As for segment results, that of the fashion business recorded a profit of HK\$14,406,000, representing a decrease of 59.4% as compared with a profit of HK\$35,465,000 of last year, which was mainly due to the unsatisfactory performance of the oversea markets. During the year, the gross profit margin of fashion business decreased from 67.5% of last year to 64.6%, representing a decrease of 2.9 percentage

The net proceeds from the disposal after deducting related taxes helped to improve the working capital condition of the Group. In addition, it also further enhanced production effectiveness of the fashion business by making good use of the utilization rate of the existing factory in China.

#### **Prospects**

#### **Fashion Business**

The Group expects that its retail business will continue to face challenges. Consumption sentiment is still rather prudent and there is continuous fluctuation in the sales of oversea markets which is not expected to bottom out in the short run. Therefore, the Group will exercise prudent strategies on business expansion to oversea markets and keep abreast of market condition by not only putting resources in enhancing the effectiveness of existing retail outlets but also restructuring under-performed outlets in Mainland China and Taiwan so as to integrate resources and increase productivity. Hong Kong and Macau are still the key markets and main income sources for the Group's fashion business and accounted for 67.2% to the total turnover of fashion business during the period under review. In light of the outstanding performance of the sales growth and gross profit margin of Hong Kong and Macau markets as compared with other markets, the Group will continue to develop in Hong Kong market with practical strategies in the future. Due to the increasing rentals and production cost, the Group will identify prime locations with competitive rents to open its outlets and focus on product design and offer popular products that bring relatively higher profits to enhance brand value.

#### 化妝品業務

化妝品業務持續為集團帶來盈利之貢獻, 本期佔集團總營業額59.1%,而分類業績 錄得32,975,000港元盈利,與去年同期之 35,537,000港元盈利對比下跌了7.2%。其 中原因有期內集團不斷提升店舖形象,為 數間店舖以新形象進行翻新裝修工程, 除了增加了部份固定資產的撇帳外,在工 程期間也免不了營業額之損失;此外,本 期亦有由於不合理租金上升而搬遷數間 店舖,當中涉及還原裝修之費用,折舊開 支亦有所增加,不過集團認為這只是暫時 性之影響,事實上店舖經過翻新裝修工程 重開後,營業額亦有顯著的提升,對未來 業務發展有所裨益。本期化妝品業務之毛 利率為36.4%,較去年同期之37.6%減少了 1.2百分點,比起去年之毛利率跌幅已見 收窄。

於回顧期內,集團增加了13間Colourmix 店舖,結束了4間店舖。在過去兩年,集 團每年均以十多間店舖的開店速度不斷 擴展零售網絡,需要調動經驗豐富的員工 去支援新開店舖,庫存規劃方面亦要作出 特別調整以配合此快速增長,故此在此調 整期穩定後有信心化妝品業務更勝現時。 現時獨家代理品牌佔化妝品業務總銷售 額約38%。未來集團會繼續致力豐富產品 系列、增加獨家經銷及潮流之美容產品、 培訓員工提供優質專業之服務。至二零 一三年三月三十一日設有66間Colourmix 店舖,店舖網絡已達規模效益,未來集團 會著重內部整固,與此同時,集團現正針 對提升業務效益投放資源,包括營運流 程、庫存規劃及資源管理等層面更為自動 及系統化。而二零一三年四月至五月份, 化妝品業務之同店銷售更錄得約25%之升 幅。管理層對未來化妝品業務之發展充滿 信心,會按現時速度繼續擴展店舖網絡。

#### **Cosmetics Business**

Cosmetics business continued to contribute to the Group's profit and accounted for 59.1% to the total turnover of the Group during the period. It recorded a segment results of profit of HK\$32,975,000, representing a decrease of 7.2% as compared with a profit of HK\$35,537,000 for the same period of last year. This was because the Group continuously promoted the shop image during the period with a few outlets renovated with new images. In addition to the increase in the amount written off for certain fixed assets, turnover decreased inevitably during the renovation period. Moreover, the Group moved a few of its outlets due to unreasonable rentals increment, which resulted in expenditure for restoration, while depreciation expenses was also increased. The Group believed that the abovementioned were temporary impacts and the turnover of those outlets even recorded a significant increase after renovation, which is favorable to the future development of the business. During the period, gross profit margin of cosmetics business was 36.4%, representing a decrease of 1.2 percentage points as compared with 37.6% for the same period of last year, which seen an improvement as compared with the decrease in gross profit margin for last year.

