FIRST QUARTERLY REPORT 2009

Three months ended
30th June 2009

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the “Directors”) of China Chief Cable TV Group Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities (“GEM Listing Rules”) on the Growth Enterprise Market of the Stock Exchange for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief: (1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

FINANCIAL AND BUSINESS REVIEW

For the three months ended 30 June 2009, the Group recorded a turnover of approximately HK\$7,421,000 (2008: approximately HK\$3,292,000). The increase was mainly due to the increase in the income from pre-mastering and other media services (“Media Services”) and sale of cordyceps-related products.

Income from Media Services accounted for approximately 45% (2008: approximately 72%) of the Group’s turnover. Income from the provision of audiovisual playout services (“Playout Services”) accounted for approximately 19% (2008: approximately 24%) of the Group’s turnover.

Income from provision of TV digitalisation related services, amounted to approximately HK\$364,000 (2008: approximately HK\$136,000). Such business has been launched since the fourth quarter of 2004 and the income will be further improved as a result of the process of launching digital television network across the PRC by the PRC government.

Income from direct TV sales amounted to approximately HK\$551,000 (2008: Nil). The business was acquired in April 2008.

Income from sale of cordyceps-related products amounted to approximately HK\$1,786,000 (2008: Nil). The business was acquired in November 2008.

The Group generated a gross profit of approximately HK\$636,000 (2008: gross loss of approximately HK\$1,508,000) out of a total turnover of approximately HK\$7,421,000 (2008: approximately HK\$3,292,000). The gross margin has been improved from loss of 46% in 2008 to profit of 9% in the current year, mainly due to the incorporation of result of cordyceps-related business which has a high profit margin and level off the gross loss generated from Media Services.

During the period under review, the loss attributable to equity holders of the company was approximately HK\$23,114,000 (2008: approximately HK\$12,053,000). The increase in loss was mainly attributable to the provision for share-based payment amounting to HK\$14,500,000 (2008: Nil) for share options granted in April 2009.

BUSINESS PURSUITS AND PROSPECTS

The Group acquired a new business for the provision of TV digitalisation related services in August 2004 in order to expand its business scope in the PRC and grabbed the opportunities of network digitalisation in the PRC. At present, the business continues to deliver a stable growth for the year. Its fiber-optic trunk network has expanded to all major districts in Hunan Province and has a satisfactory increasing number of audience bases. The TV digitalisation related services are expected to sustain a healthy growth rate and generate steady cash inflow in the coming years after the process of the network restructuring, equipment upgrade and marketing strategy.

As the Pay TV market has been getting more complicated with the emergence of broadband network, the demand for audiovisual contents as well as its quality increases dramatically. Management believed that it is a good opportunity to capitalise on its expertise and experience in audiovisual technology, and to pursue the concept of providing media service as a whole. In April 2008, the Group completed the acquisition of 80% equity interest in Nanjing Everyday Buy Trading Co. Ltd (“NJ Everyday Buy”). In view of the market potentials in direct TV sales, television advertising and programme production in the increasingly affluent PRC market, the Group has an opportunity to leverage on its expertise and network in the PRC television market and to form a strategic alliance with its joint venture partner to tap into the growth potential of the television advertising and direct TV sales market in the PRC. However, the PRC was hit by several natural disasters and the outbreak of the financial turmoil in the second half of the year, which adversely impacted the general consumer spending sentiments. As a result, overall direct TV sales of NJ Everyday Buy slowed down. The managements hope this would be short-lifted.

In view of the rapid economic growth in the PRC economy in the recent decade, the PRC consumption market exhibited a solid growth potential. As to diversify its existing business portfolio and to broaden its source of income, the Group completed the acquisition of 100% equity interest in Hong Kong New Success International Group Investment Company Limited (“New Success”) and its subsidiaries (“New Success Group”) in November 2008. The Directors believe that the acquired cordyceps-related business can provide a new source of income to the Group. In the PRC marketplace, nutraceuticals and functional foods have become a multi-billion dollar industry. Our managements believe rare nutraceuticals such as cordyceps and other related health products will represent the most attractive markets for nutraceutical industry in the PRC. In particular, in view of the escalating demand, and hence prices, for high-end consumer products, the Directors are optimistic about the future prospect of the demand for cordyceps-related businesses in the PRC.

New Success is one of the Group’s subsidiaries owns the patent of foliage clone. We are honored to have Yangtze Delta Region Institute of Tsinghua University to become our strategic partner to develop the cultivated cordyceps-related products. The cordyceps-related products have exceptional advantages in the prevention of cancer, anti-cancer, enhance immunity, and other aspects. The Group believes that New Success has ample potential to generate attractive returns to the Group in the future.

The Group will continue to endeavour its best effort in keeping its established brand in Hong Kong and will also adopt a positive approach towards the bright market in the PRC.
