CHAIRMAN'S STATEMENT

Dear Shareholders,

I herein present the annual results of Royale Furniture Holdings Limited (hereafter, "Royale" or the "Company", together with its subsidiaries, the "Group") for the year ended 31 December 2014.

The year of 2014 was another difficult year for the Group. The Group's revenue decreased to HK\$918.2 million whereas the gross profit margin increased to 18.0% and the gross profit improved to HK\$165.1 million. The Group's net loss for the year was HK\$163.0 million.

Due to the loss situation, the Board of Directors recommended no dividend payment for the year ended 31 December 2014.

OPERATIONAL REVIEW

While the Group recorded declined sales due to slow demand of the Group's products, an increase in the Group's gross profit margin and gross profit was mainly due to less sales discounts were provided to the franchisees and a cost saving plan with the new materials suppliers. The Group lowered its inventory level at the end of the year as a result of the streamline of its operation.

BRANDING

The Group continued to leverage on the brand of Royal Furniture on which it has invested a great deal of resources in the past.

PLANT FACILITIES

The Tianjin plant which has commenced a small scale production since the end of 2013, operated at a very low capacity level in the first half of 2014. In response to the depressed market situation of high-end furniture, the Tianjin plant suspended its production in July 2014.

OUTLOOK

In light of the challenging operating environment, we shall continue with cost saving plan and review of various options for how to best utilize our resources.

Although we expect another tough year ahead in 2015, the favorable government policy of urbanization in Mainland China especially on the bulk job growth in the lower tier cities shall translate to continuous demand on furniture in these regions and we will continue to invest in our branding especially to enhance our profile in lower tier cities.

APPRECIATION

On behalf of the Board, I would like to extend my deepest thanks to our business partners, franchisees and in particular the employees of the Group for their dedication and hard work in a difficult year of 2014. Likewise, I would like to express my appreciation to our shareholders, investors, customers and suppliers for their ongoing support.

TSE Kam Pang

Chairman

Hong Kong, 30 March 2015

MANAGEMENT DISCUSSION AND ANALYSIS

DIVIDEND

The Board has resolved not to declare a final dividend for the year ended 31 December 2014 (2013: Nil).

Closure of the Register of Members

The Register of Members of the Company will be closed from 3 June 2015 to 5 June 2015, both days inclusive. In order to be eligible to attend and vote at the forthcoming annual general meeting to be held on 5 June 2015, all transfers documents accompanied by the relevant share certificates must be lodged with the Company's Share Registrar in Hong Kong, Tricor Tengis Limited, at Level 22, Hopewell Centre, 183 Queen's Road East, Hong Kong not later than 4:30 p.m. on 2 June 2015.

FINANCIAL REVIEW

The Group experienced another very difficult year in 2014.

For the year ended 31 December 2014, the Group has a net loss of HK\$163.0 million (2013: HK\$470.1 million). Excluding the one-time write-off items totalling to HK\$200.1 million, the net loss in 2013 was HK\$270.0 million on a comparable basis with 2014. The improvement of the loss position was mainly contributed by an increase in the gross profit margin.

During the year, the Group's revenue decreased by 7.6% to HK\$918.2 million (2013: HK\$994.0 million) whereas the gross profit margin increased from 9.7% to 18.0% and the gross profit increased to HK\$165.1 million (2013: HK\$96.5 million). Less sales discounts provided to the franchisees and a material cost saving plan through bargaining for a lower material price with the new suppliers are the keys of the improvement in gross profit margin.

During the year, the Group's selling and distribution expenses decreased by 12.9% to HK\$192.7 million (2013: HK\$221.2 million) as the Group participated fewer promotional campaigns and close down of several unprofitable self-operating stores. The Group's administrative expenses stabilized because the effect of the cost cutting measures was offset by the one-off expenses of the suspension of the Tianjin plant in July 2014. The finance costs of the Group during the year rose sharply at 49.5% to HK\$30.6 million (2013: HK\$20.5 million) due to the change of loan composition and the higher interest costs upon refinancing.

BUSINESS REVIEW

Sales and Network Management

In dealing with its franchisee distributors' requests for incentives, the Group only provided incentives on a selective basis. Regarding its self-operating stores, the Group closed down several unprofitable ones.

Inventory and Prepayments, Deposits and Other Receivables

At the end of the year, the Group's inventory decreased by 20.4% to HK\$287.5 million (2013: HK\$361.0 million) was due to the efforts in reducing the overall inventory level and the closures of several unprofitable self-operating stores. Similarly, prepayments, deposits and other receivables decreased by 52.1% to HK\$66.9 million (2013: HK\$139.7 million) was mainly due to less advances paid to suppliers as a result of a decrease in purchase orders at year end.

Brand Management

During the year under review, the Group continued to leverage on its brand for which it has invested a great deal of resources in the past.

MANAGEMENT DISCUSSION AND ANALYSIS

Plant Facilities

The Tianjin plant commenced production in late 2013 which was originally intended to produce high-end furniture. However, in response to the current depressed market situation of high-end furniture, the Tianjin plant suspended production in July 2014. The Group is reviewing various options for how to best utilize its plant resources.

Working Capital Challenge

The Group had net current liabilities of HK\$137.2 million by the end of the year. The Group will continue to take steps to improve its working capital including but not limited to refinancing of the existing banking facilities, obtaining new banking facilities and assessing the possibility of assets disposal.

Liquidity and Financial Resources

The Group maintained a cash and cash equivalents amounted to HK\$128.4 million as at 31 December 2014 (2013: HK\$175.2 million).

As at 31 December 2014, in addition to the interest bearing bank and other borrowings amounted to HK\$497.2 million (2013: HK\$371.3 million), the Group has loan from non-controlling interests of HK\$37.2 million (2013: HK\$36.0 million). As at the year end, the net debt divided by capital plus net debt of the Group was 37.3% (2013: 32.4%). Approximately, 83.5% of the Group's cash was denominated in Renminbi with the remaining balance was denominated in Hong Kong Dollars. The exposure to the foreign exchange rate fluctuation during the year has been minimal since both of our cash inflow and outflow are predominantly in Renminbi.

As at 31 December 2014, the Group's current ratio (current assets to current liabilities) has decreased to 0.80 (2013: 1.05) and the net current liability was amounted to HK\$137.2 million (2013: net current asset HK\$35.0 million).

Prospects

While we have seen 2014 as a very tough year across various sectors, there are signs that the Chinese government is relaxing its tight monetary policy by reducing the interest rate and reserve ratio to ensure industries have sufficient liquidity for weathering a relatively slow growth period like the current year's GDP growth rate set at 7%.

During the conferences of the NPC and CPPCC held in early March 2015, the Chinese government put much emphasis on diversified growth. Instead of mainly relying on growth through the government's infrastructure expenditures, it would also induce growth through business entrepreneurship in creating 10 million jobs at the lower tier cities. Specifically, it has set a target of 12% growth rate for the consumer sector which is much higher than the overall GDP growth rate of 7%.

Amid weak Chinese consumer demand across the board, the Group anticipates the coming year to remain a difficult one for the furniture industry in China. Nevertheless, the Group will take steps to review our product mix to seize opportunities in the lower tier cities to cater for the demands from the emerging consumers there.

Over the longer term horizon, the Group is cautiously optimistic toward the Chinese furniture market as the government policy of urbanization and the reversal of the "One-child" policy for certain categories of families will continue which translates into more demands on new housings furniture products.

CORPORATE GOVERNANCE REPORT

A. CORPORATE GOVERNANCE PRACTICES

This corporate governance report (the “**Corporate Governance Report**”) is to outline the major principles of the Company’s corporate governance. * Mr. Chen Hao and Mr. Ma Gary Ming Fai were appointed with effect from 1 April 2014.

All the Directors have access to relevant and timely information. They also have access to the advice and services of the company secretary of the Company (the "Company Secretary"), who is responsible for providing the Directors with Board papers and related materials. Where queries are raised by the Directors, prompt and full responses will be given if possible.

Should a potential conflict of interest involving a substantial shareholder of the Company or a Director arise, the matter will be discussed in a Board meeting, as opposed to being dealt with by a written resolution. Independent Non-executive Directors with no conflict of interest will be present at meetings dealing with such conflict issues.