During the period under review, the Group opened 13 additional Colourmix outlets and closed 4 outlets. Over the past two years, as the Group has been expanding its retail network by opening over 10 outlets each year on average. The Group needs to deploy experienced staff to support the newly opened outlets, and made special adjustments in inventory planning to cope with such rapid increase. The Group is confident that the cosmetics business will achieve improvement after such consolidation stage. Currently, sales of exclusively distributed branded products accounted for about 38% of total sales of the cosmetics business. In the future, the Group will keep on enriching the product portfolio, increasing the variety of cosmetics products with exclusive distributorship and trendy cosmetics products, and training employees to provide quality and professional services. As of 31st March, 2013, the Group had established 66 Colourmix outlets with economies of scale in its outlet network. In the future, the Group will focus on internal consolidation. Meanwhile, the Group is currently investing resources in light of enhancing business efficiency, including better automated and systematic approaches for the operating process, inventory planning, resource management, etc. During the period from April to May 2013, cosmetics business recorded an increase of approximately 25% on the turnover of comparable outlets. The management is confident about the future development of the cosmetics business and will continue to expand outlet network according to existing pace.

The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinion

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Group as at 31st March, 2013, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

	之部份。

除下文所述者外,於本年度採納此等香港 財務報告準則之修訂本並無對本年度及過 往年度本集團之財務表現及狀況及/或綜 合財務報表所載之披露資料造成重大影 響。

#### 香港會計準則第12號修訂本「遞延稅項: 收回相關資產」

於本年度,本集團首次應用香港會計準 則第12號修訂本「遞延稅項:收回相關資 產」。根據該修訂本,按照香港會計準則 第40號「投資物業」以公平價值模式計量之 投資物業是假設可透過出售收回而作為計 算遞延稅項,除非此項假設在若干情況下 被駁回。

本集團按公平價值模式計算其投資物業。 由於應用香港會計準則第12號修訂本,董 事審閱本集團之投資物業組合並認為本集 團之投資物業並非根據商業模式持有,而 該商業模式乃隨時間消耗投資物業內絕大 部份經濟利益,因此董事認為在香港會計 準則第12號修訂本所列載之出售假設並未 被駁回。

The Company was incorporated as an exempted company with limited liability in the Cayman Islands and its shares are listed on The Stock Exchange of Hong Kong Limited (the "Stock Exchange"). The directors consider the parent and the ultimate holding company is Silver Crown Profits Limited, a company incorporated in the British Virgin Islands. The addresses of the registered office and the principal place of business of the Company are disclosed in "Corporate Information" of the annual report.

The Company is an investment holding company. The principal activities of its principal subsidiaries are set out in note 32.

The consolidated financial statements are presented in Hong Kong dollar, which is also the functional currency of the Company.

### Application of New and Revised Hong Kong Financial Reporting standards ("HKFRSs")

In the current year, the Group has applied the following amendments to HKFRSs issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"):

Amendments to HKAS 12	Deferred Tax: Recovery of Underlying Assets;
Amendments to HKFRS 7	Financial Instruments: Disclosures – Transfers of Financial Assets; and
Amendments to HKAS 1	As part of the Annual Improvements to HKFRSs 2009-2011 Cycle issued in 2012.

Except as described below, the application of the amendments to HKFRSs in the current year has had no material impact on the Group's financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

#### Amendments to HKAS 12 "Deferred Tax: Recovery of Underlying Assets"

The Group has applied for the first time the amendments to HKAS 12 "Deferred Tax: Recovery of Underlying Assets" in the current year. Under the amendments, investment properties that are measured using the fair value model in accordance with HKAS 40 "Investment Property" are presumed to be recovered entirely through sale for the purposes of measuring deferred taxes, unless the presumption is rebutted in certain circumstances.

The Group measures its investment properties using the fair value model. As a result of the application of the amendments to HKAS 12, the directors reviewed the Group's investment property portfolios and concluded that none of the Group's investment properties are held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, the directors have determined that the 'sale' presumption set out in the amendments to HKAS 12 is not rebutted.

## Amendments to HKAS 12 "Deferred Tax: Recovery of Underlying Assets" (Continued)

The application of the amendments to HKAS 12 has resulted in the Group not recognising any deferred taxes on changes in fair value of the investment properties as the Group is not subject to any income taxes on disposal of its investment properties. Previously, the Group recognised deferred taxes on changes in fair value of investment properties on the basis that the entire carrying amounts of the properties were recovered through use.

