# CHAIRMAN'S STATEMENT

It is my pleasure to present on behalf of the Board of Directors (the “Board”) of Weiqiao Textile Company Limited (“Weiqiao Textile” or the “Company”) the audited consolidated results of the Company together with its subsidiaries (collectively the “Group”) for the year ended 31 December 2014 (the “Year” or “Year under Review”).

In 2014, the global economy continued to recover at a moderate pace, with clear divergence in economic performance, while concurrently, China’s economy entered into a “new normal” development phase. Development of the textile industry was generally stable during the year, with a decline in growth rate as compared to 2013, showing a trend of overall steady but slow development.

Export of China’ textile products and the apparel industry in 2014 was affected by the slow recovery in overseas market demand, resulting in a slowdown in growth rate. According to the General Administration of Customs of the PRC, China’s total export of textile products and apparel was approximately US\$298.5 billion in 2014, representing an increase of approximately 5.1% year-on-year which was approximately 6.3 percentage points lower than the same period last year. Export of textile products increased by approximately 4.9% year-on-year to approximately US\$112.2 billion, and export of apparel increased by approximately 5.2% year-on-year to approximately US\$186.3 billion.

# CHAIRMAN'S STATEMENT

In terms of domestic demand, against the backdrop of a slowdown in economic and consumption growth and implementation of industry structural adjustment, the industry showed an overall sluggish performance. According to statistics released by the National Bureau of Statistics of China, retail sales of apparel, footwear, headwear and knitwear for 2014 by enterprises above a designated size in China with annual revenue of over RMB20 million amounted to approximately RMB1,256.3 billion, representing a year-on-year increase of approximately 10.9%. This growth was approximately 0.7 percentage point slower than the same period last year and also fell behind the growth of approximately 12.0% in the retail sales of consumer goods. End-user consumption was relatively weak.

During the Year under Review, the greatest change faced by the Chinese textile industry was the changes in cotton policy implemented by the PRC government. With the termination of the cotton temporary reserve policy which had been in force for three years and the implementation of the direct subsidy policy in Xinjiang, which is the main cotton production base in China, by the PRC government in September 2014, the domestic cotton price began to drop significantly. Due to the wait-and-see approach adopted by downstream enterprises, Chinese textile enterprises faced downward pressure in the selling prices of their products. The operating results of

## CHAIRMAN'S STATEMENT

textile enterprises were affected to some degree in the short term. However, the implementation of the direct subsidy policy will gradually bring the domestic cotton price in line with the market, narrowing the gap between the domestic and overseas cotton prices, which will improve the competitiveness of Chinese textile enterprises internationally in the medium and long run.

As stated above, during the Year, affected by factors such as the adjustment to the cotton policy, the drastic decrease in cotton price and the wait-and-see approach adopted by downstream customers, the sales volume of the Group's textile products decreased as compared with the same period last year with a decline in selling prices, resulting in a year-on-year decrease in the revenue and net profit of the Group. The Group recorded revenue of approximately RMB11,211 million, representing a decrease of approximately 19.2% as compared with the corresponding period of 2013. Net profit attributable to owners of the parent was approximately RMB308 million, representing a decrease of approximately 51.0% as compared with the corresponding period of 2013. Earnings per share were RMB0.26. The gross profit margin of the Group was approximately 6.6%, representing a decrease of approximately 2.1 percentage points as compared with the corresponding period of last year.

Looking ahead into 2015, the continuous recovery of the global economy will bring some improvement to the export of China's textile products and apparel, while the domestic apparel industry will experience a general slowdown in growth in line with the "new normal" phase. However, as a necessity goods, the "rigid demand" for textile products from consumers remains robust. Meanwhile, given the increasing consumer preference towards comfortable and tailored textile products as a result of improving living standards, demand for middle to high-end and functional textile products will be increased.

We believe that a number of favorable factors will emerge for the Chinese textile industry in 2015. As the implementation of the direct subsidy policy gradually brings the cotton price in line with the market, the gap between the domestic and overseas cotton prices will get narrower, which will improve the international competitive strength of Chinese textile enterprises. With the effect of low cotton price starting to show positive results, the needs of the downstream apparel enterprises for additional raw materials to replenish inventory will drive recovery growth of the industrial chain, especially in end-user demand. In order to facilitate the development of the textile and apparel industry, the government has launched more favorable policies, including the increase of export rebate rates for some textile products and apparel by one percentage point to 17.0% with effect from 1 January 2015 and a phase-by-phase resolution to the problem of inconsistency between the input tax deduction rate and the output tax levy rate for value added tax ("VAT") faced by the textile enterprises. In terms of macro-economic measures, the reserve requirement ratio ("RRR") and interest rates cuts by the People's Bank of China ("Central Bank") since the beginning of 2015 will help to reduce financial costs for the relevant enterprises, and the depreciation of RMB will also drive export of textile products and apparel.

# CHAIRMAN'S STATEMENT

As the industry leader, Weiqiao Textile will adhere to the self-improvement approach to implement its development plan, optimize its product portfolio towards middle to high-end products by increasing the share of middle to high-end products and developing new functional products for more diversified purposes, and improve its gross profit margin through product mix adjustment and industrial upgrades. The Group will make full use of scale economic according to demand of manufacturing orders. The Group will further reduce labor usage (measured by workers needed per ten thousand spindles), so as to increase labor efficiency per capita and reduce labor costs. Meanwhile, the new thermal power assets will effectively reduce production costs. We will also make better use of cash held, so as to increase investment return. Furthermore, the Group will maintain high standards in fulfilling our social responsibilities on energy conservation and environmental protection. Environmental standards of production will be further elevated in the interests of shareholders as a whole, laying a solid foundation for the sustainable development of the Group in the long run.

On behalf of the management of Weiqiao Textile, I would like to express my gratitude to our shareholders for their unwavering support of the Group. It is your trust and support, together with the efforts of our staff that enable the Group to face challenges with confidence and seize opportunities whenever they arise. I would like to take this opportunity to express my heartfelt thanks to our shareholders, investors and business partners for their trust and support. I would also like to thank the members of the Board, the management team and our employees, for their dedication and hard work for the Group. I believe that the textile industry will embrace a brighter future. Weiqiao Textile is confident that its advantages in technology, cost, scale and customer base will provide a strong footing for further enhancing its competitive edge in domestic and international markets and securing its industry-leading position to maximise the return to shareholders.

## **Zhang Hongxia**

Shandong, the People's Republic of China  
20 March 2015

# MANAGEMENT DISCUSSION AND ANALYSIS

## INDUSTRY REVIEW

In 2014, due to generally sluggish market demand, the Chinese textile industry experienced a slowdown in growth rate and entered into a new normal development phase.

In 2014, the domestic retail market was muted with sluggish end-user demand. According to the statistics released by the National Commercial Information Center of China, the retail sales by the top 100 major retail enterprises in China in 2014 grew only by 0.4% year-on-year, representing a decrease of 8.5 percentage points in growth rate from the corresponding period of last year. In terms of category of products, the retail sales of apparels in the Year grew by 1.0% year-on-year, representing a decrease of 4.0 percentage points in growth rate from the corresponding period of last year, while the retail sales volume decreased by 0.3% year-on-year, representing a decrease of 3.7 percentage points in growth rate from the corresponding period of last year.

According to the statistics released by the General Administration of Customs of the PRC, export of PRC textile products and apparel industry in 2014 amounted to approximately US\$298.5 billion, up by approximately 5.1% as compared with last year. The growth rate decreased by approximately 6.3 percentage points from approximately 11.4% for the corresponding period of 2013. During the Year, the country's exports of textile and apparel products to the following countries and regions were summarized as follows:

- United States: approximately US\$44.7 billion, representing an increase of approximately 7.5% from the corresponding period of last year, while the growth rate increased by approximately 0.5 percentage point.
- Japan: approximately US\$24.5 billion, representing a decrease of approximately 9.1%.
- Hong Kong: approximately US\$16.5 billion, representing a decrease of approximately 15.7%.
- European Union: approximately US\$58.7 billion, representing an increase of approximately 13.6%, while the growth rate increased by approximately 4.3 percentage points from the corresponding period of last year.
- Emerging markets including the Association of Southeast Asian Nations, the Middle East and Africa: increased by approximately 5.5%, 2.2% and 16.9% respectively.

In terms of raw materials, in 2014, the implementation of the direct subsidy policy in China with a target price led to the dramatic decline of domestic cotton price, as it closed the year at RMB13,605 per ton. Compared with the peak price in 2014, the cotton price dropped by RMB5,929 per ton for the whole year, representing a decrease of approximately 30.4%. According to the Cotton A Index, the average price for cotton in China during the Year was approximately RMB17,828 per ton, representing a decrease of approximately 11.6% year-on-year. The average global market price for cotton, according to the Cotlook A Index, was approximately 83.08 US cents per pound, representing a decrease of approximately 8.1% year-on-year. The price gap between domestic and overseas cotton has narrowed for the whole year, which enabled Chinese textile enterprises to slightly regain their international competitiveness.

# MANAGEMENT DISCUSSION AND ANALYSIS

## BUSINESS REVIEW

During the Year under Review, Chinese textile enterprises faced a number of challenges, mainly, persistent decline in cotton price, rising labor costs, shrinking downstream demand and declining sales price of products. China's textile industry has slowed from high growth into medium-to-low growth, and entered into a new stage of deepening structural adjustment and accelerated transformation and upgrades. Facing the market changes and challenges, Weiqiao Textile strived to control its production costs at a reasonable level by leveraging on its competitive advantages including global cotton procurement and self-generated electricity and steam supplies, while maintaining stable production operations by implementing a flexible sales and pricing strategy. Meanwhile, the Company leveraged on its advantages in scale and research and development, made full utilization of its advanced production facilities and accelerated the upgrade and refinement of its product portfolio as it continued to increase the proportion of middle to high-end products.

For the year ended 31 December 2014, the Group had four production bases, all of which are located in Shandong Province of China, namely:

1. Weiqiao Production Base (currently has two production areas);
2. Binzhou Production Base (the First Production Area and the Second Production Area of Binzhou Weiqiao Technology Industrial Park Company Limited ("Binzhou Industrial Park"));
3. Weihai Production Base (Weihai Weiqiao Textile Company Limited ("Weihai Weiqiao") and Weihai Weiqiao Technology Industrial Park Company Limited ("Weiwei Industrial Park")); and
4. Zouping Production Base (the First Industrial Park of Zouping, the Second Industrial Park of Zouping and the Third Industrial Park of Zouping).

# MANAGEMENT DISCUSSION AND ANALYSIS

For the years ended 31 December 2014 and 2013, the revenue of the Group and net profit attributable to owners of the parent were as follows:

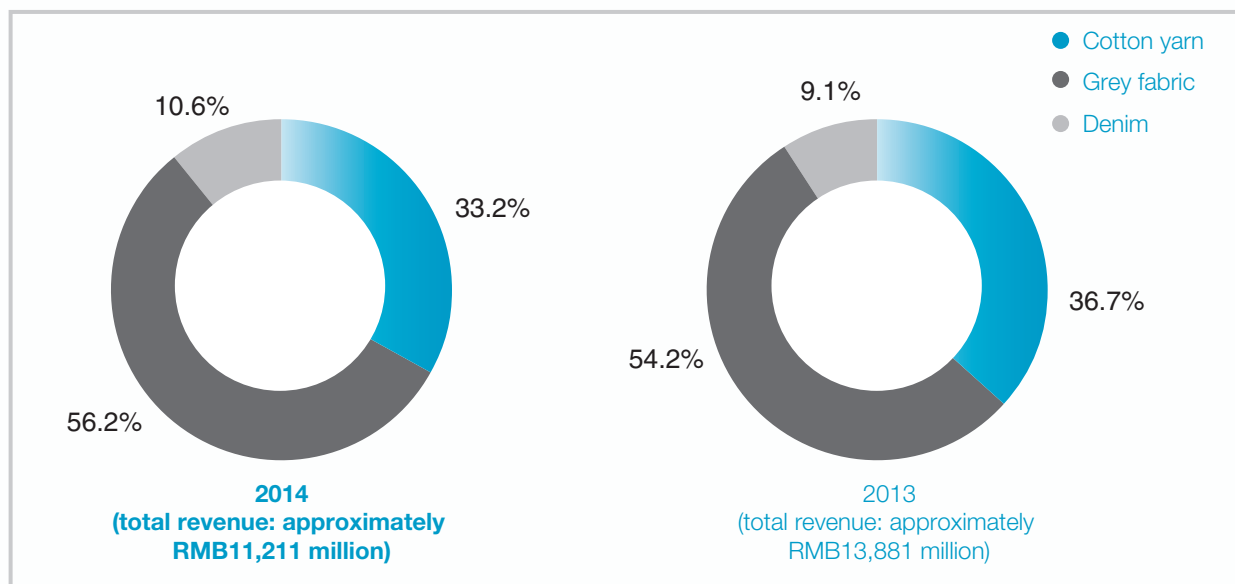

For the year ended 31 December 2014, the Group recorded revenue of approximately RMB11,211 million, representing a decrease of approximately 19.2% as compared with last year. This decrease was mainly attributable to the decrease in sales volume of the three main textile products of the Group during the Year as compared with the corresponding period of last year due to declining cotton price, the wait-and-see approach adopted by downstream customers and the sluggish market demand for textile products and the decrease in selling prices.

For the year ended 31 December 2014, net profit attributable to owners of the parent amounted to approximately RMB308 million, representing a decrease of approximately 51.0% over last year. The decrease was mainly attributable to the decrease in gross profit as a result of a decrease in both sales volume and selling prices of the textile products of the Group due to reduced market demand caused by declining cotton price during the Year.

# MANAGEMENT DISCUSSION AND ANALYSIS

The charts below are the proportion of revenue by product for the years ended 31 December 2014 and 2013:

**Proportion of revenue by product**

For the year ended 31 December 2014, the proportion of revenue contributed by the Group's cotton yarn decreased, while the proportion of revenue contributed by grey fabric increased, mainly due to the Group's aggressive efforts in product mix adjustment and the flexible sales strategy, which led to only a slight decrease in grey fabric revenue. The increase in the proportion of revenue contributed by denim was mainly due to our market demand-oriented approach, as the Group's enhanced efforts in sales of middle to high-end denim allowed the sales volume of denim to remain relatively stable.

During the Year, the slow recovery of the global economy, the declining cotton price due to the adjustment of cotton policy in China and the wait-and-see approach adopted by the downstream market resulted in reduced demand in both domestic and overseas markets. In response to the changing market conditions, the Group adjusted its production plan in a timely manner, leading to a decrease in the production volume of cotton yarn and grey fabric as compared with the corresponding period of last year. The Group's production volume of cotton yarn and grey fabric were approximately 394,000 tonnes and 978,000,000 meters, representing a decrease of approximately 19.3% and 4.2% as compared with the corresponding period of last year respectively. The production volume of denim was approximately 76,000,000 meters, representing an increase of approximately 4.1% as compared with the corresponding period of last year, mainly due to the increased production volume of middle to high-end denim based on market demands.

# MANAGEMENT DISCUSSION AND ANALYSIS

The following charts show the breakdown of the Group's revenue in terms of geographical location for the years ended 31 December 2014 and 2013:

**Proportion of revenue by geographical location**

Note 1: Southeast Asia includes Vietnam, Thailand, Malaysia, Indonesia, the Philippines and Burma.

Note 2: East Asia includes Japan and South Korea.

Note 3: Other regions include the US, Europe, Taiwan and Africa.

For the year ended 31 December 2014, under the circumstances of a slow recovery in the global economy and sluggish market demand both domestically and abroad, the Group took initiatives in adjusting product mix and expanding to both domestic and overseas markets, creating a relative stable geographical mix. During the Year, the proportion of the Group's overseas revenue was approximately 42.1%, while the proportion of domestic revenue was approximately 57.9%.