Independent Non-executive Directors are identified in all corporate communications containing the names of the Directors. An updated list of the Directors identifying the Independent Non-executive Directors and the roles and functions of the Directors is maintained on the website of the Company and the website of the Stock Exchange.

Dr. Donald H. Straszheim, the Independent Non-executive Director, has been reappointed with no fixed term of service on 20 May 2013. Mr. Lau Chi Kit and Mr. Yue Man Yiu Matthew, the Independent Non-executive Directors, have been re-appointed with no fixed term of service with the Company on 6 June 2014. They are eligible for re-appointment and subject to re-election on retirement by rotation in accordance with the articles of association of the Company. The Company has received from each of the Independent Non-executive Directors an annual confirmation of his independence pursuant to Rule 3.13 of the Listing Rules and it still considers the Independent Non-executive Directors to be independent.

CORPORATE GOVERNANCE REPORT

Skills, knowledge, experience and attributes of Directors

All Directors served in office during the Year. Every Director commits to give sufficient time and attention to the affairs of the Company. The Directors also demonstrate their understanding and commit to standards of corporate governance. The Executive Director brings his perspectives to the Board through his understanding of the Group's business. The Non-executive Director and the Independent Non-executive Directors contribute their own skills and experience, understanding of local and global economies, and knowledge of capital markets to the Group's business.

Division of responsibilities between the Board and management

While the Board is responsible for directing and approving the Group's overall strategies, the Group also has formed management teams in its business areas, comprising both the Executive Directors and senior officers of the Group, with authority and responsibility for developing and exercising both operational and non-operational duties. The management team members of the Group have a wide range of skills, knowledge and experience necessary to govern the Group's operations. All management team members are required to report directly to the Chairman on a regular basis to report business performance and operational and functional issues of the Group. This will allow the Group's management to allocate resources more efficiently for its decision-making and facilitate its daily operations.

The Board and the Group's management fully appreciate their respective roles and are committed to corporate governance. The Board is responsible for overseeing the processes by which the management identifies business opportunities and risks. The Board's role is not to manage the day-to-day business operations of the Group and the responsibility of which remains vested in the management.

The Board has set up formal procedures for the Board's decisions. Matters which the Board considers suitable for delegation to its committees are contained in the specific terms of reference of its committees. The terms of reference clearly define the powers and responsibilities of the Board committees. In addition, the Board will receive reports and/or recommendations from time to time from the Board committees on any matter significant to the Group.

Induction and training

Each newly appointed Director, executive or non-executive, is required to undertake an induction program to ensure that he has proper understanding of his duties and responsibilities. The induction program includes an overview of the Group's business operation and governance policies, the Board meetings' procedures, matters reserved to the Board, an introduction of the Board committees, the Directors' responsibilities and duties, relevant regulatory requirements, and briefings with senior officers of the Group and site visits (if necessary).

Pursuant to Code Provision A.6.5 of the CG Code, all Directors should participate in continuous professional development to develop and refresh their knowledge and skills. This is to ensure their contribution to the Board remains informed and relevant. During the Year, all Directors participated in appropriate continuous professional development activities by ways of attending training and/or reading materials relevant to the Company's business or to the Directors' duties and responsibilities.

CORPORATE GOVERNANCE REPORT

Participation in continuous professional development program during the Year are summarized as follows:

	Reading regulatory updates and directors' duties	Reading materials relating to business and industry	Attending professional briefings/seminars/conferences relevant to directors' duties, regulatory updates and business

* Mr. Chen Hao and Mr. Ma Gary Ming Fai were appointed with effect from 1 April 2014.

Directors' and officers' liability insurance and indemnity

The Company has arranged appropriate liability insurance to indemnify its Directors and officers in respect of legal actions against the Directors and/or officers. Throughout the Year, no claim was made against the Directors and the officers of the Company.

Independent advice

The Board and its committees may seek advice from independent professional advisors whenever it considers appropriate. Each Director, with the consent of the Chairman of the Board and/or the chairman of the audit committee, may seek independent professional advice on matters connected with the Company to perform his responsibilities, at the Group's expense. No Director exercised his right for independent professional advice during the Year.

Independence of Non-executive Directors

Three Independent Non-executive Directors, namely Dr. Donald H. Straszheim, Mr. Lau Chi Kit and Mr. Yue Man Yiu Matthew were considered to be independent in accordance with the guidelines set out in Rule 3.13 of the Listing Rules.

Also, the three Independent Non-executive Directors, representing over one-third of the Board, constituted a proper balance of power maintaining full and effective control of both the Group and its executive management.

CORPORATE GOVERNANCE REPORT

Dr. Straszheim has been serving the Company as an Independent Non-executive Director since September 2004. In the process of assessing his independence, each of the factors referred to in Listing Rule 3.13(1) to (8) has been confirmed by him. In line with this, the Company recognizes the continued independence of Dr. Straszheim under Rule 3.13 of the Listing Rules. Serving as an Independent Non-executive Director, Dr. Straszheim has always brought high standards of corporate governance to the Company and contributed objectively in advising, as well as monitoring and mentoring the management of the Company. Being familiar with the corporate values of the Company, the presence of Dr. Straszheim has enhanced these values by his sustained development of a strong advisory relationship with the Company. The Board therefore believes that Dr. Straszheim should be re-elected to enable the Company to continue to benefit from his experience and advice to the Company.

Company secretary

All Directors have access to the advice and services of the Company Secretary to ensure that the Board procedures and all applicable laws are followed. Moreover, the Company Secretary is responsible for facilitating communications among Directors as well as with management.

During the Year, the Company Secretary confirmed that she had taken no less than 15 hours of relevant professional training.

Relationships and associations among the Directors

Mr. Tse Wun Cheung is a nephew of Mr. Tse Kam Pang, who is the Chairman of the Company. Save as disclosed, there was no other relationship between members of the Board (including financial, business, family or other material/relevant relationship(s)).

D. BOARD COMMITTEES

As an integral part of good corporate governance, the Board has established the following Board committees to oversee particular aspects of the Company's affairs. All committees are provided with sufficient resources to discharge their duties.

Audit Committee

As at 31 December 2014, the audit committee of the Board (the "Audit Committee") consisted of three Independent Non-executive Directors, namely Mr. Yue Man Yiu Matthew, who is the chairman of the Audit Committee, Dr. Donald H. Straszheim and Mr. Lau Chi Kit. The Audit Committee meets regularly, normally twice a year, with the senior financial management and meets with external auditor twice a year for final result reviews.

The Audit Committee is provided with sufficient resources to perform its duties. Latest terms of reference of the Audit Committee can be viewed on the website of the Company and the website of the Stock Exchange.

The main duties of the Audit Committee include the following:

1. To monitor the integrity of the annual and interim reports as well as to review significant financial reporting judgments before submission to the Board and to report to the Board;
2. To review the relationship with the external auditor; and
3. To review the adequacy and effectiveness of the Company's financial reporting system, internal control system and risk management system and associated procedures.

CORPORATE GOVERNANCE REPORT

There were two meetings of the Audit Committee held during 2014. Details of the members' attendance record in the Year are set out on page 8 of this annual report. During the Year, the Audit Committee performed the following work (in summary):

- (a) The Audit Committee assisted the Board in assuring the integrity of the Company's financial statements, including reviewed the financial results of the Group for the year ended 31 December 2013 and the interim results for the six months ended 30 June 2014. It evaluated and made recommendations to the Board about the appropriateness of accounting policies and practices, areas of judgment, compliance with Hong Kong Financial Reporting Standards and other legal requirements, and the results of external audit. It reviewed interim and annual financial statements of the Company, reported its work and findings to the Board and made recommendations on specific actions or decision for the Board to consider after each Audit Committee's meeting. Minutes of the Audit Committee's meetings were made available to all Directors for inspection.
- (b) The Audit Committee also managed the relationship with the external auditors on behalf of the Board. It made recommendation to the Board on the appointment of the external auditors and the relevant terms of engagement, including remuneration. The Audit Committee was required to review the integrity, independence and objectivity of the external auditors. Also, it examined the external auditors' independence including its engagement of nonaudit services. Based on the review of the Audit Committee, the Board was satisfied that the external auditors were independent. During 2014, there was no disagreement between the Board and the Audit Committee on the selection, appointment, resignation or dismissal of the external auditors.
- (c) The Audit Committee was required to ensure that the system of internal control of the Group was in place for identifying and managing risks. The Audit Committee had reviewed the effectiveness of internal controls for the Year. Such review covered financial, operational and compliance controls and risk assessment of the Group. The Board was satisfied that the effectiveness of the internal controls of the Group had been properly reviewed by the Audit Committee.

