HKET Holdings At A Glance

Hong Kong Economic Times Holdings Limited (“HKET Holdings”/“the Group”) is a diversified media company. Its core business – publication of the *Hong Kong Economic Times* (“HKET”) – was established in 1988. It is the leading financial newspaper in Hong Kong. Besides, the Group launched its free publication, *Sky Post*, in July 2011. Apart from newspaper publishing, the Group also operates other businesses such as magazines and book publishing, recruitment advertising & executive training, and lifestyle portals. In addition, the Group runs a financial news agency, information and solutions business. ET Net, the leading financial news agency in Hong Kong serving the professional market, has expanded to the Greater China market. HKET Holdings was listed on the Main Board of The Stock Exchange of Hong Kong Limited on 3 August 2005 (Stock code: 00423).

Strategy and 5 Business Domains

Taking advantage of the strong foundation and rich experiences of the Group, HKET Holdings strives to attain sustainable growth for the utmost benefit of shareholders by pursuance of diversification strategy through 5 business domains:

Finance
Property
Human Resources
Education
Lifestyle

Leading Positions and Digital Development

With our strengths and extensive business network, the Group maintains leading positions as well as products' uniqueness in a highly competitive market and ever-changing world. Meanwhile, the Group continuously puts effort to develop diversified businesses, which is a proven strategy for success.

In this financial year, members of the Group initiated a number of remarkable events, which again elaborated the Group's leading positions and strengths.

Hong Kong Economic Times the financial newspaper

Hong Kong Economic Times, *Economic Daily* of China and *Economic Daily News* of Taiwan jointly organized their second and third titled Economic and Financial Forum in June 2012 (Taipei) and April 2013 (Hong Kong) respectively. The events again facilitated prominent government officials, corporate leaders and scholars to share views and enhanced communications among the regions.

U Magazine the travel and lifestyle magazine

U Magazine always supports environment-friendly and low-carbon related projects. Its annual big event, U Green Award, has been widely received by public since 2009. In 2012, the award ceremony was recognised as the first "carbon neutral" event among publishing industry.

e-zone the mass market IT magazine

iMoney the financial magazine

ET Net the financial news agency

ET Wealth the electronic funds database and wealth management system provider

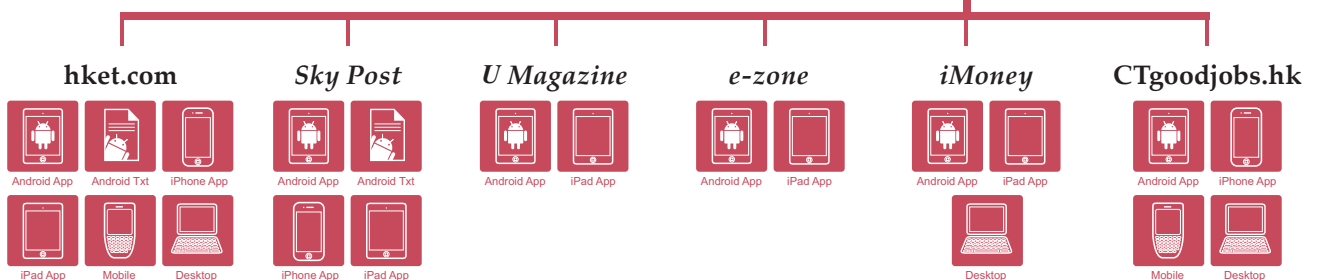

ET Trade the securities & futures trading solutions provider

EPRC the electronic property database provider

Digital Development

Our visionary teams always see customers' needs and keep abreast of the market trend. Seeing the popularity of online and smart phone reading, the Group's publications launched various digital applications and reading platforms to accommodate the needs of readers. *hket.com*, *Sky Post* and the Group's publications have launched iOS and Android applications, while *CTgoodjobs.hk* has become the single-minded focus of recruitment advertising business in 2012.

Chairman's Statement

Dear Shareholders,

Financial year 2012/13 was a challenging year for the Hong Kong economy and the local media. Post-financial crisis slowdown continued in 2012. The unsettled eurozone debts crisis, subpar economies in Japan and the US and the slowing growth in the Mainland dampened the market sentiment. Hong Kong reported a modest GDP growth of 1.4% in 2012, much lower than the average level of 4.5% over the past ten years. The evolution of the media industry continued, shifting the share from traditional media to new digital versions. To cope with this challenging economic and market environment, we remain focused on our diversification strategy and increase our investments in *Sky Post*, the Group's free Chinese daily launched in 2011, and the digital and internet-based businesses. We are confident that these new initiatives will drive the sustainable growth of the Group in the medium term.

Despite weak economic conditions and continuing uncertainty affecting markets in which the Group operated, revenue for the financial year 2012/13 increased moderately from HK\$1,006 million to HK\$1,033 million, a rise of 3%. Contributions from *Sky Post* and the magazines and books printing company acquired in the second half of last financial year were able to offset the drop of advertising and circulation revenue from the printed publications. However, given our investments in *Sky Post* and the digital and internet-based businesses are still at their early stage, profitability of the Group was considerably affected. Profit attributable to shareholders decreased from HK\$76 million to HK\$62 million, a decline of 19%.

Sky Post, targeting the general mass audience, made significant progress after its launch. Within a short period of time, it had established a recognised and well received positioning of being a positive thinking and middle class free daily in the market. The favourable responses from readers and advertisers are also encouraging. The launch of *Sky Post* further extends the Group's readers, advertisers and income base which were not previously available to our other niche publications. We are confident and determined to make *Sky Post* a success and believe that it will become a significant contributor to the growth of the Group in the medium and longer term.

The emergence of the new digital age has gradually transformed the local printed media landscape. The enormous popularity of internet, pervasive penetration of smart mobile devices, wireless network upgrade and the ongoing development of digital technologies drive the market attention from traditional media to digital platforms. This new paradigm shift presents both challenges and opportunities to the Group. We shall continue to invest in the digital and internet-based businesses across all our business segments and focus on harnessing new technologies and user experiences to deliver timely, personalized, interactive, quality and value-added services to the targeted customers.

Our two pillars, the flagship newspaper, *Hong Kong Economic Times*, under the printed media segment and the financial news agency, information and solutions segment continued to be profitable and being the major profit contributors to the Group for the financial year under review. The investments in *Sky Post* and the digital and internet-based businesses of the Group's two newspapers and three magazines, namely *Hong Kong Economic Times*, *Sky Post*, *U Magazine*, *e-zone* and *iMoney*, the costs of which are included in the printed media segment would have short term pressure on the cost and result of this segment. We shall take a cautious approach in cost management and take further steps to streamline the cost structure during this period of business diversification. The Board recommends the payment of a final dividend of 5.0 cents per share for the financial year ended 31 March 2013.

The Group reviews the operation of business units from time to time with a view to rationalize, re-deploy and utilize the assets and operational resources in a more efficient and effective manner. We have several printing factory facilities located at different locations. During the financial year under review, the Group disposed of one of the printing plants after relocating its printing machineries to the other printing factory facilities owned by the Group. The disposal and relocation had no impact on the Group's printing capacity and productivity in support of its own magazine and book titles and external printing businesses. Proceeds from the disposal have been applied as working capital of the Group, which further strengthened the Group's financial resources.

The global economy may be less volatile in the coming year as compared to last year. However, many challenges and uncertainties still persist. While we have seen some improvements in the US economy, the global economy remains dull as negative effects of the eurozone economies continue to weigh on the pace of global recovery. With benefit from the reasonable growth momentum of the Mainland, Hong Kong is poised to achieve modest economic growth in the coming year. We will remain focused on preserving and reinforcing our established strengths and deepen our penetration into segments that offer growth and enlarging our customer and income base. The Group continues to maintain a strong financial position. The cash balance of the Group as at 31 March 2013 was over HK\$340 million. We are well positioned to ride through any storm that may come, and take good advantage of opportunities that may arise.

