

First Quarterly Report 2008

\*For identification purpose only

# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, makes no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of China Cyber Port (International) Company Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

The improvement in results was mainly attributable to the revised business focus.

# **BUSINESS REVIEW**

The competition among financial information providers in Hong Kong has always been fierce due to the small size market and the market has already become saturated. In view of this, the Board has been actively seeking other opportunities to broaden the revenue base of the Group. During the past years, the Group has made strategic move to entering into the booming animation and game industry in the PRC and successfully completed four substantial acquisitions. Such strategic moves signal the Group stepping out from the financial information provision services in Hong Kong and focusing its resources on investment and business in the animation and game industry in the PRC.

# Operation of the e-Sports Platform

For the three months ended 30 June 2008, the revenue derived from the operation of the e-Sports Platform was approximately HK\$80,245,000. No revenue was derived from the operation of the e-Sports Platform for the same period last year.

# Operation of the online game SA

For the three months ended 30 June 2008, the revenue derived from the operation of the online game SA was approximately HK\$147,283,000. No revenue was derived from the operation of the online game SA for the same period last year.

# Distribution and selling of computer games in the PRC

# **MATERIAL ACQUISITION**

On 1 November 2007, Favour Grow Holdings Limited, a wholly-owned subsidiary of the Company, entered into an agreement ("S&P Agreement") with China Communication Investment Limited ("CCI") for the acquisition of a 75% equity interest in China Cyber Port Company Limited ("CCP"), at a consideration based on the difference between the valuation of 75% equity interest in CCP and the adjusted benefits accruing to the Group under the Sudden Attack Agreement and the e-Sports Platform Agreement. Pursuant to the Sudden Attack Agreement and the e-Sports Platform Agreement entered into by the Group on 20 October 2006 and 28 May 2007 respectively, the Group acquired from CCI (i) the right to receive the 40% of the net revenue derived from operating "Sudden Attack" in the PRC and (ii) the right to receive 75% of the distributable profit derived from operating the e-Sports Platform in the PRC, respectively. Under the S&P Agreement, the Group and CCI agreed to cancel these two agreements and to cancel the HK\$80 million promissory notes held by CCI in settlement of the shortfall.

The completion of the acquisition took place on 1 April 2008 and CCP became an indirect 75%-owned subsidiary of the Company.

## 2. BASIS OF PRESENTATION

The unaudited quarterly financial information has been prepared in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the applicable disclosures required by the Rules Governing the Listing of Securities on the Growth Enterprise Market of the Stock Exchange of Hong Kong Limited (the "GEM Listing Rules").

The accounting policies and methods of computation adopted in preparing the unaudited quarterly financial information for the three months ended 30 June 2008 are consistent with those followed in the annual report of the Company for the year ended 31 March 2008 and the followings.

# (a) Business combination and goodwill

The purchase method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets, liabilities and contingent liabilities of the subsidiary in an acquisition are measured at their fair values at the acquisition date.

The excess of the cost of acquisition over the Group's share of the net fair value of the subsidiary's identifiable assets, liabilities and contingent liabilities is recorded as goodwill. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised in the consolidated income statement.

Goodwill is tested annually for impairment and carried at cost less accumulated impairment losses. Impairment losses of goodwill are recognised in the consolidated income statement and are not subsequently reversed. Goodwill is allocated to cash-generating units for the purpose of impairment testing.

The interests of minority shareholders in the subsidiary is initially measured at the minority's proportion of the net fair value of the subsidiary's identifiable assets, liabilities and contingent liabilities at the acquisition date.

Expenditure on research activities is recognised as an expense in the period in which it is incurred. An internally generated intangible asset is recognised only if all of the following conditions are met:

- An asset is created that can be identified (such as software and new processes);
- It is probable that the asset created will generate future economic benefits; and
- The development cost of the asset can be measured reliably.

Internally generated intangible assets are measured initially at cost and are amortised on a straight-line basis over their estimated useful lives. Where no internally generated intangible asset can be recognised, development expenditure is charged to the income statement in the period in which it is incurred.

# (c) Revenue recognition – prepaid game cards, sales of peripheral products and advertising

The Group sells prepaid game cards to distributors and online game players. With the prepaid game cards, online game players can credit their online game accounts with game points which can be used for consumption, purchasing virtual products and premium features of certain online games hosted by the Group. The game users can also credit their online user accounts directly. Such income received is deferred and recorded as deferred income under current liabilities and would be recognized as revenue upon the actual usage of the game points. Revenue recognized in respect of operating the online games is net of discounts, business tax and other related taxes and charges.

Revenues from trading of peripheral products are recognised on the transfer of significant risks and rewards of ownership, which generally coincides with the time when the goods are delivered and the title has passed to the customers.

Advertising income is recognised when the related service is rendered.

The quarterly financial information is unaudited but has been reviewed by the Company's audit committee.
