Chairman's Statement (Continued) 主席報告(續)

To Shareholders:

The year 2018 was a tough year. Like the past few years, there were delayed and/or prolonged decision-making process and progress of certain government projects, which resulted in a slowdown in the infrastructure, reclamation and environmental protection dredging projects. Furthermore, fierce horizontal competition imposed immense pressure over the Group's operation. For the financial year of 2018, the Group recorded a total revenue of approximately RMB618.8 million, representing a slight decrease of only 4.9% as compared with the total revenue of approximately RMB650.9 million for the financial year 2017. However, due to provision for expected credit losses by the Group using the new HKFRS 9 "Financial Instruments", the Group recorded a loss of approximately RMB254.5 million for the year as compared with a profit of approximately RMB72.2 million for the financial year 2017.

We were affected by the dredging market and the overall macroeconomic environment in China, and issued a profit warning earlier. However, we are still optimistic about the prospects as we will benefit from the support under such strategies in mainland China as "strengthened the construction of an ecological civilisation" and "One Belt One Road". Meanwhile, the Group is actively expanding its business to overseas markets including Southeast Asian markets. In 2018, the Group had dispatched several large dredgers to Bangladesh, Cambodia and Thailand to undertake a number of dredging projects. On the other hand, with continuous advancement of environmental protection business technology, various large environmental protection dredging projects are still being followed. In addition, the wind power business is in full swing in China, and there will be enormous room for other marine business to expand. The Group will continue to cultivate our business with utmost care and participate in wind power construction projects proactively to lay a solid foundation for subsequent development for the Group.

"Easyhome Yancheng Shopping Mall", currently managed by the Group, has begun bringing income for us. The project will become another medium to long-term stable source of income to provide stable cash flow support for the Group's further development of environmental protection dredging business in future.

致各股東:

二零一八年是艱難的一年,正如過往幾年一樣,我們 依然面對部分政府項目決策過程和推進進度被延遲 及/或延長,導致我們原先預期的基建及填海疏浚 以及環保疏浚項目進展緩慢。再加上同業的激烈競 爭,為本集團的營運帶來沉重的壓力。於二零一八年 財政年度,本集團錄得總收益約人民幣618,800,000 元,其實較二零一七年財政年度錄得約人民幣 650,900,000元的總收益只輕微下降4.9%,但由於本 集團現採用新的香港財務報告準則第9號「金融工具」 而進行的預期信貸虧損撥備,令本年度虧損約人民幣 254,500,000元,相比於二零一七年財政年度本集團 錄得溢利約人民幣72,200,000元。

受疏浚市場及國家總體宏觀經濟環境的影響,如我 們早前發出盈利預警。然而,我們對前景仍抱樂觀態 度,皆因我們將會受惠於中國內地「加強生態文明建 設」、「一帶一路」等策略的支援。同時,本集團亦正 積極拓展東南亞多國海外市場,於二零一八年本集團 已將數艘大型挖泥船舶調遣到孟加拉、柬埔寨、泰國 等開展多個疏浚項目。另一方面,隨著環保事業技術 的持續進步,多個較大環保疏浚項目仍在跟進當中。 另外,國內風能發電如火如荼,其他海事業務將有一 定的發展空間,本集團將繼續深耕細作,積極參與風 能發電的建設工程,為集團的後續發展奠定堅實的基 礎。

本集團現時管理的「居然之家鹽城店」開始逐漸為本集 團帶來收入,此項目將成為另一項中長期穩定收入的 來源,以便為集團今後進一步拓展環保疏浚業務提供 穩定的現金流支援。

Chairman's Statement (Continued) 主席報告(續)

The Group expects that the year 2019 will still be a challenging year. We will continue to implement a conservative approach to select and grasp opportunities cautiously. Nevertheless, we still face various difficulties, some of which cannot be addressed in short time to satisfy all our shareholders, including expansion of new financing channels. We will make great efforts to continue to seek feasible fundraising plans and expects to redeem our Bonds by the end of the year as scheduled. Therefore, we hope that the situation will gradually improve, driving our business back to the right track in the long run.

As a professional dredging service provider with years of experience and as a frontrunner with advanced management, strong technical strength, a large pool of quality clients and an excellent reputation in the industry, regardless of toughness of challenges, the Group will adhere to the traditional dredging business and environmental protection dredging business, our two principal businesses, stay loyal to our clients to provide them with quality service and insist in adopting robust and prudent operation strategies. 本集團預計二零一九年仍然會是充滿挑戰的一年, 將繼續貫徹謹慎行事的作風,審慎選擇和把握各種機 遇,但我們同時仍面對各種困難,而且有些困難難以 在短期內解決以滿足我們所有股東的期望,包括新的 融資管道開拓方面。我們會努力繼續尋求可行的融資 方案,希望能按時於今年年底前贖回債券。因此,我 們希望形勢能逐步轉好,長遠推動業務重回正軌。

本集團作為一個具有多年經驗的專業疏浚服務提供 者,亦作為一個管理先進、技術積累雄厚、擁有眾多 優質客戶和極好聲譽口碑的行業排頭兵,無論挑戰如 何艱巨,我們會始終堅守傳統疏浚和環保疏浚這兩大 的主營業務,忠於我們的客戶和為客戶提供服務的品 質,堅持穩健和審慎的經營策略。

Management Discussion and Analysis 管理層討論及分析

Management Discussion and Analysis (Continued) 管理層討論及分析(續)

Overview

The Group is primarily engaged in dredging business, which can be divided into three main operating and reportable segments, namely, (i) capital and reclamation dredging business (the "CRD Business"); (ii) environmental protection dredging and water management business (the "EPD and Water Management Business"); and (iii) other works operated in marine sites such as hoisting wind power equipment, installing major parts of docks and bridges, as well as laying underwater pipelines and salvaging (the "Other Marine Business"). In addition, the Group engaged in property management business (the "Property Management Business") in respect of managing Easyhome Yancheng Shopping Mall.

Financial Review

Revenue

During the Reporting Period, the Group recorded a slight decrease by about 4.9% in total revenue from approximately RMB650.9 million for the year ended 31 December 2017 to approximately RMB618.8 million.

As regards the CRD Business segment, revenue of approximately RMB166.0 million was recorded for the Reporting Period, which decreased by about 41.1% as compared with the year ended 31 December 2017. The decrease in revenue was due to the slowdown of the implementation of the construction projects in dredging industry in the PRC and the implementation of a more robust and prudent policy by the Group in selecting new projects in recent years by taking into consideration the control of the operational risks and the timely collection of receivables.

Revenue of approximately RMB115.6 million was recorded for the EPD and Water Management Business segment, representing a decrease of about 11.2% from its corresponding segment revenue for the year ended 31 December 2017. The decrease was caused by the undesirable works progress of certain environmental protection dredging projects as their actual progresses depended on the collaboration with the local governments.

概覽

本集團主要致力於疏浚業務,相關的業務可分為三個 主要營運及呈報分部,即(i)基建及填海疏浚業務(「基 建及填海疏浚業務」);(ii)環保疏浚及水務管理業務 (「環保疏浚及水務管理業務」);(iii)海上操作的其他 工程,如風力發電設備吊裝、碼頭和橋樑建設大件安 裝、水下管線鋪設及打撈工程(「其他海事業務」)。此 外,本集團就管理居然之家鹽城店而經營的物業管理 業務(「物業管理業務」)。

財務回顧

收益

於報告期間,本集團錄得之總收益輕微下跌,由截至二零一七年十二月三十一日止年度的約人民幣 650,900,000元減少約4.9%至約人民幣618,800,000 元。

於報告期間,基建及填海疏浚業務分部錄得收益約人 民幣166,000,000元,較截至二零一七年十二月三十 一日止年度的收益減少約41.1%,收益減少是由於國 內疏浚行業的工程項目實施節奏緩慢,以及考慮項目 經營風險控制和資金回籠及時性的原因,導致本集團 近年對新項目採用更為穩健和審慎的篩選策略。

環保疏浚及水務管理業務分部錄得收益約人民幣 115,600,000元,較截至二零一七年十二月三十一日 止年度相應分部收益減少約11.2%,收益減少是由於 若干環保疏浚項目推進有賴於當地政府的配合,實際 推進進度末如理想所致。

Management Discussion and Analysis (Continued)

管理層討論及分析(續)

There has been a significant improvement for the Other Marine Business, which contributed revenue of approximately RMB327.5 million to the Group, representing a substantial increase of 40.8% as compared with approximately RMB232.6 million in the corresponding period of 2017. The increase primarily resulted from our Group's continuous focusing on the wind power field.

Revenue for the Property Management Business segment for the Reporting Period was approximately RMB9.8 million, which increased by about 49.5% from RMB6.5 million for the year ended 31 December 2017. Notwithstanding an income growth for such business, it could only bring a slight profit to the Group for the time being as it was still at the development stage.

Operating Cost and Gross Profit

The Group's operating cost increased from approximately RMB443.6 million for the year ended 31 December 2017 to approximately RMB497.1 million during the Reporting Period, representing an increase of about 12.1%. The increase was primarily caused by a corresponding rise in operating cost for the newly devised wind power projects of the Other Marine Business as well as diminished revenue for the CRD Business brought about by adopting a prudent operation strategy during the Reporting Period. Nonetheless, substantial costs such as depreciation of assets and maintenance of equipment did not change proportionately, which led to a decrease in gross profit margin. Such increase was collectively influenced by these two factors.

The Group recorded a gross profit of approximately RMB121.7 million during the Reporting Period, representing a decrease of about 41.3% as compared with approximately RMB207.4 million for the year ended 31 December 2017. Gross profit margin significantly dropped from 31.9% for the year ended 31 December 2017 to 19.7% for the Reporting Period. The decrease in gross profit was mainly due to the insufficient utilisation of production capacity of fleet and equipment resulting from the adoption of a more prudent operating strategy by the Group and also the decrease in the proportion of the CRD business and the EPD business, which have a higher gross profit margin, during the Reporting Period.

According to expected credit loss model under HKFRS 9 "Financial Instruments", the allowance for expected credit losses on the trade receivables should be recognised as expenses of relevant dredging segments resulting in the losses recorded for the segment results. In order to make reasonable comparisons between the 2017 and 2018 segment performance, the calculation of the following segment profit margin has not yet considered the impairment of the expected credit losses.

其他海事業務則顯著改善,於報告期間為本集團貢獻 約人民幣327,500,000元,較二零一七年同期約人民 幣232,600,000元大幅上升40.8%,以此乃主要由於 本集團繼續側重於風力發電領域經營所致。

於報告期間的物業管理業務分部收益約人民幣 9,800,000元,較截至二零一七年十二月三十一日止 年度的人民幣6,500,000元增加約49.5%。雖然該業務 收益有所增長,但仍處於拓展階段,目前只能為本集 團帶來輕微盈利。

營運成本及毛利

本集團的營運成本由截至二零一七年十二月三十一日 止年度的約人民幣443,600,000元增加約12.1%至報 告期間的約人民幣497,100,000元,乃主要由於其他 海事業務中新開拓的風電項目而增加相應的運營成 本,以及審慎的經營策略導致基建及填海疏浚業務收 益減少,但資產折舊、設備維護等大額固定成本,不 作同比例變動而導致毛利率下降,這兩個因素共同影 響。

本集團於報告期間錄得毛利約人民幣121,700,000 元,較截至二零一七年十二月三十一日止年度的約人 民幣207,400,000元顯著減少約41.3%,毛利率由截 至二零一七年十二月三十一日止的31.9%下跌至報告 期間的19.7%,本集團審慎的經營策略導致船舶、設 備施工的產能利用率不足,以及毛利率較高的基建填 海疏浚業務和環保疏浚業務佔比下降。

按香港財務報告準則第9號「金融工具」的「預期信貸 虧損模式」,應收賬款的預期信貸虧損撥備須確認為 疏浚分部的開支,導致二零一八年的分部業績出現虧 損。為了能合理比較二零一八年與二零一七年的分部 業績,以下各項二零一八年的疏浚分部毛利率以尚未 確認減值預期信貸虧損的分部業績計算。

Management Discussion and Analysis (Continued) 管理層討論及分析(續)

Gross profit margin for the CRD Business segment decreased from about 33.3% for the year ended 31 December 2017 to about 21.5% for the Reporting Period. Such decrease was primarily due to a drop in revenue for the CRD Business brought about by adopting a prudent operation strategy, while substantial costs such as depreciation of assets and maintenance of equipment did not change proportionately.

Gross profit margin for the EPD and Water Management Business segment stood at about 28.9% for the Reporting Period, which approximated the gross profit margin of about 29.1% for the year ended 31 December 2017.