Our success over the years rests in large part on the professionalism and passion of our people. Taking this opportunity, I would like to express my heartfelt thanks to my fellow Board colleagues for their advices, contribution and leadership, and to our staff for their commitment, loyalty and inspirational teamwork. I am convinced that their resilience, forward thinking resourcefulness and enthusiasm will continue to drive the future sustainable growth of the Group. I would also like to extend my gratitude to our readers, customers, business partners and investors for their continued support.

Last but not least, I would like to thank Mr. Chan Mo Po, Paul and Mr. Kwan Ka Ming, who resigned as independent non-execute directors of the Company on 28 July 2012 and 10 June 2013 respectively, for their invaluable advice and guidance to the Company during their tenure of office.

2013 marks the 25th anniversary of the Group. As we celebrate this important milestone, we are more determined than ever to uphold our core principles and build on the good progress that we have made in our dedicated efforts to provide quality products and services to our readers, advertisers and customers and to increase value for our shareholders.

Prior to those, he was a partner of Richards Butler, an international law firm. Mr. O'Yang graduated from The Chinese University of Hong Kong with a Bachelor of Social Science degree and a Master of Business Administration degree. He is also a fellow member of the Association of Chartered Certified Accountants, a member of the Hong Kong Institute of Certified Public Accountants and a member of the Law Society of Hong Kong.

Corporate Governance

The Board of Directors (the “Board”) was committed to maintain a high level of corporate governance standards and practices. The Board has complied with the provisions set out in the Corporate Governance Code (the “Code Provisions”) contained in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”) except as stated and explained below.

Board of Directors

As at 31 March 2013, the Board comprised eleven Directors, with four of them being Independent Non-executive Directors, representing more than one-third of the Board.

Executive Directors:

Mr. Fung Siu Por, Lawrence (*Chairman*)
Mr. Mak Ping Leung (alias: Mr. Mak Wah Cheung)
Mr. Chan Cho Bui
Mr. Shek Kang Chuen
Ms. See Sau Mei Salome
Mr. Chan Wa Pong

Non-executive Director:

Mr. Chu Yu Lun (*Members of Remuneration and Nomination Committees*)

Independent Non-executive Directors:

Mr. Chow On Kiu (*Chairman of Nomination Committee*)
Mr. Kwan Ka Ming (*Members of Audit and Remuneration Committees*)
Mr. Lo Foo Cheung (*Chairman of Remuneration Committee and Member of Audit Committee*)
Mr. O’Yang Wiley (*Chairman of Audit Committee and Member of Nomination Committee*)

On 10 June 2013, Mr. Kwan Ka Ming resigned as an Independent Non-executive Director of the Company. Following the resignation of Mr. Kwan, the number of Independent Non-executive Directors of the Company and the members of the Audit Committee fell below the minimum number required under Rules 3.10A and 3.21 of the Listing Rules. In addition, the Company failed to meet the composition requirement of the Remuneration Committee under Rule 3.25 of the Listing Rules. The Company is endeavouring to identify suitable candidate to fill the vacancy as soon as practicable, with the relevant appointments to be made within three months from the effective date of Mr. Kwan’s resignation as required under Rules 3.11, 3.23 and 3.27 of the Listing Rules.

The composition of the Board reflects a balance of skills, experience and diversity of perspectives appropriate to the requirements of the Company’s business. All Directors are aware of their collective and individual responsibilities to shareholders and have exercised their duties with care, skill and diligence for the best interests of the shareholders. Names and biographies of the Directors are set out on pages 14 to 17 under the section headed “Board of Directors” of this Annual Report.

Each of the Executive, Non-executive, and Independent Non-executive Directors has entered into a continuous service contract with the Company and is subject to the rotational retirement and re-election requirements of the Company's Articles of Association and the Code Provisions. Mr. Fung Siu Por, Lawrence (the Chairman and Executive Director of the Company) and Mr. Chu Yu Lun (the Non-executive Director of the Company) have been business partners for years and have common interests in certain companies. Save as disclosed above, none of the Directors has any financial, business, family relationships or any relationships in other material aspects with each other.

Under Code A.2.1 of the Code Provisions, the roles of Chairman and Chief Executive Officer ("CEO") should be separate and should not be performed by the same individual. The division of responsibilities between the Chairman and CEO should be clearly established and set out in writing. However, the Company has appointed Mr. Fung Siu Por, Lawrence as both its Chairman and the CEO. The Board believes that vesting the roles of the Chairman and the CEO in the same person would allow the Company to be more effective and efficient in developing long-term business strategies and execution of business plans. The Board believes that the balance of power and authority is adequately ensured by the operation of the Board, which comprises experienced and high calibre individuals with a substantial number thereof being Non-executive Directors.

The Board is responsible for setting the Group's strategic direction and overseeing the business performance of the Group while business operations are delegated to qualified management under the supervision of respective Executive Directors. The Board will ensure that the decision and direction made are implemented through the management, and that all significant business matters including but not limited to budgets, business plans, investment decisions, material capital expenditure are subject to the Board's approval.

Independence of Independent Non-executive Directors

Each Independent Non-executive Director has submitted to The Stock Exchange of Hong Kong Limited (the "Stock Exchange") a written confirmation in respect of their independence in accordance with Rule 3.13 of the Listing Rules on their appointment. The Board has also received from each of the Independent Non-executive Directors a confirmation of his independence as required under the Listing Rules. The Board is of the opinion that all Independent Non-executive Directors are independent and appreciates the professional and valuable contributions they made to the Board and the Committees.

Directors' Training and Professional Development

All Directors are encouraged to participate in continuous professional development to develop and refresh their knowledge and skills.

Each newly appointed Director received a comprehensive, formal and tailored induction on appointment so as to ensure that he had a proper understanding of the Company's operation and business and was fully aware of his responsibilities and obligations under the Listing Rules and relevant regulatory requirements.

Corporate Governance

A briefing session on the new Code Provisions was conducted internally during a Board Meeting with the presence of all Directors. Related reading materials were circulated to Directors for their update. During the year, all Directors had attended various seminars, conferences or forum which were relevant to their respective duties and responsibilities or the businesses of the Company.

Board Proceedings

Directors' attendance record of Board, Committee and General Meetings:

The Board intends to hold at least four meetings annually at approximately quarterly intervals. Notice of meeting, agenda (with consultation of members of the Board) and accompanying board papers are sent in full to all Directors in a timely manner before the intended date of each meeting. During the financial year ended 31 March 2013, four meetings were held and Mr. Chow On Kiu was absent in one of the meetings.

Minutes of the Board meetings are recorded by the secretary of the meeting in sufficient detail of the matters considered by the Board and decisions reached, including any concerns raised by Directors or dissenting views expressed. Draft and final version of minutes of Board Meetings are sent to all Directors for their comment and records respectively, in both cases within reasonable time after the Board Meeting is held.

Audit Committee

The Company established an Audit Committee in 2005 with written terms of reference which have been formulated and adopted and complied with the Code Provisions. As at 31 March 2013, the Audit Committee comprised three Independent Non-executive Directors, Mr. O'Yang Wiley as Committee Chairman, Mr. Kwan Ka Ming and Mr. Lo Foo Cheung. The principal roles and functions of the Committee as set out in its terms of reference are available on both the Company's and the Stock Exchange's websites.

During the financial year ended 31 March 2013, the Audit Committee met once with the presence of all members. The Company's Chief Financial Officer and Qualified Accountant and External Auditor were invited to attend the meeting. The Committee has reviewed the annual report for the financial year ended 31 March 2012, External Auditor's remuneration, internal control system and interim report for the period ended 30 September 2012. The Chairman of the Audit Committee has reported to the Board on the findings of these reviews. The Board has not taken any view that is different from that of the Audit Committee.

Furthermore, the Committee has reviewed, inter alia, the Annual Report and Financial Statements of the Group for the year ended 31 March 2013, the report from External Auditor on the audit of the Group's Financial Statements, the connected transactions, internal control system review and the re-appointment of External Auditor.