Remuneration Committee

The Company has set up a Remuneration Committee in accordance with the relevant requirements of the CG Code. The Remuneration Committee is chaired by Mr. Lau Chi Kit, and comprising two other members, namely Dr. Donald H. Straszheim and Mr. Yue Man Yiu Matthew. All the members of the Remuneration Committee are Independent Non-executive Directors. The principal responsibilities of the Remuneration Committee include formulating a remuneration policy that guides the employment of senior personnel, recommending to the Board the remuneration of members of the Board who are Independent Non-executive Directors, determining the remuneration packages of the members of the Board who are executive Directors and reviewing and approving performance-based remuneration by reference to the Company's goals, objectives and market practices and ensure no Director involved in deciding his own remuneration.

There were two meetings of the Remuneration Committee held in 2014. Details of the members attendance record in the Year are set out on page 8 of this annual report. Details of the remuneration of each Director for 2014 is set out in the Note 8 to this annual report.

Roles and functions

According to the written terms of reference of the Remuneration Committee, the Remuneration Committee has adopted the model to make recommendations to the Board on the remuneration packages of individual Executive Director(s) and senior management including benefits in kind, pension rights and compensation payment comprising any compensation payable for loss or termination of their office or appointment. It also makes recommendations to the Board on the remuneration of Non-executive Directors. Its principal role is to assist the Board to oversee the policy and structure of the remuneration of the Executive Director(s) of the Company and senior management of the Group.

CORPORATE GOVERNANCE REPORT

The Remuneration Committee is provided with sufficient resources to perform its duties. The current duties and responsibilities of the Remuneration Committee are more specifically set out in its latest terms of reference, details of which can be viewed on the website of the Company and the website of the Stock Exchange.

The following is a summary of work performed by the Remuneration Committee during the Year:

- (a) formulating and recommending the policy and structure of the remuneration of the Directors and senior management of the Group to the Board;
- (b) assessing individual performance of the Directors and senior management of the Group;
- (c) reviewing specific remuneration packages of the Directors and senior management of the Group with reference to the Board's corporate goals and objectives as well as individual performances; and
- (d) reviewing and making recommendations to the Board on compensation-related issues.

Principles of remuneration policy

The principles of the Group's remuneration policy:

- 1. were applied to all Directors and senior management of the Group for the Year and, so far as practicable, shall be applied to them for subsequent years;
- 2. were sufficiently flexible taking into account future changes in the Company's business environment and remuneration practice;
- 3. allowed remuneration arrangement to be designed to support the business strategy of the Group and to align with the interests of the Group's shareholders; and
- 4. aimed at setting appropriate reward levels to reflect the competitiveness in the market in which comparable companies and the Group had been operating during the Year so as to retain individuals with outstanding performance.

Remuneration structure

Under the above remuneration policy, the remuneration package of each Executive Director and senior management of the Group during the Year was structured to include:

- (a) an appropriate rate of base compensation for the job of each Executive Director and senior management of the Group;
- (b) competitive benefit programs; and
- (c) sets of performance measures and targets for performance-related annual and long-term incentive plans based on the appropriate independent advice and/or an assessment of the interests of shareholders of the Company and taking into account an appropriate balance of risk and reward for the Directors and other participants.

The work and findings together with recommendations of the Remuneration Committee were presented to the Board after the Remuneration Committee's meetings. Minutes of the Remuneration Committee's meeting were made available to all the Directors for inspection. No Director or any of his associates was involved in deciding his own remuneration.

CORPORATE GOVERNANCE REPORT

Nomination Committee

The Nomination Committee of the Board was established on 29 March 2012 and comprises three Independent Non-executive Directors. The Nomination Committee is chaired by Mr. Lau Chi Kit, and comprising two other members, namely Dr. Donald H. Straszheim and Mr. Yue Man Yiu Matthew. The Nomination Committee meets formally at least once a year.

CORPORATE GOVERNANCE REPORT

E. ACCOUNTABILITY AND AUDIT

Directors' Responsibility for the Accounts

The Directors acknowledge their responsibility for the preparation of the accounts of the Group and ensure that the accounts are in accordance with statutory requirements and applicable accounting standards. The accounts are prepared on a going concern basis, the members of the Board have selected appropriate accounting policies and apart from those new and amended accounting policies disclosed in the notes to the accounts during the year ended 31 December 2014, have applied them consistently with previous financial periods. The statement of our Auditors about their responsibility on the accounts is included in the Independent Auditors' Report. For the annual reports and accounts, the Company's finance department is responsible for clearing them with the External Auditor and then the Audit Committee. In addition, all new accounting standards and requirements adopted by the Group have been discussed and approved by the Audit Committee.

There are no material uncertainties relating to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

The statement of the external auditors of the Company about their reporting responsibilities on the financial statements is set out in the Independent Auditors' Report on page 27 of this annual report.

External Auditors' Remuneration

Prior to the commencement of the audit of the Group's 2014 financial statements, the Audit Committee received written confirmation from the external auditor of its independence and objectivity. The external auditor refrained from engaging in non-assurance services except for limited tax-related services or specifically approved items. The Audit Committee reviews the external auditor's statutory audit scope and non-audit services and approves its fees. During the year ended 31 December 2014, the remuneration paid or payable to external auditor for audit services and non-audit services amounted to HK\$1,680,000 (2013: HK\$1,980,000) and Nil (2013: Nil), respectively.

Internal Controls

The internal audit department, which is independent to the Company's daily operations and accounting functions, is responsible for establishing the Group's internal control framework, covering all material controls including financial, operational and compliance controls.

The internal control framework also provides for identification and management of risk.

The internal audit department also formulates the internal audit plan and procedures, conducts periodic independent reviews on the operations of individual divisions to identify any irregularities and risks, develops action plans and recommendations to address the identified risks, and reports to the management on any key findings and progress of the internal audit process.

The Board, through the internal audit department, has conducted a review of the effectiveness of the Group's internal control system for the year ended 31 December 2014 covering all material financial, operational and compliance controls and risk management functions, and is satisfied that such system are effective and adequate.

CORPORATE GOVERNANCE REPORT

F. COMMUNICATION WITH SHAREHOLDERS

The AGM is one of the principal channels of communication with its shareholders. It provides an opportunity for shareholders to question Directors about the Company's performance. The detailed procedures for conducting a poll will be explained at each general meetings. Registered shareholders are notified by post of the AGM. Any registered shareholder is entitled to attend and vote at the AGM, provided that his/her/its shares have been fully paid up and recorded in the register of the members of the Company.

The Group endeavors to disclose relevant information on its activities to its shareholders in an open and timely manner, subject to applicable legal requirements. Communication between the Company and its shareholders is achieved through:

- (a) The Company's annual and interim reports which have been enhanced to present a balanced, clear and comprehensive assessment of the Group's position and prospects;
- (b) Forum and notices of AGMs and other general meetings and accompanying explanatory materials;
- (c) Press releases on major development of the Group;
- (d) Disclosures to the Stock Exchange and relevant regulatory bodies;
- (e) Response to inquiries from shareholders or media; and
- (f) The website of the Company through which the public can access, among other things, corporate announcements, press releases, annual reports, and general corporate information of the Group.

The communication channels between the Company and its shareholders above will be reviewed by the Board on a regular basis to ensure their effectiveness in maintaining an on-going dialogue with shareholders.

Constructive use of AGMs

The Board and the management are committed to the constructive use of the AGM as a forum to meet with shareholders and to hear their views and answer their questions about the Group and its business.

