[Incorporated in the Cayman Islands with limited liability]
China.com Inc. (GEM Stock : 8006) is a CDC Corporation company (NASDAQ:CHINA)

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from, or in reliance upon, the whole or any part of the contents of this report.

This report, for which the Directors (the “Directors”) of China.com Inc. (the “Company”) collectively and individually accept responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:- (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

- Balance sheet remains strong, with approximately HK\$1.3 billion in net cash, held-for-trading investments and available-for-sale investments.

Our portal business based in China is the Group's foundation. During the second quarter, it continued to produce encouraging financial returns, thanks to strong brand recognition rapid growth of online advertising, and the take-off of new channels operations. For the three months ended 30th June, 2008, Portal revenue increased by 29% year-over-year, and 68% quarter-over-quarter.

As previously announced, the Chinese government has implemented strict restrictions on online advertisements for medical treatments and pharmaceutical products. In response to these measures, we successfully shifted our focus from the pharmaceutical sector to the automobile and other vertical channels. Through continuous content optimization and innovation, our automobile channel has become the industry leader in China. Our video display platform and car user data mining service are favoured by leading auto industry OEMs. During the second quarter, we successfully partnered with clients such as Toyota, Ford, Shanghai General Motors and Michelin to run advertising and promotional events. We also won the contract to promote joint-membership cooperation and promotional events with United Automobile Association (UAA), which is the leading automobile association in China.

Anticipating other channels' growing popularity in China, China.com Portal became a pioneer in this burgeoning market. With the rich contents and continuous technology upgrading of our innovative interactive platform, we intend to maintain our position as industry leader.

We will continue to focus on increasing China.com's brand equity and content development. Building on the success of our automobile and other channels, we plan to judiciously broaden the portal's revenue base and sustain a strong pace of development.

TTG continued to perform well in the second quarter of 2008, with revenue growing by 43% year-over-year and 88% quarter-over-quarter. B to B advertising sales and hosting of industry travel events in China were main revenue drivers. Both Incentive Travel & Conventions, Meetings China and Corporate Travel & Technology World in Shanghai attracted large number of delegates. In addition, TTG has been awarded a contract by Vietnam Government to manage the exhibition component of ASEAN Tourism Forum (ATF) in January 2009.

After paying a special dividend of HK\$577 million, we retain around HK\$1.3 billion of net cash, held-for-trading investments and available-for-sale investments. We remain well resourced to pursue strategic opportunities in emerging Asia, including China.

Thank you for your continued support of China.com Inc.

Dr. Ch'ien Kuo Fung, Raymond
Chairman

MANAGEMENT DISCUSSION AND ANALYSIS

Financial Review

Revenue and gross profit

Revenue for the Half-Yearly Period was HK\$56,806,000 representing a HK\$32,659,000, or 37% decrease as compared with the same period last year. The net decrease was primarily attributable to (1) a decrease in mobile services and applications revenue of HK\$43,024,000; and (2) an increase in advertising revenue from the internet and media segment of HK\$10,365,000.

Gross profit margin maintained at a relatively stable level of 51% for the Half-Yearly Period, compared to 54% in the same period last year.

Other income

Other income decreased by 2% to HK\$44,524,000 for the Half-Yearly Period, compared with HK\$45,305,000 for the corresponding period in 2007. The decrease was primarily due to (1) a HK\$2,110,000 increase in interest income from available-for-sale investments as a result of increasing yield for long term available-for-sale investments; (2) a HK\$3,275,000 decrease in bank interest income as a result of decreasing yield for cash and bank balances; and (3) a HK\$337,000 gain on disposal of held-for-trading investments.

Selling and distribution costs

Selling and distribution costs decreased to HK\$12,164,000 for the Half-Yearly Period, compared with HK\$24,693,000 for the corresponding period in 2007. The decrease was mainly attributable to the decrease in marketing and promotion expenses incurred for our mobile services and applications business amounting to HK\$10,132,000 during the Half-Yearly Period.

Administrative expenses

Administrative expenses decreased by 37% to HK\$37,263,000 for the Half-Yearly Period, compared with HK\$59,191,000 for the corresponding period last year. The net decrease was primarily due to the scale down of our mobile services and applications business operation during the Half-Yearly Period. Administrative expenses include share option expenses for the Half-Yearly Period amounting to HK\$3,122,000 (2007: HK\$11,963,000) recognised in accordance with HKFRS 2.

Other expenses

Other expenses decreased by HK\$8,800,000 to HK\$1,514,000 for the Half-Yearly Period, compared to HK\$10,314,000 for the corresponding period last year. The decrease was primarily due to the decrease in amortisation expense for intangible assets and bad debt expense.