During the Reporting Period, the gross profit margin for the Group's Other Marine Business segment decreased from 16.2% for the year ended 31 December 2017 to about 13.3% for the Reporting Period. Such decrease resulted from the increase in relatively higher up-front investment of the newly commenced projects of the Other Marine Business during the year.

Other Income

Other income decreased by about 70.4% to approximately RMB5.3 million during the Reporting Period as compared with the year ended 31 December 2017, primarily caused by the decrease in interest income from certain non-current trade receivables and government financial incentive during the Reporting Period.

Expected Credit Loss Allowance

As a further prudent measure in managing the trade receivables and the contract assets, the allowance for expected credit losses on trade receivables and the contract assets of about RMB243.2 million about RMB2.9 million respectively, in total amount of RMB246.1 million, were recognised for the Reporting Period (2017: nil). Such allowance for expected credit losses was made based on the assessment in recoverability of such receivables in the future by the management after considering the "expected credit loss model" under the newly adopted HKFRS 9 "Financial Instruments".

Marketing and Promotion Expenses

Marketing and promotion expenses for the Reporting Period was approximately RMB11.5 million, representing an increase of about 38.9% as compared with approximately RMB8.3 million for the year ended 31 December 2017, which was mainly attributable to the increase in expenses relating to actively exploring the overseas markets and early entry into new businesses including wind power field. 基建及填海疏浚業務的分部毛利率由截至二零一七年 十二月三十一日止年度約33.3%下降至報告期間的約 21.5%,主要由於報告期間基於審慎的經營策略,導 致基建及填海疏浚業務收益減少,但資產折舊、設備 維護等大額固定成本不作同比例變動。

報告期間的環保疏浚及水務管理業務的分部毛利率約 28.9%,與截至二零一七年十二月三十一日止年度約 29.1%相若。

於報告期間,本集團其他海事業務的分部毛利率由截 至二零一七年十二月三十一日止年度16.2%下跌至報 告期間的約13.3%,毛利率下降乃主要由於年內其他 海事業務的新開工項目增多,項目前期投入較大所 致。

其他收入

其他收入較截至二零一七年十二月三十一日止年度減 少約70.4%至報告期間的約人民幣5,300,000元,主要 是由於報告期間若干非即期應收款的利息收入及政府 財政獎勵減少所致。

預期信貸虧損撥備

作為管理應收賬款及合約資產之進一步審慎措施,本 公司已就報告期應收賬款及合約資產分別作出約人民 幣243,200,000元及約人民幣2,900,000元的預期信 貸虧損撥備(即總共約人民幣246,100,000元)(二零一 七:無)。該預期信貸虧損撥備乃管理層根據香港財務 報告準則第9號「金融工具」的「預期信貸虧損模式」估 計未來可收回的應收款項情況後所作判斷而作出。

市場推廣及宣傳開支

於報告期間的市場推廣及宣傳開支約為人民幣 11,500,000元,較於截至二零一七年十二月三十一日 止年度的約人民幣8,300,000元增加約38.9%,此乃主 要由於本集團積極開拓國外市場和搶灘國內風力發電 等新型業務所致。

由於本集團的大部分買賣交易、貨幣資產及負債主要 以人民幣(本集團的功能及呈報貨幣)計值,惟債券及 若干銀行貸款及結餘以美元及港元計值,於報告期間 確認匯兑損失約人民幣14,700,000元(二零一七年十 二月三十一日:收益約人民幣18,700,000元),本集 團正密切應對相關匯率風險。

The Group had no material investments in or material acquisitions or disposals of subsidiaries during the current year.

Capital Commitments and Contingent Liabilities

As at 31 December 2018, the Group had capital commitments of approximately RMB67.2 million (31 December 2017: approximately RMB72.8 million), which mainly included the construction cost of the hotel.

As at 31 December 2017, the Group did not have any material contingent liabilities (31 December 2016: nil).

Business Review

The Group recorded an operating revenue of approximately RMB618.8 million and gross profit of approximately RMB121.7 million, representing a decrease of 4.9% and 41.3% respectively for the corresponding period of the preceding year. The decrease in operating revenue primarily resulted from the slowdown of the implementation of the construction projects in dredging industry in the PRC and the implementation of a more robust and prudent policy by the Group in selecting new projects in recent years by taking into consideration the control of the operational risks and the collection of receivables on time. Despite a drop in revenue, substantial costs such as depreciation of assets and maintenance of equipment did not change proportionately, which led to a decrease in gross profit.

The CRD Business is a core business of the Group. The Group has undertaken and commenced new projects during the Reporting Period, including the dispatch several large dredgers to Bangladesh, Cambodia and Thailand to undertake a number of dredging projects. The decreased revenue generated by such business segment was attributable to greater variations in the volatility of new project construction conditions and the great uncertainty in collection of receivables in the industry. The Group adopts a robust and prudent operating strategy, reflected by a better understanding of the background and a more detailed and thorough due diligence review of proposed new contracted construction projects, to ensure an effective control of various possible operational risks as well as the collection of receivables.

業務回顧

本集團錄得營運收益約人民幣618,800,000元,較去 年同期下降4.9%,毛利為約人民幣121,700,000元, 較去年同期下降41.3%。營運收益減少乃主要由於國 內疏浚行業的工程項目實施節奏緩慢,以及考慮項目 經營風險控制和資金回籠及時性的原因,本集團近年 對新項目採用更為穩健和審慎的篩選策略導致新承接 工程項目減少。毛利下降乃由於收益減少,但資產折 舊、設備維護等大額成本不作同比例變動所致。

基建及填海疏浚業務為本集團的核心業務,於報告期 間有新項目承接和開工,包括將數艘大型挖泥船舶調 遣到孟加拉國、柬埔寨、泰國等開展多個疏浚項目。 該業務分部所產生之收益下降,此乃因行業內新項目 施工工況的易變性和資金回籠的不確定性變化較大, 我們採用穩健和審慎的經營策略,對擬承接的新工程 背景瞭解和盡職調查必須更加細緻深入,以確保對可 能出現的各種經營風險以及資金回籠進行有效控制。

The Group strictly complies with the relevant national maritime regulations to identify and manage the released substances during dredging to ensure their safe treatment, transportation, storage, recycling and disposal. We strive for high accuracy in both positioning and excavation during the dredging process to ensure proper removal of excavated materials (including mud and solid matter) and pollutants and to minimize over-excavation and soil agitation. We also take anti-diffusion and leakage measures to ensure high concentrations of inhalation in order to avoid pollution by the contaminants in their suspended state in the surrounding water. Besides, in the dredging process the excavated materials and contaminated sediments are stored on the dredgers in accordance with the relevant national regulations. We transport them to the shore through barges or pipeline to avoid their leakage which may cause secondary pollution to water. Finally, we arrange qualified recyclers for their disposal.

In the horizons of waste management and recycling, the Group requires our employees to keep contaminated substances in separation and treat wastes in classification. Excavated materials and contaminated sediments in the dredging process are stored on the dredgers and transported to the shore according to the relevant national laws and regulations. Other wastes are stored in specialised storage areas and handled in accordance with the Standard for Pollution Control on Hazardous Waste Storage. The Group has commissioned qualified companies to recycle and declare under the registration system pursuant to the relevant laws and regulations.

In addition, due to the nature of businesses, the Group does not have physical products for sale and thus the disclosure on the use of packaging material is inapplicable to the Group.

During the Reporting Period, the Group is not aware of any noncompliance of laws and regulations that have a significant impact on the Group relating to air and GHG emissions, discharges into water and land, and generation of hazardous and non-hazardous waste.

Use of resources

The resources used by our Group are principally attributed to fuels consumed by dredging fleet at construction project sites, and also electricity and water consumed at its offices and the shopping mall.

With the aim to better manage the use of resources, the Group performs assessment annually. The Group has adopted green office practices to reduce natural resource and energy consumption, e.g., installing LED lamp to save energy, and employees are encouraged to develop the habit of energy conservation, e.g., switching off lights, computers and other electronic appliances before leaving the offices. The Group strives to utilise telephone conferences to minimize face-to-face meetings in order to reduce petrol consumption in travelling and avoid unnecessary business trips. During the Reporting Period, the Group had an electricity consumption of approximately 697,000 kilowatt-hours (2017: 836,000 kilowatt-hours).

From the perspective of water management, the Group has provided signs to remind its staff to reduce water consumption. We also regularly check meter readings and conduct the detection of hidden leaks in water pipes. If hidden water leakage or tap dripping is found, we will arrange for repair promptly to avoid wasting water resources. During the Reporting Period, the Group's water consumption was about 17,900 tons, representing a decrease of 11.1% as compared with that of last year. The water consumption for the Reporting Period was more than expected as the newly opened Easyhome Shopping Mall occasionally conducted fire prevention tests to meet the fire safety requirements.

Dredging construction projects affect the environment and natural resources. The Group is committed to managing the impact of its operations related to the environment and natural resources and preventing significant adverse impacts on the environment.

本集團利用的資源主要為疏浚船隊於施工項目場所消 耗的能源,以及於其辦公室及商場消耗的水電。

為更好管理資源利用,本集團進行年度評估。本集團 已採納線色辦公室慣例(例如安裝LED燈以節約能源) 以減少天然資源及能源消耗,亦鼓勵僱員培養節能 習慣(例如於離開辦公室前關燈、電腦及其他電子用 品)。本集團致力運用電話會議以減少面對面會議,從 而降低往返交通的汽油消耗並避免不必要的出差。於 報告期間,本集團用電量約697,000千瓦小時(二零一 七年:836,000千瓦小時)。

至於水資源管理方面,本集團透過張貼標識以提醒員 工節約用水。我們亦定期檢查水錶讀數及檢測水管的 任何滲漏水情況。倘有滲漏水情況或水龍頭有滴水 情況,我們會安排從速維修以免浪費水資源。於報告 期間,本集團用水量約17,900噸,較去年同期減少 11.1%。報告期內耗用量超出預期,原因是新開幕的 居然之家偶然有消防測試以符合消防規例。

Major Customers and Suppliers (Continued)

Since the Group's major customers accounted for a significant portion of the Group's total revenue for the year, if in the future the Group loses one of its major customers or if any of the Group's major customers significantly reduces its volume of business with the Group while the Group is unable to get new projects from other existing and/or potential customers, revenues and profitability of the Group would be heavily reduced. Nonetheless, the Group believes that it has developed close relationships with its major customers that they cannot easily replace the Group with other suppliers. The Group has also entered into contracts with and will continue to seek business from other customers.

In the year under review, supplies from the Group's five largest suppliers accounted for about 30.6% (2017: 30.4%) of the Group's total operating cost for the year and supplies from the largest supplier included therein accounted for about 13.4% (2017: 8.3%) of the Group's total operating cost.

None of the Directors or any of their close associates or any Shareholders (which, to the best knowledge of the Directors, own more than 5% of the Company's issued share capital) had any beneficial interest in the Group's five largest customers and/or five largest suppliers for the year ended 31 December 2018.

Directors' Rights to Acquire Shares or Debentures

Save for those disclosed in the paragraphs headed "Share Option Scheme" and "Directors' and Chief Executive's Interests and Short Positions in Shares and Underlying Shares" in this Directors' report in this annual report, at no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any of the Directors or their respective spouses or minor children, or were any such rights exercised by them; or was the Company or any of its subsidiaries a party to any arrangement to enable the Directors to acquire such rights in any other body corporate.

Management Contracts

Save for the Contractual Arrangements between subsidiaries of the Group, no contracts concerning the management and administration of the whole or any substantial part of the business of the Group were entered into or existed during the year.

Continuing Connected Transactions

According to relevant PRC laws, foreign investors are prohibited from owning more than a 50% equity interest in any enterprise which owns vessels for conducting dredging business. Otherwise the Maritime Safety Administration of the PRC will not register the ownership of a vessel to an enterprise. Our Group has decided that Xiangyu PRC owns 50% of interest in the relevant vessels, being the maximum percentage that a foreign investor may own under PRC laws to register the ownership of the relevant vessels for certain commercial reasons. In addition, our Group intends to participate in some dredging projects which forbid any involvement of foreign-invested companies under PRC laws. Even in certain dredging projects which foreign-invested companies are technically allowed to engage under PRC laws, the foreign-invested companies find it difficult, in common practice, to secure dredging business opportunities. Based on the above reasons, the PRC Operational Entity has not become equity-owned by our Company, but will be controlled by our Company through the Contractual Arrangements.

