The Directors

Zhongzhi Pharmaceutical Holdings Limited

No. 3 Kang Tai Road South
Torch Development Zone
Zhongshan
Guangdong province
The PRC

Dear Sirs,

INSTRUCTIONS

We refer to the instructions from Zhongzhi Pharmaceutical Holdings Limited (the “Company”) for us to value the properties held by the Company and/or its subsidiaries (together referred to as the “Group”) located in the People’s Republic of China (the “PRC”). We confirm that we have conducted inspections, made relevant enquiries and obtained such further information, as we consider necessary for the purpose of providing you with our opinion of the market values of the properties as at 31 May 2015 (the “valuation date”).

BASIS OF VALUATION

Our valuations of the concerned properties have been based on the Market Value, which is defined as “the estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm’s-length transaction after proper marketing and where the parties had each acted knowledgeably, prudently and without compulsion”.

PROPERTY CATEGORISATIONS

In the course of our valuations, the portfolio of the properties are categorised into the following groups:

Group I — Properties partly held for owner-occupation and partly held for investment by the Group in the PRC

Group II — Property held for future development by the Group in the PRC

VALUATION METHODOLOGIES

For Property Nos. 1 and 2, we have adopted the Depreciated Replacement Cost Approach. Depreciated replacement cost is defined as “the aggregate amount of the value of the land for the existing use or a notional replacement site in the same locality and the new replacement cost of the buildings and other site works, from which appropriate deductions may then be made to allow for the age, condition, economic or functional obsolescence and environmental factors, etc.; all of these might result in the existing property being worth less to the undertaking in occupation than would a new replacement”. This basis has been used due to the lack of an established market upon which to base comparable transactions, which generally furnishes the most reliable indication of values for assets without a known used market. This opinion of value is subject to adequate profitability of the business compared to the value of the total assets employed.

In valuing Property Nos. 3 and 5, we have valued them on market basis by the Comparison Approach assuming sale in their existing states with the benefit of vacant possession and by making reference to comparable sales evidences as available in the relevant market. Appropriate adjustments have then been made to account for the differences between the properties and the comparables in terms of all relevant factors. Where appropriate, we have also adopted the Investment Approach by taking into account the current passing rent of the portion being held under existing tenancy and the reversionary potential of the tenancy if it has been or would be let to tenant.

TITLE INVESTIGATION

We have been provided with copies of title documents and have been advised by the Group that no further relevant documents have been produced. However, we have not examined the original documents to verify ownership or to ascertain the existence of any amendment documents, which may not appear on the copies handed to us. In the course of our valuations, we have relied upon the advice and information given by the Group’s PRC Legal Advisor — King & Wood Mallesons (金杜律師事務所) regarding the title of the properties located in the PRC. All documents have been used for reference only.

VALUATION ASSUMPTIONS

Our valuations have been made on the assumptions that the properties are sold in the market without the benefit of deferred terms contract, leaseback, joint venture, management agreement or any other similar arrangement which would serve to affect the values of the properties.

In addition, no account has been taken of any option or right of pre-emption concerning or affecting the sale of the properties and no forced sale situation in any manner is assumed in our valuations.

VALUATION CONSIDERATIONS

The site inspections were conducted by Mr. Man Lam (MHKIS) in December 2014. We have inspected the properties externally and where possible, the interior of the properties. In the course of our inspections, we did not note any serious defects. However, no structural surveys have been made. We are, therefore, unable to report whether the properties are free from rot, infestation or any other structural defects. No tests were carried out on any of their services.

In the course of our valuations, we have relied to a considerable extent on the information given by the Group and have accepted advice given to us on such matters as planning approvals or statutory notices, easements, tenures, completion dates of buildings, particulars of occupancy, site/floor areas, identifications of the properties and other relevant information.

We have not carried out detailed on-site measurements to verify the correctness of the site/floor areas in respect of the properties but have assumed that the site/floor areas shown on the documents handed to us are correct. Dimensions, measurements and areas included in the valuation certificates are based on information contained in the documents provided to us by the Group and are therefore only approximations.

We have no reason to doubt the truth and accuracy of the information provided to us by the Group and we have relied on your confirmation that no material facts have been omitted from the information provided. We consider that we have been provided with sufficient information for us to reach an informed view.

No allowance has been made in our valuations for any charges, mortgages or amounts owing on the properties or for any expenses or taxation, which may be incurred in effecting a sale.

Unless otherwise stated, it is assumed that the properties are free from encumbrances, restrictions and outgoings of an onerous nature, which could affect their values.

Our valuations have been prepared in accordance with The HKIS Valuation Standards (2012 Edition) published by The Hong Kong Institute of Surveyors.

Our valuations have been prepared under the generally accepted valuation procedures and are in compliance with the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited.

REMARKS

Unless otherwise stated, all money amounts stated herein are in Renminbi (RMB) and no allowances have been made for any exchange transfer.

Our Summary of Values and the Valuation Certificates are attached herewith.

Yours faithfully,
For and on behalf of
BMI APPRAISALS LIMITED
Joannau W.F. Chan
BSc., MSc., MRICS, MHKIS, RPS(GP)
Senior Director

Note: Ms. Joannau W.F. Chan is a member of the Hong Kong Institute of Surveyors (General Practice) who has over 22 years' experience in valuations of properties in Hong Kong and over 16 years' experience in valuations of properties in the People's Republic of China.
