Chairman Statement

On behalf of the board of directors (the "Board") of Huayu Expressway Group Limited (the "Company"), I am pleased to present the annual report of the Company and its subsidiaries (the "Group") for the year ended 31 December 2015.

With the downturn of the economic environment in the PRC, 2015 was challenging for the Group. The revenue of the Group dropped by 2.0% to about HK\$180.6 million for the year ended 31 December 2015. Owing to the depreciation of the value of RMB against Hong Kong dollar, the Group recorded an exchange loss of about HK\$38.6 million. In addition, due to the impact of traffic restriction in Hunan Province regarding motor vehicles, the Group re-assessed the revenue forecast and an impairment loss of about HK\$158.0 million was made to the financial statements. As a result, Group had a loss for the year of HK\$199.5 million for the year ended 31 December 2015. In view of the recent fluctuation in the value of RMB against Hong Kong dollars, subsequent to 31 December 2015, we have taken significant actions to reduce the foreign exchange risk.

The traffic of the Sui-Yue Expressway (Hunan Section) (the "Expressway") increased slightly during the year ended 31 December 2015. Monthly average traffic increased from about 347,000 vehicles of the year ended 31 December 2014 to 389,000 vehicles for the year ended 31 December 2015, of which, about 49% were heavy vehicles. Yet, the toll fee income was about 139.5 million, decreased by 2.2% from that of the year ended 31 December 2014. Transportation network improvement around the Expressway caused a slight diversion which impacted on the traffic of the Expressway. The average toll revenue per vehicles decreased from about HK\$34.2 for the year ended 31 December 2014 to about HK\$29.9 for the year ended 31 December 2015. During the year, the net cash generated from the operating activities of Group was about HK\$134.5 million.

Despite the recent slowdown in the growth of PRC economy, we are still confident about the future economic performance of PRC, especially in Hunan Province. We are optimistic about the prospect of the Expressway.

Although we currently engaged in one expressway project, our prospects are not limited to that extent. In accordance with our strategy, we will pursue other infrastructure projects in China whenever suitable opportunity arises. Apart from developing new infrastructure projects, we might also consider acquiring abandoned or half-developed infrastructure projects, as well as infrastructure projects which are already in operation, from other developers or the government, if it is commercially viable to do so. Furthermore, we will also consider extending our operation to include other prosperous business once favourable opportunity appears.

Chan Yeung Nam Chairman

Hong Kong, 31 March 2016

The traffic and the toll fee revenue of the Expressway has maintained a stable level for the year ended 31 December 2015. Due to the exceptional impairment loss of intangible asset and the exchange loss, the Group incurred a loss of about HK\$199.5 million for the year ended 31 December 2015.

REVENUE

For the year ended 31 December 2015, the Group recorded a revenue of approximately HK\$180.6 million, representing a decrease of 2.0% from that of approximately HK\$184.3 million for the year ended 31 December 2014. Total amount of toll fee revenue of the Expressway was about HK\$139.5 million, representing a decrease of 2.2% from about HK\$142.6 million for the year ended 31 December 2014. Average traffic of the Expressway was about 389,000 vehicles per month for the year ended 31 December 2015 (of which, about 49% were heavy vehicles), representing an increased of 12.1% from about 347,000 vehicles per month for the year ended 31 December 2015 (of which, about 49% were heavy vehicles), representing an increased of 12.1% from about 347,000 vehicles per month for the year ended 31 December 2014. Average toll per vehicle decreased by about 12.6% from about HK\$34.2 per vehicle for the year ended 31 December 2014 to about HK\$29.9 per vehicle for the year ended 31 December 2015. Rental income from the service area along the Expressway was about HK\$41.1 million, representing a decrease of 1.4% from about HK\$41.7 million for the year ended 31 December 2014.

GROSS PROFIT

The Group had a gross profit of HK\$106.5 million for the year ended 31 December 2015, decreased by 9.8% from about HK\$118.1 million for the year ended 31 December 2014. The decrease in gross profit was mainly attributable to the increase of staff cost and the amortisation of the intangible asset – service concession arrangement of the Expressway. The gross profit ratio was about 58.9% for the year ended 31 December 2015 as compared to and 64.0% for the year ended 31 December 2014.

OTHER REVENUE AND OTHER NET LOSS

The Group recorded other revenue and other net loss of approximately HK\$0.6 million and HK\$37.6 million respectively for the year ended 31 December 2015 compared to the other revenue and other net loss of approximately HK\$0.7 million and HK\$1.1 million, respectively, for the year ended 31 December 2014. Other revenue of the Group was mainly the rental income from the billboard along the Expressway and interest income from bank deposits. Other net loss mainly represented the exchange loss recorded in the books of a PRC subsidiary resulting from the year end translation of a Hong Kong dollar denominated bank loan to RMB. Since there has been a continuous depreciation of RMB against Hong Kong dollars, the loan was subsequently replaced by a RMB denominated long-term bank loan in February 2016 in order to reduce the currency risk exposure of the Group.

ADMINISTRATIVE EXPENSES

Administrative expenses for the year ended 31 December 2015 was approximately HK\$24.1 million, decreased by 7.3% from that for the year ended 31 December 2014. The decrease was mainly due to the cost saving action such as the reduction of numbers of middle management staff.

IMPAIRMENT LOSS OF INTANGIBLE ASSET – SERVICE CONCESSION ARRANGEMENT

The Group has entered into contractual service arrangement with local government authorities for its participation in the construction, operation and management of the Expressway. According to the accounting policy of the Group, internal and external sources of information are reviewed at the end of each reporting period to identify indications that the assets may be impaired. For the year ended 31 December 2015, the actual toll revenue of the Expressway was about 5.1% lower than the amount previously projected in March 2015, which was mainly due to the impact of traffic restriction in Hunan Province regarding motor vehicles (including measures to raise the toll rate for the overloading portion of trucks, and impose higher penalty for traffic violations). In addition, the Group is negotiating with the lessee on the renewal of rental agreement of the service areas within the Expressway. It is estimated that the rental revenue to be generated from service areas within the Expressway will be lower than the amount previously projected in March 2015, which is mainly due to the downturn of the economic environment in the PRC. As a result, an impairment loss of about HK\$158.0 million was recorded for the year, which is about 7.1% of the total cost of the Expressway.

FINANCE COSTS

For the year ended 31 December 2015, the finance costs of the Group was about HK\$84.8 million, representing a decrease of 6.9% from approximately HK\$91.1 million for the year ended 31 December 2014. The decrease was mainly due to the fluctuation of effective bank loan interest rate.

