

BYFORD INTERNATIONAL LIMITED 百富國際有限公司

(incorporated in the Cayman Islands with limited liability)

INTERIM REPORT 2004

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED ("THE EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM. The principal means of information dissemination on GEM is publication on the Internet website operated by the Exchange. Listed companies are not generally required to issue paid reports in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website at www.hkgem.com in order to obtain up-todate information on GEM-listed issuers.

The Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors ("the Directors") of Byford International Limited ("the Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Exchange ("the GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

The calculation of the basic earnings per share for the three months and the six months ended 30th June, 2003 is based on the Group's profit for the period and on the weighted average number of shares of the Company that would have been in issue throughout the period on the assumption that the Group Reorganisation had been completed at the beginning of 1st January, 2003.

No diluted loss per share has been calculated for the six months ended 30th June, 2004 as the exercise of the share options would result in a decrease in the loss per share for the period.

The calculation of the diluted earnings per share for the three months and six months ended 30th June, 2003 is based on the Group's profit for the periods and on the weighted average number of the shares of the Company (after taking into account of the dilutive effect of the number of shares issuable under the share option scheme of the Company).
