# Chairman's Statement

In 2016, China's economy witnessed a slowdown in growth with economical turmoil. Amidst a heavily pressurized environment in the financial sector, we still captured the opportunities brought along with crisis and bucked the adverse trend by adhering to our operation philosophy of innovation and sustainable development. We strive to explore new concepts and fields while developing new products and markets to keep up our solid results.

On behalf of the Board, I would like to express my gratitude to our Shareholders and stakeholders who have been supporting and following the development of the Group, and all of our employees who have been striving for the best results for the Company. On behalf of the Group, I would like to present our operating results for 2016 to all of you.

In 2016, we commenced a strategic cooperation with "Yuanbaopu (元寶鋪)" (official company name as Zhejiang Electronic Finance Data Technology Company Limited\* (浙江電融數據技術有限公司)), a finance big data service platform. On such basis, we and trustworthy internet loan enterprises jointly developed internet micro-finance loan business to provide customers with pure credit-based loans of RMB2,000 each, and rapidly accumulated over 10,000 customers. Such approach has better facilitated the "small amount and diversified" development of the Group's business.

In 2016, following our acquisition of Hangzhou High-tech District (Binjiang) Xing Yao Pu Hui Micro-finance Co., Ltd.\* (杭州市高新區(濱江)興耀普匯小額貸款有限公司), the scope of our offline business has further expanded to Hangzhou City in Zhejiang Province. In particular, the proactive internet development in Hangzhou would offer us more development opportunities and attract more talents to join the Group, which would in turn enhance our competitive advantages.

On top of maintaining stable operating results under economic downturn in the previous year, we managed to continuously expand our business scope, varieties of products and customer bases. Yet, we are aware of the tremendous challenges ahead and stay alert at all times. By consistently offering solutions to customers with financing needs and striving to provide convenient services, we attain a win-win situation with our customers.

In 2017, we will continue to accelerate business transformation and head into a more diversified and professional development, so as to capture the timing for a better advancement of the Group's business.

# Management Discussion and Analysis

## INDUSTRY OVERVIEW

We commenced our nationwide business in the PRC, and our offline business is mainly conducted in Deqing County, Huzhou City. Deqing has experienced robust economic development and growth in recent years, and is placed among the nation's top one hundred counties in terms of comprehensive strength in economic, social condition, environmental and government management aspects (綜合實力百強縣). A number of new high-technology, bio-pharmaceutical and innovative enterprises have either selected Deqing as their headquarters or conducted business in Deqing, which has helped cultivating the local financial services sector. In addition, Deqing has been designated as a "technological outstanding county (科技強縣)", a "financial innovation demonstration county (金融創新示範縣)" as well as the "financial back-office base in Yangtze River Delta (長三角金融後台基地)" by the Zhejiang provincial government.

Competition within the microfinance industry in Zhejiang is extremely intense. As of 31 December 2016, the number of microfinance companies in Zhejiang reached 341. The average registered capital per microfinance company amounted to RMB191 million. The average loan balance per microfinance company amounted to RMB213 million.

The microfinance industry in Deqing has also seen rapid growth. As of 31 December 2016, apart from the Group, there were three microfinance companies in Deqing, and as of 31 December 2016, the accumulated aggregate amount of loans granted reached RMB5,182.7 million, of which the accumulated aggregate amount of loans granted by the Group accounted for approximately 66.8%; the loan balance as of 31 December 2016 reached RMB3,043.8 million, of which the loan balance of the Group accounted for approximately 62.1%.

## BUSINESS OVERVIEW

As at 31 December 2016, we were the largest licensed microfinance company in Zhejiang in terms of registered capital, according to the Financial Work Office of the People's Government of Zhejiang Province. We are dedicated to providing financing solutions and loan services to customers with flexible terms through quick and comprehensive loan assessment and approval processes.

Our key customers primarily consist of customers engaged in AFR (三農), SMEs, micro enterprises and online retailers engaging in the businesses of lifestyle products, agricultural products, cultural supplies and industrial products as well as customers of internet micro-loan which we cultivate together with other trustworthy internet enterprises.

In November 2016, we acquired Xingyao Micro-finance which located in Hangzhou City, Zhejiang Province. The acquisition allowed us to expand our offline finance business coverage to Hangzhou City and further strengthened our competitive advantages.

In 2016, we collaborated with trustworthy internet enterprises to jointly develop our internet micro-finance business, which offers pure credit-based loans of RMB2,000 each. As of 31 December 2016, we have developed over 10,000 customers in total through the above business.

Due to the expansion of our business and strong demand for financing by our customers, our gross loans balance increased from RMB1,455.4 million as at 31 December 2015 to RMB1,889.5 million as at 31 December 2016.

## Management Discussion and Analysis (Continued)

The following table sets out our registered capital, gross outstanding loans and advances to customers, and leverage ratio as of the dates indicated:

	As of 31 December	
	2016	2015
Registered capital (RMB'000)	1,180,000	1,180,000
Gross outstanding loans and advances to customers (RMB'000)	1,889,520	1,455,369
Leverage ratio <sup>(1)</sup>	1.60	1.23

Note:

(1) Represents the balance of the gross outstanding loans and advances to customers divided by registered capital.

For the years ended 31 December 2015 and 2016, our average interest rates for loans were 15.6% and 15.2%, respectively. The decrease in our average loan interest rate during the aforesaid period was mainly resulting from the imposition of VAT on our reported interest income in lieu of business tax since 1 May 2016 in compliance with Circular No. 36, which resulted in a lower reported interest income as our interest income has since been recognized net of applicable VAT.

We primarily served SMEs and micro enterprises, individuals in the agricultural, industrial and service sectors in Huzhou and Hangzhou and nationwide online retailers engaging in the businesses of lifestyle products, agricultural products, cultural supplies and industrial products and customers of internet micro-loans. For the years ended 31 December 2015 and 2016, we served over 1,545 and 15,615 customers, respectively. During the aforesaid period, our loan customers increased dramatically primarily as a result of our joint development of internet micro-finance business with trustworthy internet enterprises, which have accumulated numerous customers.

The following table sets out the number of our loans by size as of the dates indicated:

	As of 31 December	
	2016	2015
Up to RMB500,000	14,714	1,777
Over RMB500,000 to RMB1 million (inclusive)	177	61
Over RMB1 million to RMB5 million (inclusive)	305	207
Over RMB5 million	43	60
<b>Total number of outstanding loans and advances to customers</b>	<b>15,239</b>	<b>2,105</b>

As at 31 December 2015 and 2016, 87.3% and 97.7% of our loan contracts were of loan amount of up to RMB1 million, respectively. The proportion of loans with amount up to RMB1 million increased drastically during the aforementioned period, primarily as a result of our joint development of internet micro-finance business with other trustworthy internet enterprises, which offers loans of RMB2,000 each.

For the years ended 31 December 2015 and 2016, the total amount of loans we granted were RMB2,427.2 million and RMB3,461.5 million, respectively.

### LOAN PORTFOLIO BY SECURITY

The following table sets out our loan portfolio by security as of the dates indicated:

	As of 31 December 2016		As of 31 December 2015	
	RMB'000	%	RMB'000	%
Unsecured loans <sup>(1)</sup>	170,888	9.0	91,144	6.3
Guaranteed loans	1,651,250	87.4	1,283,653	88.2
Collateralized loans	59,602	3.2	79,972	5.5
Pledged loans	7,780	0.4	600	0.0
<b>Total gross outstanding loans and advances to customers</b>	<b>1,889,520</b>	<b>100.0</b>	<b>1,455,369</b>	<b>100.0</b>

Note:

- (1) Our unsecured loans are generally of small amounts, with short terms, and granted to customers who have good credit histories upon assessing the risks involved in the loans during our credit evaluation process. The increase in our unsecured loans during the aforesaid period was mainly due to the online loan business, which primarily focused on unsecured loans of small amounts and short terms.

The following table sets out the maturity profile of the original term of our loans as at the dates indicated:

	As at 31 December			
	2016		2015	
	RMB'000	%	RMB'000	%
Due within three months	49,318	2.6	13,340	0.9
Due between three months and six months	484,343	25.6	156,371	10.8
Due between six months and one year	1,319,864	69.9	1,259,117	86.5

## Management Discussion and Analysis (Continued)

The following table sets out our loan portfolio by exposure size as at the dates indicated:

	As at 31 December			
	2016		2015	
	RMB'000	%	RMB'000	%
Up to RMB500,000	341,430	18.1	169,961	11.7
Over RMB500,000 to RMB1 million (inclusive)	166,225	8.8	55,320	3.8
Over RMB1 million to RMB5 million (inclusive)	884,865	46.8	601,488	41.3
Over RMB5 million	497,000	26.3	628,600	43.2
<b>Total gross outstanding loans and advances to customers</b>	<b>1,889,520</b>	<b>100.0</b>	<b>1,455,369</b>	<b>100.0</b>

We adopt a loan classification approach to manage our credit risk on loan portfolio. We categorize our loans by reference to the “Five-Tier Principle” set forth in the Guidance on Provisioning for Bank Loan Losses (銀行貸款損失準備計提指引) issued by the People’s Bank of China on 2 April 2002.

The following table sets out the breakdown of our total gross outstanding loans and advances to customers by category as of the dates indicated:

	As of 31 December			
	2016		2015	
	RMB'000	%	RMB'000	%
Normal	1,757,647	93.0	1,261,417	86.7
Special mention	104,888	5.6	158,880	10.9
Substandard	6,567	0.3	18,748	1.3
Doubtful	15,388	0.8	12,595	0.9
Loss	5,030	0.3	3,729	0.2
<b>Total gross outstanding loans and advances to customers</b>	<b>1,889,520</b>	<b>100.0</b>	<b>1,455,369</b>	<b>100.0</b>

For “normal” and “special mention” loans, given that they are not impaired, we make collective assessment based primarily on factors including prevailing general market and industry conditions and historical impaired ratio. For “substandard”, “doubtful” and “loss” loans, the impairment losses are assessed individually as appropriate by an evaluation of the loss expected to be incurred on the balance sheet date.

## Management Discussion and Analysis (Continued)

The following table sets out our key operating data as of the dates or for the years indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
<b>Impaired loan ratio<sup>(1)</sup></b>	<b>1.4%</b>	2.4%
Balance of impaired loans	<b>26,985</b>	35,072
Gross outstanding loans and advances to customers	<b>1,889,520</b>	1,455,369
<b>Provision coverage ratio<sup>(2)</sup></b>	<b>305%</b>	208%
Allowances for impairment losses <sup>(3)</sup>	<b>82,356</b>	72,954
Balance of impaired loans	<b>26,985</b>	35,072
<b>Provision for impairment losses ratio<sup>(4)</sup></b>	<b>4.4%</b>	5.0%
Balance of overdue loans	<b>31,037</b>	15,742
Gross outstanding loans and advances to customers	<b>1,889,520</b>	1,455,369
<b>Overdue loan ratio<sup>(5)</sup></b>	<b>1.64%</b>	1.08%

Notes:

- (1) Represents the balance of impaired loans divided by the gross outstanding balance of loans and advances to customers. Impaired loan ratio indicates the quality of our loan portfolio.
- (2) Represents the allowances for impairment losses on all loans divided by the balance of impaired loans. The allowances for impairment losses on all loans include provisions provided for loans which are assessed collectively and provisions provided for impaired loans which are assessed individually. Provision coverage ratio indicates the level of provisions we set aside to cover probable loss in our loan portfolio.
- (3) Allowances for impairment losses reflect our management's estimate of the probable loss in our loan portfolio.
- (4) Represents the allowances for impairment losses divided by the balance of the gross outstanding loans and advances to customers. Provision for impairment losses ratio measures the cumulative level of provisions.
- (5) Represents the overdue loans divided by the balance of the gross outstanding loans and advances to customers.

Our impaired loans decreased slightly from RMB35.1 million as of 31 December 2015 to RMB27.0 million as of 31 December 2016, which was mainly due to our recovery of certain outstanding substandard loans as of 31 December 2015 in the current period.

The following table sets out a breakdown of our overdue loans by security as of the dates indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
Unsecured loans	<b>12,253</b>	373
Guaranteed loans	<b>9,897</b>	5,102
Collateralized loans	<b>8,887</b>	10,267
<b>Total overdue loans</b>	<b>31,037</b>	15,742

We had overdue loans of RMB15.7 million and RMB31.0 million as of 31 December 2015 and 31 December 2016, respectively, accounting for 1.08% and 1.64% of our gross loan balance as of the same dates. As at 20 March 2017, approximately RMB1.23 million among the overdue loans as of 31 December 2016 was recovered.

## Management Discussion and Analysis (Continued)

### FINANCIAL OVERVIEW

#### Net interest income

We generate interest income from loans we provide to customers and from our cash at banks. Our net interest income is net of interest and commission expenses. We incur interest expenses on bank and other borrowings to principally expand our business and meet working capital requirements, as well as bank charges.