The Chairman and a majority of the other Directors along with key executives and the external auditor attended the 2014 AGM and addressed concerns raised by a number of Shareholders about the resolutions being proposed and the Company's business. The Directors in attendance included those who were chairing the Audit Committee, the Nomination Committee and the Remuneration Committee on the date of the meeting.

We have audited the consolidated financial statements of Royale Furniture Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 28 to 91, which comprise the consolidated and company statements of financial position as at 31 December 2014, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of affairs of the Company and of the Group as at 31 December 2014, and of the Group's loss and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of the Hong Kong Companies Ordinance.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

1. CORPORATE INFORMATION

Royale Furniture Holdings Limited is a limited liability company incorporated in the Cayman Islands. The registered office address of the Company is located at Century Yard, Cricket Square, Hutchins Drive, Grand Cayman, the Cayman Islands.

The principal activity of the Company is investment holding. Details of the principal activities of the Company's subsidiaries are set out in note 18 to the financial statements. There were no significant changes in the nature of the subsidiaries' principal activities during the year.

In the opinion of the directors, the immediate and ultimate holding companies of the Group are Crisana International Inc. and Charming Future Holdings Limited, which are incorporated in the British Virgin Islands.

2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and accounting principles generally accepted in Hong Kong. These financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance relating to the preparation of financial statements, which for this financial year and the comparative period continue to be those of the predecessor Companies Ordinance (Cap. 32), in accordance with transitional and saving arrangements for Part 9 of the Hong Kong Companies Ordinance (Cap. 622), "Accounts and Audit", which are set out in sections 76 to 87 of Schedule 11 to that Ordinance. The financial statements have been prepared under the historical cost convention, except for available-for-sale investments and certain buildings classified as property, plant and equipment which have been measured at fair value. These financial statements are presented in Hong Kong dollars and all values are rounded to the nearest thousand except when otherwise indicated.

The Group recorded a consolidated net loss of HK\$163,041,000 (2013: HK\$470,115,000) for the year ended 31 December 2014 and as at that date, the Group recorded net current liabilities of HK\$137,188,000 (2013: net current assets of HK\$34,996,000). In view of these circumstances, the directors of the Company have given consideration to the future liquidity, future performance of the Group, the existing banking facilities and other available sources of finance in assessing whether the Group will have sufficient cash flows to continue as a going concern. Based on the management estimation of the future cash flows of the Group, the directors of the Company believe that the Group has sufficient cash flows in the foreseeable future to enable it to continue its operations and meet its liabilities as and when they fall due. The directors of the Company therefore are of the opinion that it is appropriate to adopt the going concern basis in preparing the consolidated financial statements.

Basis of consolidation

The consolidated financial statements include the financial statements of the Company and its subsidiaries for the year ended 31 December 2014. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.1 BASIS OF PREPARATION (Continued)

Basis of consolidation (Continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described in the accounting policy for subsidiaries below. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises (i) the assets (including goodwill) and liabilities of the subsidiary, (ii) the carrying amount of any non-controlling interests and (iii) the cumulative translation differences recorded in equity; and recognises (i) the fair value of the consideration received, (ii) the fair value of any investment retained and (iii) any resulting surplus or deficit in profit or loss. The Group's share of components previously recognised in other comprehensive income is reclassified to profit or loss or retained profits, as appropriate, on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group has adopted the following revised standards and new interpretation for the first time for the current year's financial statements.

Amendments to HKFRS 10, HKFRS 12 and HKAS 27 (2011)	<i>Investment Entities</i>
Amendments to HKAS 32	<i>Offsetting Financial Assets and Financial Liabilities</i>
Amendments to HKAS 36	<i>Recoverable Amount Disclosures for Non-Financial Assets</i>
Amendments to HKAS 39	<i>Novation of Derivatives and Continuation of Hedge Accounting</i>
HK(IFRIC)-Int 21	<i>Levies</i>
Amendment to HKFRS 2 included in <i>Annual Improvements</i> <i>2010-2012 Cycle</i>	<i>Definition of Vesting Condition¹</i>
Amendment to HKFRS 3 included in <i>Annual Improvements</i> <i>2010-2012 Cycle</i>	<i>Accounting for Contingent Consideration in a Business Combination¹</i>
Amendment to HKFRS 13 included in <i>Annual Improvements</i> <i>2010-2012 Cycle</i>	<i>Short-term Receivables and Payables</i>
Amendment to HKFRS 1 included in <i>Annual Improvements</i> <i>2011-2013 Cycle</i>	<i>Meaning of Effective HKFRSs</i>

¹ Effective from 1 July 2014

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

The adoption of the above revised standards and interpretation has had no significant financial effect on these financial statements.

- (a) Amendments to HKFRS 10 include a definition of an investment entity and provide an exception to the consolidation requirement for entities that meet the definition of an investment entity. Investment entities are required to account for subsidiaries at fair value through profit or loss rather than consolidate them. Consequential amendments were made to HKFRS 12 and HKAS 27 (2011). The amendments to HKFRS 12 also set out the disclosure requirements for investment entities. The amendments have had no impact on the Group as the Company does not qualify as an investment entity as defined in HKFRS 10.
- (b) The HKAS 32 Amendments clarify the meaning of “currently has a legally enforceable right to set off” for offsetting financial assets and financial liabilities. The amendments also clarify the application of the offsetting criteria in HKAS 32 to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. The amendments have had no impact on the Group as the Group does not have any offsetting arrangement.
- (c) The HKAS 36 Amendments remove the unintended disclosure requirement made by HKFRS 13 on the recoverable amount of a cash-generating unit which is not impaired. In addition, the amendments require the disclosure of the recoverable amounts for the assets or cash-generating units for which an impairment loss has been recognised or reversed during the reporting period, and expand the disclosure requirements regarding the fair value measurement for these assets or units if their recoverable amounts are based on fair value less costs of disposal. The amendments have had no impact on the financial position or performance of the Group.
- (d) The HKAS 39 Amendments provide an exception to the requirement of discontinuing hedge accounting in situations where over-the-counter derivatives designated in hedging relationships are directly or indirectly, novated to a central counterparty as a consequence of laws or regulations, or the introduction of laws or regulations. For continuance of hedge accounting under this exception, all of the following criteria must be met: (i) the novations must arise as a consequence of laws or regulations, or the introduction of laws or regulations; (ii) the parties to the hedging instrument agree that one or more clearing counterparties replace their original counterparty to become the new counterparty to each of the parties; and (iii) the novations do not result in changes to the terms of the original derivative other than changes directly attributable to the change in counterparty to achieve clearing. The amendments have had no impact on the Group as the Group has not novated any derivatives during the current and prior years.
- (e) HK(IFRIC)-Int 21 clarifies that an entity recognises a liability for a levy when the activity that triggers payment, as identified by the relevant legislation, occurs. The interpretation also clarifies that a levy liability is accrued progressively only if the activity that triggers payment occurs over a period of time, in accordance with the relevant legislation. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be recognised before the specified minimum threshold is reached. The interpretation has had no impact on the Group as the Group applied, in prior years, the recognition principles under HKAS 37 *Provisions, Contingent Liabilities and Contingent Assets* which for the levies incurred by the Group are consistent with the requirements of HK(IFRIC)-Int 21.
- (f) The HKFRS 2 Amendment clarifies various issues relating to the definitions of performance and service conditions which are vesting conditions, including (i) a performance condition must contain a service condition; (ii) a performance target must be met while the counterparty is rendering service; (iii) a performance target may relate to the operations or activities of an entity, or to those of another entity in the same group; (iv) a performance condition may be a market or non-market condition; and (v) if the counterparty, regardless of the reason, ceases to provide service during the vesting period, the service condition is not satisfied. The amendment has had no impact on the Group.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (Continued)

- (g) The HKFRS 3 Amendment clarifies that contingent consideration arrangements arising from a business combination that are not classified as equity should be subsequently measured at fair value through profit or loss whether or not they fall within the scope of HKFRS 9 or HKAS 39. The amendment has had no impact on the Group.
- (h) The HKFRS 13 Amendment clarifies that short-term receivables and payables with no stated interest rates can be measured at invoice amounts when the effect of discounting is immaterial. The amendment has had no impact on the Group.

