PLACING OF NEW SHARES UNDER GENERAL MANDATE

On March 21, 2018, the Placing Agent and the Company entered into the Primary Placing Agreement pursuant to which the Placing Agent agreed to place 57,000,000 Primary Placing Shares (or, failing which, to purchase itself as principal) on a fully underwritten basis to currently expected not less than six independent professional, institutional and/or other investors who are or will be Independent Third Parties at a price of HK\$70.00 each. The Primary Placing is conditional upon the Listing Committee of the Stock Exchange granting approval for the listing of, and permission to deal in, all the Primary Placing Shares. The Primary Placing Shares are to be issued pursuant to the General Mandate.

Assuming that there will be no change in the issued share capital of the Company between the date of this announcement and the completion of the Primary Placing, the 57,000,000 Primary Placing Shares under the Primary Placing represent (i) approximately 4.89% of the existing issued share capital of the Company as at the date of this announcement; and (ii) approximately 4.66% of the issued share capital of the Company as enlarged by the allotment and issue of the Primary Placing Shares. The aggregate nominal value of the Primary Placing Shares under the Primary Placing will be US\$1,425.0.

Assuming all of the Primary Placing Shares are fully placed, the gross proceeds from the Primary Placing are expected to be HK\$3,990.0 million (equivalent to approximately US\$511.5 million), the net proceeds (after deducting all applicable costs and expenses, including commission and levies) will be approximately HK\$3,966.1 million (equivalent to approximately US\$508.5 million), and the net price per Primary Placing Share will be approximately HK\$69.6. The Company intends to apply all of the net proceeds from the Primary Placing to fund the future expansion of the Group and, in particular, the capital requirements to increase its laboratory and manufacturing capacity by adding a number of laboratory and manufacturing facilities over the next few years to satisfy the strong demand from the customers of the Group.

PLACING OF EXISTING SHARES BY CONTROLLING SHAREHOLDER

The Primary Placing Agreement may be terminated pursuant to the termination provisions contained therein. In addition, completion of the Primary Placing is subject to fulfilment of the condition under the Primary Placing Agreement. As the Primary Placing may or may not proceed, Shareholders and potential investors are reminded to exercise caution when dealing in the Shares and other securities of the Company.

Shareholders and investors are therefore advised to exercise caution when dealing in securities of the Company.

Condition of the Primary Placing

Completion of the Primary Placing is conditional upon the Listing Committee of the Stock Exchange granting the listing of, and permission to deal in, the Primary Placing Shares pursuant to the Primary Placing Agreement.

Completion of the Primary Placing

Completion of the Primary Placing will take place on the Business Day following the day on which all conditions referred to above are fulfilled but in any event no later than March 29, 2018, or such other date as the parties may agree in writing. For the avoidance of doubt, completion of the Primary Placing is not conditional upon completion of the Secondary Placing.

Application for Listing

An application will be made to the Stock Exchange for the listing of, and permission to deal in, the new Shares to be issued pursuant to the Primary Placing.

General Mandate to issue the Primary Placing Shares

The Primary Placing Shares are to be issued pursuant to the General Mandate. Under the General Mandate, the Company is authorized to issue up to 226,823,611 Shares. As at the date of this announcement, after deducting the 4,968,917 restricted Shares to be issued pursuant to the Restricted Share Award Scheme, the Company is permitted to issue up to 221,854,694 Shares under the General Mandate. Accordingly, the issue of the Primary Placing Shares is not subject to the approval of the Shareholders.

Lock-up Undertakings by the Company

The Company has undertaken to the Placing Agent that, for a period from the date of the Primary Placing Agreement up to three months after the Closing Date, neither the Company nor any person acting on its behalf will (i) sell, transfer, dispose, allot or issue or offer to sell, transfer, dispose, allot or issue or grant any option, right or warrant to subscribe (either conditionally or unconditionally, or directly or indirectly, or otherwise) any Shares or any interests in Shares or any securities convertible into or exercisable or exchangeable for or substantially similar to any Shares or interest in Shares or (ii) agree (conditionally or unconditionally) to enter into or effect any such transaction with the same economic effect as any of the transactions described in (i) above or (iii) announce any intention to enter into or effect any such transaction described in (i) or (ii) above without first having obtained the written consent of the Placing Agent.

REASONS FOR THE PRIMARY PLACING AND USE OF PROCEEDS

Assuming all the Primary Placing Shares are fully placed, the gross proceeds from the Primary Placing are expected to be HK\$3,990.0 million (equivalent to approximately US\$511.5 million), the net proceeds (after deducting all applicable costs and expenses, including commission and levies) will be approximately HK\$3,966.1 million (equivalent to approximately US\$508.5 million), and the net price per Primary Placing Share will be approximately HK\$69.6. The Company intends to apply all of the net proceeds from the Primary Placing to fund the future expansion of the Group and, in particular, the capital requirements to increase its laboratory and manufacturing capacity by adding a number of laboratory and manufacturing facilities over the next few years to satisfy the strong demand from the customers of the Group.

As disclosed in the Prospectus and the annual results announcement of the Company dated March 19, 2018, the Company proposed to use approximately RMB1,853.4 million of the proceeds from its Global Offering (including the exercise of the over-allotment option) towards the construction of the Company's new facilities and existing facility improvement and maintenance, and it has been undertaking such expansion and improvement work for its facilities as set out in the Prospectus. Based on the Group's ongoing integrated projects, it is estimated that the current commercial manufacturing capacity of the Group may not be able to satisfy its projects' demand in the near future.

Further, the revenue of the Group increased by 63.7% from approximately RMB989.0 million for the year ended December 31, 2016 to approximately RMB1,618.8 million for the year ended December 31, 2017. With a view to supporting its strong revenue growth and further realizing its backlog through expansion of its capacities, the Group will expand a brand new antibody drug conjugates facility and another three new cGMP manufacturing facilities in Wuxi, the PRC. In addition, the Company is considering the expansion plans to add new plant facilities in the PRC and other countries as well as to expand the existing laboratory facilities of the Group. These plans, if implemented, will likely to involve capital expenditures in excess of the amount of proceeds from the Global Offering designated for such purposes.

In light of the above and the strong performance of the price of the Company's Share since the Global Offering, the Directors (including independent non-executive Directors) consider that the Primary Placing represents a good opportunity for the Company to raise further capital to fund its future expansion. The Directors (including independent non-executive Directors) are of the view that the Primary Placing, the Primary Placing Price and the Primary Placing Agreement are fair and reasonable and are in the interests of the Company and its Shareholders as a whole.