The following table sets out the breakdown of our net interest income by source for the years indicated:

	2016 RMB'000	2015 RMB'000
<b>Interest income from</b>		
Loans and advances to customers	242,370	210,732
Cash at banks	990	1,396
<b>Total interest income</b>	<b>243,360</b>	212,128
<b>Interest and commission expenses from</b>		
Borrowings from banks	(11,791)	(8,105)
Borrowings from non-bank institutions	(12,277)	—
Bank charges	(71)	(72)
<b>Total interest and commission expenses</b>	<b>(24,139)</b>	(8,177)
<b>Net interest income</b>	<b>219,221</b>	203,951

Our interest income from loans and advances to customers is primarily affected by the size of our loan portfolio and the average interest rate that we charge on loans to our customers. Our balance of loans increased during the reporting period, generally in line with the size of our capital base, which is in turn affected by the size of our registered capital and financing. For the years ended 31 December 2015 and 2016, our aggregate loan balance was RMB1,455.4 million and RMB1,889.5 million respectively; while for the years ended 31 December 2015 and 2016, our average interest rates for loans were 15.6% and 15.2%, respectively. The decrease in our average loan interest rate during the aforesaid period was mainly resulting from the imposition of VAT on our reported interest income in lieu of business tax in compliance with Circular No. 36, which resulted in a lower reported interest income as our interest income has since been recognized net of applicable VAT.

Our interest and commission expenses, comprising interests on borrowings from banks and non-bank institutions as well as bank charges, were RMB8.2 million and RMB24.1 million for the years ended 31 December 2015 and 2016, respectively. We incur interest expenses primarily on the interest payment on bank loans and non-bank institutions borrowings, including debt securities issued and borrowing from third parties under a repurchase agreement, which were principally applied to expand our loan business.

Our balance of bank loans amounted to RMB100.0 million and RMB100.0 million as at 31 December 2015 and 2016, respectively. As at 31 December 2016, our carrying balance of debt securities issued was RMB278.3 million. Our outstanding balance of borrowing from third parties under a repurchase agreement amounted to RMB150.0 million as of 31 December 2016. During the reporting period, our interest expense increased, which was mainly attributed to the increase in interest-bearing borrowings.

## Management Discussion and Analysis (Continued)

Our net interest income for the years ended 31 December 2015 and 2016 were RMB204.0 million and RMB219.2 million, respectively.

### Other income

Our other income for the years ended 31 December 2015 and 2016 were RMB41.3 million and RMB22.9 million, respectively. Our other income mainly consists of government grants. Our other income in the aforesaid period decreased, which was mainly due to the inclusion of listing grants from Deqing County People's Government amounting to RMB13.0 million in other income of the Company in 2015.

### Impairment losses

Impairment losses include provisions we make in relation to loans and advances to our customers. We review our portfolios of loans and advances periodically to assess whether any impairment losses exist and the amount of impairment losses if there is any indication of impairment losses. Our management reviews the methodology and assumptions used in estimating future cash flows regularly to reduce any difference between loss estimates and actual loss.

For the years ended 31 December 2015 and 2016, our impairment losses were RMB6.0 million and RMB0.8 million, respectively.

### Administrative expenses

Our administrative expenses mainly include: (i) business tax and surcharge; (ii) staff costs, such as salaries, bonuses and allowances paid to employees, social insurance and other benefits; (iii) office expenditures and travel expenses; (iv) operating lease charges; (v) depreciation and amortization expenses; (vi) consulting and professional service fees; and (vii) other expenses, including business development expenses, advertising expenses and miscellaneous expenses, such as stamp duty, conference fees and labor protection fees. The table below sets out the components of our administrative expenses by nature for the years indicated:

	2016 RMB'000	2015 RMB'000
Business tax and surcharge	4,799	11,431
Staff costs	12,087	8,209
Office expenditures and travel expenses	3,759	3,696
Operating lease charges	882	818
Depreciation and amortization expenses	1,925	1,179
Consulting and professional service fees	9,732	7,459
Business development expenses	1,099	947
Advertising expenses	2,985	2,827
Others	3,106	5,780
Total administrative expenses	40,374	42,346

Our business tax and surcharge mainly include: (i) business tax; (ii) city maintenance and construction tax; and (iii) education surcharge. For the years ended 31 December 2015 and 2016, our business tax and surcharge were RMB11.4 million and RMB4.8 million, respectively, accounting for 27.0% and 11.9% of our total administrative expenses, respectively. Our business tax and surcharge decreased during the aforesaid period, which was primarily as a result of the imposition of VAT on our reported interest income in lieu of business tax under Circular No. 36, where we were no longer required to pay business tax since 1 May 2016.

## Management Discussion and Analysis (Continued)

Our staff costs accounted for 19.4% and 29.9% of the total administrative expenses for the years ended 31 December 2015 and 2016, respectively. Our staff costs increased from RMB8.2 million for year 2015 to RMB12.1 million for year 2016, which was mainly attributable to: (i) additional employees we hired in the second half of 2015 and first half of 2016, including new senior management and customer relationship managers, due to the expansion of our loan business; (ii) employment of the existing staff from Jinhui Micro-finance which we acquired in July 2015; and (iii) employment of the existing staff from Xingyao Micro-finance which we acquired in November 2016.

### Income tax

Our income taxes for the years ended 31 December 2015 and 2016 were RMB50.4 million and RMB50.3 million, respectively, and our effective tax rates were 25.6% and 25.1%, respectively.

### Profit for the year

As a result of the foregoing, we had profit of RMB146.5 million and RMB150.5 million for the years ended 31 December 2015 and 2016, respectively.

### Liquidity and capital resources

Our working capital and other capital requirements are mainly financed by equity investments from the Shareholders, bank loans, debt securities issued and cash flows from operations. Our working capital and capital requirements are primarily related to extending loans and other working capital requirements. We monitor our cash flows and cash balance on a regular basis and strive to maintain an optimal liquidity level that can meet our working capital needs while supporting a healthy level of business scale and expansion. Other than normal bank loans we obtain from commercial banks, issuance of bond financing on the Zhejiang Equities Exchange Centre (浙江省股權交易中心) and income rights transfer and repurchase financing which we may consider, we do not expect to have any material external debt financing plan in the short term.

## WORKING CAPITAL MANAGEMENT

### Cash flows

The following table sets out a selected summary of our cash flow statement for the years indicated:

	2016 RMB'000	2015 RMB'000
Cash and cash equivalents at the beginning of year	82,572	24,488
Net cash (used in)/generated from operating activities	(44,044)	93,056
Net cash used in investing activities	(207,722)	(241,287)
Net cash generated from financing activities	198,727	206,316
Net (decrease)/increase in cash and cash equivalents	(53,039)	58,085
Effect on the change of exchange rate	(325)	(1)
Cash and cash equivalents at the end of year	29,208	82,572

## Management Discussion and Analysis (Continued)

### Net cash (used in)/generated from operating activities

Our cash generated from operating activities primarily consists of interest income from loans we grant to customers. Our cash used in operating activities primarily consists of loans and advances we extend to our customers and various taxes.

We account equity contributions from Shareholders, bank loans and debt securities issued as cash generated from financing activities, while we utilize such cash for granting new loans to customers and classify it as cash used in operating activities and, as a result, we typically account it as net cash used in operating activities. Due to the loan granting nature of our business and the accounting treatment that such deployment of cash is accounted for as operating cash outflow, we typically experience net cash outflows from operating activities when we expand our loan business as a result of such accounting treatment, which is generally in line with the industry norm.

Net cash outflow generated from operating activities in 2016 was RMB44.0 million. Our net cash used in operating activities reflect: (i) our profit before tax of RMB200.9 million, adjusted for non-cash and non-operating items, primarily including impairment losses of RMB0.8 million, depreciation and amortization of RMB1.9 million, interest expenses of RMB24.1 million, investment income of RMB1.6 million and exchange losses of RMB0.3 million; (ii) the effect of changes in working capital, primarily including an increase in total loans and advances to customers of RMB209.8 million, an increase in interest receivable and other assets of RMB3.3 million, and a decrease in accruals and other payables of RMB1.6 million; and (iii) PRC income tax paid of RMB55.8 million.

### Net cash used in investing activities

As of 2016, our net cash outflow from investing activities was RMB207.7 million. Our net cash outflow for investing activities mainly consisted of: (i) net amount paid for purchase of wealth management products after deducting redemption of RMB72.7 million, which was partially offset by income of RMB1.6 million received from the wealth management products; (ii) investment paid for the acquisition of Xingyao Micro-finance net of cash and cash equivalents on book at the acquisition of Xingyao Micro-finance amounting to RMB118.0 million; (iii) unpaid original shareholders' dividend prior to the payment for the acquisition of Xingyao Micro-finance of RMB2.0 million; and (iv) payment for the purchase of real estates, equipment and repairment of RMB16.6 million.

### Net cash generated from financing activities

As of 2016, our net cash generated from financing activities was RMB198.7 million. Our net cash inflow generated from financing activities consisted of: (i) the receipt of RMB425.0 million from financing by issue of debt; (ii) the net receipt of RMB135.0 million from financing through transfer and repurchase agreement with Chang An Assets Management Limited\* (長安財富資產管理有限公司) after deducting the pledge of bank certificates of deposit; and (iii) the receipt of RMB150.0 million from the financing of bank loans. Our net cash outflow used in financing activities consisted of: (i) repayment of debt securities issued amounting to RMB175.0 million; (ii) repayment of financing from bank loans amounting to RMB150.0 million; (iii) payment of interest on borrowings of RMB21.1 million; and (iv) payment of distribution of cash dividend of RMB165.2 million.

## Management Discussion and Analysis (Continued)

### Cash management

As our business primarily relies on our available cash, we normally set aside a sufficient amount of cash for meeting general working capital needs, such as administrative expenses and payment of interests on bank loans, and use the remainder for granting loans to our customers. As at 31 December 2015 and 2016, total cash and cash equivalents amounted to RMB82.6 million and RMB29.2 million, respectively.

### Cash and cash equivalents

Cash and cash equivalents are primarily our cash at banks. The following table sets out our cash and cash equivalents as of the dates indicated:

Items	As of 31 December	
	2016 RMB'000	2015 RMB'000
Cash in hand	2	2
Cash at banks	23,152	82,398
Others	6,054	172
Cash and cash equivalents in the cash flow statement	29,208	82,572

The decrease in our cash and cash equivalents from RMB82.6 million as of 31 December 2015 to RMB29.2 million as of 31 December 2016 was primarily due to the purchase of wealth management products with a view to increase capital utilization rate.

### Restricted deposits

Our restricted deposits system is the bank deposit of RMB15.0 million for financing under the transfer and repurchase agreement.

### Interest receivables

Our interest receivables as of 31 December 2015 and 2016 were RMB14.9 million and RMB19.0 million, respectively. The increase in our interest receivables was mainly in line with the increase in our outstanding loans, which was primarily resulted from our enlarged capital base and business scale.

## Management Discussion and Analysis (Continued)

### Loans and advances to customers

Our loans and advances to customers reflect the total balance of our loan portfolio. The following table sets out our gross loans and advances to customers by customer type as of the dates indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
Corporate loans <sup>(1)</sup>	547,212	708,934
Retail loans	1,024,138	643,174
Internet loans	318,170	103,261
Gross loans and advances to customers	1,889,520	1,455,369
Less: allowances for impairment losses		
— Collectively assessed	(64,884)	(54,932)
— Individually assessed	(17,472)	(18,022)
Total allowances for impairment losses	(82,356)	(72,954)
Net loans and advances to customers	1,807,164	1,382,415

Note:

(1) Include loans to sole proprietors.

As at 31 December 2016, our net loans and advances to customers increased to RMB1,807.2 million, which was mainly resulting from our increased business scale and the consolidation of the loan portfolio of Xingyao Micro-finance, which was acquired in 2016.

We focus on providing short-term loans to minimize our risk exposure and, as a result, a substantial majority of our loans and advances to customers have a term of less than one year.

The following table sets out the maturity profile of the original term of our gross loans and advances to customers as of the dates indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
Due within three months	49,318	13,340
Due between three months and six months	484,343	156,371
Due between six months and one year	1,319,864	1,259,117
Due more than one year	35,995	26,541
Gross loans and advances to customers	1,889,520	1,455,369

## Management Discussion and Analysis (Continued)

We had overdue loans of RMB15.7 million and RMB31.0 million as at 31 December 2015 and 2016, respectively, accounting for 1.08% and 1.64% of our gross loans and advances to customers as of the same dates.

The following table sets out our loan portfolio by security as of the dates indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
Unsecured loans <sup>(1)</sup>	170,888	91,144
Guaranteed loans	1,651,250	1,283,653
Collateralized loans	59,602	79,972
Pledged loans	7,780	600
<b>Gross loans and advances to customers</b>	<b>1,889,520</b>	<b>1,455,369</b>

Note:

- (1) Our unsecured loans are generally of small amounts, with short terms, and granted to customers who have good credit histories upon assessing the risks involved in the loans during our credit evaluation process.

The majority of our loans were guaranteed loans, which accounted for 88.2% and 87.4% of our gross loans and advances to customers as at 31 December 2015 and 2016, respectively.

## OTHER ASSETS

The following table sets out the breakdown of other assets by their nature as of the dates indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
Prepaid income tax <sup>(1)</sup>	205	1,808
Prepayment	31,222	1,693
Others	232	97
<b>Total other assets</b>	<b>31,659</b>	<b>3,598</b>

Note:

- (1) Prepaid income tax represents the over-paid income tax by Jinhui Micro-finance for the years ended 31 December 2015 and 2016.