2.3 NEW AND REVISED HKFRSS AND NEW DISCLOSURE REQUIREMENTS UNDER THE HONG KONG COMPANIES ORDINANCE NOT YET ADOPTED

The Group has not applied the following new and revised HKFRSSs, that have been issued but are not yet effective, in these financial statements.

Amendments to HKAS 1	<i>Disclosure Initiative²</i>
HKFRS 9	<i>Financial Instruments⁴</i>
Amendments to HKFRS 10 and HKAS 28 (2011)	<i>Sale or Contribution of Assets between an Investor and its Associate or Joint Venture²</i>
Amendments to HKFRS 10, HKFRS 12 and HKAS 28 (2011)	<i>Investment Entities: Applying the Consolidation Exception²</i>
Amendments to HKFRS 11	<i>Accounting for Acquisitions of Interests in Joint Operations²</i>
HKFRS 14	<i>Regulatory Deferral Accounts⁵</i>
HKFRS 15	<i>Revenue from Contracts with Customers³</i>
Amendments to HKAS 16 and HKAS 38	<i>Clarification of Acceptable Methods of Depreciation and Amortisation²</i>
Amendments to HKAS 16 and HKAS 41	<i>Agriculture: Bearer Plants²</i>
Amendments to HKAS 19	<i>Defined Benefit Plans: Employee Contributions¹</i>
Amendments to HKAS 27 (2011)	<i>Equity Method in Separate Financial Statements²</i>
<i>Annual Improvements 2010-2012 Cycle</i>	<i>Amendments to a number of HKFRSSs¹</i>
<i>Annual Improvements 2011-2013 Cycle</i>	<i>Amendments to a number of HKFRSSs¹</i>
<i>Annual Improvements 2012-2014 Cycle</i>	<i>Amendments to a number of HKFRSSs²</i>

¹ Effective for annual periods beginning on or after 1 July 2014

² Effective for annual periods beginning on or after 1 January 2016

³ Effective for annual periods beginning on or after 1 January 2017

⁴ Effective for annual periods beginning on or after 1 January 2018

⁵ Effective for an entity that first adopts HKFRSSs for its annual financial statements beginning on or after 1 January 2016 and therefore is not applicable to the Group

In addition, the Hong Kong Companies Ordinance (Cap. 622) will affect the presentation and disclosure of certain information in the consolidated financial statements for the year ending 31 December 2015. The Group is in the process of making an assessment of the impact of these changes.

2.3 NEW AND REVISED HKFRSS AND NEW DISCLOSURE REQUIREMENTS UNDER THE HONG KONG COMPANIES ORDINANCE NOT YET ADOPTED (Continued)

Further information about those HKFRSSs that are expected to be applicable to the Group is as follows:

In September 2014, the HKICPA issued the final version of HKFRS 9, bringing together all phases of the financial instruments project to replace HKAS 39 and all previous versions of HKFRS 9. The standard introduces new requirements for classification and measurement, impairment and hedge accounting. The Group expects to adopt HKFRS 9 from 1 January 2018. The Group expects that the adoption of HKFRS 9 will have an impact on the classification and measurement of the Group's financial assets. Further information about the impact will be available nearer the implementation date of the standard.

The amendments to HKFRS 10 and HKAS 28 (2011) address an inconsistency between the requirements in HKFRS 10 and in HKAS 28 (2011) in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The amendments require a full recognition of a gain or loss when the sale or contribution of assets between an investor and its associate or joint venture constitutes a business. For a transaction involving assets that do not constitute a business, a gain or loss resulting from the transaction is recognised in the investor's profit or loss only to the extent of the unrelated investor's interest in that associate or joint venture. The amendments are to be applied prospectively. The Group expects to adopt the amendments from 1 January 2016.

HKFRS 15 establishes a new five-step model that will apply to revenue arising from contracts with customers. Under HKFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principles in HKFRS 15 provide a more structured approach for measuring and recognising revenue. The standard also introduces extensive qualitative and quantitative disclosure requirements, including disaggregation of total revenue, information about performance obligations, changes in contract asset and liability account balances between periods and key judgements and estimates. The standard will supersede all current revenue recognition requirements under HKFRSSs. The Group expects to adopt HKFRS 15 on 1 January 2017 and is currently assessing the impact of HKFRS 15 upon adoption.

Amendments to HKAS 16 and HKAS 38 clarify the principle in HKAS 16 and HKAS 38 that revenue reflects a pattern of economic benefits that are generated from operating business (of which the asset is part) rather than the economic benefits that are consumed through the use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are to be applied prospectively. The amendments are not expected to have any impact on the financial position or performance of the Group upon adoption on 1 January 2016 as the Group has not used a revenue-based method for the calculation of depreciation of its non-current assets.

The *Annual Improvements to HKFRSSs 2010-2012 Cycle* issued in January 2014 sets out amendments to a number of HKFRSSs. Except for those described in note 2.2, the Group expects to adopt the amendments from 1 January 2015. None of the amendments are expected to have a significant financial impact on the Group. Details of the amendment most applicable to the Group are as follows:

HKFRS 8 *Operating Segments*: Clarifies that an entity must disclose the judgements made by management in applying the aggregation criteria in HKFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics used to assess whether the segments are similar. The amendments also clarify that a reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsidiaries

A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- (a) the contractual arrangement with the other vote holders of the investee;
- (b) rights arising from other contractual arrangements; and
- (c) the Group's voting rights and potential voting rights.

The results of subsidiaries are included in the Company's statement of profit or loss to the extent of dividends received and receivable. The Company's investments in subsidiaries that are not classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations are stated at cost less any impairment losses.

Investments in associates

An associate is an entity in which the Group has a long term interest of generally not less than 20% of the equity voting rights and over which it is in a position to exercise significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group's investments in associates are stated in the consolidated statement of financial position at the Group's share of net assets under the equity method of accounting, less any impairment losses. Adjustments are made to bring into line any dissimilar accounting policies that may exist.

The Group's share of the post-acquisition results and other comprehensive income of associates are included in the consolidated statement of profit or loss and consolidated other comprehensive income, respectively. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and its associates are eliminated to the extent of the Group's investments in associates, except where unrealised losses provide evidence of an impairment of the assets transferred. Goodwill arising from the acquisition of associates are included as part of the Group's investments in associates.

The results of associates are included in the Company's statement of profit or loss to the extent of dividends received and receivable. The Company's investments in associates are treated as non-current assets and are stated at cost less any impairment losses.

When an investment in an associate is classified as held for sale, it is accounted for in accordance with HKFRS 5.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of non-controlling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of HKAS 39 is measured at fair value with changes in fair value either recognised in profit or loss or as a change to other comprehensive income. If the contingent consideration is not within the scope of HKAS 39, it is measured in accordance with the appropriate HKFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 December. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair value measurement

The Group measures its equity investments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – based on quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 – based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets, goodwill and non-current assets), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets. An impairment loss is charged to the statement of profit or loss in the period in which it arises in those expense categories consistent with the function of the impaired asset.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of non-financial assets (Continued)

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the statement of profit or loss in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

Related parties

A party is considered to be related to the Group if:

- (a) the party is a person or a close member of that person's family and that person
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or of a parent of the Group;

or

- (b) the party is an entity where any of the following conditions applies:
 - (i) the entity and the Group are members of the same group;
 - (ii) one entity is an associate or joint venture of the other entity (or of a parent, subsidiary or fellow subsidiary of the other entity);
 - (iii) the entity and the Group are joint ventures of the same third party;
 - (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third entity;
 - (v) the entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group;
 - (vi) the entity is controlled or jointly controlled by a person identified in (a); and
 - (vii) a person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Property, plant and equipment and depreciation

Property, plant and equipment, other than construction in progress, are stated at cost or valuation less accumulated depreciation and any impairment losses. When an item of property, plant and equipment is classified as held for sale or when it is part of a disposal group classified as held for sale, it is not depreciated and is accounted for in accordance with HKFRS 5. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Valuations are performed frequently enough to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. Changes in the values of property, plant and equipment are dealt with as movements in the asset revaluation reserve. If the total of this reserve is insufficient to cover a deficit, on an individual asset basis, the excess of the deficit is charged to the statement of profit or loss. Any subsequent revaluation surplus is credited to the statement of profit or loss to the extent of the deficit previously charged. An annual transfer from the asset revaluation reserve to retained profits is made for the difference between the depreciation based on the revalued carrying amount of an asset and the depreciation based on the asset's original cost. On disposal of a revalued asset, the relevant portion of the asset revaluation reserve realised in respect of previous valuations is transferred to retained profits as a movement in reserves.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Buildings	5%
Leasehold improvements	20% – 33%
Plant and machinery	10%
Furniture, fixtures and office equipment	20%
Motor vehicles	20%

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the statement of profit or loss in the year the asset is derecognised is the difference between the net sales proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction, and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Patents and licences

Purchased patents and licences are stated at cost less any impairment losses and are amortised on the straight-line basis over their estimated useful lives of 2 to 10 years.