香港會計準則第12號修訂本已被追溯應 用,導致本集團截至二零一一年四月一日 止之遞延稅項負債減少2,244,000港元,於 滾存溢利中作增加並確認。類同地,截至 二零一二年三月三十一日止之遞延稅項負 債減少2,755,000港元。

於本年度,截至轉撥至產業、廠房及設備 當日止,並無就本集團之投資物業之公平 價值變動計提遞延稅項。而會計政策之變 動導致本集團截至二零一三年三月三十一 日及二零一二年三月三十一日止年度之利 得稅開支分別減少932,000港元及511,000 港元,並因此導致截至二零一三年三月 三十一日止及截至二零一二年三月三十一 日止年度之溢利分別增加932,000港元及 511,000港元。

於二零一三年一月一日,有一項投資物業 轉撥至產業、廠房及設備,該投資物業於 轉撥當日之公平價值為28,500,000港元, 作為業主開始自用該物業時之視作成本。 於更改該物業之擬定用途時,董事認為該 物業內含之一切經濟利益大致上將於估計 可使用年期內以使用方式消耗。由於假設 於應用香港會計準則第12條後,將能夠透 過出售收回物業之全部賬面值,故並無於 更改意向前就本集團投資物業之公平價值 變動作出遞延稅項撥備,並因而於轉撥日 期確認物業公平價值變動之遞延稅項。將 投資物業轉撥至產業、廠房及設備,導致 本集團於截至二零一三年三月三十一日止 年度之所得稅開支增加3,475,000港元,並 因此導致截至二零一三年三月三十一日止 年度溢利減少3,475,000港元。

The amendments to HKAS 12 have been applied retrospectively, resulting in the Group's deferred tax liabilities being decreased by HK\$2,244,000 as at 1st April, 2011, with the corresponding credit being recognised in retained earnings. Similarly, the deferred tax liabilities have been decreased by HK\$2,755,000 as at 31st March, 2012.

In the current year, no deferred taxes have been provided for changes in fair value of the Group's investment properties up till the date of transfer to property, plant and equipment. The change in accounting policy has resulted in the Group's income tax expense for the years ended 31st March, 2013 and 31st March, 2012 being reduced by HK\$932,000 and HK\$511,000, respectively, and hence resulted in profit for the years ended 31st March, 2013 and 31st March, 2012 being increased by HK\$932,000 and HK\$511,000, respectively.

On 1st January, 2013, an investment property was transferred to property, plant and equipment at a fair value of HK\$28,500,000 at the date of transfer, which is the deemed cost of the property, upon the commencement of owneroccupation. Upon the change in intention of usage of the property, the directors are in the opinion that all of the economic benefits embodied in this property will be consumed substantially over its estimated useful life through use. As the entire carrying amount of the property was presumed to be recovered through sale upon the application of the amendments of HKAS 12, and hence no deferred tax has been provided for changes in fair value of the Group's investment properties, upon the change of intention, deferred tax on changes in fair value of the property to property, plant and equipment has resulted in the Group's income tax expense for the year ended 31st March, 2013 being increased by HK\$3,475,000.

香港會計準則第1號修訂本「財務報表之呈 列」(於二零一二年六月頒佈對香港財務報 告準則二零零九年至二零一一年期間之年 度改進之部份)

香港財務報告準則之各項修訂本於二零 一二年六月頒佈,題為「香港財務報告準 則(二零零九年至二零一一年期間)之年 度改進」。該等修訂本之生效日期為二零 一三年一月一日或之後開始之年度期間。

於本年度,本集團在生效日期(二零一三 年一月一日或之後開始之年度期間)前首 次應用香港會計準則第1號修訂本。

香港會計準則第1號規定,追溯更改會計 政策或作出追溯重列或重新分類之實體, 呈列於以往期間期初時之財務狀況表(第 三份財務狀況表)。香港會計準則第1號修 訂本釐清,實體僅於追溯應用、重列或重 新分類對第三份財務狀況表之資料具重大 影響時,方須呈列第三份財務狀況表,而 有關附註毋須隨第三份財務狀況表附奉。

於本年度,本集團首次應用香港會計準 則第12號修訂本「遞延稅項:收回相關資 產」。本公司董事認為,除於本附註所披 露者外,追溯應用香港會計準則第12號修 訂本對期初財務狀況表並無構成重大影 響,因此本集團並無呈列於二零一一年四 月一日之第三份財務狀況表。 Application of New and Revised Hong Kong Financial Reporting standards ("HKFRSs") (Continued)

Amendments to HKAS 1 "Presentation of Financial Statements" (as part of the Annual Improvements to HKFRSs 2009-2011 Cycle issued in June 2012)

Various amendments to HKFRSs were issued in June 2012, the title of which is "Annual Improvements to HKFRSs (2009-2011 Cycle)". The effective date of these amendments is annual periods beginning on or after 1st January, 2013.

In current year, the Group has applied for the first time the amendments to HKAS 1 in advance of the effective date (annual periods beginning on or after 1st January, 2013).