The Group carried out the following continuing connected transactions (other than continuing connected transactions that are exempted under Rule 14A of the Listing Rules) during the year ended 31 December 2018:

On 19 April 2011, the following entities entered into the Contractual Arrangements pursuant to which all economic benefits and risks arising from the business of Jiangsu Xingyu are transferred to Xiangyu PRC:

- Xiangyu PRC, a wholly foreign-owned enterprise and a whollyowned subsidiary of the Company,
- (ii) Jiangsu Xingyu, a limited liability company established in the PRC and deemed to be a wholly-owned subsidiary of the Company under the Contractual Arrangements, and mainly engages in CRD and EPD segments and is the largest subsidiary of the Group in terms of operating assets owned and construction scale, and
- (iii) equity interests holders of Jiangsu Xingyu, namely Mr. Liu and Ms. Zhou (both of them are executive Directors and controlling shareholders of the Company).

管理合約

除本集團附屬公司之間的合約安排外,年內概無訂立 或存在任何有關本集團全部或任何主要部分業務的管 理及行政合約。

持續關連交易

根據中國有關法律,海外投資者不得於擁有船舶以進 行疏浚業務的任何企業中擁有超過50%的股本權益, 否則中國海事局將不會登記其船舶的擁有權。本集團 已決定讓翔宇中國擁有有關船舶的50%權益(即外國 投資者根據中國法律可擁有的最高百分比),以就若 干商業原因登記有關船舶的擁有權。此外,本集團擬 參與中國法律禁止或限制外國投資公司參與的若干疏 浚項目。儘管中國法律在技術上而言乃允許外國投資 公司參與若干疏浚項目,但在一般慣例下,外國投資 公司仍難以把握該等疏浚商機。基於上述原因,中國 經營實體的股權並非由本公司擁有,而將由本公司透 過合約安排控制。

於截至二零一八年十二月三十一日止年度,本集團進 行以下持續關連交易(根據上市規則第14A條獲豁免 的持續關連交易除外):

於二零一一年四月十九日,以下實體訂立合約安排, 據此,江蘇興宇業務產生的一切經濟利益及風險均轉 撥至翔宇中國:

- (i) 翔宇中國,一間外商全資企業及本公司的全資 附屬公司,
- (ii) 江蘇興宇,一間於中國成立的有限責任公司及 根據合約安排被視為本公司一間全資附屬公 司,主要從事基建及填海疏浚業務,為本集團擁 有經營資產最多、施工規模最大的附屬公司,及
- (iii) 江蘇興宇的股權持有人劉先生及周女士(彼等均 為本公司的執行董事及控股股東)。

It is the provider of the Group's other marine business. Jiangsu Xingyu owns a 51% equity interest in it and is its controlling shareholder.

Further details of the Contractual Arrangements are described in note 39 to the financial statements of this annual report.

The Stock Exchange has granted a waiver pursuant to Rule 14A.105 of the Listing Rules to the Company for all transactions under the Contractual Arrangements from strict compliance with the applicable announcement and independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

The amount of revenue and assets subject to the Contractual Arrangements accounted for 98.4% and 63.3% of the Group's total revenue and assets respectively for the year ended 31 December 2018 (2017: 99% and 62.9%).

The followings are the major risks relating to the Contractual Arrangements:

- The Group conducts its business operation in the PRC through the PRC Operational Entity by way of the Contractual Arrangements, but certain of the terms of the Contractual Arrangements may not be enforceable under PRC laws. Therefore, in the event of breach of any agreements constituting the Contractual Arrangements by Mr. Liu, Ms. Zhou and/or the PRC Operational Entity, and if the Group is unable to enforce the Contractual Arrangements, the Group may not be able to exert effective control over the PRC Operational Entity, and the Group's ability to conduct its business may be negatively affected.
- If the PRC government finds that the Contractual Arrangements or the ownership structures or business operations of the Company or the PRC Operational Entity do not comply with any of the PRC laws and regulations, the Group's business, financial condition or results of operations could be materially and adversely affected, as revenue in relation to the Contractual Arrangements accounted for 98.4% of the Group's total revenue for the year ended 31 December 2018.

聯交所已根據上市規則第14A.105條向本公司授出豁 免,令合約安排項下的所有交易豁免嚴格遵守上市規 則第14A章項下的適用公告及獨立股東批准規定。

合約安排的收益及資產分別佔本集團截至二零一八年十二月三十一日止年度總收益及資產的98.4%及 63.3%(二零一七年:99%及62.9%)。

下列為有關合約安排的主要風險:

- 本集團以合約安排方式透過中國經營實體於中 國經營其業務,但根據中國法律,合約安排中的 若干條款或未能強制執行。因此,倘劉先生、周 女士及/或中國經營實體違反構成合約安排的 任何協議及倘本集團無法強制執行合約安排, 本集團可能無法對中國經營實體行使控制權, 且本集團開展其業務的能力可能會受到負面影 響。
- 由於有關合約安排的收益佔本集團截至二零一 八年十二月三十一日止年度總收益的98.4%,如
 中國政府認為合約安排或本公司或中國經營實
 體的擁有權架構或業務營運不符合中國任何法
 例及規例,本集團的業務、財務狀況或經營業績
 可能會受到重大不利影響。

Continuing Connected Transactions (Continued)

Basis for Opinion

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 2 in the consolidated financial statements, which describes the circumstances surrounding the failure by the Group to settle the bonds when the bonds fell due for repayment on their maturity date. As stated in Note 2, these events or conditions, along with other matters as set forth in Note 2, indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Assessment of loss allowance for expected credit losses ("ECL") on trade receivables and contract assets 應收賬款及合約資產預期信貸虧損(「預期信貸虧損」)的虧損撥備評估

We identified the assessment of loss allowance for expected credit losses on trade receivables and contract assets as a key audit matter. The Group's trade receivables and contract assets mainly arise from dredging, water management and marine related businesses. The estimation of expected credit losses of these trade receivables and contract assets involved exercise of significant judgement by management and high degree of estimation uncertainty.

我們將應收賬款及合約資產預期信貸虧損的虧損撥備評估 視為關鍵審計事項。 貴集團的應收賬款及合約資產主要 源自疏浚、水務管理及相關海事業務。該等應收賬款及合 約資產預期信貸虧損估計涉及管理層行使重大判斷以及深 層次的估計不確定性。

As at 31 December 2018, the Group had trade receivables and contract assets of RMB1,035,691,000 and RMB34,662,000 as disclosed in Notes 21 and 22 respectively, and expected credit losses in respect thereof of RMB243,182,000 and RMB2,873,000 respectively were recognised as expense during the year.

截至二零一八年十二月三十一日, 貴集團應收賬款及合約 資產人民幣1,035,691,000元及人民幣34,662,000元分別 披露於附註21及22,其預期信貸虧損人民幣243,182,000 元及人民幣2,873,000元分別確認為年內開支。 Our procedures in relation to the evaluation of the assessment of loss allowance for expected credit losses on trade receivables and contract assets included:

- 我們取得對管理層有關應收賬款及合約資產預期信 貸虧損撥備進行信貸風險評估及減值評估流程的了 解。

- 我們基於報告期末相關發票發票日期及到期日抽樣 測試應收賬款結餘賬齡準確性。
- For the collectively assessed ECL, we assessed the reasonableness of the Group's ECL models, including the model inputs, model design, model performance for significant portfolios.

Assessment of loss allowance for expected credit losses ("ECL") on trade receivables and contract assets 應收賬款及合約資產預期信貸虧損(「預期信貸虧損」)的虧損撥備評估

The Group has applied a lifetime expected credit loss model in determining the expected credit losses to be recognised in respect of the trade receivables and contract assets during and as at the end of the year. When determining the amount of expected credit losses to be recognised as at the end of the reporting period, the management considered the risk of a default occurring on the trade receivables and contract assets as at the reporting date, taking into account both quantitative and qualitative information that is reasonable and supportable, including historical experience (including credit history and current credit worthiness of the customers) and forward-looking information (including current market conditions) that is available without undue cost or effort.

貴集團已應用全期預期信貸虧損模式,釐定年度期間及年 末就應收賬款及合約資產確認的預期信貸虧損。釐定報告 期末預期信貸虧損金額時,管理層考慮到報告日期應收賬 款及合約資產發生違約的風險,並慮及合理、佐證性定量 及定性資料,包括無需過度成本或精力即可獲得之歷史性 經驗(包括客戶信貸記錄及即期信貸可靠性)及展望資料 (包括當前市場狀況)。

Other Matter

The consolidated financial statements of the Group for the year ended 31 December 2017 were audited by another auditor who expressed an unmodified opinion with a material uncertainty paragraph about the Group's ability to continue as a going concern on those financial statements on 28 March 2018.

- We challenged whether historical experience is representative of current circumstances and of the recent losses incurred in the portfolios and assessed the reasonableness of forward-looking adjustments, including the economic variables and assumptions used in each of the economic scenarios and their probability weightings. Where changes had been made in model parameters and assumptions, we evaluated the reasonableness of such changes.
- 我們質疑歷史性經驗是否代表目前具體情況及投資 組合近期虧損,並評估展望調整的合理性,包括各 經濟情形所用經濟變量及假設及其可能性權重。若 模式參數及假設變更,我們則評估有關變更的合理 性。
- We also assessed the financial statement disclosures relating to the Group's exposure to credit risks.

我們亦評估與 貴集團信貸風險敞口相關的財務報 表披露。

其他事項

貴集團截至二零一七年十二月三十一日止年度綜合財 務報表經另一名核數師審核,該核數師於二零一八年 三月二十八日於有關財務報表中有關 貴集團的持續 經營能力的重大不確定性段落中表達未修改意見。

The directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Directors and Those Charged with Governance for the Consolidated Financial Statements

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

獨立核數師報告(續)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion solely to you, as a body, in accordance with our agreed terms of engagement and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

核數師就審計綜合財務報表須承擔 的責任

本行的目標乃對綜合財務報表整體是否不存在由於欺 詐或錯誤而導致的重大錯誤陳述取得合理保證,並出 具包括本行意見的核數師報告,並按照協定的委聘條 款僅向 閣下(作為整體)報告,除此之外本報告別無 其他目的。本行概不就本報告的內容對任何其他人士 負責或承擔責任。合理保證為高水平的保證,但不能 保證按照香港審計準則進行的審計總能發現重大錯誤 陳述。錯誤陳述可以由欺詐或錯誤引起,如果合理預 期其單獨或匯總起來可能影響綜合財務報表使用者依 賴綜合財務報表所作出的經濟決定,則有關的錯誤陳 述可被視作重大。

作為根據香港審計準則進行審計其中一環,本行運用 專業判斷,保持專業懷疑態度。本行亦:

- 識別及評估由於欺詐或錯誤而導致綜合財務報表存在重大錯誤陳述的風險,設計及執行審計程序以應對該等風險,以及獲取充足及適當的審計憑證,作為本行意見的基礎。由於欺詐可能涉及串謀、偽造、蓄意遺漏、虛假陳述,或凌駕於內部控制之上,因此未能發現因欺詐而導致出現重大錯誤陳述的風險高於未能發現因錯誤而導致出現重大錯誤陳述的風險。
- 瞭解與審計相關的內部控制,以設計在有關情況下屬適當的審計程序,但目的並非對 貴集 團內部控制的有效性發表意見。
- 評估董事所採用會計政策的適當性以及作出會 計估計及相關披露的合理性。
- 對董事採用持續經營會計基礎的適當性作出結 論,並根據所獲取的審計憑證,確定是否存在與 事項或情況有關的重大不確定性,從而可能導 致對 貴集團的持續經營能力產生重大疑慮。 倘本行認為存在重大不確定性,則有必要在核 數師報告中提請使用者注意綜合財務報表中的 相關披露。假若有關的披露不足,則修訂本行的 意見。本行的結論乃基於直至核數師報告日止 所取得的審計憑證。然而,未來事項或情況可能 導致 貴集團不能持續經營業務。

We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

2. Basis of Preparation of Consolidated Financial Statements (Continued)

The conditions described above indicate the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern and hence, its ability to realise its assets and discharge its liabilities in the normal course of business. Nevertheless, the consolidated financial statements were prepared based on the assumption that the Group can be operated as a going concern as the Directors are of the view that the Group will have sufficient working capital to finance its operations in the next twelve months from 31 December 2018, after taking into consideration of the following:

- The Group continues to generate cash inflows from its operating activities by implementing measures to tighten cost controls over various operating expenses in order to improve its cash flows position and to generate greater positive cash inflows from its operations in the future;
- (2) Since most of the bank borrowings as at 31 December 2018 of RMB324,670,000 were secured by the Group's assets, the Directors believe that it is highly probable that they can be renewed in the next twelve months; and
- (3) As at 31 December 2018, the Group has unutilised banking facilities of RMB80,330,000 which will be available for use by the Group in the next twelve months.