# MANAGEMENT DISCUSSION AND ANALYSIS

## FINANCIAL REVIEW

### Revenue, gross profit and gross profit margin

The table below is an analysis of the Group's revenue, gross profit and gross profit margin attributable to its major products for the years ended 31 December 2014 and 2013:

Product	For the year ended 31 December					
	2014			2013		
	Revenue	Gross profit	Gross profit margin	Revenue	Gross profit	Gross profit margin
	RMB'000	RMB'000	%	RMB'000	RMB'000	%
Cotton yarn	3,719,738	86,084	2.3	5,095,886	485,160	9.5
Grey fabric	6,306,286	378,869	6.0	7,528,629	552,499	7.3
Denim	1,185,122	277,866	23.4	1,256,127	167,971	13.4
Total	11,211,146	742,819	6.6	13,880,642	1,205,630	8.7

For the year ended 31 December 2014, the gross profit of the Group decreased by approximately 38.4% compared with the corresponding period of last year to approximately RMB743 million, and the gross profit margin of the Group was approximately 6.6%, representing a decrease of approximately 2.1 percentage points over the corresponding period of last year. This was mainly attributable to the slow recovery of the global economy, the declining cotton price and the rich wait-and-see atmosphere in downstream textile manufacturing enterprises, alongside reduced demand and intensified competition in the textile market domestically and abroad, resulting in a decrease in sales volume and selling prices of the textile products of the Group.

## OTHER INCOME AND GAINS

For the year ended 31 December 2014, other income and gains of the Group were approximately RMB901 million, representing an increase of approximately 4.2% from approximately RMB865 million for the corresponding period of last year. Such increase was mainly attributable to the increase in gains from the sales of electricity and steam as a result of reduced costs for electricity generation due to a decrease in coal price during the Year.

For the year ended 31 December 2014, the Group's sales of electricity and steam amounted to approximately RMB2,105 million, representing a decrease of approximately 7.0% as compared with approximately RMB2,264 million for the corresponding period of last year with a gain of approximately RMB757 million, representing an increase of approximately 12.5% as compared to approximately RMB673 million for the corresponding period of last year. The decrease in sales of electricity and steam as compared with the corresponding period of last year was mainly attributable to the decrease in external sales volume and sales amount as a result of decrease in electricity generation due to facility maintenance as well as upgrade of environmental protection equipment during the Year. The increase in gains generated from the sale of electricity and steam was mainly due to the decreased coal price during the Year that reduced the unit power generation cost.

# MANAGEMENT DISCUSSION AND ANALYSIS

## SELLING AND DISTRIBUTION EXPENSES

For the year ended 31 December 2014, the Group's selling and distribution expenses dropped by approximately 22.1% to approximately RMB159 million from approximately RMB204 million for the corresponding period of last year. Among those expenses, transportation costs decreased by approximately 23.4% to approximately RMB95 million from approximately RMB124 million in 2013, which was mainly due to the decrease in the fees for transportation resulting from a decrease of the sales volume of the products of the Group during the Year. Salary of the sales staff was approximately RMB24 million, representing a decrease of approximately 17.2% as compared with approximately RMB29 million of last year. It was the decrease in revenue of the Group during the Year that led to a corresponding decrease in the salary of such sales staff. Sales commission was approximately RMB11 million, representing a decrease of approximately 35.3% as compared with approximately RMB17 million for the corresponding period of last year, which was primarily due to the decrease of overseas revenue, leading to a decline in commission payouts.

## ADMINISTRATIVE EXPENSES

For the year ended 31 December 2014, the administrative expenses of the Group were approximately RMB298 million, representing an increase of approximately 4.9% from approximately RMB284 million for the corresponding period of last year. Such increase was primarily due to the Group's inclusion of depreciation costs incurred by idle properties in the administrative expenses according to accounting standards, and an increase in salary of the administrative staff during the Year.

## FINANCE COSTS

For the year ended 31 December 2014, finance costs of the Group were approximately RMB638 million, representing an increase of approximately 12.7% as compared with approximately RMB566 million of last year, among which, the interest expenses amounted to approximately RMB629 million, representing an increase of approximately 13.3% as compared with approximately RMB555 million for the corresponding period of last year, which was mainly attributable to the increase in the amount of the Group's average borrowings and a rising interest rate.

## LIQUIDITY AND FINANCIAL RESOURCES

As at 31 December 2014, cash and cash equivalents of the Group were approximately RMB10,713 million, representing an increase of approximately 4.9% as compared with approximately RMB10,211 million as at 31 December 2013. It was mainly due to the decrease in inventory of the Group during the Year, which resulted in a corresponding increase in cash and cash equivalents.

The working capital of the Group is mainly financed by cash inflow from operating activities. For the year ended 31 December 2014, the Group recorded a net cash inflow from operating activities of approximately RMB1,998 million, a net cash outflow from investing activities of approximately RMB645 million and a net cash outflow from financing activities of approximately RMB843 million. As at the end of the Year, cash and cash equivalents increased by approximately RMB503 million. The Group will take effective measures to ensure adequate liquidity and financial resources to satisfy its business needs, and will continue to maintain a sound financial position.

# MANAGEMENT DISCUSSION AND ANALYSIS

For the year ended 31 December 2014, the inventory turnover days of the Group were 190 days, which was basically the same as the corresponding period of last year. The average turnover days of the Group's receivables were 9 days, representing a decrease of 5 days as compared with that of the corresponding period of last year, mainly attributable to the decrease in settlement by letters of credit due to the decrease in proportion of export sales during the Year.

For the year ended 31 December 2014, the Group did not use financial instruments. For the corresponding period of last year, the Group used financial instruments, specifically forward currency contract, to minimize its exposure to fluctuations of exchange rates, which was settled in May 2013.

## NET PROFIT ATTRIBUTABLE TO OWNERS OF THE PARENT AND EARNINGS PER SHARE

For the year ended 31 December 2014, net profit attributable to owners of the parent was approximately RMB308 million, representing a decrease of approximately 51.0% from approximately RMB629 million for the corresponding period of last year.

For the year ended 31 December 2014, earnings per share of the Company were RMB0.26.

## CAPITAL STRUCTURE

The major objective of the Group's capital management is to ensure ongoing operations and maintain a satisfactory capital ratio in order to support its business and maximize shareholders' interests. The Group continued to maintain an appropriate mix of equity and debt to ensure an efficient capital structure to reduce capital costs. As at 31 December 2014, the debts of the Group were mainly bank borrowings totaling approximately RMB3,841 million and corporate bonds amounting to approximately RMB5,953 million. The Group had cash and cash equivalents of approximately RMB10,713 million. The gearing ratio (net debt (interest-bearing bank and other borrowings after deducting cash and cash equivalents) divided by total equity) was approximately -5.7% (2013: approximately 1.3%).

The Group maintained a balanced portfolio of borrowings at fixed interest rates and floating rates to manage interest expenses. As at 31 December 2014, approximately 54.6% of the Group's bank borrowings were subject to fixed interest rates, while the remaining of approximately 45.4% was subject to floating interest rates.

The Group aimed to maintain a balance between the continuity and flexibility of funds through financial instruments such as bank borrowings and corporate bonds. At any time, the borrowings due within the upcoming 12-month period will not exceed 50.0% of the total borrowings. As at 31 December 2014, approximately 25.2% of the Group's borrowings will mature within one year.

As at 31 December 2014, the Group's bank borrowings were denominated in RMB and US dollars, of which bank borrowings in US dollars represented approximately 8.8% of the total bank borrowings, while cash and cash equivalents were mainly denominated in RMB and US dollars, of which cash and cash equivalents denominated in US dollars represented approximately 1.6% of the total amount.

# MANAGEMENT DISCUSSION AND ANALYSIS

## EMPLOYEES AND EMOLUMENT POLICIES

As at 31 December 2014, the Group had a total of approximately 74,000 employees, representing a decrease of approximately 10,000 employees as compared with that of last year. Such decrease in the number of staff was mainly attributable to the decrease in staff reserves due to the decrease in production volume as the Group adjusted its production plan based on market demand, and also the reduced unit labor intensity by optimizing production operation. Total staff costs amounted to approximately RMB2,716 million during the Year, representing an increase of approximately 2.8% over approximately RMB2,642 million as recorded for the corresponding period of last year. Employee remuneration is determined based on their performance, experience and the prevailing industry practice. The Group's remuneration policies and packages were also reviewed periodically by the management of the Group. In addition, bonuses and rewards were granted to staff based on their performance appraisal to encourage and drive staff to strive for better performance. During the Year, the Group provided appropriate training to its staff according to the skills requirements for their respective positions, such as training sessions on safety and skills.

## EXPOSURE TO FOREIGN EXCHANGE RISKS

The Group adopts a strict and prudent policy in managing its exchange rate risks. Export sales and import purchases of the Group are settled in US dollars, and a portion of bank deposits and bank borrowings are denominated in US dollars. For the year ended 31 December 2014, approximately 42.1% of the Group's revenue and approximately 39.1% of the costs of purchase of cotton were denominated in US dollars, thus the Group was exposed to foreign exchange risks. For the year ended 31 December 2014, the Group recorded exchange loss of approximately RMB9 million due to the depreciation of RMB. During the Year, the Group did not experience any significant difficulties in its operations or liquidity as a result of fluctuations in currency exchange rates. The Board believes that the Group has sufficient foreign currency to meet its requirements.

## CONTINGENT LIABILITIES

As at 31 December 2014, the Group did not have any contingent liabilities.

## TAXATION

For the year ended 31 December 2014, the tax of the Group decreased from approximately RMB295 million in 2013 to approximately RMB140 million in 2014, representing a decrease of approximately 52.5%. Such decrease in tax was mainly attributable to the decrease in the Group's profit before tax during the Year.

# MANAGEMENT DISCUSSION AND ANALYSIS

## CORPORATE BONDS

On 26 July 2013, the Company received the “Approval for the Public Issue of Corporate Bonds by Weiqiao Textile Company Limited (Zheng Jian Xu Ke [2013] No. 997)” (證監許可[2013] 997號《關於核准魏橋紡織股份有限公司公開發行公司債券的批覆》) from the China Securities Regulatory Commission approving the Company to issue its corporate bonds in the PRC with an aggregate nominal value of no more than RMB6 billion. On 25 October 2013, the Company completed the issuance of domestic corporate bonds (first tranche) with nominal value of RMB3 billion and nominal interest rate of 7.0%. On 11 November 2014, the Company completed the issuance of domestic corporate bonds (second tranche) with nominal value of RMB3 billion and nominal interest rate of 5.5%. For details, please refer to the announcements of the Company dated 26 July 2013, 28 October 2013 and 12 November 2014, respectively.

## THERMAL POWER ASSETS SWAP

On 21 October 2014, the Company entered into a thermal power assets swap agreement with the Holding Company, pursuant to which the Company purchased thermal power assets with an installed power generation capacity of 1,320MW owned by the No.7 Thermal Power Plant of the Holding Company at a total consideration of approximately RMB4,368,062,200. Part of the aforementioned consideration was satisfied by transferring to the Holding Company the assets of Weiqiao Town No.2 Thermal Power Plant, Weiqiao Town No.3 Thermal Power Plant, Zouping No.1 Thermal Power Plant and Zouping No.2 Thermal Power Plant with an aggregate installed capacity of 1,290MW at a price of RMB3,836,369,200, while the balance of the consideration in an amount of RMB531,693,000 were paid in cash within five business days upon the completion of the thermal power assets swap agreement. The recorded prices in the aforementioned agreement were based on the fair values of the related assets on 31 August 2014. The swap agreement was approved by the shareholders of the Company on 24 December 2014, and the total consideration has been settled during the year. For details, please refer to the announcement and the circular of the Company dated 21 October 2014 and 24 November 2014 respectively.

## OUTLOOK

Looking ahead, the global economy will continue on a recovery path and the global textile market may continue to achieve slight growth in 2015. The stimulus policies implemented by the PRC government will start to show effects in the second half of 2015, which will drive improvement of consumption demand.

The exchange rate of RMB against the US Dollar has kept falling since the end of 2014, which will benefit the exports of Chinese textile enterprises. The increase of the export rebate rate for some textile products by one percentage point to 17.0% since the beginning of 2015 and the phase-by-phase resolution to the problem of inconsistency between the input tax deduction rate and the output tax levy rate for VAT faced by textile enterprises will reduce their tax costs. The RRR cuts and interest rates cuts by the Central Bank will release more liquidity and help to reduce the finance costs of enterprises. More importantly, as the market-oriented pricing policy begins to show effects after the implementation of the direct subsidy policy, the gap between the domestic and overseas cotton prices will get narrower, which will improve the competitiveness of Chinese textile enterprises internationally.

# MANAGEMENT DISCUSSION AND ANALYSIS

We are facing both opportunities and challenges. The cotton price is still subject to great uncertainties in short term. Meanwhile, the general slowdown in the PRC economy will lead to sluggish retail sales and end-user demand, resulting in uncertainty in downstream demand.

Adhering to the principle of making aggressive progress to keep abreast of the times, Weiqiao Textile continues to implement established development strategies including technology advancement, brand building, ecological civilization and talent cultivation. To this end, Weiqiao Textile will continue to adjust its product mix according to clients' need, gradually increase the share of middle to high-end products, and improve the gross profit margin of products by developing diversified and functional products. The Group will source cotton globally and improve cost controls in-line with changes in the market for raw textile materials. The Group will also strive to reduce costs and improve efficiency by leveraging on new technology, advanced concepts and scientific management model. While focusing on reducing the gearing ratio, financial costs and solvency risk, Weiqiao Textile will further enhance its ability to manage risks. The Group will make better use of its cash held in 2015, with an aim to create higher value. In addition, the thermal power assets acquired through swap agreement in 2014 will effectively reduce our production costs, and also reduce energy consumption during the production process to better protect the local environment.

By leveraging on its positive brand image, extensive operational experience and solid financial position, the Group is confident that it can improve its core competitiveness, seize strategic opportunities arising from changes in the industry, and maintain and reinforce its position as the preferred supplier for international cotton textile buyers both in China and across the globe.

# DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

## EXECUTIVE DIRECTORS

### Zhang Hongxia

Ms. Zhang Hongxia, aged 43, is the Chairman of the Company. She graduated from Shandong Cadre Correspondence University (山東幹部函授大學) and obtained a professional diploma in financial accounting. She was appointed as a Supervisor at the Company's annual general meeting held on 29 May 2012. She is now the head of the production technical department of the Company (since February 2006).

# DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

## SENIOR MANAGEMENT

Wei Jiakun, aged 47, was appointed as the general manager of the Company on 18 November 2014. Mr. Wei is responsible for supervising the Group's general operation and formulating the Group's business strategies, as well as overseeing the Group's production, operation and marketing of the Group's products. He joined the Company's predecessor, Weiqiao Cotton Spinning Factory (位橋棉紡廠), in 1986 and has over 25 years of experience in cotton textile industry. Mr. Wei had served as the workshop director (車間主任) and director (廠長) in the spinning mill of Weiqiao Cotton Spinning Factory (位橋棉紡廠) from September 1990 to October 2001, the general manager of Weihai Weiqiao from November 2001 to September 2002, the deputy general manager of Weiqiao Industrial Park of the Company from October 2002 to January 2005, the general manager of Zouping No.2 Industrial Park of the Company from February 2005 to April 2009 and the general manager of Binzhou Industrial Park from May 2009 to November 2014. Currently, he also serves as the director of the Holding Company.

# REPORT OF THE DIRECTORS

The directors of the Company (the “Directors”) present their report and the audited financial statements of the Company and the Group for the year ended 31 December 2014.

## PRINCIPAL ACTIVITIES

The Group is principally engaged in the production, sale and distribution of cotton yarn, grey fabric and denim. There were no significant changes in the nature of the Group’s principal activities during the year ended 31 December 2014.

## RESULTS AND DIVIDENDS

The Group’s operating results for the year ended 31 December 2014 and the financial position of the Group and the Company as at 31 December 2014 are set out on pages 63 to 65 and pages 69 to 70 in the audited financial statements of this annual report.