HKAS 1 requires an entity that changes accounting policies retrospectively, or makes a retrospective restatement or reclassification to present a statement of financial position as at the beginning of the preceding period (third statement of financial position). The amendments to HKAS 1 clarify that an entity is required to present a third statement of financial position only when the retrospective application, restatement or reclassification has a material effect on the information in the third statement of financial position and that related notes are not required to accompany the third statement of financial position.

In the current year, the Group has applied the amendments to HKAS 12 "Deferred Tax: Recovery of Underlying Assets" for the first time. In the opinion of the directors of the Company, the retrospective application of amendments to HKAS 12 does not have a material effect on the information in the opening statement of financial position other than as disclosed in this note and accordingly, the Group has not presented a third statement of financial position as at 1st April, 2011.

### 香港會計準則第1號修訂本「其他全面收入 項目之呈列」

香港會計準則第1號修訂本「其他全面收入 項目之呈列」引入全面收入表及收益表之 新專門用語。根據香港會計準則第1號修 訂本,「全面收入表」乃更名為「損益及其 他全面收入表」。香港會計準則第1號修訂 本亦保留可於一個單一報表內或於兩個 獨立而連續之報表內呈列損益及其他全 面收入之選擇權。然而,香港會計準則第 1號修訂本規定其他全面收入項目將分為 兩類:(a)其後將不會重新分類至損益之項 目;及(b)於滿足特定條件後可重新分類至 損益之項目。須按相同基準將所得稅分配 至各其他全面收入項目內 – 修訂本並無更 改其他全面收入項目以除稅前數字或除稅 後數字呈列之選擇。

香港會計準則第1號修訂本於本集團二零 一三年四月一日或之後開始之年度期間生 效。於應用該等修訂本時,其他全面收入 項目之呈列將作出相應修改。

本公司董事預期應用其他新訂及經修訂之 香港財務報告準則將不會對綜合財務報表 造成重大影響。

#### Amendments to HKAS 1 "Presentation of Items of Other Comprehensive Income"

The amendments to HKAS 1 "Presentation of Items of Other Comprehensive Income" introduce new terminology for the statement of comprehensive income and income statement. Under the amendments to HKAS 1, a "statement of comprehensive income" is renamed as a "statement of profit or loss and other comprehensive income". The amendments to HKAS 1 also retain the option to present profit or loss and other comprehensive income in either a single statement or in two separate but consecutive statements. However, the amendments to HKAS 1 require items of other comprehensive income to be grouped into two categories: (a) items that will not be reclassified subsequently to profit or loss; and (b) items that may be reclassified subsequently to profit or loss when specific conditions are met. Income tax on items of other comprehensive income is required to be allocated on the same basis – the amendments do not change the option to present items of other comprehensive income either before tax or net of tax.

The amendments to HKAS 1 are effective for the Group for annual period beginning on 1st April, 2013. The presentation of items of other comprehensive income will be modified accordingly when the amendments are applied.

The directors of the Company anticipate that the application of other new and revised HKFRSs will have no material impact on the consolidated financial statements.

#### 3. Significant Accounting Policies

The consolidated financial statements have been prepared in accordance with HKFRSs issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for certain properties that are measured at fair values, as explained in the accounting policies set out below. Historical cost is generally based on the fair value of the consideration given in exchange of goods.

The principal accounting policies are set out below.

#### Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved where the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

#### **Revenue recognition**

Revenue is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods sold in normal course of business, net of discounts, returns, allowances and sales related taxes.

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Group; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### 收入確認(續)

金融資產之利息收入於有關經濟利益將可 能流入本集團及收入金額能予可靠計量時 確認。利息收入乃按時間基準計算,並參 考尚餘本金額及適用之實際利率(即透過 將該項金融資產估計年期預計之未來現金 收入折讓至該項資產於初次確認時之賬面 淨值之息率)。

### 投資物業

投資物業乃指持有作出租用途及/或作資 本增值的物業。

投資物業乃按成本初次計算,包括任何直 接應計開支。於初次確認後,投資物業乃 按公平價值計值。投資物業公平價值變動 所產生之收益或虧損均計入其產生期間之 損益。

投資物業於出售後或當該投資物業永久停 用及預期其出售將不會帶來未來經濟利益 時,將被解除確認。產業被解除確認後產 生之任何收益或虧損(出售之所得款項淨 額與該項資產賬面值之差額)將計入其被 解除確認之期間之損益。

倘投資物業因用途改變而變為由業主自用 物業(包括租賃土地及樓宇部份),並有證 據顯示業主開始自用物業,其後作會計處 理之物業權益之視作成本乃用途變更當日 之公平價值。

### 產業、廠房及設備

3. Significant Accounting Policies (Continued)

#### **Revenue recognition** (Continued)

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

#### **Investment** properties

Investment properties are properties held to earn rentals and/or for capital appreciation.

