# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report for which the directors (the "Directors") of Longlife Group Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors having made all reasonable enquires, confirm that, to the best of their knowledge and belief: (i) the information contained in this report is accurate and complete in all material respects and not misleading; (ii) there are no other matters the omission of which would make any statement in this report misleading; and (iii) all opinions expressed in This report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

# **UNAUDITED NINE-MONTH RESULTS**

The board (the "Board") of directors (the "Directors") of Longlife Group Holdings Limited (the "Company") announces the unaudited consolidated results of the Company and its subsidiaries (collectively, the "Group") for the three months and nine months ended 30 June 2009 together with the comparative unaudited figures for the corresponding period in 2008, prepared in accordance with generally accepted accounting principles in Hong Kong, as follows. The unaudited consolidated results have not been audited by the Company's auditors but have been reviewed by the Company's audit committee.

#### Notes:

#### 1. Group Reorganisation and Basis of Preparation

The Company was incorporated and registered as an exempted company in the Cayman Islands under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands on 5 June 2003.

The shares of the Company were successfully listed on the GEM of the Exchange on 17 June 2004. The unaudited condensed consolidated financial statements are prepared in Hong Kong dollars because it is considered to provide more useful information to the equity holders of the Company. The functional currency of the major subsidiaries of the Group is Renminbi.

The unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in Hong Kong and comply with Hong Kong Financial Reporting Standards ("HKRRS"), which is a collective term of Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKRS") and Interpretations ("Int") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"). The accounting policies and methods of computation adopted are consistent with those followed in the preparation of the Group's audited financial statements set out in the annual report for the year ended 30 September 2008 except as follows. The unaudited condensed financial statements have been prepared under the historical cost basis, as explained in the accounting policies set out in the annual report for the year ended 30 September 2008.

In the current period, the Group has applied, a number of new standards, amendments and interpretations ("new HKFRSs") issued by the HKICPA that are effective for accounting periods beginning on or after 1 October 2008. The adoption of these new HKFRSs has no material effect on how the results for the current or prior accounting year have been prepared and presented. Accordingly, no prior year adjustment has been required.

The Group has not early adopted the following new standards, amendments or interpretations that have been issued but are not yet effective. The Group has commenced considering the potential impact of these new or revised HKFRSs but is not yet in a position to determine whether these new HKFRSs would have a significant impact on how its results of operations and financial position are prepared and presented.

No provision for Hong Kong profits tax has been made in the condensed consolidated income statement as the Group's income neither arises in, nor was derived from Hong Kong for the period (2008: Nil).

Taxation arising in the PRC is calculated at the rates prevailing in the relevant jurisdiction.

Pursuant to the relevant law and regulations in the PRC, certain subsidiaries of the Company in the PRC are exempted from PRC Enterprise Income Tax for two years starting from the first profit making year in which profits exceed any carried forward tax losses followed by a 50% tax relief for PRC Enterprise Income Tax for the following three years.

On 16 March 2007, the PRC promulgated the Law of the PRC on Enterprise Income Tax (the "New Law") by Order No. 63 issued by the Tenth National People's Congress. On 6 December 2007, the State Council of the PRC issued Implementation Regulations of the New Law. Pursuant to the New Law and Implementation Regulations, the Enterprise Income Tax for both domestic and foreign-invested enterprises will be unified at 25% effective from 1 January 2008. There will be a transitional period for PRC subsidiaries that currently entitled to preferential tax treatments granted by the relevant tax authorities. PRC subsidiaries currently subject to an enterprise income tax rate lower than 25% will continue to enjoy the lower tax rate and be gradually transitioned to the new unified rate of 25% within five years after 1 January 2008.

For the period ended 30 June 2009, the domestic income tax rate of 25% represents the PRC Foreign Enterprise Income Tax of which the Group's operations are substantially based.

The charge for the periods can be reconciled to the loss before tax per the condensed consolidated income statement as follows:

# **BUSINESS REVIEW AND OUTLOOK**

# **FINANCIAL REVIEW**

# Turnover

For the nine months and three months ended 30 June 2009, the Group recorded a sales of approximately HK\$140,717,000 and HK\$28,011,000 respectively, whereas a sales of approximately HK\$213,205,000 and HK\$57,178,000 were recorded respectively for the corresponding periods ended 30 June 2008. This represents a decrease of approximately HK\$72,488,000 and HK\$29,167,000 or approximately 34.0% and 51.0% respectively. The significant decrease in sales was mainly due to the Group persistently streamlining inefficient sales networks. Meanwhile, as the Group is in the conversion of sales model, business in certain regions is nearly in standstill. The drop in price from certain direct sale to wholesale also contributed to the sharp decline to the Group's sales income.

