Annual Report 2010

## **CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)**

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This annual report, for which the directors (the “Directors”) of Yuxing InfoTech Holdings Limited (the “Company”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Exchange (the “GEM Listing Rules”) for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief the information contained in this annual report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement in this annual report misleading.

# Corporate Profile

---

The Company and its subsidiaries (collectively the “Group”) commenced its business through Beijing Golden Yuxing Electronics and Technology Co., Ltd. (“Golden Yuxing”) which was established in the People’s Republic of China (other than Hong Kong and Macau) (the “PRC”) in 1996. Golden Yuxing became a Sino-foreign co-operative joint venture enterprise on 8th November 1999. Through reorganisation, the Company has become the ultimate holding company of the Group. The Company was incorporated in Bermuda as an exempted company on 6th October 1999 and was listed on GEM on 31st January 2000. It successfully raised gross proceeds of approximately HK\$420 million.

As a result of the continuous introduction of new products, the Group has experienced rapid growth since its establishment. The Group is principally engaged in research and development, design, manufacturing, marketing and sale of information appliances (major in set-top boxes) through a network of partnerships and distributors in the PRC, Hong Kong and overseas.

Besides its comprehensive distribution network, the Group has established a strong team of research and development (“R&D”) professionals, including experienced experts in hardware and software, digital devices, media display and network technology. Under the leadership of the Group’s professional management team, our products have obtained high reputation in Hong Kong and the PRC’s market.

# Chairman's Statement

---

*As time flies, Yuxing has seen two decades passing by. Looking back at the tracks we left behind in the past two decades, we had witnessed the reform and opening-up in PRC, a process which made the country strong and its people wealthy as time goes by. This process also represented a miniature of the growth of private enterprises in PRC.*

## Chairman's Statement

Concluding the experience gained and lessons learned from the past two decades, keeping up with the changes of time and making continuous innovations are the fundamental factors of the sustainable development of a business. Our corporate doctrines of "Integrity and transparency, strict self-discipline, mutual trust and highly accountable" signify the core values of the Company that we should abide by in any event.

Since its establishment, the Group has launched a series of products, from the initial products of game cards and learning machines, to the nationwide popular products of computer DVDs, and currently, the world-leading Internet Protocol Television ("IPTV") set-top boxes, Yuxing's businesses have been keeping up with the pace of the era and developing rapidly. Being a major business of the Group and benefitting from the State's favourable policies for the TV broadcasting, telecommunications and internet sectors, today, our IPTV set-top boxes business has maintained a good development momentum and gone up to a new stage. The IPTV set-top boxes business has expanded from the early markets of Hong Kong and Japan to a bigger PRC market, as well as overseas markets, demonstrating that the IPTV set-top boxes business of Yuxing has made a successful appearance in the international arena. In the field of broad-brand digital audio-visual products, Yuxing has become an outstanding world-class solution provider and a renowned manufacturer of customized products. As at 2006, Yuxing shipped an aggregate of 1.0 million IPTV set-top boxes and ranked the world's second and Asia's first in MRG (Multimedia Research Group) rankings. Currently, Yuxing has more than 50 types of customized products related with set-top boxes. Yuxing has diverse software customized products and supplies its products to serve over 20 operators in 16 countries in Asia, Europe, Australia and North America, etc.. The cumulative shipments have exceeded 2.5 million units so far.

Despite the fact that nearly 50% of the PRC private enterprises in this industry have vanished during the past five years due to intense competition, Yuxing manages to stride forward amidst the gathering clouds and raging storms with our footprints firmly imprinted on the ground. Although we have survived many challenges, we still face the problem of how to make a leap-forward development. In spite of the tough environment, I strongly believe that all of us at Yuxing will overcome difficulties, focus on innovations and seize every opportunity to make Yuxing the leader in the industry in PRC over the next twenty years.

# Management Discussion and Analysis

## FINANCIAL REVIEW

### Turnover and Gross Profit

During the year under review, the total turnover and gross profit of the Group increased significantly by 99.9% and 116.3% to approximately HK\$335.1 million and HK\$52.8 million respectively for the year ended 31st December 2010 (the "Year") as compared with 2009. This increase in turnover and gross profit was mainly due to the gradual recovery of the global economy, and the fruitful results of the Group's exploration and expansion of the PRC and overseas markets. As a result, the Group's turnover under Information Home Appliances (the "IHA") segment derived from the PRC and overseas markets for the Year increased remarkably to approximately HK\$196.8 million and HK\$80.7 million respectively representing significant increase of 69.1% and 223.3% as compared with last year.