Our other assets during the aforesaid period increased by RMB28.1 million from RMB3.6 million as of 31 December 2015 to RMB31.7 million as of 31 December 2016, which was mainly attributable to the fact that we settled the placement debt (fourth tranche-1) for micro-loan company of RMB25.8 million in advance of its due date on 4 January 2017.

## Management Discussion and Analysis (Continued)

### Accruals and other payables

The following table sets out a breakdown of our accruals and other payables by nature as of the dates indicated:

	As of 31 December	
	2016 RMB'000	2015 RMB'000
Value added tax payable	978	—
Business tax and surcharges and other taxation payable	150	1,750
Accrued staff costs	3,453	1,748
Interest payable	503	61
Acquisition consideration payable (Note 14)	9,966	—
Dividends payable <sup>(1)</sup>	5,917	—
Other payables	7,866	3,690
<b>Total accruals and other payables</b>	<b>28,833</b>	<b>7,249</b>

Note:

(1) Dividends payable refers to dividends payable to original shareholders to be paid by Xingyao Micro-Finance prior to the acquisition.

The increase in our accruals and other payables during the aforesaid period was mainly due to: (i) the balance of consideration for the acquisition of Xingyao Micro-Finance payable by the Company as at 31 December 2016; and (ii) dividends payable to original shareholders to be paid by a subsidiary, Xingyao Micro-Finance, prior to the acquisition as at 31 December 2016.

### Current taxation liabilities

Our current taxation liabilities, which represent payables of our income tax, were RMB19.7 million and RMB11.6 million, respectively, as of 31 December 2015 and 2016.

### Capital commitments

We did not have any capital commitment as of 31 December 2016.

The following tables set out certain key financial ratios as of the dates indicated:

	As of 31 December	
	2016	2015
Return on weighted average equity	10.6%	11.3%
Average return on assets <sup>(1)</sup>	8.5%	10.8%

Note:

(1) Represents profit for the year divided by average balance of total assets as of the beginning and end of a year.

## Management Discussion and Analysis (Continued)

The slight decrease in our weighted average return on equity and average return on assets was mainly due to the fact that other revenues of the Company for year 2015 included listing grants of RMB13.0 million and exchange gains of RMB6.2 million, while there was no such gain for year 2016.

	As of 31 December	
	2016	2015
Gearing ratio <sup>(1)</sup>	35.4%	1.3%

Note:

(1) Represents the sum of interest-bearing borrowings and debt securities issued less cash and cash equivalents and restricted deposits, divided by total interests attributable to equity shareholders of the Company as of the end of a period.

Our gearing ratio grew from 1.3% as at 31 December 2015 to 35.4% as at 31 December 2016, which was mainly attributable to the expansion of financing leverage driven by our strong demand for loans. As of 31 December 2016, we had balance from debt securities issued of RMB278.3 million, and our financing balance under our transfer and repurchase agreement amounted to RMB150.0 million.

### Related party transactions

For the year ended 31 December 2016, we leased a property from Mr. Yu Yin, an executive Director and the chairman of the Board, and the rental payable was RMB515,000; we leased a property from the younger sister of Mr. Yu Yin and the rental payable was RMB110,000. Such related party transactions constituted the continuing connected transactions under Chapter 14A of the Listing Rules and were fully exempted from Shareholders' approval, annual review and all disclosure requirements.

Our Directors confirm that the leases were conducted on an arm's length basis and were fair and reasonable and in the interests of the Company and the Shareholders as a whole.

During the reporting period, Deqing Puhua Energy Company Limited and other related parties had guaranteed some of our bank loans. The balance of bank loans amounted to RMB100.0 million as at 31 December 2016. Such related party transaction constituted the continuing connected transaction under Chapter 14A of the Listing Rules and was fully exempted from Shareholders' approval, annual review and all disclosure requirements.

During the reporting period, Mr. Yu Yin, our executive Director and the chairman of the Board, and other related parties had provided guarantee for our issuance of debts to the platform of Zhejiang Province Equities Exchange Centre (浙江省股權交易中心). The carrying balance of debt securities issued amounted to RMB278.3 million as at 31 December 2016. Such related party transaction constituted the continuing connected transaction under Chapter 14A of the Listing Rules and was fully exempted from Shareholders' approval, annual review and all disclosure requirements.

During the reporting period, Mr. Yu Yin, our executive Director and the chairman of the Board, and other related parties had provided guarantee for the financing under our transfer and repurchase agreement with Chang An Assets Management Limited\* (長安財富資產管理有限公司). The balance of financing amounted to RMB150.0 million as at 31 December 2016. Such related party transaction constituted the continuing connected transaction under Chapter 14A of the Listing Rules and was fully exempted from Shareholders' approval, annual review and all disclosure requirements.

# Management Discussion and Analysis (Continued)

## INDEBTEDNESS

The following table sets out our profile of outstanding borrowings as of the dates indicated:

Items	As of 31 December	
	2016 RMB'000	2015 RMB'000
Bank loans	100,000	100,000
Debt securities issued	278,283	—
Borrowing from third parties under a repurchase agreement	150,000	—
Total	528,283	100,000

Our interest-bearing borrowings were the borrowings required for our business expansion.

## OFF-BALANCE SHEET ARRANGEMENTS

As of 31 December 2016, we did not have any off-balance sheet arrangements (2015: nil).

## EMPLOYMENT AND EMOLUMENTS

As of 31 December 2016, the Company had 118 employees. Employees' remuneration has been paid in accordance with relevant policies in the PRC. Appropriate salaries and bonuses were paid, which are commensurate with the actual practices of the Company. Other corresponding benefits include pension, unemployment insurance and housing allowance, etc.

## PROSPECTS

With the establishment of China Microfinance Companies Association (中國小額貸款公司協會) and promulgation of the Classification Standards of Financial Enterprises (《金融業企業劃型標準規定》), the financing intermediary role played by microfinance companies in the PRC is being increasingly recognized by relevant authorities and the microfinance industry as a whole is expected to benefit from the regulatory aspect.

In terms of our major market of offline business, Deqing was placed among the nation's top one hundred counties in terms of comprehensive strength in economic, social condition, environmental and government management aspects (綜合實力百強縣). A number of new high-technology, bio-pharmaceutical and innovative enterprises have either selected Deqing as their headquarters or conducted business in Deqing, thus help cultivating local financial services sector. In addition, Deqing has been designated as a "technological outstanding county (科技強縣)" as well as a "financial innovation demonstration county (金融創新示範縣)" by the Zhejiang provincial government. Therefore, we expect Deqing will continue to enjoy economic stability and provide us with a relatively conducive market environment to grow our market share as we continue to introduce innovative loan products, broaden business channels, enhance our market penetration and increase our competitive advantages by utilizing the advantage of our capital base.

At the same time, with our acquisition of Jinhui Micro-finance and establishment of two operation outlets in villages and towns in Deqing county which would help the continuous expansion of our business in Deqing, our market penetration rate of AFR (三農) customers would be further enhanced.

## Management Discussion and Analysis (Continued)

In November 2016, we acquired Xingyao Micro-finance situated at Hangzhou City, Zhejiang Province, which expanded our offline business coverage to Hangzhou City and further strengthened our competitive advantage.

Besides, on 13 April 2015, the Financial Work Office of the People's Government of Zhejiang Province (浙江省人民政府金融工作辦公室) has granted the approval to the Company for cooperation with micro e-commerce online money lending platforms (the “**Cooperation**”), which enables the Company to provide loans in aggregate representing not more than 30% of the Company's funding available for the granting of loans, to online retailers engaging in the business of lifestyle products, agricultural products, cultural supplies and industrial goods. The aggregate amount of loans granted to any of these online retailers shall not exceed RMB500,000, and the relevant annualized interest rate shall not exceed 15%. The Cooperation marks a positive development of the Company and the official commencement of our internet finance business. Such expansion in the scope of business would enable the Company to diversify its revenue stream, open up a channel for the provision of lending services to online retailers across the country and break through the geographical scope of the Company's business.

In January 2016, the Company commenced a strategic cooperation with Yuanbaopu (元寶鋪), a finance big data service platform, to establish an exclusive partnership within Zhejiang Province, Jiangsu Province and Shanghai City with focus on the development of sole credit-based micro-finance loan business. The parties intend to, including but not limited to, commence a strategic cooperation in the fields of data collection, customers referral, products operation models, research and development of new products, enhancement of brand competitiveness and identification of strategic targets, etc.

On this basis, the Company collaborated with other trustworthy internet enterprises to jointly develop the internet microfinance business, and have currently accumulated over 10,000 customers.

### USE OF PROCEEDS

The H Shares of the Company became listed on the main board of the Stock Exchange (the “**Main Board**”) on 13 January 2015 with net proceeds from the global offering of approximately HK\$338.4 million (after deducting underwriting commissions and related expenses). The net proceeds are expected to be used for expanding the capital base of our loan business.

The Directors intend to apply the net proceeds in the manner as set out in the prospectus of the Company dated 30 December 2014.

### SIGNIFICANT INVESTMENT

Save and except for the wealth management products issued by banks in the PRC, the Group had no significant investments held during the year ended 31 December 2016.

### MATERIAL ACQUISITIONS AND DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

On 15 August 2016, the Company entered into a sale and purchase agreement (the “**Sale and Purchase Agreement**”) with each of Hangzhou Qian Chao Chemical Co., Ltd\* (杭州錢潮化工有限公司), Hangzhou Yu Bao Electric Co., Ltd\* (杭州浴寶電器有限公司), Hangzhou Xin Ye Zhi Gai Co., Ltd\* (杭州欣業制蓋有限公司), Hangzhou Xing Yao Electric Power Engineering Co., Ltd\* (杭州興耀電力工程有限公司), Hangzhou Bo Fan Technology Co., Ltd\* (杭州博凡科技有限公司), Lin An City International Trade Building Co., Ltd\* (臨安市國貿大廈有限公司), Wang Xinyi\* (王新義), and four other individual shareholders (together, the “**Vendors**”) and Hangzhou Xing Yao Construction Group Co., Ltd\* (杭州興耀建設集團有限公司) (being one of the non-selling shareholders of Xingyao Micro-finance and the receiving agent of the Vendors).

## Management Discussion and Analysis (Continued)

Pursuant to the Sale and Purchase Agreement, the Company conditionally agreed to acquire and the Vendors each conditionally agreed to sell, in aggregate, the 60.00% equity interests in Xingyao Micro-finance held by the Vendors for a maximum consideration of RMB133.68 million (the “**Acquisition**”), which was arrived at after arm's length negotiations between the Company and the Vendors with reference to the net asset value of Xingyao Micro-finance as at 31 March 2016.

Xingyao Micro-finance is a licensed micro-finance company established in Hangzhou, Zhejiang Province, the PRC with an approved business scope including the provision of micro and small loans and development, management and financial advisory services to small enterprises in the High-Tech (Binjiang) Administrative District. Upon completion of the proposed acquisition, Xingyao Micro-finance will become a 60% non-wholly owned subsidiary of the Company, and its financial results will be consolidated into that of the Company. The Acquisition was completed on 17 November 2016 and the consideration paid was approximately RMB130.0 million.

Save as the disclosed above, the Group had no acquisition or disposal of subsidiaries, associates or joint ventures during the year ended 31 December 2016.

### CHARGE ON GROUP ASSETS

Our restricted deposits are the bank deposit of RMB15.0 million for financing of RMB150.0 million at an interest rate of 6.60% per annum under the transfer and repurchase agreement. Save as the disclosed, as at 31 December 2016, the Group did not have any charges on its assets (2015: nil).

### FUTURE PLANS FOR MATERIAL INVESTMENTS AND EXPECTED SOURCES OF FUNDING

As at the date of this annual report, the Group has not any concrete plan for material investments.

Other than normal bank loans we obtain from commercial banks, issuance of bond financing on the Zhejiang Equities Exchange Centre (浙江省股權交易中心) and income rights transfer and repurchase financing which we may consider, we do not expect to have any material external debt financing plan in the short term.

Save as the disclosed above, the Group had no future plans for material investments and expected sources of funding as at 31 December 2016.

### FOREIGN CURRENCY RISK

Foreign exchange risk arises when business transaction or recognised assets or liabilities are denominated in a currency that is not the entity's functional currency.

The Group operates in the PRC with most of its transactions denominated and settled in RMB. The Group's assets and liabilities, and transactions arising from its operations do not expose the Group to material foreign exchange risk as the Group's assets and liabilities as at 31 December 2016 were denominated in the respective Group companies' functional currencies.

### CONTINGENT LIABILITIES

As at 31 December 2016, the Group did not have any significant contingent liabilities (31 December 2015: nil).

## CHAIRMAN'S STATEMENT

2016 marks the beginning of the “Thirteenth Five Year Plan” and a new era of economic development, and also a key year for Company to comprehensively upgrade its financial services level and operation capabilities upon listing while advancing to the future. In the year, the growth rate of national economy remained slow while complicated with market-oriented development for interest rate and the release of non-performing risks. Such backdrop has brought along numerous opportunities and challenges to the macro-economic environment. Amidst such a complex economic environment, the Group captured the opportunities brought along with crisis and bucked the adverse trend by adhering to our operation philosophy of innovation and sustainable development. We strive to explore new concepts and fields while developing new products and markets to attain healthy and rapid development.