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are measured at their fair value. Gains or losses arising from changes in the fair value of investment property are included in the profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the item is derecognised.

If an investment property becomes owner occupied property (including both leasehold land and building elements) because its use changed as evidenced by the commencement of owner-occupation, the deemed cost of property interest for subsequent accounting shall be its fair value at the date of change in use.

### Property, plant and equipment

Property, plant and equipment including leasehold land (classified as finance leases) and buildings held for use in the production or supply of goods, or for administrative purposes are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

在融資租賃持有下之資產,於其預計可 使用年期按自有資產相同之基準折舊。 然而,當擁有權未能在租賃期末合理地確 定,則資產須以其租賃期及可使用年期兩 者中的較短者折舊。

產業、廠房及設備項目於出售後或預期 持續使用該資產將不會帶來未來經濟利 益時,將被解除確認。出售或棄用某項產 業、廠房及設備所產生之任何損益乃按出 售之所得款項與該項資產賬面值之差額釐 定,並將計入損益。

### 有形資產的減值損失

於本報告期末,本集團審閱其有形資產之 賬面值以決定是否有任何顯示該等資產 受到減值損失。倘有此跡象出現,該資產 之可收回金額將予估計,以釐定減值虧損 (如有)之程度。倘無法估計個別資產之可 收回金額,則本集團估計該項資產所屬之 現金產生單位之可收回金額。倘合理且一 貫之分配基準能獲得識別,則企業資產亦 會被分配至個別之現金產生單位,否則會 被分配至可合理地及按一貫分配基準而識 別之最小現金產生單位組別中。

可收回金額為公平價值減銷售成本及使用 價值之較高者。於估計使用價值時,估計 未來現金流量乃使用稅前貼現率折現至其 現值,該貼現率反映現時市場對貨幣時間 值之評估以及估計未來現金流量未經調整 之資產之獨有風險。

倘資產之估計可收回金額少於其賬面值, 則該項資產之賬面值減少至其可收回金 額。減值虧損隨即於損益中確認。 截至二零一三年三月三十一日止年度

Significant Accounting Policies (Continued)

#### **Property, plant and equipment** (*Continued*)

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

#### Impairment losses on tangible assets

At the end of the reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

#### Impairment losses on tangible assets (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised as income immediately.

#### Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### The Group as lessor

Rental income from operating leases is recognised in profit or loss on a straight-line basis over the term of the relevant lease.

#### The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the consolidated statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss. Contingent rentals are recognised as expenses in the period in which they are incurred.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis.

3. Significant Accounting Policies (Continued)

#### Leasing (Continued)

#### Leasehold land and buildings

When a lease includes both land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire lease is classified as an operating lease. Specifically, the minimum lease payments (including any lump-sum upfront payments) are allocated between the land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element of the lease at the inception of the lease.

To the extent the allocation of the lease payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the land and building elements, the entire lease is generally classified as a finance lease and accounted for as property, plant and equipment.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is calculated using the first-in, first-out method. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

#### **Financial instruments**

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

#### Financial assets

The Group's financial assets are classified as loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition.

Interest income is recognised on an effective interest basis for debt instruments.

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Subsequent to initial recognition, loans and receivables (including trade and other receivables, rental and utility deposits paid, certificate of deposit, pledged bank deposits and bank balances, deposits and cash) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment of financial assets below).

#### Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of the reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the financial assets have been affected.

Objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest and principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

#### Financial assets (Continued)

Impairment of financial assets (Continued)

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Group's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period and observable changes in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When a trade receivable is considered uncollectable, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

For financial assets measured at amortised cost, if, in a subsequent period, the amount of impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

#### Financial liabilities and equity instruments

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

#### Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

#### Financial liabilities

Financial liabilities including trade and other payables, rental deposits received, secured bank borrowings and obligation under a finance lease are subsequently measured at amortised cost, using the effective interest method.

#### Derecognition (Continued)

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

#### **Foreign currencies**

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recorded in the respective functional currency (i.e. the currency of the primary economic environment in which the entity operates) at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group (i.e. Hong Kong dollar) using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year, unless exchange rates fluctuate significantly during the period, in which case, the exchange rates prevailing at the dates of transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

#### Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "profit before tax" as reported in the consolidated statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profit against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of the reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

#### **Faxation** (Continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. If the presumption is rebutted, deferred tax liabilities for such investment properties are measured in accordance with the above general principles set out in HKAS 12 (i.e. based on the expected manner as to how the properties will be recovered).