### Operating Results

#### *Other Revenue and Net Income*

Other revenue and net income of the Group increased significantly by 91.0% to approximately HK\$33.2 million for the Year as compared with last year (2009: approximately HK\$17.4 million). This was mainly due to the dividend income recorded by the Group from its indirect investment in 51 million A shares of Ping An Insurance (Group) Company of China Limited ("Ping An Insurance") of approximately HK\$26.3 million for the Year (2009: approximately HK\$8.7 million), which was a major contribution to the profit of the Group for the Year.

#### *Operating Expenses*

With the gradual recovery of the global economy, the Group actively expanded its products into the PRC and overseas markets which led to significantly increase in its overall turnover in 2010. As a result, the Group's overall selling expenses increased by 45.1% to approximately HK\$11.6 million as compared with last year. At the same time, the Group's general and administrative expenses for the Year slightly decreased by 1.9% to approximately HK\$59.3 million as compared with last year.

#### *Other Operating Expenses*

Other operating expenses increased to approximately HK\$2.5 million for the Year (2009: approximately HK\$0.9 million). The main reason was that the Group recorded net unrealized losses on certain financial assets to approximately HK\$0.7 million for the Year (2009: approximately HK\$0.2 million).

#### *Finance Costs*

Finance costs of the Group increased to approximately HK\$2.4 million for the Year (2009: approximately HK\$0.9 million). Such increase in finance costs was due to an increase in short-term borrowings from banks for expansion and development of business of the Group during the year under review.

#### *Profit for the Year*

Due to the significant increase in the turnover of the Group, and the dividend income of approximately HK\$26.3 million from the Group's indirect investment in 51 million A shares of Ping An Insurance for the Year (2009: approximately HK\$8.7 million), the Group recorded a profit attributable to owners of the parent of approximately HK\$14.8 million for the Year (2009: a loss attributable to owners of the parent of approximately HK\$24.1 million).

# Management Discussion and Analysis

## FINANCIAL REVIEW *(Continued)*

### Liquidity, Charge on Group Assets and Financial Resources

As at 31st December 2010, the Group had net current assets of approximately HK\$122.4 million. The Group had cash and bank balances and pledged bank deposits of approximately HK\$56.1 million and HK\$8.7 million respectively. The Group's financial resources were funded mainly by its shareholders' funds, short-term bank loans and mortgage loans totaling approximately HK\$61.2 million. As at 31st December 2010, the Group's current ratio, as calculated by dividing current assets by current liabilities, was 1.7 times and the gearing ratio, as measured by total liabilities divided by total equity, was 5.3%. Hence, as at 31st December 2010, the overall financial and liquidity positions of the Group remained at a stable and healthy level.

### Capital Structure

The shares of the Company were listed on GEM on 31st January 2000. The changes in the capital structure of the Company are set out in note 27 to the consolidated financial statements.

### Significant Investments/Material Acquisitions and Disposals

During the year under review, the Group completed the disposal of an unconsolidated subsidiary namely 北京聚聯富電子技術有限公司, details of which have been disclosed in note 27 to the consolidated financial statements included in the Group's 2009 annual report.

Apart from the above disposal, the Group had no significant investment and no material acquisition or disposal during the year.

### Segment Information

The Group's star business segment is the IHA. The total turnover of the IHA segment for the Year increased significantly by 98.7% to approximately HK\$331.5 million as compared with last year. This increase in turnover was mainly attributable to further expansion of the IPTV business in the PRC market in 2010. Consequently, the turnover of the IHA segment in the PRC market increased significantly by 69.1% to approximately HK\$196.8 million for the Year as compared with last year. In addition, the Group has been actively strengthening its connections with leading telecom operators in many parts of the world and establishing partnerships with them. As a result, turnover of the IHA segment in overseas markets for the Year recorded at approximately HK\$80.7 million, representing a remarkably increase of 223.3% as compared with last year. Moreover, due to the improvement in marketing and selling activities of a major customer under the IHA segment in Hong Kong market, the turnover of the IHA segment in the Hong Kong market also increased significantly by 111.3% to approximately HK\$53.8 million for the Year. Meanwhile, the gross profit of the IHA segment for the Year increased by 103.4% to approximately HK\$54.2 million as compared with 2009. Consequently, the Group recorded a profit of approximately HK\$5.8 million in the IHA segment for the Year (2009: a loss of approximately HK\$10.9 million).

