### Chairman's Statement

On behalf of the board of directors (the "Board") of Eagle Nice (International) Holdings Limited (the "Company"), I hereby present the annual results of the Company and its subsidiaries (collectively the "Group") for the year ended 31 March 2015.

#### **INDUSTRY REVIEW**

With increasing health awareness in the society, sporting activities have become an important part of daily living, while functional sportswear has become an increasingly popular mainstream of sporting apparel. In the document titled "Certain Opinion on Accelerating the Development of the Sporting Industry and Promoting Retail Spending on Sports (《關於加快發展體育產業 促進體育消費的若干意見》) promulgated by the State Council of the PRC last year, the status of sporting activities was elevated to a new level for the first time. The said document called for active expansion and development of sporting products and sporting facilities.

Consumers' demand in the international sportswear market has rebounded as a result of further improvements in the global economy, which represents a favourable development for sportswear manufacturers. However, the profit margin of sportswear manufacturers has been eroded by rising production costs in the PRC. In order to remain as industry leaders in the everchanging and intensively competitive sportswear market, business enterprises must keep up with market changes and increase the added value of their products through technological innovation.

#### SUMMARY OF RESULTS

The Group reported encouraging results for the year under review, thanks to the concerted effort of the Group's employees, strong support of the customers and the management's timely implementation of effective measures to enhance profit and reduce costs of the Group. In view of the substantial increase in product costs in recent years owing to the continuous increment of the minimum wage level and ongoing RMB appreciation, the Group has adopted a range of cost-saving and profit-enhancing measures to address the austere business environment. These include: (i) product-mix reorganization to focus on orders commanding higher profit margin; (ii) optimization of production processes to enhance efficiency; and (iii) effective cost controls such as reorganization and streamlining of the corporate structure, termination of the lease of a plant in Shantou, the PRC, disposal of assets with low utilization and enhancement of the treasury functions to reduce finance costs. The Group's turnover for the year amounted to HK\$1,517.1 million, representing a mild growth of HK\$33.3 million or 2.2% compared to last year. Notwithstanding, the Group's gross profit margin improved by 4.4% from 13.1% to 17.5%, underpinned by an 36.6% increase in gross profit to HK\$266.0 million. Profit before taxation increased by 250.0% to HK\$130.3 million (2014: HK\$37.2 million), as the Group's pretax profit margin increased by 6.1% from 2.5% to 8.6%. The substantial increase in the Group's profit is also attributable to the contributions of its plants in Jiangxi Province, the PRC and Indonesia commissioned in 2012, which started to generate profit during the year after their business operations had stabilized.

#### BUSINESS AND MARKET REVIEW Complementary Play of Geographic Advantages of Local Plants in Various Locations

While rising labour costs in the PRC during the past decade have presented substantial pressure for the PRC garment manufacturers, the vast market of consumers and excellent support for production afforded by the country are simply incomparable. In terms of the market, the combination of China's enormous population base, rising level of per capita disposable income and increasing health awareness of the public have contributed to an extensive and ever expanding customer base for the sporting business. In terms of production support, government support for the sporting industry, the complete industry chain and strong availability of raw materials and resources are the favourable factors that would ensure the rapid and stable development of the sportswear industry in the PRC.

The Group has delegated different functions to its four plants in various locations in Guangdong Province, the PRC, Jiangxi Province, the PRC and Indonesia, in order to increase production efficiency and reduce costs and thus enhance its competitiveness. With the benefit of skilled labour and comprehensive production support, the two plants located in Shantou and Huilai, Guangdong Province, the PRC are primarily engaged in the production of highend functional products and the research and development of new products. On the other hand, given their abundant labour supply at relatively low costs, the two plants located in Jiangxi Province, the PRC and Indonesia are mainly engaged in the mass production of products with simpler designs and lower technical input. Each playing to its best strengths, these regional plants have complemented one another to form a solid cornerstone for the Group's sustainable development.

#### Close Tracking of Fashion Trends and Ongoing Technical Upgrades to Facilitate Development of New Products

As the market for retail spending is constantly changing in tandem with rapidly evolving fashion and trends, sportswear has turned from a durable to a fast consumer product. With the general shortening of product life cycles, our customers have employed market strategies of "market segmentation, collective designs, small-batch production and style diversification" in recent years to assure swift response to market demands. To address customers' needs, the Group has made ongoing investments in its research and development department, which is committed to providing customers with innovative designs and improving our production processes. The research and development department has introduced advanced production equipment, such as 3D Lasercut machine, auto module special stitching machine and auto template cutting machine, to increase automation and shorten production lead-time. Since last year, the Group has cooperated with suppliers of production technologies who have made recommendations to the Group in respect of the latest production technologies, supply of innovative materials and staff training to facilitate the Group's ongoing upgrade of seamless production technologies, and the research and design of innovative products. The research and development department has also introduced the template production technology to the production line since last year to assist non-skilled workers in their sewing with the use of moulds, which would ensure the stability of product quality. This year, the research and development department introduced pad printing, a new pattern printing technology claiming superiority in cost and speed, to gradually replace the previously-used thermal transfer and embroidery technologies.

Chairman's Statement (Continued)

#### Product-Mix Reorganization and Stringent Cost Control

Sportswear manufacturers in the PRC are facing battles on two fronts: on the one hand, price wars are inevitable given intense market competition, especially in respect of over-supplied lowend products. On the other hand, production costs especially labour continue to rise, resulting in significant erosion in the manufacturers' profit margin and declining profitability for the industry in general. The Group is more concerned with the growth in profit than that in sales, as profitability is the key for enterprise to survival. In recent years, the Group has focused on the development and production of high-end functional apparels to reorganize its product mix, such as the down and down-like jackets actively promoted last year. Orders for high-end functional products grew significantly during the year, resulting in enhanced profit for the Group. Meanwhile, on the business front, resources have been reallocated to focus on orders of major customers, ensuring that research and development costs can contribute maximum value to the Group.

### China, Europe and the U.S. Remained the Main Markets

Regarding overseas demand, the estimated size of the global sportswear market in 2013 amounted to USD162 billion according to Euromonitor. Looking to 2018, the said market is expected to increase to USD219.1 billion, while the U.S. will be the world's largest market for sportswear. Turning to the PRC market, enormous demand is set to boost sportswear spending and advance the development of the sportswear industry. According to the National Bureau of Statistics, the medium- to high-level income earning population group is expanding. The potential of the PRC's second- and third-tier cities in sportswear spending is also gradually being realized. All in all, the Group will remain focused on Mainland China, Europe and the U.S. as its major markets, while actively pursuing market diversification to balance off risks from different markets.

For the year under review, the U.S. continued to claim the largest share of 32.9% of the Group's total sales, followed by Mainland China which accounted for 20.4%, and Europe, where the sales grew by approximately 30%, which accounted for 19.1%.

#### **OUTLOOK**

In terms of future challenges, the Group will be subject to increasing cost pressure following the further increment in the minimum wage level in the PRC and Indonesia in 2015 and the official launch of the housing provident fund (the long-term housing reserve maintained by an enterprise for the benefit of its in-service employees) during the year. To maintain its profit level, the Group will focus on the research and development of innovative products, and will continue to leverage the strengths of its four plants located in Guangdong Province, the PRC, Jiangxi Province, the PRC and Indonesia to create maximum value and profit contributions.

The Group will continue to invest in research and development conducted at its research and development centre in Shantou, Guangdong Province, the PRC. Our design team meets with our customers on a regular basis to introduce new designs and products, in a bid to add value for our customers. To mitigate the impact of undersupply of labour force and rising costs in the PRC, one of the priority tasks of our research and development centre would be to optimize our production processes and facilitate production automation with the introduction of advanced production technologies.

Increasing labour shortage in the PRC has presented an obstacle for the development of PRC garment manufacturers, who are engaged in a traditionally labour-intensive industry. By comparison, the labour market in Indonesia is relatively stable with more abundant supply at lower wages. With an optimistic view on the Indonesian plant, the Group has planned to expand the scale and production lines of the Indonesian plant. After several years in operation, production at the Indonesian plant has been stabilized and its workers, with improved skills, are now capable of handling designs with higher requirements in sewing skills. In future, the Group will continue to expand the capacity of the Indonesian plant, as we are convinced that a balanced portfolio of production bases will provide our customers with better services and choices.

Chairman's Statement (Continued)

#### **CORPORATE SOCIAL RESPONSIBILITY**

The revised Environmental Protection Law adopted in April 2014 and enacted in 2015 by the PRC government has set out stringent provisions for pollution discharge by business enterprises and their obligations in environmental protection. In this aspect, the Group has implemented a green production policy since 2011. We have joined the material sustainability index (MSI) programme of Nike, one of our customers, and participated in initiatives such as banning of restricted chemicals, toxic-free production, installation of sewage treatment facilities and implementation of energy saving schemes.

The Group fulfils corporate social responsibility by taking substantive actions to express its care and concern for the community. During the year, the Group supported the charitable book donation campaign and donated Chinese and English reading materials to rural children who lack parental care. Moreover, the Group made regular donations to charitable organizations and encouraged its employees to participate in voluntary services for community welfare.