Remuneration Committee

The Company established a Remuneration Committee in 2005 with written terms of reference which have been formulated and adopted and complied with the Code Provisions. As at 31 March 2013, the Remuneration Committee comprised Non-executive Director, Mr. Chu Yu Lun, and two Independent Non-executive Directors, Mr. Lo Foo Cheung as Committee Chairman and Mr. Kwan Ka Ming. The principal roles and functions of the Remuneration Committee as set out in its terms of reference are available on both the Company's and the Stock Exchange's websites.

The Remuneration Committee met once during the financial year ended 31 March 2013 with the presence of all members to review and approve the remunerations and discretionary bonus payable to the Executive Directors and senior management for the financial year under review. The Committee Chairman has reported to the Board on the proceedings of the meeting.

Corporate Governance

Nomination Committee

The Company established a Nomination Committee in 2005 with written terms of reference which have been formulated and adopted and complied with the Code Provisions. The Nomination Committee comprises Non-executive Director, Mr. Chu Yu Lun and two Independent Non-executive Directors, Mr. Chow On Kiu as Committee Chairman and Mr. O'Yang Wiley. The principal roles and functions of the Nomination Committee as set out in its terms of reference are available on both the Company's and the Stock Exchange's websites.

The Nomination Committee met three times during the financial year ended 31 March 2013 with the presence of all members to review the size, structure and composition of the Board and made its recommendations to the Board on the re-appointment of Directors (not less than one-third of the Board) who are subject to retirement by rotation and eligible for re-election at the forthcoming annual general meeting, and to recommend to the Board the appointment of two Independent Non-executive Directors.

Remuneration of Directors

The Directors' fees and all other emoluments paid or payable to the Directors during the year are set out on an individual and named basis in note 7(b) to the Consolidated Financial Statements of this Annual Report on page 78.

The Group's emolument policy is set out in note 7(d) to the Consolidated Financial Statements of this Annual Report on page 80.

Securities Transactions of Directors

The Company confirmed the adoption of the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix 10 of the Listing Rules (the "Model Code"). All Directors confirmed their compliance with the required standard set out in the Model Code regarding directors' securities transactions throughout the financial year ended 31 March 2013.

Specific employees who are likely to be in possession of unpublished price-sensitive information of the Group are also subject to compliance with guidelines on no less exacting terms than the Model Code. No incident of non-compliance was noted by the Company for the period under review.

Directors' Responsibilities for the Financial Statements

The Directors acknowledge their responsibilities for the preparation of the Financial Statements for each financial period which give a true and fair view of the state of affairs of the Group and of the results and cash flow for that period and in compliance with relevant laws and disclosure provisions of the Listing Rules. In preparing the Financial Statements for the year ended 31 March 2013, the Directors have selected appropriate accounting policies and applied them consistently; made judgements and estimates that are prudent and reasonable; and have prepared Financial Statements on a going concern basis. The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Group.

External Auditor

The Group had appointed PricewaterhouseCoopers as the Group's External Auditor since the financial year 2004/05. Their reporting responsibilities on the Financial Statements are set out in the Independent Auditor's Report of this Annual Report on pages 38 to 39.

During the period under review, the Group has incurred a total fee of HK\$2,600,000 in relation to the interim review and audit services provided by PricewaterhouseCoopers for the financial year 2012/13, which was approved by the Audit Committee and the Board. A fee of HK\$321,000 was also paid or payable to PricewaterhouseCoopers for other services.

PricewaterhouseCoopers will retire and offer themselves for re-appointment at the annual general meeting of the Company to be held on 30 July 2013.

The re-appointment of PricewaterhouseCoopers as the External Auditor of the Group has been recommended by the Audit Committee and endorsed by the Board, subject to the approval of shareholders in the forthcoming annual general meeting.

Company Secretary

The Company Secretary is responsible for assisting the Board and respective Board Committees in their proceedings and advising the Board on corporate governance matters. During the year ended 31 March 2013, the Company Secretary has complied with the professional training requirements under the Code Provisions.

Internal Controls

The Board acknowledges its responsibility for the Group's internal control system and has reviewed its effectiveness to ensure that internal control measures are in place to safeguard the Group's assets and to comply with relevant regulations and best practices.

Corporate Governance

General

Local media has gone through a bustle and hustle year 2012. The industry was undergoing transformation from traditional media to new digital versions. The industry was also thronged with news of acquisition, disposition and new investment. Our Group, with strong financial position and elite personnel stood rigid within the storm. The Group reacted proactively to the media transformation by increasing the investments in *Sky Post*, the Group's free Chinese daily launched on 27 July 2011, and internet-based businesses, including the portals of *etnet.com.hk*, *hket.com*, *CTgoodjobs.hk* and the Group's other lifestyle portals. The investments, in the near term will affect the Group's income performance, are for the best interest of our shareholders in the medium to longer term.

The Group's revenue for the financial year ended 31 March 2013 increased to HK\$1,032.8 million, an increase of HK\$26.8 million or 3%. Profit attributable to owners however, decreased by 19% from HK\$76.1 million to HK\$62.0 million.

Management Discussion and Analysis

Revenue

	Year ended 31 March		% Change
	2013 HK\$'000	2012 HK\$'000	
Revenue:			
Advertising income	562,322	558,141	1%
Circulation income	121,994	135,666	-10%
Service income	335,963	295,202	14%
Enrolment income	12,539	17,018	-26%
Total	1,032,818	1,006,027	3%

Advertising income for the year ended 31 March 2013 was HK\$562.3 million, maintained at similar level as compared to the year ended 31 March 2012. Advertising income from paid publications decreased in line with the general advertising market trend. However, contribution from *Sky Post*, free daily of the Group, was able to offset the drop from paid publications. This demonstrated that the Group's entry to the free daily market was necessary to broaden the advertising income base of the Group. The Group also believes and is confident that the contribution from *Sky Post* will become increasingly significant in the coming financial years in view of the encouraging progress of *Sky Post*.

Circulation income decreased by 10% from HK\$135.7 million for the year ended 31 March 2012 to HK\$122.0 million for the financial year under review. Readers shifting to web versions and the emergence of free publications are drawing away the eyeballs of paid publications readers. The Group will continue to publish paid publications with distinct quality content to attract readers.

Service income for the year ended 31 March 2013 increased from HK\$295.2 million to HK\$336.0 million when compared with the preceding financial year. Revenue generated from financial news agency, information and solutions business remained significant. The magazines and books printing company acquired in the second half of the last financial year also contributed to the growth of the Group's service income.

Operating Costs

Gross profit margin for the year ended 31 March 2013 decreased by 7.4 percentage point to 31.1% from 38.5% in the year ended 31 March 2012. The decrease in gross profit margin was mainly due to the full year impact of the investment in *Sky Post* launched in end of July 2011 and the acquisition of a printing company in early November 2011.

Staff costs, representing approximately 44% of the Group's total operating costs, increased by 10% as compared to the year ended 31 March 2012. The increase was mainly due to general salary increment and full year impact of *Sky Post* and the printing company.

Newsprint costs, constituting around 12% of the Group's total operating costs, increased 9% as compared to the year ended 31 March 2012. The increase in newsprint costs was mainly due to the increase in consumption of the Group's free Chinese daily *Sky Post* as a result of the impact of full year publication and the increase of number of advertising pages.

Gain on Disposal of a Property

The Group has been reviewing the operation of its business units from time to time with a view to rationalise, re-deploy and utilise the Group's assets in a more efficient manner. The Group owned several printing factory facilities located at different sites. On 26 March 2013, the Group disposed of one of its printing plants after relocating its printing machineries to the Group's other printing locations. The disposal resulted in a gain of HK\$68.4 million. Sales proceeds from the disposal would be applied as general working capital of the Group, which further strengthened the Group's financial position.

Income Tax (Credit)/Expense

The group recorded an income tax credit for the current financial year as compared to the income tax expense in the last financial year. Effective tax rate for the financial year ended 31 March 2012 was 16.3% which was similar to the standard profits tax rate applicable to companies incorporated in Hong Kong, the Group's major place of operation. For the financial year ended 31 March 2013, the Group recognised deferred income tax assets in respect of tax losses incurred as Directors considered that the realisation of the related tax benefit through the availability of the future taxable profits was probable. The gain on disposal of a property recorded in current financial year was capital in nature and therefore non-taxable.