On the basis of the above considerations, the Directors believe that the Group can satisfy its financial obligations in the foreseeable future and accordingly, the consolidated financial statements have been prepared on a going concern basis.

2. 綜合財務報表的編製基準(續)

上文所述狀況顯示存在重大不明朗因素,可能 對本集團繼續按持續經營基準的能力及其後對 其於一般業務過程中變現其資產及償還負債的 能力產生重大疑問。然而,於考慮下列各項後, 綜合財務報表乃按本集團可以持續經營的假設 而編製,及董事認為本集團有足夠營運資金應 付自二零一八年十二月三十一日起計未來十二 個月的經營所需:

- (1) 本集團繼續通過實施收緊對各項經營開支的成本控制措施,產生來自其經營業務的現金流量,從而改善其日後現金流量狀況及產生更大的經營現金流入;
- (2) 由於於二零一八年十二月三十一日的人民幣324,670,000元銀行借貸大部分為由本集團資產作抵押,董事相信,未來十二個月被續貸的可能性較大;及
- (3) 本集團於二零一八年十二月三十一日的尚 未動用銀行融資額度為人民幣80,330,000 元(於未來十二個月將可供使用)。

Impairment under ECL model

The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under HKFRS 9 (including bank balances and cash, trade and other receivables, and contract assets). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition. Lifetime ECL represents that ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade and other receivables and contract assets. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

As at 31 December 2017, impairment loss allowance of RMB437,777,000 has been recognised and no additional expected credit loss allowance for trade receivables has been recognised as at 1 January 2018 against retained profits.

 - 3.1 應用香港財務報告準則第9號「金 融工具」的會計政策的影響及變 動(續) 預期信貸虧損模式下的減值 本集團就根據香港財務報告準則第9號須 予以減值的金融資產(包括銀行結餘及現 金、應收賬款及其他應收款及合約資產) 的預期信貸虧損確認虧損撥備。預期信貸 虧損的金額會於各報告日期予以更新以反 映自初始確認起的信貸風險變動。存續期 間的預期信貸虧損指於有關工具預期年期 內所有可能的違約事件將產生的預期信貸 虧損。相反,十二個月預期信貸虧損(「十 二個月預期信貸虧損」)指於報告日期後十 二個月內可能發生的違約事件預期產生的 該部分存續期間的預期信貸虧損。本集團 已根據其歷史信貸虧損經驗完成評估,並 就債務人特定因素、整體經濟環境以及於 報告日期當前狀況及日後狀況預測的評估 作出調整。

3.2 Impacts and changes in accounting policies on application of HKFRS 15 *Revenue from Contracts with Customers*

The Group has applied HKFRS 15 for the first time in the current year. HKFRS 15 superseded HKAS 18 *Revenue*, HKAS 11 *Construction Contracts* and the related interpretations.

The Group has applied HKFRS 15 retrospectively with the cumulative effect of initially applying this standard recognised at the date of initial application, 1 January 2018. Any difference at the date of initial application is recognised in the opening retained profits (or other components of equity, as appropriate) and comparative information has not been restated. Furthermore, in accordance with the transition provisions in HKFRS 15, the Group has elected to apply the Standard retrospectively only to contracts that are not completed at 1 January 2018. Accordingly, certain comparative information may not be comparable as comparative information was prepared under HKAS 18 *Revenue*.

The Group recognises revenue from the following major sources:

- Provision of capital and reclamation dredging services and related consultation services
- Provision of dredging or water management services or constructions for promoting environmental interests and water quality
- Provision of marine hoisting, installation, salvaging, vessel chartering and other engineering services
- Provision of management and leasing of a shopping mall and the construction of a hotel

3.2 Impacts and changes in accounting policies on application of HKFRS 15 Revenue from Contracts with Customers (Continued) Summary of effects arising from initial application of HKFRS 15 (Continued)

As at 1 January 2018, retention receivables of HK\$59,098,000 are conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts, and such balance was reclassified from trade and other receivables to contract assets.

As at 1 January 2018, advances from customers of RMB17,014,000 related to the consideration received for Capital and Reclamation Dredging Business and Environmental Protection Dredging and Water Management Business which was previously included in trade and other payables. These balances were reclassified to contract liabilities included in trade and other payables in the consolidated statement of financial position as at 1 January 2018 upon application of HKFRS 15.

Other than the adjustment made as described above, there is no material impact of transition to HKFRS 15 on the accumulated profits at 1 January 2018.

3.3 Amendments to HKAS 40 Transfers of Investment Property

The amendments clarify that a transfer to, or from, investment property necessitates an assessment of whether a property meets, or has ceased to meet, the definition of investment property, supported by evidence that a change in use has occurred. The amendments further clarify that situations other than the ones listed in HKAS 40 may evidence a change in use, and that a change in use is possible for properties under construction (i.e. a change in use is not limited to completed properties).

At the date of initial application, the Group assessed the classification of certain properties based on conditions existing at that date. There is no impact to the classification at 1 January 2018.

New and amendments to HKFRSs in issue but not yet effective (Continued)

Except for the new and amendments to HKFRSs mentioned below, the directors of the Company anticipate that the application of all other new and amendments to HKFRSs and Interpretations will have no material impact on the consolidated financial statements in the foreseeable future.

HKFRS 16 Leases

HKFRS 16 introduces a comprehensive model for the identification of lease arrangements and accounting treatments for both lessors and lessees. HKFRS 16 will supersede HKAS 17 *Leases* and the related interpretations when it becomes effective.

HKFRS 16 distinguishes lease and service contracts on the basis of whether an identified asset is controlled by a customer. In addition, HKFRS 16 requires sales and leaseback transactions to be determined based on the requirements of HKFRS 15 as to whether the transfer of the relevant asset should be accounted as a sale. HKFRS 16 also includes requirements relating to subleases and lease modifications.

Distinctions of operating leases and finance leases are removed for lessee accounting, and is replaced by a model where a right-ofuse asset and a corresponding liability have to be recognised for all leases by lessees, except for short-term leases and leases of low value assets. 應用新訂及經修訂的香港財 務報告準則(「香港財務報告準 則」)(續)

已頒佈但尚未生效的新訂及經修 訂香港財務報準則(續)

除下文所述新訂及經修訂香港財務報告準則 外,本公司董事預計應用所有其他新訂及經修 訂香港財務報告準則及詮釋於可見未來對綜合 財務報表將無重大影響。

香港財務報告準則第16號租賃

香港財務報告準則第16號為識別出租人及承租 人的租賃安排及會計處理引入綜合模式。香港 財務報告準則第16號生效時將取代香港會計準 則第17號「租賃」及其相關詮釋。

香港財務報告準則第16號基於確定資產是否由 客戶控制區分租賃及服務合約。此外,香港財務 報告準則第16號規定,出售及售後回租交易基 於香港財務報告準則第15號有關相關資產轉讓 是否應計為出售的要求確定。香港財務報告準 則第16號亦包括有關分租及租賃修訂的規定。

除短期租賃及低價值資產租賃外,經營租賃及 融資租賃的差異自承租人會計處理中移除,並 以承租人須就所有租賃確認使用權資產及相應 負債的模式取代。

3. Application of New and Amendments to Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

New and amendments to HKFRSs in issue but not yet effective (Continued)

HKFRS 16 Leases (Continued)

The right-of-use asset is initially measured at cost and subsequently measured at cost (subject to certain exceptions) less accumulated depreciation and impairment losses, adjusted for any remeasurement of the lease liability. The lease liability is initially measured at the present value of the lease payments that are not paid at that date. Subsequently, the lease liability is adjusted for interest and lease payments, as well as the impact of lease modifications, amongst others. For the classification of cash flows, the Group currently presents upfront prepaid lease payments as investing cash flows in relation to leasehold lands for owned use and those classified as investment properties while other operating lease payments are presented as operating cash flows. Upon application of HKFRS 16, lease payments in relation to lease liability will be allocated into a principal and an interest portion which will be presented as financing cash flows by the Group.

Under HKAS 17, the Group has already recognised an asset and a related finance lease liability for finance lease arrangement and prepaid lease payments for leasehold lands where the Group is a lessee. The application of HKFRS 16 may result in potential changes in classification of these assets depending on whether the Group presents right-of-use assets separately or within the same line item at which the corresponding underlying assets would be presented if they were owned.

Other than certain requirements which are also applicable to lessor, HKFRS 16 substantially carries forward the lessor accounting requirements in HKAS 17, and continues to require a lessor to classify a lease either as an operating lease or a finance lease.

Furthermore, extensive disclosures are required by HKFRS 16.

 應用新訂及經修訂的香港財 務報告準則(「香港財務報告準 則」)(續)

已頒佈但尚未生效的新訂及經修 訂香港財務報準則(續)

香港財務報告準則第16號租賃(續) 使用權資產初始按成本計量,其後按成本(受若 干例外情況所規限)減累計折舊及減值虧損計 量,並就任何租賃負債重新計量作出調整。租 賃負債初始按當日尚未支付租賃款項的現值計 量。其後,租賃負債就利息及租賃款項以及(其 中包括)租賃修訂的影響作出調整。就現金流分 類,本集團目前將首期預付租賃款呈列為自用 租賃土地相關投資現金流,分類為投資物業,而 其他營運租賃款呈列為營運現金流。應用香港 財務報告準則第16號之後,租賃負債相關租賃 款將分類至本金及利息部分,本集團將其呈列 為融資現金流。

依據香港會計準則第17號,本集團已確認融資 租賃安排的資產及相關融資租賃,以及本集團 作為承租人的租賃土地預付租賃款。應用香港 財務報告準則第16號可能致使該等資產分類可 能變更,具體取決於本集團是否單獨或在呈列 自有相關資產的相同行項目中呈列使用權資產。

除亦適用於出租人的若干要求外,香港財務報 告準則第16號實質上推行香港會計準則第17號 中的出租人會計要求,並繼續要求出租人將租 賃分類為營運租賃或融資租賃。

此外,香港財務報告準則第16號要求作出更全 面的披露。

3. Application of New and Amendments to Hong Kong Financial Reporting Standards ("HKFRSs") (Continued)

New and amendments to HKFRSs in issue but not yet effective (Continued)

HKFRS 16 Leases (Continued)

As at 31 December 2018, the Group has non-cancellable operating lease commitments of HK\$404,000 as disclosed in Note 31. A preliminary assessment indicates that these arrangements will meet the definition of a lease. Upon application of HKFRS 16, the Group will recognise a right-of-use asset and a corresponding liability in respect of all these leases unless they qualify for low value or short-term leases.

In addition, the Group currently considers refundable rental deposits paid of RMB145,000 and refundable rental deposits received of RMB70,000 as rights and obligations under leases to which HKAS 17 applies. Based on the definition of lease payments under HKFRS 16, such deposits are not payments relating to the right to use the underlying assets, accordingly, the carrying amounts of such deposits may be adjusted to amortised cost. Adjustments to refundable rental deposits paid would be considered as additional lease payments and included in the carrying amount of right-of-use assets. Adjustments to refundable rental deposits refundable rental deposits received would be considered as advance lease payments.