The Directors recommended the payment of a final dividend of RMB0.0773 (inclusive of tax) per share (the “2014 Final Dividend”), payable to shareholders of the Company whose names appear on the register of members of the Company as at close of business on 19 June 2015 (Friday). The 2014 Final Dividend is subject to the approval at the coming annual general meeting of the Company. According to the relevant regulations in the PRC and as disclosed in the Company’s prospectus, the Group’s net profit after tax can only be distributed after making up prior years’ cumulative losses, if any, and making allowance for the statutory surplus reserve, general reserve fund, employee’s bonus, welfare fund and enterprise expansion fund.

According to the “Enterprise Income Tax Law of the People’s Republic of China”, which took effect on 1 January 2008, its implementation rules and the relevant interpretation by tax authorities in the PRC, when a company distributes the final dividends to non-resident enterprise shareholders and natural person shareholders whose names appear on the H-share register of a company, such company is required to withhold and pay on behalf of such shareholders an enterprise income tax at the rate of 10% in general (except as required otherwise by the laws, regulations and tax treaties regarding the tax revenue). Any shares registered in the name of a non-person shareholder, including Hong Kong Securities Clearing Company Nominees Limited, other nominee or trustee, or other organisation and group, are deemed as shares held by non-resident enterprise shareholders. As such, the dividends that he or she is entitled to are subject to the enterprise income tax.

The Company will strictly comply with the laws and the requirements of relevant government departments, and will withhold and pay the enterprise income tax on behalf of its shareholders whose names appear on the H-share register of the Company on the record date. The Company will take no responsibility and will reject any requests from shareholders whose identity cannot be confirmed within the specified time or cannot be confirmed at all or any disputes arising from the arrangement of withholding tax or paying tax. However, the Company may provide assistance to the extent of its ability.

For the distribution of dividends, dividends for holders of Domestic Shares will be distributed and paid in RMB, while dividends for H Shares will be declared in RMB but paid in Hong Kong dollars (“HK\$”) (conversion of RMB into HK\$ shall be calculated on the average price of the medium prices of the conversion of RMB into HK\$ announced by the People’s Bank of China within five working days prior to and including 12 June 2015).

# REPORT OF THE DIRECTORS

## SUMMARY OF FINANCIAL INFORMATION

## PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Company's articles of association (the "Articles of Association") or the Company Law of the PRC which oblige the Company to offer new shares on a pro rata basis to existing shareholders.

## PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company has redeemed, purchased or sold any of its own listed securities during the year ended 31 December 2014, nor any of its subsidiaries purchased or sold any of the Company's listed securities during the year ended 31 December 2014.

# REPORT OF THE DIRECTORS

## RESERVES

Details of changes in the reserves of the Company and the Group during the year ended 31 December 2014 are set out in Note 31 to the financial statements and in the consolidated statement of changes in equity, respectively.

## DISTRIBUTABLE RESERVES

As at 31 December 2014, in accordance with the PRC Company Law and the China Accounting Standards for Business Enterprises and other regulations, an amount of about RMB6,673 million stood to the credit of the Company's capital reserve account, and an amount of about RMB1,417 million stood to the credit of the Company's statutory reserve funds. In addition, according to the Articles of Association, the Company had retained profits of about RMB6,498 million for distribution as dividend.

## MAJOR CUSTOMERS AND SUPPLIERS

During the year ended 31 December 2014, sales to the Group's five largest customers accounted for approximately 11.7% of the Group's total sales for the year ended 31 December 2014, while sales to its largest customer accounted for approximately 2.8% of the Group's total sales for the year ended 31 December 2014.

During the year ended 31 December 2014, purchases from the Group's five largest suppliers accounted for approximately 45.6% of the Group's total purchases for the year ended 31 December 2014, while purchases from the Group's largest supplier accounted for approximately 25.9% of the Group's total purchases for the year ended 31 December 2014.

The Group has sold certain products to Holding Company, its subsidiaries and associates ("Parent Group"), details of which are set out in the section headed "Connected Transactions" below.

Save as those disclosed above, at no time during the year ended 31 December 2014, did a Director, his/her associate(s) or a Shareholder, which to the knowledge of the Directors owns more than 5% of the Company's share capital, have an interest in any of the Group's five largest customers and suppliers.

## INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received from each of the independent non-executive Directors an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules, and the Board considers each of the independent non-executive Directors to be independent.

## EMOLUMENTS OF DIRECTORS

Except for Mr. Wang Naixin (an Independent non-executive Director), there was no arrangement under which a Director has waived or agreed to waive any emoluments. Details of emoluments of Directors are set out in Note 7 to the financial statements.

# REPORT OF THE DIRECTORS

## DIRECTORS', SUPERVISORS' AND SENIOR MANAGEMENT'S SERVICE CONTRACTS AND LETTERS OF APPOINTMENT

Each of the executive Directors, Supervisors (excluding the independent Supervisors) and senior management of the Company has entered into a service contract with the Company for a term of three years. Each of the non-executive Directors, independent non-executive Directors and independent Supervisors has entered into a letter of appointment with the Company for a term of three years. Pursuant to the Articles of Association, each Director, Supervisor and senior management is eligible for re-election and consecutive appointment upon expiration of his/her term of office.

Save as mentioned above, the Company has not entered into any service contract with any of the Directors and Supervisors which is not terminable by the Company within one year without payment of compensation other than statutory compensation.

The Directors, Supervisors and senior management as at the date of this report and their respective term of office are as follows:

### Executive Directors:

Zhang Hongxia	Until the date of annual general meeting of 2014
Zhang Yanhong	Until the date of annual general meeting of 2014
Zhao Suwen	Until the date of annual general meeting of 2014

Lv Tianfu ( <i>Note</i> )	Until the date of annual general meeting of 2014
Wang Wei ( <i>Note</i> )	Until the date of annual general meeting of 2014
Wang Xiaoyun	Until the date of annual general meeting of 2014

*Note:* Independent Supervisor

### Senior management:

Wei Jiakun (general manager)	Until 18 November 2017
------------------------------	------------------------

# REPORT OF THE DIRECTORS

## DIRECTORS, SUPERVISORS AND SENIOR MANAGEMENT

The biographies of each of the Directors, Supervisors and senior management are set out on page 22 to page 28 in this annual report.

The re-election of some Directors and Supervisors of the Company will be proposed as ordinary resolutions at the coming annual general meeting for the year ended 31 December 2014.

## DIRECTORS', SUPERVISORS' AND SENIOR MANAGEMENT'S INTERESTS IN CONTRACTS

Save for those transactions described in Note 37, headed "Related Party Transactions", to the financial statements and the section headed "Connected Transactions" below, no contract of significance, which was significant in relation to the business of the Group, to which the Company or any of its subsidiaries was a party and in which any Directors, Supervisors or senior management had a material interest, whether directly or indirectly, subsisted during or at the end of 2014.

## CONTRACTS OF SIGNIFICANCE

Save for those transactions described in Note 37, headed "Related Party Transactions", to the financial statements and the section headed "Connected Transactions" below, there is no contract of significance between the Company (or any of its subsidiaries) and its controlling shareholder (or any of its subsidiaries) or among the controlling shareholders of the Company (or any of its subsidiaries), and there is no contract of significance for the provision of services to the Company (or any of its subsidiaries) by a controlling shareholder of the Company (or any of its subsidiaries).

# REPORT OF THE DIRECTORS

## SUBSTANTIAL SHAREHOLDERS

As at 31 December 2014, so far as known to any directors, supervisors and chief executives of the Company, the following persons (other than a director, supervisor or chief executive of the Company) had, or were deemed or taken to have interests or short positions in the shares or underlying shares of the Company which would fall to be disclosed to the Company and The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) under the provisions of Divisions 2 and 3 of Part XV of the Securities and Futures Ordinance (the “SFO”) or, who were, directly or indirectly, interested in 10% or above of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of any other members of the Group or had any option in respect of such capital:

Interests in the domestic shares of the Company (“Domestic Shares”):

Zhao Suwen ( <i>Executive Director</i> )	Holding Company	Beneficial	0.38
Zhao Suhua ( <i>Non-executive Director</i> )	Holding Company	Spouse ( <i>Note 2</i> )	4.93 ( <i>Note 2</i> )

*Note 1:* These 112,000,000 shares of the Holding Company will be beneficially owned by Ms. Zhang Hongxia, who is deemed to be interested in the 43,676,000 shares directly held by her husband, Mr. Yang Congsen, under the SFO.

*Note 2:* Ms. Zhao Suhua is deemed to be interested in the 78,922,000 shares directly held by her husband, Mr. Wei Yingzhao, under the SFO.

Save as disclosed above, as at 31 December 2014, none of the directors, supervisors or chief executives of the Company and their associates had any interests or short positions in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the SFO) which was required to be (a) notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests or short positions which they were taken or deemed to have under such provisions of the SFO); or (b) entered in the register required to be kept by the Company pursuant to Section 352 of the SFO; or (c) notified to the Company and the Stock Exchange pursuant to the Model Code.

## MANAGEMENT CONTRACTS

No contract concerning the management and administration of the whole or any substantial part of the business of the Company was entered into by the Company or subsisted during the year ended 31 December 2014.

# REPORT OF THE DIRECTORS

## CONNECTED TRANSACTIONS

The “Related Party Transactions” as set out in Note 37 to the financial statements also constituted connected transactions under the Listing Rules, and are required to comply with the relevant requirements under Chapter 14A of the Listing Rules.

Details of the connected transactions of the Group for the year ended 31 December 2014 are set out below. The Company has made relevant announcements strictly in accordance with the Listing Rules.

During the year ended 31 December 2014, certain transactions were entered into between the Group and the following connected persons of the Company:

1. The Holding Company is the controlling shareholder of the Company. It therefore constitutes a connected person of the Company under the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”).
2. Weilian Print is a 73% owned subsidiary of Holding Company. Shandong Weiqiao Hengfu Knitting Co., Ltd. is a 60% owned subsidiary of Holding Company. Hongyuan Home Textile is a 60% owned subsidiary of Holding Company. Tekuanfu is a 99% owned subsidiary of Holding Company. Weiqiao Clothes is a 67.18% owned subsidiary of Holding Company. Elite Garment is a 75% owned subsidiary of Holding Company. Shandong Weiqiao Jiajia Home Textile Co., Ltd. is a 100% owned subsidiary of the Holding Company. As the above seven companies are associates of a promoter/substantial shareholder of the Company, each of them constitutes a connected person of the Company under the Listing Rules.

## NON-EXEMPT CONNECTED TRANSACTIONS

Set out below is a summary of the non-exempt connected transactions under the Listing Rules (“Non-Exempt Connected Transactions”):

### SUPPLY OF COTTON YARN, GREY FABRIC AND DENIM BY THE GROUP TO PARENT GROUP

On 25 August 2003, the Company and Holding Company entered into a supply of products, raw materials and processing services agreement with a term of three years commencing from 25 August 2003 to 25 August 2006 (“Supply Agreement”). In September 2003, Hong Kong Stock Exchange granted the Company a waiver from strict compliance with the announcement and independent shareholders’ approval requirements in respect of the supply of cotton yarn and grey fabric by the Group to Parent Group under the Supply Agreement. The waiver was granted for a term of three financial years ended 31 December 2005. Pursuant to the renewal mechanism of the agreement, the Supply Agreement was renewed on 25 August 2006 for a term of three years commencing from 25 August 2006. Pursuant to the renewal mechanism of the agreement, the Company and the Holding Company entered into a cotton yarn/grey fabric and denim supply agreement on 20 October 2008 with the term starting from 1 January 2009 and ending on 31 December 2011. Pursuant to the renewal mechanism of the agreement, the Company and the Holding Company entered into a cotton yarn/grey fabric and denim supply agreement on 31 October 2011 with the term starting from 1 January 2012 and ending on 31 December 2014 (both dates

# REPORT OF THE DIRECTORS

inclusive). Pursuant to the renewal mechanism of the agreement, the Company and the Holding Company entered into a cotton yarn/grey fabric and denim supply agreement on 21 October 2014 with the term starting from 1 January 2015 and ending on 31 December 2017. The prices of cotton yarn, grey fabric and denim supplied by the Group to the Parent Group were determined by reference to the prices at which comparative types of cotton yarn, grey fabric and denim were supplied by the Group to independent third parties under normal commercial terms in the ordinary course of business in the PRC. Further details of the above non-exempt continuing connected transactions are set out in the Prospectus and the Company's announcements and circulars dated 28 December 2006, 15 January 2007, 20 October 2008, 31 October 2008, 31 October 2011, 11 November 2011, 21 October 2014 and 24 November 2014 respectively.

## LEASE OF LAND USE RIGHTS BY HOLDING COMPANY TO THE COMPANY

The Company and Holding Company entered into relevant leasing agreements pursuant to which, Holding Company agreed to lease to the Company land use rights in respect of land respectively located at No. 34 Qidong Road and west of Xiwaihuan Road, Weiqiao Town, Zouping County, Shandong Province, the PRC, and the land use rights in respect of land located to the east of Zouping County, Zouping Economic Development Zone, Shandong Province, the PRC, for the Company's operations, with a right of renewal exercisable by the Company. The principal terms of the agreements are as follows:

- (i) A land use right lease agreement dated 30 September 2002 with the commencement date and expiry date on 30 September 2002 and 30 September 2022, respectively, was entered into with an annual rental of RMB888,700 for the land relating to the Weiqiao Second Production Area.
- (ii) A land use right lease agreement dated 14 May 2003 with the commencement date and expiry date on 14 May 2003 and 14 May 2023, respectively, was entered into with an annual rental of RMB1,503,000 for the land relating to the Weiqiao Third Production Area.
- (iii) A land use right lease agreement dated 17 October 2003 with the commencement date and expiry date on 17 October 2003 and 17 October 2023, respectively, was entered into with an annual rental of RMB2,167,000 for the land relating to the Zouping Industrial Park Area.
- (iv) A land use right lease agreement dated 17 October 2003 with the commencement date and expiry date on 17 October 2003 and 17 October 2023, respectively, was entered into with an annual rental of RMB994,100 for the land relating to the Zouping Industrial Park Area.
- (v) A land use right lease agreement dated 17 October 2003 with the commencement date and expiry date on 17 October 2003 and 17 October 2023, respectively, was entered into with an annual rental of RMB2,000,000 for the land relating to the Zouping Industrial Park Area.
- (vi) A land use right lease agreement dated 2 November 2005 with the commencement date and expiry date on 31 October 2005 and 31 October 2025, respectively, was entered into with an annual rental of RMB2,699,000, which is subject to annual adjustment, for the land relating to the thermal power assets acquired from the Holding Company.

# REPORT OF THE DIRECTORS

On 20 September 2008 and 15 June 2012, respectively, the leases of certain part of the land where the Weiqiao First Thermal Power Plant and the Binzhou Thermal Power Plant are situated were terminated and the annual rentals have been adjusted thereafter to RMB2,127,000 and RMB1,537,000, respectively, on a pro-rata basis. Except for this, all of the original clauses and terms remain unchanged.

On 24 December 2014, the leases of the foresaid lands occupied by the Weiqiao Second Thermal Power Plant and Zouping First Thermal Power Plant were terminated. Since then, the land use right lease agreements dated 2 November 2005 were completely terminated.

- (vii) A land use right lease agreement dated 18 March 2008 with the commencement date and expiry date on 18 March 2008 and 18 March 2028, respectively, was entered into with an annual rental of RMB1,628,000 for the land relating to the Zouping Industrial Park Area.

On 24 December 2014, the leases of the foresaid lands occupied by the Zouping Second Thermal Power Plant were terminated. Since then, the land use right lease agreements dated 18 March 2008 were terminated.

- (viii) A land use right lease agreement dated 18 March 2008 with the commencement date and expiry date on 18 March 2008 and 18 March 2028, respectively, was entered into with an annual rental of RMB740,500 for the land relating to the Weihai Industrial Park Area.
- (ix) A land use right lease agreement dated 1 May 2006 with the commencement date and expiry date on 1 May 2006 and 1 May 2026, respectively, was entered into with an annual rental of RMB7,001,000 for the land relating to the Zouping Industrial Park Area.
- (x) A land use right lease agreement dated 24 April 2007 with the commencement date and expiry date on 24 April 2007 and 24 April 2027, respectively, was entered into with an annual rental of RMB4,164,000 for the land relating to the Zouping Industrial Park Area.

