## GLOSSARY

---

*This glossary contains an explanation of certain technical terms used in this prospectus in connection with our Company and our business. Such terminology and meanings may not correspond to standard industry meanings or usages of those terms.*

“1G Phoenix Stone”	the first generation crystalised stone developed and launched by our Group
“2G Phoenix Stone”	the second generation crystalised stone developed and launched by our Group
“3G Phoenix Stone”	the third generation crystalised stone developed and launched by our Group
“CAGR”	compound annual growth rate
“cm”	centimetre, a unit of length
“composite crystalised stone”	crystalised stone formed from a combination of inorganic materials, usually from combining glass with ceramic materials
“GDP”	gross domestic product
“GFA”	gross floor area
“J”	joule, a derived unit of energy, work or amount of heat
“kWh”	kilowatt hour, a unit of energy
“m”	metre, a unit of length
“mm”	millimetre, a unit of length
“MPa”	megapascal, a common multiple unit of pascal (Pa) and a derived unit of pressure
“non-porous crystalised stone”	crystalised stone formed from a combination of inorganic materials by a manufacturing process that eliminates pores
“porous crystalised stone”	crystalised stone formed from a combination of inorganic materials and after heating during the manufacturing process, air is ventilated at the surfaces causing pores