#### **APPRECIATION**

On behalf of the Group, I would like to express my sincere gratitude to the directors and the management for their invaluable contributions during the year. I would also like to thank our shareholders, suppliers, business partners and customers for their support. Appreciation is also due to all members of our staff for their dedicated efforts during the past year.

### **Financial and Operation Review**

#### **REVIEW OF FINANCIAL PERFORMANCE**

The sportswear market experienced a resurgence in consumers' demand as the global economy saw gradual improvements. Nevertheless, in the intensely competitive sportswear market where low-end products are oversupplied and offer thin profit margin, only high-end functional products will be able to generate added value that provides sportswear manufacturers with stable profitability. To sustain profit growth, the Group has adjusted its marketing strategy in recent years to focus on development of products with higher value and soliciting orders of higher profit margin. Resources have been reallocated to focus on orders of major customers.

On the other hand, production costs have been increasing substantially since recent years owing to the continuous increment of the minimum wage level and ongoing RMB appreciation. Moreover, customers have also changed their market strategy in recent years to accommodate the evolution of sportswear into fashionable products by placing small-volume orders for a variety of styles and allowing shorter turnaround time for sportswear manufacturers. This has substantially increased the product development cost and production cost of sportswear manufacturers and contributed to the continuous decline in the Group's profit in the past few years. To address the situation, the Group has adopted a range of measures to enhance production efficiency, reduce costs and improve profitability. In terms of production management, manufacturing orders have been allocated to the four plants in the PRC and Indonesia based on their respective levels of production efficiency, destinations of sales and technological advantages to ensure that each plant operates at maximum efficiency and generates maximum profit to the Group. Advanced production equipment and technologies have been introduced to facilitate production automation and improve our production processes. In terms of cost control, we have adopted measures such as the reorganization and streamlining of our corporate structure, termination of the lease of a plant in Shantou, the PRC, disposal of assets with low utilization and negotiation with suppliers for more favourable terms. Moreover, our plants in Jiangxi Province, the PRC and Indonesia, which commenced operation in 2012, started to generate profit during the year on the back of stabilized business operations and contributed to the Group's growth in profit during the year.

Thanks to its vigorous efforts in cost-saving, the Group reported stellar financial results for the year with significant growth in profit. The Group's turnover grew moderately by 2.2% to HK\$1,517.1 million (2014: HK\$1,483.8 million). Gross profit improved by 36.6% to HK\$266.0 million (2014: HK\$194.7 million), while our gross profit margin rose by 4.4% from 13.1% to 17.5%. The Group's profit before tax increased by 250.0% to HK\$130.3 million (2014: HK\$37.2 million), and its profit before tax margin increased by 6.1% from 2.5% to 8.6%.

The Group's selling and distribution expenses for the year decreased by HK\$3.8 million (or 17.8%), reflecting primarily the decrease in transportation costs following effective allocation of orders to the four plants of the Group located in different regions as a result of effective production management. Administrative expenses decreased by HK\$14.6 million (or 10.8%) in line with the reduction in manpower expenses as a result of the reorganisation and streamlining of its corporate structure as well as lower administrative expenses attributable to active cost-saving measures adopted by the management. Finance costs also decreased by HK\$1.5 million (or 30.1%) in tandem with the year-on-year decrease in overall outstanding bank loans following the Group's proactive move to reduce bank loans in recent years. In terms of taxation, the Group's overall tax expenses increased by HK\$9.8 million (or 63.6%) only, despite a substantial increase in profit before tax by HK\$93.1 million (or 250.0%). The absence of an increase in taxation in tandem with the profit growth was attributable to the profit turnaround of our plants in Jiangxi Province, the PRC and Indonesia and the offset of such profit against losses incurred in previous years. Hence no provision for taxation was required to be made in respect of such profit. The effective tax rate for the year was 19.3%, which was substantially lower than that of 41.3% for the previous year.

Other income of HK\$8.9 million comprised investment income generated from available-for-sale investment amounting to HK\$1.8 million and financial award granted by Yifeng County Government to foreign companies investing in the locality amounting to HK\$2.8 million. In addition, the Group acquired foreign currency forward contracts during the year and recorded net loss from change in fair value of derivative financial instruments as at the balance sheet date amounting to HK\$2.6 million, comprising realised gain of HK\$6.5 million and unrealised loss of HK\$9.1 million.

Profit attributable to owners of the Company was HK\$105.2 million for the year ended 31 March 2015, representing a substantial increase of 380.9% compared to HK\$21.9 million for last year. The net profit margin increased significantly by 5.4% from 1.5% to 6.9% when compared with last year. Basic earnings per share amounted to HK21.1 cents for the year compared to HK4.4 cents for last year. The Board has proposed to recommend payment of a final dividend of HK6.5 cents per share, while no final dividend payment was recommended for last year. An interim dividend of HK6 cents per share was paid during the year, resulting in a dividend payout ratio for the year of 59% (2014: 91%).

Financial and Operation Review (Continued)

#### LIQUIDITY AND FINANCIAL RESOURCES

During the year under review, the Group continued to maintain a healthy liquidity position. The Group generally finances its operations with internally generated resources and banking facilities. As at 31 March 2015, the Group had cash and cash equivalents amounted to HK\$255.4 million (31 March 2014: HK\$276.6 million) mainly denominated in Hong Kong dollars, Renminbi ("RMB"), US dollars and Indonesian Rupiah.

The bank loan facilities amounting to HK\$237.6 million were utilised by the Group as at 31 March 2015 (31 March 2014: HK\$339.6 million). As at 31 March 2015, based on the scheduled repayments set out in the relevant loan agreements with banks, all the Group's bank borrowings are repayable within one year.

The management believes that the Group's existing financial resources will be sufficient to meet its existing operations as well as existing and future expansion plans and, if necessary, the Group will be able to obtain additional financing with favourable terms. There is no material effect of seasonality on the Group's borrowing requirements.

Gearing ratio of the Group is defined as the net debt (represented by bank borrowings net of cash and cash equivalents) divided by shareholders' equity. The Group's gearing ratios as at 31 March 2015 is not applicable (31 March 2014: 6.2%).

#### FOREIGN EXCHANGE RISK MANAGEMENT

The Group has transactional currency exposures as substantial portion of sales or purchases have operating units in US dollars and RMB. The Group is exposed to foreign exchange risk arising from such exposure to US dollars and RMB. Although the Group tries to maintain the balance of its sales and purchases in the same currency, as the foreign currency risks generated from the sales and purchases can only be partly set off with each other, financial instrument was employed during the year to manage the Group's exposure to the potential exchange rate risk.

The Group will continue to monitor its foreign exchange exposures and use appropriate tools to manage and minimize its foreign exchange risk.

#### **DIRECTORS' INTERESTS IN A COMPETING BUSINESS**

Interest of the Directors in a competing business required to be disclosed pursuant to Rule 8.10 of the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules") is as follows:

Name of Director	Name of company	Nature of competing business	Nature of interest	Appointment date
Mr. Kuo Tai Yu ("Mr. Kuo")	Yue Yuen (Note 1)	Garment manufacturing	As a general manager	December 2012
Ms. Chen Fang Mei, Christina ("Ms. Chen")	Din Tsun Holding Co., Ltd. ("Din Tsun") (Note 2)	Garment manufacturing	As a director	April 2011
Mr. Kuo	(2) (		As a director	April 2013
Ms. Chen Mr. Kuo	Faith Year Investments Limited ("Faith Year") (Note 2)	Garment manufacturing	As a director As a director	August 2010 April 2013
Ms. Chen Mr. Kuo	Pro Kingtex Industrial Co., (HK) Ltd. ("Pro Kingtex") (Note 2)	Garment manufacturing	As a director As a director	August 2010 April 2013

Note 1: Yue Yuen is a company listed on the Stock Exchange and is a substantial shareholder of the Company. The principal business activities of Yue Yuen Group are manufacturing and sales of footwear products, and retail and distribution of sportswear products. Based on the published annual report of Yue Yuen, Yue Yuen recorded total revenue of more than US\$6 billion for its footwear manufacturing business for the year ended 31 December 2014. As the Group is principally engaged in the manufacturing and trading of sportswear and garments, the businesses of Yue Yuen Group and the Group potentially compete with each other.

Given that Yue Yuen Group and the Group are operated by different and separate management team, the Directors consider that the Company is capable of carrying on its business independently of, and at arms length with Yue Yuen Group. Having considered the nature and extent of Mr. Kuo's participation in business of Yue Yuen Group and the Group, the Directors believe that there is unlikely to be any significant competition caused to the business of the Group.

Note 2: Din Tsun is a company incorporated in the British Virgin Islands on 4 January 2005 and is held as to 50% by Yue Yuen Group and 50% by two individuals. Din Tsun and Yue Yuen Group hold 70% and 30% of the issued share capital of Faith Year respectively which in turn wholly-owns Pro Kingtex. Din Tsun and its subsidiaries are investee companies of the Yue Yuen Group. The principal business activities of Din Tsun and its operating subsidiaries including Pro Kingtex are apparel manufacturing of sportswear, casual and outdoor clothes. Based on information provided by Din Tsun, it and its subsidiaries recorded over US\$220 million in revenue for the year ended 31 December 2014. Both Ms. Chen and Mr. Kuo have been nominated to the board of directors of Din Tsun, Faith Year and Pro Kingtex to represent the interest of the Yue Yuen Group as an investor.