LOSS FOR THE YEAR

As the Group incurred significant amounts of exchange loss of about HK\$38.6 million due to the depreciation of RMB against Hong Kong Dollar and impairment loss of intangible asset of about HK\$158.0 million, the Group recorded a loss of approximately HK\$199.5 million for the year ended 31 December 2015, compared to approximately HK\$1.5 million for the year ended 31 December 2014.

LIQUIDITY AND FINANCIAL RESOURCES

During the year ended 31 December 2015, the Group financed its operations and capital expenditures by the capital of the Company, long-term secured bank loans and interest free loan from controlling shareholder. As at 31 December 2015, total bank loans drawn by the Group was about HK\$1,290.8 million (2014: HK\$1,355.8 million), the amount due to the controlling Shareholder of the Company was HK\$99.1 million (2014: HK\$87.6 million) and the total cash and cash equivalents, including bank deposits and cash on hand, amounted to approximately HK\$9.1 million (2014: HK\$1.1 million).

The Group has always pursued a prudent treasury management policy and actively manages its liquidity position with sufficient standby banking facilities to cope with daily operation and any demands for capital for future development. As at 31 December 2015, total available banking facilities of the Group amounted to HK\$1,313.0 million from China Merchants Bank and Wing Lung Bank Limited, which is mainly for the construction cost of the Expressway, among which the outstanding secured bank loan was HK\$1,290.8 million (2014: HK\$1,355.8 million). The ratio of outstanding bank loans to equity holders' equity was 8,259.0% (2014: 643.2%).

As at 31 December 2015, the bank loans are repayable as follows:

	2015 <i>HK\$'000</i>	2014 <i>HK\$'000</i>
Within 1 year or on demand	629,278	625,408
After 1 year but within 2 years	32,877	27,932
After 2 years but within 5 years	138,084	125,695
After 5 years	490,513	576,789
	1,290,752	1,355,824

The Group's borrowings were mainly arranged on a floating rate basis. As at 31 December 2015, the Group did not enter into any hedging arrangements to hedge against exposure in interest risk.

FOREIGN CURRENCY RISK

The Group mainly operates in the PRC with most of the transactions settled in Renminbi. Part of the Group's cash and bank deposits are denominated in Hong Kong dollars.

As at 31 December 2015, the Group did not enter into any hedging arrangements to hedge against exposure in foreign currency risk. Any substantial exchange rate fluctuation of foreign currencies against Renminbi may cause financial impacts on the Group, the management of the Company will continue to monitor the Group's foreign currency exposure and will consider taking appropriate actions, including but not limited to hedging should the need arise.

For the year ended 31 December 2015, the Group incurred an exchange loss of about HK\$37.6 million which represented the loss recorded in the books of a PRC subsidiary resulting from the year end translation of a Hong Kong dollar denominated bank loan to RMB. Since there has been a continuous depreciation of RMB against Hong Kong dollars, the loan was subsequently replaced by a RMB denominated bank loan in February 2016 in order to reduce the currency risk exposure of the Group.

PLEDGE OF ASSETS

As at 31 December 2015, the bank loans of HK\$1,290.8 million from China Merchants Bank and Wing Lung Bank Limited was secured by the pledge of the toll collection right in relation to the Expressway.

CAPITAL COMMITMENTS

As at 31 December 2015, there was no material capital commitments outstanding for the Company.

BUSINESS REVIEW

SUI-YUE EXPRESSWAY (HUNAN SECTION)

Even with the economic downturn in the PRC and specific traffic restrictions in Hunan Province regarding motor vehicles, including measures to raise the toll rate for the overloading portion of trucks and impose higher penalty for traffic violations, there was an increase of approximately 12.1% in average traffic from about 347,000 vehicles per month for the year ended 31 December 2014 to 389,000 vehicles per month for the year ended 31 December 2015. Transportation network improvement around the Expressway caused a slight diversion which impacted on the traffic of the Expressway. Since there was a decrease in the percentage of overloading heavy vehicles, the average toll revenue per vehicles decreased from about HK\$34.2 for the year ended 31 December 2014 to about HK\$29.9 for the year ended 31 December 2015. As a result, the total toll revenue decreased slightly by about 2.2% to HK\$139.5 million for the year ended 31 December 2015. The overall performance of the Expressway was satisfactory. In addition, the rental income from the service area along the Expressway contributed significantly to the revenue of the Group.

EMPLOYEES AND EMOLUMENTS

As at 31 December 2015, the Group employed a total of 248 (2014: 246) employees in the PRC and Hong Kong which included management staff, engineers, technicians, etc. For the year ended 31 December 2015, the Group's total expenses on the remuneration of employees was approximately HK\$23.9 million (2014: HK\$19.5 million). The increment was mainly due to the increase of basic salary of operating staff of the Expressway.

The Group's emolument policies are formulated based on the performance of individual employees, which will be reviewed periodically. Apart from the MPF Scheme (according to the provisions of the Mandatory Provident Fund Schemes Ordinance for Hong Kong employees) and the Scheme (for the PRC employees) and medical insurance, discretionary bonuses and employee share options are also awarded to employees according to the assessment of individual performance.

The Company adopted a share option scheme on 30 November 2009 for the purpose of motivating eligible persons to optimize their future contributions to the Group and/or reward them for their past contributions, attracting and retaining or otherwise maintaining on-going relationships with such eligible persons who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group. No options have been granted under the share option scheme as at 31 December 2015.

PROSPECTS

The Expressway is one of the expressways with high economic potential in the PRC. It is strategically located in Hunan Province, which is one of the high economic growth provinces in the PRC. Also, the Expressway will be an integral part of the major artery between Hunan Province and Hubei Province. With the outperformed growth in GDP in Hunan Province at 8.6% in 2015, the management of the Company are full of confidence about the prospect of the Expressway.

With the experience of the Directors in successfully completing other PRC toll-expressway projects, and the connections and reputation established by them with the PRC, the Group will continue to tap and pursue opportunities which are consistent with its overall business strategies, and will aim to generate a satisfactory return on investment.

In accordance with this strategy, the Group may pursue other infrastructure projects in the PRC whenever suitable opportunity arises. Apart from developing new infrastructure projects, we may also consider acquiring abandoned or half-developed infrastructure projects, as well as infrastructure projects which are already in operation, from other developers or the government if it is commercially viable to do so. Furthermore, the Group will also consider extending its operation to include some other prosperous business once favourable opportunity appears.

The Board is committed to maintaining good corporate governance practices and has therefore reviewed the corporate governance policies of the Company with the adoption and improvement of various procedures and documentations which are detailed below.