Profit Attributable to Owners

Profit attributable to owners for the year under review was HK\$62.0 million, a decrease of HK\$14.1 million or 19% as compared to HK\$76.1 million for the year ended 31 March 2012. Net profit margin decreased from 7.7% for last financial year to 6.1% for the current financial year.

Financial news agency, information and solutions segment maintained its stable contribution and become the major profit contributor for current financial year. This proved the success of the Group's effort in diversification. When the printed media businesses, in particular the paid publications were under great challenges from various dimensions in present few years, the financial news agency, information and solutions businesses of the Group provided a solid foundation and support to the Group's further development.

The Group's two pillars, the flagship newspaper, *Hong Kong Economic Times*, under the printed media segment and the financial news agency, information and solutions segment continued to be profitable and being the major profit contributors to the Group for the financial year under review. The investments in *Sky Post* and the digital and internet-based businesses of the Group's two newspapers and three magazines, namely *Hong Kong Economic Times*, *Sky Post*, *U Magazine*, *e-zone* and *iMoney*, the costs of which are included in the printed media segment would have short term pressure on the cost and result of this segment.

The Management, with their strong crisis mentality, had been well aware of the challenges to the media business and was prepared to invest further in diversifying the Group's business portfolio within the five business domains, namely finance, property, human resources, education and lifestyle, seeding the growth and expansion of the Group.

Management Discussion and Analysis

Liquidity and Capital Resources

(in HK\$ million)	As at 31 March	
	2013	2012
Net current assets	348.9	241.1
Term deposits, pledged deposits and cash and cash equivalents	344.4	248.2
Bank borrowings	114.9	–
Owners' funds	792.3	757.2
Gearing ratio	9.6%	–
Current ratio	2.26 times	1.89 times

The Group's net current assets as at 31 March 2013 increased by HK\$107.8 million from HK\$241.1 million to HK\$348.9 million. The increase was mainly attributable to the proceeds received from the disposal of a property of the Group situated at Tai Po Industrial Estate following the asset rationalisation and re-deployment review.

Net cash generated from investing activities was HK\$43.0 million. During the year, the Group had purchased an investment property at a consideration of approximately HK\$12.5 million and other property, plant and equipment of approximately HK\$75.2 million using internal funds. The Group had also disposed of a property situated at Tai Po Industrial Estate to an independent third party for net proceeds of approximately HK\$116.7 million.

The Group had distributed the final dividend declared for the financial year ended 31 March 2012 and interim dividend for the six months period ended 30 September 2012 amounting to an aggregate total of HK\$29.3 million. During the year, the Group had drawn down and repaid a bridging loan of HK\$150.0 million. The Group had also drawn down a leasing loan of HK\$126.9 million with five years repayment term and repaid HK\$12.0 million during the year. The loan was secured on the Group's property, plant and equipment with net book value of approximately HK\$157.4 million as at 31 March 2013. Net cash generated from financing activities for the year was therefore HK\$85.1 million.

Gearing ratio of the Group, being total interest bearing liabilities divided by total assets, as at 31 March 2013, was 9.6%. The Group had no gearing as at 31 March 2012.

As at 31 March 2013, the Group had a cash balance of HK\$344.4 million as compared to HK\$248.2 million as at 31 March 2012. Majority of the cash was placed under short-term deposits with banks in Hong Kong and was held in Hong Kong dollars, hence the Group had no significant exposure to foreign exchange fluctuations.

The Group is able to meet its working capital requirements, support investment needs of any future business plans and fulfill the dividend payment policy at the current fund level.

Outlook

Sky Post, made significant progress after its launch in July 2011. It had established a recognised and well received positioning of being a positive thinking and middle class free daily in the market within a short period of time. The favourable responses from readers and advertisers are also encouraging. The launch of *Sky Post* further extends the Group's readers, advertisers and income base which were not previously available to our other niche publications. We are confident and determined to make *Sky Post* a success and believe that it will become a significant contributor to the growth of the Group in the medium and longer term.

The evolution of the media industry continued. The enormous popularity of internet, pervasive penetration of smart mobile devices, wireless network upgrade and the ongoing development of digital technologies drive the market attention from traditional media to digital platforms. This new paradigm shift presents both challenges and opportunities to the Group. We shall continue to invest in the digital and internet-based businesses across all our business segments and focus on harnessing new technologies and user experiences to deliver timely, personalized, interactive, quality and value-added services to the targeted customers.

The investments in *Sky Post* and the digital and internet-based businesses would have short term pressure on the cost and result of the Group. We are confident that these new initiatives will drive the sustainable growth of the Group in the medium term.

The year ahead is still challenging. While we have seen some improvements in the US economy, the global economy remains dull as negative effects of the eurozone economies continue to weigh on the pace of global recovery. With benefit from the reasonable growth momentum of the Mainland, Hong Kong is poised to achieve modest economic growth in the coming year. We will remain focused on preserving and reinforcing our established strengths and deepen our penetration into segments that offer growth and enlarging our customer and income base. The Group continues to maintain a strong financial position and is well positioned to ride through any storm that may come, and take good advantage of opportunities that may arise.

Employees

As at 31 March 2013, the Group had 1,516 employees (31 March 2012: 1,525 employees). The Directors believe that employees are the most valuable assets of the Group and competitive remuneration packages are offered to retain quality staff. Employee benefits include medical insurance, discretionary bonus, provident fund schemes and other staff benefits.

Save as disclosed above, as at 31 March 2013, according to the register of interests required to be kept by the Company under Section 336 of Part XV of the SFO, there was no person, other than the Directors and chief executive of the Company, whose interests are set out in the paragraph headed “Directors’ Interests in Shares, Underlying Shares and Debentures” above, who had any interests or short positions in the shares or underlying shares of the Company.

Share Option Scheme

Pursuant to the share option scheme adopted by a written resolution of the then sole shareholder of the Company on 19 July 2005 (the “Scheme”), the Company may grant options to, among others, the directors or employees of the Company or its subsidiaries, for the recognition and acknowledgement of their contributions to the Group, to subscribe for shares of the Company (the “Shares”).

According to the Scheme, pursuant to which the Board of Directors, may at its discretion, invite any eligible participants to take up options to subscribe for the Shares. The maximum number of Shares which may be issued upon the exercise of all outstanding options granted and yet to be exercised under the Scheme and any other schemes must not, in aggregate, exceed 30% of the issued share capital of the Company from time to time. The total number of Shares which may be issued upon exercise of all options to be granted under the Scheme and any other schemes, shall not, in aggregate, exceed 10% of the number of Shares in issue as at the date dealings in the Shares first commence on the Stock Exchange unless further shareholders’ approval had been obtained pursuant to the conditions set out in the Scheme. The total number of Shares issued and to be issued upon exercise of all options already granted or to be granted under the Scheme and any other schemes (including both exercised or outstanding options) to each eligible participant in any 12-month period shall not exceed 1% of the issued share capital of the Company.

The offer for the grant of options (the “Offer”) must be taken up within 21 business days from the day of the Offer, with a payment of HK\$10 as consideration for the grant. The exercise price of the share option shall be determined by the Board and shall not be less than the highest of: (a) the nominal value of the Shares; (b) the closing price of the Shares as stated in the daily quotation sheets issued by the Stock Exchange on the date of Offer, which shall be a business day; and (c) the average closing price of the Shares as stated in the daily quotation sheets issued by the Stock Exchange for the five business days immediately preceding the date of Offer.

The share options are exercisable at any time during a period of not more than 10 years from the date of Offer, subject to the terms and conditions of the Scheme and any conditions of grant as may be stipulated by the Board. Unless terminated by the Company by the resolution in general meeting, the Scheme shall be valid and effective for a period of 10 years commencing on the date on which the Scheme becomes unconditional (its listing date).