While Ms. Chen is not involved in the operation of Din Tsun and its subsidiaries including Pro Kingtex, Mr. Kuo participates in the apparel manufacturing business of Din Tsun and its subsidiaries. Mr. Kuo has confirmed that he is mindful of his duty to avoid conflict of interest. In cases where conflict of interest situation arises, Mr. Kuo will refrain from taking part in the decision making process and will abstain from voting on the relevant resolution in board meeting. On this basis and given that the subsidiaries of Din Tsun including Pro Kingtex have its own management personnel other than Mr. Kuo and that Ms. Chen is not involved in their operations, the Directors believe that the Company is capable of carrying out its business independently of, and at arms length from Ding Tsun and its subsidiaries including Pro Kingtex.

Save as disclosed above, none of the Directors or their respective associates was interested in, apart from the Group's business, any business which competes or is likely to compete, either directly or indirectly, with the businesses of the Group.

### Independent Auditors' Report

#### To the shareholders of Eagle Nice (International) Holdings Limited

(Incorporated in the Cayman Islands with limited liability)

We have audited the consolidated financial statements of Eagle Nice (International) Holdings Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 60 to 136, which comprise the consolidated and company statements of financial position as at 31 March 2015, and the consolidated income statement, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

#### DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

#### **AUDITORS' RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. Our report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the entity's preparation of consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **OPINION**

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Company and of the Group as at 31 March 2015, and of the Group's financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## Notes to Financial Statements 財務報表附註

(31 March 2015) (二零一五年三月三十一日)

#### **1. CORPORATE INFORMATION**

The Company is a limited liability company incorporated in the Cayman Islands. The registered office address of the Company is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, the Cayman Islands. The principal place of business of the Company is located at Units 0902-0903 and 0905-0906, 9/F, Tower B, Regent Centre, 70 Ta Chuen Ping Street, Kwai Chung, New Territories, Hong Kong.

The Group's principal activities are the manufacture and trading of sportswear and garments.

#### 2.1 BASIS OF PREPARATION

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong, and the disclosure requirements of the Hong Kong Companies Ordinance, which because the Company has not early adopted the revised disclosure requirements of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), are those of the predecessor Hong Kong Companies Ordinance (Cap. 32). The financial statements have been prepared under the historical cost convention, except for derivative financial instruments which have been measured at fair value. These financial statements are presented in Hong Kong dollars ("HK\$") and all values are rounded to the nearest thousand except when otherwise indicated.

#### **Basis of consolidation**

The consolidated financial statements include the financial statements of the Company and its subsidiaries (collectively referred to as the "Group") for the year ended 31 March 2015. The financial statements of the subsidiaries are prepared for the same reporting period as the Company, using consistent accounting policies. The results of subsidiaries are consolidated from the date on which the Group obtains control, and continue to be consolidated until the date that such control ceases.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the noncontrolling interests, even if this results in the non-controlling interests having a deficit balance. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control described in the accounting policy for subsidiaries below. A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

#### 2.3 NEW AND REVISED HKFRSs AND NEW DISCLOSURE REQUIREMENTS UNDER THE HONG KONG COMPANIES ORDINANCE NOT YET ADOPTED (Continued)

In addition, the Hong Kong Companies Ordinance (Cap. 622) will affect the presentation and disclosure of certain information in the consolidated financial statements for the year ending 31 March 2016. The Group is in the process of making an assessment of the impact of these changes.

Further information about those HKFRSs that are expected to be applicable to the Group is as follows:

The Annual Improvements to HKFRSs 2010-2012 Cycle issued in January 2014 sets out amendments to a number of HKFRSs. Except for those described in note 2.2, the Group expects to adopt the amendments from 1 April 2015. None of the amendments are expected to have a significant financial impact on the Group. Details of the amendments most applicable to the Group are as follows:

HKFRS 8 Operating Segments: Clarifies that an entity must disclose the judgements made by management in applying the aggregation criteria in HKFRS 8, including a brief description of operating segments that have been aggregated and the economic characteristics used to assess whether the segments are similar. The amendments also clarify that a reconciliation of segment assets to total assets is only required to be disclosed if the reconciliation is reported to the chief operating decision maker.

The Group is in the process of making an assessment of the impact of these new and revised HKFRSs upon initial application but is not yet in a position to state whether these new and revised HKFRSs would have a significant impact on the Group's results of operations and financial position.

#### SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 2.4 POLICIES **Subsidiaries**

A subsidiary is an entity (including a structured entity), directly or indirectly, controlled by the Company. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee (i.e., existing rights that give the Group the current ability to direct the relevant activities of the investee).

When the Company has, directly or indirectly, less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of (a) the investee:
- (b) rights arising from other contractual arrangements; and
- (C) the Group's voting rights and potential voting rights.

The results of subsidiaries are included in the Company's income statement to the extent of dividends received and receivable. The Company's investments in subsidiaries that are not classified as held for sale in accordance with HKFRS 5 Non-current Assets Held for Sale and Discontinued Operations are stated at cost less any impairment losses.

#### **Business combinations and goodwill**

Business combinations are accounted for using the acquisition method. The consideration transferred is measured at the acquisition date fair value which is the sum of the acquisition date fair values of assets transferred by the Group, liabilities assumed by the Group to the former owners of the acquiree and the equity interests issued by the Group in exchange for control of the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree that are present ownership interests and entitle their holders to a proportionate share of net assets in the event of liquidation at fair value or at the proportionate share of the acquiree's identifiable net assets. All other components of noncontrolling interests are measured at fair value. Acquisition-related costs are expensed as incurred.

倘本公司直接或間接擁有的被投資方投票 權或類似權利不及大半,則評估本公司對 被投資方是否擁有權力時,本集團會考慮 所有相關事實及情況,包括:

- (a) 與該被投資方其他投票權擁有人的 合約安排;
- 根據其他合約安排所享有的權利; (b) 及
- 本集團的投票權及潛在投票權。 (C)

附屬公司業績按已收及應收股息計入本公 司收益表。本公司於附屬公司之投資,如 非根據香港財務報告準則第5號*持作出售* 非流動資產及已終止營運分類,按成本值 減任何減值虧損列賬。

#### 業務合併及商譽

業務合併乃以購買法入賬。轉讓代價乃以 收購日期之公平值計量,該公平值為本集 團轉讓之資產、本集團對收購對象前擁有 人承擔之負債及本集團為換取收購對象控 制權所發行股本權益於收購日期之公平值 之總和。於各業務合併中,本集團選擇是 否以公平值或收購對象可識別資產淨值之 應佔比例,計量於收購對象之非控股權 益,即於收購對象中賦予持有人在清盤時 按比例分佔資產淨值之現有所有權權益。 非控股權益之所有其他部分乃按公平值計 量。收購成本於產生時列為開支。

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Business combinations and goodwill (Continued)

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts of the acquiree.

If the business combination is achieved in stages, the previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of HKAS 39 is measured at fair value with changes in fair value either recognised in profit or loss or as a change to other comprehensive income. If the contingent consideration is not within the scope of HKAS 39, it is measured in accordance with the appropriate HKFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred, the amount recognised for non-controlling interests and any fair value of the Group's previously held equity interests in the acquiree over the identifiable net assets acquired and liabilities assumed. If the sum of this consideration and other items is lower than the fair value of the net assets acquired, the difference is, after reassessment, recognised in profit or loss as a gain on bargain purchase.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The Group performs its annual impairment test of goodwill as at 31 March. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

#### 主要會計政策概要(續)

#### 業務合併及商譽(續)

當本集團收購一項業務時,會根據合約條 款、於收購日之經濟環境及相關狀況,評 估將承接之金融資產及負債,以作出適當 分類及標示,包括分離收購對象所訂主合 約中的嵌入式衍生工具。

倘業務合併分階段進行,先前持有的股本 權益於收購日之公平值會重新計算,得出 的任何損益於損益內確認入賬。

由收購方轉讓之任何或然代價按收購日期 之公平值確認。或然代價(分類為屬金融 工具且歸入香港會計準則第39號之範疇的 一項資產或負債)乃按公平值計量,公平 值變動於損益確認或確認為其他全面收益 的變動。倘或然代價不屬香港會計準則第 39號之範疇,則其將根據適用之香港財務 報告準則計量。分類為權益的或然代價不 會重新計量,其後結算於權益內入賬。

商譽初步按成本計量,即已轉讓代價、已 確認為非控股權益之金額及本集團過往持 有收購對象股本權益之公平值總額,超出 所收購可識別資產淨值及所承擔負債之差 額。如該代價及其他項目之總和低於所收 購資產淨值之公平值,則差額經重新評估 後於損益賬確認為議價收購收益。

於初步確認後, 商譽按成本減任何累計減 值虧損計量。商譽須每年進行減值測試, 或當有事件發生或情況改變顯示賬面值有 可能減值時,則會更頻密地進行檢測。本 集團於三月三十一日為商譽進行年度減值 測試。為進行減值測試,於業務合併中購 入之商譽自收購當日被分配至預期可從合 併產生之協同效益中獲益之本集團各現金 產生單位或現金產生單位組別, 而不論本 集團其他資產或負債是否已分配至該等單 位或單位組別。

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Business combinations and goodwill (Continued)

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cashgenerating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Where goodwill has been allocated to a cash-generating unit (or group of cash-generating units) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on the disposal. Goodwill disposed of in these circumstances is measured based on the relative value of the operation disposed of and the portion of the cash-generating unit retained.

