Notes:

1 BASIS OF PREPARATION

(a) The interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited ("Listing Rules"), including compliance with International Accounting Standard ("IAS") 34, Interim Financial Reporting, adopted by the International Accounting Standards Board ("IASB"). It was authorised for issue on 30 August 2013.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2012 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2013 annual financial statements. Details of these changes in accounting policies are set out in Note 2.

The preparation of an interim financial report in conformity with IAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

The interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2012 annual financial statements. The condensed consolidated interim financial statements and notes thereon do not include all of the information required for a full set of financial statements prepared in accordance with International Financial Reporting Standards ("IFRSs").

As at 30 June 2013, the Group's current liabilities exceeded its current assets by RMB532,889,000 which indicated the existence of an uncertainty which may cast doubt on the Group's ability to continue as a going concern. Notwithstanding the net current liabilities position, the Directors are of the opinion that, based on undrawn banking facilities of RMB750,885,000 of the Group as at 30 June 2013 and a detailed review of the working capital forecast of the Group for the twelve-month period ending 30 June 2014, the Group will have the necessary liquid funds to finance its working capital and capital expenditure requirements. Accordingly, the interim financial report has been prepared on a going concern basis.

2 CHANGES IN ACCOUNTING POLICIES

The IASB has issued a number of new IFRSs and amendments to IFRSs that are first effective for the current accounting period of the Group and the Company. Of these, the following developments are relevant to the Group's interim financial statements:

- Amendments to IAS 1, Presentation of financial statements Presentation of items of other comprehensive income
- IFRS 10, Consolidated financial statements
- IFRS 12. Disclosure of interests in other entities
- IFRS 13, Fair value measurement
- Annual Improvements to IFRSs 2009-2011 Cycle
- Amendments to IFRS 7 Disclosures Offsetting financial assets and financial liabilities

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

Amendments to IAS 1, Presentation of financial statements – Presentation of items of other comprehensive income

The amendments to IAS 1 require entities to present the items of other comprehensive income that would be reclassified to profit or loss in the future if certain conditions are met separately from those that would never be reclassified to profit or loss. The Group's presentation of other comprehensive income in these financial statements has been modified accordingly.

IFRS 10, Consolidated financial statements

IFRS 10 replaces the requirements in IAS 27, Consolidated and separate financial statements relating to the preparation of consolidated financial statements and SIC 12 Consolidation – Special purpose entities. It introduces a single control model to determine whether an investee should be consolidated, by focusing on whether the entity has power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power to affect the amount of those returns.

As a result of the adoption of IFRS 10, the Group has changed its accounting policy with respect to determining whether it has control over an investee. The adoption does not change any of the control conclusions reached by the Group in respect of its involvement with other entities as at 1 January 2013.

IFRS 12, Disclosure of interests in other entities

IFRS 12 brings together into a single standard all the disclosure requirements relevant to an entity's interests in subsidiaries, joint arrangements, associates and unconsolidated structured entities. The disclosures required by IFRS 12 are generally more extensive than those previously required by the respective standards. Since those disclosure requirements only apply to a full set of financial statements, the Group has not made additional disclosures in this interim financial report as a result of adopting IFRS 12.

IFRS 13, Fair value measurement

IFRS 13 replaces existing guidance in individual IFRSs with a single source of fair value measurement guidance. IFRS 13 also contains extensive disclosure requirements about fair value measurements for both financial instruments and non-financial instruments. Some of the disclosures are specifically required for financial instruments in the interim financial reports. The adoption of IFRS 13 does not have any material impact on the fair value measurements of the Group's assets and liabilities.

Annual Improvements to IFRSs 2009-2011 Cycle

This cycle of annual improvements contains amendments to five standards with consequential amendments to other standards and interpretations. Among them, IAS 34 has been amended to clarify that total assets for a particular reportable segment are required to be disclosed only if the amounts are regularly provided to the chief operating decision maker (CODM) and only if there has been a material change in the total assets for that segment from the amount disclosed in the last annual financial statements. The amendment also requires the disclosure of segment liabilities if the amounts are regularly provided to the CODM and there has been a material change in the amounts compared with the last annual financial statements. The amendment does not have any impact on the segment disclosure of the Group because the Group does not have any reportable segments with total assets or total liabilities materially different from the amounts reported in the last annual financial statements.

Amendments to IFRS 7 - Disclosures - Offsetting financial assets and financial liabilities

The amendments introduce new disclosures in respect of offsetting financial assets and financial liabilities. Those new disclosures are required for all recognised financial instruments that are set off in accordance with IAS 32, Financial instruments: Presentation and those that are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments and transactions, irrespective of whether the financial instruments are set off in accordance with IAS 32.