## **Gross Profit**

For the nine months and three months ended 30 June 2009, the Group recorded a gross profit of approximately HK\$77,928,000 and HK\$8,149,000 respectively, whereas a gross profit of approximately HK\$140,709,000 and HK\$36,034,000 were recorded respectively for the corresponding periods ended 30 June 2008. This represents a decrease of approximately HK\$62,781,000 and HK\$27,885,000 or approximately 44.6% and 77.4% respectively. For the nine months ended 30 June 2009, the gross margin percentage was approximately 55.4%, a decrease of 10.6 percentage points as compared to 66.0% for the nine months ended 30 June 2009. The three months ended 30 June 2009, the gross margin percentage was approximately 29.1%, a decrease of 33.9 percentage points as compared to 63.0% for the three months ended 30 June 2008. The decrease in gross margin was acused by the discount sales of inventory to the dealers and disposal of some short shell life products and a sharp decline of certain sales price from direct sale to wholesale.

### **Administrative Expenses**

For the nine months and three months ended 30 June 2009, administrative expenses were approximately HK\$17,673,000 and HK\$5,221,000 respectively, a decrease of about HK\$1,630,0000 and HK\$840,000, or approximately 8.4% and 13.9%, as compared to approximately HK\$19,303,000 and HK\$6,061,000 over the corresponding periods ended 30 June 2008. The decrease in administrative expenses was due to the Group's continuous effort of cutting staff and saving cost.

### **Selling and Distribution Expenses**

For the nine months and three months ended 30 June 2009, selling and distribution expenses were approximately HK\$88,123,000 and HK\$27,610,000 respectively. This represents a decrease of approximately HK\$39,144,000 and HK\$9,357,000, or approximately 30.8% and 25.3%, as compared to HK\$127,267,000 and HK\$36,967,000 over the corresponding periods ended 30 June 2008. The sharp cut in overall expenses was a result of gradual conversion of the Group's operating model to dealership, drop in labor cost and further controlling of sales expenses from dealership system. However, due to the discount in disposing goods and compensation for laid-off employees, the reduction in sales and distribution expenses did not match the drop in turnover.

#### Loss for the period

For the nine months and three months ended 30 June 2009, the Group recorded a loss of approximately HK\$30,826,000 and HK\$25,441,000 respectively. This represents an increase of approximately HK\$19,682,000 and HK\$16,819,000, as compared to the loss of approximately HK\$11,144,000 and HK\$8,622,000 over the corresponding periods ended 30 June 2008. Increasing loss for the Group was due to expenses in disposing the goods in short time and the one-time cost for compensation of laid-off staff as the traditional consumer business is streamlining and reorganizing core sales networks. At the same time, the dental business did not generate enough revenue as it's still in early stage.

# **BUSINESS REVIEW**

The Directors believe that during the two years' restructuring, the Group significantly reduced the operating and labor risks and successfully converted its business model from direct sale to dealership system. By doing this, the Group can largely reduce the inventory in the channels to improve liquidity and avoid goods loss, and it has successfully reduced number of employees by 80% which resulted in an immediate reduction of labor cost by about 30% as well as large portion of social insurance liability. After solving labor problems in consumer business, the Group moved forward successfully on new dental material project and obtained preliminary capability of research and development and sale marketing for orthodontic material. The global financial crisis has increased the difficulties for the Group to restructure and slowed down the pace of dental business development. Even though the Group was still incurred short term loss, the Directors believe the conversion of business model has laid solid foundation to future profit ability.

# **FUTURE OUTLOOK**

In consumer goods, the Group will strive to accomplish the business conversion by the end of this financial year which may future cause one-time loss to the Group. However, the Group's consumer business may get rid of the draw backs of direct sales model, operate effectively with the dealership system so as to follow the Group's strategy of "light capital, effective operation and full services" and to regain profit ability.

In the dental business, the Group recouped its total investment of Wuxi Yongle Medical Devices Co., Ltd. by selling of controlling shares and obtained valuable insights in dental distribution business and acquisition. The Group will future look for co-operation opportunities with Taiwan, Japan, Israel, Swiss and other countries in the area of product, equipment and technology. The dental material project has been progressing satisfactorily and the Group expects to market new product globally by the end of this year. The Group will commit to establishing both domestic and international sales network for medium to high end dental products through international cooperation.