#### Fair value measurement

The Group measures its derivative financial instruments at fair value at the end of each reporting period. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

#### 主要會計政策概要(續)

#### 業務合併及商譽(續)

減值乃透過評估與商譽有關之現金產生單 位(或現金產生單位組別)之可收回金額釐 定。當現金產生單位(或現金產生單位組 別)之可收回金額低於賬面值時,將確認 減值虧損。已就商譽確認之減值虧損不得 於未來期間撥回。

倘商譽被分配至現金產生單位(或現金產 生單位組別)而隸屬該單位之部分業務已 被出售,則在釐定出售有關業務所得盈虧 時,與所出售業務相關之商譽會計入該業 務之賬面值。在該等情況下出售之商譽, 乃根據所出售業務及所保留現金產生單位 部分之相對價值進行計量。

#### 公平值計量

本集團於各報告期末按公平值計量其衍生 金融工具。公平價值為市場參與者於計量 日期在有序交易中出售資產所收取的價格 或轉讓負債所支付的價格。公平價值計量 乃根據假設出售資產或轉讓負債的交易於 資產或負債主要市場或(在無主要市場前 況下)最具優勢市場進行而作出。主要及 最具優勢市場須為本集團可進入之市場。 資產或負債的公平價值乃按假設市場參與 者於資產或負債定價時會以最佳經濟利益 行事計量。

非金融資產的公平值計量須計及市場參與 者能使用該資產達致最佳用途及最高增 值,或將該資產出售予使用該資產達致最 佳用途及最高增值的其他市場參與者,所 產生的經濟效益。

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Fair value measurement (Continued)

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 based on quoted prices (unadjusted) in active markets for identical assets or liabilities Level 2 – based on valuation techniques for which the
- lowest level input that is significant to the fair value measurement is observable, either directly or indirectly
- Level 3 based on valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### Impairment of non-financial assets

Where an indication of impairment exists, or when annual impairment testing for an asset is required (other than inventories, financial assets and goodwill), the asset's recoverable amount is estimated. An asset's recoverable amount is the higher of the asset's or cash-generating unit's value in use and its fair value less costs of disposal, and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is determined for the cash-generating unit to which the asset belongs.

#### 主要會計政策概要(續)

#### 公平值計量(續)

本集團採納適用於不同情況且具備充分數 據以供計量公平值的估值方法,以盡量使 用相關可觀察輸入數據及盡量減少使用不 可觀察輸入數據。

所有於財務報表計量或披露公平值的資產 及負債乃基於對公平值計量整體而言屬重 大的最低級別輸入數據按以下公平值等級 分類:

- 第一級 於活躍市場中相同資產或 負債取得之報價(未經調 整);
- 第二級 以對公平值計量屬重大的 最低級別輸入數據可直接 或間接觀察的估值方法;
- 第三級 以對公平值計量屬重大的 最低級別輸入數據不可觀 察的估值方法。

就按經常性基準於財務報表確認的資產及 負債而言,本集團透過於各報告期末重新 評估分類(基於對公平值計量整體而言屬 重大的最低級別輸入數據)確定是否發生 不同等級轉移。

#### 非金融資產減值

倘出現減值跡象或有需要就資產進行年度 減值測試(存貨、金融資產及商譽除外), 則會估計該資產的可收回金額。資產的可 收回金額乃資產或現金產生單位的使用價 值及其公平值減出售成本之較高者,並釐 定為個別資產,除非該項資產所產生現金 流入不能大致獨立於其他資產或資產組別 的現金流入,於此情況下,可收回金額則 按資產所屬現金產生單位釐定。

(31 March 2015) (二零一五年三月三十一日)

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Impairment of non-financial assets (Continued)

An impairment loss is recognised only if the carrying amount of an asset exceeds its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. An impairment loss is charged to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, in which case the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

An assessment is made at the end of each reporting period as to whether there is an indication that previously recognised impairment losses may no longer exist or may have decreased. If such an indication exists, the recoverable amount is estimated. A previously recognised impairment loss of an asset other than goodwill is reversed only if there has been a change in the estimates used to determine the recoverable amount of that asset, but not to an amount higher than the carrying amount that would have been determined (net of any depreciation/amortisation) had no impairment loss been recognised for the asset in prior years. A reversal of such an impairment loss is credited to the income statement in the period in which it arises, unless the asset is carried at a revalued amount, in which case the reversal of the impairment loss is accounted for in accordance with the relevant accounting policy for that revalued asset.

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4

#### POLICIES (Continued)

**Property, plant and equipment and depreciation** (Continued)

Depreciation is calculated on the straight-line basis to write off the cost or valuation of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

Leasehold land under finance	Over the lease terms
leases	
Buildings	Over the lease terms
Leasehold improvements	Over the shorter of the lease terms or
	20%
Plant and machinery	10% to 20%
Furniture, fixtures, equipment	20%
and motor vehicles	

Where parts of an item of property, plant and equipment have different useful lives, the cost or valuation of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the income statement in the year the asset is derecognised is the difference between the net sale proceeds and the carrying amount of the relevant asset.

Construction in progress represents a building under construction, which is stated at cost less any impairment losses, and is not depreciated. Cost comprises the direct costs of construction and capitalised borrowing costs on related borrowed funds during the period of construction. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for use.

# 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Leases

Leases that transfer substantially all the rewards and risks of ownership of assets to the Group, other than legal title, are accounted for as finance leases. At the inception of a finance lease, the cost of the leased asset is capitalised at the present value of the minimum lease payments and recorded together with the obligation, excluding the interest element, to reflect the purchase and financing. Assets held under capitalised finance leases, including prepaid land lease payments under finance leases, are included in property, plant and equipment, and depreciated over the shorter of the lease terms and the estimated useful lives of the assets. The finance costs of such leases are charged to the income statement so as to provide a constant periodic rate of charge over the lease terms.

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Where the Group is the lessor, assets leased by the Group under operating leases are included in non-current assets, and rentals receivable under the operating leases are credited to the income statement on the straight-line basis over the lease terms. Where the Group is the lessee, rentals payable under operating leases net of any incentives received from the lessor are charged to the income statement on the straight-line basis over the lease terms.

Prepaid land lease payments under operating leases are initially stated at cost and subsequently recognised on the straight-line basis over the lease terms.

#### Investments and other financial assets Initial recognition and measurement

Financial assets are classified, at initial recognition, as financial assets at fair value through profit or loss, loans and receivables and available-for-sale financial investments, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

#### 租賃

凡將資產絕大部分回報及風險擁有權(法 定業權除外)轉歸本集團之租賃,均列為 融資租賃。於融資租賃生效時,租賃資產 成本按最低租金付款現值撥充資本化,並 連同有關承擔(不包括利息部分)入賬,以 反映有關購買及融資。經撥充資本融資租 賃持有之資產(包括融資租賃之預付土地 租賃款項)計入物業、廠房及設備,按該 項資產之租期與估計可使用年期之較短者 折舊。此等租賃之融資成本自收益表扣 除,以在租期內達致穩定的定期支銷率。

資產絕大部分回報及風險擁有權仍歸出租 人所有之租賃列為經營租賃。倘本集團為 出租人,本集團根據經營租賃出租的資產 計入非流動資產,而根據經營租賃應收之 租金乃按租期以直線法計入收益表。倘本 集團為承租人,根據經營租賃應付之租金 (扣除已收出租人的任何優惠)按租期以直 線法自收益表扣除。

經營租賃之預付土地租賃款項初始按成本 列賬,其後則按租期以直線法確認。

#### 投資及其他金融資產 *初始確認及計量*

金融資產於初始確認時分類為按公平值計 入損益金融資產、貸款及應收款項、可供 出售金融投資或衍生工具分類為指定作有 效對沖中的對沖工具(如適用)。金融資產 初始確認時,以公平值加上收購金融資產 應佔之交易成本計量,惟金融資產按公平 值計入損益除外。

正常情況下買入及出售之金融資產於交易 日(即本集團承諾購買或出售資產之日)確 認。正常情況下買入或出售指於規例或市 場慣例一般設定之期間內交付之買入或出 售的金融資產。

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Investments and other financial assets (Continued) Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such assets are subsequently measured at amortised cost using the effective interest rate method less any allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and includes fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in other income in the income statement. The loss arising from impairment is recognised in the income statement in finance costs for loans.

#### Available-for-sale financial investments

Available-for-sale financial investments are non-derivative financial assets in listed and unlisted equity investments and debt securities. Equity investments classified as available for sale are those which are neither classified as held for trading nor designated as at fair value through profit or loss. Debt securities in this category are those which are intended to be held for an indefinite period of time and which may be sold in response to needs for liquidity or in response to changes in market conditions.