The adoption of the amendments does not have an impact on the Group's interim financial report because the Group has not offset financial instruments, nor has it entered into master netting arrangement or similar agreement which is subject to the disclosures of IFRS 7.

3 SEGMENT REPORTING

The Group manages its businesses by product lines. In a manner consistent with the way in which information is reported internally to the Group's most senior executive management for the purpose of resource allocation and performance assessment, the Group has identified the following two reportable segments.

- Industrial aluminium profiles: this segment manufactures and sells plain aluminium profiles, mainly for industrial usage.
- Construction aluminium profiles: this segment manufactures and sells construction aluminium profiles, including anodic oxidation aluminium profiles, electrophoresis coating aluminium profiles, powder coating aluminium profiles, PVDF coating aluminium profiles and aluminium profiles with thermal barrier. Construction aluminium profiles are widely used in architecture decoration.

All other segments include the provision of processing services and manufacture and sale of aluminium panels, moulds and spare parts.

(a) Segment results, assets and liabilities

In accordance with IFRS 8, segment information disclosed in the interim financial report has been prepared in a manner consistent with the information used by the Group's most senior executive management for the purposes of assessing segment performance and allocating resources between segments. In this regard, the Group's senior executive management monitors the results attributable to each reportable segment.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments. However, assistance provided by one segment to another, including sharing of assets and technical know-how, is not measured.

The measure used for reporting segment profit is gross profit. The Group's senior executive management is provided with segment information concerning segment revenue and profit. Segment assets and liabilities are not reported to the Group's senior executive management regularly.

Information regarding the Group's reportable segments as provided to the Group's most senior executive management for the purposes of resource allocation and assessment of segment performance for the period ended 30 June 2013 and 2012 respectively are set out below.

- (a) Pursuant to the rules and regulations of the Cayman Islands and the British Virgin Islands (the "BVI"), the Group is not subject to any income tax in the Cayman Islands and the BVI, respectively.
- (b) The provision for Hong Kong Profits Tax for the six months ended 30 June 2013 is calculated by applying the estimated annual effective tax rate of 16.5% (2012: 16.5%).
- (c) Pursuant to the income tax rules and regulations of the PRC, the PRC subsidiaries of the Group are liable to PRC enterprise income tax as follows:
 - All PRC subsidiaries of the Group are limited liability companies established under the laws of the PRC. They are liable to the PRC corporate income tax at a rate of 25% for the six months ended 30 June 2013 (2012: 25%).
 - Guangdong Xingfa Aluminium Co., Ltd. ("Guangdong Xingfa") was qualified as an "Advanced and New Technology Enterprise" and entitled to the preferential income tax rate of 15% from 2012 to 2014. The corporate income tax rate applicable to Guangdong Xingfa was 15% for the six months ended 30 June 2013 (2012: 15%).
- (d) In addition, the Group would be subject to withholding tax at the rate of 5% if profits generated by Guangdong Xingfa after 31 December 2007 were to be distributed. As Guangdong Xingfa is wholly owned by the Company, the Company controls the dividend policy of Guangdong Xingfa and it has determined that Guangdong Xingfa will not distribute post 1 January 2008 profits in the foreseeable future. As at 30 June 2013, no provision of withholding tax was provided by Guangdong Xingfa.

7 DIVIDENDS

The directors do not propose the payment of interim dividends for the six months ended 30 June 2013 (six months ended 30 June 2012: Nil).

8 EARNINGS PER SHARE

The calculation of basic earnings per share during the six months ended 30 June 2013 was based on the profit attributable to equity shareholders of the Company of RMB47,037,000 (six months ended 30 June 2012: RMB17,860,000) and 418,000,000 shares (six months ended 30 June 2012: 418,000,000 shares) in issue during the six months ended 30 June 2013.

There were no dilutive potential ordinary shares in issue for the six months ended 30 June 2013 and 2012, and therefore, the diluted earnings per share are the same as the basic earnings per share.