The Company has adopted the Corporate Governance Code (the "CG Code") as set out in Appendix 14 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") as its own code of corporate governance. For the year ended 31 December 2015, the Directors considered that the Company had complied with all the code provisions as set out in the CG Code.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS

BUSINESS REVIEW

GENERAL

For the review of the business of the Group, please refer to the section headed "Management Discussion and Analysis" on pages 5 to 9 of this report. This discussion forms part of this Report of the Directors.

PRINCIPAL RISKS AND UNCERTAINTIES FACING THE GROUP

The following section lists out the key risks and uncertainties faced by the Group. It is a non-exhaustive list and there may be other risks and uncertainties further to the key risk areas outlined below. Further, this annual report does not constitute a recommendation or an advice for anyone to invest in the securities of the Company and investors are advised to make their own judgment or consult their own investment advisors before making any investment in the securities of the Company.

Changes to the provincial government's transportation-related policies

The Group's operations are sensitive to changes in the PRC Government's policies relating to all aspects of the transportation sector, for example, changes to transportation networks, traffic regulation, licensing and toll regime, etc. Such changes may have an adverse effect on the revenue or results of operations of the Group. The Directors will monitor the applicable and relevant government policies closely and will take immediate and appropriate actions in response to any changes in the policies with a view to minimize its impact on the infrastructure projects and to the Group.

Revenue is heavily dependent on traffic volume and may be affected by competing roads and bridges and other modes of transportation

Revenue to be generated from collection of toll is heavily dependent on traffic volume. Traffic volume is directly and indirectly affected by a number of factors, including the road's connectivity with other parts of the local and national highway network. There can be no assurance that future changes in the highway system and network will not adversely affect the traffic volume on the expressways. There is also no assurance that other road or mode of transportation will not be constructed or introduced in future which may prove to be better alternatives to the Group's existing expressway projects. In such case, the Group's business and operating results may be materially and adversely affected.

Notwithstanding the above, the Directors believe that the rising trend of the economic growth in China will be sustained in the foreseeable future. With this growth, especially in Hunan area, the Directors expect the revenue for toll road project to continue to increase in the coming years.

Business operations may be adversely affected by net current liability position

At 31 December 2015, the Group's net current liabilities were \$735,566,000. The Group is dependent upon the financial support from banks and the controlling shareholder, and its ability to generate sufficient cash flows from future operations to cover its operating costs and to meet its financing commitments. These conditions continue to indicate the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern.

The directors have made an assessment and concluded that the Group is able to continue as a going concern for at least the next twelve months and to meet its obligations, as and when they fall due. But we cannot assure you that we will be able to maintain our net current assets position in the future and our business operations may be adversely affected by if we are in net current liability position.

Significant borrowings and financial performance could be affected by general economic conditions and factors

The Group has significant debt obligations under bank loans borrowed to finance project costs. As at 31 December 2015, the Group had total borrowing of approximately HK\$1,290.8 million and our gearing ratio (total debt to equity ratio) is 6,195.1%.

All existing borrowings are outstanding on variable interest rate terms under which interest rates will be adjusted according to market movements in interest rates. It has not been the Group's policy to hedge against movements in interest rates. Any significant increase in interest rates could have a significant adverse effect on our Group's earnings. The Group's interest rate risk mainly relates to the cash at bank and the long term bank loan. A change in interest rates at the balance sheet date would have effect on the amount of the interest costs and income.

Past performance and forward looking statements

The performance and the results of operation of the Group as set out in this annual report are historical in nature and past performance is not a guarantee of future performance. This annual report may contain forward-looking statements and opinions that involve risks and uncertainties. Actual results may also differ materially from expectations discussed in such forward-looking statements and opinions. Neither the Group nor the Directors, employees or agents of the Group assume any obligations or liabilities in the event that any of the forward-looking statements or opinions does not materialize or turns out to be incorrect.

FINANCIAL RESOURCES

As at 31 December 2015, the total outstanding secured bank loan was HK\$1,290.8 million. The details of the maturity profile can be referred to the section headed "Management Discussion and Analysis – Liquidity and financial resources" on page 6 of this report.

Subsequent to 31 December 2015, the Group drew down HK\$589.6 million from a long-term facility and repaid current bank loans of HK\$603.0 million. These new bank loans are repayable from 2016 to 2027, of which HK\$10.7 million, HK\$25.6 million and HK\$40.9 million will be due in May 2016, in November 2016 and in 2017 respectively. These bank facilities are subject to the same financial covenants as the existing bank loans. These new bank loans effectively restructured the maturity profile of Group's borrowing to match with the future revenue forecast.

In addition, the Directors have been actively negotiating with a commercial bank in the PRC for raising funds from new banking facilities. This new facilities will further strengthen the financial resources of the Group.

POST YEAR END EVENTS

Except as disclosed in this annual report, since 31 December 2015, being the end of the financial year under review, no important event has occurred affecting the Group.

In accordance with article 83 of the Articles, any director appointed by the Board to fill a casual vacancy or as an additional director shall hold office only until the next following general meeting of the Company.

By virtue of articles 84 and 85 of the Articles, Mr. Chan Yeung Nam and Mr. Sun Xiao Nian will retire from office by rotation at the forthcoming annual general meeting and, being eligible, will offer themselves for re-election.

Each of the executive and independent non-executive Directors has entered into a service contract with the Company for an initial term of three years commencing from 23 December 2009 and thereafter may be terminated by either party upon a three months' prior written notice.

No director proposed for re-election at the forthcoming annual general meeting has an unexpired service contract which is not determinable by the Company or any of its subsidiaries within one year without payment of compensation, other than normal statutory obligations.

DIRECTORS' AND CHIEF EXECUTIVE'S INTERESTS AND SHORT POSITIONS IN SHARES, UNDERLYING SHARES AND DEBENTURES

As at 31 December 2015, the interests and short positions of the Directors and chief executive of the Company in the shares, underlying shares and debentures of the Company or any of its associated corporations (within the meaning of Part XV of the Securities and Future Ordinance ("SFO")), which were required to be notified to the Company and the Stock Exchange pursuant to Divisions 7 and 8 of Part XV of the SFO (including interests and short positions which the directors and chief executive were deemed or taken to have under such provisions of the SFO), or which were required, pursuant to section 352 of the SFO, to be recorded in the register therein, or were required to be notified to the Company and the Stock Exchange pursuant to the Model Code contained in the Listing Rules were as follows:

		Number of shares	
Name of director	Nature of interest	(ordinary shares)	Percentage
Mr. Chan Yeung Nam (Note)	Interest in controlled corporation	300,000,000	72.71%

Note: Mr. Chan Yeung Nam, an executive Director and chairman of the Board, is deemed to be interested in 300,000,000 shares of the Company held by Velocity International Limited by virtue of it being controlled by him. On 16 June 2015, Velocity International Limited had pledged 300,000,000 Shares in the issued share capital of the Company in favour of Integrated Capital (Asia) Limited as security for a term loan facility provided to Velocity International Limited. For further details, please refer to the announcement of the Company dated 17 June 2015.