After initial recognition, available-for-sale financial investments are subsequently measured at fair value, with unrealised gains or losses recognised as other comprehensive income in the available-for-sale investment revaluation reserve until the investment is derecognised, at which time the cumulative gain or loss is recognised in the income statement in other income, or until the investment is determined to be impaired, when the cumulative gain or loss is reclassified from the available-for-sale investment revaluation reserve to the income statement in other gains or losses. Interest and dividends earned whilst holding the available-for-sale financial investments are reported as interest income and dividend income, respectively and are recognised in the income statement as other income in accordance with the policies set out for "Revenue recognition" below.

When the fair value of unlisted equity investments cannot be reliably measured because (a) the variability in the range of reasonable fair value estimates is significant for that investment or (b) the probabilities of the various estimates within the range cannot be reasonably assessed and used in estimating fair value, such investments are stated at cost less any impairment losses.

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Investments and other financial assets (Continued) Available-for-sale financial investments (Continued)

The Group evaluates whether the ability and intention to sell its available-for-sale financial assets in the near term are still appropriate. When, in rare circumstances, the Group is unable to trade these financial assets due to inactive markets, the Group may elect to reclassify these financial assets if management has the ability and intention to hold the assets for the foreseeable future or until maturity.

For a financial asset reclassified from the available-for-sale category, the fair value carrying amount at the date of reclassification becomes its new amortised cost and any previous gain or loss on that asset that has been recognised in equity is amortised to income statement over the remaining life of the investment using the effective interest rate. Any difference between the new amortised cost and the maturity amount is also amortised over the remaining life of the asset using the effective interest rate. If the asset is subsequently determined to be impaired, then the amount recorded in equity is reclassified to the income statement.

#### **Derecognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- the rights to receive cash flows from the asset have expired; or
- the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

#### 投資及其他金融資產(續) 可供出售的金融資產(續)

本集團會評估其可供出售的金融資產,以 評估於近期出售的能力和意向是否仍然合 適。在較罕有的情況下,當市場不活躍導 致本集團無法買賣該等金融資產,如果管 理層有能力及有意在可見將來持有有關資 產或持有其至到期日,本集團可能選擇將 該等金融資產重新分類。

有關從可供出售類別重新分類的金融資 產,其於重新分類日期的公平值賬面金額 成為其新的攤銷成本,之前在權益中確認 的任何資產損益會在投資剩餘年期以實際 利率法攤銷至收益表。新的攤銷成本與到 期金額兩者之間的任何差額亦會在資產剩 餘年期以實際利率法攤銷。如果資產其後 確定已經減值,則記錄在權益的金額會重 新分類至收益表。

#### 剔除確認金融資產

金融資產(或(如適用)一項金融資產的一 部分或一組相若金融資產的一部分)在下 列情況將被剔除確認(即從本集團的綜合 財務狀況表中剔除):

- 收取該項資產所得現金流量的權利 經已屆滿;或
- 本集團已轉讓其收取該項資產所得 現金流量的權利,或已根據一項 「轉付」安排,承擔在沒有重大延誤 的情況下,向第三方全數支付已收 現金流量的義務;且(a)本集團已轉 讓該項資產的絕大部分風險及回 報;或(b)本集團並未轉讓或保留該 項資產絕大部分風險及回報,但已 轉讓該項資產的控制權。

(31 March 2015) (二零一五年三月三十一日)

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Derecognition of financial assets (Continued)

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risk and rewards of ownership of the asset. When it has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of the Group's continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

#### Impairment of financial assets

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or a group of financial assets is impaired. An impairment exists if one or more events that occurred after the initial recognition of the asset have an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include indications that a debtor or a group of debtors is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that they will enter bankruptcy or other financial reorganisation and observable data indicating that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

#### **剔除確認金融資產**(續)

當本集團已轉讓其收取該項資產所得現金 流量的權利或訂立轉付安排,會評估是否 保留該資產所有權的風險和回報以及保留 的程度。當本集團並未轉讓或保留該項資 產的絕大部分風險及回報,且並未轉讓該 項資產的控制權,該項轉讓資產將按本集 團持續參與程度而持續確認。在該情況 下,本集團亦確認相關負債。已轉讓資產 及相關負債按可反映本集團所保留權利及 責任的基準計量。

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4

#### **POLICIES** (Continued)

#### Impairment of financial assets (Continued) Financial assets carried at amortised cost

For financial assets carried at amortised cost, the Group first assesses whether impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognised are not included in a collective assessment of impairment.

The amount of any impairment loss identified is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate (i.e., the effective interest rate computed at initial recognition).

The carrying amount of the asset is reduced through the use of an allowance account and the loss is recognised in the income statement. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. Loans and receivables together with any associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or has been transferred to the Group.

If, in a subsequent period, the amount of the estimated loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a write-off is later recovered, the recovery is credited to the income statement.

#### 主要會計政策概要(續)

#### 金融資產減值(續) 按攤銷成本入賬之金融資產

就按攤銷成本列賬之金融資產而言,本集 團首先對具個別重要性之金融資產進行個 別評估,評估個別資產是否存在減值,或 對非具個別重要性之金融資產進行共同評 估。倘本集團認為經個別評估之金融資產 (無論具有重要性與否)並無存在客觀減值 證據,則會將該資產歸入一組具有相若信 貸風險特性之金融資產內,作共同評估減 值。個別評估減值及為其確認或繼續確認 減值虧損之資產,不包括在共同評估減值 之內。

任何已識別之減值虧損將會按該項資產的 賬面值與估計未來現金流量現值(不包括 未產生的未來信貸虧損)的差額計量。估 計未來現金流量現值會按金融資產的原實 際利率(即初始確認時的計算實際利率)折 現。

資產的賬面值透過使用撥備賬戶扣減,而 有關虧損金額則在收益表中確認。利息收 入在減少的賬面值中按以計算有關減值損 失時所採用以貼現未來現金流量的利率持 續累計。當預期不可於日後收回並所有抵 押品已經變現或已轉入本集團時,貸款及 應收款項連同相關撥備予以撇銷。

於隨後期間,若在減值確認後發生一個事 項令估計虧損金額增加或減少,則先前確 認減值虧損可透過調整撥備賬戶予以增加 或減少。若撇銷隨後收回,收回金額計入 收益表。

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4

### POLICIES (Continued)

#### **Impairment of financial assets** (Continued) Available-for-sale financial investments

For available-for-sale financial investments, the Group assesses at the end of each reporting period whether there is objective evidence that an investment or a group of investments is impaired.

If an available-for-sale asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current fair value, less any impairment loss previously recognised in the income statement, is removed from other comprehensive income and recognised in the income statement.

In the case of equity investments classified as available for sale, objective evidence would include a significant or prolonged decline in the fair value of an investment below its cost. "Significant" is evaluated against the original cost of the investment and "prolonged" against the period in which the fair value has been below its original cost. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the income statement – is removed from other comprehensive income and recognised in the income statement. Impairment losses on equity instruments classified as available for sale are not reversed through the income statement. Increases in their fair value after impairment are recognised directly in other comprehensive income.

The determination of what is "significant" or "prolonged" requires judgement. In making this judgement, the Group evaluates, among other factors, the duration or extent to which the fair value of an investment is less than its cost.

### **金融資產減值**(續)

#### 可供出售的金融資產

有關可供出售的金融資產,本集團於每一 報告期末對是否有客觀證據表明投資或投 資組發生減值做出評估。

如果可供出售的資產發生減值,則將按其 成本(減去已償還的本金和攤銷額)與當前 公平值之間的差額減去任何以前在收益表 中確認的減值虧損所得的金額,從其他全 面收益轉出,並在收益表內確認。

在分類為可供出售的權益投資的情況下, 客觀證據包括投資公平值大幅或長期跌至 低於成本。「大幅」會因應投資原成本評 估,而「長期」會考慮公平值低於其原成本 的時間。如果存在減值證據,累積虧損 (按收購成本與當時公平值兩者之間的差 額,減投資先前在收益表內確認的減值虧 損計量)會從其他全面收益轉出,並在收 益表內確認。分類為可供出售的權益工具 發生的減值虧損不得在收益表轉回。其公 平值如果在減值後增加,會直接在其他全 面收益中確認。

決定何謂「大幅」或「長期」,需運用判斷。 為作此判斷,本集團評估多項因素,包括 投資項目公平值低於成本的期限或幅度。

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4

### POLICIES (Continued)

### Financial liabilities

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Group's financial liabilities include accounts payable, other payables, interest-bearing bank borrowings and derivative financial instruments.

#### Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

#### Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are acquired for the purpose of repurchasing in the near term. This category includes derivative financial instruments entered into by the Group that are not designated as hedging instruments in hedge relationships as defined by HKAS 39. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the income statement. The net fair value gain or loss recognised in the income statement does not include any interest charged on these financial liabilities.

Financial liabilities designated upon initial recognition as at fair value through profit or loss are designated at the date of initial recognition and only if the criteria in HKAS 39 are satisfied.