On 26 November 2008 and 14 December 2011, respectively, the lease of certain parts of the land where the Zouping Third Industrial Park is situated was terminated and the annual rental has been adjusted thereafter to RMB3,816,000 and RMB2,070,000, respectively, on a pro-rata basis. Except for this, all of the original clauses and terms remain unchanged.

The rent chargeable by Holding Company to the Company was determined by reference to the market rent, namely the rent payable for leasing land use rights in respect of similar properties from independent third parties under normal commercial terms in the ordinary course of their business in Zouping County, Shandong Province, the PRC. For further details of the leases of land to the Company by the Holding Company, please refer to the section of "Related Party Transactions" in Note 37 to the financial statements.

# REPORT OF THE DIRECTORS

## SUPPLY OF EXCESS ELECTRICITY BY THE COMPANY TO HOLDING COMPANY

The Company and Holding Company entered into the supply of excess electricity agreement, pursuant to which the Company has the right to supply electricity, which is in excess of the Group's actual electricity consumption, to Holding Company for a term commencing on 18 March 2008 and ending on 31 December 2010 (both dates inclusive). The parties to the supply of excess electricity agreement have agreed to renew the transaction, and, on 4 November 2010, the Company entered into a supply of excess electricity agreement with Holding Company for a period of three years commencing on 1 January 2011 and ending on 31 December 2013 (the "Old Supply of Excess Electricity Agreement"), pursuant to which the Group will supply excess electricity to Holding Company. Pursuant to the renewal mechanism of the agreement, the Company and Holding Company entered into a supply of excess electricity agreement on 1 November 2013 for a term commencing on 1 January 2014 and ending on 31 December 2016 (both dates inclusive) (the "Supply of Excess Electricity Agreement"). Terms and conditions under the Supply of Excess Electricity Agreement are basically the same as the conditions under the Old Supply of Excess Electricity Agreement.

The price at which excess electricity is supplied to Holding Company by the Group shall be RMB0.50 per kwh (inclusive of value-added tax at 17%) or the price at which a power plant in Shandong Province would from time to time sell its electricity produced to the relevant power grid, whichever is higher. If any applicable mandatory price for the supply of electricity is prescribed by the government, it would be adopted instead.

The Company is entitled to increase the price of excess electricity supplied to Holding Company according to the coal price by giving a 10 days' prior written notice to Holding Company, and up to a maximum price at which the relevant power grid in Shandong province would charge for the sale of electricity to such companies.

Further details of the Non-Exempt Connected Transactions are set out in the Prospectus and the Company's announcements dated 13 August 2005, 14 January 2008, 20 October 2008, 4 November 2010 and 1 November 2013, respectively.

## FIGURES FOR THE YEAR ENDED 31 DECEMBER 2014

Below is a table setting out the aggregate value for each of the Non-Exempt Connected Transactions for the year ended 31 December 2014:

<b>Transaction nature</b>	<b>Aggregate value for the year ended 31 December 2014 (RMB'000)</b>
1. Supply of cotton yarn, cotton fabric and denim by the Group to the Parent Group	945,747
2. Lease of land use rights by Holding Company to the Group	11,458
3. Supply of excess electricity by the Company to Holding Company	1,748,676

# REPORT OF THE DIRECTORS

## CONFIRMATION BY THE INDEPENDENT NON-EXECUTIVE DIRECTORS

The independent non-executive Directors have reviewed the continuing connected transactions and confirmed that each of the continuing connected transactions was:

- (i) entered into in the ordinary and usual course of business of the Group;
- (ii) conducted either on normal commercial terms or, if there were not sufficient comparable transactions to judge whether it was on normal commercial terms, on terms that were fair and reasonable so far as the shareholders of the Company are concerned, and in the interest of the shareholders of the Company as a whole;
- (iii) entered into either in accordance with the relevant agreement governing such transactions or where there were no such agreements, on terms no less favorable than those available to or from independent third parties; and
- (iv) within the relevant annual cap.

The auditors of the Company have reported to the Directors that during the financial year:

- (i) the above continuing connected transactions have been approved by the Board;
- (ii) the above continuing connected transactions are in accordance with the pricing policies of the Company;
- (iii) the above continuing connected transactions have been entered into in accordance with the terms of the agreements governing such transactions; and
- (iv) the respective cap amounts set out in the relevant agreements referred to above have not been exceeded.

## PENSION SCHEME

Details of the pension scheme of the Group are set out in Note 2.4 and Note 6 to the financial statements.

# REPORT OF THE DIRECTORS

## CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code for securities transactions on terms equivalent to the required standard of the Model Code for Securities Transactions by Directors of Listed Issuers (the “Model Code”) as set out in Appendix 10 to the Listing Rules.

Having made specific enquiries with the Directors, the Company has confirmed that each of the Directors complied with the required standard set out in the Model Code regarding securities transactions by the Directors.

## CODE ON CORPORATE GOVERNANCE

The Company has applied the principles of the Code of Corporate Governance Practices (the “CG Code”) as set out in Appendix 14 to the Listing Rules. The Company has been in compliance with all the mandatory code provisions for the year ended 31 December 2014.

## PUBLIC FLOATING

Pursuant to the information that is publicly available to the Company, and so far as the Directors are aware as at the latest practicable date prior to the issue of this annual report, the Company has sufficient public floating as required under Rule 8.08 of the Listing Rules.

## AUDIT COMMITTEE

The Company has established an audit committee (“Audit Committee”) in compliance with the Code of Best Practices for the purposes of reviewing and providing supervision over the Group’s financial reporting process and internal controls. The Audit Committee is composed of the three independent non-executive Directors. An Audit Committee meeting was held on 20 March 2015 to review the Group’s annual report and financial statements.

## INTERNATIONAL AUDITORS

Ernst & Young was the Company’s international auditors for the year ended 31 December 2014. A resolution for the reappointment of Ernst & Young as the international auditors of the Company will be proposed at the annual general meeting of 2014.

The Company has not changed the auditors for the twelve years ended 31 December 2014.

On Behalf of the Board of Directors

**Zhang Hongxia**

*Chairman*

Shandong, the PRC

20 March 2015

# REPORT OF THE SUPERVISORY COMMITTEE

## TO ALL SHAREHOLDERS,

In 2014, the Supervisory Committee of the Company duly performed its duties of supervision in accordance with the principle of being accountable to shareholders and the laws and regulations including the Company Law and the Articles of Association. During the year, the Supervisory Committee actively participated in reviewing the subject matters of material decisions and the significant economic activities of the Company, provided advices and recommendations thereon, effectively supervised the acts of directors and the management in performing their duties and reviewed on an irregular basis the Company's operation and financial positions so as to protect the interests of shareholders. The work of the Supervisory Committee in 2014 are reported as follows:

### 1. Work of the Supervisory Committee

In 2014, the Supervisory Committee convened two meetings. The specific time, place, attendance records and agenda of the meetings are set out as follows:

1. On 21 March 2014, the 4th meeting of the 5th Supervisory Committee was convened at the Company's meeting room on the 4th floor. All the three members of the Supervisory Committee attended the meeting. At the meeting, "The Working Report of the Supervisory Committee for 2013", "The Audited Financial Report for the Year Ended 31 December 2013", "The Profit Distribution Proposal for 2013" and "The Financial Report on the Final Account for 2013" were reviewed and approved.
2. On 22 August 2014, the 5th meeting of the 5th Supervisory Committee was convened at the Company's meeting room on the 4th floor. All the three members of the Supervisory Committee attended the meeting. At the meeting, the reviewed report for the six months ended 30 June 2014 issued by Ernst & Young was discussed and approved.

### 2. Independent opinions of the Supervisory Committee on relevant issues of the Company for 2014

#### 1. Operation in compliance with laws

During the Year under Review, the members of the Supervisory Committee participated in the discussion on material decisions of the Company by sitting in on board meetings and general meetings and carried out supervision on the Company's financial and operation positions. The Supervisory Committee is of the view that in 2014, the Company operated in strict compliance with the Company Law, the Articles of Association and other related laws and regulations and the decisions made were scientific and reasonable; the internal management and internal control system was improved and a sound internal control mechanism was established; the Directors and senior management of the Company performed their duties diligently and in compliance with the laws and regulations, the Articles of Association and the rules to protect the Company's interests, and no violation of laws and regulations and no activities that harmed the Company's interests were discovered.

# REPORT OF THE SUPERVISORY COMMITTEE

## 2. *Financial activities of the Company*

The Supervisory Committee had reviewed and inspected the financial position and financial management of the Company, and considered that the Group's financial report for 2014 truly reflected the financial position and operation results of the Group, and the audit report with unqualified opinion issued by Ernst & Young was true and fair.

## 3. *Connected transactions of the Company*

The Supervisory Committee is of the view that, the connected transactions of the Company during the Year under Review were conducted at arm's length with reasonable pricing and without prejudice to the interests of shareholders and the Company; there was no use of capitals for non-operational purpose by controlling shareholders and other related parties.

In 2015, the Supervisory Committee will continue to monitor and facilitate the improvement of the Company's governance structure in accordance with relevant provisions of the Articles of Association, put more emphasis on the coordination of the power structure, decision-making body and implementation body of the Company, concern for the relationships among shareholders and the management, pay attention to the progress and problems in the acts, performance and results of the management at all levels, and perform its duties diligently to protect the legitimate interests of the Company and shareholders.

By Order of the Supervisory Committee

**Lv Tianfu**

*Chairman of the Supervisory Committee*

Shandong, the PRC

# CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE

The Company believes that good corporate governance can create values for the shareholders of the Company. The Board is committed to keeping the standards of corporate governance within the Company and to ensuring that the Company conducts its business in an honest and responsible manner. The Company's corporate governance function is carried out by the Board pursuant to a set of written terms of reference adopted in compliance with code provision D.3.1 of the CG Code, which include (a) to develop and review the Company's policies and practices on corporate governance and make recommendations to the Board; (b) to review and monitor the training and continuous professional development of the Directors and senior management of the Group; (c) to review and monitor the Company's policies and practices on compliance with legal and regulatory requirements; (d) to develop, review and monitor the code of conduct and compliance manual (if any) applicable to employees of the Group and the Directors; and (e) to review the Company's compliance with the CG Code and disclosure in the corporate governance report.

During the year ended 31 December 2014, the Company has complied with the code provisions of the CG Code.

## SECURITIES TRANSACTIONS BY DIRECTORS

On 26 August 2005, the Company adopted the securities transaction provisions as set out in the Model Code contained in Appendix 10 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

Having made specific enquiry of all Directors, the Directors have confirmed that for the year ended 31 December 2014, they have complied with the required standards set out in the Model Code and the Company's Code of Conduct regarding Securities Transactions by the Directors.

# CORPORATE GOVERNANCE REPORT

## THE BOARD OF DIRECTORS

As at 31 December 2014, the Board comprised four executive Directors, two non-executive Directors and three independent non-executive Directors.

The Board members are as follows:

### Executive Directors

Ms. Zhang Hongxia (*Chairman*)

Ms. Zhang Yanhong

Ms. Zhao Suwen

Mr. Zhang Jinglei

### Non-executive Directors

Mr. Zhang Shiping

Ms. Zhao Suhua

### Independent Non-executive Directors

Mr. Chan Wing Yau, George

Mr. Wang Naixin

Mr. Chen Shuwen

Mr. Zhang Shiping is the father of Ms. Zhang Hongxia and Ms. Zhang Yanhong. Ms. Zhao Suwen is the younger sister of Ms. Zhao Suhua.

The Board of the Company is accountable to the general meeting, and is responsible for convening general meetings; implementing resolutions of the general meetings; formulating operating plans and investment plans of the Company; formulating annual financial budgets, final accounts of the Company; formulating profit distribution plans of the Company (including the plan for the distribution of final dividends) and the plan to make up losses; formulating the plans to increase or reduce the registered capital of the Company and to issue the Company's debentures; formulating the plans for the Company's merger, demerger and dissolution; making decisions on the deployment of the internal management bodies of the Company; appointing or removing the Company's general manager, the Company's deputy general manager and financial controller pursuant to the nomination of the general manager, and making decisions on their remunerations; formulating the Company's basic management system; formulating the plans for the amendment to the Articles of Association; subject to compliance with the relevant requirements of the state, making decisions on the level of salaries, welfare and incentives measures of the Company; making decisions on other significant operations and administrative matters not required to be decided by the general meeting under the Articles of Association; formulating major acquisition or disposal plans of the Company and other duties as provided by the Articles of Association.

The Board acknowledges its responsibility for supervising the preparation of the annual accounts.

# CORPORATE GOVERNANCE REPORT

The general manager of the Company is accountable to the Board, and is responsible for taking lead in the management of the Company's production operations, organising the implementation of the resolutions of the Board; organising the implementation of the Company's annual operation plans and investment plans; formulating the deployment plans for the Company's internal management bodies; formulating the Company's basic management system; formulating the Company's basic rules and regulations; proposing for the appointment or removal of the Company's deputy manager and financial controller; appointing or removing the management personnel other than those required to be appointed or removed by the Board; other duties as conferred by the Articles of Association and the Board.

The Company Secretary is accountable to the Board, assuring that the Board is in compliance with all applicable regulations and rules. The Company Secretary also keeps the minutes of meetings of the Board and its committees. The members of the Board held seven meetings during the Year.

Records of attendance in Board meetings held by the Board during the year are as follows:

<b>Board Members</b>	<b>Attendance of Board Meetings held in 2014</b>	<b>Attendance of General Meetings held in 2014</b>
Ms. Zhang Hongxia	7/7	2/2
Ms. Zhang Yanhong	7/7	2/2
Ms. Zhao Suwen	7/7	2/2
Mr. Zhang Jinglei	7/7	2/2
Mr. Zhang Shiping	7/7	2/2
Ms. Zhao Suhua	7/7	2/2
Mr. Chan Wing Yau, George	7/7	2/2
Mr. Chen Shuwen	5/7	1/2
Mr. Wang Naixin	7/7	2/2

All the independent non-executive Directors are independent from the Company and any of its subsidiaries.

# CORPORATE GOVERNANCE REPORT

## THE CHAIRMAN AND THE CHIEF EXECUTIVE OFFICER

The Chairman and chief executive officer of the Company are Ms. Zhang Hongxia and Mr. Wei Jiakun, respectively.

The responsibility of the Chairman is to manage the Board, while the responsibility of the chief executive officer is to manage the business of the Company. The Chairman and chief executive officer shall have clearly defined roles and duties, which are set out in the Code of Corporate Governance of the Company.

## TERMS OF OFFICE OF NON-EXECUTIVE DIRECTORS

Each of the non-executive Directors, independent non-executive Directors and independent Supervisors of the Company has signed an appointment letter with the Company for a term of 3 years respectively.

By reference to the guidelines as set out in Rule 3.13 of the Listing Rules, the Company confirms the independence of all the independent non-executive Directors.

## INDUCTION TRAINING AND DEVELOPMENT

The Company provides induction training programme for all new Directors which, taking into account their experience and background, is designed to enhance their knowledge and understanding of the Group's culture and operations as well as their relevant roles and responsibilities. Development and training of Directors is an ongoing process so that they can perform their duties appropriately. All Directors are encouraged to attend relevant training courses at the Company's expense. For the period from January 2014 to December 2014, all the Directors have been required to provide their training records to the Company, which were kept by the Company Secretary. All directors of the Company, namely Mr. Zhang Shiping, Ms. Zhang Hongxia, Ms. Zhang Yanhong, Ms. Zhao Suwen, Ms. Zhao Suhua, Mr. Zhang Jinglei, Mr. Wang Naixin, Mr. Chen Shuwen and Mr. Chan Wing Yau, George, and the Company Secretary Mr. Zhang Jinglei have participated in relevant trainings and continuous study in relation to corporate governance and company management, so as to enhance their professional knowledge and skills.

## PERFORMANCE EVALUATION

The Board recognises the importance and benefits of conducting regular evaluations of its performance to ensure improvement in its functioning. In 2014, the Board conducted evaluations of its performance.