Apart from the forgoing, as at 31 December 2015, none of the Directors or chief executive of the Company or any of their spouses or children under eighteen years of age had or was deemed to have any interests or short position in the shares, underlying shares or debentures of the Company, or any of its holding companies, subsidiaries or other associated corporations (within the meaning of Part XV of the SFO), which had been recorded in the register maintained by the Company pursuant to section 352 of the SFO or which had been notified to the Company and the Hong Kong Stock Exchange pursuant to the Model Code.

At no time was the Company, or any of its holding companies or subsidiaries a party to any arrangements to enable any directors and chief executive of the Company (including their spouse and children under 18 years of age) to hold any interest or short positions in the shares or underlying shares in, or debentures of, the Company or its associated corporations (within the meaning of Part XV of the SFO).

SHARE OPTION SCHEME

The Company adopted a Share Option Scheme on 30 November 2009 for the purpose of motivating eligible persons to optimise their future contributions to the Group and/or reward them for their past contributions, attracting and retaining or otherwise maintaining on-going relationships with such eligible persons who are significant to and/or whose contributions are or will be beneficial to the performance, growth or success of the Group.

The maximum number of shares of the Company ("Shares") which may be issued upon exercise of all options to be granted under the Share Option Scheme and any other schemes of the Group shall not in aggregate exceed 10% of the Shares in issue as at 23 December 2009, being the date on which the Shares were listed on the Main Board of the Stock Exchange ("Listing Date"), i.e. 40,000,000 Shares. No option may be granted to any participant of the Share Option Scheme such that the total number of Shares issued and to be issued upon exercise of the options granted and to be granted to that person in any 12-month period exceeds 1% of the Company's shares in issue from time to time.

An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as determined by the Board and not exceeding 10 years from the date of the grant. There is no minimum period for which an option must be held before it can be exercised. Participants of the Share Option Scheme are required to pay the Company HK\$1.0 upon acceptance of the grant on or before 30 days after the offer date. The exercise price of the options is determined by the Board in its absolute discretion and shall not be less than whichever is the highest of:

- (a) the nominal value of a Share;
- (b) the closing price of a Share as stated in the Stock Exchange's daily quotations sheet on the offer date; and
- (c) the average closing price of a Share as stated in the Stock Exchange's daily quotation sheet for the five business days immediately preceding the date of offer.

The Share Option Scheme shall be valid and effective for a period of 10 years from the Listing Date, after which no further options will be granted or offered but the provisions of the Share Option Scheme shall remain in force and effect in all other respects. All options granted prior to such expiry and not then exercised shall continue to be valid and exercisable subject to and in accordance with the Share Option Scheme.

Since the option scheme became effective on 30 November 2009, no options have been granted by the Company under the Share Option Scheme.

The total number of shares available for issue under the Share Option Scheme is 40,000,000, representing approximately 9.69% of the Company's issued share capital as at the date of this annual report.

Apart from the forgoing, at no time during the year was the Company, or any of its holding companies or subsidiaries a party to any arrangement to enable the directors of the Company to acquire benefits by means of the acquisition of shares in or debentures of the Company or any other body corporate.

SUBSTANTIAL SHAREHOLDERS' AND OTHER PERSONS' INTERESTS AND SHORT POSITIONS IN SHARES AND UNDERLYING SHARES

FINANCIAL SUMMARY

A summary of the results and of the assets and liabilities of the Group for the last five financial years is set out on page 3 of the annual report.

RETIREMENT SCHEMES

The Group operates a Mandatory Provident Fund Scheme (the "MPF Scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF Scheme is a defined contribution retirement scheme administrated by independent trustees. Under the MPF Scheme, the employer and its employees are each required to make contributions to the scheme at 5% of the employees' relevant income, subject to a cap of monthly relevant income of HK\$30,000. Contributions to the plan vest immediately.

The employees of the subsidiaries in the People's Republic of China are members of the retirement schemes operated by the local authorities. The subsidiaries are required to contribute a certain percentage of their payroll to these schemes to fund the benefits. The only obligation of the Group with respect to these schemes is the required contributions under the schemes.

The Group's total contributions to retirement schemes charged to the income statement during the year ended 31 December 2015 amounted to HK\$3,141,000 (2014: HK\$2,329,000).

CONFIRMATION OF INDEPENDENCE BY INDEPENDENT NON-EXECUTIVE DIRECTORS

The Company has received from each of the independent non-executive directors an annual confirmation of independence pursuant to Rule 3.13 of the Listing Rules and considers all the independent non-executive directors to be independent.

CORPORATE GOVERNANCE CODE

The Company has adopted the CG Code as set out in Appendix 14 to the Listing Rules as its own code of corporate governance. For the year ended 31 December 2015, the Directors considered that the Company had complied with all the code provisions as set out in the CG Code.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Independent Auditor's Report

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2015 and of the Group's financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

EMPHASIS OF MATTER

Without qualifying our opinion, we draw attention to note 1(b) to the consolidated financial statements which indicates that the Group incurred a net loss of \$199,508,000 during the year ended 31 December 2015, and the Group had net current liabilities of \$735,566,000 and accumulated losses of \$662,879,000 as of 31 December 2015. As explained in note 1(b) to the consolidated financial statements, the consolidated financial statements have been prepared on a going concern basis, the validity of which depends upon the ongoing support from the Group's bankers and the controlling shareholder, and the Group's ability to generate sufficient cash flows from future operations to cover the Group's operating costs and to meet its financial statements, indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern.

1 SIGNIFICANT ACCOUNTING POLICIES

(A) STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (HKFRSs), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (HKASs) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (HKICPA), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. A summary of the significant accounting policies adopted by the Group is set out below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group and the Company. Note 1(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

(B) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The consolidated financial statements for the year ended 31 December 2015 comprise the Company and its subsidiaries (together referred to as the "Group").

The measurement basis used in the preparation of the financial statements is the historical cost basis.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 2.

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(B) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (continued)

During the year ended 31 December 2015, the Group incurred a net loss of \$199,508,000. As of 31 December 2015, the Group had net current liabilities of \$735,566,000 and accumulated losses of \$662,879,000. The Group is dependent upon the financial support from the bankers and the controlling shareholder, and its ability to generate sufficient cash flows from future operations to cover its operating costs and to meet its financing commitments. However, as mentioned in Note 11, the Group expects decrease in future toll revenue and rental revenue. These conditions indicate the existence of a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern.