9 TRADE AND OTHER RECEIVABLES

As of the end of the reporting period, the aging analysis of trade debtors and bills receivables (which are included in trade and other receivables), base on the invoice date and net of allowance for doubtful debts, is as follows:

MANAGEMENT DISCUSSION AND ANALYSIS

Review of operations

Xingfa Aluminium is one of the leading aluminium profiles manufacturers in the PRC and principally engaged in the manufacture and sale of aluminium profiles which are applied as construction and industrial materials. Currently, we are the largest provider of electricity conductive aluminium profile for metro vehicles in the PRC. Leveraging on our advanced R&D capability and commitment to quality, our Group has established extensive and stable sales networks in the PRC and overseas for the past 20 years. Xingfa Aluminium was awarded as the No. 1 of the Top-Ten National Aluminium Profiles Enterprises by the China Non-Ferrous Metals Fabrication Industrial Association ("CNFA") in 2003 and 2008. In 2012, Xingfa Aluminium was further awarded as the No. 1 of the Top-Twenty National Aluminium Profiles Enterprises by CNFA.

In 1H13, we are excited to see the fruitful returns from the capacity expansion plan executed for the past few years. Both Sichuan Chengdu and Jiangxi Yichun plants became another two profit engines of the Group. Besides, Henan Qinyang plant has commenced trial production successfully in the second half of 2012, which marked another milestone to the Group. With the aim to become an all-round and one-stop aluminum service provider in the PRC, these strategically-located plants allow Xingfa Aluminium to access to our clientele closely and tap our products to the market in more convenient and cost-effective ways. Therefore, it would increase our market share in the long-run.

Turnover

Turnover and sales volume recorded approximately RMB1,615.3 million and 83,300 tonnes respectively for 1H13 (1H12: RMB1,516.1 million and 74,700 tonnes respectively). The increase in turnover during the period under review was mainly contributed to the increase in sales orders for construction aluminium profiles. Such increase was driven by the execution of the capacity expansion plan in Sichuan Chengdu and Jiangxi Yichun plants that perfectly met the increasing demand for aluminium profiles in these two regions.

During the period under review, sales volume for construction aluminium profiles increased by approximately 23% to 67,300 tonnes (1H12: 54,500 tonnes). However, sales volume for industrial aluminium profiles decreased by 21% to approximately 16,000 tonnes in 1H13 (1H12: 20,200 tonnes) due to the slowdown of export of storage containers in 1H13.

Cost of sales

Cost of sales increased from RMB1,351.4 million in 1H12 to RMB1,415.2 million in 1H13 which was in line with the increase in turnover.

Gross profit and gross profit margin

Gross profit margin improved to 12.4% (1H12: 10.9%), whilst sales to production ratio stood at 94.1% in 1H13 (1H12: 97.6%).

The following table sets forth the gross profit margin of our aluminium profiles:

	For the six months ended 30 June	
	2013	2012
Average gross profit margin	12.4%	10.9%
 Industrial aluminium profiles 	8.8%	12.8%
 Construction aluminium profiles 	12.8%	10.3%

With the completion of investments in Sichuan Chengdu, Jiangxi Yichun and Guangdong Sanshui plants, each plant has its own production specialty which improved the whole production logistics starting from order acceptance to delivery in each plant, which could resolve our production mismatch amongst these three plants in the long run. As a result of better division of labour in production specialty, better economy of scale in production can be achieved to lower the unit cost. It helped to increase production volume and improved the gross profit margin.

Meanwhile, sales orders with higher gross profit margin were concluded for the new aluminium profiles with thermal barrier, representing approximately 23% and 19% of sales orders for construction aluminium profiles and overall aluminium profiles respectively. The drop in average unit cost as a result of better division of labour definitely improved the average gross profit margin for construction aluminium profiles. As such, these changes in product mix contributed to the improvement of the overall gross profit margin to 12.4% in 1H13.

Other revenue and other net loss

Our Group recorded other revenue of approximately RMB27.0 million for 1H13 (1H12: RMB9.6 million) and other net loss of approximately RMB2.1 million for the six months ended 30 June 2013 (1H12: RMB2.8 million).

The increase of other revenue in 1H13 was mainly due to the unconditional government grants for the brand name development of RMB2.6 million and conditional government grants of RMB20.9 million which had fulfilled the IFRSs requirement of income recognition.

Distribution costs

Distribution costs increased by approximately 34% to approximately RMB28.9 million for 1H13 (1H12: RMB21.6 million), whilst our distribution costs as a percentage of turnover remained steady at approximately 1.8% (1H12: 1.4%).

Administrative expenses

Administrative expenses recorded approximately RMB76.2 million for 1H13, which was approximately 21% higher than that in 1H12 (1H12: RMB62.8 million) and our administrative expenses as a percentage of turnover remained steady at 4.7% (1H12: 4.1%). The increase in administrative expenses was mainly due to the increase in allowance for doubtful debts of RMB3.0 million in 1H13 (1H12: Nil).