The Group's investing segment is principally engaged in investing in available-for-sale financial assets and trading of securities. The results of this segment increased significantly by 132.4% to approximately HK\$26.4 million for the Year as compared with last year (2009: approximately HK\$11.3 million). The main reason for this increase was that the Group recorded the dividend income of approximately HK\$26.3 million from its indirect investment in 51 million A shares of Ping An Insurance for the Year (2009: approximately HK\$8.7 million).

# Management Discussion and Analysis

## FINANCIAL REVIEW *(Continued)*

### Segment Information *(Continued)*

In respect of the Group's trading segment, because of the lack of new breakthrough in recent years, the Group recorded a loss of approximately HK\$1.7 million for the Year (2009: approximately HK\$2.2 million). As to the other operations segment of the Group, due to the increase in the rental income from leasing out properties of the Group, the result of this segment increased by 29.7% to approximately HK\$2.0 million for the Year as compared with last year.

Geographical markets of the Group were mainly located in the PRC during the year under review. The turnover for the Year generated from the PRC market was increased significantly by 71.1% to approximately HK\$200.6 million as compared with last year. This increase was mainly attributable to the expansion of the Group's IA business into more provinces and cities in the PRC during the year under review. At the same time, the turnover generated from overseas and Hong Kong markets also increased significantly by 223.3% and 111.3% to approximately HK\$80.7 million and 53.8 million respectively for the Year as compared with last year.

### Exposure to Fluctuations in Exchange Rates

Most of the trading transactions of the Group were denominated in United States dollars and in Renminbi. The assets of the Group were mainly denominated in Renminbi and the remaining portions were denominated in Hong Kong dollars. The official exchange rates for United States dollars, Hong Kong dollars and Renminbi have been stable for the Year and no hedging or other alternative measures have been implemented by the Group. As at 31st December 2010, the Group had no significant exposure under foreign exchange contracts, interest or currency swaps or other financial derivatives.

### Human Resources

As at 31st December 2010, the Group had over 560 (2009: over 530) full time employees, of which 12 (2009: 12) were based in Hong Kong and the rest were in the PRC. Staff costs of the Group amounted to approximately HK\$44.6 million for the Year (2009: approximately HK\$38.0 million). This increase in staff costs was mainly due to the increase in number of employees and the increase in salary of employees during the year under review. All employees of the Company's subsidiaries are selected and promoted based on their suitability for the position offered. The salary and benefit levels of the Group's employees are in line with the market. Employees are rewarded on a performance-related basis within the general framework of the Group's remuneration system which is reviewed annually. In addition to the basic salaries, staff benefits also include medical scheme, various insurance schemes and share option schemes.

### Contingent Liabilities

In December 2008, Guangdong Jianlibao Group Company Limited ("JLB Group") initiated proceedings against (1) Mr. Zhang Hai, former chairman and chief executive officer of JLB Group, and the controlling shareholders, actual controller, directors, supervisors, senior management of Foshan Zhixing Technology Company Limited ("Foshan Zhixing") for infringing the interest of JLB Group; (2) Mr. Zhang Hai and the controlling shareholders, actual controller, directors, supervisors, senior management of Sheng Bang Qiang Dian Electronics (Shenzhen) Company Limited ("Shenzhen Sheng Bang") for infringing the interest of JLB Group; and (3) Mr. Zhang Hai and the controlling shareholders, actual controller, directors, supervisors, senior management of Golden Yuxing for infringing the interest of JLB Group (collectively the "Actions"). Foshan Zhixing, Shenzhen Sheng Bang and Golden Yuxing are wholly-owned subsidiaries of the Group.