## SUBORDINATE COMMITTEES OF THE BOARD

- Audit Committee
- Remuneration Committee
- Nomination Committee

Each subordinate committee of the Board may decide upon all matters within its terms of reference and applicable limits of authority.

# CORPORATE GOVERNANCE REPORT

## A. AUDIT COMMITTEE

The Audit Committee was established on 9 January 2003. At present, the Audit Committee is comprised of three independent non-executive Directors.

### The Composition of the Audit Committee

Mr. Chan Wing Yau, George (*Chairman of the Audit Committee*)

Mr. Wang Naixin

Mr. Chen Shuwen

The following resolutions were passed on 21 March 2014 after due consideration by members of the Audit Committee:

1. to consider and approve the Report of the Directors and Report of the International Auditors of the Company for 2013;
2. to consider and approve the consolidated audited financial report of the Company for the year ended 31 December 2013;
3. to consider and approve the profit distribution plan and financial report on the final account of the Company for 2013;
4. to consider and approve the reappointment of Ernst & Young Hua Ming LLP as the Company's domestic auditors for the year ended 31 December 2014 and Ernst & Young as the Company's international auditor for the year ended 31 December 2014;
5. to consider and approve the matters in relation to the transactions of the Company;
6. to consider and approve the annual report and results announcement of the Company for 2013.

On 22 August 2014, after due consideration, the following issues were reviewed by members of the Audit Committee:

- (1) The Audit Committee reviewed the information as set out in the accounts of the Group as of 30 June 2014, and confirmed the quality of the reviewed profit and that such materials were complete, accurate and appropriate;
- (2) The accounting policies adopted in the financial statements for the six months ended 30 June 2014 were the appropriate accounting policies;
- (3) Regarding the portion in the financial statements for the six months ended 30 June 2014 for which accurate figures are unavailable, the Audit Committee has reviewed and confirmed the estimations and the relevant basis of calculations in respect of such portion made by the management of the Company;

# CORPORATE GOVERNANCE REPORT

- (4) The financial statements for the six months ended 30 June 2014 have fully disclosed all the relevant issues, and such disclosure has accurately and fairly reflected the nature of the transactions without any misleading contents;
- (5) The Audit Committee has reviewed the disclosure materials of extraordinary items for the six months ended 30 June 2014, and has ensured their accuracy, fairness and absence of misleading content, the same are also clearly disclosed in the financial statements;
- (6) The Audit Committee has reviewed the Group's draft interim report for the six months ended 30 June 2014, including the Report of the Directors, the Chairman's Statement and the Management Discussion and Analysis and confirmed that such materials have accurately and fairly reflected the performance and financial position of the Group and are in line with the disclosure in the financial statements for the six months ended 30 June 2014 without any misleading contents;
- (7) The Audit Committee has examined and reviewed the independence and objectivity of Ernst & Young as the Group's external auditors and the effectiveness of the auditing procedures, and considered that Ernst & Young was independent, report issued by which was objective, and the auditing procedures carried out was effective; meanwhile, it has also examined and reviewed the financial control, internal control and risk control systems of the Group, and considered that such control systems were effective. The management of the Group has fulfilled establishing effective internal control duties; and
- (8) The Audit Committee has reviewed and confirmed that the interim financial report has been prepared in compliance with the HK GAAP and the financial reporting standards issued by HKICPA, and its principle accounting policies have been consistently implemented and the assumptions have been made on an ongoing basis.

Having been reviewed by the members of the Audit Committee, the following resolutions were passed at the meeting:

1. The unaudited financial report of the Company as of 30 June 2014;
2. Interim Review Report.

# CORPORATE GOVERNANCE REPORT

## Roles and Functions

The Audit Committee is mainly responsible for:

- (1) providing advice and recommendations to the Board on the appointment, reappointment and dismissal of the external auditors, approving the remuneration and recruitment terms of the external auditors as well as dealing with issues relating to the resignation or dismissal of the external auditors (in case the Board disagrees with the Audit Committee on the selection, appointment, resignation or dismissal of the external auditors, the Company should set out in the Corporate Governance Report the statement of the Committee in which their opinions are clearly stated as well as the reasons for the Board's disagreement with such opinions);
- (2) reviewing and overseeing the independence and objectiveness of the external auditors and the effectiveness of audit procedures as per appropriate standards; the Audit Committee should discuss with the external auditors before commencement of the audit, the nature and scope of the audit, and the reporting responsibilities and ensure the coordination between different firms of auditors if more than one auditing firms are engaged;
- (3) formulating and implementing policies on non-audit services provided by the external auditors;
- (4) overseeing the completeness of the financial statements, annual reports and accounts, and interim reports of the Company as well as reviewing significant opinions relating to financial reporting set out in those statements and reports. In reviewing the annual reports, accounts and interim reports to be presented to the Board, the Committee should pay special attention to the following matters:
  - (i) any changes in accounting policies and practices;
  - (ii) areas where significant judgment is involved;
  - (iii) significant adjustments arising as a result of audit;
  - (iv) any assumptions on the operation of the Company on a going-concern basis and any qualified opinions;
  - (v) whether the accounting standards have been complied with; and
  - (vi) whether the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited (the "Listing Rules") and other laws and regulations relating to financial reporting have been complied with;

# CORPORATE GOVERNANCE REPORT

- (5) in respect of the four items above:
  - (i) The members of the Committee should keep in contact with the Board, senior management and the person appointed as the qualified accountant of the Company. The Committee should meet at least once a year with the auditors of the Company; and
  - (ii) The Committee should consider any significant or extraordinary items reflected or which should be reflected in those reports and accounts, and consider, if thought fit, any issues raised by the qualified accountant, compliance officer or auditors of the Company;
- (6) reviewing the Company's financial control, internal control and risk management systems;
- (7) discussing with the management the internal control systems and ensuring the management has performed its responsibilities to establish effective internal control systems;
- (8) conducting research on own initiatives, or upon request of the Board, in respect of the findings of major investigations relating to internal control matters and the management's response;
- (9) ensuring co-ordination between the internal auditing department and external auditors, and ensuring that the internal auditing department is adequately resourced and has appropriate standing within the Company, and reviewing and monitoring the effectiveness of the internal audit function;
- (10) reviewing the Group's financial and accounting policies and practices;
- (11) reviewing the external auditors' audit results and relevant communication reports, and any significant doubt raised by the auditors to the management in respect of accounting records, financial accounts or control systems and the management's feedbacks in this respect;
- (12) ensuring the Board's timely response to the matters as set out in the external auditors' audit results and relevant communication reports;
- (13) reporting to the Board in respect of the matters set out in code provisions of the Code on Corporate Governance Practices under Appendix 14 to the Listing Rules;
- (14) reviewing the following arrangements made by the Company: employees of the Company may raise concerns in strict confidence on potential misconduct in respect of financial reporting, internal control or other aspects. The Audit Committee should ensure that appropriate arrangements are made to enable the Company to conduct a fair and independent investigation and take proper measures;
- (15) acting as a primary channel between the Company and the external auditors, and monitoring their working relations; and
- (16) reporting to the Board in respect of the matters mentioned above.

# CORPORATE GOVERNANCE REPORT

## Minutes of meetings

The Audit Committee held two meetings during the Year. The following is the attendance record of members of the Audit Committee for the year ended 31 December 2014:

<b>Committee Members</b>	<b>Attendance of Audit Committee Meetings held in the year ended 31 December 2014</b>
Mr. Chan Wing Yau, George	2/2
Mr. Wang Naixin	2/2
Mr. Chen Shuwen	1/2

The Audit Committee had meetings with the external auditors during the year to discuss the interim and annual financial statements and the audit matters.

In case the Audit Committee is in doubt about the financial statements and the control systems of the Company, the management of the Company should provide the Audit Committee members with all the relevant details, analysis and supporting documents, so as to ensure that Audit Committee members are completely satisfied and provide appropriate recommendations to the Board.

# CORPORATE GOVERNANCE REPORT

## B. REMUNERATION COMMITTEE

The Remuneration Committee was established on 28 February 2005. At present, the Remuneration Committee is comprised of an executive director and two independent non-executive directors.

One meeting was held by the Remuneration Committee for the year ended 31 December 2014.

### The Composition of the Remuneration Committee

Mr. Wang Naixin (*Chairman of the Remuneration Committee*)  
Ms. Zhang Hongxia  
Mr. Chen Shuwen

	<b>Attendance of Remuneration Committee Meeting held in 2014</b>
Mr. Wang Naixin	1/1
Ms. Zhang Hongxia	1/1
Mr. Chen Shuwen	1/1

### Roles and Functions

The terms of reference of the Remuneration Committee include the following specific duties:

- (1) to make recommendations to the Board on the overall remuneration policy and structure relating to directors and senior management of the Company, and provide advice in relation to the establishment of regular and transparent procedures for formulating such remuneration policy;
- (2) the following duties delegated by the Board: to determine the specific remuneration package of all executive directors and senior management, including benefits in kind, pension rights and compensation payment (including any compensation payable for loss or termination of their office or appointment), and make recommendations to the Board regarding the remuneration of non-executive Directors. The Remuneration Committee should consider factors such as salaries paid by comparable companies, time commitment and responsibilities of the directors, employment conditions of other positions within the Group and the desirability of performance-based remuneration;
- (3) to review and approve performance-based remuneration by reference to corporate goals and objectives set by the Board from time to time;

# CORPORATE GOVERNANCE REPORT

- (4) to review and approve the compensation payable to executive Directors and senior management for any loss or termination of their office or appointment, and to ensure that such compensation is determined in accordance with relevant contractual terms and that such compensation is otherwise fair and not excessive for the Company;
- (5) to review and approve compensation arrangements relating to dismissal or removal of directors for misconduct and to ensure that such arrangements are determined in accordance with relevant contractual terms and that any compensation payment is otherwise reasonable and appropriate; and
- (6) to ensure none of the directors nor any of their associates shall determine their own remuneration.

## C. NOMINATION COMMITTEE

The Nomination Committee was established on 23 March 2012. At present, the Nomination Committee is comprised of an executive director and two independent non-executive directors.

One meeting was held by the Nomination Committee for the year ended 31 December 2014.

### The Composition of the Nomination Committee

Ms. Zhang Hongxia (*Chairman of the Nomination Committee*)  
Mr. Wang Naixin  
Mr. Chen Shuwen

### Attendance of Nomination Committee Meeting Held in 2014

Ms. Zhang Hongxia	1/1
Mr. Wang Naixin	1/1
Mr. Chen Shuwen	1/1

# CORPORATE GOVERNANCE REPORT

## Roles and Functions

The terms of reference of the Nomination Committee include the following specific duties:

- (1) to review the structure, size and composition (including the skills, knowledge and experience) of the Board at least annually and make recommendations on any proposed changes to the Board to complement the Company's corporate strategy;
- (2) to identify individuals suitably qualified to become Board members and select or make recommendations to the Board on the selection of individuals nominated for directorships;
- (3) to assess the independence of independent non-executive directors of the Company; and
- (4) to make recommendations to the Board on the appointment or re-appointment of directors and succession planning for directors, in particular the Chairman and the chief executive officer.

## PROPOSED GRANT OF A GENERAL MANDATE AT THE ANNUAL GENERAL MEETING 2014

A special mandate is proposed to be granted to the Board of the Company by the shareholders of the Company at the Annual General Meeting 2014 to allot and deal with not more than 20% of the aggregate nominal amount of domestic shares or H shares of the Company, subject to specific conditions. For details, please refer to Special Resolution 20 in the Notice of Annual General Meeting 2014 of the Company.

## EXTERNAL AUDITORS

The external auditors are responsible for presenting independent opinions on the financial statements according to the results of their auditing work, and reporting to the Company on the same. Apart from providing annual auditing service, the external auditors of the Company also review the interim results of the Company and provide other non-auditing services.

For the year ended 31 December 2014, the external auditors Ernst & Young and Ernst & Young Hua Ming LLP have provided the Group with the following services:

	<b>2014</b>
	<i>RMB'000</i>
Interim review service	1,600
Annual audit service	4,450
Other non-auditing services	250

# CORPORATE GOVERNANCE REPORT

## INTERNAL CONTROL AND RISK MANAGEMENT

The Board is responsible for the effectiveness of the internal control system of the Company. Relevant procedures have been designed for safeguarding assets against unauthorised use or disposal; for controlling excessive capital expenditure; for maintaining proper accounting records; and for the reliability of financial information used in the operations or for publication. Qualified management personnel of the Company will maintain and monitor the internal control system on a going-concern basis.

The Board has reviewed the internal control system of the Group, which covers financial, operational, compliance procedural and risk control functions. The Board confirmed that the internal control system of the Group is effective.

## COMPANY SECRETARY

All Directors have access to the advice and services of the Company Secretary of the Company, Mr. Zhang Jinglei. The Company Secretary of the Company reports to the Chairman on Board governance matters, and is responsible for ensuring that Board procedures are followed and for facilitating communications among Directors as well as with Shareholders and management. As of 31 December 2014, the Company Secretary of the Company undertook over 15 hours of professional training to update his skills and knowledge.

## CHANGES IN THE COMPANY'S ARTICLES OF ASSOCIATION

There is no significant change in the Company's constitutional documents during the year ended 31 December 2014.

## SHAREHOLDERS' RIGHTS

The Company is liable to ensure shareholders' interests. The Company maintains contact with its shareholders through annual general meetings or other general meetings, and encourages shareholders to attend those meetings.

Notice of general meeting is sent by mail to the registered shareholders of the Company. Agenda, resolutions and voting form are set out in the notice of general meeting.

A form of proxy for use at a general meeting is enclosed with the notice. Shareholders who do not intend or are unable to present at the meeting should fill out the form and return the same to the share registrar and transfer office of the Company, so as to appoint a representative, another shareholder or the chairman of the meeting as their proxy.

Shareholders or investors can make enquiry of our Company and give suggestion through the following:

Tel: 852-2815 1090

Postal Address: Suite 5109, The Center, 99th Queen's Road, Central, Hong Kong

# CORPORATE GOVERNANCE REPORT

## INVESTORS RELATIONS

The Company maintains a two-way communication channel to report the performance of the Company to its shareholders and investors. Annual reports, accounts and interim reports containing full details of the Company's activities will be despatched to shareholders and investors. Announcements of the Company can be accessed on the website of the Stock Exchange. The Company also communicates and discloses its latest business development plans through roadshows and seminars with institutional investors and analysts, and telephone conferences.

To ensure effective disclosures are made to shareholders and investors, and to ensure the same information is made available to the public at the same time, price-sensitive information will be released in the form of official announcements in accordance with the Listing Rules.

# INDEPENDENT AUDITORS' REPORT

## To the shareholders of Weiqiao Textile Company Limited

*(Incorporated in the People's Republic of China with limited liability)*

We have audited the consolidated financial statements of Weiqiao Textile Company Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 63 to 152, which comprise the consolidated and company statements of financial position as at 31 December 2014, and the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

## DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the

# INDEPENDENT AUDITORS' REPORT

entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2014, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 1. CORPORATE INFORMATION

The registered office of Weiqiao Textile Company Limited (the “Company”) is located at No.34, Qidong Road, Weiqiao Town, Zouping County, Shandong Province, the People’s Republic of China (the “PRC”).

The Company and its subsidiaries (collectively, the “Group”) are principally engaged in the manufacture and sale of cotton yarn, grey fabric and denim in the PRC and overseas.

In the opinion of the directors, the immediate holding company and the ultimate holding company of the Group are Shandong Weiqiao Chuangye Group Company Limited (the “Holding Company”) and Shandong Weiqiao Investment Holdings Company Limited (“Weiqiao Investment”), both of which are limited liability companies established in the PRC.

