## **CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)**

**GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.**

**Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.**

**The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.**

The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this annual report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this annual report misleading; and (3) all opinions expressed in this annual report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.*

During the year, the Group co-operated with one of the financial market regulators in Hong Kong to produce and release of a 12-episode financial programme named "Invest with your heads up" (投投是道) through a multimedia on-board system in Hong Kong. Also, the Group entered into a contract with a jewellery company in Hong Kong to produce a 40-episode financial programme named "Uncle Six Golden Quotes" (陸陸無窮句句金) which was broadcasted on a television channel in Hong Kong during the period from May to June 2002. In addition, the Group entered into a contract with a listed company in Hong Kong for the production of a corporate video and a 8-episode television programme which was broadcasted on a television channel during the period from July to September 2002. For the year ended 31st March, 2003, revenue derived from investor education in financial markets was approximately HK\$613,000, compared to approximately HK\$91,000 in last year, rose 571.9%. The huge increase in revenue was due to a special focus on this area of the Group's management and the increase in number of seminars and courses organised during the year compared to prior year.

## **BUSINESS OUTLOOK**

The Group aims to become one of the leading and one of the most comprehensive multimedia financial information services providers in Hong Kong and to establish market presence in the financial information service market of the People's Republic of China (the "PRC"). The Group seeks to achieve these objectives by expanding its multimedia financial information business from Hong Kong to the PRC.

The Directors will continue to seek to form alliances with companies that already have a sufficient audience or viewership base and media channel partners both in Hong Kong and the PRC in order to capture the viewership base and enhance the Group's distribution networks. The Group intends to setup joint ventures with media partners and to cooperate with educational institutions in the PRC as a step to expand its business and enhance its network in the PRC.

Approximately 62.2%, 26.4% and 11.4% (2002: approximately 52.3%, 41.9% and 2.8%) of turnover for the year ended 31st March, 2003 were attributable to income for the production of financial programmes and videos, provision of real-time financial information services and investor education on financial market respectively.

The lower gross profit margin of the Group for the year ended 31st March, 2003 was mainly attributable to the reduction of gross profit margin for financial programme and video production services from approximately 54.8% for the last year to approximately 41.0% for the current year.

As the Company's shares have only been listed on the GEM since 15th November, 2002, the directors do not consider it appropriate to disclose a theoretical value of the share options granted during the period because there would not be sufficient historical price performance data to produce reasonable valuations using commonly used methodologies.

The directors consider that the services carried out by Mr. Tang Sing Hing, Kenny in relation to the financial programmes and seminars hosting and financial journals writing in his personal capacity will not constitute any competition for the Group on the ground that such activities are carried out by Mr. Tang Sing Hing, Kenny as an individual talent and the scope of which is less comprehensive and the business model is different from that of the Group.

Save as disclosed above, none of the directors or the management shareholders of the Company (as defined under the GEM Listing Rules) had any interest in a business which competes or may compete with the businesses of the Group.

Pursuant to the agreement dated 30th October, 2002 entered into between the Company and the Sponsor, the Sponsor will receive a fee for acting as the Company's retained sponsor for the period from the Listing Date to the earlier of 31st March, 2005 or the date on which the agreement is terminated upon the terms and conditions as set out therein the agreement.

### **CONNECTED TRANSACTIONS**

#### 1. GROUP REORGANISATION

HK6 Holdings Limited (the "Company") was incorporated in the Cayman Islands on 23rd May, 2002 as a company with limited liability under the Companies Law (2001 Second Revision) of the Cayman Islands. Pursuant to the Group reorganisation (the "Reorganisation") implemented on 28th October, 2002, to rationalise the structure of the Group in preparation for the listing of the Company's shares on the Growth Enterprise Market ("GEM") of The Stock Exchange of Hong Kong Limited, the Company became the holding company of HK6 Investment Limited, Smart Talent Holdings Limited, hk6.com Limited and HK6 Media Limited. This was accomplished by the Company acquiring the entire issued share capital of HK6 Investment Limited in consideration for the allotment and issue of 329,299,990 shares of HK\$0.01 each in the share capital of the Company, credited as fully paid, to the former shareholders of HK6 Investment Limited. Further details of the Reorganisation are set out in note 19 to the financial statements and in the Company's prospectus dated 31st October, 2002.

The shares of the Company were listed on GEM on 15th November, 2002.

The principal activities of the Company is investment holding. During the year, the Group was principally engaged in the operation of financial website, production of financial programmes and videos and the provision of financial information and investor education.

The Company was incorporated on 23rd May, 2002. Accordingly, no comparative amounts as at 31st March, 2002 have been presented in the Company's balance sheet.

#### 2. ADOPTION OF NEW STATEMENTS OF STANDARD ACCOUNTING PRACTICE

In the current year, the Group adopted the following Statements of Accounting Practice ("SSAP(s)") issued by the Hong Kong Society of Accountants, which are effective for accounting periods commencing on or after 1st January, 2002:

SSAP 1 (revised):	Presentation of financial statements
SSAP11 (revised):	Foreign currency translation
SSAP15 (revised):	Cash flow statements
SSAP34 (revised):	Employee benefits

The adoption of these SSAPs has resulted in a change in the format of presentation of cash flow statement and an inclusion of a statement of changes in equity. As there is no material effect on the results for the current or prior accounting periods, no prior period adjustment is required.

### 3. BASIS OF PRESENTATION AND PRINCIPAL ACCOUNTING POLICIES

#### (a) Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Statements of Standard Accounting Practice, accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These have been prepared under the historical cost convention.