Research and development costs

All research costs are charged to the statement of profit or loss as incurred.

Operating leases

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the statement of profit or loss on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

Investments and other financial assets

Initial recognition and measurement

Financial assets are classified at initial recognition, as available-for-sale financial assets and loans and receivables. When financial assets are recognised initially, they are measured at fair value, plus transaction costs that are attributable to the acquisition of the financial assets.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment and other financial assets (Continued)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income and gains in the statement of profit or loss. The loss arising from impairment is recognised in the statement of profit or loss in finance costs for loans and in other expenses for receivables.

Available-for-sale financial investments

Available-for-sale financial investments are non-derivative financial assets in listed and unlisted equity investments and debt securities. Equity investments classified as available for sale are those which are neither classified as held for trading nor designated as at fair value through profit or loss. Debt securities in this category are those which are intended to be held for an indefinite period of time and which may be sold in response to needs for liquidity or in response to changes in market conditions.

After initial recognition, available-for-sale financial investments are subsequently measured at fair value, with unrealised gains or losses recognised as other comprehensive income in the available-for-sale investment revaluation reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in the statement of profit or loss in other income, or until the investment is determined to be impaired, when the cumulative gain or loss is reclassified from the available-for-sale investment revaluation reserve to the statement of profit or loss in other gains or losses. Interest and dividends earned whilst holding the available-for-sale financial investments are reported as interest income and dividend income, respectively and are recognised in the statement of profit or loss as other income in accordance with the policies set out for "Revenue recognition" below.

When the fair value of unlisted equity investments cannot be reliably measured because (a) the variability in the range of reasonable fair value estimates is significant for that investment or (b) the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value, such investments are stated at cost less any impairment losses.

The Group evaluates whether the ability and intention to sell its available-for-sale financial assets in the near term are still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if management has the ability and intention to hold the assets for the foreseeable future or until maturity.

For a financial asset reclassified from the available-for-sale category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on that asset that has been recognised in equity is amortised to profit or loss over the remaining life of the investment using the effective interest rate. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the effective interest rate. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the statement of profit or loss.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a “pass-through” arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group’s continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset’s carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset’s original effective interest rate (i.e., the effective interest rate computed at initial recognition).

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets (Continued)

Financial assets carried at amortised cost (Continued)

The carrying amount of the asset is reduced either directly or through the use of an allowance account and the loss is recognised in the statement of profit or loss. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to the statement of profit or loss.

Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at the end of each reporting period whether there is objective evidence that an investment or a group of investments is impaired.

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in the statement of profit or loss, is removed from other comprehensive income and recognised in the statement of profit or loss.

In the case of equity investments classified as available for sale, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. "Significant" is evaluated against the original cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the statement of profit or loss – is removed from other comprehensive income and recognised in the statement of profit or loss. Impairment losses on equity instruments classified as available for sale are not reversed through the statement of profit or loss. Increases in their fair value after impairment are recognised directly in other comprehensive income.

The determination of what is "significant" or "prolonged" requires judgement. In making this judgement, the Group evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as loans and borrowings, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include trade payables, other payables and accruals, interest-bearing bank and other borrowings, loans from a director and a loan from non-controlling interests.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Loans and borrowings

After initial recognition, interest-bearing bank and other borrowings, loans from a director and a loan from non-controlling interests are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the statement of profit or loss when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the statement of profit or loss.

Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the weighted average basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads and/or, where appropriate, subcontracting charges. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

Cash and cash equivalents

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the statement of profit or loss.

Income tax

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries and associates, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries and associates, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income tax (Continued)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Government grants

Government grants are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income over the periods that the costs, which it is intended to compensate, are expensed.

Where the grant relates to an asset, the fair value is credited to a deferred income account and is released to the statement of profit or loss over the expected useful life of the relevant asset by equal annual instalments or deducted from the carrying amount of the asset and released to the statement of profit or loss by way of a reduced depreciation charge.

Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- from the sale of goods, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold; and
- interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate to the net carrying amount of the financial asset.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Share-based payments

The Company operates a share option scheme for the purpose of providing incentives and rewards to eligible participants who contribute to the success of the Group's operations. Employees (including directors) of the Group receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments ("equity-settled transactions").

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by an external valuer using a binomial model, further details of which are given in note 30 to the financial statements.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefit expense. The cumulative expense recognised for equity-settled transactions at the end of each reporting period until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The charge or credit to the statement of profit or loss for a period represents the movement in the cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for equity-settled transactions where vesting is conditional upon a market or non-vesting condition, which are treated as vesting irrespective of whether or not the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

Where the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified, if the original terms of the award are met. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payments, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. This includes any award where non-vesting conditions within the control of either the Group or the employee are not met. However, if a new award is substituted for the cancelled award, and is designated as a replacement award on the date that it is granted, the cancelled and new awards are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of earnings per share.

Other employee benefits

Pension schemes

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance, for all of its employees in Hong Kong. Contributions are made based on a percentage of the employees' basic salaries and are charged to the statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme, except for the Group's employer voluntary contributions, which are refunded to the Group when the employee leaves employment prior to the contributions vesting fully, in accordance with the rules of the MPF Scheme.

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other employee benefits (Continued)

Pension schemes (Continued)

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of its payroll costs to the central pension scheme. The contributions are charged to the statement of profit or loss as they become payable in accordance with the rules of the central pension scheme.

Borrowing costs

All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

Dividends

Final dividends proposed by the directors are classified as a separate allocation of retained profits within the equity section of the statement of financial position, until they have been approved by the shareholders in a general meeting. When these dividends have been approved by the shareholders and declared, they are recognised as a liability.

Interim dividends are simultaneously proposed and declared, because the Company's memorandum and articles of association grant the directors the authority to declare interim dividends. Consequently, interim dividends are recognised immediately as a liability when they are proposed and declared.

Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

The functional currencies of certain overseas subsidiaries and an associate are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the weighted average exchange rates for the year.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreign currencies (Continued)

The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the statement of profit or loss.

Any goodwill arising on the acquisition of a foreign operation and any fair value adjustments to the carrying amounts of assets and liabilities arising on acquisition are treated as assets and liabilities of the foreign operation and translated at the closing rate.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

Recognition of a deferred tax liability for withholding taxes

The New PRC Corporate Income Tax Law, which became effective on 1 January 2008, states that the distribution of dividends by a foreign-invested enterprise established in Mainland China to its foreign investors in respect of its earnings, from 1 January 2008 or thereafter, shall be subject to withholding corporate income tax at a rate of 10%. The Group carefully evaluates the necessity of dividend distribution of its PRC subsidiaries out of profits earned after 1 January 2008 and makes decisions on such dividend distributions based on the senior management's judgement. As at 31 December 2014, the aggregate unremitted earnings of HK\$15,215,000 (2013: HK\$22,015,000) that are subject to withholding taxes of the Group's subsidiaries established in Mainland China were considered to be indefinitely reinvested and accordingly, the related deferred tax liabilities of HK\$1,522,000 at 31 December 2014 (2013: HK\$2,202,000) were not recognised. For details, please refer to note 28 to the financial statements.