Current and deferred tax is recognised in profit or loss, except when it relates to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

#### **Retirement benefits costs**

Payments to the defined contribution retirement benefit plans, including state-managed retirement benefit schemes and the Mandatory Provident Fund Scheme, are recognised as an expense when employees have rendered service entitling them to the contributions.

#### Share-based payment transactions

#### Share options granted to employees of the group entities

The fair value of services received determined by reference to the fair value of share options granted at the grant date is expensed on a straight-line basis over the vesting period, with a corresponding increase in equity (share option reserve).

At the end of each reporting period, the Group revises its estimates of the number of options that are expected to ultimately vest. The impact of the revision of the original estimates during the vesting period, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share option reserve.

### 關鍵會計判斷及估計不 確定因素之主要來源

於應用本集團之會計政策時(已於附註3詳 述),本公司董事需就不能與其他來源明 顯區分之資產及負債之賬面值作出判斷、 估計及假設。估計及相關假設乃按照過往 經驗及其他被認為有關之因素而作出。確 實結果可能與此等估計有別。

估計及相關假設均會持續檢討。如該檢討 僅影響該期間,會計估計檢討會於該期間 確認,或如該檢討影響現在及將來期間, 則於檢討期間及將來期間確認。

### 應用會計政策時之關鍵判斷

下文為董事於應用本集團會計政策之過程 中所作出,且對綜合財務報表所確認之金 額具有最重大影響之關鍵判斷(涉及推測 者(見下文)除外)。

#### 投資物業之遞延稅項

為計算使用公平價值計量的投資物業而產 生的遞延稅項負債,董事已審閱本集團之 投資物業組合,並認為本集團的投資物業 並非透過隨時間消耗該等物業所包含的絕 大部份經濟利益的商業模式持有。因此, 於計量本集團投資物業之遞延稅項時,董 事已決定按公平價值模式計量之投資物業 之賬面值可透過出售全數收回之假定並無 被駁回。由於本集團無須就出售其投資物 業繳納任何所得稅,故此本集團並無按投 資物業公平價值變動確認任何遞延稅項。 截至二零一三年三月三十一日止年度

### 4. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

#### Deferred taxation on investment properties

For the purposes of measuring deferred tax liabilities arising from investment properties that are measured using the fair value model, the directors have reviewed the Group's investment property portfolios and concluded that the Group's investment properties are not held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time. Therefore, in measuring the Group's deferred taxation on investment properties, the directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is not rebutted. As a result, the Group has not recognised any deferred taxes on changes in fair value of investment properties as the Group is not subject to any income taxes on disposal of its investment properties.

#### 估計不確定因素之主要來源

下述為就未來作出之主要假設及於本報告 期末之估計不確定因素之其他主要來源對 下一個財政年度資產及負債之賬面值造成 須作出重大調整之重大風險。

#### 遞延稅項資產

於二零一三年三月三十一日,本集團綜合 財務狀況表中已分別就未動用稅項虧損 及未實現存貨溢利確認2,361,000港元及 6,171,000港元(二零一二年:2,049,000港 元及5,264,000港元)之遞延稅項資產。由 於未來溢利來源難以預測,故此並無確認 未動用稅項虧損77,286,000港元(二零一二 年:44,090,000港元)之遞延稅項。遞延稅 項資產能否變現主要視乎未來是否有足夠 溢利或日後會否出現應課稅暫時差額。倘 若未來實際溢利少於或多於預期,則遞延 稅項資產可能會出現大量撥回或作出額 外確認,並於未來之綜合全面收入表中確 認。

#### 存貨準備

本集團管理層審閱於報告期末存貨列 表,並根據管理層之估計及經驗為過時 及滯銷之存貨作出準備。於二零一三年 三月三十一日,存貨賬面值(扣除準備 6,601,000港元(二零一二年:7,750,000港 元))為357,588,000港元(二零一二年: 299,472,000港元)。管理層主要根據最近 期發票價格及當時市場狀況,對存貨之可 變現淨值進行估計。如存貨狀況變壞或市 場狀況嚴重衰退,則或須額外作出準備。 截至二零一三年三月三十一日止年度

Critical Accounting Judgements and Key Sources of Estimation Uncertainty (Continued)

#### Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### Deferred tax assets

4.

As at 31st March, 2013, deferred tax assets of HK\$2,361,000 and HK\$6,171,000 (2012: HK\$2,049,000 and HK\$5,264,000) in relation to unused tax losses and unrealised profit on inventories have been recognised in the Group's consolidated statement of financial position, respectively. No deferred tax has been recognised in respect of unused tax losses of HK\$77,286,000 (2012: HK\$44,090,000) due to the unpredictability of future profit streams. The realisability of the deferred tax assets mainly depends on whether sufficient future profits or taxable temporary differences will be available in the future. In cases where the actual future profits generated are less or more than expected, a material reversal or additional recognition of deferred tax assets may arise, which would be recognised in the consolidated statement of comprehensive income in future.