No option has been granted by the Company under the Scheme since its adoption.

Directors' Report

Management Contracts

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during the year.

Major Suppliers and Customers

The percentages of the Group's purchases and sales during the year attributable to the Group's major suppliers and customers are as follows:

Purchases

– the largest supplier	8%
– five largest suppliers combined	27%

Sales

– the largest customer	9%
– five largest customers combined	18%

None of the Directors, their associates or any shareholders (which to the knowledge of the Directors owns more than 5% of the Company's share capital) had an interest in the major suppliers or customers noted above.

Connected Transactions

The Group has entered into certain related party transactions as disclosed in note 28 to the Financial Statements. These related party transactions did not constitute connected transactions of the Company under the Listing Rules.

Competing Business

As at 31 March 2013, none of the Directors and directors of the Company's subsidiaries, or their respective associates had interests in businesses, other than being a director of the Company and/or its subsidiaries and their respective associates, which compete or are likely to compete, either directly or indirectly, with the businesses of the Company and its subsidiaries as required to be disclosed pursuant to the Listing Rules, except for the interests held by Mr. Chu Yu Lun and Mr. Fung Siu Por, Lawrence, both Directors of the Company, in Adsale Publishing Limited which is engaged in the publication of industrial magazines catered for readers in the textile and apparel, plastic and rubber, and machinery industries. Mr. Chu is also a director of Adsale Publishing Limited.

Sufficiency of Public Float

Based on the information that is publicly available to the Company and within the knowledge of the Directors, the Company has maintained sufficient public float of more than 25% of the Company's issued shares as at the date of this Annual Report.

Compliance with Corporate Governance Code

In the opinion of the Directors, the Company has complied with the code provisions set out in the Corporate Governance Code (the "Code Provisions") contained in Appendix 14 of the Listing Rules for the year ended 31 March 2013 except as stated and explained below.

Under Code A.2.1 of the Code Provisions, the roles of Chairman and Chief Executive Officer ("CEO") should be separate and should not be performed by the same individual. The division of responsibilities between the Chairman and CEO should be clearly established and set out in writing. However, the Company has appointed Mr. Fung Siu Por, Lawrence as both its Chairman and the CEO. The Board believes that vesting the roles of the Chairman and the CEO in the same person would allow the Company to be more effective and efficient in developing long-term business strategies and execution of business plans. The Board believes that the balance of power and authority is adequately ensured by the operation of the Board, which comprises experienced and high calibre individuals with a substantial number thereof being Non-executive Directors.

Auditor

The Financial Statements have been audited by PricewaterhouseCoopers who retire and, being eligible, offer themselves for re-appointment. A resolution will be proposed at the forthcoming annual general meeting of the Company to re-appoint PricewaterhouseCoopers as auditor of the Company.

On behalf of the Board

Independent Auditor's Report

羅兵咸永道

To the shareholders of Hong Kong Economic Times Holdings Limited
(incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Hong Kong Economic Times Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 40 to 104, which comprise the consolidated and company balance sheets as at 31 March 2013, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Directors' Responsibility for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Auditor's Responsibility (Continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 March 2013, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

Notes to the Consolidated Financial Statements

Year ended 31 March 2013

1. General information

The Company was incorporated in the Cayman Islands on 15 February 2005 as an exempted company with limited liability under the Companies Law, Chapter 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands with registered office at Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands.

The Company is an investment holding company. The principal activities of its subsidiaries are the printing and publishing of newspapers, magazines and books, the provision of electronic financial and property market information services, the provision of recruitment advertising and training services, and operation of portals in lifestyle focus.

These consolidated financial statements have been approved for issue by the Board of Directors on 20 June 2013.

2. Summary of significant accounting policies

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Basis of preparation

The consolidated financial statements of the Group have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRS”) issued by the Hong Kong Institute of Certified Public Accountants. The consolidated financial statements have been prepared under the historical cost convention, as modified by available-for-sale financial assets which have been stated at fair values.

The preparation of financial statements in conformity with HKFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in note 4.

Notes to the Consolidated Financial Statements

Year ended 31 March 2013

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Changes in presentation of the consolidated statement of comprehensive income

In previous years, the Group presented all items of income and expense recognised in a year in a single statement of comprehensive income.

During the year, the Directors performed a review of the content and presentation of the consolidated financial statements and considered that it is more appropriate to adopt the two-statement presentation comprising a separate consolidated income statement, which displays components of profit or loss; and a consolidated statement of comprehensive income, which begins with profit or loss and displays components of other comprehensive income, which would be more relevant to the understanding of users of the Group's consolidated financial statements.

Consequently, the presentation of the consolidated statement of comprehensive income for the year ended 31 March 2012 has been revised and the comparatives have been revised in order to conform with the presentation adopted in these consolidated financial statements. The changes in presentation of the consolidated statement of comprehensive income do not have any impact on the Group's profit for the year or the calculation of the Group's earnings per share.

2. Summary of significant accounting policies (Continued)

2.1 Basis of preparation (Continued)

Changes in accounting policy and disclosures

During the year, there have been a number of new or revised standards, amendments to standards and interpretations that have come into effect, for which the Group has adopted such at their respective effective dates. There are no HKFRS and interpretations that are effective for the first time for the financial year beginning on or after 1 April 2012 that would be expected to have a material impact on the Group.

The following new or revised standards and amendments to standards are relevant to the Group's operation but are not effective for the Group's financial year beginning 1 April 2012 and have not been early adopted in these consolidated financial statements:

		Effective for accounting period beginning on or after
HKAS 1 (Amendment)	Presentation of financial statements	1 July 2012
HKAS 19 (Amendment)	Employee benefits	1 January 2013
HKAS 27 (Revised 2011)	Separate financial statements	1 January 2013
HKAS 32 (Amendment)	Financial instruments: Presentation – Offsetting financial assets and financial liabilities	1 January 2014
HKFRS 7 (Amendment)	Financial instruments: Disclosures – Offsetting financial assets and financial liabilities	1 January 2013
HKFRS 9	Financial instruments	1 January 2015
HKFRS 10	Consolidated financial statements	1 January 2013
HKFRS 12	Disclosures of interests in other entities	1 January 2013
HKFRS 13	Fair value measurements	1 January 2013
Annual improvements 2011		1 January 2013

The Group has commenced the assessment of the impact of these new or revised standards and amendments to standards but is not yet in a position to state whether they would have a significant impact on the Group's consolidated financial statements.

2. Summary of significant accounting policies (Continued)

2.2 Subsidiaries

2.2.1 Consolidation

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Inter-company transactions, balances, income and expenses on transactions between group companies are eliminated. Profits and losses resulting from inter-company transactions that are recognised in assets are also eliminated. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

(a) *Business combinations*

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed as incurred.

Goodwill is initially measured as the excess of the aggregate of the consideration transferred and the fair value of non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in the consolidated income statement.

2. Summary of significant accounting policies (Continued)

2.2 Subsidiaries (Continued)

2.2.1 Consolidation (Continued)

(b) *Changes in ownership interests in subsidiaries without change of control*

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(c) *Disposal of subsidiaries*

When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognised in the consolidated income statement. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to the consolidated income statement.

2.2.2 Separate financial statements

Investments in subsidiaries are accounted for at cost less impairment. Cost also includes direct attributable costs of investment. The results of subsidiaries are accounted for by the Company on the basis of dividend and receivable.

Impairment testing of the investments in subsidiaries is required upon receiving dividends from these investments if the dividend exceeds the total comprehensive income of the subsidiary in the period the dividend is declared or if the carrying amount of the investment in the separate financial statements exceeds the carrying amount in the consolidated financial statements of the investee's net assets including goodwill.

2.3 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer (“CEO”) of the Group that makes strategic decisions.

2. Summary of significant accounting policies (Continued)

2.4 Foreign currency translation

(a) *Functional and presentation currency*

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in Hong Kong dollars ("HK\$" or "HK dollars"), which is the Company's functional and the Group's presentation currency.

