Interim Report 2007/2008

Stock Code : 8212

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcement in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Aptus Holdings Limited collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the GEM of the Stock Exchange for the purpose of giving information with regard to Aptus Holdings Limited. The directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

The additional capital of RMB2,200,000 was paid by an independent third party. As a result, Changde Huayou Gas Co., Limited's (a jointly controlled entity of the Group) equity interest in Linli Huayou decreased from 70% to 48.6%, and Linli Huayou changed from a subsidiary to an associate of Changde Huayou Gas Co., Limited.

The amount of approximately HK\$5,639,000 was also included in cost of inventories sold of approximately HK\$46,726,000. No depreciation was included in cost of inventories sold during the six months ended 31 December 2006.

6. TAX

No provision for Hong Kong profits tax has been made as the Group did not have any assessable profits arising in Hong Kong for the three months and six months ended 31 December 2007 (three months and six months ended 31 December 2006: NIL). Taxation arising in other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

7. LOSS PER SHARE

The calculation of basic loss per share is based on the unaudited net loss attributable to equity holders for the three months ended and six months ended 31 December 2007 of approximately HK\$11,602,000 and HK\$30,314,000 respectively (three months and six months ended 31 December 2006: approximately HK\$32,166,000 and HK\$57,128,000 respectively) and the weighted average number of approximately 1,698,414,580 and 1,698,148,004 ordinary shares issued during the three months and six months ended 31 December 2007 (three months and six months ended 31 December 2006: 1,668,187,080 and 1,668,457,732 shares respectively).

No diluted loss per share has been presented in both periods as the outstanding share options and convertible bonds of the Company are anti-dilutive since their exercise or concession would result in a decrease in loss per share.

8. DIVIDEND

The Board does not recommend the payment of any dividend for the six months ended 31 December 2007 (six months ended 31 December 2006: NIL).

MANAGEMENT DISCUSSION AND ANALYSIS

The Company is engaged in the trading of edible oil, oilfield mining and operation of natural gas businesses in China. In February 2007 the Group completed the investment in Hunan Huayou Natural Gas Transportation and Distribution Company Limited and Changde Huayou Gas Co., Limited (collectively referred to as the "Hunan Joint Ventures"), the principal businesses are provision of gas transportation services via the Changsha to Changde provincial level pipeline to city gas level distributors along the pipeline and the operation of a city level natural gas distribution project in Changde City, Hunan province, the PRC. The Hunan Joint Ventures are treated as jointly controlled entities of the Group and thus the two ventures' accounts can be consolidated into our accounts on a proportional basis rather than just equity accounted.

FINANCIAL REVIEW

Financial performance

For the six months ended 31 December 2007, the Group recorded an unaudited consolidated turnover of approximately HK\$56.2 million, which represented an increase of approximately 223% as compared to approximately HK\$17.4 million for the six months ended 31 December 2006. Of the HK\$38.8 million in additional turnover, the Group's sales of edible oil products increased by approximately HK\$7.3 million as compared to the previous corresponding period. The balance of the increase of HK\$31.5 million was due to the contributions from our attributable share of turnover from the Hunan Joint Ventures for the first two quarters of 2007/08.

The gross profit for the six months ended 31 December 2007 increased by approximately 23 times to approximately HK\$9.5 million (for the six months ended 31 December 2006: HK\$0.4 million). HK\$9.2 million of the gross profit was generated by our gas sector operations and HK\$0.3 million was generated by our trading of edible oil products operations. Overall, gross margin increased to approximately 16.9% for the six months ended 31 December 2007 from approximately 2.1% previously, thanks to the inclusion of the new gas operations. Gross margin for the trading of edible oil products for the six months ended 31 December 2007 was approximately 1.2% against 2.1% previously. The lower gross margins here were due to the low-price strategy adopted by the Group in reaction to tougher market conditions. This, however, was more than offset by the 29.2% gross profit margin being achieved by our new gas operations resulting in an overall higher gross margin for the fiscal year to date.

Net loss for the period under review decreased by approximately 46.7% to HK\$30.5 million from HK\$57.2 million previously. The bulk of the decrease in net loss can be explained by the net effect of the following items: (i) decrease in share option expenses by approximately HK\$25.9 million from approximately HK\$33.6 million recorded for the six months ended 31 December 2006 to approximately HK\$7.7 million for the six months ended 31 December 2007; (ii) increase in imputed finance cost for the convertible bonds by approximately HK\$11.2 million to approximately HK\$14.2 million during the period under review (2006: approximately HK\$3.0 million); and (iii) decrease in legal and professional fee from HK\$13 million (mainly for issue of convertible bonds) in six months ended 31 December 2006 to approximately HK\$0.1 million in the period under review.

Financial resources and liquidity

As at 31 December 2007, the Group held assets of approximately HK\$392.1 million (30 June 2007: approximately HK\$379.7 million), including cash and bank balance of approximately HK\$7.1 million (30 June 2007: approximately HK\$49.1 million).

As at 31 December 2007, the Group had outstanding borrowings of approximately HK\$118.6 million (30 June 2007: HK\$108.2 million) and convertible bonds of approximately HK\$257.3 million (30 June 2007: HK\$243.1 million).