Income tax

The Group recorded an income tax expense of HK\$995,000 for the Half-Yearly Period, compared to an income tax credit of HK\$633,000 for the corresponding period last year. The income tax expense for the Half-Yearly Period represented provision for income tax.

Minority interests

Profit shared by minority interests was HK\$Nil for the Half-Yearly Period, compared to a loss shared by minority interests of HK\$2,239,000 for the same period last year. Loss shared by minority interests for the corresponding period in 2007 represented minority interests' share of loss in the Group's mobile services and applications segment.

The directors of the Company do not consider such contingent tax liability is probable based on the information currently available and therefore no tax provision has been made in the consolidated financial statements. If such tax provision is recorded, the profit for the period will decrease approximately by HK\$110,000,000.

The schemes have been or will be amended from time to time to take into account changes in market conditions and the GEM Listing Rules.

Business Review

Portal

The portal business is the Group's origin. Thanks to our strong brand recognition and the rapid growth of online advertising as well as other channels operations in mainland China, our Portal business continues to generate encouraging financial return to our investors. We will continue to put our focus on automobile and other channels, intending to become the leading vertical media in China.

During the second quarter of 2008, our portal revenue increased 29% year-over-year, and 68% quarter-over-quarter. The increasing revenue was mainly attributable to enhanced brand equity, strategic partnership with an increasing number of industry leaders and encouraging revenue growth over the automobile and other vertical channels. As Beijing Olympic is going to take place soon, our Olympic channel has also attracted a large number of advertisements.

As previously announced, the Chinese government had implemented strict restrictions on online advertisements for medical treatments and pharmaceutical products. These measures had negatively impacted the growth of Portal's advertising revenue. To minimize the adverse impact of this new government policy, we have successfully shifted our focus from the pharmaceutical sector to the automobile and other channels. Through the continuous content optimization and innovation, our automobile channel has become the leading online media in the industry in China and evolved to be an advanced video display platform for new car models and the first tier market research service provider on auto user behaviour. During the second quarter, we have successfully partnered with reputable auto clients such as Toyota, Ford, Shanghai General Motors and Michelin to run advertising and promotional events.

With increasing penetration and maturity on China's internet environment, online community has been identified as our new selling point. During the second quarter of 2008, China.com Portal is the first online media reported CNN's unfair coverage on Tibet riot event, and our report has been quoted by many leading media such as CCTV and Phoenix TV. By positioning ourselves as the leader of online community, we expect it to be new revenue stream to China.com Portal.

We will continue focusing on increasing China.com's brand equity and content development. Apart from exploring new revenue streams, we will continue improve the automobile and other channels to become a professional portal in China. We believe this strategy, combined with various new sales initiatives, will help maintaining continuous revenue growth in the coming quarters.

Mobile Value Added Services

As noted in prior announcements, the Group was alerted in June 2006 to policy changes for all subscription services on China Mobile's ("CMCC") Monternet platform which affected the Group's MVAS subscription services. The changes, which were implemented under the policy directives of China's Ministry of Information Industry, aim to address industry-wide objectives, including reducing customer complaints, increasing customer satisfaction and promoting the healthy development of the MVAS industry and CMCC's Monternet.

As a result of this prolonged, industry-wide impact, for the quarter ended 30th June, 2008, our total mobile services and application revenue was down 89% year-over-year, and 38% quarter-over-quarter. During the second quarter, SMS and MMS continued to be our major revenue generators, representing 69% and 19% respectively of the total mobile services and applications revenue. Remaining was mainly shared by our WAP and IVR services.

As the regulatory environment for the MVAS industry continued to be difficult and we see no reasonable instance where our MVAS business may turn profitable in the foreseeable future, as announced previously, the Group is continuously scaling down the majority of MVAS business operation and only minimum resource is maintained to cater for 3G's arrival in China.

Media and Travel

TTG has continued to perform well in the second quarter of 2008 with revenue exceeding budget by 19%. During the second quarter of 2008, revenue has increased 43% year-over-year, and 88% quarter-over-quarter. The increase was attributed by continuous improvement in B to B advertising sales as well as advertising projects and hosting of travel events in Shanghai China.

During the second quarter, TTG's two travel trade events, Incentive Travel & Conventions, Meetings China and Corporate Travel & Technology World in Shanghai attracted large number of delegates. In addition, other contributing activities achieved by TTG during the quarter include publishing of the Official Great Singapore Sale Guide, organizing of the inaugural China Travel Awards and the printing and production of the Philippines Department of Tourism's Zaragoza Project. TTG's honorable appointment as media partner by the Taiwan Visitors Association and the Vietnam National Administration of Tourism for their respective travel trade event also adds to our proud achievements this quarter.
