

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcement in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors ("Directors") of Brilliant Arts Multi-Media Holding Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

Management Discussion and Analysis

INTERIM DIVIDEND

The Board does not recommend the payment of any interim dividend for the six months ended 30 September 2008 (2007: Nil).

BUSINESS REVIEW

For the six months ended 30 September 2008, the Group recorded a turnover of approximately HK\$805,000 (2007: HK\$10 million). The Group did not have revenue generated from the business segment of film production and distribution for the period under review. All the revenue was generated from the leasing of the investment property located at Canada.

FINANCIAL REVIEW

Loss attributable to equity holders for the six months ended 30 September 2008 amounted to approximately HK\$1.9 million (2007: profit attributable to equity holders of approximately HK\$20.1 million). Excluding the share-based payment expenses of approximately HK\$1.2 million, loss after taxation for the period was approximately HK\$700,000.

Other revenue and other income amounted to approximately HK\$891,000, representing a decrease of 96.9% over the same period last year. Such decrease was caused by the one-off gain on disposal of two wholly-owned subsidiaries of approximately HK\$28.3 million recorded in the same period of last year.

Other operating expenses decreased by 60.7% to approximately HK\$3.5 million from HK\$8.8 million in prior year. Excluding the share-based payment expenses of approximately HK\$1.2 million, other operating expenses was approximately HK\$2.3 million, representing a decrease of approximately 73.7% as compared to the corresponding period in 2007. Such decrease was mainly attributed to the combined effect of the disposals of several wholly-owned subsidiaries in last year and the stringent cost control policy adopted by the management.

Management Discussion and Analysis

Finance costs decreased by 92.6% to approximately HK\$76,000 from HK\$1 million in prior year. The decrease of approximately HK\$947,000 was mainly attributed to the decrease in interest on amounts due to related companies and effective interest expenses on convertible bonds.

PROSPECT

The global economy was adversely affected by the financial tsunami and its magnitude is yet to be known. The management expects that the local film market will continue to be difficult in the near future and will continue to adopt a prudence approach in such business segment. On the other hand, the Group will aim to explore new investment opportunities in the area of property investment for business diversification. Meanwhile, it will continue to implement stringent cost control measures.

Liquidity, Financial Resources, Capital Structure and Gearing Ratio

At 30 September 2008, the Group had total assets of approximately HK\$171.2 million (31 March 2008: HK\$172.7 million), including cash and bank balances of approximately HK\$100.8 million (31 March 2008: 101.8 million). During the period under review, the Group financed its operations with internally generated cash flows and the proceeds raised from the capital market in last year.

At 30 September 2008, the Group has pledged its investment property located at Canada to secure a mortgage loan amounted to approximately HK\$2.4 million (31 March 2008: HK\$2.6 million).

At 30 September 2008, save as the mortgage loan, the Group did not any bank borrowings nor any banking facilities. The gearing ratio, expressed as a percentage of total liabilities over total assets, was 4.8% (31 March 2008: 5.1%).

The Group has not used any foreign currency derivative instruments to hedge its exposure to foreign exchange risk. However, the management monitors closely the exposures and will consider hedging the exposures should the need rise.