## 2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and accounting principles generally accepted in Hong Kong. These financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance relating to the preparation of financial statements, which for this financial year and the comparative period continue to be those of the predecessor Companies Ordinance (Cap. 32), in accordance with transitional and saving arrangements for Part 9 of the Hong Kong Companies Ordinance (Cap. 622), “Accounts and Audit”, which are set out in sections 76 to 87 of Schedule 11 to that Ordinance. The financial statements have been prepared under the historical cost convention. Non-current assets classified as held for sale are stated at the lower of their carrying amounts and fair values less costs of disposal as further explained in note 2.4. These financial statements are presented in Renminbi (“RMB”) and all values are rounded to the nearest thousand except when otherwise indicated.

### Basis of consolidation

The consolidated financial statements include the financial statements of the Group for the year ended 31 December 2014. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.1 BASIS OF PREPARATION (continued)

### Basis of consolidation (continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described in the accounting policy for subsidiaries below. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interest and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

## 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised standards and a new interpretation for the first time for the current year's financial statements.

Amendments to HKFRS 10, HKFRS 12 and HKAS 27 (2011)	<i>Investment Entities</i>
Amendments to HKAS 32	<i>Offsetting Financial Assets and Financial Liabilities</i>
Amendments to HKAS 36	<i>Recoverable Amount Disclosures for Non-Financial Assets</i>
Amendments to HKAS 39	<i>Novation of Derivatives and Continuation of Hedge Accounting</i>
HK(IFRIC)-Int 21	<i>Levies</i>
Amendments to HKFRS 2 included in <i>Annual Improvements 2010-2012 Cycle</i>	<i>Definition of Vesting Condition</i>
Amendments to HKFRS 3 included in <i>Annual Improvements 2010-2012 Cycle</i>	<i>Accounting for Contingent Consideration in a Business Combination<sup>1</sup></i>
Amendments to HKFRS 13 included in <i>Annual Improvements 2010-2012 Cycle</i>	<i>Short-term Receivables and Payables</i>
Amendments to HKFRS 1 included in <i>Annual Improvements 2011-2013 Cycle</i>	<i>Meaning of Effective HKFRSs</i>

<sup>1</sup> Effective from 1 July 2014

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

Other than explained below regarding the impact of HK(IFRIC)-Int 21 and amendments to HKFRS 13, the adoption of the above revised standards and interpretation has had no significant financial effect on these financial statements.

- (a) HK(IFRIC)-Int 21 clarifies that an entity recognises a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. The interpretation also clarifies that a levy liability is accrued progressively only if the activity that triggers payment occurs over a period of time, in accordance with the relevant legislation. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be recognised before the specified minimum threshold is reached. The interpretation has had no impact on the Group as the Group applied, in prior years, the recognition principles under HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* which for the levies incurred by the Group are consistent with the requirements of HK(IFRIC)-Int 21.
- (b) The HKFRS 13 Amendment clarifies that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial. The amendment has had no impact on the Group.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.3 NEW AND REVISED HKFRSS AND NEW DISCLOSURE REQUIREMENTS UNDER THE HONG KONG COMPANIES ORDINANCE NOT YET ADOPTED

The Group has not applied the following new and revised HKFRSSs, that have been issued but are not yet effective, in these financial statements.

HKFRS 9	<i>Financial Instruments</i> <sup>4</sup>
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sales or Contribution of Assets between an Investor and its Associate or Joint Venture</i> <sup>2</sup>
Amendments to HKFRS 10, HKFRS 12 and HKAS 28 (2011)	<i>Investment Entities: Applying the Consolidation Exception</i> <sup>2</sup>
Amendments to HKFRS 11	<i>Accounting for Acquisitions of Interests in Joint Operations</i> <sup>2</sup>
HKFRS 14	<i>Regulatory Deferral Accounts</i> <sup>5</sup>
HKFRS 15	<i>Revenue from Contracts with Customers</i> <sup>3</sup>
Amendments to HKAS 1	<i>Disclosure Initiative</i> <sup>2</sup>
Amendments to HKAS 16 and HKAS 38	<i>Clarification of Acceptable Methods of Depreciation and Amortisation</i> <sup>2</sup>
Amendments to HKAS 16 and HKAS 41	<i>Agriculture: Bearer Plants</i> <sup>2</sup>
Amendments to HKAS 19	<i>Defined Benefit Plans: Employee Contributions</i> <sup>1</sup>
Amendments to HKAS 27 (2011)	<i>Equity Method in Separate Financial Statements</i> <sup>2</sup>
<i>Annual Improvements 2010-2012 Cycle</i>	Amendments to a number of HKFRSSs <sup>1</sup>
<i>Annual Improvements 2011-2013 Cycle</i>	Amendments to a number of HKFRSSs <sup>1</sup>
<i>Annual Improvements 2012-2014 Cycle</i>	Amendments to a number of HKFRSSs <sup>2</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 July 2014

<sup>2</sup> Effective for annual periods beginning on or after 1 January 2016

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2017

<sup>4</sup> Effective for annual periods beginning on or after 1 January 2018

<sup>5</sup> Effective for an entity that first adopts HKFRSSs for its annual financial statements beginning on or after 1 January 2016 and therefore is not applicable to the Group

In addition, the Hong Kong Companies Ordinance (Cap. 622) will affect the presentation and disclosure of certain information in the consolidated financial statements for the year ending 13 December 2015.

The Group is in the process of making an assessment of the impact of these changes. So far, the Group considers that these changes are unlikely to have a significant impact on the financial position or performance of the Group.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Subsidiaries

A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The results of subsidiaries are included in the Company's statement of profit or loss and other comprehensive income to the extent of dividends received and receivable. The Company's investments in subsidiaries that are not classified as held for sale in accordance with HKFRS 5 *Non-current Assets Held for Sale and Discontinued Operations* are stated at cost less any impairment losses.

### Investment in associates and joint ventures

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require the unanimous consent of the parties sharing control.

The Group's investment in an associate is stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Investment in associates and joint ventures (continued)

The Group's share of the post-acquisition results and other comprehensive income of the associate is included in the consolidated profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the Group's investment in the associate, except where unrealised losses provide evidence of an impairment of the asset transferred. Goodwill arising from the acquisition of the associate is included as part of the Group's investment in an associate.

If an investment in an associate becomes an investment in a joint venture or vice versa, the retained interest is not remeasured. Instead, the investment continues to be accounted for under the equity method. In all other cases, upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

### Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets, deferred tax assets and non-current assets classified as held for sale), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to profit or loss in the period in which it arises.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
  - (i) the entity and the Group are members of the same group;
  - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
  - (iii) the entity and the Group are joint ventures of the same third party;
  - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
  - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
  - (vi) the entity is controlled or jointly controlled by a person identified in (a); and
  - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

### Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale, it is not depreciated and is accounted for in accordance with HKFRS 5, as further explained in the accounting policy for "Non-current assets held for sale". The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Property, plant and equipment and depreciation (continued)

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal estimated useful lives and annual depreciation rates used for this purpose are as follows:

	<b>Estimated useful life</b>	<b>Annual depreciation rate</b>
Buildings	10 to 40 years	2.4% to 9.6%
Machinery and equipment	5 to 14 years	6.9% to 19.2%
Others	5 to 14 years	6.9% to 19.2%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents buildings under construction and machinery under installation, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Investment properties

Investment properties are interests in land and buildings (including the leasehold interest under an operating lease for a property which would otherwise meet the definition of an investment property) held to earn rental income and/or for capital appreciation, rather than for use in the production or supply of goods or services or for administrative purposes; or for sale in the ordinary course of business. Such properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and any impairment losses. Depreciation is calculated on the straight-line basis to write off the cost of each building to its residual value over its estimated useful life of 40 years.

Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the year of the retirement or disposal.

### Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amounts will be recovered principally through a sales transaction rather than through continuing use. For this to be the case, the asset must be available for immediate sale in its present condition subject only to terms that are usual and customary for the sale of such assets and its sale must be highly probable.

Non-current assets (other than financial assets) classified as held for sale are measured at the lower of their carrying amounts and fair values less costs of disposal. Property, plant and equipment classified as held for sale are not depreciated.

### Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end. Intangible assets of the Group are stated at cost less any impairment losses and are amortised on the straight-line basis over their estimated useful lives of 10 years.

### Research and development costs

All research costs are charged to profit or loss as incurred.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to profit or loss on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

### Investments and other financial assets

#### *Initial recognition and measurement*

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

#### *Subsequent measurement*

The subsequent measurement of financial assets depends on their classification as follows:

#### *Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in profit or loss. The loss arising from impairment is recognised in profit or loss in finance costs for loans and in other expenses for receivables.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Investments and other financial assets (continued)

#### *Available-for-sale financial investments*

Available-for-sale financial investments are non-derivative financial assets in some corporate wealth management products.

After initial recognition, available-for-sale financial investments are subsequently measured at fair value, with unrealised gains or losses recognised as other comprehensive income in the available-for-sale investment revaluation reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in profit or loss in other income, or until the investment is determined to be impaired, when the cumulative gain or loss is reclassified from the available-for-sale investment revaluation reserve to the statement of profit or loss and other comprehensive income in other gains or losses. Interest earned whilst holding the available-for-sale financial investments is reported as interest income, and is recognised in profit or loss as other income in accordance with the policies set out for “Revenue recognition” below.

When the fair value of the investments cannot be reliably measured because (a) the variability in the range of reasonable fair value estimates is significant for that investment or (b) the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value, such investments are stated at cost less any impairment losses.

The Group evaluates whether the ability and intention to sell its available-for-sale financial assets in the near term are still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if management has the ability and intention to hold the assets for the foreseeable future or until maturity.

For a financial asset reclassified from the available-for-sale category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on that asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the effective interest rate. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the effective interest rate. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to profit or loss.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the assets. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

### Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Impairment of financial assets** (continued)

#### *Financial assets carried at amortised cost*

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to other expenses in profit or loss.

### **Financial liabilities**

#### *Initial recognition and measurement*

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, derivative financial instruments and interest-bearing bank and other borrowings.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Financial liabilities** (continued)

#### *Subsequent measurement*

The subsequent measurement of financial liabilities depends on their classification as follows:

#### *Financial liabilities at fair value through profit or loss*

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKAS 39. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit or loss and other comprehensive income. The net fair value gain or loss recognised in the statement of profit or loss and other comprehensive income does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the date of initial recognition and only if the criteria in HKAS 39 are satisfied.

#### *Loans and borrowings*

After initial recognition, interest-bearing bank and other borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in profit or loss.

#### *Financial guarantee contracts*

Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. A financial guarantee contract is recognised initially as a liability at its fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequent to initial recognition, the Company measures the financial guarantee contract at the higher of: (i) the amount of the best estimate of the expenditure required to settle the present obligation at the end of the reporting period; and (ii) the amount initially recognised less, when appropriate, cumulative amortisation.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### **Derecognition of financial liabilities**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss and other comprehensive income.

### **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

### **Derivative financial instruments**

#### *Initial recognition and subsequent measurement*

The Group uses derivative financial instruments, such as a forward currency contract. Such derivative financial instrument is initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Any gains or losses arising from changes in fair value of derivatives are taken directly to the statement of profit or loss and other comprehensive income.

### **Inventories**

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

### **Cash and cash equivalents**

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the jurisdictions in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and an associate, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except :

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and an associate, deferred tax assets are only recognised to the extent that it is probable that temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Income tax (continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

### Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to profit or loss by way of a reduced depreciation charge.

### Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (a) from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold;
- (b) rental income, on a time proportion basis over the lease terms; and
- (c) interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

### Pension scheme

The employees of the Group are required to participate in a central pension scheme operated by the local municipal governments. The Group is required to contribute 18% of its payroll costs to the central pension scheme. The contributions are charged to profit or loss as they become payable in accordance with the rules of the central pension scheme.

### Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

### Dividends

Final dividends proposed by the directors are classified as a separate allocation of retained profits within the equity section of the statement of financial position, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

### Foreign currencies

These financial statements are presented in Renminbi, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the beginning of the month in which the transactions occur. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the beginning of the month in which the transactions occur.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 3. SIGNIFICANT ACCOUNTING ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

### Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

#### *Operating lease commitments - Group as lessor*

The Group has entered into commercial property leases on its investment property portfolio. The Group has determined, based on an evaluation of the terms and conditions of the arrangements, that it retains all the significant risks and rewards of ownership of these properties which are leased out on operating leases.

#### *Classification between investment properties and owner-occupied properties*

The Group determines whether a property qualifies as an investment property, and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group. Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. If these portions could be sold separately or leased out separately under a finance lease, the Group accounts for the portions separately. If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 3. SIGNIFICANT ACCOUNTING ESTIMATES (continued)

### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

### ***Impairment of non-financial assets (other than goodwill)***

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows. An impairment of approximately RMB41 million for certain non-financial assets of the Group was charged to profit or loss in 2014 (2013: RMB21 million). Further details are given in note 14.

### ***Deferred tax assets***

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The carrying value of deferred tax assets relating to recognised tax losses at 31 December 2014 was RMB12 million (2013: Nil). The amount of unrecognised tax losses at 31 December 2014 was RMB310 million (2013: RMB328 million). Further details are contained in note 29 to the financial statements.

### ***Useful lives and residual values of items of property, plant and equipment***

In determining the useful lives and residual values of items of property, plant and equipment, the Group periodically reviews the changes in market conditions, expected physical wear and tear, and the maintenance of the assets. The estimation of the useful life of an asset is based on historical experience of the Group with similar assets that are used in a similar way. The depreciation amount will be adjusted if the estimated useful lives or the residual values of items of property, plant and equipment are different from previous estimation. Useful lives and residual values are reviewed and adjusted if appropriate, at least at the end of each reporting period, based on changes in circumstances. Since January 2014, the Group change certain plants' useful lives, and depreciation of these plants provided during the year increased by approximately RMB11 million. Further details are contained in note 14 to the financial statements.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 3. SIGNIFICANT ACCOUNTING ESTIMATES (continued)

### Estimation uncertainty (continued)

#### Impairment of trade receivables

The Group maintains an allowance for estimated loss arising from the inability of its customers to make the required payments. The Group makes its estimates based on the ageing of its trade receivable balances, customers' creditworthiness, and historical write-off experience. If the financial condition of its customers deteriorates such that the actual impairment loss might be higher than expected, the Group will be required to revise the basis for making the allowance and its future results would be affected. An impairment of approximately RMB17 million for certain trade receivables of the Group was charged to profit or loss in 2014 (2013: Nil). Further details are given in note 21.

#### Impairment of inventories

Management reviews the condition of the inventories of the Group and makes provision for obsolete and slow-moving inventory items identified that are no longer suitable for sale. Management estimates the net realisable value for such inventories based primarily on the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The Group carries out an inventory review at the end of each reporting period and makes provision for obsolete and slow-moving items. An impairment provision of the Group's inventories of approximately RMB9 million was reversed and credited to profit or loss in 2014 (2013: RMB3 million). Further details are given in note 20.

## 4. OPERATING SEGMENT INFORMATION

The Group has only one operating segment, which is the manufacture and sale of cotton yarn, grey fabric and denim. An analysis by product for the years ended 31 December 2014 and 2013, is as follows:

	<b>2014</b> <b>RMB'000</b>	2013 RMB'000
Cotton yarn	<b>3,719,738</b>	5,095,886
Grey fabric	<b>6,306,286</b>	7,528,629
Denim	<b>1,185,122</b>	1,256,127
	<b>11,211,146</b>	13,880,642

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 4. OPERATING SEGMENT INFORMATION (continued)

### Geographical information

The revenue information, based on the locations of the Group's customers, is as follows:

#### Revenue from external customers

	<b>2014</b> <b>RMB'000</b>	2013 RMB'000
Mainland China	<b>6,491,950</b>	7,401,069
Southeast Asia	<b>2,090,629</b>	1,027,457
Hong Kong	<b>1,247,574</b>	3,305,286
East Asia	<b>743,209</b>	1,068,374
Others	<b>637,784</b>	1,078,456
	<b>11,211,146</b>	13,880,642

All non-current assets of the Group are located in Mainland China.

### Information about a major customer

No revenue from transactions with a single customer accounted for 10% or more of the Group's revenue.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 5. REVENUE, OTHER INCOME AND GAINS

Revenue, which is also the Group's turnover, represents the net invoiced value of textile goods sold, after allowances for returns and trade discounts, and excludes sales taxes and intra-group transactions.

