# Third Quarterly Report 2010

# CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the main board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

## MANAGEMENT DISCUSSION AND ANALYSIS

### **Corporate Development**

The name of the Company will be changed to Viva China Holdings Limited which will take effect from the date on which the new name is entered on the register by the Registrar of Companies in the Cayman Islands.

The Company has successfully completed the acquisition of Viva China Sports Holding Limited ("Viva China"). This represents a milestone in laying down the Group's initial plan in diversifying its business into sports-related businesses. Viva China and its subsidiaries ("Viva China Group") hold exclusive commercial management rights of the People's Republic of China (the "PRC") national diving team and gymnastics team and has subcontracted all the business contracts of a company that acts as agent for the PRC national badminton team as well as manages and organises various top-tier badminton competitions and tournaments in the PRC. Apart from the Group's continued focus on the enhancement of our green energy business, we will further build on the sports-related businesses.

On 31 August 2010, the Company also entered into a conditional acquisition agreement with an independent third party to acquire the entire issued share capital of two companies which represent the acquisition of rights to develop and manage the first phase of an industrial park, which is planned for the introduction of more environmentally friendly Japanese construction methodologies, and another parcel of land for residential development in Shenyang, Liaoning Province, the PRC. Such acquisition may also entail the opportunity for the Group to participate in a sports and green themed community development project (the "Eco-City Project"). Details of the acquisition were set out in the Company's announcement dated 31 August 2010. Development of sports and green themed community will be an extension of the Group's venture in green-related businesses as it may allow the Group to apply its energy-saving air cooling and water heating equipment in the Eco-City Project, it can also reinforce the objective of the Group in promoting a higher quality of living by utilizing low-carbon and prefabricated construction methodologies that may be acquired from the development of the industrial park under the acquisition, especially if such methodologies ultimately can become standards adopted in the construction industry in the PRC.

### **Green Energy Business**

Our energy-saving business has made steady progress in the third quarter. In our commercial equipment operation, we have achieved satisfactory results in terms of the number of projects completed and the number of quotations issued. In the PRC, in order to strengthen our distribution channel, we have entered into our first dealership agreement with a local dealer in Guangdong and we expect that there will be more to follow. In the meantime, preparation work has been done in the third quarter for the establishment of a new sales office in Shenzhen in the fourth quarter to cater for a growing number of sales personnel and enquiries. In Hong Kong, we are establishing a foothold in the dining and commercial laundry sectors. We are also getting referrals of customers from the two power companies in Hong Kong due to our superior energy-saving capability.

Our cooperation with Tsingdao Haier Air-conditioning Co., Limited ("Haier"), a subsidiary of Tsingdao Haier Co., Limited, is also achieving satisfactory progress. Since our prototype three horsepower five-in-one air-conditioning system passed the performance tests in Haier's laboratory in May, our technical personnel have been working with the technicians in Haier to fine tune the design. A small batch of 20 machines have since been manufactured and a pilot production is planned by Haier for the fourth quarter this year. To crystallise our efforts in this joint development with Haier under the memorandum of development we entered in February, we target to finalize terms of the cooperation before the end of this year.

## Future Plan and Business Development

Apart from the green energy business, the Group has been actively exploring opportunities to diversify into other sports-related businesses. The Group plans to develop itself into a conglomerate focusing on sports and green related businesses aiming to promote a higher quality of life in the PRC and raising the standard and value of the sports industry. Areas of focus initially will include sports talent and competition/event production and management, sports and green themed community development, and the new energy source airconditioner business.

# FINANCIAL REVIEW

For the nine months ended 30 September 2010, the Group recorded a total revenue of HK\$2,304,000, of which HK\$2,271,000 was contributed from the business for manufacturing and trading of energy-saving equipment and related services and HK\$33,000 was contributed from the business of sales of western generic medicine and nutraceutical

Chinese herbal products. Comparing to total revenue of HK\$4,784,000 for the same period of last year, sales of western generic medicine and nutraceutical Chinese herbal products dropped by HK\$4,751,000 which was partially offset by the increase in sales generating from our new energy-saving equipment and related services.

For the nine months ended 30 September 2010, our gross profit decreased from HK\$1,552,000 to HK\$399,000 mainly because of the lower sales volume of the western generic medicine and nutraceutical Chinese herbal products business.

For the nine months ended 30 September 2010, our selling, administrative and other operating expenses were HK\$25.6 million resulting in a net loss of HK\$39.0 million, as compared to selling, administrative and other operating expenses of HK\$10.8 million and net loss of HK\$28.2 million for the same period of last year. The increase in general, administrative and other operating expenses for the nine months ended 30 September 2010 was mainly attributable to costs in relation to the new management team, legal and professional fees and other office expenses at the headquarter.

Apart from the increase in selling, administrative and other operating expenses, equitysettled share option expense of HK\$15.6 million, which is non-cash in nature, was also recorded for the nine months ended 30 September 2010 in respect of share options granted in the third quarter of 2010.

Losses for the nine-month period attributable to owners of the Company were HK\$38.6 million, representing a basic loss per share of HK cents 0.45, as compared to a basic loss per share of HK cents 1.24 for the same period of last year.

For the three months ended 30 September 2010, the Group recorded a total revenue of HK\$1.1 million, representing an increase of HK\$0.3 million (or 38%) from the same period of last year. Although the business of sales of western generic medicine and nutraceutical Chinese herbal products has been slowing down, the drop in sales was compensated by the sales from the business of manufacturing and trading of energy-saving equipment and related services.

The gross profit was HK\$0.6 million for the third quarter in contrast to a gross profit of HK\$0.4 million for the same period of last year. Selling, administrative and other operating expenses were HK\$16.7 million, an increase of HK\$13.6 million from the same period of last year. Net loss was HK\$27.3 million for the third quarter in current year, as compared to HK\$20.8 million for the same period of last year.