NOTES TO FINANCIAL STATEMENTS

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 December 2014 was HK\$67,730,000 (2013: HK\$67,730,000). Further details are given in note 16 to the financial statements.

Write-down of inventories

The write-down of inventories to net realisable value is made based on the estimated net realisable value of the inventories. The assessment of the write-down required involves management judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such differences will have an impact on the carrying value of the inventories and the write-down/write-back of the inventories in the period in which such estimate has been changed. During the year ended 31 December 2014, a write-down of the inventories of HK\$13,357,000 (2013: HK\$17,334,000) was recognised in the statement of profit or loss. As at 31 December 2014, the carrying amount of the write-down of the inventories amounted to HK\$58,330,000 (2013: HK\$44,973,000).

Impairment of trade receivables

The impairment of trade receivables is made based on the assessment of the recoverability of the trade receivables. The identification of doubtful debts requires management judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such differences will have an impact on the carrying amounts of the receivables and the impairment/write-back of trade receivables in the period in which the estimate has been changed. During the year ended 31 December 2014, impairment losses of HK\$4,399,000 (2013: HK\$68,569,000) of trade receivables were recognised in the statement of profit or loss. As at 31 December 2014, the carrying amount of the impairment losses of trade receivables amounted to HK\$8,831,000 (2013: HK\$4,544,000). Further details are given in note 22 to the financial statements.

Impairment of non-financial assets (other than goodwill)

The Group assesses whether there are any indicators of impairment for all non-financial assets at the end of each reporting period. Other non-financial assets are tested for impairment when there are indicators that the carrying amounts may not be recoverable. An impairment exists when the carrying value of an asset or a cash-generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The calculation of the fair value less costs of disposal is based on available data from binding sales transactions in an arm's length transaction of similar assets or observable market prices less incremental costs for disposing of the asset. When value in use calculations are undertaken, management must estimate the expected future cash flows from the asset or cash-generating unit and choose a suitable discount rate in order to calculate the present value of those cash flows.

NOTES TO FINANCIAL STATEMENTS

3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (Continued)

Estimation uncertainty (Continued)

Share-based payments

The Group measures the costs of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. Estimating the fair value for share-based payments requires determining the most appropriate valuation model for a grant of equity instruments, which is dependent on the terms and conditions of the grant. This also requires determining the most appropriate inputs to the valuation model including the expected life of the options, volatility and dividend yield and making assumptions about them. The assumptions and models used for the estimation of the fair value for share-based payments are disclosed in note 30 to the financial statements.

Fair values of financial instruments

The fair values of the Group's financial instruments are not materially different from their carrying amounts. Fair value estimates are made at a specific point in time and based on relevant market information and information about the financial instruments. These estimates are subjective in nature, involve uncertainties and matters of significant judgement and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Fair values of property, plant and equipment

In the absence of current prices in an active market for similar properties, the Group considers information from a variety of sources, including: (a) current prices in an active market for properties of a different nature, condition or location, adjusted to reflect those differences; (b) recent prices of similar properties on less active markets, with adjustments to reflect any changes in economic conditions since the date of the transactions that occurred at those prices; and (c) discounted cash flow projections based on reliable estimates of future cash flows, supported by the terms of any existing lease and other contracts and (when possible) by external evidence such as current market rents for similar properties in the same location and condition, and using discount rates that reflect current market assessments of the uncertainty in the amount and timing of the cash flows. As at 31 December 2014, the carrying amounts of the property, plant and equipment approximated to their fair values. For details, refer to note 14 to the financial statements.

4. OPERATING SEGMENT INFORMATION

The Group is principally engaged in the manufacture and sale of home furniture. All of the Group's products are of a similar nature and subject to similar risk and returns. Accordingly, the Group's operating activities are attributable to a single operating segment.

Information about a major customer

No revenue from sales to a single customer amounted to 10% or more of the Group's revenue during the year (2013: Nil).

The Group has tax losses arising in Hong Kong and other jurisdictions of HK\$241,592,000 (2013: HK\$155,205,000) that are available for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of these losses as they have arisen in subsidiaries that have been loss-making for some time. Apart from the above, there were no significant unrecognised deferred tax assets at 31 December 2014.

Under Decree – Law no. 58/99/M, companies in Macau incorporated under that Decree – Law (referred to as the “58/99/M Companies”) are exempted from Macau complementary tax (Macau income tax) as long as they do not sell their products to a Macau resident company. Sinofull Macau Commercial Offshore Limited (“Sinofull”), a subsidiary of the Group, is qualified as a 58/99/M Company.

11. LOSS ATTRIBUTABLE TO OWNERS OF THE COMPANY

The loss attributable to owners of the Company for the year ended 31 December 2014 includes a loss of HK\$10,789,000 (2013: HK\$7,848,000) which has been dealt with in the financial statements of the Company (note 31(b)).

12. DIVIDENDS

The directors of the Company have resolved not to declare a final dividend for the year ended 31 December 2014 (2013: Nil).

NOTES TO FINANCIAL STATEMENTS

31 December 2014

13. LOSS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

The calculation of basic loss per share is based on the loss for the year attributable to ordinary equity holders of the Company, and the weighted average number of ordinary shares of 1,393,377,017 (2013: 1,257,355,099) in issue during the year.

The calculation of the diluted loss per share amount is based on the loss for the year attributable to ordinary equity holders of the Company. The weighted average number of ordinary shares used in the calculation is the number of ordinary shares in issue during the year, as used in the basic loss per share calculation, and the weighted average number of ordinary shares assumed to have been issued at no consideration on the deemed exercise of all dilutive potential ordinary shares into ordinary shares.

No adjustment has been made to the basic loss per share amounts presented for the year ended 31 December 2014 and 2013 in respect of a dilution as the impact of the share options outstanding had an anti-dilutive effect on the basic loss per share amounts presented.

The calculations of basic and diluted loss per share are based on:

	2014 HK\$'000	2013 HK\$'000

Impairment testing of goodwill

Goodwill acquired through business combinations is related to the home furniture cash-generating unit for impairment testing.

The recoverable amount of the home furniture cash-generating unit (the “CGU”) was determined based on a value in use calculation using cash flow projections based on financial budgets covering a five-year period approved by senior management. The discount rate applied to the cash flow projections was 17% and cash flows beyond the five-year period were extrapolated using a growth rate of 3%.

Assumptions were used in the value in use calculation of the home furniture cash-generating unit for 31 December 2014. The following describes each key assumption on which management has based its cash flow projections to undertake impairment testing of goodwill:

Budgeted gross margins – The basis used to determine the value assigned to the budgeted gross margins is the average gross margins achieved in the year immediately before the budget year, increased for expected efficiency improvements, and expected market development.

Discount rates – The discount rates used are before tax and reflect specific risks relating to the relevant unit.

The values assigned to the key assumptions are consistent with external information sources.

During the year, the gross gain in respect of the Group's available-for-sale investments recognised in other comprehensive income amounted to HK\$150,000 (2013: HK\$138,000).

The above investments consist of investments in equity securities which were designated as non-current available-for-sale financial assets and have no fixed maturity date or coupon rate. The fair values of listed equity investments are based on quoted market prices.

The unlisted investment has a term of less than one year and is pledged to bank to obtain the bank loan (note 27). As at 31 December 2014, the fair value of the unlisted investment is based on the expected rate of return, credit spread and liquidity spread implied by the purchase price at the issue date.

Trade receivables	35,340	58,130
Impairment	(8,831)	(4,544)
	26,509	53,586

The Group's trading terms with its customers are mainly on credit, except for new customers, where payment in advance is normally required. The credit period is generally 30 to 90 days. Each customer has a maximum credit limit. The Group seeks to maintain strict control over its outstanding receivables. Overdue balances are reviewed regularly by senior management. In view of the aforementioned and the fact that the Group's trade receivables relate to a large number of diversified customers, there is no significant concentration of credit risk. The Group does not hold any collateral or other credit enhancements over its trade receivable balance. Trade receivables are non-interest-bearing.

