

山西長城微光器材股份有限公司
Shanxi Changcheng Microlight Equipment Co. Ltd.*
(a joint stock limited company incorporated in the People's Republic of China) (Stock Code:8286)

First Quarterly Report **2007**

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risk arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities trade on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website at www.hkgem.com in order to obtain up-to-date information on GEM-listed companies.

The Stock Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Shanxi Changcheng Microlight Equipment Co. Ltd. (the “Directors”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to Shanxi Changcheng Microlight Equipment Co. Ltd. The Directors, having made all reasonable enquires, confirm that, to the best of their knowledge and belief: 1) the information contained in this report is accurate and complete in all material respects and not misleading; 2) there are no other matters the omission of which would make any statement in this report misleading; and 3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

NOTES:

1. General information and basis of preparation

The financial statements have been prepared on the historical cost basis except for certain financial liabilities and financial assets held for trading or are designated by the Company to be carried at fair value through profit or loss upon initial recognition. These financial assets have been measured at fair value.

The accounting policies adopted in preparing the unaudited results for the three months ended 31 March 2007 are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2006.

It should be noted that accounting estimates and assumptions are used in preparation of the financial statements. Although these estimates are based on management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

The Company was incorporated as a joint stock company with limited liabilities in the People's Republic of China on 10 November 2000 and its H Shares were listed on GEM (the "Listing") on 18 May 2004.

2. Revenue, other income and gains

The Company is principally engaged in the design, research, development, manufacture and sale of image transmission fibre optic products in the People's Republic of China ("PRC"). Revenue which is also the Company's turnover, represents the net invoiced value of goods sold, after allowances for returns and trade discounts, valued added tax and other taxes related to sales where applicable, and services rendered.

An analysis of the Company's revenue, other income and gains is as follows:

	Unaudited	
	Three months ended 31 March

3. Segment Information

As over 90% of the turnover and the profit from operating activities of the Company for the periods ended 31 March 2006 and 2007 are generated from the manufacture and sale of optical fibre products, no further segment information by business activity has been presented.

The Company has determined that geographical segment based on the location of customers is its primary segment reporting format. The Company's operating businesses are organised and managed separately, according to the location of the customers. In determining the Company's geographical segments, revenues and results are attributed based on the location of the customers. Over 90% of the Company's assets are located in the PRC.

The following table presents revenue and profit information for each of the Company's geographical segments:

Current tax charge for the period – PRC	337	547

No provision for Hong Kong profits tax has been made as the Company had no assessable profit in Hong Kong during the period (2006: Nil).

The provision for corporate income tax ("CIT") of the Company has been calculated at the applicable rate of tax prevailing in the area in which the Company is registered and operated, based on the existing legislation, interpretations and practices in respect thereof. According to the Income Tax Law of the PRC, as the Company operates in the high technology industrial development zone in Taiyuan, the PRC and is registered as a high technology development enterprise, it is entitled to a concessionary CIT rate of 15%, which has been applied for each of the three months ended 31 March 2007 and in the corresponding period in 2006.

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Tax rates enacted or substantively enacted by the balance sheet date are used to determine deferred tax.

Deferred tax liabilities are provided in full on all taxable temporary differences while deferred tax assets are recognized to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

The Company had no significant unprovided deferred tax as at 31 March 2007 and 2006.

A reconciliation of the tax expense applicable to profit before tax using the applicable rate in the PRC to the tax expense at the effective tax rate is as follows:

	Unaudited	
	Three months ended 31 March	
	2007	2006
	RMB'000	RMB'000
Profit before tax	2,119	1,892

Concessionary rate granted by local authority	(362)	(77)
Tax charge at effective rate	337	547

5. Earnings per share

Earnings per share have been computed by dividing the net profit from ordinary activities attributable to shareholders for the three months ended 31 March 2007, of approximately RMB1,782,000 and the net profit from ordinary activities attributable to shareholders for the three months ended 31 March 2006, of approximately RMB1,345,000 by the 308,860,000 shares of the Company in issue throughout the period respectively.

The amounts of diluted earnings per share for the three months ended 31 March 2007 and 31 March 2006 have not been calculated as there were no dilutive potential ordinary shares in existence during those periods.

6. Reserves

There were no movements in the reserves other than profit from ordinary activities attributable to shareholders of approximately RMB1,782,000 for the three months ended 31 March 2007. The movements for the profit from ordinary activities attributable to shareholders was approximately RMB1,345,000 for the three months ended 31 March 2006.

7. Profit from operating activities

MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATION

Business review

During the period under review, the Company was principally engaged in the design, research, development, manufacture and sale of image transmission fibre optic products in the PRC.

For the three months ended 31 March 2007, the Company reported an unaudited turnover of approximately RMB10.9 million (for the three months ended 31 March 2006: approximately RMB8.8 million), representing an increase of approximately 23.9% from the turnover of the previous corresponding period.

The unaudited net profit from ordinary activities attributable to shareholders for the three months ended 31 March 2007 increased by approximately 32.5% from approximately RMB1.3 million to approximately RMB1.8 million. The increase in profit was mainly due to the higher demand and orders of "fibre optic tapers" from customers during the period.

Prospects

With the development of digital image transmission technology, especially in the medical and commercial areas, the Directors believe that the demand for image transmission fibre optic products, which form part of the major components of digital image transmission devices, will remain strong in the future. Hence, the Directors believe that the Company is poised to experience steady growth in the future and to be one of the major manufacturers of image transmission and light transmission fibre optic products in the PRC.

Liquidity and financial resources

The Company financed its operation primarily with internally generated cash flows. As at 31 March 2007, the Company had unaudited total assets of approximately RMB107.8 million (31 March 2006: approximately RMB95.8 million), of which approximately RMB2.5 million (31 March 2006: approximately RMB18.6 million) were cash and bank balances.

Gearing ratio

The gearing ratio of the Company, based on total liabilities to total assets, was approximately 15.6% as at 31 March 2007 (31 March 2006: approximately 15.2%). The higher gearing ratio was due to the substantial increase in other payables as at 31 March 2007.

Significant investment and material acquisition and disposal of subsidiaries

The Company did not hold material investments or had made any material acquisition and disposal of subsidiaries and associates during the three months ended 31 March 2007 and the same period of last year.

Employees and remuneration policy

For the three months ended 31 March 2007, the staff remuneration of the Company was approximately RMB2.4 million (for the three months ended 31 March 2006: approximately RMB1.7 million) and the Company had a total of approximately 463 employees (31 March 2006: approximately 433 employees).

There is no significant change in the Company's employees and remuneration policy as compared to that disclosed in the prospectus of the Company dated 10 May 2004 ("Prospectus").

Future plans for material investments and capital assets

Details of the significant future investment plans and the expected financial resources for capital expenses of the Company are set out in the section headed "Business Objectives and Future Plans" in the prospectus of the Company dated 10 May 2004 (the "Prospectus"). Save as disclosed above, the Company had no other significant future investment plan as at 31 March 2007.
