitalisation and good liquidity from the entire universe of listed A-Shares companies in the PRC. The Index is calculated and disseminated in RMB on a real-time basis and is maintained by China Securities Index Co., Ltd. ("CSI" or the "Index Provider"). The Index is quoted in RMB.

The Index is a price return index. A price return index calculates the performance of the Index constituents on the basis that any dividends or distributions are not reinvested.

The Index was launched on 8 April 2005 and had a base level of 1,000 on 31 December 2004.

As of 31 July 2012, the Index had a total free-float market capitalisation of RMB4,266.79 billion and 300 constituents.

Index Calculation

The Index is calculated and disseminated in RMB on a real-time basis and is maintained by the Index Provider, a joint-venture established on 25 August 2005 between the Shanghai Stock Exchange and the Shenzhen Stock Exchange, which specialises in the management of securities indices and the provision of related services.

The Manager (and each of its Connected Persons) is independent of CSI.

Index Calculation Method

The Index is weighted by adjusted capital stock and calculated using the Paasche weighted composite price index formula. The adjusted capital stock is obtained using the classification and rounding off method, as shown in the following table:

Free-float proportion (%)	≤ 10	(10,20]	(20, 30]	(30, 40]	(40,50]	(50, 60]	(60, 70]	(70, 80]	> 80
Weighted proportion (%)	Free-float proportion	20	30	40	50	60	70	80	100

Examples: If the free-float proportion of a certain stock is 7%, which is less than 10%, the free-float proportion of the capital stock will be used as the weight. If the free-float proportion of a certain stock is 35%, which falls in the (30, 40] range, the weight will be 40% of the total capital stock.

Note: The term "free-float proportion" means the proportion of capital stock remaining after excluding the following non-negotiable shares from the total capital stock: (1) shares held on a long-term basis by the company's founders, family members and senior management; (2) state-owned shares; (3) shares held by strategic investors; (4) frozen shares; (5) restricted employee shares; (6) cross-holdings, etc.

Calculation Formula

$$\text{Index for a given reporting period} = \frac{\begin{array}{c} \text{adjusted market cap of constituents} \\ \text{during reporting period} \end{array}}{\begin{array}{c} \text{base period} \end{array}} \times 1000$$

Where: adjusted market cap = \sum (market price x adjusted number of shares of the constituent's capital stock)

Index Maintenance

The Index is maintained using the “divisor adjustment methodology.” In the event of a change in the list of constituents or in a constituent's equity structure, or a change in the adjusted market capitalization of a constituent stock due to non-trading factors, the old divisor is adjusted by means of the divisor adjustment methodology, so as to maintain the continuity of the index. The adjustment formula is as follows:

$$\frac{\begin{array}{c} \text{adjusted market cap} \\ \text{before divisor adjustment} \end{array}}{\begin{array}{c} \text{old divisor} \end{array}} = \frac{\begin{array}{c} \text{adjusted market cap} \\ \text{after divisor adjustment} \end{array}}{\begin{array}{c} \text{new divisor} \end{array}}$$

Where: “adjusted market cap after divisor adjustment” = adjusted market cap before divisor adjustment + increase (decrease) in adjusted market capitalization. The new divisor (i.e. the adjusted divisor, also known as the new base period) is obtained from this formula and used to calculate the Index.

Circumstances under which maintenance of the Index is required include the following:

- (a) ex-right: whenever bonus shares or rights are issued for a constituent stock, the Index is adjusted prior to the record date; adjusted market cap after divisor adjustment = ex-right quote x number of shares of capital stock after the stock started to trade ex-right + adjusted market cap before divisor adjustment (excluding ex-right shares);
- (b) suspension of trading: if a constituent stock is suspended from trading, its last trading price is used to calculate the Index, until trading is resumed;
- (c) change in capital stock: whenever a change occurs in the capital stock of a Index constituent (e.g. due to the issue of new shares, the listing of a rights issue, the listing of employee shares, etc.), the Index is adjusted prior to the date of the change in capital stock;
- (d) when there is a periodic adjustment or an ad hoc adjustment of the list of constituent stocks of the Index, the Index is adjusted prior to the date of the change.

Index Advisory Committee

CSI has established an index advisory committee (the “Index Advisory Committee”), which is responsible for the evaluation, consulting and examination of CSI index methodologies.

Index Universe

The selection universe of the Index (the “Index Universe”) includes all the A-Shares (each a “Stock”) listed on the Shanghai Stock Exchange or the Shenzhen Stock Exchange satisfying the following conditions:

- (a) The Stock has been listed for more than three months at the time it is considered for inclusion in the Index. If it has been listed for less than 3 months, it will be considered for inclusion in the Index Universe if its daily average total market value since its initial listing has ranked within the top 30 companies in all the A-Shares; and
- (b) The Stock is not designated for special treatment or potential delisting by any of the CSRC, the Shanghai Stock Exchange or the Shenzhen Stock Exchange as a result of continuous financial losses.

Selection Criteria

Index constituents are selected as follows and the candidate constituents should have good performance without serious financial problems or laws and regulations breaking events and with no large price volatility that shows strong evidence of manipulated. CSI:

- (a) Calculates the A-Share daily average trading value and A-Share daily average total market value during the most recent year for stocks in the Index Universe, or in case of a new issue, during the fourth trading day that it was a public company;
- (b) Ranks the Stocks in the universe by A-Share daily average trading value of the most recent year in descending order and delete the bottom ranked 50% stocks;
- (c) Ranks the remaining stocks by A-Share daily average market value of the most recent year in descending order, those who rank top 300 are selected as Index constituents.

Index Periodical Review

The constituents of the Index (each an “Index Constituent”) are reviewed every 6 months by the Index Advisory Committee, which usually meets in early June and December every year. The Index Constituents are adjusted according to the periodical review and any changes to the composition of the Index are implemented on the first trading day of January and July in each year.

The number of constituents adjusted at each periodical review will not exceed 10% and CSI has adopted buffer zone rules in order to minimize the Index turnover. The top 240 Stocks (by decreasing order of free float market capitalisation) within the Selection Universe will be given priority to be selected as Index Constituents. Index Constituents ranking within the top 360 Stocks (by decreasing order of free float market capitalisation) will be given priority to remain in the Index.

Index Adjustments

Necessary adjustments are made by CSI when some corporate events happen so as to maintain the representativeness and investability of the Index. Such events include without limitation the bankruptcy, restructuring, merger, acquisition and spin-off, of an Index Constituent issuer and the delisting, temporary suspension from trading and re-issuance, of an Index Constituent.

In general, CSI will publicise Index Constituent adjustments lists as soon as practicable after the adjustments are decided and before their implementation.

Top 10 Constituents

As at 31 July 2012, the 10 largest constituents of the Index, representing in excess of 22.28% of the market capitalisation of the Index based on total shares in issue, were as follows:

Rank	Constituent Name	Weighting
1.	Ping An Insurance Group Co of China Ltd	3.17%
2.	China Minsheng Banking Corp Ltd	2.91%
3.	China Merchants Bank Co Ltd	2.63%
4.	Kweichow Moutai Co Ltd	2.19%
5.	Bank of Communications Co Ltd	2.15%
6.	Industrial Bank Co Ltd	2.02%
7.	China Vanke Co Ltd	1.91%
8.	Shanghai Pudong Development Bank Co Ltd	1.84%
9.	Citic Securities Co Ltd	1.80%
10.	Haitong Securities Co Ltd	1.66%

You can obtain the most updated list of the constituents of the Index and additional information of the Index from the website of China Securities Index Co., Ltd at <http://www.csindex.com.cn>.