#### 金融負債 初始確認及計量

金融負債於初始確認時分類為以公平值計 入損益的金融負債、貸款及借款,或衍生 工具指定為有效對沖中的對沖工具(如適 用)。

全部金融負債初始確認時按公平值計量, 而如屬貸款及借款,則扣除直接應佔交易 成本。

本集團的金融負債包括應付賬款、其他應付款項、計息銀行貸款及衍生金融工具。

#### 後續計量

金融負債的後續計量視乎其如下分類而 定:

#### 按公平值計入損益的金融負債

透過損益按公平值列賬之金融負債包括持 作買賣之金融負債和初始確認指定為以公 平值計入損益之金融負債。

若購買該金融負債的目的是為了於近期購 回,則分類為持作交易用途。此分類包括 本集團所擁有的衍生金融工具,但並不是 香港會計准則第39號所定義的對沖工具。 獨立嵌入衍生工具也分類為持作交易用 途,除非他們被設計成為有效的對沖工 具。持作交易用途的利得或損失確認在收 益表中。在收益表確認的公平值變動淨損 益不包括任何金融負債的相關利息。

只有符合香港會計准則第39號的規定時, 方可在初始確認時指定為透過損益按公平 值列賬之金融負債。

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4

#### POLICIES (Continued) Financial liabilities (Continued) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost, using the effective interest rate method unless the effect of discounting would be immaterial, in which case they are stated at cost. Gains and losses are recognised in the income statement when the liabilities are derecognised as well as through the effective interest rate amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. The effective interest rate amortisation is included in finance costs in the income statement.

#### **Derecognition of financial liabilities**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled, or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and a recognition of a new liability, and the difference between the respective carrying amounts is recognised in the income statement.

#### **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

## Derivative financial instruments and hedge accounting

#### Initial recognition and subsequent measurement

The Group uses derivative financial instruments, such as foreign currency forward contracts, to hedge its foreign currency risk. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

#### **金融負債**(續) *貸款與借貸*

計息貸款貸款與借貸於初步計量後,後續 計量採用實際利率法按攤銷成本,除非貼 現影響不大,則按成本列賬。負債剔除確 認後,以及按實際利率法攤銷時,在收益 表確認損益。

計算攤銷成本時,應考慮購買時的任何折 價或溢價,且包括作為實際利率不可或缺 部分的費用或成本。實際利率法攤銷額在 收益表內列為融資成本。

#### 剔除確認金融負債

倘負債項下之責任已履行或取消或屆滿, 將會剔除確認金融負債。

倘現有金融負債由同一貸款人以含有重大 不同條款的另一項金融負債取代,或現有 負債條款經大幅修訂,則有關轉換或修訂 視作剔除確認原有負債及確認新的負債, 而有關賬面值間之差額則於收益表確認。

#### 金融工具的抵銷

當目前有強制執行的法律權力要求抵銷已 確認金額並有意以淨額結算或同時變現資 產及償還負債時,金融資產和金融負債可 抵銷並按淨值列報於財務狀況表內。

#### 衍生金融工具及對沖會計處理

#### 初步確認及後續計量

本集團使用遠期貨幣合約等衍生金融工具 對沖外匯風險。有關衍生金融工具初步按 訂立衍生合約之日的公平值確認,隨後按 公平值重新計量。當公平值為正值時,衍 生工具將被列為資產,當公平值為負值 時,則被列為負債。

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

## Derivative financial instruments and hedge accounting (Continued)

## Initial recognition and subsequent measurement (Continued)

Any gains or losses arising from changes in fair value of derivatives are taken directly to the income statement, except for the effective portion of cash flow hedges, which is recognised in other comprehensive income and later reclassified to profit or loss when the hedged item affects profit or loss.

#### Current versus non-current classification

Derivative instruments that are not designated as effective hedging instruments are classified as current or non-current or separated into current and non-current portions based on an assessment of the facts and circumstances (i.e., the underlying contracted cash flows).

- Where the Group expects to hold a derivative as an economic hedge (and does not apply hedge accounting) for a period beyond 12 months after the end of the reporting period, the derivative is classified as non-current (or separated into current and non-current portions) consistently with the classification of the underlying item.
- Embedded derivatives that are not closely related to the host contract are classified consistently with the cash flows of the host contract.
- Derivative instruments that are designated as, and are effective hedging instruments, are classified consistently with the classification of the underlying hedged item. The derivative instruments are separated into current portions and non-current portions only if a reliable allocation can be made.

#### Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on the first-in, first-out basis and, in the case of work in progress and finished goods, comprises direct materials, direct labour and an appropriate proportion of overheads. Net realisable value is based on estimated selling prices less any estimated costs to be incurred to completion and disposal.

#### **Cash and cash equivalents**

For the purpose of the consolidated statement of cash flows, cash and cash equivalents comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and cash equivalents comprise cash on hand and at banks, including term deposits, which are not restricted as to use.

#### **Provisions**

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the income statement.

#### **Income tax**

Income tax comprises current and deferred tax. Income tax relating to items recognised outside profit or loss is recognised outside profit or loss, either in other comprehensive income or directly in equity.

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period, taking into consideration interpretations and practices prevailing in the countries in which the Group operates.

Deferred tax is provided, using the liability method, on all temporary differences at the end of the reporting period between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

#### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### **Income tax** (Continued)

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of taxable temporary differences associated with investments in subsidiaries, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carryforward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, the carryforward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred tax asset relating to the deductible temporary differences arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; and
- in respect of deductible temporary differences associated with investments in subsidiaries, deferred tax assets are only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at the end of each reporting period and are recognised to the extent that it has become probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be recovered.

## 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 POLICIES (Continued)

#### Income tax (Continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

#### **Government grants**

Government grants, including a subsidy for the expenditure incurred in the construction cost of an infrastructure project, are recognised at their fair value where there is reasonable assurance that the grant will be received and all attaching conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the costs, which it is intended to compensate, are expensed. Where the grant relates to an asset, the fair value is deducted from the carrying amount of the asset and released to the income statement by way of a reduced depreciation charge.

#### **Revenue recognition**

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue can be measured reliably, on the following bases:

- (i) from the sale of goods and samples, when the significant risks and rewards of ownership have been transferred to the buyer, provided that the Group maintains neither managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold; and
- (ii) interest income, on an accrual basis using the effective interest method by applying the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, when appropriate, to the net carrying amount of the financial asset.

#### **所得税**(續)

遞延税項資產及負債乃根據於報告期末實 施或實質實施之税率(及税法),按預期於 變現資產或清償負債期間適用之税率計 算。

倘存在容許將即期税項資產抵銷即期税項 負債的合法可執行權利,且遞延税項與同 一應課税實體及同一税務機關有關,則遞 延税項資產可與遞延税項負債抵銷。

#### 政府補助

政府補助(包括基建項目建築成本產生的 開支補貼)在合理確保可收取及符合政府 補助所附條件的情況下,按其公平值予以 確認。當補助涉及開支項目,則以有系統 方式分多段期間確認為收入,以抵銷擬作 補償的預期成本。當補助涉及資產,有關 公平值則從資產的賬面值扣減,並利用已 扣減折舊開支方式在收益表內扣除。

#### 收入確認

- (i) 貨物及樣辦之銷售:當擁有權的絕 大部分風險及回報已轉讓予買方, 本集團不再參與一般與擁有權有關 之管理,亦不再對已售出貨物有實 際控制權;及

#### SUMMARY OF SIGNIFICANT ACCOUNTING 2.4 2.4

#### POLICIES (Continued) **Employee benefits Defined contribution plan**

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for those employees who are eligible to participate in the MPF Scheme. Contributions are made based on a percentage of the employees' basic salaries and are charged to the income statement as they become payable in accordance with the rules of the MPF Scheme. The assets of the MPF Scheme are held separately from those of the Group in an independently administered fund. The Group's employer contributions vest fully with the employees when contributed into the MPF Scheme.

In addition, the Group operates a defined contribution retirement benefit scheme (the "Retirement Scheme") for those employees who are eligible to participate in the Retirement Scheme. Contributions to the Retirement Scheme are charged to the income statement as incurred. The Retirement Scheme operates in a similar way to the MPF Scheme, except that when an employee leaves the Retirement Scheme before his/her interest in the Group's employer contributions vests fully, the ongoing contributions payable by the Group are reduced by the relevant amount of the forfeited employer contributions

The employees of the Group's subsidiaries which operate in Mainland China are required to participate in a central pension scheme operated by the local municipal government. These subsidiaries are required to contribute a certain percentage of their payroll costs to the central pension scheme for their employees who are registered as permanent residents in Mainland China. The contributions are charged to the income statement as they become payable in accordance with the rules of the central pension scheme.