Company is a young and energetic new force in the financial market. As the largest licensed micro-finance company in Zhejiang Province, the Group is committed to provide financing solutions with flexible terms to AFR (三農) customers, SMEs and micro enterprises, national online retailers and customers of internet micro-loan via rapid, effective and comprehensive loan assessment and approval procedures to meet different needs. The Group is always adhered to the concept of “compliant operation” and has continuously accumulated strong capital base to establish extensive customer bases in line with its business scale.

Since the inception of the Company, the Group proactively responds to the advocate of government policies on supporting “AFR (三農)”, places its business focus on helping farmers, agriculture and villages related operating activities, and seriously handles the issue of difficult financing for local SMEs in Huzhou City. As such, the Group’s core customers are AFR customers, SMEs and micro enterprises engaging in different kinds of business lines, as well as online retailers engaging in the businesses of lifestyle products, agricultural products, cultural supplies and industrial products, and customers of internet micro-loan. To respond to the advocate on national environmental protection policies, the Group has granted loans to environmental protection entities on public gardening and greening fields to support their business development while declined the provision of loans to those enterprises with high energy consumption, high pollution and high emission level. On top of the above, the Group has also implemented relevant measures on low carbon operation, and made internal protocol in the form of regulatory system and firmly achieved electricity, water and power conservation.

In terms of assumption of social responsibilities, “donation of warm clothes for primary students in Yushu” has become an internal traditional campaign of the Group. In cooperation with “Yinxing Fund”, the Group expresses its condolences and care to disadvantaged families in the county. Through the labour union, the Company provides the disabled with consolation funds in the county. In 2016, the total loans granted to education system accumulated to RMB8.98 million. Meanwhile, the Company strongly supported poor students and provided interest-free grants and loans to them in cooperation with charity groups. The Company also supported the construction of local infrastructures.

The Group strives to maintain a high standard of corporate governance. Adhering to protecting the lawful interests of our clients, anti-money laundering, anti-counterfeit money, combating illegal fund-raising and anti-corruption, the Group have implemented measures to strictly comply with the relevant legislations and regulations of the stock exchange where the Group’s shares are listed on. Being a listing company, the Group puts strong emphasis on safeguarding the interests of Shareholders. The Board of the Group has established the following committees: the Audit Committee, Remuneration and Appraisal Committee, Nomination Committee and Loan Approval Committee to form an accountability system to ensure decisions made by the Group’s senior management are complied with the internal control system and regulatory requirements and in the interests of Shareholders.

Facing the new economic conditions, the Group will strategically focus on enhancing professional development, cooperation between different platforms, diversifying assets and internet-oriented development. By setting clear market position and focusing on our target customers, the Group are enjoying economies of scale from standardisation of assets to products. In the end of 2015, the Company set up the E-commerce Business Department to improve our efficiency and quality of services in response to the Thirteenth Five Year Plan.

# Environmental, Social and Governance Report (Continued)

The transformation of financial market is an inevitable trend of economic development in the PRC. Opportunities and challenges co-exist during the transformation stage. The “Central Committee of the Communist Party of China’s Proposal on Formulating the Thirteenth Five Year Plan on National Economic and Social Development (中共中央關於制定國民經濟和社會發展第十三個五年規劃的建議)” stated the role of the Government focuses on leading the acts of market subjects. Being an emerging force of the financial market, the Group will achieve good governance and conform to the national policies. With our organic development strategies, the Group will seize opportunities and face challenges in order to devote our effort to contribute to the “China Dream”!

## 1. ABOUT US (Continued)

### 1.5. Importance analysis matrix

The Group identified topics according to the requirements under Guide for ESG Reporting and survey results after considering the demand of stakeholders and the long term development strategies of the Company.

## 2. ECONOMIC RESPONSIBILITIES

Zhejiang Province is one of the provinces with the smallest difference of economic development in the PRC. Its economic development mainly relies on the robust growth of SMEs. Along with the gradual change of the economic development pattern in the PRC, diversified and dynamic SMEs and micro enterprises play more and more vital roles in the market.

The rapid growth of the Group in a short period relied on the economic support of the regions of operation. Being one of the few listing companies in Huzhou City, the responsibilities of the Group lay in supporting the economic development and improving the livelihoods in the regions of operation. Along with the development of the market economy, the consumption consciousness and the demand for short-term consumption loans are increasing. As consumption loan market is an important blue sea for informal financial developments, the expansion to consumption loan business enabled the Group to develop its business while satisfying the capital demand of consumers and bringing a better consumption environment and services to customers. Meanwhile, the Group also committed to provide supply chain finance services to customers, especially SMEs. This systematic financial arrangement targeting all members in a supply chain not only achieved mutually benefits and win-win situation between the Group and our customers, but also provided a more convenient financing channel for small-to-medium enterprises.

The Zhejiang Financial Office [2015] No. 75 document on Promoting the Micro-finance Company Innovative Development\* (關於促進小額貸款公司創新發展的浙金融辦[2015]75號文件) is promulgated by the Financial Work Office of the People's Government of Zhejiang Province\* (浙江省人民政府金融辦公室). Pursuant to the document, the Group lifted the importance of support to "AFR (三農)" and micro-enterprises to the level of fundamental strategies of the Company.

## 2. ECONOMIC RESPONSIBILITIES (Continued)

### 2.1. Promoting economic development

#### 2.1.1. Supporting local economic development

According to the requirements of the Finance Work Office of Zhejiang Province\* (浙江省金融工作辦公室), non-online loans of micro-finance companies can only be invested in their regions of operation (the regions of operation of the Group are Huzhou City and Binjiang District, Hanzhou City). Therefore, non-online loans of the Group can efficiently promote the economic growth of our regions of the operation.

As at 31 December 2016, the balance of non-online loan of the Group was RMB1,571.35 million, representing an increase of RMB219.24 million as compared with RMB1,352.11 million as at 31 December 2015.

The Group strongly supports local construction. In 2015, the Group granted loans in total amount of RMB76 million for city or nation infrastructures constructions.

#### 2.1.2. Supporting real economies

For the purpose of meeting the real demand of diversified and different customers and contributing to the development of real economies, various loan balances granted for supporting real economies amounted to RMB80.3 million as at 31 December 2016, representing an increase of RMB44.55 million as compared with RMB35.75 million as at 31 December 2015.

#### 2.1.3. Supporting the growth of micro-to-small enterprises

The Group has adhered to the idea of supporting the growth of micro-to-small enterprises in our operation. In the extent of efficient risk control, the loan balance granted to sole proprietors amounted to RMB13.72 million as at 31 December 2016, representing an increase of RMB12.14 million as compared with RMB1.58 million as at 31 December 2015.

#### 2.1.4. Supporting “AFR (三農)” development

China is a large agricultural country, whereas the “AFR” issues faced by the PRC require prompt solutions. In 2016, in the extent of effective credit risk control, the Group actively involved in the progress of solving the “AFR” issues in the regions of operation through various ways. As at 31 December 2016, the Group’s offline loan balance for “AFR” amounted to RMB768.14 million, among which the offline loan balance for agricultural business, rural development activities and residing in rural areas amounted to RMB26.5 million, RMB212.94 million and RMB528.7 million respectively. The offline loan balance for “AFR” in 2016 increased RMB39.61 million as compared to that of RMB728.53 million in 2015.

### 2.2. Facilitating livelihood improvement

#### 2.2.1. Supporting educational businesses

The Group has been placing great concerns on the development of educational businesses. The Group tried to satisfy the capital needs required by educational businesses development. As at 31 December 2016, the loan balance for educational businesses of the Group amounted to RMB2.71 million. As at 31 December 2015, the loan balance for educational businesses of the Group amounted to RMB5.42 million. In 2016, the Group granted interest-free loans in an accumulated aggregate amount of RMB80,000 to poor university students in the cooperation with charity organizations.

## 2. ECONOMIC RESPONSIBILITIES (Continued)

### 2.2. Facilitating livelihood improvement (Continued)

#### 2.1.2. Supporting individual consumption

The Group has been concerning on the improvement of living standards of residents in the regions of operation. As at 31 December 2016, the loan balance of different online platforms for individual consumption amounted to RMB47.58 million in total.

### 2.3. Internet Finance

On 3 November 2015, the “Central Committee of the Communist Party of China’s Proposal on Formulating the Thirteenth Five Year Plan on National Economic and Social Development (中共中央關於制定國民經濟和社會發展第十三個五年規劃的建議)” was officially promulgated. It is the first time the Internet Finance\* was included in the national five year plan and regulations of Internet Finance were introduced. The Group actively responded to the National Thirteenth Five Year Plan and launched loan businesses on the internet.

For the purpose of solving the problems of capital shortage of suppliers and distributors in procuring, the Group launched supply chain financial products in cooperation with brand enterprises in 2016. Currently, the Group has cooperation with the brand agents and distributors of OSMUN (歐詩漫) and TIANNENG (天能). Additionally, the Group and RoyalFlush (同花順) reached an agreement on advertisement and launched pure credit-based consumption loan products targeting white collar workers. By using big data to analyse the bank credit rating of customers, achieving mass customers acquiring and mass credit granting, the Group built a standardised operational model which enabled us to provide highly efficient and convenient financial services to more customers.

As at 31 December 2016, the Internet loan balance of the Group amounted to RMB318.17 million, representing an increase of RMB214.91 million as compared to RMB103.26 million as at 31 December 2015.

## 3. ENVIRONMENTAL RESPONSIBILITIES

Since the early stage of incorporation, the Group has regarded the environmental and resource protection as our essential responsibility. The Group has strictly complied with relevant legislations and regulations such as the Atmospheric Pollution Prevention and Control Law of the People’s Republic of China (《中華人民共和國大氣污染防治法》), the Environmental Protection Law of the People’s Republic of China (《中華人民共和國環境保護法》), the Energy Conservation Law of the People’s Republic of China (《中華人民共和國節約能源法》) and the Water Law of the People’s Republic of China (《中華人民共和國水法》).

### 3.1. Green operation

The Group applied the ideas of environmental protection in the operation. As enterprises with “three high emission indicators” (high pollution, high consumption, high emission) were the main sources of environmental pollutants, the Group did not provide any financial support to those enterprises, but tried to provide more convenient financial services to enterprises engaging in businesses which are beneficial to landscaping such as greening, nursery garden operation. In the end of 2015, the Group set up the internet finance department. Part of our businesses achieved electronic and paperless operation. As the gradual expansion of the Internet Finance Department, the consumption of paper of the Group will be further reduced. The electronic operation practically achieved low carbon and environmental friendly business.

## 4. SOCIAL RESPONSIBILITIES (Continued)

### 4.1. Staff (Continued)

#### 4.1.4. Remuneration

The Group provided attractive remuneration packages. Also, the Group will show its best wishes and present a gift for every staff of the Group on their birthdays.

Pursuant to the requirements of Chapter 9 of the Labor Law, the Group is obliged to make timely and full contributions to “five insurance and one fund” (pension insurance, medical insurance, unemployment insurance, injury insurance, maternity insurance and housing provident fund) for all staff in accordance to local requirements. The Group arranged working and resting time of staff pursuant to the requirements of Chapter 4 of the Labor Law in the aspects of working time, working intensity and official holidays. The Group also provides paid holidays for eligible staff.

#### 4.1.5. Work-life balance

A good balance between work and life is beneficial to facilitate better staff’s performance. Apart from strict compliance to the relevant requirements of national official holidays, the Group organises various recreational activities for its staff every year.

In July 2016, the Group organised a trip to Qiandao Lake, Zhejiang Province for all staff. On the eve of Mid-autumn festival of 2016, the administration and management department and marketing department of the Company held a “moon cake making” activity.

#### 4.1.6. Occupational health and safety

Occupational health and safety of the staff are always concerns of the Group. In the reporting period, the Group provided body checks for all staff and encouraged them to participate in cultural and sports activities for their health. The Group formulated regulations and organised staff trainings to increase their abilities of prevention from and emergency of fire, thus lowering the risk of occupational safety of the staff.

### 4.2. Suppliers

All of the 4 suppliers of the Group are from Yangtze River Delta regions. Suppliers mainly provided daily office supplies, means of transport and renovation services to the Group. Effective supply chain management is vital to the Group’s operation.

Although supply chain management is not a main scope of the Company’s operation as a service company, establishing long-term and stable partnerships with suppliers will enhance the public image of the Company, and thus minimise operational risk and thereby facilitate the Company’s growth. For this purpose, the Group has formulated relevant guidelines of assessments, selection and supervisions of suppliers. For assessing suppliers, the Group set multi-dimensional standards and different proportions in the aspects of quality, price, health, environment, safety and morality. In assessing suppliers, the Group will strictly comply with the standards to select qualified and high quality suppliers. In selecting suppliers, the Group will not only assess their performance according to the assessment standards, but also flexibly consider their reputation and suitability to establish long-term and stable partnerships. In relation to substantial procurement or infrastructure projects, the Group has specific bidding policies to ensure fairness and equity. ## DIRECTORS' INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

No transaction, arrangement or contract of significance to the business of the Group to which the Company, or any of its holding company, subsidiaries or fellow subsidiaries was a party, and in which a Director or his/her connected entity had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

## CONTRACTS OF SIGNIFICANCE

During the year ended 31 December 2016, there had been no contract of significance between the Company or any of its subsidiaries and a Controlling Shareholder, nor any contract of significance for the provision of services to the Company or any of its subsidiaries by a controlling shareholder or any of its subsidiaries.