(b) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where the items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated income statement. Foreign exchange gains and losses are presented in the consolidated income statement within 'general and administrative expenses'.

Changes in the fair value of monetary securities denominated in foreign currency classified as available for sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in the consolidated income statement, and other changes in carrying amount are recognised in other comprehensive income.

2. Summary of significant accounting policies (Continued)

2.4 Foreign currency translation (Continued)

(c) *Group companies*

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- (i) assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- (ii) income and expenses for each income statement are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- (iii) all resulting exchange differences are recognised in other comprehensive income.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in other comprehensive income.

2.5 Property, plant and equipment

Land and buildings comprise mainly factories and offices. Leasehold land classified as finance lease and all other property, plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the consolidated income statement during the financial period in which they are incurred.

2.5 Property, plant and equipment (Continued)

Leasehold land classified as finance lease commences amortisation from the time when the land interest becomes available for its intended use. Amortisation on leasehold land classified as finance lease and depreciation on other assets is calculated using the straight-line method to allocate their costs over their estimated useful lives, as follows:

Leasehold land classified as finance lease	Remaining lease term
Leasehold buildings	20 to 50 years or over the unexpired period of the lease, whichever is shorter
Leasehold improvements	5 to 30 years or over the unexpired period of the lease, whichever is shorter
Plant and machinery	3 to 15 years
Furniture, fixtures and equipment	3 to 10 years
Motor vehicles	2 to 5 years
Network and computer equipment	3 to 5 years

The assets' useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (see note 2.8).

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'general and administrative expenses' in the consolidated income statement.

2.6 Investment properties

Investment properties, principally comprising leasehold land and buildings, are held for long-term rental yields, and that are not occupied by the Group.

Investment properties are initially measured at cost, including related transaction costs. Subsequent expenditure is charged to the carrying amount of the asset only when it is probable that future economic benefits associated with the asset will flow to the Group and the cost of the asset can be measured reliably. All other repairs and maintenance costs are expensed in the consolidated income statement during the financial period in which they are incurred.

2. Summary of significant accounting policies (Continued)

2.6 Investment properties (Continued)

Investment properties are stated at historical cost less accumulated depreciation and impairment loss, if any. They are depreciated using the straight-line method over its estimated useful life or over the unexpired period of the lease, whichever is shorter.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'general and administrative expenses' in the consolidated income statement.

2.7 Intangible assets

(a) *Goodwill*

Goodwill arises on the acquisition of subsidiaries and represents the excess of the consideration transferred over the Group's interest in net fair value of the net identifiable assets, liabilities and contingent liabilities of the acquiree and the fair value of the non-controlling interest in the acquiree.

For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash-generating units ("CGUs"), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. Goodwill is monitored at the operating segment level.

Goodwill impairment reviews are undertaken annually or more frequently if events or changes in circumstances indicate a potential impairment. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs to sell. Any impairment is recognised immediately as an expense and is not subsequently reversed.

(b) *Contractual customer relationships*

Contractual customer relationships acquired in a business combination are recognised at fair value at the acquisition date. The contractual customer relationships have a finite useful life and are carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method over the five years expected life of the contractual customer relationships.

2.8 Impairment of non-financial assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each balance sheet date.

2.9 Financial assets

2.9.1 Classification

The Group classifies its financial assets in the following categories: loans and receivables and available for sale. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(a) *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for the amounts that are settled or expected to be settled more than 12 months after the balance sheet date. These are classified as non-current assets. The Group's loans and receivables comprise 'trade and other receivables' and 'cash and cash equivalents' in the consolidated balance sheet (see notes 2.13 and 2.14).

(b) *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the balance sheet date.

2. Summary of significant accounting policies (Continued)

2.9 Financial assets (Continued)

2.9.2 Recognition and measurement

Regular way purchases and sales of financial assets are recognised on the trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Available-for-sale financial assets are subsequently carried at fair value. Loans and receivables are subsequently carried at amortised cost using the effective interest method.

When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognised in equity are included in the consolidated income statement as ‘gains and losses from investment securities’.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the consolidated income statement as part of other income.

2.10 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the consolidated balance sheet when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

2.11 Impairment of financial assets

(a) *Assets carried at amortised cost*

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or group of financial assets is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a ‘loss event’) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Evidence of impairment may include indications that the debtors or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation, and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

2. Summary of significant accounting policies (Continued)

2.11 Impairment of financial assets (Continued)

(a) *Assets carried at amortised cost* (Continued)

The amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced and the amount of the loss is recognised in the consolidated income statement. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract. As a practical expedient, the Group may measure impairment on the basis of an instrument's fair value using an observable market price.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the reversal of the previously recognised impairment loss is recognised in the consolidated income statement.

(b) *Assets classified as available for sale*

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. For debt securities, the Group uses the criteria referred to in (a) above. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the consolidated income statement – is removed from equity and recognised in the consolidated income statement. If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the consolidated income statement, the impairment loss is reversed through the consolidated income statement.

2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first-in, first-out (FIFO) method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity). It excludes borrowing costs. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses.

2. Summary of significant accounting policies (Continued)

2.13 Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection of trade and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

2.14 Cash and cash equivalents

In the consolidated cash flow statement, cash and cash equivalents include cash in hand and deposits held at call with banks with original maturities of three months or less.

2.15 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.16 Trade and other payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade and other payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2. Summary of significant accounting policies (Continued)

2.17 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the consolidated income statement over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.18 Borrowing costs

Borrowing costs are recognised in the consolidated income statement in the period in which they are incurred.

2.19 Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated income statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

(a) *Current income tax*

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

2. Summary of significant accounting policies (Continued)

2.19 Current and deferred income tax (Continued)

(b) *Deferred income tax*

Inside basis differences

Deferred income tax is recognised, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Outside basis differences

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except for deferred income tax liability where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

(c) *Offsetting*

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

2.20 Employee benefits

(a) *Employee leave entitlements*

Employee entitlements to annual leave and long service leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long service leave as a result of services rendered by employees up to the balance sheet date.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

(b) *Pension obligations*

The Group operates defined contribution plans, including a mandatory provident fund scheme ("MPF") in Hong Kong, the assets of which are generally held in separate trustee-administered funds.

A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity. The Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

The Group pays contributions to publicly or privately administered pension insurance plans on mandatory, contractual or voluntary basis. The Group's contributions to the defined contribution retirement plans are expensed as incurred. The Group's contributions to all these plans except for the MPF and the plans in the People's Republic of China ("PRC") are reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund on a reduction in the future payments is available.

2. Summary of significant accounting policies (Continued)

2.21 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.22 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts receivable for goods and services supplied, stated net of discounts, returns and rebates.

The Group recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Group's activities, as described below. The Group bases its estimates of return on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Revenues are recognised as follows:

- (i) Advertising income is recognised when the relevant advertisement is published.
- (ii) Circulation income, comprises the sales of newspapers, magazines and books, is recognised on the transfer of risks and rewards of ownership, which generally coincides with the date of delivery.
- (iii) Service income is principally derived from the provision of printing services and provision of information subscription services, solutions and other related maintenance services. Service income is recognised when the services are rendered.

2. Summary of significant accounting policies (Continued)

2.22 Revenue recognition (Continued)

- (iv) Enrolment income on the provision of professional training is recognised when the training services are rendered.
- (v) Rental income from investment properties is recognised on a straight-line basis over the lease periods.
- (vi) Interest income is recognised on a time-proportion basis using the effective interest method.

The excess of cash received from the items (i), (ii), (iii) and (iv) over the amounts recognised as revenue for the year are recorded as fees in advance in the consolidated balance sheet.

2.23 Leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the consolidated income statement on a straight-line basis over the period of the lease.

The Group leases certain property, plant and equipment. Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments.

Each lease payment is allocated between the liability and finance charges. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to the consolidated income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease term.

2. Summary of significant accounting policies (Continued)

2.24 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Group's and Company's financial statements in the period in which the dividends are approved by the Company's shareholders or directors, where appropriate.