The Directors consider that it is not meaningful to publish a gearing ratio for the Group until such time as the Group is in a positive shareholders' equity position.

Capital structure

During the six months ended 31 December 2007, the Company issued 950,000 shares to eligible participants due to shares options exercised. As at 31 December 2007, the number of the Company's issued shares was enlarged to 1,698,831,428 shares.

Significant investments and acquisitions

The Group did not make any material acquisitions or significant investments during the six months ended 31 December 2007.

Charges on the Group's assets

As at 31 December 2007 and up to the date of this interim report issued, the 100% of the issued share capital of GUM, a wholly-owned subsidiary of the Company, was pledged in favour of the holder(s) of the convertible bonds issued by the Company on 22 November 2006. GUM held 70% equity interests in CNPC Huayou Cu Energy Investment Co., Limited, which owned profit sharing rights on Xin Jiang Oilfied.

Exposure to fluctuations in exchange rates and any related hedges

The business activities of the Group are not exposed to material fluctuations in exchange rate except for the Group's operations through its subsidiaries in the People's Republic of China and Singapore, which are subject to fluctuation in exchange rates between Renminbi, Singaporean dollars and Hong Kong dollars.

Contingent liabilities

The Group did not have any contingent liabilities as at 31 December 2007 (30 June 2007: NIL).

Employees and remuneration policies

The Group employed 26 full-time employees as at 31 December 2007. Employees' remuneration is in line with market conditions, working experience and performance. In addition to basic salaries and provident fund contributions, the Group also offers medical benefits and training programs.

BUSINESS REVIEW

Operationally, the results predominately reflect the trading of edible oil products and the selling of natural gas. While drilling at the Group's Xin Jiang Oilfield is in progress, commercial production of crude has yet to commence as we are still in the initial development stage of the project.

With regards to the edible oil operations, turnover for the first two quarters of 2007/ 2008 is approximately HK\$24.7 million (2006: approximately HK\$17.4 million) and gross profit is approximately HK\$0.3 million (2006: approximately HK\$0.4 million). Turnover was up but the gross profit decreased due to continuing difficult business conditions.

On the natural gas side, our 48.33% owned Changde Huayou Gas Co., Ltd ("Changde Joint Venture") (a city level natural gas pipeline project) and 33.0% owned Hunan Huayou Natural Gas Transportation and Distribution Company Limited ("Hunan Joint Venture") (a provincial level natural gas pipeline project) contributed a combined turnover of approximately HK\$31.5 million to the Group for the first two quarters of 2007/2008 (2006: NIL). Gross profit for the first two quarters of 2007/2008 is approximately HK\$9.2 million (2006: NIL).

The Changde Joint Venture has completed about 636 km of city-level pipelines connecting approximately 125 commercial users, 7 industrial users, 75 public welfare establishments and approximately 45,000 residential users to its network.

The Hunan Joint Venture has completed the construction of its main pipelines (about 188 km in total) branching out to reach 7 city-level gas distribution stations in the province of Hunan.

FUTURE OUTLOOK AND PROSPECTS

On the natural gas side, the short term objective of the Group is to continue the expansion of the pipeline network of the Changde Joint Venture (city level natural gas pipeline project) with a target to extend its reach to about 4,000 more commercial, industrial, welfare establishments and residential users in the city before the end of this fiscal year to take advantages of the fast growing demand in the city of Chandge.

As for the Hunan Joint Venture (provincial level natural gas pipeline project), it is the Group's aim to further expand from the existing pipelines to branch out to at least one more city-level gas distribution station before the end of the fiscal year to increase the sale of natural gas.

In terms of the Xin Jiang Oilfield project, currently, we are still in the initial development stage of this project conducting drillings of wells and testing our findings. It is the Group's target to bring on commercial operations by the end of the fiscal year.

In addition to developing the assets we have on hand at the moment, we intend to explore more business opportunities in the oil and gas related industries in China and also look to continue developing our working relationship with Huayou and explore for further opportunities in which we can cooperate.

With National policy of the Central Government of the PRC promoting the use of natural gas, a more environmental friendly source of energy, and the buoyant demand for energy in China, we believe the future is very bright for the natural gas section in China.

CORPORATE GOVERNANCE CODE COMPLIANCE

Except for the deviation from the provision A.4.1 of the Code on Corporate Governance Practices (the "Code") as set out in Appendix 15 of the GEM Listing Rules, the Company has complied all remaining provisions of the Code during the six months ended 31 December 2007.

The Code provision A.4.1 provides that Non-executive Directors should be appointed for specific terms, subject to re-election. The Company has deviated from this provision in that all Independent Non-executive Directors are not appointed for specific terms. They are, however, subject to retirement and re-election every three years. The reason for the deviation is that the Company does not believe that arbitrary term limits on Directors' service are appropriate given that Directors ought to be committed to representing the long term interests of the Company's shareholders and the retirement and re-election requirements of Independent Non-executive Directors have given the Company's shareholders the right to approve continuation of Independent Non-executive Directors' offices.
