Company Crosby Asset Management Inc
TIDM CSB
Headline Trading Update
Released 09:55 08-May-08
Number 9616T

RNS Number: 9616T
Crosby Asset Management Inc
08 May 2008

CROSBY ASSET MANAGEMENT INC. ("CROSBY")

TRADING UPDATE - THREE MONTHS TO MARCH 31 2008

8 May 2008

Turnover US\$7.9 million (Q1 2007 US\$5.3 million)

Loss attributable to shareholders US\$26.2 million* (Q1 2007 US\$20.8 million loss)

Assets under management US\$2.2 billion (Q1 2007 US\$1.4 billion)

* Loss attributable to shareholders was largely caused by non-cash mark-to-market losses on Crosby's shareholding in IB Daiwa due to the fall in IB Daiwa's share price from 41 Yen on 1 January 2008 to 17 Yen on 31 March 2008.

HIGHLIGHTS

IB Daiwa ("IBD") - during the first quarter of 2008, Leed Petroleum, in which IBD has a 41.7% interest, announced that it had been awarded additional leases and interests at Main Pass and Ship Shoal in the Gulf of Mexico and that drilling at its Eugene Island A-6 well had been a success, with confirmed 2P reserves more than three times pre-drill estimates. An updated reserve audit showed that as at 1 April 2008 1P, 2P and 3P reserves had increased by +43.1%, +30.3% and +17.6% respectively over 1 June 2007, with 2P reserves standing at 123.5 bcfe.

Crosby Wealth Management ("CWM") - due to market corrections and changes in investor sentiment during the first three months of the year, CWM experienced a small decline in assets under management and a significant contraction in margins. However, CWM remained profitable during the quarter.

Crosby Forsyth ("CF") - restructuring of the business continued during the first quarter with the appointment of a global head of sales and the rebranding of the business from Forsyth Partners to Crosby Forsyth. It is anticipated that the restructuring will be completed in the second quarter. In the first three months of the year, assets under management fell 15% through a combination of declines in value broadly in line with market and client redemptions.

SW1 Capital ("SW1") - in February, Crosby announced that it had taken a stake in SW1, a newly formed partnership that has been established with an institutional standard operating and management platform to facilitate the development of an integrated asset management business.

Orchard Petroleum ("Orchard") - A reserve audit completed in late 2007, and issued in January 2008 shows an increase in 2P reserves to 16mmboe from approx 10mmboe at the time of the acquisition in May 2007.

As of March 31st 2008, Orchard had 32 wells on production, with a further 5 wells (4 of them in the South Belridge field and one in the Forbes field) having been drilled and logged but awaiting completion and being tied into production.

Additionally, there are 7 other wells that have been drilled but not yet tested. It is expected that a number of these will be tested during the coming few weeks.

During the period under review, a long-term financing package of approximately US\$240 million in debt and equity was put into place. Some of this financing has been completed and drawn-down, other parts are in late-stage documentation.

As part of this funding package, US\$50 million was drawn down in April and utilised to repay the original acquisition bridge facility from Commonwealth Bank of Australia. Orchard also used part of the facility and bought out (and effectively cancelled) in February a 4.25% royalty interest in South Belridge thus increasing net cash flow from the increasing number of producing wells in this field.

The fund raising package also enables Orchard to undertake a major accelerated drilling programme in which between 30 and 50 new wells will be drilled and bought into production over the next 12 months in the South Belridge Field. In addition, a number of development and exploration wells will be drilled in other leased areas that are held by the Orchard

Corporate Restructuring and Name Change - alongside the publication of the 2007 Interim Results in March, Crosby announced that, given the recent growth in its asset management businesses and the opportunities within the asset management industry, it was restructuring its business mix to become a 'pure-play' asset management company. Consequently, the company also announced that it would be seeking shareholder approval at the AGM on 1 May 2008 to change its name to Crosby Asset Management. The name change was unanimously approved at the AGM, and became effective from the 8th May 2008.

Trading Summary

	Unaudited three months ended 31 March 2008 US\$'000	Unaudited three months ended 31 March 2007 US\$'000