#### Defined benefit plan

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit actuarial valuation method

Remeasurements arising from a defined benefit pension plan, comprising actuarial gains and losses, the effect of the asset ceiling (excluding net interest) and the return on plan assets (excluding net interest), are recognised immediately in the consolidated statement of financial position with a corresponding debit or credit to retained profits through other comprehensive income in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

本集團在中國大陸所經營附屬公司之僱員 須參加由當地市政府推行的中央退休金計 劃。有關附屬公司須就中央退休金計劃向 登記為中國大陸永久居民之僱員作出相當 於支薪成本若干百分比之供款。有關供款 在根據中央退休金計劃之規定應付供款時 自收益表扣除。

### 2.4 SUMMARY OF SIGNIFICANT ACCOUNTING 2.4

POLICIES (Continued) Employee benefits (Continued) Defined benefit plan (Continued)

Past service costs are recognised in profit or loss at the earlier of:

- the date of the plan amendment or curtailment; and
- the date that the Group recognises restructuring-related costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Group recognises the following changes in the net defined benefit obligation under "cost of sales" and "administrative expenses" in the income statement by function:

- service costs comprising current service costs, past service costs, gains and losses on curtailments and non-routine settlements; and
- net interest expense or income.

#### **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, i.e., assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. The capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs capitalised. All other borrowing costs are expensed in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

#### **Foreign currencies**

These financial statements are presented in Hong Kong dollars, which is the Company's functional and presentation currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the income statement.

#### Foreign currencies (Continued)

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on retranslation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value gain or loss is recognised in other comprehensive income or income statement is also recognised in other comprehensive income or income statement, respectively).

The functional currencies of certain overseas subsidiaries are currencies other than the Hong Kong dollar. As at the end of the reporting period, the assets and liabilities of these entities are translated into the presentation currency of the Company at the exchange rates prevailing at the end of the reporting period and their income statements are translated into Hong Kong dollars at the weighted average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the income statement.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENT 3. AND ESTIMATES

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, their accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

### 重要會計判斷及估計

編製本集團的財務報表時,管理層須作出 會影響所呈報收入、開支、資產及負債的 報告金額、其相應的披露資料及或然負債 披露的判斷、估計及假設。由於有關假設 和估計的不確定因素,可導致須就未來受 影響的資產或負債賬面值作出重大調整。

(31 March 2015) (二零一五年三月三十一日)

# 3. SIGNIFICANT ACCOUNTING JUDGEMENT AND 3. ESTIMATES (Continued)

#### Judgement

In the process of applying the Group's accounting policies, management has made the following judgement, apart from those involving estimations, which has the most significant effect on the amounts recognised in the financial statements:

#### Impairment of assets

In determining whether an asset is impaired or whether the event previously causing the impairment no longer exists, the Group has to exercise judgement in the area of asset impairment, particularly in assessing: (1) whether an event has occurred that may affect the asset value, or such an event affecting the asset value has not been in existence; (2) whether the carrying value of an asset can be supported by the net present value of future cash flows, which are estimated based upon the continued use of the asset; and (3) the appropriate key assumptions to be applied in preparing cash flow projections including whether these cash flow projections are discounted using an appropriate rate. Changing the assumptions selected by management to determine the level of impairment, including the discount rates or the growth rate assumptions in the cash flow projections, could have a material effect on the net present value used in the impairment test.

#### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

#### Useful lives and residual values of items of property, plant and equipment

In determining the useful lives and residual values of items of property, plant and equipment, the Group has to consider various factors, such as technical or commercial obsolescence arising from changes or improvements in production, or from a change in the market demand for the product or service output of the asset, expected usage of the asset, expected physical wear and tear, the care and maintenance of the asset, and legal or similar limits on the use of the asset. The estimation of the useful life of the asset is based on the experience of the Group with similar assets that are used in a similar way. Additional depreciation is made if the estimated useful lives and/or the residual values of items of property, plant and equipment are different from previous estimation. Useful lives and residual values are reviewed at each financial year end date based on changes in circumstances.

#### **重要會計判斷及估計**(續)

#### 判斷

於應用本集團會計政策時,除該等涉及估 計外,管理層曾作出下列對財務報表已確 認金額影響最重要判斷:

#### 資產減值

釐定資產是否減值或過往導致減值事項是 否不再存在時,本集團須就資產減值作出 判斷,尤其需要評估:(1)有否發生可影響 資產價值之事項,或影響資產價值之事項 是否仍然存在:(2)資產之賬面值能否以根 據持續使用資產估計之未來現金流量現值 淨額支持;及(3)預測未來現金流量時所 採用適合的重要假設,包括該等現金流量 預測是否以適用比率貼現。倘改變管理層 用以確定減值程度之假設(包括現金流量 預測中採用之貼現率或增長率假設),或 會對減值測試中使用的淨現值產生重大影 響。

#### 估計之不確定性

下文論述於報告期末極可能導致本集團之 資產與負債賬面值在下一財政年度需要作 出重大調整之未來相關重要假設及導致估 計不確定性之其他重要因素。

#### *物業、廠房及設備之可使用年期及剩餘價 值*

釐定物業、廠房及設備之可使用年期及剩 餘價值時,本集團須考慮多項因素,例如 因生產變動或改進或市場對有關資產提供 之產品或服務需求有所改變而產生之技術 性或商業性過時、資產預期用途、預期自 然損耗、資產維修及保養,使用資產所受 到之法律或其他類似限制。估計資產之可 使用年期時,本集團根據經驗考慮類以用 違之估計可使用年期及/或剩餘價值與先 前估計不同,則增加折舊。可使用年期及 剩餘價值於每個財政年度結算日按情況變 化檢討。

(31 March 2015) (二零一五年三月三十一日)

94

#### 3. SIGNIFICANT ACCOUNTING JUDGEMENT 3.

#### AND ESTIMATES (Continued) Estimation uncertainty (Continued) Impairment of goodwill

The Group determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the value in use of the cash-generating units to which the goodwill is allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the cash-generating units and also to choose a suitable discount rate in order to calculate the present value of those cash flows. The carrying amount of goodwill at 31 March 2015 was HK\$26,112,000 (2014: HK\$26,112,000). Further details are given in note 17.

#### Impairment allowance for doubtful debts

The Group makes impairment allowance for doubtful debts based on an assessment of the recoverability of accounts and bills receivables. Allowances are applied to accounts and bills receivables where events or changes in circumstances indicate that the balances may not be collectible. The identification of doubtful debts requires the use of judgements and estimates. Where the actual outcome or expectation in future is different from the original estimate, such differences will have an impact on the carrying value of the receivables and doubtful debt expenses/write-back in the period in which such estimate has been changed.

#### 4. OPERATING SEGMENT INFORMATION

For management purposes, the Group determines that there are five reportable operating segments, based on the location of customers (the destination of sales), including the United States of America (the "USA"), Mainland China, Europe, Japan and others. These segments are managed separately as each segment is subject to risks and returns that are different from each other.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit, which is a measure of adjusted profit before tax. The adjusted profit before tax is measured consistently with the Group's profit before tax except that interest income and other unallocated income, fair value changes on derivative financial instruments, and unallocated expenses are excluded from such measurement.

Segment assets exclude unallocated assets as these assets are managed on a group basis.

Segment liabilities exclude unallocated liabilities as these liabilities are managed on a group basis.

#### 重要會計判斷及估計(續)

#### 估計之不確定性(續) 商譽減值

本集團最少每年釐定商譽是否有所減值。 釐定時須估計商譽所獲分配之現金產生單 位之使用價值。估計使用價值時,本集團 須估計現金產生單位所產生之預期日後現 金流量,亦須選擇合適之貼現率,以計算 該等現金流量之現值。商譽於二零一五年 三月三十一日之賬面值為26,112,000港元 (二零一四年:26,112,000港元)。進一步資 料載於附註17。

#### 呆賬減值撥備

本集團根據對應收賬款及票據之可收回性 評估就呆賬作出減值撥備。倘有事件或情 況有變顯示結餘可能無法收回時,會對應 收賬款及票據作出撥備。識別呆賬需要運 用判斷及估計。倘實際結果或未來預期與 原本估計有所出入,有關差異將對估計變 動期內之應收款項及呆賬支銷/撥回之賬 面值構成影響。

#### 4. 經營分類資料

就管理而言,本集團以客戶所在地(銷售 目的地)為基礎,確定五個可報告經營分 部,包括美國、中國大陸、歐洲、日本及 其他地區。該等分部因風險和回報有別於 其他分部而獨立分開管理。

管理層獨立監察其經營分部,以便作出有 關資源分配及表現評估的決策。分部表現 乃根據可報告分部溢利評估,而可報告分 部溢利則以經調整除税前溢利計量。經調 整除税前溢利的計量方式與本集團除税前 溢利計量方式一致,惟有關計量並不計入 利息收入、其他未編配收入及收益、衍生 金融工具公平值變動及未編配支出。

分類資產不包括未分配資產,原因是該等 資產是集體管理。

分類負債不包括未分配負債,原因是該等 負債是集體管理。

The Group's goodwill was wholly allocated to a cash-generating unit engaged in the manufacture and trading of sportswear and garments (the "Unit"). The recoverable amount of the Unit has been determined from the value in use, which is calculated with reference to cash flow projections based on a five-year period financial budget approved by senior management. The financial budgets are prepared reflecting actual and prior year performance and development expectations. The key assumptions for the cash flow projections are the budgeted gross margin which is the average gross profit margin achieved in the year immediately before budgeted years and the discount rate of 14%, which is before tax and reflects specific risks relating to the Unit. The cash flow projections are prepared based on the assumption that the cash-generating unit will have revenue based on the actual sales order amount and revenue forecasted by the head of the sales department for the first year, and then maintain a 5% growth rate thereafter. The directors believe that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the Unit to exceed the aggregate recoverable amount. Since the recoverable amount of the Unit is higher than its carrying amount, the directors consider there was no impairment of the goodwill at the end of the reporting period.

