THIRD QUARTERLY RESULTS ANNOUNCEMENT FOR THE NINE MONTHS ENDED 30 SEPTEMBER 2008

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

FINANCIAL REVIEW

The Group's turnover for the nine months ended 30 September 2008 amounted to approximately HK\$30,717,000, representing an increase of 6% compared to the corresponding period in 2007. The increase was mainly attributable to the increase in the volume of sales of medical equipment during the period.

The profit attributable to equity holders of the Company for the nine months ended 30 September 2008 amounted to approximately HK\$28,204,000, whereas a loss attributable to equity holders of approximately HK\$7,069,000 was reported for the corresponding period last year. The earnings per share was 1.60 Hong Kong cents (2007: loss per share of 0.82 Hong Kong cents).

The operating expenses for the nine months ended 30 September 2008 increased by 75% from HK\$21,130,000 to HK\$36,995,000 as compared to the corresponding period last year. This significant increase is primarily a result of (a) start-up expenses in relation to the Cambodia forestry and plantation businesses which incurred operating expenses of approximately HK\$8,508,000; (b) an increase in legal and professional fees associated with the acquisition of the Second Forest and Sub-concession in respect of the First Forest; (c) increases in salaries and wages in head office and the PRC resulting from an increase in headcount; (d) the granting of options to directors and employees of approximately HK\$3,336,000; and (e) amortization of forest exploitation rights of approximately HK\$2,536,000.

As at 30 September 2008, the Group had a bank loan outstanding in the amount of approximately HK\$1,711,000 (2007: HK\$3,098,000). The loan was obtained from a PRC authorised credit union and was secured by certain buildings and prepaid lease payments of the Group.

Following the issue of 200,000,000 shares on 8 July 2008, the share capital of the Company increased to 1,905,000,000 shares. The Group also issued bonds in the principal amount of HK\$70,000,000 and paid the remaining HK\$45,000,000 cash consideration to the vendor upon completion of the acquisition of the Second Forest.

The Group's transactions are denominated in Renminbi, Hong Kong dollars and US dollars and the Group did not enter into any hedging arrangements during the periods under review and had no outstanding hedging instruments (2007: HK\$Nil) at 30 September 2008.

BUSINESS REVIEW

The Company, together with its subsidiaries, (the "Group") has been engaged in the research, development and provision of medical devices for cancer treatment and the promotion of anticancer drugs in the PRC. The Group also sells medical testing equipment in the PRC and overseas.

The Group's sales of medical equipment were HK\$12,783,000 for the third quarter of 2008, moderate increase of 3% as compared to that of the corresponding period in 2007. In the last three months, the Group has increased its budgets on research and development of medical equipment at its newly renovated factory in order to improve the utilisation thereof. The construction of a new factory designed to manufacture drugs and medicines is in the final completion stages. Machine installation, equipment testing and completion of interior fitting work will take place in the fourth quarter and it is anticipated that production will begin in early 2009.

OUTLOOK

The Board is pleased to announce that the Acquisition of the Second Forest was completed on 8 July 2008. The Second Forest has a total site area of approximately 9,555 hectares (equivalent to approximately 95.55 million sq.m.) with estimated timber reserves of approximately 2.31 million cubic metres. The Second Forest is located in Kratie District, Kratie Province, Cambodia and is adjacent to the First Forest owned by the Group.

Forest clearing and production of sawn timber from salvage logs have begun in the Group's First Forest in Cambodia. Subject to obtaining the requisite domestic and export sale permits, the Group expects to generate wood product sales beginning in the fourth quarter of 2008. Work is also expected to start on the plantation rubber trees which business is expected to generate sustainable income for the Group upon maturity.

Following the completion of the acquisition of the Second Forest, work has begun on the construction of access roads and bridges. Given the location of the Second Forest is contiguous to the First Forest and the experience gained from the construction work on the First Forest, the Group expects significant savings in time and money in the infrastructure build-out as compared to the First Forest.

With regard to the recent financial tsunami, the Board has been monitoring the changes in global markets and evaluating the possible impact on the overall investment and development plans of the Group. The Group has not invested in any financial instruments and all cash amounts are deposited with banks in Hong Kong or the PRC.