#### (b) Basis of presentation and consolidation

The consolidated financial statements have been prepared using the merger basis of accounting as a result of the Reorganisation. Under this basis, the Company has been treated as the holding company of its subsidiary companies for the financial years presented rather than from the date of their acquisition. Accordingly, the consolidated/combined results of the Group for the years ended 31st March, 2002 and 2003 include the results of the Company and its subsidiary companies with effect from 1st April, 2001 or since their respective dates of incorporation, where this is a shorter period. The comparative combined balance sheet as at 31st March, 2002 has been prepared on the basis that the existing Group had been in place at that date.

In the opinion of the directors, the consolidated/combined financial statements prepared on the above basis present more fairly the results and the state of affairs of the Group as a whole.

All significant intercompany transactions and balances within the Group are eliminated in the preparation of the consolidated financial statements.

#### (c) Subsidiary companies

A subsidiary company is a company in which the Company, directly or indirectly, controls more than half of the voting power or issued share capital or controls the composition of the board of directors.

#### (d) Revenue recognition

Revenue from the sale of goods is recognised on the transfer of risks and rewards of ownership, which generally coincides with time when the goods are delivered to customers and the title has passed.

Revenue from the provision of services is recognised when the services are rendered.

Interest income is recognised on a time apportionment basis.

Dividend income is recognised when the right to receive payment is established.

## Notes

#### 3. BASIS OF PRESENTATION AND PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

##### (e) Translation of foreign currencies

Transactions in foreign currencies are translated at exchange rates ruling at the transaction dates. Monetary assets and liabilities expressed in foreign currencies at the balance sheet date are translated at rates of exchange ruling at the balance sheet date. Exchange differences arising in these cases are dealt with in the income statement.

##### (f) Operating leases

Leases where substantially all the risks and rewards of ownership of assets remain with the leasing company are accounted for as operating leases. Payments made under operating leases, net of incentives received from the leasing company, are charged to the income statement on a straight-line basis over the lease periods.

##### (g) Employee benefits

###### (i) *Employee leave entitlements*

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave and long-service leave as a result of services rendered by employees up to the balance sheet date.

###### (ii) *Pension scheme*

The Group contributes to defined contribution retirement schemes. The assets are held separately from those of the Group in an independently administered fund. Contributions to these retirement schemes are charged to the income statement as they become payable in accordance with the rules of these schemes.

###### (iii) *Equity compensation benefits*

Share options are granted to the directors, a consultant, a management shareholder and employees. No compensation cost is recognised in the income statement in connection with share options granted. When the share options are exercised, the proceeds received net of any transaction costs are credited to share capital (nominal value) and share premium.

## Notes

to the Financial Statements

### 3. BASIS OF PRESENTATION AND PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (h) Taxation

The charge for taxation is based on the results for the year as adjusted for items, which are non-assessable or disallowable. Timing differences arise from the recognition for tax purposes of certain income and expenses in a different accounting period from that in which they are recognised in the financial statements. The tax effect of timing differences computed under the liability method is recognised as deferred taxation in the financial statements to the extent that it is probable that an asset or liability will crystallise in the foreseeable future.

#### (i) Fixed assets

Fixed assets are stated at cost less accumulated depreciation and any provisions for impairment losses required to reflect recoverable amounts. Cost represents purchase price and any directly attributable costs of bringing the asset to its working condition for its intended use. Subsequent expenditure is capitalised when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing asset, will flow to the enterprise. All other subsequent expenditure, such as repairs and maintenance and overhaul costs, is recognised as expenses in the period in which it is incurred.

Depreciation is calculated to write off the cost of fixed assets over their estimated useful lives, on a straight-line basis, at the following annual rates:

Computer equipment	33 $\frac{1}{3}$ % – 50%
Leasehold improvements	Shorter of unexpired lease period or useful life
Equipment, furniture and fixtures	25% – 33 $\frac{1}{3}$ %

The gain or loss arising from the retirement or disposal of fixed assets, representing the difference between the estimated net disposal proceeds and the carrying amount of the asset, is recognised in the income statement.

#### (j) Borrowing costs

Borrowing costs are loan interest and other costs charged to the income statement as they are incurred by the Group in connection with the borrowing of funds.

#### (k) Related parties

Two parties are considered to be related within the Group if one party has the ability, directly or indirectly, to control the other parties or exercise significant influence over the other parties in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

## Notes

to the Financial Statements

### 3. BASIS OF PRESENTATION AND PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

#### (l) Accounts receivable

Provision is made against accounts receivables to the extent they are considered to be doubtful. Accounts receivable in the balance sheet are stated net of such provision, if any.

#### (m) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligations, and a reliable estimate of the amount can be made.

#### (n) Cash and cash equivalents

Cash and cash equivalents represent short term highly liquid investments which are readily convertible into known amounts of cash and which were within three months of maturity when acquired, less advances from banks repayable within three months from the date of the advance.

### 4. SEGMENT INFORMATION

The Group is principally engaged in providing real-time financial news and up-to-date financial market commentaries and recommendations through multimedia, financial programme and video production services, and financial seminars and courses. In accordance with the Group's operating activities, the primary segment reporting is by business segments. No analysis by geographical segment is presented as the Group's turnover and results are substantially derived from Hong Kong.

The following tables present revenue, results and certain assets, liabilities and expenditure information for the Group's business segments.