2.25 Related parties

For the purpose of these consolidated financial statements, a party is considered to be related to the Group if the Group has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group and the party are subject to common control. Related parties may be individuals (being members of key management personnel, significant owners and/or their close family members) or other entities and include entities which are under the significant influence of related parties of the Group where those parties are individuals.

3. Financial risk management

3.1 Financial risk factors

The Group's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, and cash flow and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Group's financial performance. The Group has not used derivative financial instruments to hedge its risk exposures to changes in foreign currency exchange rates and interest rates.

(a) *Market risk*

(i) Foreign exchange risk

Most of the income and expenditures of the Group are denominated in HK dollars. Certain purchases of newsprint are denominated in United States dollars ("US dollars"). The value of the HK dollars is pegged to that of the US dollars and hence, the Group does not have any material foreign exchange exposure in this regard.

3. Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(a) *Market risk* (Continued)

(i) Foreign exchange risk (Continued)

The Group's exposure to Renminbi ("RMB") mainly arises from bank deposits and available-for-sale financial investments. At 31 March 2013, if HK dollars had weakened/strengthened by 1% against RMB with all other variables held constant, the Group's profit for the year would have been increased/decreased by approximately HK\$678,000 (2012: HK\$817,000).

The Group has not implemented or entered into any type of instruments or arrangements to hedge against currency exchange fluctuations for the year under review. As at 31 March 2013, the Group did not have any outstanding hedging instruments (2012: nil).

(ii) Cash flow and fair value interest rate risk

The Group's interest rate risk arises from 'pledged deposits', 'term deposits with original maturities of over three months', 'cash and cash equivalents' and 'bank borrowings'. Borrowings issued at variable rates expose the Group to cash flow interest rate risk which is partially offset by cash held at variable rates.

At 31 March 2013, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would increase/decrease the Group's and the Company's profit for the year by approximately HK\$1,316,000 (2012: HK\$1,055,000) and HK\$10,000 (2012: HK\$35,000) respectively, in respect of interest income on floating rate bank deposits.

At 31 March 2013, it is estimated that a general increase/decrease of 100 basis points in interest rates, with all other variables held constant, would decrease/increase the Group's profit for the year by approximately HK\$1,149,000 (2012: nil) in respect of interest expense on floating rate bank borrowings.

3. Financial risk management (Continued)

3.1 Financial risk factors (Continued)

(b) *Credit risk*

The Group's credit risk arises from its bank deposits and trade receivables while that of the Company arises from bank deposits and amounts due from subsidiaries. The management considers the credit risk for the amounts due from subsidiaries under the Company is low.

To mitigate the risk arising from banks, the Group and the Company place their deposits to certain reputable banks with a minimum rating of "investment grade" ranked by an independent party. See note 20 for further disclosure on credit risk.

The Group manages its credit risk associated with trade receivables through the application of credit approvals, credit ratings and monitoring procedures.

Credit sales are only made to customers with appropriate credit history or high credit standing while sales to new customers or customers of low credit standing are usually made on an advance payment or cash on delivery basis.

In additions, trade receivables balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. See note 19 for further disclosure on credit risk.

No credit limits were exceeded during the reporting period, and management does not expect any losses from non-performance by these counterparties.

(c) *Liquidity risk*

The Group's policy is to regularly monitor current and expected liquidity level to ensure that it maintains sufficient reserves of cash and cash equivalents to meet its liquidity requirements.

As at 31 March 2013, the Group has available undrawn borrowing facilities of approximately HK\$23,100,000 (2012: nil).

3.2 Capital management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns for owners and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group monitors capital on the basis of gearing ratio. This ratio is calculated as total interest bearing liabilities divided by total assets. Total interest bearing liabilities are calculated as total borrowings including current and non-current bank borrowings as shown in the consolidated balance sheet. Total assets are calculated as 'total assets' as shown in the consolidated balance sheet.

As at 31 March 2013, the gearing ratio was 9.6% (2012: nil).

3.3 Fair value estimation

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets that are measured at fair value at 31 March 2013 and 2012.

	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000	Total HK\$'000
As at 31 March 2013				
Available-for-sale financial assets (note 16)	16,582	–	–	16,582
As at 31 March 2012				
Available-for-sale financial assets (note 16)	14,221	–	–	14,221

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1. As at 31 March 2013, the Group has available-for-sale financial assets under this category which comprise bond investments classified as available for sale while the Company does not have financial instruments under this category (2012: same).

3. Financial risk management (Continued)

3.3 Fair value estimation (Continued)

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. As at 31 March 2013, the Group and the Company do not have financial instruments under this category (2012: same).

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. As at 31 March 2013, the Group and the Company do not have financial instruments under this category (2012: same).

4. Critical accounting estimates and judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below.

(a) Deferred income tax assets

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Audited Financial Statements

Notes to the Consolidated Financial Statements

4. Critical accounting estimates and judgements (Continued)

(a) Deferred income tax assets (Continued)

The Group's management determines the deferred income tax assets based on the enacted or substantively enacted tax rates (and laws) and the best knowledge of profit projections of the Group for coming years during which the deferred income tax assets are expected to be utilised. In assessing the amount of deferred income tax assets that need to be recognised, the Group considers future taxable income and ongoing prudent and feasible tax planning strategies. In the event that the Group estimates of projected future taxable income and benefits from available tax strategies are changed, or changes in current tax regulations are enacted that would impact the timing or extent of the Group's ability to utilise the tax benefits of net operating loss carry forwards in the future, adjustments to the recorded amount of net deferred income tax assets and income tax expense would need to be made. In addition, management will revisit the assumptions and profit projections at the balance sheet date.

(b) Provision for impairment of trade receivables

The policy for impairment of trade receivables of the Group is based on the evaluation of collectibility and ageing analysis of trade receivables and on management's judgement. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness and the past collection history of each customer. If the financial conditions of customers of the Group were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

(c) Useful lives of property, plant and equipment

Property, plant and equipment used by the Group are long-lived. The annual depreciation charges are sensitive to the estimated useful lives the Group allocates to each type of property, plant and equipment.

The Group's management determines the estimated useful lives and related depreciation charges for the Group's property, plant and equipment. Management performs annual reviews to assess the appropriateness of their estimated useful lives. Such reviews take into account the technological changes, prospective economic utilisation and physical condition of the assets concerned.

4. Critical accounting estimates and judgements (Continued)

(d) Impairment of non-financial assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable. The recoverable amounts have been determined based on value-in-use calculations or fair value less costs to sell. These calculations require the use of judgements and estimates.

Management's judgement is required in the area of asset impairment particularly in assessing: (i) whether an event has occurred that may indicate that the related asset values may not be recoverable; (ii) whether the carrying amount of an asset can be supported by the recoverable amount, being the higher of fair value less costs to sell and net present value of future cash flows which are estimated based upon the continued use of the asset in the business; and (iii) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management in assessing impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could materially affect the net present value used in the impairment test and as a result affect the Group's financial condition and results of operations.

(e) Excess of the acquirer's interest in the net fair value of the identifiable assets and liabilities acquired over the cost of the acquisition

The Group applies the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. Identifiable assets acquired and liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in the consolidated income statement.

The fair value adjustments made to the assets acquired and liabilities assumed in the business combination include fair value adjustments to properties and machineries which were based on a valuation on these properties and machineries conducted by an independent firm of professional valuer using valuation techniques which involve certain assumptions of market conditions. Favourable or unfavourable changes to these assumptions would result in changes in the fair value of the Group's assets acquired and corresponding adjustments to the excess of the acquirer's interest in the net fair value of the identifiable assets and liabilities acquired over the cost of the acquisition in the consolidated income statement. The Group had recognised the excess of the acquirer's interest in the net fair value of the identifiable assets and liabilities acquired over the cost of the acquisition amounting to approximately HK\$7,461,000 for the year ended 31 March 2012.

The chief operating decision-maker has been identified as the CEO of the Group. He reviews the Group's internal reporting in order to assess performance and allocate resources. Management has determined the operating segments based on these reports.