#### Allowance for inventories

Management of the Group reviews the inventories listing at the end of the reporting period, and makes allowance for obsolete and slow-moving inventory items identified based on management's estimation and experience. As at 31st March, 2013, the carrying amount of inventories (net of allowances amounted to HK\$6,601,000 (2012: HK\$7,750,000)) is HK\$357,588,000 (2012: HK\$299,472,000). Management estimates the net realisable value for inventories based primarily on the latest invoice prices and current market conditions. If the conditions of inventories are deteriorated, or the market conditions worsen significantly, additional allowances may be required.

#### SEGMENT REVENUE AND RESULTS (Continued)

The accounting policies of the operating segments are the same as the Group's accounting policies described in note 3. Segment profit represents the profit before tax earned by each segment without allocation of increase in fair values of investment properties, certain other income, gains and losses, central administration costs and finance costs. This is the measure reported to the executive directors for the purposes of resource allocation and performance assessment.

No analysis of segment assets and segment liabilities is presented as the executive directors do not review such information for the purposes of resource allocation and performance assessment.

**Income Tax** Expense (Continued)

Hong Kong Profits Tax is calculated at 16.5% of the estimated assessable profit for both years.

Taxation arising in other jurisdictions is calculated at the rates prevailing in the relevant jurisdictions. The corporate tax rate in Taiwan was 17% for both years.

Under Decree Law No.58/99/M, a Macau company incorporated under that Law (called "58/99/M company") is exempted from Macau complementary tax (Macau income tax) as long as the 58/99/M company does not sell its products to a Macau resident company.

Certain subsidiaries operating in Macau are subject to Macau complementary tax of 12%, subject to finalisation of the tax liability with the relevant tax authority. During the current year, an overprovision of income tax of HK\$1,306,000 (2012: HK\$728,000) was reversed and credited to profit or loss.

For companies that are still under the Tax Holidays, the EIT Law and its Implementation Regulations allow them to continue to enjoy the Tax Holidays and the tax rate will change to 25% afterwards.

For companies that are qualified under old law or regulations for incentive tax rate of 15%, the tax rate was increased progressively to 18%, 20%, 22%, 24% and 25% in the year 2008, 2009, 2010, 2011 and 2012, respectively.

### Market risk

(i) Currency risk

Several subsidiaries of the Company have foreign currency sales, purchases and secured bank borrowings, which expose the Group to foreign currency risk. In addition, group entities are exposed to foreign currency risk attributable to intragroup receivables and payables where the denomination of the receivables and payables is in currencies other than the functional currency of the relevant group entities. The Group currently does not have a foreign currency hedging policy. However, the management closely monitors foreign exchange exposure and will consider hedging significant foreign currency exposure should the need arise.

The Group's currency risk is mainly attributable to the exposure outstanding on bank balances and deposits, receivables, payables and bank borrowings denominated in RMB, HK\$, USD and EUR. The carrying amounts at the end of the reporting period are as follows:

### Sensitivity analysis

The following table details the Group's sensitivity to a 5% (2012: 5%) increase and decrease in the functional currency of each group entity against the relevant foreign currency. 5% (2012: 5%) represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes the Group's outstanding foreign currency denominated monetary items, intra-group receivables and payables where the denomination of the receivables and payables is in currencies other than the functional currency of the relevant group entities and adjusts their translation at the year end for a 5% (2012: 5%) increase in foreign currency rates. A (negative) positive number below indicates (decrease) increase in post-tax profit for the year where the functional currency of each group entity strengthens 5% (2012: 5%) against the relevant foreign currency. For a 5% (2012: 5%) weakening of functional currency of each group entity against the relevant currency, there would be an equal and opposite impact on the post-tax profit.

(ii) 利率風險

本集團須承受有關固定利 率存款證及銀行存款(有 關結餘之詳情請參閱附註 17及20)之公平價值利率 風險。管理層監察公平價 值利率風險,並認為其風 險並不明顯。

本集團亦面對有關浮息短 期銀行存款及銀行借貸 (有關結餘之詳情請參閱 附註21及23)之現金流利 率風險。本集團之政策乃 將其銀行貸款利率保持浮 動,從而減少公平價值利 率之風險。所承受之浮息 銀行存款之利率風險並不 明顯。

本集團就金融負債之利率 所面對之風險乃於本附註 流動資金風險管理一節詳 述。本集團之現金流利率 風險,主要來自本集團銀 行借貸產生之香港銀行同 業拆息之波動。

本集團現時並無就公平價 值及現金流利率風險實 施任何利率對沖政策。然 而,管理層持續監察利率 之變動,並在有需要時考 慮對重大利率變動風險進 行對沖。

(ii) Interest rate risk

The Group is exposed to fair value interest rate risk in relation to fixed-rate certificate of deposit and bank deposits (see notes 17 and 20 for details of the balances). The management monitors the fair value interest rate risk exposure and considers it as insignificant.