Finance costs

Finance costs decreased by approximately 5% to approximately RMB60.4 million for 1H13 (1H12: RMB63.6 million). It was mainly due to the decrease in average interest rate in 1H13 and decrease in amount of discounted or endorsed bills in 1H13.

Profit for the period and the net profit margin

Our Group recorded profit of approximately RMB47.0 million for 1H13 (1H12: RMB17.9 million) while the net profit margin improved to approximately 2.9% (1H12: 1.2%). Such improvement was mainly attributable to (i) the increase in sales orders for construction aluminium profiles as a result of successful execution of production capacity expansion plan; (ii) the improved gross profit margin as a result of internal cost control; and (iii) the increase in government grants during 1H13.

ANALYSIS OF FINANCIAL POSITION

Current and quick ratios

The following table sets out our Group's current and quick ratios as at 30 June 2013 and 31 December 2012:

	At	At
	30 June	31 December
	2013	2012
Current Ratio (Note)	0.79	0.80
Quick Ratio (Note)	0.60	0.64

Note:

Current ratio is calculated based on the total current assets divided by the total current liabilities at the end of the period/year.

Quick ratio is calculated based on the difference between the total current assets and the inventories divided by the total current liabilities at the end of the period/year.

Both current and quick ratios decreased at 30 June 2013 as compared to that at 31 December 2012 mainly due to the increase of short-term loans as at 30 June 2013.

Gearing ratio

The following table sets out our Group's gearing ratio as at 30 June 2013 and 31 December 2012:

	At	At
	30 June	31 December
	2013	2012
Gearing ratio (Note)	56.9%	52.7%

Note:

Gearing ratio is calculated based on the loans and borrowings and obligations under finance leases divided by total assets and multiplied by 100%.

Gearing ratio increased to 56.9% since the Group has assumed more loans and borrowings to finance our working capital needs.

Inventory Turnover Days

The following table sets out our Group's inventory turnover days during the six months ended 30 June 2013 and 2012:

For the six months ended 30 June 2013 2012

Note:

Debtors' turnover days is calculated based on the average of the beginning and ending balance of trade and bills receivables for the periods divided by turnover during the periods multiplied by 181 days.

Debtors' turnover days remained steady during the period under review as compared to the same period of last year.

Creditors' Turnover Days

The following table sets out our Group's creditors' turnover days during the six months ended 30 June 2013 and 2012:

	For the six months	
	ended 30 June	
	2013	2012
Creditors' Turnover Days (Note)	82	119

Note:

Creditors' turnover days is calculated based on the average of the beginning and ending balance of trade and bills payables for the periods divided by the total cost of sales during the periods multiplied by 181 days.

In 1H13, in order to reduce the interest cost and optimize the Group's surplus funding, the Group has shortened the settlement period. As such, the creditors' turnover days improved.

Cash flow

The table below summarises our Group's cash flow during the six months ended 30 June 2013 and 2012:

	For the six months ended 30 June	
	2013	2012
	RMB'million	RMB'million
Net cash used in operating activities	(116.4)	(67.6)
Net cash used in investing activities	(86.3)	(120.1)
Net cash generated from financing activities	132.0	255.0

We generally finance our operations through a combination of shareholders' equity, internally generated cash flows, bank borrowings and our cash and cash equivalents. Our Directors believe that on a long-term basis, our liquidity will be funded from operations and, if necessary, additional equity financing or bank borrowings.

Capital expenditures

Capital expenditure was used for acquisition of property, plant and equipment and lease prepayment. During 1H13, our Group's capital expenditures were approximately RMB157 million. The significant capital expenditures during the period were mainly for the acquisition of plant and equipment for the Guangdong Sanshui factory and the three new plants at Sichuan Chengdu, Jiangxi Yichun and Henan Qinyang.

Loans and borrowings

As at 30 June 2013, our Group's loans and borrowings amounted to approximately RMB2,242.1 million (31 December 2012: RMB2,015.7 million).

Banking facilities and guarantee

As at 30 June 2013, the banking facilities of our Group amounted to approximately RMB3,276.1 million (31 December 2012: RMB3,152.9 million), of which approximately RMB2,525.3 million were utilised (31 December 2012: RMB2,272.2 million).