The application of the new requirements may result in changes in measurement, presentation and disclosure as indicated above. However, it is not practicable to provide a reasonable estimate of the financial effect until the Directors of the Company complete a detailed review. 應用新訂及經修訂的香港財 務報告準則(「香港財務報告準 則」)(續)

已頒佈但尚未生效的新訂及經修 訂香港財務報準則(續)

香港財務報告準則第16號租賃(續) 誠如附註31所披露,本集團於二零一八年十二 月三十一日的不可撤銷經營租賃承擔為404,000 港元。初步評估顯示此等安排將符合租賃的定 義。於應用香港財務報告準則第16號時,本集 團將確認使用權資產及有關所有該等租賃的相 應負債,除非其符合低價值或短期租賃則另作 別論。

此外,本集團目前將已付可退還租賃按金人 民幣145,000元及已收可退還租賃按金人民幣 70,000元視為香港會計準則第17號適用的租賃 權利及義務。基於香港財務報告準則第16號下 租賃款的定義,該等按金並非就相關資產使用 權支付的款項,因此,該等按金賬面值可調整至 攤銷成本。已付可退還租賃按金將視為額外租 賃款,計入使用權資產賬面值。已收可退還按金 將視為預付租賃款的調整。

應用新要求可能引致上述計量、呈列及披露變 更。但本公司董事完成詳細審核前,無法提供合 理財務影響估計。

4. Significant Accounting Policies

The consolidated financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards issued by the HKICPA. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules") and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis except for investment properties that are measured at fair values at the end of each reporting period, as explained in the accounting policies set out below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for leasing transactions that are within the scope of HKAS 17 Leases and HKFRS 2 Share-based Payment, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in HKAS 2 Inventories or value in use in HKAS 36 Impairment of Assets.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

4. 主要會計政策

綜合財務報表乃根據香港會計師公會頒佈的香 港財務報告準則編製。此外,綜合財務報表包括 香港聯合交易所有限公司證券上市規則(「上市 規則」)及香港公司條例規定的適用披露。

綜合財務報表乃按歷史成本基準編製,惟投資 物業乃按各報告期末的公平值計量(如下述會計 政策所闡述)。

歷史成本一般根據交換貨品及服務時所付出代 價的公平值計算。

公平值是於計量日期市場參與者於有秩序交易 中出售資產所收取或轉讓負債須支付的價格, 而不論該價格是否直接可觀察或可使用其他估 值技術估計。若市場參與者於計量日期對資產 或負債定價時會考慮資產或負債的特點,則本 集團於估計資產或負債的公平值時會考慮該等 特點。此等綜合財務報表中作計量及/或披露用 途的公平值乃按此基準釐定,惟屬於香港會計 準則第17號租賃及香港財務報告準則第2號 份支付範圍內的租賃交易,以及與公平值存在 若干類似特點但並非公平值的計量(如香港會計 準則第2號存貨中的可變現淨值或香港會計準則 第36號資產減值中使用的數值)除外。

非金融資產公平值計量考慮市場參與者最大限 度使用資產,或將其出售予另一名將最大限度 使用資產的市場參與者,從而產生經濟效益的 能力。

4. Significant Accounting Policies (Continued)

For investment properties which are transacted at fair value and a valuation technique that unobservable inputs is to be used to measure fair value in subsequent periods, the valuation technique is calibrated so that at initial recognition the results of the valuation technique equals the transaction price.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below.

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved where the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

此外,就財務報告而言,公平值計量根據公平值 計量的輸入數據可觀察程度及公平值計量的輸 入數據對其整體的重要性分類為第一級、第二 級或第三級,詳情如下:

- 第一級輸入數據是實體於計量日期可以取 得的相同資產或負債於活躍市場的報價 (未經調整);
- 第二級輸入數據是就資產或負債直接或間 接地可觀察的輸入數據(第一級內包括的 報價除外);及

綜合基準

綜合財務報表包括本公司及本公司及其附屬公 司控制的實體(包括結構性實體)的財務報表。 當本公司符合以下要素時,則本公司取得控制 權:

- 因其參與被投資方業務而獲得或有權獲得 可變回報;及
- 有能力以其權力影響其回報。

4. Significant Accounting Policies (Continued)

Basis of consolidation (Continued)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date when the Group gains control until the date when the Group ceases to have control over the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less any accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit or any of the cashgenerating unit within the group of cash-generating units, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit, the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the cash-generating unit) disposed of and the portion of the cash-generating unit retained.

商譽

收購業務產生的商譽按收購業務日期產生的成 本減任何累計減值虧損(如有)列賬。

就減值測試而言, 商譽會分配至預期可從合併 的協同效益中獲益的本集團各現金產生單位, 這是商譽內部管理目的的最低水平而不大於經 營分部。

獲分配商譽的現金產生單位會每年進行減值測 試,或於有跡象顯示該單位可能出現減值時經 常進行減值測試。倘現金產生單位的可回收金 額少於其賬面值,則減值虧損會先用作減低任 何分配至該單位的商譽的賬面值,其後則按該 單位內各項資產賬面值的比例分配至該單位的 其他資產。任何商譽減值虧損直接於損益中確 認。就商譽確認的減值虧損不會於其後期間撥 回。

於出售相關現金產生單位或現金產生單位組別 中任何現金產生單位時,應佔商譽金額納入出 售損益金額釐定。當本集團出售現金產生單位 中的業務,出售商譽金額基於出售業務(或現金 產生單位)及留存現金產生單位部分的相對價值 計量。

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable.

Revenue from contracts with customers (upon application of HKFRS 15 in accordance with transition in note 3)

Under HKFRS 15, the Group recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation represents a good and service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

與客戶的合約產生的收益(依據附 註3過渡應用香港財務報告準則第 15號之後)

根據香港財務報告準則第15號,本集團當(或 於)完成履約責任時確認收益,即於特定履約責 任相關的商品或服務的「控制權」轉讓予客戶時。

4. Significant Accounting Policies (Continued)

Revenue from contracts with customers (upon application of HKFRS 15 in accordance with transition in note 3) (Continued)

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- the customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs;
- the Group's performance creates and enhances an asset that the customer controls as the Group performs; or
- the Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct good or service.

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with HKFRS 9. In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer.

A contract asset and a contract liability relating to a contract are accounted for and presented on a net basis.

與客戶的合約產生的收益(依據附 註3過渡應用香港財務報告準則第 15號之後)(續)

倘符合下列其中一項標準,控制權在一段時間 內轉移,而收益確認會按一段時間內完全滿足 相關履約責任的進度進行:

- 客戶同時收取及耗用由本集團履約所帶來 的利益;
- 本集團履約導致產生及提升於本集團履約
 時由客戶控制的資產;或
- 本集團履約並無產生對本集團有替代用途 的資產,且本集團可享有強制執行權,以 收回迄今已履約部分的款項。

否則,收益於客戶獲得明確商品或服務的控制 權時確認。

合約資產指本集團就向客戶換取本集團已轉 讓的貨品或服務收取代價的權利(尚未成為無 條件)。其根據香港財務報告準則第9號評估減 值。相反,應收款項指本集團收取代價的無條件 權利,即代價付款到期前僅需時間推移。

合約負債指本集團向已支付代價(或到期代價金 額)的客戶轉讓商品或服務的責任。

合約相關的合約資產及合約負債均按淨額列賬 及呈列。

4. Significant Accounting Policies (Continued)

Revenue from contracts with customers (upon application of HKFRS 15 in accordance with transition in note 3) (Continued)

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

Where revenue is recognized over time, the progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Variable consideration

For contracts that contain variable consideration, the Group estimates the amount of consideration to which it will be entitled using either (a) the expected value method or (b) the most likely amount, depending on which method better predicts the amount of consideration to which the Group will be entitled.

The estimated amount of variable consideration is included in the transaction price only to the extent that it is highly probable that such an inclusion will not result in a significant revenue reversal in the future when the uncertainty associated with the variable consideration is subsequently resolved.

At the end of each reporting period, the Group updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to represent faithfully the circumstances present at the end of the reporting period and the changes in circumstances during the reporting period.

随時間確認收益:計量完全覆行履約 責任的進度

輸出法

若收益隨時間確認,完全覆行履約責任的進度 乃根據輸出法計量,即以直接計量迄今已轉讓 予客戶的商品或服務相對合約項下承諾的剩餘 商品或服務的價值為基礎確認收益,此舉最能 反映本集團轉讓商品或服務控制權的履約情況。

可變代價

就包含可變代價的合約而言,本集團使用(a)預 期價值法或(b)最可能金額(視乎何種方法可令本 集團更好預測其有權獲得的代價金額而定)估計 其有權獲得的代價金額。

估計可變代價金額僅在可變代價相關不明朗因 素其後得以解決時,有關計入幾乎不會導致日 後出現重大收益撥回的情況下計入交易價格。

本集團於各報告期末更新估計交易價格(包括更 新其對可變代價估計是否受限的評估),以忠實 呈列本報告期間末存在的情況以及於本報告期 間的情況變化。

Revenue recognition (prior to January 2018)

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances in the normal cause of business, net of sales related taxes.

Revenue is recognised when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the Group and when specific criteria have been met for each of the Group's activities, as described below.

Service income is recognised when services are provided in the normal course of business, net of sales related taxes.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income from a financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

The Group's accounting policy for recognition of revenue from operating leases is described in the accounting policy for leasing below.

Property, plant and equipment

Property, plant and equipment including buildings and leasehold land (classified as finance leases) held for use in the production or supply of services or administrative purposes (other than construction in progress as described below) are stated in the consolidated statement of financial position at cost, less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

4. Significant Accounting Policies (Continued)

Property, plant and equipment (Continued)

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

If an item of property, plant and equipment becomes an investment property because its use has changed as evidenced by end of owner-occupation, any difference between the carrying amount and the fair value of that item (including the relevant prepaid lease payments) at the date of transfer is recognised in other comprehensive income and accumulated in property revaluation reserve. On the subsequent sale or retirement of the asset, the relevant revaluation reserve will be transferred directly to retained profits.

Depreciation is recognised so as to write off the cost of assets (other than properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Buildings under development for future owner-occupied purpose

When buildings are in the course of development for production or for administrative purposes, the amortisation of prepaid lease payments provided during the construction period is included as part of costs of buildings under construction. Buildings under construction are carried at cost, less any identified impairment losses. Depreciation of buildings commences when they are available for use (i.e. when they are in the location and condition necessary for them to be capable of operating in the manner intended by management).

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including properties under construction for such purposes).

Investment properties under construction are initially measured at cost, including any directly attributable expenditure and borrowing costs eligible for capitalisation. Construction costs incurred for investment properties under construction are capitalised as part of the carrying amount of the investment properties under construction.

Subsequent to completion of construction of investment properties, investment properties are measured using their fair value model. Gains or losses arising from changes in the fair value of investment properties are included in profit or loss for the period in which they arise.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from its disposals. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss in the period in which the property is derecognised.

Impairment losses on tangible assets

At the end of each reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of tangible assets are estimated individually, when it is not possible to estimate the recoverable amount of an asset individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (as a cashgenerating unit) for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset (or a cashgenerating unit) is reduced to its recoverable amount. An impairment loss is recognised as an expense immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or a cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately.

4. 主要會計政策(續)

有形資產減值虧損

於各報告期末,本集團會審閱其有形資產的賬 面值,以判斷是否有任何跡象顯示該等資產已 出現減值虧損。倘存在任何該等跡象,會對有關 資產的可回收金額進行估計,以釐定減值虧損 (如有)的程度。

有形資產可收回金額獨立估算,倘未能估算個 別資產的可收回金額,本集團將估算資產所屬 現金產生單位的可收回金額。倘合理及一貫分 配基準可獲識別,企業資產亦會被分配到個別 的現金產生單位,否則或會被分配到可識別合 理及一貫分配基準的最小現金產生單位組別。

可收回金額為公平值減銷售成本與使用價值兩 者中的較高值。於評估使用價值時,乃以反映目 前市場對金錢時間價值及資產作為現金產生單 位於估計未來現金流量調整前的獨有風險的税 前貼現率折算估計未來現金流量至其現值。

倘估計資產的可收回金額低於其賬面值,該項 資產(或現金產生單位)的賬面值則會調減至其 可收回金額。減值虧損將立即於損益賬確認為 開支。

倘減值虧損隨後被撥回,則該資產(或現金產生 單位)的賬面值會增加至其重新估計的可收回金 額,但增加後的賬面值不得超過該資產(或現金 產生單位)於以往年度未確認減值虧損時釐定的 賬面值。減值虧損的撥回立即確認為收入。

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognised on a straightline basis over the term of the relevant lease.

The Group as lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Leasehold land and building

When the Group makes payments for a property which includes both leasehold land and building elements, the Group assesses the classification of each element as a finance or an operating lease separately based on the assessment as to whether substantially all the risks and rewards incidental to ownership of each element have been transferred to the Group, unless it is clear that both elements are operating leases in which case the entire property is accounted as an operating lease.

Specifically, the entire consideration (including any lump-sum upfront payments) are allocated between the leasehold land and the building elements in proportion to the relative fair values of the leasehold interests in the land element and building element at initial recognition.

To the extent the allocation of the relevant payments can be made reliably, interest in leasehold land that is accounted for as an operating lease is presented as "prepaid land lease payments" in the consolidated statement of financial position and is amortised over the lease term on a straight-line basis. When the lease payments cannot be allocated reliably between the leasehold land and building elements, the entire property is generally classified as finance lease under property, plant and equipment.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Nonmonetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Retirement benefit costs

Payments to defined contribution schemes are recognised as an expense when employees have rendered service entitling them to the contributions. For forfeited contributions that are not vest fully, if any, may be used to reduce the existing level of contributions.

Payments made to state-managed retirement benefit schemes are dealt with as payments to defined contribution plans where the Group's obligations under the schemes are equivalent to those arising in a defined contribution retirement benefit plan.