The directors have made an assessment and concluded that the Group is able to continue as a going concern for at least the next twelve months from the end of the reporting period and to meet its obligations, as and when they fall due, having regard to the following:

- i. the Group expects to continue to generate positive operating cash flows for the next twelve months despite the decrease in future revenue as mentioned in Note 11;
- subsequent to 31 December 2015, the Group drew down RMB494,000,000 (equivalent to \$589,638,000) from a long-term facilities and repaid current bank loans of \$602,977,000. These new bank loans are repayable from 2016 to 2027, of which RMB8,972,000 (equivalent to \$10,709,000), RMB21,466,000 (equivalent to \$25,621,000) and RMB34,287,000 (equivalent to \$40,925,000) will be due in May 2016, in November 2016 and in 2017 respectively. These bank facilities are subject to the same financial covenants as stated in note 17;
- iii. the advance receipt of \$20,888,000 included in current liabilities represents prepayment of operating lease rental by lessees and is expected to be recognised as income rather than refunded;
- the controlling shareholder of the Company has undertaken that repayment of advances of \$99,089,000 at 31 December 2015 will not be requested until after 31 December 2018 and only if the Group is in a position to meet all repayment obligations at that time;
- v. the directors has been actively negotiating with a commercial bank in the PRC for raising funds from new banking facilities, which have not yet been determined; and
- vi. the controlling shareholder confirms to provide adequate financial support to the Group as is necessary to ensure its continuing operation for a period of at least 12 months from the end of the reporting period.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(B) BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (continued)

Consequently, the financial statements have been prepared on a going concern basis. The financial statements do not include any adjustments that would result should the Group be unable to operate as a going concern.

(C) CHANGES IN ACCOUNTING POLICIES

The HKICPA has issued the following amendments to HKFRSs that are first effective for the current accounting period of the Group:

- Amendments to HKAS 19, *Employee benefits: Defined benefit plans: Employee contributions*
- Annual Improvements to HKFRSs 2010-2012 Cycle
- Annual Improvements to HKFRSs 2011-2013 Cycle

None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

(D) SUBSIDIARIES AND NON-CONTROLLING INTERESTS

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(D) SUBSIDIARIES AND NON-CONTROLLING INTERESTS (continued)

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company. Loans from holders of non-controlling interests and other contractual obligations towards these holders are presented as financial liabilities in the consolidated statement of the liability.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 1(h)).

(E) PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses (see note 1(h)).

Gains or losses arising from the retirement or disposal of an item of property, plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of items of property, plant and equipment, less their estimated residual value, if any, using the straight-line method over their estimated useful lives as follows:

-	Toll station and ancillary equipment	5 – 10 years
_	Other machinery and equipment	5 years
_	Motor vehicles	5 years
-	Furniture and fixtures	5 years

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(F) INTANGIBLE ASSET – SERVICE CONCESSION ARRANGEMENT

The Group has entered into contractual service arrangement with local government authorities for its participation in the construction, operation and management of an expressway in the PRC. The Group carries out the construction of an expressway for the granting authorities and receives in exchange for the right to operate the expressway concerned and the entitlement to toll fees collected from users of the concession infrastructure.

The Group recognises an intangible asset arising from a service concession arrangement when it has a right to charge for usage of the concession infrastructure. The concession grantor has not provided any contractual guarantee in respect of the amounts of construction costs incurred to be recoverable. Intangible assets received as consideration for providing construction work and project management services in a service concession arrangement are measured at fair value upon initial recognition. Subsequent to initial recognition the intangible asset is measured at cost less accumulated amortisation and impairment losses (see note 1(h)).

Land collection costs incurred in conjunction with the service concession arrangement are recognised as intangible asset acquired under the service concession arrangement.

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

Amortisation is calculated to write off the cost of the intangible asset arising from a service concession arrangement on a unit of usage basis over the estimated useful life, which is the period when it is available for use to the end of the concession period. Where an item of infrastructure assets included in the intangible asset arising from a service concession arrangement has different period of expected future economic benefits flowing to the Group than the concession period, it is amortised separately.

Both the period and method of amortisation are reviewed annually.

(G) OPERATING LEASE CHARGES

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(H) IMPAIRMENT OF ASSETS

(i) Impairment of receivables

Receivables that are stated at cost or amortised cost are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. Objective evidence of impairment includes observable data that comes to the attention of the Group about one or more of the following loss events:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the debtor will enter bankruptcy or other financial reorganisation; and
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor;

If any such evidence exists, any impairment loss is determined and recognised as follows:

For receivables carried at amortised cost, the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. This assessment is made collectively where these financial assets share similar risk characteristics, such as similar past due status, and have not been individually assessed as impaired. Future cash flows for financial assets which are assessed for impairment collectively are based on historical loss experience for assets with credit risk characteristics similar to the collective Group.

If in a subsequent period the amount of an impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. A reversal of an impairment loss shall not result in the asset's carrying amount exceeding that which would have been determined had no impairment loss been recognised in prior years.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(H) IMPAIRMENT OF ASSETS (continued)

(ii) Impairment of other assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment;
- intangible asset service concession arrangement; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated.

- Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(H) IMPAIRMENT OF ASSETS (continued)

(ii) Impairment of other assets (continued)

- Reversals of impairment losses

An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

(I) RECEIVABLES

Receivables are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method, less allowance for impairment of doubtful debts (see note 1(h)), except where the receivables are interest-free loans made to related parties without any fixed repayment terms or the effect of discounting would be immaterial. In such cases, the receivables are stated at cost less allowance for impairment of doubtful debts.

(J) INTEREST-BEARING BORROWINGS

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in the profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

(K) PAYABLES

Payables are initially recognised at fair value and thereafter stated at amortised cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(L) CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(M) EMPLOYEE BENEFITS

(i) Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

(ii) Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

(N) INCOME TAX

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(N) INCOME TAX (continued)

Apart from certain limited exceptions, all deferred tax liabilities and all deferred tax assets, to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if (the Company or) the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
 - the same taxable entity; or
 - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(O) PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised for liabilities of uncertain timing or amount when the Group or the Company has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

(P) REVENUE RECOGNITION

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

(i) Toll revenue

Toll revenue from operation of toll road is recognised on a receipt basis, net of business tax and surcharges.

(ii) Rental income from operating leases

Rental income receivable under operating leases is recognised in profit or loss in equal instalments over the periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the use of the leased asset. Lease incentives granted are recognised in profit or loss as an integral part of the aggregate net lease payments receivable. Contingent rentals are recognised as income in the accounting period in which they are earned.