## INTEREST OF DIRECTORS AND SUPERVISORS IN A COMPETING BUSINESS

None of the Directors, the supervisors of the Company or the management Shareholders and their respective close associates has an interest in a business which competes or may compete with the business of the Company.

### COMPLIANCE WITH NON-COMPETE UNDERTAKING

Each of Zuoli Holdings, Puhua Energy, Mr. Yu Yin, Mr. Yu Youqiang, Deqing Yintian, Mr. Shen Haiying, Dingsheng Investment and Mr. Zhang Jianming, being the Controlling Shareholders, has confirmed to the Company that he/it has complied with the non-compete undertakings given by them to the Company from the Listing Date to the date of this report. The independent non-executive Directors have reviewed the status of compliance and enforcement of the non-compete undertakings and confirmed that all the undertakings thereunder have been complied by each of the Controlling Shareholders.

### ARRANGEMENT FOR DIRECTORS AND SUPERVISORS TO PURCHASE SHARES OR DEBENTURES

At no time during the year ended 31 December 2016 were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any Director or Supervisors or their respective spouses or minor children, or were such rights exercised by them, or was the Company or its holding company a party to any arrangements to enable the Directors or Supervisors to acquire benefits by means of the acquisition of shares in, or debt securities (including debentures) of the Company or any other body corporate.

### RETIREMENT SCHEME

The Company participates in pension scheme organized by the municipal government of Huzhou City and Hangzhou City, Zhejiang for the Group's employees based in the PRC. Contributions to this retirement plan are set out in note 5 to the consolidated financial statements.

### COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

The Company complied with all code provisions as set out in the Corporate Governance Code (the "CG Code") contained in Appendix 14 to the Listing Rules during the year ended 31 December 2016.

### PLEDGE OF SHARES BY CONTROLLING SHAREHOLDERS

On 5 August 2016, Mr. Yu Yin, Mr. Shen Haiying and Mr. Zhang Jianming, being the Controlling Shareholders, have pledged 88,000,000, 23,760,000, and 19,301,000 Domestic Shares (the "Pledged Shares") held by each of them, representing approximately 7.46%, 2.01% and 1.64% of the total issued share capital of the Company respectively, in favour of Chang An as guarantee for the Company's obligation under a transfer and repurchase agreement between the Company and Chang An (the "Agreement"). The Pledged Shares represent in aggregate approximately 11.11% of the total issued share capital of the Company as at the date of this report.

The Agreement is a financing activity of the Company, and the funding obtained from Chang An under the Agreement will be used by the Company for its loan business. As at the date of this report, the pledge of the pledged shares has not been released.

## Report of the Directors (Continued)

### SIGNIFICANT LEGAL PROCEEDINGS

For the year ended 31 December 2016, the Company was not engaged in any litigation or arbitration of material importance and no litigation or claim of material importance is known to the Directors to be pending or threatened against the Company.

### EVENTS AFTER THE REPORTING PERIOD

The Group issued fixed rate corporate bonds in January 2017 with an aggregate nominal value of RMB175.0 million. The terms of these bonds are six months and the bonds bear an annualized coupon rate at 6%.

On 9 March 2017, the Board announced that it had approved a proposal of issuance of domestic corporate bonds in the PRC with an aggregate amount of no more than RMB300.0 million (inclusive). The interest rate will be determined by reference to the interest rate of private bond issue in the market under the same conditions over the same period.

For more details, please refer to the announcement and the circular of the Company, dated 9 March 2017 and 13 March 2017, respectively. The above proposed issuance of the domestic corporate bonds is subject to the shareholders' approval in an extraordinary general meeting of the Company to be held on 28 April 2017 and the relevant regulator's approval.

### CONNECTED TRANSACTION

On 25 October 2016, the Company and Hangzhou Xing Hao Property Co., Ltd\* (杭州星浩置業有限公司) (the "**Vendor**") entered into the sale and purchase agreement that the Company agreed to acquire the property located at Flat Numbers 2004, 2005 and 2006, Block 1, Xing Qi Building, Binjiang District, Hangzhou, PRC with a total gross floor area of 642.12 square metres (the "**Property**") at a total consideration of RMB14,034,550 (the "**Property Acquisition**"). The delivery of the Property is place on 31 March 2017.

The Vendor is owned as to 49% by Xing Yao Construction. On the basis that upon completion of the Xingyao Micro-finance Acquisition, (i) Xingyao Micro-finance will become a non-wholly owned subsidiary of the Company; (ii) Xing Yao Construction will remain a substantial shareholder of Xingyao Micro-finance and will become a connected person of the Company; and (iii) the Vendor, which is an associate of Xing Yao Construction, will become a connected person of the Company at the subsidiary level, the Property Acquisition is being considered as a connected transaction of the Company at the subsidiary level for the purpose of Chapter 14A of the Listing Rules.

As the Company will expand its geographical coverage of its offline microfinance business by acquiring Xingyao Micro-finance in Binjiang District in Hangzhou, the Board considers that the location of the Property is beneficial to the Company's expansion plan as it is located at Binjiang District which is a rapidly developing area and also houses the Hangzhou high-tech industrial development zone. The Company has operational needs to set up an office in Binjiang District, and the Property Acquisition would facilitate the Group's further business growth in the coming years.

The terms of the sale and purchase agreement were determined through arm's length negotiations between the Company and the Vendor with reference to the prevailing selling prices of other pre-sale units of the property development. The sale and purchase agreement is signed on a standardized agreement provided jointly by the Department of Construction of Zhejiang Province and the Zhejiang Administration Bureau for Industry and Commerce for all the pre-sale units of the property development. Taking into consideration the above, the Board (including the independent non-executive Directors) considers that the Property Acquisition are on normal commercial terms, are fair and reasonable and in the interests of the Company and the Shareholders as a whole.

None of the Directors has a material interest in the Property Acquisition nor was required to abstain from voting on the board resolution approving the sale and purchase agreement under the Articles of Association.

Save as disclosed above, during the year ended 31 December 2016, there was no other connected transaction of the Company that required for the reporting, annual reviews, announcement and independent Shareholders' approval under Chapter 14A of the Listing Rules. The Company confirmed that it has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules.

### AUDIT COMMITTEE

The audit committee of the Company has reviewed with the management the accounting principles and practices adopted by the Group and discussed the auditing, risk management and internal control systems and financial report matters including the review of the Group's consolidated financial results for the year ended 31 December 2016. The annual financial statements of the Group have been audited by the independent auditors of the Company, KPMG.

### AUDITORS

The consolidated financial statements for the year ended 31 December 2016 have been audited by KPMG, who shall retire and, being eligible, offer themselves for re-appointment. A resolution for the re-appointment of KPMG as auditors of the Company is to be proposed at the AGM.

By order of the Board

## Corporate Governance Report (Continued)

### MODEL CODE FOR SECURITIES TRANSACTIONS

The Company has adopted the Model Code as set out in Appendix 10 to the Listing Rules as the code of conduct for carrying out securities transactions of the Company by the Directors. After specific enquiry with all members of the Board, they have confirmed full compliance with the relevant standards stipulated in the Model Code throughout the year ended 31 December 2016.

Pursuant to Rule B.13 of the Model Code, the Directors has also requested any employee of the Company or director or employee of a subsidiary of the Company who, because of his office or employment in the Company or in a subsidiary, is likely to possess inside information in relation to the securities of the Company, not to deal in securities of the Company when he would be prohibited from dealing by the Model Code as if he were a Director.

### COMPANY SECRETARY

The Company has engaged in a service contract with an external service provider, Ms. Ho Wing Yan (“**Ms. Ho**”), who was the company secretary of the Company. Mr. Yu Yin, the chairman of the Board and executive Director, was the primary corporate contact person of the Company with Ms. Ho.

Being the company secretary of the Company, Ms. Ho played an important role in supporting the Board by ensuring good information flow within the Board and that Board policies and procedures are followed. Ms. Ho was responsible for advising the Board on corporate governance matters and should also facilitate induction and professional development of Directors.

During the year, Ms. Ho complied with the relevant professional training requirement under Rule 3.29 of the Listing Rules.

### FINANCIAL REPORTING AND INTERNAL CONTROL

#### Financial reporting

The Directors acknowledge their responsibility to prepare the Company’s financial statements which give a true and fair view of the Group’s state of affairs, results and cash flows for the year and in accordance with the Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants, and the disclosure requirements of the Companies Ordinance. The Company has selected appropriate accounting policies and has applied them consistently based on prudent and reasonable judgments and estimates. The Board considers that the Company has adequate resources to continue in business for the foreseeable future and is not aware of any material uncertainties relating to events or conditions that may affect the business of the Group or cast doubts on its ability to continue as going concern.

The responsibility of KPMG, the Company’s external auditors, with respect to financial reporting is set out in the section headed “Independent Auditor’s Report” in this annual report.

## EXTERNAL AUDITORS

KPMG has been appointed as the external auditors of the Company. The Audit Committee has been notified of the nature and the service charges of non-audit services performed by KPMG and considered that such services have no adverse effect on the independence of the external auditors.

In 2016, fee payable to KPMG for the annual audit services was RMB1.58 million (2015: RMB1.38 million); and RMB0.25 million (2015: nil) for the non-audit services of limited assurance on the ESG Report of the Group for the year ended 31 December 2016.

There was no disagreement between the Board and the Audit Committee on the selection and appointment of the external auditors during the year under review.

## COMMUNICATION WITH SHAREHOLDERS AND SHAREHOLDERS' RIGHTS

The Company aims to, via its corporate governance structure, enable all Shareholders an equal opportunity to exercise their rights in an informed manner and allow all Shareholders to engage actively with the Company. Under the Company's Articles of Association, the shareholder communication policy and other relevant internal procedures of the Company, the Shareholders enjoy, among others, the following rights:

### (i) Participation at general meetings

The general meetings of the Company provide an opportunity for direct communication between the Board and the Shareholders. The Company encourages the participation of the Shareholders through annual general meetings and other general meetings where the Shareholders meet and exchange views with the Board, and to exercise their right to vote at meetings. The Company shall arrange notices of meetings and circulars containing details on proposed resolutions to be sent to the Shareholders no less than 45 days before the meeting. At general meetings, separate resolutions are proposed on each substantial issue, including the election of individual Directors.

### (ii) Enquiries and proposals to the Board

The Company encourages Shareholders to attend Shareholders' meetings and make proposals by either directly raising questions on both operational and governance matters to the Board and Board Committees at the general meetings or providing written notice of such proposals for the attention of the Company Secretary at the principal place of business of the Company in Hong Kong situated at 33rd Floor, Shui On Centre, 6–8 Harbour Road, Wanchai, Hong Kong.

### (iii) Convening extraordinary general meetings

Pursuant to the Articles of Association, the Board shall convene an extraordinary general meeting within two months where the Shareholders with 10% or more voting right individually or jointly request to convene an extraordinary general meeting in writing. Two or more than two Shareholders in aggregate holding no less than 10% of shares carrying voting right may request the Board to convene an extraordinary general meeting or class Shareholders' meeting through a written request or several copies of such request in the same form and to illustrate the subject of the meeting. The Board shall convene an extraordinary general meeting or class Shareholders' meeting as soon as practicably upon receipt of the foresaid written request. The aforesaid number of Share holdings shall be calculated as of the date of the submission of the written request by the Shareholder(s). A Shareholder's general meeting shall be convened in accordance with the Articles of Association.

All reasonable expenses incurred by convening and holding the aforesaid meeting by Shareholders due to the failure of the Board to hold such meeting in response to the aforesaid request(s) shall be borne by the Company. Such expenses shall be deducted from the amounts due by the Company to the Director(s) who have defaulted their duties.

## Corporate Governance Report (Continued)

### (iv) Procedures for putting forward proposals at a general meeting

In overseeing and monitoring the business operation of the Company, the Shareholders have the right to put forward proposals and raise inquiries. Shareholders holding 3% or more of the Company's voting shares have the right to put up ad hoc proposals in writing to the Company, and the Company shall include such ad hoc proposals into the agenda for such general meeting if they are matters falling within the functions and powers of general meeting.

## CONSTITUTIONAL DOCUMENTS

Pursuant to resolutions of the Shareholders passed on 19 May 2014, 8 August 2014, 18 October 2014, 4 November 2014, 21 November 2014 and 18 December 2014, the Articles of Association were adopted with effect from the Listing Date and were for the amended pursuant to the resolution of the Shareholders passed on 30 June 2015. In 2016, certain amendments were made to the Articles of Association to align with current condition of the Company's management. These amendments were duly passed by the Shareholders at the general meeting of the Company held on 7 April 2016 and the amended version of the Articles of Association has been adopted since then. Save as disclosed above, no other change was made to the Articles of Association during the year ended 31 December 2016.

The Articles of Association are available on the websites of the Stock Exchange and the Company.