Short-term and other long-term employee benefits

Short-term employee benefits are recognised at the undiscounted amount of the benefits expected to be paid as and when employees rendered the services. All short-term employee benefits are recognised as an expense unless another HKFRS requires or permits the inclusion of the benefit in the cost of an asset.

A liability is recognised for benefits accruing to employees (such as wages and salaries, annual leave and sick leave) after deducting any amount already paid.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date. Any changes in the liabilities' carrying amounts resulting from service cost, interest and remeasurements are recognised in profit or loss except to the extent that another HKFRS requires or permits their inclusion in the cost of an asset.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from "(loss) profit before tax" as reported in the consolidated statement of profit or loss and other comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of each reporting period.

Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. Deferred tax assets arising from deductible temporary differences associated with such investments are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled, or the asset is realised based on tax rate (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Taxation (Continued)

Deferred Tax (Continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for investment properties that are measured using the fair value model, the carrying amounts of such properties are presumed to be recovered entirely through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model whose objective is to consume substantially of the economic benefits embodied in the investment property over time, rather than through sale.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Share-based payments

Equity-settled share-based payment transactions Share options granted to employees

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value of the equity-settled share-based payments determined at the grant date without taking into consideration all non-market vesting conditions is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity (share options reserve). At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest based on assessment of all relevant non-market vesting conditions. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options reserve.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables arising from contracts with customers which are initially measured in accordance with HKFRS 15 since 1 January 2018. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts and payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset or financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Interest income which are derived from the Group's ordinary course of business are presented as revenue.

All other financial assets are subsequently measured at FVTPL, except that at the date of initial application/initial recognition of a financial asset the Group may irrevocably elect to present subsequent changes in fair value of an equity investment in OCI if that equity investment is neither held for trading nor contingent consideration recognised by an acquirer in a business combination to which HKFRS 3 *Business Combinations* applies.

Classification and subsequent measurement of financial assets (upon application of HKFRS 9 in accordance with transitions in note 3) (Continued)

A financial asset is classified as held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

In addition, the Group may irrevocably designate a financial asset that are required to be measured at the amortised cost or FVTOCI as measured at FVTPL if doing so eliminates or significantly reduces an accounting mismatch.

(i) Amortised cost and interest income

Interest income is recognised using the effective interest method for financial assets measured subsequently at amortised cost and debt instruments/receivables subsequently measured at FVTOCI. For financial instruments other than purchased or originated credit-impaired financial assets, interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial asset, except for financial assets that have subsequently become credit-impaired. For financial assets that have subsequently become credit-impaired, interest income is recognised by applying the effective interest rate to the amortised cost of the financial asset from the next reporting period. If the credit risk on the credit impaired financial instrument improves so that the financial asset is no longer credit-impaired, interest income is recognised by applying the effective interest rate to the gross carrying amount of the financial asset from the beginning of the reporting period following the determination that the asset is no longer credit impaired.

Impairment of financial assets (upon application of HKFRS 9 with transitions in accordance with note 3) The Group recognises a loss allowance for ECL on financial assets which are subject to impairment under HKFRS 9 (including trade receivables and contract assets). The amount of ECL is updated at each reporting date to reflect changes in credit risk since initial recognition.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of the relevant instrument. In contrast, 12-month ECL ("12m ECL") represents the portion of lifetime ECL that is expected to result from default events that are possible within 12 months after the reporting date. Assessment are done based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current conditions at the reporting date as well as the forecast of future conditions.

The Group always recognises lifetime ECL for trade receivables and contract assets without significant financing component. The ECL on these assets are assessed individually for debtors with significant balances and/or collectively using a provision matrix with appropriate groupings.

For all other instruments, the Group measures the loss allowance equal to 12m ECL, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

In assessing whether the credit risk has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;

Impairment of financial assets (upon application of HKFRS 9 with transitions in accordance with note 3) (Continued)

(i) Significant increase in credit risk (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the aforegoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if (i) it has a low risk of default, (ii) the borrower has a strong capacity to meet its contractual cash flow obligations in the near term and (iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations. The Group considers a debt instrument to have low credit risk when it has an internal or external credit rating of 'investment grade' as per globally understood definitions.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

> 儘管有上述情況,本集團認為,若報告日 確定債務工具信貸風險較低,則債務工具 的信貸風險並未因初始確認顯著上升。倘 債務工具(i)違約風險較低,(ii)借款人於近 期履行合約現金流義務的能力較強及(iii)經 濟及業務狀況中的不利變更於較長期限內 可能但不一定會減損借款人履行其合約現 金流義務的能力,則確定債務工具信貸風 險較低。當債務工具獲得全球公認的內部 或外部「投資等級」信貸評級,則本集團認 為債務工具信貸風險較低。

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate. For contracts with large stateowned enterprise or local government, the Group would assess the exposure individually taking into consideration specific facts and circumstances in considering when an event of default has occurred.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over three years past due, whichever occurs sooner. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forwardlooking information. Estimation of ECL reflects an unbiased and probability-weighted amount that is determined with the respective risks of default occurring as the weights.

Generally, the ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and the cash flows that the Group expects to receive, discounted at the effective interest rate determined at initial recognition.

- (v) Measurement and recognition of ECL (Continued) Where ECL is measured on a collective basis or cater for cases where evidence at the individual instrument level may not yet be available, the financial instruments are grouped on the customer basis:
 - Nature of financial instruments (i.e. the Group's trade and other receivables, finance lease receivables and amounts due from customers are each assessed as a separate group. Loans to related parties are assessed for expected credit losses on an individual basis);
 - Past-due status;
 - Nature, size and industry of debtors; and
 - External credit ratings where available.

The grouping is regularly reviewed by management to ensure the constituents of each group continue to share similar credit risk characteristics.

Interest income is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit impaired, in which case interest income is calculated based on amortised cost of the financial asset.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments by adjusting their carrying amount, with the exception of trade receivables and contract assets where the corresponding adjustment is recognised through a loss allowance account.

Classification and subsequent measurement of financial assets (before application of HKFRS 9 on 1 January 2018)

The Group's financial assets represent as loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period to the net carrying amount on initial recognition. Interest income is recognised on an effective interest basis for debt instruments.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including trade and other receivables and bank balances and cash) are measured at amortised cost using the effective interest method, less any identified impairment losses (see accounting policy on impairment of financial assets below).

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the financial assets have been affected.

For loans and receivables, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- breach of contract, such as default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

Impairment loss for loans and receivables are assessed on an individual basis.

For loans and receivables, the amount of the impairment loss recognised is the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the financial asset's original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables, where the carrying amount is reduced through the use of an allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss. When an trade and other receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited to profit or loss.

就貸款及應收款項而言,減值的客觀證據可能 包括:

- 發行人或交易對方出現嚴重財務困難;或
- 違約,例如逾期或拖欠利息或本金還款;
 或
- 借款人很有可能破產或進行財務重組。

貸款及應收款項的減值虧損乃按個別基準評估。

就貸款及應收款項而言,已確認減值虧損的金 額為資產賬面值與按金融資產原實際利率貼現 的估計未來現金流量現值之間的差額。

所有金融資產的減值虧損會直接於金融資產的 賬面值中作出扣減,惟應收賬款及其他應收款 的賬面金額則透過撥備賬扣減。撥備賬的賬面 金額變動於損益賬確認。倘應收賬款及其他應 收款被視為不可收回,則會自撥備賬撇銷。先前 撇銷而其後收回的金額計入損益賬。

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instrument

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period to the net carrying amount on initial recognition. Interest expense is recognised on an effective interest basis.

Financial liabilities at amortised cost

Other financial liabilities (including trade and other payables, amounts due to directors of the Company, amounts due to noncontrolling interests of a subsidiary, bank borrowings, other borrowings and bonds payable) are subsequently measured at amortised cost, using the effective interest method.

Derecognition

Derecognition/non-substantial modification of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

The Group accounts for an exchange with a lender of a financial liability with substantially different terms as an extinguishment of the original financial liability and the recognition of a new financial liability. A substantial modification of the terms of an existing financial liability or a part of it (whether or not attributable to the financial difficulty of the Group) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

The Group considers that the terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10 per cent different from the discounted present value of the remaining cash flows of the original financial liability. Accordingly, such exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. The exchange or modification is considered as non-substantial modification when such difference is less than 10 per cent.

Derecognition (Continued)

Non-substantial modifications of financial liabilities (under HKFRS 9 since 1 January 2018)

For non-substantial modifications of financial liabilities that do not result in derecognition, the carrying amount of the relevant financial liabilities will be calculated at the present value of the modified contractual cash flows discounted at the financial liabilities' original effective interest rate. Any adjustment to the carrying amount of the financial liability is recognised in profit or loss at the date of modification. Transaction costs or fees incurred are adjusted to the carrying amount of the modified financial liabilities and are amortised over the remaining term.

Non-substantial modifications of financial liabilities (before application of HKFRS 9 on 1 January 2018)

For non-substantial modifications of financial liabilities that do not result in derecognition, at the point of modification, the carrying amount of the relevant financial liabilities is revised for directly attributable transaction costs and any consideration paid to or received from the counterparty. The effective interest rate is then adjusted to amortise the difference between the revised carrying amount and the expected cash flows over the life of the modified instrument.

5. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

In the application of the Group's accounting policies, which are described in Note 4 to the consolidated financial statements, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

5. Critical Accounting Judgements and Key Sources of Estimation Uncertainty (Continued)

Critical judgements in applying accounting policies

The following are the critical judgements, apart from those involving estimations (see below), that the Directors have made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements and the results, assets and liabilities of the PRC Operational Entity and its subsidiaries are consolidated with other group entities.

Consolidation of a structured entity

PRC laws and regulations prohibit or restrict foreign investors from owning more than 50% equity interest in any enterprise which owns vessels for conducting dredging business in the PRC.

On 19 April 2011, Xiangyu PRC (as defined in Note 39), the PRC Operational Entity (as defined in Note 39) and its respective equity participants, being Mr. Liu and Ms. Zhou Shuhua ("Ms. Zhou"), the spouse of Mr. Liu, entered into the Contractual Arrangements (as defined in Note 39). The PRC Operational Entity and its subsidiaries are engaged in the provision of dredging services of the Group. Details of the Contractual Arrangements are set out in Note 39.

The Directors, after consulting legal opinion, are of the view that the terms of the Contractual Arrangements have in substance enabled Xiangyu PRC to have the ability and right to direct the relevant activities to obtain variable returns from its involvement with the PRC Operational Entity and its subsidiaries, and to have free ability to use its power to affect its returns, despite the absence of formal legal equity interest held by the Group therein. Accordingly, the PRC Operational Entity is treated as a subsidiary of the Company, and the results, assets and liabilities of the PRC Operational Entity and its subsidiaries are consolidated together with other group entities as if they were wholly owned by the Company.

結構性實體合併

中國法律及規定禁止或限制外國投資者於任何 擁有可進行疏浚業務的船舶的中國企業中持有 超過50%的股權。

Consolidation of a structured entity (Continued)

In the opinion of the Directors, with reference to legal opinion, the Contractual Arrangements are in compliance with the existing PRC laws and regulations are valid, binding and legally enforceable, and do not result in any violation of PRC laws or regulations currently in effect in all material respects. However, uncertainties in the PRC legal system could cause the Group's current Contractual Arrangements Structure to be found in violation of any existing and/or future PRC laws or regulations and could limit the Company's ability, through Xiangyu PRC, to enforce its rights and power over the PRC Operational Entity under the Contractual Arrangements.

The operation of the Group was substantially derived from the PRC Operational Entity and its subsidiaries. If the current structure or any of the Contractual Arrangements were found to be in violation of PRC Laws and regulations, the Group may be subject to penalties, which in the future may include but not be limited to, the cancellation or revocation of the Group's business and operating licenses, being required to restructure the Group's operations or discontinue the Group's operating activities. The imposition of any of these or other penalties may result in a material and adverse effect on the Group's ability to conduct its operations. In such case, the Group may not be able to operate or control the PRC Operational Entity and its subsidiaries, which may result in deconsolidation of it.

5. Critical Accounting Judgements and Key Sources of Estimation Uncertainty (Continued)

Critical judgements in applying accounting policies (Continued)

Deferred taxation on investment properties

For the purposes of measuring deferred taxation arising from investment properties that are measured using the fair value model, the Directors of the Company have reviewed the Group's investment property and concluded that the Group's investment properties are held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, in measuring the Group's deferred taxation on investment properties, the Directors have determined that the presumption that the carrying amounts of investment properties measured using the fair value model are recovered entirely through sale is rebutted. Accordingly, deferred taxation in relation to the Group's investment properties has been measured based on the tax consequences of recovering the carrying amounts entirely through use.