An analysis of revenue, other income and gains is as follows:

	<i>Note</i>	<b>2014</b> <b>RMB'000</b>	2013 <i>RMB'000</i>
<b>Revenue</b>			
Sale of textile goods		<b>11,211,146</b>	13,880,642
<b>Other income</b>			
Bank interest income		<b>32,892</b>	29,721
Interest income from available-for-sale financial investments		–	17,705
Recognition of deferred income	28	<b>42,137</b>	39,326
Compensation from suppliers on the supply of sub-standard goods and services		<b>22,154</b>	50,046

Tax losses not recognised	15,309	3.4	17,972	2.0
Adjustments in respect of current tax of previous periods	1,540	0.3	–	–
Derecognition of deferred tax assets recognised in previous years	–	–	43,718	4.7
Others	–	–	40	–
Tax charge at the Group's effective rate	139,914	31.3	294,857	32.0

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

## 11. PROFIT ATTRIBUTABLE TO OWNERS OF THE PARENT

The consolidated profit attributable to owners of the parent for the year ended 31 December 2014 includes a profit of RMB447 million (2013: RMB632 million) which has been dealt with in the financial statements of the Company (note 31).

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 12. PROFIT APPROPRIATIONS

### (a) Reserves

Under the PRC Company Law and the respective companies' articles of association, the net profit as determined in accordance with China Accounting Standards for Business Enterprises ("CASBE") can only be distributed as dividends after making up prior years' cumulative losses, if any, and making allowance for the following statutory reserve funds, which cannot be used for purposes other than those created and non-distributable as cash dividends:

#### (i) Statutory surplus reserve

In accordance with the PRC Company Law and the respective companies' articles of association, the Company and its subsidiaries, except for Shandong Luteng Textile Company Limited ("Luteng Textile"), Shandong Binteng Textile Company Limited ("Binteng Textile") and Weiqiao Textile (Hong Kong) Trading Company Limited ("Weiqiao (Hong Kong)"), are required to appropriate 10% of the annual statutory net profit (after offsetting any prior years' losses), determined in accordance with CASBE, to the statutory surplus reserve. When the balance of the reserve fund of an entity reaches 50% of its registered capital, further appropriation is optional. The statutory surplus reserve can be utilised to offset prior years' losses or to increase capital. However, the balance of the statutory surplus reserve must be maintained at a minimum of 25% of the registered capital after such usage.

The directors of the respective companies resolved to appropriate 10% of the net profit, determined in accordance with CASBE, to the statutory reserve funds for the years ended 31 December 2014 and 2013.

#### (ii) General reserve fund, employee bonus and welfare fund and enterprise expansion fund

In accordance with the PRC Joint Venture Law, dividends can be distributed by Luteng Textile and Binteng Textile after allowances have been made by offsetting any prior years' losses out of the annual statutory net profit, determined in accordance with CASBE, and allocations to the statutory reserve funds, which comprise a general reserve fund, an employee bonus and welfare fund and an enterprise expansion fund. The amounts of transfer to the various statutory reserve funds are determined at the discretion of the boards of directors of Luteng Textile and Binteng Textile.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 12. PROFIT APPROPRIATIONS (continued)

### (b) Dividends

	<b>2014</b> <b>RMB'000</b>	2013 RMB'000
Proposed final – RMB0.0773 (2013: RMB0.1658) per share	<b>92,326</b>	198,030

The proposed final dividend for the year is subject to the approval of the Company's shareholders at the forthcoming annual general meeting. In accordance with the articles of association of the Company, the net profit of the Company for the purpose of profit distribution will be deemed to be the lesser of (i) the net profit determined in accordance with CASBE; and (ii) the net profit determined in accordance with HKFRSs.

## 13. EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE PARENT

The calculation of the basic earnings per share amount is based on the profit for the year attributable to ordinary equity holders of the parent of RMB308,243,000 (2013: RMB628,807,000), and the weighted average number of ordinary shares of 1,194,389,000 (2013: 1,194,389,000) in issue during the year.

The Group had no potentially dilutive ordinary shares in issue during those years.

31 December 2014

## 14. PROPERTY, PLANT AND EQUIPMENT (continued)

At 31 December 2014, certain of the Group's buildings, machinery and equipment with a net carrying amount of approximately RMB1,624 million (2013: RMB2,694 million) were pledged to secure certain of the Group's bank loans (note 27(ii)).

In 2014, the Group decreased its production by suspending the operation of several workshops, whose machinery and equipment were idle according, with a net carrying amount of approximately RMB191 million as at 31 December 2014. A provision of RMB34 million was made by the Group for these idle machinery and equipment individually, which were revalued by Wan Long (Shanghai) Assets Evaluation Co., Ltd. ("Shanghai Wan Long"), an independent professionally qualified valuer. The recoverable amounts of these idle machinery and equipment were based on the fair value less costs of disposal. The fair values were measured by using Level 2 valuation techniques within the fair value hierarchy, which were estimated with reference to the market prices of similar assets after considering the conditions of these assets.

In 2013, the Group made a provision of approximately RMB21 million for one building whose steel structure was damaged by corrosion and will be dismantled. The recoverable amount of the building is approximately RMB6 million, based on fair value less costs of disposal. Its fair value is estimated with reference to the market price of the recycled steels of a similar building, and is measured using level 2 valuation techniques within the fair value hierarchy.

The Group's other idle buildings, machinery and equipment suspended in previous years were also revalued individually by Shanghai Wan Long. Based on the valuation report, a further provision of approximately RMB7 million was charged to profit or loss in 2014 (2013: Nil).

### Non-current assets classified as held for sale

At 31 December 2014, the non-current assets held for sale were certain items of machinery under sales agreements entered into during 2014 and expected to be fulfilled in 2015.

At 31 December 2013, the non-current assets held for sale were certain items of machinery under sales agreements entered into during 2013, which were sold during 2014.

### Change in accounting estimates

The Group changed the useful lives for the Group's production plants with steel structure from 40 years to 20 years since January 2014, as a result of the Group's re-evaluation of the estimated useful lives of these plants with reference to production plants with similar steel structure in the industry. The effect of this change of accounting estimate is recognised prospectively according to HKAS 8 and the profit before tax for the year ended 31 December 2014 was reduced by RMB11 million.

Net carrying amount	32,775	6,879

The investment properties of the Group and the Company are under operating leases and were valued by Shanghai Wan Long, an independent professionally qualified valuer at 31 December 2014.

Under the discounted cash flow method, fair values of RMB27 million and RMB36 million in relation to the Group and the Company's investment properties (2013: RMB7 million in relation to the Company's investment property), are estimated respectively using assumptions regarding the benefits and liabilities of ownership over the assets' life including an exit or terminal value. This method involves the projection of a series of cash flows on a property interest. A market-derived discount rate is applied to the projected cash flow in order to establish the present value of the income stream associated with the asset. The exit yield is normally separately determined and differs from the discount rate.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 15. INVESTMENT PROPERTIES (continued)

The duration of the cash flows and the specific timing of inflows and outflows are determined by events such as rent reviews, lease renewal and related reletting, redevelopment or refurbishment. The appropriate duration is driven by market behaviour that is a characteristic of the class of property. The periodic cash flow is estimated as gross income less vacancy, non-recoverable expenses, collection losses, lease incentives, maintenance costs, agent and commission costs and other operating and management expenses. The series of periodic net operating income, along with an estimate of the terminal value anticipated at the end of the projection period, is then discounted.

A significant increase (decrease) in the estimated rental value and the market rent growth rate per annum in isolation would result in a significant increase (decrease) in the fair value of the investment properties. A significant increase (decrease) in the long term vacancy rate and the discount rate in isolation would result in a significant decrease (increase) in the fair value of the investment properties. Generally, a change in the assumption made for the estimated rental value is accompanied by a directionally similar change in the rent growth per annum and the discount rate and an opposite change in the long term vacancy rate.

## 16. PREPAID LAND LEASE PAYMENTS

Impairment	<b>(1,590)</b>	(1,590)
	<b>267,187</b>	511,888

The Group normally allows a credit period of not more than 45 days to its customers, although an extension of the credit period is not uncommon for customers who have a long term relationship with the Group. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management. In view of this and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balances. Trade receivables are non-interest-bearing.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 21. TRADE RECEIVABLES (continued)

An aged analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of provisions, is as follows:

	<b>Group</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
Within 3 months	<b>270,327</b>	528,417
3 to 6 months	<b>3,317</b>	16,522
6 months to 1 year	<b>385</b>	107
Over 1 year	<b>5,231</b>	2,182
	<b>279,260</b>	547,228

	<b>Company</b>	
	<b>2014</b>	2013

Within 3 months	<b>264,598</b>	509,593
3 to 6 months	<b>–</b>	10
6 months to 1 year	<b>378</b>	107
Over 1 year	<b>2,211</b>	2,178
	<b>267,187</b>	511,888

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 21. TRADE RECEIVABLES (continued)

The movements in the provision for impairment of trade receivables are as follows:

	<b>Group</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<b>RMB'000</b>
At 1 January	<b>1,590</b>	1,590
Impairment losses recognised	<b>17,429</b>	–
At 31 December	<b>19,019</b>	1,590

	<b>Company</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<b>RMB'000</b>
At 1 January and 31 December	<b>1,590</b>	1,590

Included in the above provision for impairment of trade receivables is a provision for individually impaired trade receivables of RMB19 million (2013: RMB1.6 million) with a carrying amount before provision of RMB22 million (2013: RMB1.6 million).

The individually impaired trade receivables relate to customers that were in financial difficulties or were in default in principal and only a portion of the receivables is expected to be recovered.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 21. TRADE RECEIVABLES (continued)

The aged analysis of the trade receivables that are not individually nor collectively considered to be impaired is as follows:

	<b>Group</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
Neither past due nor impaired	<b>236,001</b>	488,547
Less than 2 months past due	<b>34,326</b>	39,870
More than 2 months past due	<b>5,913</b>	18,811
	<b>276,240</b>	547,228

	<b>Company</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
Neither past due nor impaired	<b>232,950</b>	469,722
Less than 2 months past due	<b>31,648</b>	39,871
More than 2 months past due	<b>2,589</b>	2,295
	<b>267,187</b>	511,888

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable.

None of the Group's trade receivables is pledged (2013: None).

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 22. PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	Group	
	2014	2013
	RMB'000	RMB'000
Prepayments to suppliers	175,912	23,308
Prepaid land lease payments, current portion (note 16)	6,325	4,571

– Letters of guarantee	<b>(2,613)</b>	–
Cash and cash equivalents	<b>10,466,406</b>	9,772,739

At the end of the reporting period, the cash and bank balances and time deposits of the Group denominated in Renminbi amounted to RMB10,622 million (2013: RMB9,981 million). Renminbi is not freely convertible into other currencies. However, under Mainland China's Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Group is permitted to exchange Renminbi for other currencies through banks authorised to conduct foreign exchange business.

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term time deposits are made for varying periods of between three months to twelve months depending on the immediate cash requirements of the Group, and earn interest at the respective short term time deposit rates. The bank balances and pledged deposits are deposited with creditworthy banks with no recent history of default.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 27. INTEREST-BEARING BANK AND OTHER BORROWINGS (continued)

Notes:

- (i) Other than certain of the Group's bank loans in an aggregate amount of US\$55 million, equivalent to RMB337 million, as at the end of the reporting period (2013: US\$60 million, equivalent to RMB366 million), all of the Group's bank loans are denominated in Renminbi.
- (ii) Certain of the Group's bank loans amounting to approximately RMB2,089 million (2013: RMB4,706 million) were secured by certain of the Group's buildings, machinery and equipment of an aggregate carrying value of approximately RMB1,624 million (2013: RMB2,694 million) as at the end of the reporting period.
- (iii) Certain of the Group's bank loans up to RMB234 million (2013: RMB517 million) were secured by certain of trade receivables of Weihai Industrial Park and Binzhou Industrial Park from the Company of approximately RMB336 million (2013: RMB709 million) as at the end of the reporting period, which were eliminated in the consolidated statement of financial position.
- (iv) The Company guaranteed bank loans of Weihai Industrial Park of approximately RMB628 million (2013: RMB352 million) as at the end of the reporting period.
- (v) In October 2013 and November 2014, the Company issued two domestic corporate bonds each with a principal amount of RMB3 billion. These corporate bonds carry nominal interest rates of 7.00% and 5.50% per annum respectively, with denomination and issue price of RMB100 and periods of five years. The Company has the right to raise the nominal interest rate and the investor could sell back at the end of the third year. Subsequent to the completion of the issue, the corporate bonds were listed on the Shanghai Stock Exchange on 6 November 2013 and 26 November 2014, separately.

# NOTES TO FINANCIAL STATEMENTS

## 28. DEFERRED INCOME

Deferred income recognised in the consolidated statement of financial position, arising from the government grants received, is as follows:

	Group	
	2014	2013
	RMB'000	RMB'000
At 1 January	317,318	323,904
Additions	–	32,740
Recognised as income during the year	(42,137)	(39,326)
At 31 December	275,181	317,318
Portion classified as current liabilities	19,401	40,267
Non-current portion	255,780	277,051

The government grants were provided by local finance bureaus for the purposes of providing support for the construction of new plants, product development, research activities and a pollution prevention project.

The Company had no deferred income as at 31 December 2014 and 2013.

At 31 December	3,829	4,107	–	–
Deferred tax (charged)/credited to profit or loss ( <i>note 10</i> )	19,237	(50,224)	(554)	10,600

For presentation purposes, certain deferred tax assets and liabilities have been offset in the statement of financial position.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 29. DEFERRED TAX (continued)

The principal components of the Group's and the Company's deferred tax are as follows:

	Group		Company	
	2014 RMB'000	2013 RMB'000	2014 RMB'000	2013 RMB'000
<b>Deferred tax assets</b>				
Tax deductible loss	12,190	–	–	–
Provision against inventories	102,035	104,287	59,300	66,925
Impairment of trade receivables	4,755	398	398	398
Impairment of property, plant and equipment and investment properties	24,949	16,973	13,231	8,755
Government grants recognised as deferred income	68,795	79,330	–	–
Government grants not recognised as deferred income	1,200	125	–	–
Interest capitalisation on fixed assets, net of related depreciation	(4,513)	(4,858)	(4,513)	(4,858)
Difference in depreciation arising from different residual values of fixed assets recognised for tax and accounting purposes	13,488	11,238	13,109	10,859
Unrealised gains arising from intra-group sales	8,602	5,049	–	–
At 31 December	<b>231,501</b>	212,542	<b>81,525</b>	82,079
<b>Deferred tax liabilities</b>				
Interest capitalisation on fixed assets, net of related depreciation	3,830	4,107	–	–
At 31 December	<b>3,830</b>	4,107	–	–

The Group has tax losses arising in Mainland China of RMB359 million (2013: RMB328 million) that will expire in one to five years for offsetting against future taxable profits.

Deferred tax assets have not been recognised in respect of tax losses of RMB310 million (2013: RMB328 million) as they have arisen in subsidiaries that have been loss-making for some time and it is not considered probable that taxable profits will be available against which the tax losses can be utilised.

## 32. NOTE TO THE CONSOLIDATED STATEMENT OF CASH FLOWS

### Major non-cash transaction

During the year, the Group entered into an assets swap agreement with the Holding Company, pursuant to which, the Group acquired the property, plant and equipment and land use right of a thermal power plant from the Holding Company, by transferring out its owned thermal power plants and also with a compensation of RMB532 million in cash.

The Group has determined preliminary the fair values of the acquired and disposed thermal power assets of RMB4,263 million and RMB3,731 million, respectively, as at the end of December 2014 (Transaction Date), after taking reference of the valuation report dated 8 October 2014 with 31 August 2014 being the Bench Mark Assessment Date, issued by Shanghai Wan Long, and taking the effect of depreciation between Bench Mark Assessment Date and Transaction Date into consideration. The carrying amount of the disposed thermal power assets as at the Transaction Date is approximately RMB3,635 million and a gain on the disposal of RMB29 million was recorded into profit or loss, after considering related costs of disposal.