## RISK MANAGEMENT AND INTERNAL CONTROL

During the year ended 31 December 2016, the Board complied with the Code Provisions on risk management and internal control as set out in the CG Code. The Board has overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Group's strategic objectives, and maintaining appropriate and effective risk management and internal control systems for the Group. The systems are designed to manage the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The management of the Company has established a set of comprehensive policies, standards and procedures in areas of operational, financial and risk controls for safeguarding assets against unauthorized use or disposition; for maintaining proper accounting records; and for ensuring the reliability of financial information to achieve a satisfactory level of assurance against the likelihood of the occurrence of fraud and errors.

The Board has overseen the Company's risk management and internal control systems on an ongoing basis. For the year ended 31 December 2016, the Board has reviewed the effectiveness of the Company's and its subsidiaries' risk management and internal control systems, and the systems are considered to be effective and adequate. The Board has been conducted such review on an annual basis and the Company also has an internal audit function to carry out the analysis and independent appraisal of the adequacy and effectiveness of the systems, and has procedures in place to keep information confidential and manage actual or potential conflicts of interest. Stringent internal structures have been designed to prevent the misuse of inside information and avoid conflicts of interest.

# Independent Auditor's Report

**To the Shareholders of Zuoli Kechuang Micro-finance Company Limited**

*(a joint stock Company incorporated in the People's Republic of China (the "PRC") with limited liability)*

## OPINION

We have audited the consolidated financial statements of Zuoli Kechuang Micro-finance Company Limited (the "Company") and its subsidiaries (together, the "Group") set out on pages 80 to 132, which comprise the consolidated statements of financial position as at 31 December 2016, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the financial position of the Group as at 31 December 2016 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

## BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAAs"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants (the "Code") together with any ethical requirements that are relevant to our audit of the consolidated financial statements in the PRC, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## KEY AUDIT MATTERS

### Impairment of loans and advances to customers

Refer to note 11 to the consolidated financial statements and the accounting policies on page 88 to page 90.

#### The Key Audit Matter

#### How the matter was addressed in our audit

The Group provides micro-finance services to a diversified customer base. The Group's loans and advances to customers as at 31 December 2016 totalled RMB1,807.2 million which represented 88.9% of the Group's total assets at that date.

The Group's impaired loans and advances to customers decreased from RMB35.1 million as at 31 December 2015 to RMB27.0 million as at 31 December 2016, with allowances for impairment totalling RMB17.5 million as at 31 December 2016.

Impairment of loans and advances to customers is a subjective area due to the level of judgement exercised by management in determining allowances.

From the Group's perspective, the loan portfolios which give rise to the most uncertainty in determining allowances for impairment of loans and advances to customers are those where impairment is derived from a collective assessment model, where the loans and advances are unsecured or where the loans and advances are subject to potential collateral shortfalls.

The determination of the collective allowances for impairment is heavily dependent on the external macro environment and the Group's internal credit risk management models. The Group's collective allowances for impairment are derived from estimates including the Group's historical losses for loans and advances to customers, the loss emergence period (i.e. the time lapse between the occurrence of the event causing eventual default to the actual recording of a loss) and other adjustment factors.

Our audit procedures to assess the impairment of loans and advances to customers included the following:

- assessing the design, implementation and operating effectiveness of key internal controls over the approval, recording and monitoring of loans and advances to customers, the credit grading process and the measurement of allowances for impairment of loans and advances to customers;
- comparing the total balance of the loan grading report used by management to assess allowances for impairment with the general ledger and comparing individual loan information on a sample basis to the underlying loan agreement and other related documentation to assess the presentation of the information in the loan grading report;
- evaluating the validity of the models used and assumptions adopted in the management's calculation of the collective allowances for impairment by critically assessing input parameters involving management judgement, seeking collaborative evidence from external sources and comparing the historical losses with other internal records of the Group and our prior year records. As part of these procedures, we challenged management's revisions to estimates and input parameters, the consistency of judgement applied in the use of economic factors, the loss emergence period and the observation period for historical losses. We also evaluated the emergence period by comparing the lifecycle of overdue accounts from the specific credit event to the downgrading of the account to an impaired loan. Having considered the above, we performed recalculations to assess the collective allowances for impairment;

# Independent Auditor's Report (Continued)

## KEY AUDIT MATTERS (Continued)

### Impairment of loans and advances to customers (continued)

Refer to note 11 to the consolidated financial statements and the accounting policies on page 88 to page 90.

#### The Key Audit Matter

#### How the matter was addressed in our audit

Individual allowances for impairment are assessed by management once objective evidence of impairment becomes apparent in a loan. Management exercises judgement in determining the quantum of loss based on a range of factors. These include available remedies for recovery, the financial situation of the borrower, collateral valuation, the seniority of claim and the existence and cooperativeness of other creditors. Enforceability, timing and means of realisation of the collateral has a significant impact on collateral valuation and, therefore, the amount of impairment allowances at the reporting date.

We identified impairment of loans and advances to customers as a key audit matter because of the inherent uncertainty involved in management's exercise of judgement in determining the level of allowances and because of the significance of the impairment loss for the year to the financial results of the Group.

- evaluating the impairment allowances for individually impaired loans and advances to customers by selecting a risk-based sample for the purpose of performing credit reviews. We analysed the loan portfolio by industry sector to select samples for credit reviews in industries more vulnerable to the current economic slowdown. We selected further samples for credit reviews from loans classified as "Special Mention" or "Substandard" according to Group's loan grading system;
- performing credit review procedures for the sample of loans and advances selected on the basis indicated above, which included reviewing the customers' financial information, researching market information about customers' businesses and evaluating management's assessment of the value of any collateral held, assessing the forecast cash flows for impaired loans, challenging the viability of the Group's recovery plans, comparing management's valuation of collateral to market prices, evaluating the timing and means of realisation of collateral and considering other sources of repayment asserted by management.

# Independent Auditor's Report (Continued)

## KEY AUDIT MATTERS (Continued)

### Assessing potential impairment of goodwill

Refer to note 12 to the consolidated financial statements and the accounting policies on page 92.

#### The Key Audit Matter

#### How the matter was addressed in our audit

As at 31 December 2016 the carrying value of the Group's goodwill, which arose from the acquisition of two subsidiaries in year 2015 and 2016 respectively, was RMB22.5 million.

There is a risk that the carrying value of goodwill may not be recoverable in full through the future cash flows to be generated from the related cash-generating unit (the "CGU") to which the goodwill has been allocated. The recoverable amount of the CGU was determined by the management using the value-in-use model whereby a discounted cash flow forecast at the CGU level was prepared by management.

We identified the potential impairment of goodwill as a key audit matter because of its significance to the consolidated financial statements and because determining whether any impairment is required involves a significant degree of management judgement and estimation in forecasting future cash flows, including the annual growth rate, the perpetual growth rate, interest rates and the amount of bad debts, all of which can be inherently uncertain and could be subject to management bias.

Our audit procedures to assess the potential impairment of goodwill included the following:

- involving our internal valuation specialists to assist us in evaluating the methodology used by management in the preparation of the discounted cash flow forecast with reference to the requirements of the prevailing accounting standards;
- challenging the assumptions and critical judgements made by management in the preparation of the discounted cash flow forecast by comparing key inputs, including the annual growth rate, the perpetual growth rate, interest rates and the amount of bad debts with the historical performance of the relevant acquired subsidiaries, management's budgets and forecasts and industry reports;
- performing a retrospective review by comparing the prior year's discounted cash flow forecast with the current year's results to assess the reliability and historical accuracy of management's forecasting process;
- evaluating the discount rate used in the discounted cash flow forecast by benchmarking the discount rate against the discount rates for similar companies;
- obtaining management's sensitivity analyses for the key assumptions, including the annual growth rate and the discount rate, adopted in the discounted cash flow forecast and assessing the impact of changes in the key assumptions to the conclusions reached by management in its impairment assessment and whether there were any indicators of management bias;
- considering the disclosures in the consolidated financial statements in respect of impairment testing of goodwill with reference to the requirements of the prevailing accounting standards.

### INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibility for overseeing the Group's financial reporting process.

## Independent Auditor's Report (Continued)

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings.

## Independent Auditor's Report (Continued)

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Siu Tung Chan.

# Notes to the Financial Statements

(Expressed in RMB'000, unless otherwise stated)

## 1 SIGNIFICANT ACCOUNTING POLICIES

### (a) Statement of compliance

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (HKFRSs), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (HKASs) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (HKICPA), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. Significant accounting policies adopted by the Group are disclosed below.

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 1(c) provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

### (b) Basis of preparation of the financial statements

The consolidated financial statements for the year ended 31 December 2016 comprise the Company and its subsidiaries (together referred to as the "Group").

The measurement basis used in the preparation of the financial statements is the historical cost basis, except for the available-for-sale financial assets (see Note 1 (h)).

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in Note 26.

### (c) Changes in accounting policies

The HKICPA has issued a number of amendments to HKFRSs that are first effective for the current accounting period of the Group. None of these developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (d) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see Note 1(h)) or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see Note 1(k)).

### (e) Goodwill

Goodwill represents the excess of

- (i) the aggregate of the fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the Group's previously held equity interest in the acquiree; over
- (ii) the net fair value of the acquiree's identifiable assets and liabilities measured as at the acquisition date.

When (ii) is greater than (i), then this excess is recognised immediately in profit or loss as a gain on a bargain purchase.

Goodwill is stated at cost less accumulated impairment losses. Goodwill arising on a business combination is allocated to each cash-generating unit, or groups of cash generating units, that is expected to benefit from the synergies of the combination and is tested annually for impairment (see Note 1(k)).

On disposal of a cash generating unit during the year, any attributable amount of purchased goodwill is included in the calculation of the profit or loss on disposal.

### (f) Fixed assets

Fixed assets are stated at cost less accumulated depreciation and impairment losses (see Note 1(k)).

The cost of self-constructed items of fixed assets includes the cost of materials, direct labour and borrowing costs.

Gains or losses arising from the retirement or disposal of an item of fixed assets are determined as the difference between the net disposal proceeds and the carrying amount of the item and are recognised in profit or loss on the date of retirement or disposal.

Depreciation is calculated to write off the cost of fixed assets, less their estimated residual value, if any, using the straight line method over their estimated useful lives as follows:

	<b>Estimated useful lives</b>
Premises	20 years
Office and other equipment	5 years
Motor vehicles	5 years
Electronic equipment	5 years
Leasehold improvement	5 years

Where parts of an item of fixed assets have different useful lives, the cost is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (g) Leased assets

An arrangement, comprising a transaction or a series of transactions, is or contains a lease if the Group determines that the arrangement conveys a right to use a specific asset or assets for an agreed period of time in return for a payment or a series of payments. Such a determination is made based on an evaluation of the substance of the arrangement and is regardless of whether the arrangement takes the legal form of a lease.

#### Operating lease charges

Where the Group has the use of assets held under operating leases, payments made under the leases are charged to profit or loss in equal instalments over the accounting periods covered by the lease term, except where an alternative basis is more representative of the pattern of benefits to be derived from the leased asset. Lease incentives received are recognised in profit or loss as an integral part of the aggregate net lease payments made. Contingent rentals are charged to profit or loss in the accounting period in which they are incurred.

### (h) Financial instruments

#### (i) Recognition and measurement of financial assets and liabilities

A financial asset or financial liability is recognised in the statement of financial position when the Group becomes a party to the contractual provisions of a financial instrument.

Financial assets and financial liabilities are measured initially at fair value, plus, for instruments not classified as at fair value through profit or loss, any directly attributable transaction costs.

Financial assets and financial liabilities are categorized as follows:

##### — *Loans and receivables*

Loans and receivables are non-derivative financial assets held by the Group with fixed or determinable recoverable amounts that are not quoted in an active market, other than

- (a) those that the Group intends to sell immediately or in the near-term, which will be classified as held for trading;
- (b) those that the Group, upon initial recognition, designates as at fair value through profit or loss or as available-for-sale; or
- (c) those where the Group may not recover substantially all of its initial investment, other than because of credit deterioration, which will be classified as available-for-sale.

Subsequent to initial recognition, loans and receivables are stated at amortized cost using the effective interest method.

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (h) Financial instruments (Continued)

#### (i) Recognition and measurement of financial assets and liabilities (Continued)

##### — *Available-for-sale financial assets*

Available-for-sale financial assets include non-derivative financial assets that are designated upon initial recognition as available-for-sale and other financial assets which do not fall into any of the above categories.

Subsequent to initial recognition, available-for-sale financial assets are measured at fair value, without any deduction for transaction costs that may occur on sale and changes therein, except for impairment losses and foreign exchange gains and losses from monetary financial assets, are recognised directly in other comprehensive income.

##### — *Other financial liabilities*

Financial liabilities other than the financial liabilities at fair value through profit or loss are classified as other financial liabilities.

Subsequent to initial recognition, other financial liabilities are measured at amortized cost using the effective interest method.

#### (ii) Impairment of financial assets

The carrying amounts of financial assets other than those at fair value through profit or loss are reviewed by the Group at the end of each reporting period to determine whether there is objective evidence of impairment. If any such evidence exists, impairment loss is provided. Objective evidence of impairment in the financial asset represents events that occur after the initial recognition of the financial asset and have impact on the estimated future cash flows of the asset, which can be estimated reliably.

Objective evidence includes the following loss event:

- significant financial difficulty of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; and
- a significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (h) Financial instruments (Continued)

#### (ii) Impairment of financial assets (Continued)

If any such evidence exists, any impairment loss is determined and recognised as follows:

##### *Loans and receivables*

The Group uses two methods of assessing impairment losses: those assessed individually and those assessed on a collective basis.