Key sources of estimation uncertainty

The key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets within the next financial year are disclosed below.

Estimates of fair values of investment properties

As described in Note 19, investment properties are measured at fair value at the end of reporting period using income capitalised approach by independent professional valuers. Such valuations are based on certain assumptions, which are subject to uncertainty and might materially differ from the actual results. In relying on the valuation report, the directors of the Company have exercised their judgment and are satisfied that the assumptions used in the valuation reflect market condition. Where there are any changes in the assumptions due to the market conditions in the PRC, the estimate of fair value of investment properties may be significantly affected. As at 31 December 2018, investment properties of approximately RMB470,786,000 (2017: RMB413,194,000) are measured using income capitalised approach.

投資物業遞延税項

為了衡量使用公平值模型計量投資物業產生的 遞延税項,本公司董事對本集團的投資物業進 行了審查,並得出結論認為本集團的投資物業 按照目前消費標準的經營模式進行,基本上所 有的經濟利益都體現在投資物業中而不是出 售。因此,在計量本集團投資物業的遞延税項 時,董事已確定推定使用公平值模型計量的投 資物業的賬面價值是通過出售完全收回的。因 此,本集團投資物業的遞延税項是根據完全通 過使用追回賬面價值的税後影響進行衡量的。

估計不明朗因素的主要來源

於報告期末,有重大風險或會導致下個財政年 度資產的賬面金額出現重大調整的估計不明朗 因素的主要來源的披露如下。

投資物業的公平值估計

如附註19所述,投資物業於報告期末乃由獨立 專業估值師採用收益資本化法按公平值計量。 該等估值乃基於若干假設,或會受不確定性因 素影響且可能與實際結果有重大出入。在依賴 估值報告時,本公司董事已行使判斷且信納估 值中所用假設反映了市場狀況。倘因中國市況 導致假設出現任何變動時,投資物業的公平值 估計或會受到重大影響。於二零一八年十二月 三十一日,約人民幣470,786,000元(二零一七 年:人民幣413,194,000元)的投資物業乃使用 收益資本化法計量。

5. Critical Accounting Judgements and Key Sources of Estimation Uncertainty (Continued)

Key sources of estimation uncertainty (Continued)

ECL allowances for trade receivable and contract assets

Management regularly assesses the loss allowances for expected credit losses on trade receivables and contract assets and recognises lifetime ECL for trade receivables and contract assets. Allowances for these receivables and contract assets are made based on evaluation of ECL for trade receivables and contract assets and involve exercise of management's judgments, which are made by reference to the estimation of the future cash flows discounted at the original effective interest rate to calculate the present value. A considerable amount of judgment is required in assessing the ultimate realisation of these debtors, including their current creditworthiness and the risk of default occurring on debtors with significant balances and/or collectively using a provision matrix with appropriate groupings. The assessment on the probability of default and loss given default is based on historical data adjusted by forward-looking information. As at 31 December 2018, the carrying amount of trade receivables and contract assets are approximately RMB1,035,691,000 and RMB34,662,000 respectively, net of impairment loss allowance of approximately RMB680,959,000 and RMB2,873,000 respectively.

Estimated useful life and residual values of property, plant and equipment

Dredgers and plant and machinery included in property, plant and equipment are depreciated over their useful lives. The assessment of estimated useful lives and residual values are matters of judgement based on the experience of the Group, taking into account factors such as technological progress, conditions of the dredgers and plant and machinery and changes in market demand. Useful lives and residual values are periodically reviewed for continued appropriateness. Due to the long useful lives of the dredgers and plant and machinery, changes to the estimates used can affect the amount of depreciation to be charged to profit or loss in each reporting period and consequently affect their carrying value at the end of the reporting period. There was no change in the estimated useful lives or residual values of property, plant and equipment for both years.

The Group has a right to consideration from its customers in an amount that corresponds directly with the value to the customers of the Group's performance completed to date. As the Group bills its customers a fixed amount based on each portion of dredging works provided, the Group recognises revenue based on the amount it has a right to invoice.

The Group recognises revenue on the basis of the volume of dredging works performed and delivered to customers. The measurements of value of the dredging works transferred to customers are directly invoiced based on a quantitative measure of dredging, that is, a unit price for the material dredged per cubic meter is set forth in the contracts with customers and therefore the revenue is recognised based on the amount invoiced. As the Group's performance creates an asset that customer simultaneously receives and consumes, this method provides a faithful depiction of the transfer of an asset to the customer. 本集團有權自客戶收取金額直接與本集團迄今 已完成履約的應付客戶價值對應的代價。由於 本集團基於所提供疏浚工程的各個部分為客戶 開具固定數額票據,故本集團基於其有權取得 的發票金額確認收益。

本集團根據已進行及交付予客戶的疏浚工程量 確認收益。計量轉讓予客戶的疏浚工程價值直 接根據疏浚的定量測算(即客戶合約中所載每立 方米疏浚材料的單價)出具的發票計算,因此, 收益按發票金額確認。由於本集團的履約產生 客戶同時取得及耗用的資產,故此方法為轉讓 予客戶的資產提供最真實的描述。

6. Revenue (Continued)

The transaction price of the Group is determined upon establishment of the contract that contains the unit price for the quantity dredged for dredging projects.

Contract modifications are changes in the scope or price (or both) of a contract that are approved by the parties to the contract. The Group recognises a contract modification when the parties to a contract approve a modification that either creates new, or changes existing, enforceable rights and obligations of the parties to the contract. Contract modifications are included in the transaction price only if it is probable that the modification estimate will not result in a significant reversal of revenue. The nature of the Group's contracts seldom give rise to contract modifications based on historical information and thus contract modifications are not routine in the performance of the Company's contracts.

The majority of the Company's contracts have an original duration of less than one year, the practical expedient for contracts with durations of one year or less is applied and therefore does not consider the effects of the time value of money.

Summary of the effect of HKFRS 15 on contract balances are detailed in Note 3.2 and Note 22.

20. Deferred Tax Assets/Deferred Tax Liabilities (Continued)

At the end of the reporting period, the aggregate amount of temporary differences associated with undistributed earnings of subsidiaries for which deferred tax liabilities have not been recognised was RMB321,522,000 (2017: RMB330,786,000). No liability has been recognised in respect of these differences because the Group is in a position to control the timing of the reversal of the temporary differences and it is probable that such differences will not be reversed in the foreseeable future.

At the end of the reporting period, the Group has unused tax loss of RMB88,035,000 (2017: RMB85,947,000). A deferred tax asset has been recognised in respect of tax losses of RMB24,072,000 (2017: RMB24,072,000). No deferred tax asset has been recognised for the remaining tax loss of RMB63,963,000 (2017: RMB61,875,000) due to unpredictability of future profit streams.

An analysis of the expiry dates of the unused tax losses is as follows:

Notes:

 Before accepting any new customer, the Group assesses the potential customer's credit quality and defines its credit limits based on reputation of the customers within the industry.

The Group prepares an aged analysis for its trade receivable based on the dates when the Group and the customers agreed on the quantum of the services rendered, as evidenced by progress certificates. Periodic statements are issued and agreed by the customers for the services rendered for the customers. Most of the contracts require the customers to make monthly progress payments with reference to the quantum of the services completed (typically 95% of the quantum of the services completed in the previous month) within thirty days to ninety days after the issuance of the progress certificate. According to these contracts, the remaining balance (typically 5% of the quantum of the services completed) is kept as retention money and is to be paid by the customers within thirty to sixty days after (i) the project is completed and (ii) accepted by the customers.

A contract asset, is recognised over the period in which the construction services are performed representing the Group's right to consideration for the services performed because the rights are conditioned on (i), (ii) and expiration of defect liability period. The contract assets are transferred to trade receivables when the rights become unconditional.

Retention receivables, prior to expiration of defect liability period, are classified as contract assets, which range from thirty to sixty days after (i) and (ii) are fulfilled. The relevant amount of contract asset is reclassified to trade receivables when the defect liability period expires. The defect liability period serves as an assurance that the construction services performed comply with agreed-upon specifications and such assurance cannot be purchased separately. The timing of payment patterns give rise to retention receivables which are subject to performance risks but not only the passage of time before the retention receivables are due. The Group's right on the retention receivables is conditional and thus the retention receivables are classified as contract assets as at 1 January 2018.

 信貸限額。

本集團基於本集團與客戶協定就所提供服務量的日期(由進度證書證明)編製其應收賬款的賬齡分析。期間報表經客戶同意就向客戶提供的服務而由客戶發出。大部分合同需客戶於發出進度證書後三十日至九十日內參考完成服務量(通常為上月完成服務量的95%)支付月度進度付款。根據該等合同,餘額(通常為完成服務量的5%)作為留存款項保留,由客戶於(i)項目完成及(ii)客戶接納後三十至六十日內支付。

合約資產於履行本集團收取服務代價的建築服務期間確認,因為權利以(i)、(ii)及缺陷責任期滿為前提條件。合約資產於無條件享有權利時轉為應收賬款。

應收保固金於缺陷責任期屆滿前分類為合約資 產,自(i)及(ii)獲滿足日期起介乎三十至六十日。 當缺陷責任期屆滿時,合約資產的有關金額重 新分類為應收賬款。缺陷責任期用於保證所執 行的施工服務符合協定的規格,且該保險不能 單獨購買。付款時間安排方式可能產生應收保 固金,而可能存在行使風險,但不僅限於應收保 固金到期前的過期風險。本集團獲得應收保固 金的權利設有前提條件,因此於二零一八年一 月一日,應收保固金分類為合約資產。

(iv) VAT paid of approximately RMB1,908,000 (2017: RMB1,797,000) by the Group in connection with its construction-inprogress could be setoff against future value added tax payable generated from the Group. The amount is not expected to be recovered within one year from the end of reporting, and is accordingly classified as non-current.

Details of impairment assessment of trade receivables for the year ended 31 December 2018 are set out in Note 37.

22. Contract Assets/Contract Liabilities

Retention receivables included in contract assets amounted to RMB34,662,000 as at 31 December 2018. There has been a significant change in contract assets during the year due to the initial application of HKFRS 15 which is solely due to the reclassification of retention receivables to contract assets as at 1 January 2018. The Group's dredging contracts usually include a retention period ranging from thirty days to sixty days for 5% of the contract value. This amount is included in contract assets until the end of the retention period as the Group's entitlement to this final payment is conditional on the satisfaction of the service quality by the customers over the retention period as stipulated in the contracts. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the expiry date of the period for the provision of assurance by the Group on the service quality of the construction work performed by the Group.

Retention receivables included in contract assets amounted to RMB34,662,000 as at 31 December 2018. There is an addition of RMB16,641,000 and a transfer of RMB41,077,000 to trade receivables during the year. The Group's rights to considerations on these contracts assets have become unconditional i.e. only the passage of the time is required before payment of that consideration is due.

As part of the internal credit risk management, the Group applies internal credit rating for its customers in relation to contract assets.

附註:(續)

(iv) 本集團就其在建工程所支付的增值税約人民幣 1,908,000元(二零一七年:人民幣1,797,000 元)可用於抵銷本集團將來產生的未來應付增值 税。由於預期該筆款項不可於報告期末起計一 年內收回,故分類為非流動。

> 於截至二零一八年十二月三十一日止年度應收 賬款減值評估詳情列載於附註37。

22. 合約資產/負債

於二零一八年十二月三十一日,計入合約資產 的應收保固金為人民幣34,662,000元。由於初 次採用香港財務報告準則第15號,年內合約 資產發生顯著變動,而這完全是因為於二零一 八年一月一日應收保固金被重新歸類為合約 資產。本集團的疏浚合約通常均存在三十天至六 十天的保固期,且保固金額為合約價值的5%。 這一金額列入合約資產,直至保固期結束,因為 本集團只有於合約規定的保固期後在客戶對服 務質量表示滿意的條件下方有權獲得此筆最終 付款。當相關權利不受條件限制(通常在保固期 屆滿當日本集團就其所完成建築工程服務質量 提供保證)時,合約資產會轉移至應收賬款。

於二零一八年十二月三十一日,計入合約資產的應收保固金為人民幣34,662,000元,這表明 由於時間的推移以及本集團就此等合約資產所 享有的權利已變為不受條件限制,年內新增人 民幣16,641,000元以及有人民幣41,077,000元 被轉移至應收賬款中。

作為內部信貸風險管理的一部分,本集團對與 合約資產相關的客戶進行內部信貸評級。

22. Contract Assets/Liabilities (Continued)

Details of impairment assessment of contract assets for the year ended 31 December 2018 are set out in Note 37.