## 33. CONTINGENT LIABILITIES

At the end of the reporting period, contingent liabilities not provided for in the financial statements were as follows:

	Company	
	2014	2013
	RMB'000	RMB'000
Guarantees given to banks in connection with facilities granted to subsidiaries	718,416	726,000

As at 31 December 2014 and 2013, all the banking facilities granted to subsidiaries subject to guarantees given to banks by the Company were utilised.

The Group had no contingent liabilities as at 31 December 2014 and 2013.

## 34. PLEDGE OF ASSETS

Details of the Group's bank loans, which are secured by the assets of the Group, are included in notes 24 and 27 respectively, to the financial statements.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 35. OPERATING LEASE ARRANGEMENTS

### (a) As lessor

The Group and the Company leases its investment properties (note 15) under operating lease arrangements, with leases negotiated for terms ranging from three to six years.

At 31 December 2014, the Group and the Company had total future minimum lease receivables under non-cancellable operating leases with their tenants falling due as follows:

	<b>Group</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
Within one year	<b>800</b>	–

## 36. COMMITMENTS

In addition to the operating lease commitments detailed in note 35(b) above, the Group and the Company had the following capital commitments at the end of the reporting period, principally for the purchase of machinery:

	<b>Group</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
Contracted, but not provided for	<b>6,880</b>	200,705

	<b>Company</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
Contracted, but not provided for	<b>–</b>	159,365

## 37. RELATED PARTY TRANSACTIONS

The Group is part of a larger group of companies under Weiqiao Investment and has extensive transactions and relationships with the members of Weiqiao Investment. As such, it is possible that the terms of these transactions are not the same as those of the transactions among unrelated parties. The transactions were made on terms agreed between the parties, by reference to the prices and conditions offered to their major customers.

The Group had the following transactions with related parties during the year:

### (a) Transactions with related parties

	<b>Group</b>	
	<b>2014</b>	2013
	<b>RMB'000</b>	<i>RMB'000</i>
The immediate holding company:		
Sales of textile products	<b>159,039</b>	129,381
Sales of electricity	<b>1,748,676</b>	1,872,240
Rental income on investment properties	<b>800</b>	–
Expenses on land use rights and property leasing	<b>21,129</b>	21,129
Sales of textile products to fellow subsidiaries	<b>786,708</b>	756,506

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 37. RELATED PARTY TRANSACTIONS (continued)

### (a) Transactions with related parties (continued)

#### *Textile products supply agreement with the Holding Company*

On 21 October 2014 and 24 November 2014, the Company made an announcement and a circular, respectively, on “Renewal of Continuing Connected Transactions (Supply of Cotton Yarn, Grey Fabric and Denim)”. According to the announcement and the circular, the Company announced that, on 21 October 2014, it renewed the Cotton Yarn, Grey Fabric and Denim Supply Agreement dated 31 October 2011 with a period of three years commencing on 1 January 2015 (the “Renewed Supply Agreement”). The Renewed Supply Agreement agreed upon a new maximum aggregate annual value of textile products supplied.

Pursuant to the Renewed Supply Agreement, the Company will supply or procure its subsidiaries to supply cotton yarn, grey fabric and denim to the Holding Company, its subsidiaries other than the companies now comprising the Group and the associates of the Holding Company (collectively referred to as the “Holding Group”).

#### *Electricity and steam supply agreement with the Holding Company*

On 4 November 2010, the Company and the Holding Company entered into the Excess Electricity Supply Agreement, pursuant to which the Company will supply excess electricity to the Holding Group at a price of RMB0.50 per kWh (including VAT at the rate of 17%) or the price at which a power plant in Shandong Province would sell its electricity generated to the relevant power grid, whichever is higher. However, if any applicable mandatory price for the electricity is announced by the PRC government, the mandatory price would be adopted instead.

The agreement mentioned above (the “Old Supply of Excess Electricity Agreement”) expired on 31 December 2013, and the Company made an announcement and a circular, respectively, on 1 November 2013 and 12 November 2013 to disclose that the Company entered into a new Supply of Excess Electricity Agreement (the “Renewed Supply of Excess Electricity Agreement”) with the Holding Company with a period of three years commencing on 1 January 2014 and the terms and conditions of the Renewed Excess Electricity Supply Agreement are basically the same as those of the Old Supply of Excess Electricity Agreement except for the newly agreed maximum aggregate value.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 37. RELATED PARTY TRANSACTIONS (continued)

### (a) Transactions with related parties (continued)

#### *Lease agreements with the Holding Company*

##### **As lessee**

For the years ended 31 December 2014 and 2013, certain land use rights and properties of the Group were under lease agreements with the Holding Company, with a right of renewal exercisable by the Group. The significant terms of the eleven agreements are summarised as follows:

- (i) A land use right lease agreement dated 30 September 2002 with the commencement date and expiry date on 30 September 2002 and 30 September 2022, respectively, was entered into with an annual rental of RMB888,700 for the land relating to the Weiqiao Second Production Area.
- (ii) A land use right lease agreement dated 14 May 2003 with the commencement date and expiry date on 14 May 2003 and 14 May 2023, respectively, was entered into with an annual rental of RMB1,503,000 for the land relating to the Weiqiao Third Production Area.
- (iii) A land use right lease agreement dated 17 October 2003 with the commencement date and expiry date on 17 October 2003 and 17 October 2023, respectively, was entered into with an annual rental of RMB2,167,000 for the land relating to the Zouping Industrial Park Area.
- (iv) A land use right lease agreement dated 17 October 2003 with the commencement date and expiry date on 17 October 2003 and 17 October 2023, respectively, was entered into with an annual rental of RMB994,100 for the land relating to the Zouping Industrial Park Area.
- (v) A land use right lease agreement dated 17 October 2003 with the commencement date and expiry date on 17 October 2003 and 17 October 2023, respectively, was entered into with an annual rental of RMB2,000,000 for the land relating to the Zouping Industrial Park Area.
- (vi) An operating lease agreement dated 31 January 2010 with the commencement date and expiry date on 1 February 2010 and 1 February 2013, respectively, was entered into with an annual rental of RMB600,000 for a building located at No. 1, Weifang Road, Economic Development Zone, Zouping County, Shandong Province, the PRC.

On 1 February 2013, the operating lease agreement was extended for another three years with the commencement date and expiry date on 1 February 2013 and 1 February 2016, respectively, with an annual rental of RMB600,000.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 37. RELATED PARTY TRANSACTIONS (continued)

### (a) Transactions with related parties (continued)

#### *Lease agreements with the Holding Company (continued)*

##### **As lessee (continued)**

- (vii) A land use right lease agreement dated 2 November 2005 with the commencement date and expiry date on 31 October 2005 and 31 October 2025, respectively, was entered into with an annual rental of RMB2,699,000, which is subject to annual adjustment, for the land relating to the thermal power assets acquired from the Holding Company.

On 20 September 2008 and 15 June 2012, respectively, the leases of certain part of the land where the Weiqiao First Thermal Power Plant and the Binzhou Thermal Power Plant are situated were terminated and the annual rental rates have been adjusted thereafter to RMB2,127,000 and RMB1,537,000, respectively, on a pro-rata basis, and the other clauses and terms remain unchanged. On 24 December 2014, the lease relating to other part of the land was terminated.

- (viii) A land use right lease agreement dated 1 May 2006 with the commencement date and expiry date on 1 May 2006 and 1 May 2026, respectively, was entered into with an annual rental of RMB7,001,000 for the land relating to the Zouping Industrial Park Area.

- (ix) A land use right lease agreement dated 24 April 2007 with the commencement date and expiry date on 24 April 2007 and 24 April 2027, respectively, was entered into with an annual rental of RMB4,164,000 for the land relating to the Zouping Industrial Park Area.

On 26 November 2008 and 14 December 2011, respectively, the lease of certain parts of the land where the Zouping Third Industrial Park is situated was terminated and the annual rental has been adjusted thereafter to RMB3,816,000 and RMB2,070,000, respectively, on a pro-rata basis. Except for this, all of the original clauses and terms remain unchanged.

- (x) A land use right lease agreement dated on 18 March 2008 with the commencement date and expiry date on 18 March 2008 and 18 March 2028, respectively, was entered into with an annual rental of RMB1,628,000 for the land relating to the Zouping Industrial Park Area and was terminated on 24 December 2014.

- (xi) A land use right lease agreement dated on 18 March 2008 with the commencement date and expiry date on 18 March 2008 and 18 March 2028, respectively, was entered into with an annual rental of RMB740,500 for the land relating to the Weihai Industrial Park Area.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 37. RELATED PARTY TRANSACTIONS (continued)

### (b) Commitments with related parties

At the end of the reporting period, in addition to the lease agreements in Note 37(a), the Group entered into sales agreements with certain fellow subsidiaries with commitments amounting to RMB9,417,000 (31 December 2013: RMB28,735,000), which are expected to be fulfilled in 2015.

### (c) Outstanding balances with related parties

	Due from related parties		Due to related parties	
	2014 RMB'000	2013 RMB'000	2014 RMB'000	2013 RMB'000
The Holding Company	24,613	12,203	–	–
Fellow subsidiaries	–	–	4,881	5,686

The balances with the immediate holding company and other related parties are unsecured, interest-free and usually have a repayment term of one month.

### (d) Compensation of key management personnel of the Group

	2014 RMB'000	2013 RMB'000
Short term employee benefits	4,123	3,949
Post-employment benefits	80	63
<b>Total compensation paid to key management personnel</b>	<b>4,203</b>	<b>4,012</b>

Further details of directors', the chief executives' and supervisors' emoluments are included in note 7 to the financial statements.

The related party transactions mentioned above also constitute connected transactions or continuing connected transactions as defined in Chapter 14A of the Listing Rules.

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 39. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The fair values of the financial assets and liabilities are included at the amount at which the instrument can be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Management has assessed that the fair values of cash and cash equivalents, pledged time deposits, trade receivables, trade payables, financial assets included in prepayments, deposits and other receivables, financial liabilities included in other payables and accruals, amounts due from/to subsidiaries and amount due from the immediate holding company approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of interest-bearing bank borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms and remaining maturities. The fair values of corporate bonds are based on quoted market prices. The Group's own non-performance risk for interest-bearing bank and other borrowings at 31 December 2014 was assessed to be insignificant.

The carrying amounts and fair values of interest-bearing bank borrowings and corporate bonds are as follows:

### Group

	Carrying amounts		Fair values	
	2014 RMB'000	2013 RMB'000	2014 RMB'000	2013 RMB'000
Interest-bearing bank borrowings	3,841,461	7,454,765	3,849,195	7,463,829
Corporate bonds	5,952,548	2,971,667	5,949,525	2,949,817
	<b>9,794,009</b>	10,426,432	<b>9,798,720</b>	10,413,646

### Company

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments, other than derivatives, comprise interest-bearing bank borrowings, corporate bonds and cash and short term deposits. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as trade receivables and trade payables, which arise directly from its operations.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk, liquidity risk and price risk. The Group does not have written risk management policies and guidelines. However, the Company's management periodically analyses and formulates strategies to manage the Group's exposure to financial risks. Generally, the Group introduces conservative strategies on its risk management.

### Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with floating interest rates.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debts.

At 31 December 2014, approximately 55% (2013: 48%) of the Group's interest-bearing bank borrowings born interest at fixed rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's profit before tax (through the impact on floating rate borrowings) and the Group's and the Company's equity.

	(Decrease)/ increase in basis points	Group		Company
		Increase/ (decrease) in profit before tax <i>RMB'000</i>	Increase/ (decrease) in equity <i>RMB'000</i>	Increase/ (decrease) in equity <i>RMB'000</i>
<b>2014</b>

US dollar	50	(610)	(457)	(457)

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Interest rate risk (continued)

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the end of the reporting period and the Group has applied the exposure to interest rate risk to those financial instruments in existence at those dates. The estimated 50 basis point increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the end of the next reporting period.

### Foreign currency risk

The Group has transactional currency exposures. Such exposures arise mainly from sales, purchases and bank loans of the Group in US dollar. Approximately 81% or US\$37 million (2013: 62% or US\$55 million) of the Group's trade receivables were denominated in US dollar, whilst approximately 57% or US\$114 million (2013: 67% or US\$226 million) of the Group's trade payables and 9% or US\$55 million (2013: 5% or US\$60 million) of the Group's bank loans were denominated in US dollar.

The following table demonstrates the sensitivity at the end of the reporting period to a reasonably possible change in the US dollar exchange rate, with all other variables held constant, of the Group's profit before tax (due to changes in the fair value of monetary assets and liabilities) and the Group's equity.

	<b>(Decrease)/ increase in US dollar rate %</b>	<b>Increase/ (decrease) in profit before tax RMB'000</b>	<b>Increase/ (decrease) in equity RMB'000</b>
<b>2014</b>			
If RMB strengthens against US dollar	<b>(5)</b>	<b>31,836</b>	<b>23,800</b>
If RMB weakens against US dollar	<b>5</b>	<b>(31,836)</b>	<b>(23,800)</b>
<b>2013</b>			
If RMB strengthens against US dollar	(5)	51,825	38,721
If RMB weakens against US dollar	5	(51,825)	(38,721)

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Credit risk

Credit risk arises from the possibility that the counterparty of a transaction is unwilling or unable to fulfil its obligation and the Group thereby suffers financial loss.

The credit limits of trade receivables are determined and monitored by management on an ongoing basis. In addition, at the end of each reporting period, the Group reviews the recoverable amount of each individual trade debt to ensure that adequate impairment losses are made for unrecoverable amounts and the Group's exposure to bad debt is not significant.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents, amount due from the immediate holding company and other receivables, arises from default of the counterparty with a maximum exposure equal to the carrying amounts of these instruments. The Company is also exposed to credit risk through the granting of financial guarantees, further details of which are disclosed in note 33 to the financial statements.

Since the Group trades only with recognised and creditworthy parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer/ counterparty and by geographical region. Except for the below mentioned, there are no significant concentrations of credit risk within the Group as the customer bases of the Group's trade receivables are widely dispersed. At the end of the reporting period, the Group's trade receivables from the Group's largest customer and the five largest customers were 18% (2013: 6%) and 49% (2013: 25%) of the total trade receivables, respectively.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables are disclosed in note 21 to the financial statements.

### Liquidity risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank loans and corporate bonds. The Group's policy is that not more than 50% of the borrowings should mature in any 12-month period. 25% of the Group's debts would mature in less than one year as at 31 December 2014 (2013: 36%) based on the carrying value of the borrowings reflected in the financial statements.

# NOTES TO FINANCIAL STATEMENTS

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 40. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

### Price risk

Lint cotton is the main raw material for the Group's production. It accounts for a substantial portion of the Group's costs of sales. The price of lint cotton is affected by various factors which are beyond the control of the Group, such as changes in government policies, the supply-demand relation and other unexpected events. The fluctuations of the price may have favourable or unfavourable impacts on the Group. The Group did not enter into any hedging for its price risk during the year (2013: Nil).

### Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2014 and 31 December 2013.

The Group monitors capital using a gearing ratio, which is net debt divided by the total equity. Net debt represents interest-bearing bank and other borrowings less cash and cash equivalents. The gearing ratios as at the end of the reporting periods were as follows:

	<b>2014</b> <b>RMB'000</b>	2013 RMB'000
Interest-bearing bank and other borrowings	<b>9,794,009</b>	10,426,432
Less: Cash and cash equivalents	<b>(10,713,441)</b>	(10,210,689)
Net debt	<b>(919,432)</b>	215,743
Total equity	<b>16,210,478</b>	16,101,848
Gearing ratio	<b>(5.7%)</b>	1.3%

# NOTES TO FINANCIAL STATEMENTS

31 December 2014

## 41. EVENTS AFTER THE REPORTING PERIOD

No significant event has taken place subsequent to 31 December 2014.

## 42. APPROVAL OF THE FINANCIAL STATEMENTS

The financial statements were approved and authorised for issue by the board of directors of the Company on 20 March 2015.
