EARNINGS CALL EXTRACTS

Mr. Sheldon G. Adelson, Chairman and Chief Executive Officer of LVSC, announced that:

First — organic growth. I will highlight our all-time record performance in Macao — where our industry-leading investments and the unrivaled scale of our properties have again enabled us to deliver robust, market-leading growth in the world's largest and most profitable gaming market.

Our mass table win in Macao for the quarter was up a whopping 63.2% to a record US\$863 million.

Our US\$9 billion of capital investments in Macao were targeted toward and designed to serve the mass segment from the very beginning — and have allowed us to lead the Macao market in EBITDA generation since we entered the market way back in 2004. Our market-leading hotel, retail, convention, group meeting and entertainment offerings will allow us to continue to lead the Macao market in both revenues from mass gaming and in EBITDA generation for the foreseeable future.

Also impressive is our rolling volume growth in Macao, which was up 24.9% this quarter to a record US\$41 billion. That represents VIP market share of approximately 17.4% of Macao market rolling volume, compared to just 12.6% one year ago. That is a 38% increase in market share of rolling volume.

Sands Cotai Central continues its steady ramp — with both the mass table and slot businesses reflecting meaningful growth this quarter.

We welcomed a record 14 million visits to our Macao properties in the quarter. Our fully enclosed pedestrian walkway with escalators and moving sidewalks has successfully interconnected our Cotai Strip properties — enabling customers to more comfortably move between our properties and allowing them to enjoy the full array of amenities on offer throughout our entire Cotai Strip property portfolio. The interconnection of our properties is contributing to enhanced financial performance today, and as the hotel inventory of Sands Cotai Central becomes more productive — and our offerings on Cotai continue to evolve, that inter-connectivity should contribute meaningfully to our financial performance.

Let's turn to strategic objective number two — development growth in our current markets.

The Parisian Macao, our fourth integrated resort property on Cotai and our fifth in Macao overall, is now under construction. The Parisian Macao will add another interconnected integrated resort property to our portfolio on Cotai.

The piling construction is now underway and the podium and hotel tower substructure work will commence in due course. Based on our current construction schedule and subject to timely government approvals, we are targeting the opening of The Parisian Macao for late 2015.

We have also submitted plans to the Macao government for the development of a two million square foot tropical garden retail mall just south of Sands Cotai Central. The mall would feature over 900,000 square feet of value-oriented destination shopping and dining, targeted specifically at the mass market visitor to Macao. We commend the Macao government for the way they have encouraged the growth of the mass market and encouraged the development of mass market targeted non-gaming amenities such as our proposed tropical garden retail mall.

We have every intention of increasing the recurring dividend at both Las Vegas Sands and Sands China in the quarters ahead, as our business and cash flows continue to consistently grow.

Before moving to your questions, I wanted to again highlight that our retail mall business in Asia continues to grow. We expect that growth to continue this year and to accelerate in the future as we remerchandise the malls in both Macao and Singapore. The eventual sale or monetization of those assets will provide enhanced financial flexibility including the potential to increase the return of capital to shareholders in the future.