本集團之商譽全部撥歸從事運動服及成衣 生產及買賣之現金產生單位(「該單位」)。 該單位之可收回金額乃根據使用價值釐 定,而使用價值則根據由高級管理人員審 批之五年期財政預算所預測之現金流量計 算。財政預算之編算乃反映實際、過往年 度表現及預期發展。現金流量預測之主要 假設為所預算之毛利率(即緊接預算年度 前該年度所達致之平均毛利率)及貼現率 14%(乃除税前及反映與該單位有關之特定 風險)。現金流量預測根據現金產生單位 將帶來收益的假設編製,該假設乃根據實 際銷售訂單令額及銷售部主管於首年所作 的收益預測,其後維持5%收益增長率。董 事相信,任何該等假設可能合理地出現之 變動,將不會導致該單位之總賬面值超出 總可收回金額。由於該單位之可收回金額 高於其賬面值,董事認為於報告期末商譽 並無出現減值。

### 29. DEFERRED TAX LIABILITIES (Continued)

#### Group (Continued)

Pursuant to the PRC Tax Law, a 10% withholding tax is levied on dividends declared to foreign investors from the foreign investment enterprises established in Mainland China. The requirement is effective from 1 January 2008 and applies to earnings accrued after 31 December 2007. A lower withholding tax rate may be applied if there is a tax treaty between Mainland China and the jurisdiction of the foreign investors. For the Group, the applicable rates is 5% (2014: 5%). In estimating the withholding taxes on dividends expected to be distributed by those subsidiaries established in Mainland China in respect of earnings generated from 1 January 2008, the directors have made assessment based on the factors which included the dividend policy and the level of capital and working capital required for the Group's operations in the foreseeable future.

At 31 March 2015, there were no significant unrecognised deferred tax liabilities (2014: Nil) for withholding taxes that would be payable on the unremitted earnings of the Company's subsidiaries expected to be distributed, after considering the above mentioned factors, in the foreseeable future.

As at 31 March 2015, no tax loss was arising from Hong Kong as the Group has utilised tax losses of HK\$55,000 during the year. As at 31 March 2014, the Group had tax losses arising in Hong Kong of HK\$55,000 that were available indefinitely for offsetting against future taxable profits of the company in which the tax losses arose. The Group has estimated tax losses arising in Mainland China and Indonesia of HK\$107,623,000 (2014: HK\$119,890,000) and HK\$33,959,000 (2014: HK\$41,076,000), respectively, that will expire in five years for offsetting against future taxable profits. Deferred tax assets have not been recognised in respect of those losses as the directors consider that it is uncertain whether sufficient taxable profits will be available against which the tax losses can be utilised. There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

### 37. FINANCIAL RISK MANAGEMENT OBJECTIVES 37. AND POLICIES

The Group's principal financial instruments comprise interest-bearing bank borrowings, and cash and cash equivalents. The main purpose of these financial instruments is to raise finance for the Group's operations. The Group has various other financial assets and liabilities such as accounts and bills receivables, other receivables, available-forsale investments, cash and cash equivalents, accounts payable, other payables, derivative financial instruments, and interest-bearing bank borrowings which arise directly from its operations.

The Group also enters into derivative transactions, including foreign currency forward contracts. The purpose of such contracts is to manage the currency risks arising from the Group's operations and its sources of finance.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, liquidity risk and credit risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

#### **Interest rate risk**

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's interest-bearing bank borrowings with floating interest rates.

The Group regularly reviews and monitors the floating interest rate borrowings in order to manage its interest rate risk. The interestbearing bank borrowings, and cash and cash equivalents are stated at amortised cost and not revalued on a periodic basis. Floating rate interest income and expenses are credited/charged to the income statement as earned/incurred.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's net profit (through the impact on floating rate borrowings).

#### 財務風險管理之目標及政策

本集團的主要金融工具包括計息銀行貸款 及現金及現金等值項目。該等金融工具之 主要目的為籌集本集團營運所需資金。本 集團擁有應收賬款及票據、其他應收款 項、可供出售投資、現金及現金等值項 目、應付賬款、其他應付款項、衍生金融 工具及計息銀行貸款等各種其他金融資產 及負債,乃於其營運時直接產生。

131

本集團也會訂立衍生工具交易,包括遠期 外幣合約。訂立該等合約的目的是管理本 集團業務產生的外匯風險及其融資來源。

本集團金融工具之主要風險乃來自利率風 險、外匯風險、流動資金風險及信貸風 險。董事會審閱並協定管理各項有關風險 之政策,概述如下:

#### 利率風險

本集團所承受之市場利率變動風險主要與 本集團按浮動利率計息的銀行借貸有關。

本集團定期審查及監察浮息借貸以管理其 利率風險。計息銀行貸款、現金及現金等 值項目按攤銷成本入賬,而不會定期重 估。浮息收入及支出於收益表按已賺取/ 已產生予以進賬/扣除。

下表顯示倘所有其他變量保持不變,本集 團純利(因浮息借貸影響)對利率之合理可 能變動的敏感性。

#### **Foreign currency risk**

The Group has transactional currency exposures. Such exposures arise as a substantial portion of sales or purchases transactions are conducted by the Group's subsidiaries operating units in United States Dollars ("US\$") and RMB. As the foreign currency risks arising from the sales and purchases can be set off with each other given that the Hong Kong dollars are pegged to US\$, the Group believes its exposure to exchange rate risk in relation to transactions denominated in US\$ is minimal. It is the policy of the Group to continue maintaining the balance of its sales and purchases in the same currency. Considering the appreciation of RMB, the Group has entered into foreign currency forward contracts to manage the foreign currency risk arising from the Group's operations. As the functional currency of the PRC subsidiaries is RMB and the Group's financial statements are reported in Hong Kong dollars, there will be a translation credit/(debit) to the exchange fluctuation reserve as a result of RMB appreciation/(depreciation). The majority of the Group's operating assets are located in Mainland China and denominated in RMB

#### 外匯風險

本集團承受交易貨幣風險。有關風險主要 由集團附屬公司以美元(「美元」)及人民幣 進行買賣產生。由於港元與美元掛鉤,買 賣產生之外匯風險可以互相抵銷,本集團 相信其面對以美元計值之外匯風險輕微。 本集團將繼續維持以相同貨幣進行買賣 之平衡政策。考慮到人民幣升值,本集團 訂立了外幣遠期合約,以管理本集團營運 的外匯風險。由於中國附屬公司以人民幣 為功能貨幣及本集團之財務報表乃以港元 呈報,故人民幣升值/(貶值)將會產生計 入/(扣除自)匯率波動儲備的匯兑盈虧。 本集團大部分營運資產均位於中國大陸, 並以人民幣計值。

#### **Liquidity** risk

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial instruments and financial assets (e.g., accounts and bills receivables) and the projected cash flows from operations.

The Group maintains a balance between continuity of funding and flexibility through the use of interest-bearing bank borrowings and other banking facilities. The directors have reviewed the Group's working capital and capital expenditure requirements and determined that the Group has no significant liquidity risk.

#### 流動資金風險

本集團使用經常性流動資金規劃工具監察 資金短缺之風險。該項工具會考慮金融工 具及金融資產(如應收賬款及票據)之到期 情況,以及營運帶來之現金流量預測。

#### **37. FINANCIAL RISK MANAGEMENT OBJECTIVES 37. AND POLICIES** (Continued)

#### Liquidity risk (Continued)

The loan agreements contain repayment on-demand clauses giving the banks the unconditional right to call in the loans at any time and therefore, for the purpose of the above maturity profile, the bank borrowings are classified as "on demand". Notwithstanding the above clause, the directors do not believe that the loans will be called in its entirety within 12 months, and they consider that the loans will be repaid in accordance with the maturity dates as set out in the loan agreements. This evaluation was made considering: the financial position of the Group and the Company at the date of approval of the financial statements; the Group's and the Company's compliance with the loan covenants; the lack of events of default, and the fact that the Group and the Company have made all previously scheduled repayments on time.

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, was as follows:

#### 37. FINANCIAL RISK MANAGEMENT OBJECTIVES 37. 則 AND POLICIES (Continued) Credit risk 信

The Group trades only with recognised and creditworthy third parties. It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition,

receivable balances are monitored on an ongoing basis.

Since the Group trades only with recognised and creditworthy third parties, there is generally no requirement for collateral.

The credit risk of the Group's other financial assets, which comprise cash and cash equivalents and other receivables, arises from default of the counterparty, with a maximum exposure equal to the carrying amounts of these instruments.

#### **Capital management**

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of the underlying assets. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2015 and 2014.

The Group monitors capital using a current ratio, which is total current assets divided by total current liabilities. The Group's policy is to keep the current ratio above 1.