An aged analysis of the trade receivables as at the end of the reporting period, based on the invoice date and net of provision, is as follows:

	Group

An aged analysis of the trade receivables that are not individually or collectively considered to be impaired is as follows:

	Group	
	2014 HK\$'000	2013 HK\$'000
Neither past due nor impaired	24,582	52,167
Past due but not impaired	1,927	1,419
	26,509	53,586

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral or other credit enhancements over these balances.

Included in the Group's trade receivables are amounts due from the Group's associate of HK\$647,000 (2013: HK\$986,000) which are repayable on similar credit terms to those offered to the major customers of the Group.

30. SHARE OPTION SCHEME

The Company operates a share option scheme in order to advance the interests of the Company and shareholders by enabling the Company to grant options to attract, retain and reward the eligible participants. The Company adopted the share option scheme (the "Scheme") which became effective on 18 May 2012 to replace the old share option scheme which expired on 25 April 2012. The Scheme, unless otherwise cancelled or amended, will remain in force for 10 years from that date.

The maximum number of shares in respect of which options may be granted under the Scheme and under any other share option schemes of the Company pursuant to which options may be granted to directors, consultants and/or employees of any company in the Group, shall initially not exceed 10% of the relevant class of securities of the Company in issue excluding, for this purpose, shares issued on exercise of options under the Scheme and any other share option schemes of the Company. Upon the grant of options for shares up to 10% of the relevant class of securities of the Company and subject to the approval of the shareholders of the Company in general meetings, the maximum number of shares to be issued under the Scheme when aggregated with securities to be issued under any other share option schemes of the Group may be increased by the board of directors, provided that the shares to be issued upon exercise of all outstanding options do not exceed 30% of the relevant class of securities in issue.

No option may be granted to any one person such that the total number of shares issued and to be issued upon the exercise of options granted and to be granted to such person in any 12-month period up to the date of the latest grant exceeds 1% of the issued share capital of the Company.

The offer of a grant of share options may be accepted within eight days from the date of offer, upon payment of a nominal consideration of HK\$1 in total by the grantee. The exercise period of the share options granted is determined by the directors, and commences after a certain vesting period and ends on a date which is not later than 10 years from the date of offer of the share options or the expiry date of the Scheme, if earlier.

An option may be exercised in accordance with the terms of the Scheme at any time during the option period (and not more than 10 years after the date of grant). The option period will be determined by the board of directors and communicated to each grantee. The board of directors may provide restrictions on the time during which the options may be exercised. There are no performance targets which must be achieved before any of the options can be exercised. However, the board of directors retains its discretion to accelerate the vesting of the fixed term options in the event that certain performance targets are met.

The subscription price for the Company's shares under the Scheme will be a price determined by the board of directors and notified to each grantee. The subscription price will be the highest of: (i) the nominal value of a share; and (ii) the closing price of the shares as stated in the Stock Exchange's daily quotation sheet on the date of grant, which must be a trading day; and (iii) the average of the closing prices of the shares as stated in the Stock Exchange's daily quotation sheets for the five trading days immediately preceding the date of grant. An option shall be deemed to have been granted and accepted by an eligible participant (as defined in the Scheme) and to have taken effect when the acceptance form as described in the Scheme is completed, signed and returned by the grantee with a remittance in favour of the Company of HK\$1 by way of consideration for the grant.

Share options do not confer rights on the holders to dividends or to vote at shareholders' meetings.

In aggregate	51,747,906	95,000,000	146,747,906				

* The vesting period of the share options is from the date of grant until the commencement of the exercise period.

No share options were exercised during the year.

The Group recognised a share option expense of HK\$12,864,000 (2013: HK\$9,625,000) for the year ended 31 December 2014.

The fair value of the share options granted during the year was HK\$13,300,000 (HK\$0.14 each) (2013: HK\$12,552,000 (HK\$0.32 each)).

The fair value of equity-settled share options granted during the year was estimated as at the date of grant, using a binomial model, taking into account the terms and conditions upon which the options were granted. The following table lists the inputs to the model used:

	2014	2013
Dividend yield (%)	-	-
Volatility (%)	61	55 – 60
Risk-free interest rate (%)	0.76 – 0.80	0.14 – 0.28
Expected life of options (year)	2	2
Weighted average share price (HK\$ per share)	0.37	0.79

The expected life of the options is based on the historical data over the past three years and is not necessarily indicative of the exercise patterns that may occur. The volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcome. No other feature of the options granted was incorporated into the measurement of fair value.

30. SHARE OPTION SCHEME (Continued)

At the end of the reporting period, the Company had 146,747,906 share options outstanding under the Scheme. The exercise in full of the remaining share options would, under the present capital structure of the Company, result in the issue of 146,747,906 additional ordinary shares of the Company and additional share capital of HK\$14,675,000 and share premium of HK\$59,251,000 (before issue expenses).

At the date of approval of these financial statements, the Company had 146,747,906 share options outstanding under the Scheme, which represented approximately 10.5% of the Company's shares in issue as at that date.

37. FAIR VALUE AND FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of cash and cash equivalents, pledged deposits, trade receivables, financial assets included in prepayments, deposits and other receivables, trade payables, financial liabilities included in other payables and accruals, the current portion of interest-bearing bank loans and other borrowings, loans from a director and a loan from non-controlling interests approximate to their carrying amounts largely due to the short term maturities of these instruments.

The fair values of the non-current portion of interest-bearing bank and other borrowings have been calculated by discounting the expected future cash flows using rates currently available for instruments with similar terms, credit risk and remaining maturity. The Group's own non-performance risk for the interest-bearing bank and other borrowings as at 31 December 2014 was assessed to be insignificant.

The fair values of the listed equity investments are measured based on quoted prices in active markets (level 1) for identical assets.

The fair value of the unlisted investment which was designated as current available-for-sale investment is based on the expected rate of return, credit spread and liquidity spread implied by the purchase price at the issue date (level 3).

The carrying amounts of the Group's and the Company's financial assets and financial liabilities approximate to their fair values.

38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk.

The Group does not have written risk management policies and guidelines. However, management meets periodically to analyse and formulate measures to manage the Group's exposure to financial risks. Generally, the Group employs a conservative strategy regarding its risk management.

(i) Interest rate risk

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long term debt obligations with floating interest rates.

The interest-bearing bank loans with floating interest rates are denominated in Hong Kong dollars and RMB. If there would be a general increase/decrease in the interest rate of bank borrowings with floating interest rates by 25 basis points, with all other variables held constant, the loss and loss before tax of the Group would have increased/decreased by approximately HK\$299,000 and HK\$384,000 for the years ended 31 December 2014 and 2013, respectively.

NOTES TO FINANCIAL STATEMENTS

31 December 2014

38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

(ii) Foreign currency risk

The Group has transactional currency exposures. These exposures arise from sales or purchases by operating units in currencies other than the units' functional currencies. Approximately 3.6% (2013: 2.9%) of the Group's sales are denominated in currencies other than the functional currencies of the operating units making the sale, whilst almost 100% (2013: 100%) of costs are denominated in the units' functional currencies. The Group does not use any forward currency contracts to eliminate the foreign currency exposures and the Group does not enter into any hedge derivatives.

(iii) Credit risk

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis and the Group's exposure to bad debts is not significant. For transactions that are not denominated in the functional currency of the relevant operating unit, the Group does not offer credit terms without the specific approval of the head of credit control.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

Since the Group trades only with recognised and creditworthy third parties, there is no requirement for collateral. Concentrations of credit risk are managed by customer. There are no significant concentrations of credit risk within the Group as the customer bases of the Group's trade receivables are widely dispersed across different sectors.

Further quantitative data in respect of the Group's exposure to credit risk arising from trade receivables are disclosed in note 22 to the financial statements.

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., trade receivables) and projected cash flows from operations.

(v) Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2014 and 2013.

The Group monitors capital using a gearing ratio, which is net debt divided by capital plus net debt. Net debt includes interest-bearing bank and other borrowings, trade payables and other payables and accruals, loans from a director and loan from non-controlling interests, less cash and cash equivalents. Capital represents equity attributable to owners of the Company.