(iii) Interest income

Interest income is recognised as it accrues using the effective interest method.

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(Q) TRANSLATION OF FOREIGN CURRENCIES

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates.

The results of the foreign operation are translated into Hong Kong dollars at the exchange rates approximating the foreign exchange rates ruling at the dates of the transactions. Statement of financial position items are translated into Hong Kong dollars at the closing foreign exchange rates at the end of the reporting period. The resulting exchange differences are recognised in other comprehensive income and accumulated separately in equity in the exchange reserve.

(R) BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset which necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. Other borrowing costs are expensed in the period in which they are incurred.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or complete.

(S) RELATED PARTIES

- (a) A person, or a close member of that person's family, is related to the Group if that person:
 - (i) has control or joint control over the Group;
 - (ii) has significant influence over the Group; or
 - (iii) is a member of the key management personnel of the Group or the Group's parent.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(S) RELATED PARTIES (continued)

- (b) An entity is related to the Group if any of the following conditions applies:
 - (i) The entity and the Group are members of the same Group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a Group of which the other entity is a member).
 - (iii) Both entities are joint ventures of the same third party.
 - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
 - (vi) The entity is controlled or jointly controlled by a person identified in (a).
 - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
 - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(T) SEGMENT REPORTING

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocation resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

(Expressed in Hong Kong dollars unless otherwise indicated)

1 SIGNIFICANT ACCOUNTING POLICIES (continued)

(T) SEGMENT REPORTING (continued)

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

The Group operates in a single business segment, the construction, operation and management of an expressway in the People's Republic of China (the "PRC"). Accordingly, no segmental analysis is presented.

2 ACCOUNTING JUDGEMENT AND ESTIMATES

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The selection of critical accounting policies, the judgements and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in condition and assumptions are factors to be considered when reviewing the financial statements. The principal accounting policies are set forth in note 1. The Group believes the following critical accounting policies involve the most significant judgements and estimates used in the preparation of the financial statements.

(A) AMORTISATION OF INTANGIBLE ASSET – SERVICE CONCESSION ARRANGEMENT

The Group applied HK (IFRIC) Interpretation 12 and recognised intangible asset – service concession arrangement and provides amortisation thereon.

Amortisation of intangible asset – service concession arrangement is provided on unit of usage over the concession period. Material adjustments may need to be made to the carrying amounts of intangible assets – service concession arrangement should there be a material difference between total projected traffic volume and the actual results.

The directors perform a periodic assessment of the total projected traffic volume and will prospectively adjust the amortisation unit according to revised projected traffic volume.

2 ACCOUNTING JUDGEMENT AND ESTIMATES (continued)

(B) IMPAIRMENT

If circumstances indicate that the carrying amount of property, plant and equipment and intangible assets may not be recoverable, these assets may be considered "impaired" and an impairment loss may be recognised in profit or loss. The carrying amounts of these assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. These assets are tested for impairment whenever events or changes in circumstances indicate that their recorded carrying amounts may not be recoverable. When such a decline has occurred, the carrying amount is reduced to recoverable amount.

The recoverable amount is the greater of the fair value less costs to sell and the value in use. In determining the value in use, the expected cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to the level of future toll revenue and the amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of toll revenue and the amount of operating costs, and discount rate.

3 REVENUE

The principal activities of the Group are construction, operation and management of an expressway in the PRC.

Revenue during the year represented revenue from operation of the expressway under the service concession arrangement and leasing of service zone. The amount of each significant category of revenue recognised in revenue during the year is as follows:

	2015 \$'000	2014 \$'000

Pursuant to the relevant labour rules and regulations in the PRC, the PRC subsidiary participates in a defined contribution retirement benefit scheme ("the Scheme") organised by the local authority whereby the PRC subsidiary is required to make contributions to the Scheme at a fixed rate announced annually by the municipal government. The municipal government is responsible for the entire pension obligations payable to the retired employees.

The Group also operates a Mandatory Provident Fund Scheme (the "MPF scheme") under the Hong Kong Mandatory Provident Fund Schemes Ordinance for employees employed under the jurisdiction of the Hong Kong Employment Ordinance. The MPF scheme is a defined contribution retirement plan administered by independent trustees. Under the MPF scheme, the employer and its employees are each required to make contributions to the plan at 5% of the employees' relevant income subject to a cap of monthly relevant income of HK\$30,000 (HK\$25,000 prior to June 2014). Contributions to the plan vest immediately.

5 (LOSS)/PROFIT BEFORE TAXATION (continued)

The service concession arrangement represents the Group's rights to operate the Sui-Yue Expressway (Hunan Section) (the "Expressway") and receive toll fees therefrom.

In accordance with the accounting policy set out in note 1(f), the amortisation of intangible asset-service concession arrangement is recognised in profit or loss on a unit of usage basis over the estimated useful life, which is the period when it is available for use to the end of the concession period.

11 INTANGIBLE ASSET – SERVICE CONCESSION ARRANGEMENT (continued)

IMPAIRMENT LOSS

In the current financial year, the actual toll revenue of the Expressway was lower than the amount previously projected in March 2015, which is mainly due to the impact of traffic restriction in Hunan Province regarding motor vehicles (including measures to raise the toll rate for the overloading portion of trucks, and impose higher penalty for traffic violations). In addition, the Group is negotiating with the lessee on the renewal of rental agreement of the service areas within the Expressway. Due to the downturn of the economic environment in the PRC, it is estimated that the rental revenue to be generated from service areas within the Expressway will be lower than the amount previously projected in March 2015.

The Group has assessed the recoverable amount of the cash generating unit (CGU) containing the Expressway. As a result, the carrying amount of the intangible asset-service concession arrangement related to the Expressway was written down by \$157,988,000 (2014: nil) (included in the consolidated income statement).

The recoverable amount of the CGU was determined by the value in use, based on the expected free cash flow up to the end of the service concession arrangement period, and a post-tax discount rate of 14.1% (equivalent to a pre-tax discount rate of 16.3%) (2014: a post-tax discount rate of 14.4% (equivalent to a pre-tax discount rate of 17.0%)).

The impairment loss was fully allocated to the intangible asset - service concession arrangement.

Key assumptions used for the value in use calculation are as follows:

	2015	2014
Period of operation Average annual toll revenue growth rate	23 years	24 years
over the concession period	5.0%	5.0%
Discount rate	14.1%	14.4%

DISCOUNT RATE

The discount rate is a post-tax measure estimated using the Capital Asset Pricing Model ("CAPM") based on the industry average ratios and the CGU's specific risks.

