EXECUTIVE DIRECTORS

ZHAO, Guibin (趙桂斌), aged 49, was appointed as our executive Director and chairman of the Board on June 15, 2013. He is also our Chief Executive Officer since June 2012. Mr. ZHAO has 16 years of relevant experience in the automotive industry. He is primarily responsible for setting our strategic vision, direction and goals and overseeing the overall execution of our Group's strategy. Mr. ZHAO is also a director of PCM (US) Steering, PCM (Singapore) Steering, and chairman of the board of directors of several of our subsidiaries. Mr. ZHAO has been a director of PCM China, one of our Controlling Shareholders, since December 2010, and chairman of the board of directors and general manager of AVIC Auto, one of our Controlling Shareholders, since 2010 and from 2009 to 2010, respectively. He is also the deputy chief economist of AVIC. From April 2010 to April 2013, Mr. ZHAO was the chairman of the board of directors of AVIC Heavy Machinery Co. Ltd. (中航重機股份有限公司), a non-wholly owned subsidiary of AVIC, and a company listed on the Shanghai Stock Exchange (stock code: 600765). From 1997 to 2003, Mr. ZHAO was the general manager of Sichuan Lingfeng Aeronautics Hydraulic Machinery Co. (四川凌峰航空液壓機械有限公司), a wholly owned subsidiary of AVIC, where he was in charge of corporate governance and operational management. He was appointed as general manager, director and chairman of AVIC Chengdu Engine (Group) Co., Ltd (中航工業成都發動機(集團)有限公司), a non-wholly owned subsidiary of AVIC, and as director and chairman of the board of its non-wholly owned subsidiary, Sichuan Chengfa Aero Science and Technology Co., Ltd (四川成發航空科技股份有限公司) in August 2003. Mr. ZHAO has received numerous awards in recognition of his achievements, including the Government Special Allowance awarded by the PRC State Council in 2000 (2000年中國國務院政府特殊津貼).

In view of Mr. ZHAO's experience, personal profile and his roles in our Group as mentioned above and that Mr. ZHAO has assumed the role of Chief Executive Officer of our Group since June 2012, the Board considers it beneficial to the business prospect and operational efficiency of our Group that upon Listing, Mr. ZHAO acts the chairman and continues to act as the Chief Executive Officer of our Company. While this will constitute a deviation from Code Provision A.2.1 of the Corporate Governance Code and Corporate Governance Report as set out in Appendix 14 to the Listing Rules, the Board believes that this structure will not impair the balance of power and authority between the Board and the management of the Company, given that: (i) decision to be made by our Board requires approval by at least a majority of our Directors and that our Board comprises three independent non-executive Directors out of eight Directors, which is more than the Listing Rules requirement of one-third, and we believe there is sufficient check and balance in the Board; (ii) Mr. ZHAO and the other Directors are aware of and undertake to fulfill their fiduciary duties as Directors, which require, among other things, that he acts for the benefit and in the best interests of our Company and will make decisions for our Group accordingly; and (iii) the balance of power and authority is ensured by the operations of the Board which comprises experienced and high calibre individuals who meet regularly to discuss issues affecting the operations of the Company. Moreover, the overall strategic and other key business, financial and operational policies of our Group are made collectively after thorough discussion at both Board and senior management levels. See "— Management of our Group." The Board will continue to review the

They meet regularly to discuss issues of their respective functionalities and make relevant decisions and report to our Board regularly and when necessary. Our senior management as a whole is also responsible for formulating the overall strategies, annual budget, key business, financial and other operational policies and preparing proposals of any key business, financial and other operational decisions of our Group taking into account inputs from different functionalities for our Board's approval. Our Board members will consult with our senior management on such proposals and discuss the same at Board level with an aim to reach a consensus that is in the best interest of our Group. Once the key policies and decisions are formulated and made, our senior management as a whole will implement the same throughout our Group. Accordingly, the overall strategic and other key business, financial and operational policies and decisions of our Group are made collectively from its inception to implementation after thorough discussion at both Board and senior management levels.

In the past, we have experienced changes in our core management team. For instance, our former Chief Executive Officer resigned in June 2012 in order to pursue other opportunities which he considered more suitable for him. Our former Chief Financial Officer left our Group upon the expiry of his service agreement with our Group in November 2012. Two other members of senior management retired in September 2012, another member of senior management based in Australia left our Group in February 2013 as part of our general restructuring plan in Australia. In addition, our former chief human resource officer and chief operating officer of the Saginaw division left the Company in July 2013 and another member of our senior management left our Group in September 2013 to pursue other opportunities.

Mr. RICHARDSON, an executive Director, a senior vice president, chief technology and strategy officer and chairman of the China division and driveline division of our Group, as well as Mr. BRESSON, the president and global chief operating officer of our Group, and Mr. PERKINS, the chief financial officer, have joined our Group prior to the Track Record Period and assumed key management positions throughout the Track Record Period, and have in-depth understanding of the corporate goals, strategies and operations of our Group. We believe that the addition of new Directors and the departure of certain members of the core management, did not lead to any material shift in the key strategies and policies of our Group, and did not have any material adverse impact on our Group's operations and financial results, as demonstrated by the stable financial performance of our Group during the Track Record Period and the stable relationship between our Group and our major customers (with over 20 years of relationship with its top five customers). See “Business — Customers.”

On the basis of the above, namely (i) the collective decision-making mechanism detailed above; (ii) the key members of the existing core management team have held management positions prior to and throughout the Track Record Period (including Mr. RICHARDSON as executive Director, senior vice president, chief technology and strategy officer and chairman of the China division and driveline division of our Group, Mr. BRESSON, as president and global chief operating officer of our Group and Mr. PERKINS, as Chief Financial Officer of our Group); and (iii) the change in core management did not lead to any material shift in the key strategies and policies of our Group and did not have any material adverse impact on our Group, we believe that we are able to satisfy the management continuity requirement under Rule 8.05 of the Listing Rules.