##### — *Individual assessment*

Loans and receivables, which are considered individually significant, are assessed individually for impairment. If there is objective evidence of impairment of loans and receivables, the amount of loss is measured as the excess of its carrying amount over the present value of the estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these assets), where the effect of discounting is material. The impairment losses are recognised in profit or loss.

Cash flows relating to short-term loans and receivables are not discounted when assessing impairment loss if the difference between the estimated future cash flows and its present value is immaterial.

The calculation of the present value of the estimated future cash flows of a collateralized loan or receivable reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral.

##### — *Collective assessment*

Loans and receivables which are assessed collectively for impairment include individually assessed loans and receivables with no objective evidence of impairment on an individual basis, and homogeneous groups of loans and receivables which are not considered individually significant and not assessed individually. Loans and receivables are grouped for similar credit risk characteristics for collective assessment. The objective evidence of impairment mainly includes that, though it is unable to identify the decrease of cash flow of each individual asset, after collective assessment based on observable data, there is observable evidence indicating that there is a measurable decrease in the estimated future cash flow from a group of financial assets since the initial recognition of those assets.

The Group periodically reviews and assesses the impaired loans and receivables for any subsequent changes to the estimated recoverable amounts and the resulted changes in the provisions for impairment losses.

If, in a subsequent period the amount of an impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss. The reversal shall not result in a carrying amount of the financial asset that exceeds the amortized cost at the date of the reversal had the impairment not been recognised.

When the Group determines that a loan has no reasonable prospect of recovery after the Group has completed all the necessary legal or other claim proceedings, the loan is written off against its provisions for impairment losses upon necessary approval.

# Notes to the Financial Statements (Continued)

(Expressed in RMB'000, unless otherwise stated)

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (h) Financial instruments (Continued)

#### (ii) Impairment of financial assets (Continued)

##### *Available-for-sale financial assets*

When an available-for-sale financial asset is impaired, the cumulative loss arising from decline in fair value that had been recognised in other comprehensive income is reclassified to the profit or loss even though the financial asset has not been derecognised.

The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost net of any principal repayment and amortization and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss.

Impairment losses recognised in profit or loss in respect of available-for-sale equity securities are not reversed through profit or loss. Any subsequent increase in the fair value of such assets is recognised in other comprehensive income. Impairment losses in respect of available-for-sale debt securities are reversed if the subsequent increase in fair value can be objectively related to an event occurring after the impairment loss was recognised. Reversals of impairment losses in such circumstances are recognised in profit or loss.

#### (iii) Fair value measurement

If there is an active market for a financial asset or financial liability, the quoted price in the active market without adjusting for transaction costs that may be incurred upon future disposal or settlement is used to establish the fair value of the financial asset or financial liability.

If no active market exists for a financial instrument, a valuation technique is used to establish the fair value. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties; reference to the current fair value of another instrument that is substantially the same; discounted cash flow analysis and option pricing models. Where discounted cash flow technique is used, future cash flows are estimated based on management's best estimates and the discount rate used is the prevailing market rate applicable for instrument with similar terms and conditions at the end of each reporting period. Where other pricing models are used, inputs are based on market data at the end of each reporting period.

In estimating the fair value of a financial asset and financial liability, the Group considers all factors including, but not limited to, risk-free interest rate, credit risk, foreign exchange rate and market volatility, that are likely to affect the fair value of the financial asset and financial liability.

The Group obtains market data from the same market where the financial instrument was originated or purchased.

#### (iv) Derecognition of financial assets and financial liabilities

Financial assets (or a part of a financial asset or group of financial assets) are derecognised when the financial assets meet one of the following conditions:

- the contractual rights to the cash flows from the financial asset expire; or
- the Group transfers substantially all the risks and rewards of ownership of the financial assets or where substantially all the risks and rewards of ownership of a financial asset are neither retained nor transferred, the control over that asset is relinquished.

(Expressed in RMB'000, unless otherwise stated)

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (h) Financial instruments (Continued)

#### (iv) Derecognition of financial assets and financial liabilities (Continued)

If the Group neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, but retains control, the Group continues to recognise the financial asset and relevant liability to the extent of its continuing involvement in the financial asset.

The financial liability (or part of it) is derecognised only when the underlying present obligation (or part of it) specified in the contracts is discharged, cancelled or expired. An agreement between the Group and an existing lender to replace the original financial liability with a new financial liability with substantially different terms, or a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and recognition of a new financial liability. The difference between the carrying amount of the derecognised financial liability and the consideration paid is recognised in profit or loss.

#### (v) Offsetting

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position when the Group has a legally enforceable right to set off the recognised amounts and the transactions are intended to be settled on a net basis, or by realising the asset and settling the liability simultaneously.

#### (vi) Equity instruments

An equity instrument is a contract that proves the ownership interest of the residual assets after deducting all liabilities of the Group. Considerations received from issuance of equity instruments net of transaction costs are recognised in equity. Considerations and transaction costs paid by the Group for repurchasing its own equity instruments are deducted from equity.

### (i) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between the amount initially recognised and redemption value being recognised in profit or loss over the period of the borrowings, together with any interest and fees payable, using the effective interest method.

### (j) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits with banks and other financial institutions, and short-term, highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, having been within three months of maturity at acquisition.

(Expressed in RMB'000, unless otherwise stated)

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (k) Impairment of non-financial assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- fixed assets (other than revalued amounts);
- pre-paid interests in leasehold land classified as being held under an operating lease;
- intangible assets;
- goodwill; and
- investments in subsidiaries in the Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for goodwill, the recoverable amount is estimated annually whether or not there is any indication of impairment.

#### — Calculation of recoverable amount

The recoverable amount of an asset is greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

#### — Recognition of impairment losses

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs to sell, or value in use, if determinable.

#### — Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (l) Employee benefits

Short term employee benefits and contributions to defined contribution retirement plans

- Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

### (m) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The limited exceptions to recognition of deferred tax assets and liabilities are those temporary differences arising from goodwill not deductible for tax purposes, the initial recognition of assets or liabilities that affect neither accounting nor taxable profit (provided they are not part of a business combination), and temporary differences relating to investments in subsidiaries to the extent that, in the case of taxable differences, the Group controls the timing of the reversal and it is probable that the differences will not reverse in the foreseeable future, or in the case of deductible differences, unless it is probable that they will reverse in the future.

# Notes to the Financial Statements (Continued)

(Expressed in RMB'000, unless otherwise stated)

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (m) Income tax (Continued)

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, using tax rates enacted or substantively enacted at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Additional income taxes that arise from the distribution of dividends are recognised when the liability to pay the related dividends is recognised.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

### (n) Value-added-tax (“VAT”)

Output VAT is calculated on taxable services revenue. The basis for VAT payable is to deduct input VAT from the output VAT for the period. The tax rate of VAT is 6%.

### (o) Provisions and contingent liabilities

#### (i) Contingent liabilities assumed in business combinations

Contingent liabilities assumed in a business combination which are present obligations at the date of acquisition are initially recognised at fair value, provided the fair value can be reliably measured. After their initial recognition at fair value, such contingent liabilities are recognised at the higher of the amount initially recognised, less accumulated amortisation where appropriate, and the amount that would be determined in accordance with Note 1(o)(ii). Contingent liabilities assumed in a business combination that cannot be reliably fair valued or were not present obligations at the date of acquisition are disclosed in accordance with Note 1(o)(ii).

# Notes to the Financial Statements (Continued)

(Expressed in RMB'000, unless otherwise stated)

## 1 SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (o) Provisions and contingent liabilities (Continued)

#### (ii) Other provisions and contingent liabilities

Provisions are recognised for other liabilities of uncertain timing or amount when the Group has a legal or constructive obligation arising as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made. Where the time value of money is material, provisions are stated at the present value of the expenditure expected to settle the obligation.

Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent liabilities unless the probability of outflow of economic benefits is remote.

### (p) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Provided it is probable that the economic benefits will flow to the Group and the revenue and costs, if applicable, can be measured reliably, revenue is recognised in profit or loss as follows:

#### (i) Interest income

Interest income is recognised as it accrues using the effective interest method.

#### (ii) Government grants

Government grants are recognised in the statement of financial position initially when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as income in profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are deducted from the carrying amount of the asset and consequently are effectively recognised in profit or loss over the useful life of the asset by way of reduced depreciation expense.

### (q) Translation of foreign currencies

Foreign currency transactions during the year are translated at the foreign exchange rates ruling at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the foreign exchange rates ruling at the end of the reporting period. Exchange gains and losses are recognised in profit or loss.

Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the foreign exchange rates ruling at the transaction dates. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated using the foreign exchange rates ruling at the dates the fair value was measured.

### (r) Borrowing costs

Borrowing costs are expensed in the period in which they are incurred.

### (s) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) The entity and the Group are members of the same Group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a Group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a Group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

### (t) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

<b>Net interest income</b>	<b>219,221</b>	203,951

The Group's customer base is diversified and no customer with whom transactions have exceeded 10% of the Group's net interest income during the years ended 31 December 2016 and 2015. Details of concentration of credit risk are set out in Note 23(a).

For the years ended 31 December 2016 and 2015, the directors have determined that the Group has only one single business component/reportable segment as the Group is principally engaged in providing lending services which is the basis to allocate resources and assess performance of the Group.

The principal place of the Group's operation is in Zhejiang Province in the PRC. For the purpose of segment information disclosures under HKFRS 8, the Group regarded Zhejiang Province as its place of domicile. All the Group's revenue and assets are principally attributable to Zhejiang Province, being the main operating region.

### 12 GOODWILL (Continued)

#### Impairment test

The recoverable amount of the acquired subsidiaries are determined based on value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond five-year period are extrapolated using an estimated weighted average growth rate of 5%, which is consistent with the forecasts included in industry reports. The growth rates used do not exceed the long-term average growth rates for micro-finance operations. The cash flows are discounted using a discount rate which is used are pre-tax and reflect specific risks relating to the acquired subsidiaries.

### 13 INVESTMENTS IN SUBSIDIARIES

### 14 ACQUISITION OF SUBSIDIARY

On 15 August 2016, the Company acquired 60% equity interests in Xingyao Micro-finance at a total consideration of approximately RMB130.0 million. The above acquisition was completed on 17 November 2016. As at 31 December 2016, the Company had paid cash of RMB120.0 million and recognized an acquisition consideration payable of approximately RMB10.0 million.

The consideration of approximately RMB130.0 million aforementioned included: (1) the cash consideration of RMB120.0 million paid; (2) the government grant of RMB2.4 million and RMB7.6 million of the estimated repayment received by Xingyao Micro-finance in relation to the principals and interests of designated loans (the "Outstanding Receivables"), which will be paid to the original shareholders ("Selling Shareholders") who have equities in Xingyao Micro-finance.

Pursuant to the share purchase agreement ("Purchase Agreement") signed on 15 August 2016, the Company has agreed to pay the selling shareholders a consideration no more than RMB4.0 million which was equal to the tax refunds in relation to the years ended 31 December 2015 and 2016 and would be received from the related government authorities by Xingyao Micro-finance subsequent to the date of Purchase Agreement and before 31 January 2017 and 31 January 2018, respectively. By 31 December 2016, the Group has received the related government grant of RMB2.4 million and recognised it as acquisition consideration payable.

Pursuant to the Purchase Agreement, the Company has also agreed to pay the selling shareholders a consideration which was equal to the actual repayment received by Xingyao Micro-finance in relation to the Outstanding Receivables subsequent to the date of Purchase Agreement. The principal amounts of the Outstanding Receivables were RMB9.7 million. As at 31 December 2016, the Group estimated that RMB7.6 million of the Outstanding Receivables will be collected and recognised it as acquisition consideration payable.

From the date of the above acquisition to 31 December 2016, Xingyao Micro-finance contributed net interest income of RMB3.3 million, and net profit of RMB9.0 million to the Group's results. If the acquisition had occurred on 1 January 2016, management estimates that consolidated net interest income would have been RMB256.9 million, and consolidated net profit for the year would have been RMB162.6 million. In determining these amounts, management has assumed that the fair value adjustments, determined provisionally, that arose on the date of acquisition would have been the same if the acquisition had occurred on 1 January 2016.

### 22 CAPITAL, RESERVES AND DIVIDENDS (Continued)

#### (b) Dividends

The Group paid cash dividends of RMB165.2 million (RMB0.14 per share) during the year ended 31 December 2016, which were attributable to the previous financial year (2015: nil).

#### (c) Share capital

As at 31 December 2016, the share capital represented 1,180,000,000 ordinary shares of the Company at RMB1 each.

The capital injections from equity holders of the Company are RMB240.0 million at 31 March 2014. Pursuant to a conversion completed on 28 April 2014, the Company was converted into a joint stock limited liability company from a limited liability company. As at 31 December 2014, the share capital represented 880,000,000 ordinary shares of the Company at RMB1 each.

On 13 January 2015, 300,000,000 ordinary shares of the Company were issued and listed on The Stock Exchange of Hong Kong Limited.

#### (d) Nature and purpose of reserves

##### (i) Share reserve

The share reserve mainly comprises share premium, which represents the difference between the par value of the shares of the Company and proceeds received from the issuance of the shares of the Company.