The Group is also exposed to cash flow interest rate risk in relation to variable-rate short-term bank deposits and bank borrowings (see notes 21 and 23 for details of these balances). It is the Group's policy to keep its borrowings at floating rate of interests so as to minimise the fair value interest rate risk. The exposure to the interest rate risk for variable-rate bank deposits is insignificant.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note. The Group's cash flow interest rate risk is mainly concentrated on the fluctuation of Hong Kong Interbank Offered Rate ("HIBOR") arising from the Group's bank borrowings.

The Group currently does not have any interest rate hedging policy in relation to fair value and cash flow interest rate risks. However, management monitors interest rate exposure on ongoing basis and will consider hedging significant interest rate risk should the need arise.

敏感度分析 以下敏感度分析乃根據銀 行借貸之利率風險而釐 定。該分析乃假設於本報 告期末之負債金額乃全年 之餘額而編製。50個(二 零一二年:50個)基點增加 或減少乃管理層對利率評 估之合理可變動範圍。

倘利率提高/降低50個 (二零一二年:50個)基點 及所有其他變量保持不 變,本集團截至二零一三 年三月三十一日止年度之 稅後溢利可能減少/增 加318,000港元(二零一二 年:256,000港元)。

### 信貸風險

流動資金及存款證之信貸風險不 大,原因是對約方乃獲得國際信 貸評級機構給予高信貸評級之銀 行。

本集團並無信貸風險過度集中情 況,且其風險乃分散於多個對約 方及客戶。 截至二零一三年三月三十一日止年度

Sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to interest rates for bank borrowings. The analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 (2012: 50) basis point increase or decrease represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 (2012: 50) basis points higher/lower and all other variables were held constant, the Group's post-tax profit for the year ended 31st March, 2013 would decrease/ increase by HK\$318,000 (2012: HK\$256,000).

### Credit risk

As at 31st March, 2013, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that followup action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade debt and on a collective basis at the end of the reporting period to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the directors of the Company consider that the Group's credit risk is significantly reduced.

The credit risk on liquid funds and certificate of deposit is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

The Group has no significant concentration of credit risk, with exposure spread over a number of counterparties and customers.

## Liquidity risk

The Group relies on bank borrowings as a major source of liquidity. Details of which are set out in note 23. As at 31st March, 2013, the Group has available unutilised banking facilities of HK\$102,089,000 (2012: HK\$69,940,000).

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following tables detail the Group's contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. Specifically, bank loans containing a repayment on demand clause are included in the earliest time band regardless of the probability of the banks choosing to exercise their rights. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

於上列之期限分析中,內含須按要求還 款條文之銀行貸款乃列入「按要求或於 一個月以內」之時段內。於二零一三年 三月三十一日及二零一二年三月三十一 日,該等銀行貸款之合計賬面值分別為 72,504,000港元及53,510,000港元。考慮到 本集團之財務狀況,董事不相信銀行會行 使其酌情權要求即時還款。董事相信,有 關銀行貸款將根據貸款協議載列之協定還 款日期而於報告期末起計的三個月內償 還。因此,於協定還款日期之現金流出總 額將與該等銀行貸款之賬面值相若。

# 34c. 公平價值

金融資產及金融負債之公平價值乃按根據 折現現金流量分析普遍採納之定價模式釐 定。

本公司董事認為,於綜合財務報表列為攤 銷成本之金融資產及金融負債之賬面值與 其公平價值相若。 Bank loans with a repayment on demand clause are included in the "on demand or less than 1 month" time band in the above maturity analysis. As at 31st March, 2013 and 31st March, 2012, the aggregate carrying amounts of these bank loans amounted to HK\$72,504,000 and HK\$53,510,000 respectively. Taking into account the Group's financial position, the directors do not believe that it is probable that the banks will exercise their discretionary rights to demand immediate repayment. The directors believe that such bank loans will be repaid within three months after the end of the reporting period in accordance with the scheduled repayment dates set out in the loan agreements. Therefore, the aggregate cash outflows upon the scheduled repayment dates will be approximate to the carrying amounts of these bank loans.

# 34c. Fair value

The fair values of financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

The directors of the Company consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated financial statements approximate their fair values.