5. Revenue, other income and segment information (Continued)

The Group has 4 reportable segments:

- (a) Printed media segment – principally engaged in the printing and publication of newspapers, magazines and books and generates advertising income, circulation income and service income from these publications.
- (b) Financial news agency, information and solutions segment – principally engaged in the provision of electronic financial and property market information and related solutions and generates service income from provision of information subscription services, solutions and other related maintenance services.
- (c) Recruitment advertising and training segment – principally engaged in the provision of recruitment advertising and training services. This segment generates advertising income from placement of recruitment advertisements, and enrolment income on the provision of professional training.
- (d) Lifestyle portals segment – principally engaged in the operation of portals in food, travel, health and other lifestyle focus. This segment generates advertising income and service income from operation of internet portals.

The chief operating decision-maker assesses the performance of the operating segments based on their respective segment results.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies.

Sales between segments are carried out at arm's length.

More than 90% of the Group's activities are carried out in Hong Kong and more than 90% of the Group's assets and liabilities are located in Hong Kong. Accordingly, no analysis by geographical basis for the relevant years is presented.

At 31 March 2013	(403)	(28,059)	(28,462)

Deferred income tax assets are recognised for tax loss carry-forwards to the extent that the realisation of the related tax benefit through the future taxable profits is probable. The Group did not recognise deferred income tax assets of approximately HK\$9,884,000 (2012: HK\$9,762,000) in respect of tax losses amounting to HK\$57,679,000 (2012: HK\$55,563,000) that can be carried forward against future taxable income. The tax losses of HK\$53,369,000 from Hong Kong subsidiaries have no expiry date while other tax losses from the PRC subsidiaries amounting to HK\$2,403,000 and HK\$1,907,000 will expire in 2013 and 2014 respectively.

18. Inventories – Group

	2013 HK\$'000	2012 HK\$'000
Raw materials	30,861	45,331
Work in progress	75	1,267
Finished goods	8,127	7,387
Less: provision for obsolete inventories	(4,145)	(3,808)
	34,918	50,177

The cost of inventories recognised as expense and included in 'cost of sales' amounted to HK\$224,438,000 (2012: HK\$158,476,000).

19. Trade receivables – Group

The ageing analysis of trade receivables by overdue day is as follows:

	2013 HK\$'000	2012 HK\$'000
0 to 30 days	122,814	116,231
31 to 60 days	26,021	26,607
61 to 90 days	23,291	15,684
Over 90 days	32,256	28,773
Trade receivables, gross	204,382	187,295
Less: provision for impairment of trade receivables	(3,120)	(3,547)
	201,262	183,748

The carrying amounts of trade receivables are reasonable approximation of their fair values. Majority of the trade receivables are denominated in HK dollars.

Trade receivables that are not past due and not impaired amounted to HK\$72,532,000 (2012: HK\$77,049,000). These balances relate to a wide range of customers for whom there was no recent history of default.

The credit period granted by the Group to its trade customers ranges from 0 to 90 days. Below is the ageing analysis of trade receivables that are past due as at the balance sheet date but not impaired:

	2013 HK\$'000	2012 HK\$'000
1 to 30 days	49,694	39,182
31 to 60 days	26,021	26,607
61 to 90 days	23,291	15,684
Over 90 days	29,724	25,226
	128,730	106,699

Trade receivables past due but not impaired relate to a number of independent debtors for whom there is no significant financial difficulty and based on experience, the overdue amounts can be recovered.

19. Trade receivables – Group (Continued)

The movement in provision for impairment of trade receivables during the year is as follows:

	2013 HK\$'000	2012 HK\$'000
At beginning of the year	3,547	3,800
Reversal of provision for impairment	(427)	–
Amounts written off as uncollectible	–	(253)
At end of the year	3,120	3,547

The Group assesses its trade receivables individually to determine their recoverability and the provision for impairment of trade receivables is used to record the provision made as a result of such assessments. The ending balance of the provision for impairment of trade receivables represents accounts that were past due over an extended period of time and the Group considers that they may not be recoverable.

The maximum exposure to credit risk at the balance sheet date is the carrying value of trade receivables mentioned above. The Group does not hold any collateral as security.

20. Cash and cash equivalents, term deposits with original maturities of over three months and pledged deposits – Group and Company

	Group		Company	
	2013 HK\$'000	2012 HK\$'000	2013 HK\$'000	2012 HK\$'000

21. Trade payables – Group

The ageing analysis of trade payables is as follows:

	2013 HK\$'000	2012 HK\$'000
0 to 30 days	38,156	54,412
31 to 60 days	1,311	2,461
61 to 90 days	137	317
Over 90 days	1,085	595
	40,689	57,785

The carrying amounts of trade payables approximate their fair values. Majority of the trade payables are denominated in HK dollars.

22. Bank borrowings – Group

	2013 HK\$'000	2012 HK\$'000
Non-current Bank borrowings	90,461	–
Current Bank borrowings	24,432	–
Total borrowings	114,893	–

22. Bank borrowings – Group (Continued)

Bank borrowings were repayable as follows:

	2013 HK\$'000
Within one year	24,432
Between one and two years	25,053
Between two and five years	65,408
Wholly repayable within five years	114,893

The carrying amounts of the floating rate bank borrowings are denominated in HK dollars and are secured by leasehold improvements, plant and machinery and machinery under installation under property, plant and equipment of the Group (note 14).

The bank borrowings are exposed to interest rate changes and the contractual repricing dates are 6 months or less at the balance sheet date. The effective interest rate of the bank borrowings at the balance sheet date was 2.45% (2012: nil).

The fair values of the non-current bank borrowings are estimated using discounted cash flow calculations based on the borrowing rate of 2.45% (2012: nil). The carrying amounts of current bank borrowings approximate their fair values, as the impact of discounting is not significant.

23. Share capital – Group and Company

	2013 HK\$'000	2012 HK\$'000
Authorised: 2,000,000,000 shares of HK\$0.10 each	200,000	200,000

29. Business combination – Group

On 2 November 2011, the Group acquired the entire issued share capital of Ringier Print (HK) Limited (subsequently renamed to Apex Print Limited), a periodicals and magazines printing company in Hong Kong, at a cash consideration of HK\$215,000,000. Ringier Print (HK) Limited (subsequently renamed to Apex Print Limited) is one of the major printers of the Group before acquisition.

The acquisition would have synergistic value to the Group, strengthening the smooth production of the Group's publications and facilitating the future growth of the Group's core business.

The following table summarises the consideration paid for Ringier Print (HK) Limited (subsequently renamed to Apex Print Limited), the fair value of assets acquired and liabilities assumed at the acquisition date.

	2012 HK\$'000
Consideration	
Consideration paid by cash	215,000
Total consideration	215,000

29. Business combination – Group (Continued)

The following table summarises the fair value of identifiable assets acquired and liabilities assumed:

	2012 HK\$'000
Cash and cash equivalents	12,805
Property, plant and equipment	215,514
Deposits paid for property, plant and equipment	405
Inventories	21,145
Trade receivables	34,792
Deposits, prepayments and other receivables	4,121
Tax recoverable	32
Trade payables	(22,458)
Accruals, other payables and provisions	(22,399)
Deferred income tax liabilities	(21,496)
Total identifiable net assets	222,461
Excess of the acquirer's interest in the net fair value of the identifiable assets and liabilities acquired over the cost of the acquisition	(7,461)
	215,000

Acquisition-related costs of HK\$1,918,000 had been charged to 'general and administrative expenses' in the consolidated income statement for the year ended 31 March 2012.

Analysis of the net outflow of cash and cash equivalents in respect of the acquisition:

	2012 HK\$'000
Consideration paid	215,000
Cash and cash equivalents acquired	(12,805)
Net outflow of cash and cash equivalents in respect of the acquisition	202,195

The excess of the acquirer's interest in the net fair value of the identifiable assets and liabilities acquired over the cost of the acquisition is mainly attributable to the immediate exit opportunity offered to the vendor.