Human resources

As at 30 June 2013, our Group employed a total of approximately 5,222 full time employees in the PRC which included management staff, technicians, salespersons and workers. In 1H13, our Group's total expenses on the remuneration of employees were approximately RMB114.5 million, represented 7.1% of the turnover of our Group. Our Group's emolument policies are formulated on the performance of individual employee, which will be reviewed regularly every year. Apart from the provident fund scheme (according to the provisions of the Mandatory Provident Fund Schemes Ordinance for Hong Kong employees) or state-managed retirement pension scheme (for the PRC employees) and medical insurance, discretionary bonuses and employee share options are also awarded to employees according to the assessment results of individual performance.

Newly established subsidiary

As disclosed in the announcement of the Company dated 28 March 2013 in relation to the commencement of development of a piece of land in Foshan, the Group has formulated a plan to develop Xingfa Aluminium Headquarters Building (興發鋁業總部大廈) on a piece of land situated in Nanchuang County, Foshan City, Guangdong, the PRC ("**Project**") which will consist of a office premises building, business building and a commercial podium. The Group is in the course of obtaining the approvals for the Project from the relevant government authorities.

In connection with the Project, on 5 June 2013, Guangdong Xingfa, a wholly owned subsidiary of the Group, contributed RMB8,000,000 by cash to set up a new entity, Foshan Xingfa Real Estate Co., Ltd in Foshan. Its principle activity is development, sale and management of properties.

PROSPECTS

Following the successful execution of the capacity expansion plan at the three new plants in Sichuan Chengdu, Jiangxi Yichun and Henan Qinyang, this organic growth perfectly met the growth in demand ahead to extend our market coverage from South-East China to also South-West and South-East China. Together with the other three established plants, our annual designed production capacity will reach 230,000 tonnes of aluminium profiles per annum, thereby increases our profit and market share in the long-run.

In line with our prudent approach and in view of the fragile global economic environment, strengthening balance sheet management, optimizing product mix and enhancing operating efficiency will be our main focuses in the second half of 2013.

INTERIM DIVIDEND

The Directors do not propose the payment of interim dividend for the six months ended 30 June 2013 (1H12: Nil).

CORPORATE GOVERNANCE

In the opinion of the directors of the Company, save as mentioned below, the Company had complied with all the code provisions of the Corporate Governance Code as set out in Appendix 14 to the Listing Rules for 1H13.

According to the code provision A.1.1 of the Corporate Governance Code, the Board should meet regularly and board meetings should be held at least four times a year at approximately quarterly intervals. During the six month ended 30 June 2013, the Board has held one full board meeting. The Company has deviated from this code provision as the Board has discussed the company matters through exchange of emails and informal meetings among the Directors and obtaining board consent through circulating written resolutions.

Code Provision of A.2.7 of the Corporate Governance Code requires the Chairman of the Board to hold meetings at least annually with the non-executive Director (including independent non-executive Director) without the executive Directors present. As Mr. Liu Libin, the Chairman of the Board, is also an executive Director, the Company has deviated from this code provision as it is not applicable. Currently, the Chairman may communicate with the non-executive Directors on a one-to-one or group basis periodically to understand their concerns, to discuss pertinent issues and to ensure that there is access to adequate and complete information.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

Our Company has adopted the Model Code for Securities Transactions by Directors of Listed Issuers (the "Model Code") set out in Appendix 10 of the Listing Rules as the code of conduct regarding Directors' securities transactions. After having made specific enquiry with all Directors, our Company has received confirmations from all Directors that they have complied with the required standards set out in the Model Code for the six months ended 30 June 2013.

The Company has also adopted procedures on terms no less exacting than the Model Code in respect of the securities transactions of the employees who are likely to be in possession of unpublished inside information.

REVIEW BY THE AUDIT COMMITTEE

The Listing Rules require every listed issuer to establish an audit committee comprising at least three members who must be non-executive directors only, and the majority thereof must be independent non-executive directors, at least one of whom must have appropriate professional qualifications, or accounting or related financial management expertise. The Company has an audit committee which is accountable to the Board and the primary duties of the audit committee include the review and supervision of our Group's financial reporting process and internal control measures.

The audit committee is composed of three independent non-executive Directors of the Company namely, Mr. CHEN Mo, Mr. HO Kwan Yiu and Mr. LAM Ying Hung Andy and one non-executive Director namely, Mr. CHEN Shengguang. Mr. LAM serves as the chairman of the audit committee, who has professional qualification and experience in financial matters.

The audit committee of our Company has met with the management and external auditors of our Company and has reviewed the consolidated results of our Group for the six months ended 30 June 2013.

PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

Neither the Company, nor any of its subsidiaries has purchased, redeemed or sold any of the Company's listed securities for the six months ended 30 June 2013.
