DigitalHongKong.com First Quarter Report 2009/10

## ABOUT DIGITALHONGKONG.COM (STOCK CODE: 8007)

**DIGITALHONGKONG.COM** ("Digital HK") has been listed on the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "Exchange") since April 2000. Started as a commerce service provider (CSP) that specialised in providing outsourcing services for online commerce, Digital HK has strategically positioned itself to integrate both online and offline businesses, and to engage in technology investments focusing on healthcare and related opportunities.

Digital HK and its subsidiaries now operate the following complementary lines of business:

- provision of Internet and e-commerce enabling solutions, IT consulting and technical services
- strategic investments in selected technologies and applications
- investment in lifescience and health related projects

Digital HK is a subsidiary of Champion Technology Holdings Limited, the holding company of a communications software group listed on the Main Board of the Exchange.

# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE EXCHANGE

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

## **Financial and Business Review**

The Group's performance continued to be impacted by the generally cautious market sentiment. Service fees derived from its enabling solutions, technical consultation on e-commerce integration and application customisation remained the primary source of income.

For the three months ended 30 September 2009, the Group recorded a turnover of HK\$724,000, compared with HK\$1,005,000 for the corresponding period of previous year. Loss for the period was HK\$491,000, compared with a loss of HK\$248,000 for the last corresponding period. Total operating costs were stable at HK\$1,221,000, compared with HK\$1,294,000 of the previous corresponding period.

The Group's financial position remained positive, and did not have any bank borrowings as at 30 September 2009. It financed its operations primarily by internally generated cashflows.

## Outlook

We remain cautious on the outlook despite some early signs of easing of the global economic downturn. The Group will continue to manage its expenses while prudently pursue suitable opportunities that can expand its income base and generate reliable cashflows.