11 INTANGIBLE ASSET – SERVICE CONCESSION ARRANGEMENT (continued)

AVERAGE ANNUAL TOLL REVENUE GROWTH RATE OVER THE CONCESSION PERIOD

The toll revenue growth rates were projected by the directors based on traffic survey, historic traffic data, historic economic indices and expected toll network development at nearby areas.

SENSITIVITY TO CHANGES IN ASSUMPTIONS

As the intangible asset has been reduced to its recoverable amount, any adverse movement in a key assumption would lead to a further impairment. A sensitivity analysis on the discount rate and toll revenue has been performed by the Directors as follows.

At 31 December 2015, it is estimated that an increase/decrease of 1% in discount rate, with all other variables held constant, would have decreased/increased the value in use of the intangible asset by approximately \$33,078,000/\$38,574,000.

At 31 December 2015, it is estimated that an increase/decrease of 5% in toll revenue, with all other variables held constant, would have increased/decreased the value in use of the intangible asset by approximately \$59,422,000/\$59,496,000.

17 BANK LOANS (continued)

At 31 December, the bank loans were repayable as follows:

	2015 \$'000	2014 \$'000
Within 1 year or on demand After 1 year but within 2 years After 2 years but within 5 years	629,278 32,877 138,084	20,949 632,391 125,695
After 5 years	490,513	576,789
	1,290,752	1,355,824

At 31 December 2015, there is no unutilised banking facility amount.

The Group's rights to operate the Expressway and receive toll fees therefrom, have been pledged to secure the long term bank loan.

Bank loan repayable on demand will fall due in 2016 according to scheduled repayment terms and contains repayable on demand clause. The bank loan was repaid subsequent to 31 December 2015. Further details are set out in Note 1(b).

The bank loans of the Group are subject to certain financial covenants. The Group regularly monitors its compliance with these covenants, and adherence to the timetable of the scheduled repayments of the term loans and does not consider it probable that the bank will exercise its discretion to demand repayment so long as the Group continues to meet these requirements. Further details of the Group's management of liquidity risk are set out in note 20(b). As at 31 December 2015, none of the covenants relating to drawn down facilities had been breached (2014: nil).

In accordance with the accounting policy set out in note 1(r), there are no borrowing costs capitalised into intangible asset – service concession arrangement for the years ended 31 December 2015 and 2014.

18 INCOME TAX IN THE CONSOLIDATED STATEMENT OF FINANCIAL POSITION

(A) DEFERRED TAX ASSETS AND LIABILITIES RECOGNISED:

The components of deferred tax assets/liabilities recognised in the consolidate statement of financial position and the movement during the year are as follows:

	Intangible asset – service concession arrangement \$'000
Deferred tax arising from:	
At 1 January 2014	152,471
Charged to profit or loss (note 6(a))	(2,068)

At 31 December 2014	149,880
At 1 January 2015	149,880
Charged to profit or loss (note 6(a))	(2,085)
Exchange adjustment	(8,664)
At 31 December 2015	139,131

(B) DEFERRED TAX ASSETS NOT RECOGNISED:

In accordance with the accounting policy set out in note 1(n), the Group has not recognised deferred tax assets in respect of deductible temporary differences of \$157,988,000 (2014: nil) and cumulative tax losses of \$81,184,000 (2014: \$40,797,000) as it is not probable that future taxable profits against which the temporary differences losses can be utilised will be available in the relevant tax jurisdiction and entity.

As at 31 December 2015, tax losses of \$53,800,000 (2014: \$17,644,000) in the PRC will expire in five years from the dates they were incurred, if unused.

As at 31 December 2015, tax losses of \$27,384,000 (2014: \$23,153,000) in Hong Kong do not expire under current Hong Kong tax legislation.

The holders of the ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at meetings of the Company. All ordinary shares rank equally with regard to the Company's residual assets.

(D) NATURE AND PURPOSE OF RESERVES

(i) Share premium

The share premium represents the difference between the par value of the shares of the Company and proceeds received from the issuance of the shares of the Company. Under the Companies Law of Cayman Islands, the share premium account of the Company is distributable to the shareholders of the Company provided that immediately following the date on which the dividend is proposed to be distributed, the Company would be in a position to pay off its debts as they fall due in the ordinary course of business.

(Expressed in Hong Kong dollars unless otherwise indicated)

19 CAPITAL, RESERVES AND DIVIDENDS (continued)

(D) NATURE AND PURPOSE OF RESERVES (continued)

(ii) Other reserve

On 13 April 2009, the Company acquired 90% equity interest in Daoyue from Shenzhen Huayu Investment & Development (Group) Co., Ltd. The difference between the historical carrying value of the shares of Daoyue acquired and the acquisition consideration paid by the Company is recorded in "Other reserve".

In addition, pursuant to the Group's reorganisation before its initial public offering, the ultimate controlling shareholder of the Group assigned to the Company the receivable balances due from group companies amounted to \$513,388,000. The difference between the assigned receivable balances over the nominal value of \$3,000,000 of the shares issued by the Company in exchange thereof was also recorded in "Other reserve".

(iii) Exchange reserves

The exchange reserve comprises all foreign exchange differences arising from the translation of the financial statements of the PRC operation. The reserve is dealt with in accordance with the accounting policy as set out in note 1(q).

(iv) Distributable reserve

At 31 December 2015, the aggregate amount of reserves available for distribution to equity shareholders of the Company was nil (2014: nil). The long-term secured bank loan of the Group is subject to certain covenants and the Group's PRC subsidiary, Daoyue, is required to obtain prior approval from the bank, before declaring any cash dividend or bonus during the repayment years from 2014 to 2027.

(E) CAPITAL MANAGEMENT

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders in the long run, by pricing services commensurately with the level of risk and by securing access to financing at a reasonable cost.

(Expressed in Hong Kong dollars unless otherwise indicated)

(E) CAPITAL MANAGEMENT (continued)

The Group actively and regularly reviews and manages its capital structure to maintain a balance between shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

The Group monitors its capital structure on the basis of a debt-to-equity ratio. For this purpose, adjusted net debt is defined as total debts (which includes accruals and other payables, amounts due to related parties and bank loans). Equity comprises all components of equity.

The debt-to-equity ratio of the Group at 31 December 2015 and 2014 is as follows:

20 FINANCIAL RISK MANAGEMENT

Exposure to credit, liquidity, and interest rate risks arises in the normal course of the Group's business. The Group's exposure to these risks and financial risk management policies and practices used by the Group to manage these risks are described below.