##### (ii) Surplus reserve

The surplus reserve represents statutory surplus reserve fund. The Group is required to appropriate 10% of its net profit as determined under the Accounting Standards for Business Enterprises and other relevant requirements issued by the Ministry of Finance of the PRC ("MOF"), to the statutory surplus reserve fund until the reserve fund balance reaches 50% of its registered capital.

Subject to the approval of equity holders of the entities established in the PRC, statutory surplus reserves may be used to net off with accumulated losses, if any, and may be converted into capital, provided that the balance of statutory surplus reserve after such capitalisation is not less than 25% of the registered capital.

After making the appropriation to the statutory surplus reserve, the Group may also appropriate its net profit to the discretionary surplus reserve upon approval by shareholders. Subject to the approval of shareholders, discretionary surplus reserves may be used to offset previous years' losses, if any, and may be converted into capital.

##### (iii) General risk reserve

Pursuant to relevant regulations, the Company and its subsidiaries in the PRC engaged in micro-finance business are required to set aside a general reserve through appropriations of profit after tax according to 1.5% of the ending balance of gross risk-bearing assets to cover potential losses against these assets.

### 22 CAPITAL, RESERVES AND DIVIDENDS (Continued)

#### (e) Appropriation of profits

(i) In accordance with the resolution of the Company's board of directors meeting on 20 March 2017, the proposed profit appropriations for the year ended 31 December 2016 are as follows:

- Appropriate RMB11.6 million (10% of the net profit of the Company) to surplus reserve;
- Appropriate RMB20.4 million to general reserve.

The profit appropriation resolution mentioned above has yet to be approved by the Company's shareholders.

(ii) At the Annual General Meeting of shareholders held on 30 June 2016, the shareholders approved the following profit appropriations for the year ended 31 December 2015:

- Appropriate RMB13.5 million (10% of the net profit of the Company) to surplus reserve;
- Appropriate RMB9.2 million to general reserve; and
- Declare cash dividends of RMB165.2 million representing RMB0.14 per share to all shareholders.

#### (f) Distributable reserves

At 31 December 2015 and 31 December 2016, the aggregate amounts of reserves available for distribution to shareholders of the Company, as calculated under the provisions of Company Law of the PRC, were RMB174.5 million and RMB93.4 million respectively.

#### (g) Capital management

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders, by pricing products and services commensurate with the level of risk and by securing access to finance at a reasonable cost.

The Group actively and regularly reviews and manages its capital structure to maintain a balance between the higher shareholders returns that might be possible with higher levels of borrowings and the advantages and stability resulted from a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

There were no changes in the Group's approach to capital management during the years ended 31 December 2015 and 2016.

Particularly for credit loan business, the Group monitors regularly the residual balance of outstanding credit loans for single customers and multiples of the total outstanding credit loans in relation to share capital of the Group, so as to keep the capital risk within an acceptable limit. The decision to manage the share capital of the Group to meet the needs of developing credit loans business rests with the directors.

## 23 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS

Exposure to credit, liquidity and interest risks arises in the normal course of the Group's business. The Group's exposure to these risks and the financial risk management policies and practice used by the Group to manage these risks are described below.

### (a) Credit risk

Credit risk arises from a customer's inability or unwillingness to meet its financial obligations or commitment to the Group provided. It arises primarily from the Group's micro-finance business and treasury business such as investment in wealth management products.

#### Credit risk arising from micro-finance business

The Group's credit risk mainly arises from micro-finance business. The Group has established relevant mechanism to cover credit risk in key operational phases of micro-finance business, including pre-lending evaluations, credit approval, and post-lending monitoring. The Group conducts customer acceptance and due diligence by business and marketing department and risk management department in pre-lending evaluations. In the credit approval phase, all loan applications are subject to the assessment and approval of the Group's deputy general manager, general manager or loan assessment committee, depending on the amount of the loans. During the post-lending monitoring, the Group conducts on-site inspections and off-site inquiries to detect potential risks by evaluating various aspects, including but not limited to the customers' operational and financial conditions, status of collaterals and other sources of repayment.

The Group adopts a loan risk classification approach to manage its loan portfolio risk. Loans are generally classified as normal, special mention, substandard, doubtful and loss according to their levels of risk. Substandard, doubtful and loss loans are considered to be impaired loans and advances. They are classified as such when one or more events demonstrate that there is objective evidence of a loss event. The impairment loss of the loan portfolio is assessed collectively or individually as appropriate.

The core definitions of the five categories of loans and advances are set out below:

Normal:	Borrowers can honour the terms of their loans. There is no reason to doubt their ability to repay principal and interest in full on a timely basis.
Special Mention:	Borrowers are currently able to service their loans and interest, although repayment may be adversely affected by specific factors.
Substandard:	Borrowers' ability to service their loans is in question and they cannot rely entirely on normal business revenues to repay principal and interest. Losses may ensue even when collateral or guarantees are invoked.
Doubtful:	Borrowers cannot repay principal and interest in full and significant losses will need to be recognised even when collateral or guarantees are invoked.
Loss:	Principal and interest of loans cannot be recovered or only a small portion of them can be recovered after taking all possible measures or resorting to all necessary legal procedures.

### 23 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

#### (a) Credit risk (Continued)

##### Credit risk arising from micro-finance business (Continued)

When a certain number of clients undertake the same business activities, stay in the same geographical locations, or bear similar economic features for their industries, their ability to fulfil contracts will be affected by the same economic changes. Concentration of credit risk reflects the sensitivity of the Group's operating results to a particular industry or geographic location. As the Group mainly conducts micro-finance business in Zhejiang Province, a certain level of geographical concentration risk exists for its loan portfolios in that it might be affected by changes of economic conditions. At 31 December 2016, 1.96% (2015: 2.13%) and 7.94% (2015: 9.53%) of the total loans and advances to customers was due from the Group's largest customer and the five largest customers respectively.

The maximum exposure to credit risk is represented by the net carrying amount of each type of financial assets as at the end of the reporting periods.

##### Other credit risk

The Group adopts a credit rating approach in managing the credit risk of the treasury business, counterparties' rating are evaluated before transactions with reference to major rating agencies generally recognised by the People's Bank of China.

In respect of interest receivables and other assets, individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluation focus on the customers' past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Normally, the Group does not obtain collateral from customers.

#### (c) Interest risk

The Group is principally engaged in the provision of micro-finance services. Its interest rate risk arises primarily from deposits with banks, loans and advances to customers and interest-bearing borrowings.

#### (i) Interest rate profile

The following tables details the interest rate profile of the Group's assets and liabilities as at the end of the reporting periods:

	31 December 2016 RMB'000	31 December 2015 RMB'000
Fixed interest rate		
Financial assets		
— Restricted deposits	15,000	—
— Loans and advances to customers	1,807,164	1,382,415
Financial liabilities

<b>Net</b>	<b>95,852</b>	<b>82,398</b>
Net fixed rate borrowings as a percentage of total borrowings	100.00%	100.00%

#### (ii) Sensitivity analysis

At 31 December 2016 and 31 December 2015, it is estimated that a general increase of 50 basis points in interest rates, with all other variables held constant, would have increased the Group's net profit during the next 12 months by approximately RMB359,000 and RMB309,000 respectively.

The sensitivity analysis above indicates the exposure to cash flow interest rate risk arising from floating rate non-derivative instruments held by the Group at the end of the reporting period.

### 23 FINANCIAL RISK MANAGEMENT AND FAIR VALUES OF FINANCIAL INSTRUMENTS (Continued)

#### (d) Fair value

##### (i) Financial assets and liabilities measured at fair value

###### *Fair value hierarchy*

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorized into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.

Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.

Level 3 valuations: Fair value measured using significant unobservable inputs.

Fair value hierarchy:

	At 31 December 2016			
	Level 1 RMB'000	Level 2 RMB'000	Level 3 RMB'000	Total RMB'000
Available-for-sale financial assets Wealth management products	—	72,700	—	72,700

As at 31 December 2016, there were no financial assets and financial liabilities measured at fair value.

##### (ii) Valuation techniques and inputs used in Level 2 fair value measurements

The fair value of wealth management products is determined with reference to the yield published by the issuing bank as at the end of the reporting period and period that the Group has held such wealth management products.

##### (iii) Fair value of financial assets and liabilities carried at other than fair value

The carrying amounts of the Group's financial instruments carried at cost or amortized cost are not materially different from their fair values at 31 December 2015 and 31 December 2016.

### 26 ACCOUNTING JUDGEMENTS AND ESTIMATES

In the process of applying the Group's accounting policies, the key sources of estimation uncertainty are as follows:

#### (a) Impairment of receivables and loans and advances

The Group reviews portfolios of receivables and loans and advances periodically to assess whether any impairment losses exist and the amount of impairment losses if there is any indication of impairment. Objective evidence for impairment includes observable data indicating that there is a measurable decrease in the estimated future cash flows for receivables and loans and advances. It also includes observable data indicating adverse changes in the repayment status of the debtors, or change in national or local economic conditions that causes the default in payment.

The impairment loss for receivables and loans and advances that is individually assessed for impairment is the net decrease in the estimated discounted future cash flow of the assets. When the financial assets are collectively assessed for impairment, the estimate is based on historical loss experience for assets with credit risk characteristics similar to the financial assets. Historical loss experience is adjusted on the basis of the relevant observable data that reflect current economic conditions and the judgement based on management's historical experience. Management reviews the methodology and assumptions used in estimating future cash flows regularly to reduce any difference between loss estimates and actual loss.

As described in Note 1(h), receivables stated at amortized cost are reviewed at the end of each reporting period to assess whether impairment losses exist. The Group makes judgements as to whether there is any objective evidence that a receivables are impaired, i.e. whether there is a decrease in estimated future cash flows. Objective evidence for impairment includes observable data indicating that there is a measurable decrease in the estimated future cash flows for receivables. It also includes observable data indicating adverse changes in the repayment status of the debtors. If, in a subsequent period, the amount of the impairment losses on receivables decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through profit or loss.

#### (b) Impairment of long-lived assets

If circumstances indicate that the carrying amount of a long-lived asset may not be recoverable, the asset may be considered "impaired", and an impairment loss may be recognised in accordance with accounting policy for impairment of long-lived assets as described in Note 1(k). The carrying amounts of long-lived assets are reviewed periodically in order to assess whether the recoverable amounts have declined below the carrying amounts. When such a decline has occurred, the carrying amount is reduced to recoverable amount. The recoverable amount is the greater of the fair value less costs to sell and the value in use. In determining the value in use, expected future cash flows generated by the asset are discounted to their present value, which requires significant judgement relating to the level of revenue and amount of operating costs. The Group uses all readily available information in determining an amount that is a reasonable approximation of the recoverable amount, including estimates based on reasonable and supportable assumptions and projections of the level of revenue and amount of operating costs. Changes in these estimates could have a significant impact on the carrying value of the assets and could result in additional impairment charge or reversal of impairment in future periods.

#### (c) Depreciation and amortisation

Fixed assets and intangible assets are depreciated and amortized using the straight-line method over their useful lives after taking into account estimated residual value. The useful lives and residual value are regularly reviewed to determine the depreciation and amortisation costs charged in each reporting period. The useful lives are determined based on historical experience of similar assets and the estimated technical changes. If there is an indication that there has been a change in the factors used to determine the depreciation, the rate of depreciation is revised.

#### (d) Tax

Determining income tax provisions involves judgement on the future tax treatment of certain transactions. The Group carefully evaluates the tax implications of transactions and tax provisions are set up accordingly. The tax treatment of such transactions is reconsidered periodically to take into account all changes in tax legislation. Deferred tax assets are recognised for temporary deductible differences. As those deferred tax assets can only be recognised to the extent that it is probable that future taxable profits will be available against which the unused tax credits can be utilized, management's judgement is required to assess the probability of future taxable profits. Management's assessment is constantly reviewed and additional deferred tax assets are recognised if it becomes probable that future taxable profits will allow the deferred tax assets to be recovered.

### 28 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2016

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and new standards which are not yet effective for the year ended 31 December 2016 and which have not been adopted in these financial statements. These include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to HKAS 7, <i>Statement of cash flows: Disclosure initiative</i>	1 January 2017
Amendments to HKAS 12, <i>Income taxes: Recognition of deferred tax assets for unrealised losses</i>	1 January 2017
HKFRS 9, <i>Financial instruments</i>	1 January 2018
HKFRS 15, <i>Revenue from contracts with customers</i>	1 January 2018
Amendments to HKFRS 2, <i>Share-based payment: Classification and measurement of share-based payment transactions</i>	1 January 2018
HKFRS 16, <i>Leases</i>	1 January 2019

The Group is in the process of making an assessment of what the impact of these amendments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements. In particular with reference to HKFRS 9 which would require companies to assess impairment provisions using 12-month or lifetime expected credit losses approach, given that the Group principally operates a short-term financing business, with terms generally less than 12 months, the Group concluded that the adoption of HKFRS 9 is unlikely to have a significant impact on the Group's results of operations and financial position.

### 29 SUBSEQUENT EVENTS

The Group issued fixed rate corporate bonds in January 2017 with an aggregated nominal value of RMB175.0 million. The terms of these bonds are six months and the bonds bear the coupon rate at 6% per annum.
