
FORWARD-LOOKING STATEMENTS

We have included in this prospectus forward-looking statements that are not historical facts but relate to our intentions, beliefs, expectations or predictions for future events and conditions which may not occur. Even though these statements have been made by our Directors after due and careful consideration and on bases and assumptions fair and reasonable at the time, they nevertheless involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Some of the risks are listed in the section entitled “Risk Factors” and elsewhere in this prospectus. In some cases, you can identify these forward-looking statements by words such as “aim,” “anticipate,” “believe,” “continue,” “could,” “expect,” “intend,” “may,” “might,” “plan,” “potential,” “predict,” “project,” “propose,” “seek,” “should,” “will,” “would” or similar expressions, or their negatives. These forward-looking statements include, without limitation, statements relating to:

- our goals and strategies;
- expected growth of and changes in the aluminum products industry;
- our ability to maintain a strong relationship with our major customers or suppliers;
- our future business development, results of operations and financial condition;
- our plans to expand our production capacity;
- effect of competition on the demand for and price of our products and our ability to compete;
- determination of the fair value of our Shares;
- any government policies regarding foreign investment; and
- risks identified under the section entitled “Risk Factors” on page 31 of this prospectus.

This prospectus also contains data relating to the aluminum products markets in several countries, including China. Such market data, including data from ABI Research and ICIS Consulting, include projections that are based on a number of assumptions. The markets may not grow at the rates projected by the market data, or at all. The failure of the markets to grow at the projected rates may materially and adversely affect our business and the market price of our Shares. In addition, due to the rapidly changing nature of the PRC economy and the aluminum products industry, projections or estimates relating to the growth prospects or future conditions of the markets are subject to significant uncertainties. If any of the assumptions underlying the market data prove to be incorrect, actual results may differ from the projections based on these assumptions. You should not place undue reliance on these forward-looking statements.

We do not guarantee that the transactions and events described in the forward-looking statements in this prospectus will happen as described, or at all. Actual outcomes may differ materially from the information contained in the forward-looking statements as a result of a number of factors, including, without limitation, the risks and uncertainties set forth in the section entitled “Risk Factors.” You should read this prospectus in its entirety and with the understanding that actual future results may be materially different from what we expect. The forward-looking statements made in this prospectus relate only to events as of the date on which the statements are made or, if obtained from third-party studies or reports, the dates of the respective studies or reports. Since we operate in an evolving environment where new risks and uncertainties may emerge from time to time, you should not rely upon forward-looking statements as predictions of future events. We undertake no obligation, beyond what is required by law, to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made, even when our situation may have changed.