(A) CREDIT RISK

The Group's credit risk is primarily attributable to prepayments and other receivables, and cash at bank and on hand. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

As a result of the business nature of the Group, the Group has no significant concentration of credit risk arising from its customers.

(B) LIQUIDITY RISK

Individual operating entities within the Group are responsible for their own cash management, the raising of loans to cover expected cash demands subject to approval by the Company's management when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its liquidity requirements to ensure that it maintains sufficient reserves of cash, adequate committed lines of funding from major financial institutions and support from the controlling shareholder of the Company to meet its liquidity requirements in the short and longer term.

The following tables show the remaining contractual maturities at the end of the reporting period of the Group's financial liabilities, which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the end of the reporting period) and the earliest date the Group can be required to pay.

For the term loan subject to repayment on demand clauses which can be exercised at the bank's sole discretion, the analysis shows the cash outflow based on the contractual repayment schedule and, separately, the impact to the timing of the cash outflows if the lenders were to invoke their unconditional rights to call the loans with immediate effect. The term loan was repaid subsequent to 31 December 2015. Further details are set out in Note 1(b).

20 FINANCIAL RISK MANAGEMENT (continued)

(C) INTEREST RATE RISK

The Group's interest rates risk arises primarily from cash at bank and bank borrowings issued at variable rates that expose the Group to cash flow interest rate risk. The Group's policy is to manage its interest rate risk to ensure there are no undue exposures to significant interest rate movements.

The Group does not account for any fixed rate financial liabilities at fair value through profit or loss. The Group's interest rate profile as monitored by management is set out in below:

(i) Interest rate profile

The following table details the interest rate profile of the Group's borrowings at the end of the reporting year.

	2015 Effective		2014 Effective	ļ
	interest rate %	Amount \$'000	interest rate %	Amount \$'000

20 FINANCIAL RISK MANAGEMENT (continued)

(C) INTEREST RATE RISK (continued)

(ii) Sensitivity analysis

At 31 December 2015, it is estimated that a general increase/decrease of 25 basis points in interest rates, with all other variables held constant, would have increased/decreased the Group's loss for the year and accumulated losses by approximately \$1,272,000 in response to the general increase/decrease in interest rates (2014: \$1,382,000).

The sensitivity analysis above indicates the instantaneous change in the Group's loss for the year (and accumulated losses) that would arise assuming that the change in interest rates had occurred at the end of the reporting period. In respect of the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period, the impact on the Group's loss for the year (and accumulated losses) is estimated as an annualised impact on interest expense or income of such a change in interest rates. The analysis is performed on the same basis for 2014.

(D) CURRENCY RISK

Individual companies within the Group have limited foreign currency risk as most of the transactions are denominated in the functional currency of the operations in which they relate. However, as the principal subsidiary, Daoyue, mainly carried out transactions in RMB, therefore any appreciation or depreciation of HKD against RMB will affect the Group's financial position and be reflected in the exchange reserve.

At 31 December 2015, the Group is exposed to currency risk primarily through one of the bank loans of Daoyue that is denominated in HKD, with carrying amount of \$602,977,000 (2014: \$604,459,000).

At 31 December 2015, assuming all other risk variables remained constant, a 1% strengthening/ (weakening) of the RMB against HKD would have increased/decreased equity and net profit by the amount of \$4,522,000 (2014: \$4,533,000). Results of the analysis represent an aggregation of the instantaneous effects on Daoyue's profit after tax and equity measured in the its functional currency, translated into HKD at the exchange rate ruling at the end of the reporting period for presentation purposes. The analysis is performed on the same basis for 2014.

21 COMMITMENTS

OPERATING LEASES

Leases as lessor

The Group leases out its service zone and billboards under operating leases, with lease terms of 4 years and 3 years respectively. At 31 December 2015, the total future minimum lease payments under non-cancellable operating leases are receivable as follows:

	2015 \$'000	2014 \$'000
Within 1 year After 1 year but within 5 years	681 1,224	10,779 159
	1,905	10,938

During the year ended 31 December 2015, the Group recognised rental income of \$41,108,000 and \$532,000 in revenue (note 3) and other revenue (note 4) of the consolidated statement of profit or loss respectively (2014: \$41,723,000 and \$643,000).

LEASES AS LESSEE

The Group is the lessee in respect of a number of properties held under operating leases. The leases typically run for an initial period of one to two years with an option to renew the leases upon expiry when all terms are renegotiated. None of the leases includes contingent rentals.

The Group's total future minimum lease payments under non-cancellable operating leases are payable as follows:

	2015 \$'000	2014 \$'000
Within 1 year After 1 year but within 5 years	1,365 1,252	-
	2,617	_

(Expressed in Hong Kong dollars unless otherwise indicated)

22 CONTINGENT LIABILITIES

FINANCIAL GUARANTEES ISSUED

As at the end of the reporting year, the Company has issued the following guarantees:

- (a) a single guarantee to a bank in respect of a bank loan granted to a partially owned subsidiary which expires on 7 October 2016; and
- (b) a single guarantee to a bank in respect of a banking facility granted to a partially owned subsidiary which expires on 8 May 2027.

At the end of the reporting period, the directors do not consider it probable that a claim will be made against the Company under any of the guarantees. The maximum liability of the Company at the end of the reporting period under the guarantees issued is the total bank loans by the subsidiary of \$1,290,752,000 (2014: \$1,355,824,000).

The Company has not recognised any deferred income in respect of the guarantee as its fair value cannot be reliably measured using observable market data and its transaction price was nil.

23 MATERIAL RELATED PARTY TRANSACTIONS

(A) DURING THE YEAR ENDED 31 DECEMBER 2015, THE DIRECTORS ARE OF THE VIEW THAT THE FOLLOWING COMPANIES ARE RELATED PARTIES OF THE GROUP:

25 IMMEDIATE AND ULTIMATE CONTROLLING COMPANY

At 31 December 2015, the directors consider the immediate parent and ultimate controlling party of the Group to be Velocity International Limited, which is incorporated in the British Virgin Islands. This entity does not produce financial statements available for public use.

26 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2015

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard which are not yet effective for the year ended 31 December 2015 and which have not been adopted in these financial statements. These include the following which may be relevant to the Group:

	Effective for accounting periods beginning on or after
Annual Improvements to HKFRSs 2012-2014 Cycle	1 January 2016
Amendments to HKAS 1, Disclosure initiative	1 January 2016
Amendments to HKAS 16 and HKAS 38, Clarification of	
acceptable methods of depreciation and amortisation	1 January 2016
HKFRS 15, Revenue from contracts with customers	1 January 2018
HKFRS 9, Financial instruments	1 January 2018

The Group is in the process of making an assessment of what the impact of these amendments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.