Contract liabilities represent service income received in advance of RMB22,136,000 as at 31 December 2018 and recognised as revenue when the services are rendered. 29. Bonds Payable

The Company issued unsecured convertible bonds (the "Bonds") to CITIC at a total nominal value of HK\$243,000,000 (equivalent to RMB191,970,000) on 8 November 2013, carrying an interest rate of 3% per annum with the maturity date of 7 November 2016 (the "Original Maturity Date"). The Bondholder, being CITIC, had an option to either convert the Bonds into the Company's ordinary shares at a conversion price of HK\$2.7 per share, subject to antidilutive adjustments, at any time after six months from the date of issue and up to the Original Maturity Date, or to require the Company to redeem them at 133.792% of the nominal value of the Bonds, which amounted to approximately HK\$325,115,000 (equivalent to approximately RMB290,818,000 based on spot exchange rate on 7 November 2016) (the "Original Redemption Amount"), upon maturity. The Company had no right to early redeem the Bonds. 計入本集團其他借貸約人民幣31,720,000元(二 零一七年:人民幣70,536,000元)按固定年利 率10%至12%(二零一七年:7.2%至12%)計息。 除此之外,本集團剩餘的其他借貸不計利息。 所有本集團其他借貸均為無抵押,並無固定還 款期及自獨立第三方借取。於二零一八年十二 月三十一日,若干對手方同意不會於二零二零 年一月(二零一七年:二零一九年一月)之前要 求償還借貸,因此,應付該等訂約方的人民幣 34,255,000元(二零一七年:人民幣34,836,000 元)被歸類為非流動借貸。

29. 應付債券

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

29. Bonds Payable (Continued)

At the time when the Bonds were issued, the Bonds were analysed by the management of the Group to contain two components, the host debt component and the conversion option. The Bonds are denominated in HK\$, which is a currency other than the Company's functional currency. Therefore, the conversion option in the Bonds does not result in an exchange of a fixed number of the Company's own equity instruments for a fixed amount of cash, denominated in HK\$. Accordingly, the conversion option was accounted for separately as a derivative liability, which was not closely related to the host debt component. The fair values of the debt component and the derivative component were determined at the date of issue. Subsequent to initial recognition, the debt component was carried at amortised cost while the derivative component was measured at fair value, with changes in fair value recognised in profit or loss. The effective interest rate of the debt component was 16.9%.

The Group had not paid the Original Redemption Amount and the last interest payment on the Original Maturity Date to CITIC. During the year ended 31 December 2016, the Group and CITIC entered into a framework agreement on 14 November 2016 (as amended by supplemental framework agreements, collectively the "Framework Agreement") and a standstill and amended agreement and supplemental deed to the original deed poll regarding the Bonds (the "Amendment Agreement") on 15 December 2016, pursuant to which CITIC agreed to a) extend the maturity from the Original Maturity Date to 14 March 2017 and b) reduce the principal amount of Original Redemption Amount to approximately HK\$275,415,000 (equivalent to approximately RMB246,381,000) based on spot exchange rate on 31 December 2016, subject to certain conditions as stated in the Amendment Agreement.

Furthermore, the conversion option under the Bonds was removed under the Amendment Agreement. Accordingly, no embedded derivative was recognised at 31 December 2016 and at the end of subsequent accounting periods.

29. 應付債券(續)

在發行債券時,本集團管理層分析債券以包含 兩個部分,即主債務部分及換股權。債券乃以 港元計值,而港元為本公司功能貨幣以外的貨 幣。因此,債券的換股權不能導致以固定數量的 本公司自身權益工具交換固定金額現金(以港元 計值)。因此,換股權分開入賬列為衍生負債, 這與主債務部分並非密切相關。債務部分及衍 生工具部分的公平值於發行日期釐定。初步確 認後,債務部分按攤薄成本計算,衍生工具部 分則按公平值計算,公平值的變動於損益內確 認。債務部分的實際利率為16.9%。

於原到期日,本集團尚未向CITIC支付原贖金及 最後一筆利息。截至二零一六年十二月三十一 日止年度,本集團於二零一六年十一月十四日 與CITIC訂立框架協議(經補充框架協議修訂,統 稱「框架協議」),並於二零一六年十二月十五日 與CITIC訂立有關債券的暫緩還款及修訂協議, 以及平邊契據補充契據(「修訂協議」)。據此, CITIC同意a)將屆滿時間自原到期日延長至二零 一七年三月十四日:及b)減少原贖金本金額至 約275,415,000港元(根據二零一六年十二月三 十一日的即期匯率相當於約人民幣246,381,000 元),惟受限於修訂協議所述若干條件。

此外,債券的轉換權根據修訂協議移除。因此, 於二零一六年十二月三十一日及隨後的會計期 間末,並無嵌入式衍生工具獲確認。

For the year ended 31 December 2018 截至二零一八年十二月三十一日止年度

 - The following table details the Group's sensitivity to a 5% (2017: 5%) increase and decrease in the functional currency of the relevant group entities against the relevant foreign currencies and all other variable were held constant 5% (2017: 5%) represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the end of the year for a 5% change in foreign currency rates. On this basis, there will be a decrease in post-tax loss or an increase in post-tax profit where the functional currency of the relevant group entities weaken against US\$ by 5% or strengthen against HK\$ by 5%, and vice versa.

Market risk (Continued)

(ii) Interest rate risk

The Group is mainly exposed to cash flow interest rate risk in relation to variable-rate bank balances for the year ended 31 December 2017 and 2016 and a variable-rate bank borrowing carrying prevailing interest rates at LPR (see Note 27) for the year ended 31 December 2018 and 2017. In addition, the Group was also exposed to fair value interest rate risk in relation to fixed-rate bank borrowings, other borrowings, bonds payable, amounts due to noncontrolling interests of a subsidiary, certain trade receivables and pledged bank deposits as at 31 December 2018 and 2017.

The Group currently does not have an interest rate hedging policy. However, the management monitors interest rate exposure and will consider hedging significant interest rate exposure should the need arise.

In the opinion of the Directors, the reasonably possible change in interest rates for bank balances and the variable-rate bank borrowing is insignificant. No sensitivity analysis is presented.

本集團現時並無利率對沖政策。然 而,管理層監察利率風險,並將於需 要時考慮對沖重大利率風險。

董事認為,銀行結餘及浮動利率銀 行借貸利率可能出現的合理變動不 大。並無編製敏感度分析。

37. Financial Instruments (Continued)

(b) Financial risk management objectives and policies (Continued)

Credit risk and impairment assessment

As at 31 December 2018, the Group's credit risk is primarily attributable to trade receivables and contract assets. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. Credit evaluations are performed on all customers requiring credit over a certain amount. In view of the history of business dealings with the customers and the collection history of the receivables due from them, management believes that there is no material credit risk inherent in the Group's outstanding receivable balance due from these customers. Management makes periodic assessment on the recoverability of the trade receivables and contract assets based on historical payment records, the length of the overdue period, the financial strength of the debtors and whether there is any dispute with the debtors. In addition, the Group performs impairment assessment under ECL model upon application of IFRS 9 (2017: incurred loss model) on trade receivables and contract assets individually or based on provision matrix. In this regard, the management considers that the Group's credit risk is significantly reduced.

The credit risks on bank balances are limited because the counterparties are banks/financial institutions with high credit rating assigned by internal credit-rating agencies.

The Group's concentration of credit risk by geographical locations is mainly in PRC, which accounted for 100% (31 December 2017: 100%) of the total trade receivables and contract assets as at 31 December 2018.

The Group has concentration of credit risk as 15% (31 December 2017: 16%) and 48% (31 December 2017: 51%) of the total trade receivables was due from the Group's largest customer and the five largest customers respectively.

The largest customer is categorised as a credit-impaired customer, and the remaining four customers of the five largest customers are categorised as doubtful customers.

信貸風險及減值評估

於二零一八年十二月三十一日,本集團的 信貸風險主要來自應收賬款及合約資產。 管理層訂有信貸政策,并持續監控信貸風 險。所有申請信貸的金額超出特定額度的 客戶均須接受信貸評估。鑒於過往與該等 客戶的業務往來及應收該等客戶款項的 良好收款記錄,管理層認為本集團尚未收 回的應收該等客戶款項結餘本質上並無重 大信貸風險。管理層根據債務人的過往付 款記錄、逾期時長、財務實力及是否與債 務人存有任何糾紛,定期評估應收賬款及 合約資產的可收回性。此外,本集團在採 用國際財務報告準則第9號後根據預期信 貸虧損模型(二零一七年:已發生虧損模 型),按個別基準或基於撥備矩陣對應收賬 款及合約資產執行減值評估。就此而言, 管理層認為本集團的信貸風險已大幅降 低。

由於對手方乃獲得內部信貸評級機構高信 貸評級的銀行/金融機構,故銀行結餘的 信貸風險有限。

於二零一八年十二月三十一日,本集團按 地區劃分的信貸風險主要集中於中國,佔 應收賬款及合約資產總額的100%(二零一 七年十二月三十一日:100%)。

由於應收賬款總額的15%(二零一七年十二 月三十一日:16%)及48%(二零一七年十 二月三十一日:51%)分別為來自本集團最 大的客戶及五大客戶,故本集團面對集中 信貸風險。

最大客戶可歸類為信貸減值客戶,而五大 客戶中其餘四個客戶則可歸類為可疑客 戶。

下表載列於二零一八年十二月三十一日本 集團面臨合約資產信貸風險及預期信貸虧 損的相關資料:

2018	二零一八年	Expected loss rate 預期虧損率 % %	Gross carrying amount 賬面金額總值 RMB'000 人民幣千元	Loss allowance 虧損撥備 RMB'000 人民幣千元	Net carrying amount 賬面金額淨值 RMB′000 人民幣千元

For trade receivables and contract assets, the Group has applied the simplified approach in HKFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors with significant outstanding balances or credit — impaired, the Group determines the expected credit losses on these items by using a provision matrix.

In making the assessment on expected loss rates, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered includes the future prospects of the industries in which the Group's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organisations, as well as consideration of various external sources of actual and forecast economic information that relate to the Group's core operations. The grouping is regularly reviewed by management to ensure relevant information about specific debtors is updated. 針對應收賬款及合約資產,本集團已應用 香港財務報告準則第9號內的簡化方法以 全期預期信貸虧損計量虧損撥備。除未償 還結餘較大或已發生信貸減值的債務人 外,本集團會使用撥備矩陣釐定該等項目 的預期信貸虧損。

在進行預期虧損率評估時,本集團會考慮 合理且可支持的定量及定性資料,包括無 需付出不必要的成本或努力而可得的歷史 經驗及前瞻性資料。所慮及的前瞻性資料 包括從經濟專家報告、財務分析師、政府 機構、相關智囊團及其他類似組織處獲料 的本集團債務人所經營行業的未來前景, 以及與本集團核心業務相關的實際或預測 經濟資料的各種外部來源。歸類工作經管 理層定期檢討,以確保指定債務人相關資 料乃屬最新資料。

Other receivables

No allowance for impairment was made for other receivables since the directors consider the probability of default is minimal after assessing the counter-parties' financial background and creditability.

Bank balances and cash

The credit risk on bank balances and cash are limited because the majority of the counterparties are banks with high credit-ratings assigned by international credit-rating agencies. The Group has no other significant concentration of credit risk.

銀行結餘及現金

由於絕大多數對手方為獲國際信貸評級機 構高信貸評級的銀行,故銀行結餘及現金 的信貸風險有限。本集團並未面對其他重 大集中信貸風險。

Liquidity risk

The Group's policy is to regularly monitor current and expected liquidity requirements to ensure that it maintains sufficient cash reserves to meet its liquidity requirements in the short and longer term. Having considered the factors and circumstances set out in Note 2 to the consolidated financial statements, the Directors are satisfied that the Group will have sufficient liquidity to meet its cash flows requirements for the next twelve months from the end of the reporting period.

The following tables detail the Group's contractual maturity for its financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest dates on which the Group can be required to pay.

The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from prevailing interest rate at the end of the reporting date.

As at 31 December 2018, the bank borrowings of the PRC Operational Entity of RMB294,670,000 (2017: RMB257,000,000) are secured by pledge of assets jointly owned by the PRC Operational Entity and the Group, corporate guarantee by the Company and personal guarantees provided by Mr. Liu and Ms. Zhou, the Directors of the Company.