### Contingent Liabilities *(Continued)*

The People's Court of Sanshui District, Foshan City, Guangdong Province (the "Court of Sanshui") issued judgments ((2009) San Fa Min Er Chu Zi No. 38-1), ((2009) San Fa Min Er Chu Zi No. 39-1) and ((2009) San Fa Min Er Chu Zi No. 40-1) and summons dated 9th December 2008, which stated that, on application by JLB Group, the Court of Sanshui made orders of (1) freezing the bank deposits of Mr. Zhang Hai and Foshan Zhixing totaling RMB10,100,000 or sealing up and distraining its assets of such equivalent amount; (2) freezing the bank deposits of Mr. Zhang Hai and Shenzhen Sheng Bang totaling RMB40,620,000 or sealing up and distraining its assets of such equivalent amount; and (3) freezing the bank deposits of Mr. Zhang Hai and Golden Yuxing totaling RMB46,000,000 or sealing up and distraining its assets of an equivalent amount, together with a standby moratorium dated 13th January 2009 referring to Golden Yuxing's 36.66% equity interest in Shenzhen Jiangnan Industrial Development Company Limited ("JI") from the Court of Sanshui. The Group has been notified in August of 2009 that the Actions have been transferred from the Court of Sanshui to the Intermediate People's Court of Foshan, Guangdong Province (the "Intermediate Court of Foshan").

On 20th October 2009, the Group was notified by JI that the Intermediate Court of Foshan has issued a Notice of Enforcement to JI on 4th September 2009, ordering JI to assist in freezing Golden Yuxing's 36.66% equity interest in JI and suspending the payment of dividends attributable to Golden Yuxing in respect of its equity interest in JI for a period from 7th September 2009 to 6th September 2011 (see note 21 to the financial statements). According to the legal opinion dated 17th March 2011 from the Group's PRC lawyers, Golden Yuxing is entitled to receive the dividend from JI but the suspension of the dividend payment is still in force. As the above freezing order will expire on 6th September 2011, the dividend receivable from JI amounting to approximately HK\$36.0 million was classified as current asset as at 31st December 2010 (2009: approximately HK\$8.7 million was classified as non-current asset).

On 11th January 2011, the Group received five civil judgments all dated 30th December 2010 from Intermediate Court of Foshan which ruled that JLB Group was awarded damages of total amount of approximately RMB96.2 million together with interests and costs to be borne by defendants including Mr. Zhang Hai, Beijing Yuxing Software Company Limited, Golden Yuxing, Foshan Zhixing and Shenzhen Sheng Bang. The Company has filed an appeal to the Higher People's Court of the Guangdong Province in the PRC (the "Guangdong Higher Court") against the said judgements in January 2011, and now such judgements have no legal effect and which will be replaced by the final judgement from the appeal. In the circumstance, none of the wholly-owned subsidiaries of the Group which are named as defendants in the judgements stated above will be required to satisfy the judgements and pay the damages together with interests and costs awarded by the Intermediate Court of Foshan.

As at 31st December 2010, certain cash and bank balances of the Group with carrying value of approximately HK\$1.1 million (2009: approximately HK\$1.0 million) were frozen by the Intermediate Court of Foshan.

The Board has sought legal advice from its PRC lawyers and is of the view that the Actions are based on unsubstantiated and invalid grounds. Therefore, no provision for damages and the related interests and costs is considered necessary.

## FINANCIAL REVIEW *(Continued)*

### Pending Litigation

In 2007, JLB Group lodged a petition with the Guangdong Higher Court to institute a civil action against Golden Yuxing as purchaser and Sanshui Jianlibao Health Industry Investment Company Limited (“SJHII”) as vendor, claiming, among other matters, that the sale by SJHII to Golden Yuxing in August 2004 of 10.435% (which was subsequently increased to 36.66% pursuant to adjustments of shareholders’ equity interest in 2006) equity interest in JI (the “Acquisition”), a company whose principal assets were 479,117,788 Ping An Shares (subsequently reduced to 139,112,886 Ping An Shares as at 31st December 2007), was invalid.

On 18th February 2008, Golden Yuxing received a notification from Guangdong Higher Court, which said that JLB Group claimed that SJHII was actually a trustee holding the shares of JI on their behalf and had entered into the share sale agreement with Golden Yuxing without JLB Group’s approval or authorisation. In addition, the fact that the aggregate investment cost exceeded 50% of Golden Yuxing’s net assets also violated Rule 12 of the Company Law then in force in the PRC. The share sale transaction was therefore invalid and SJHII did not have the right to transfer the legal title of the JI’s shares to Golden Yuxing. JLB Group thereby demanded the reversion and return of the JI’s shares from Golden Yuxing to SJHII.

On 7th January 2009, the Group was awarded a judgment dated 23rd December 2008 from the Guangdong Higher Court which ruled that (1) the Acquisition and the registration of the transfer of the related equity interest in JI were legally valid; (2) the claim submitted by the JLB Group to invalidate the Acquisition was rejected; and (3) the counter-claim filed by Golden Yuxing with the Guangdong Higher Court in May 2008 as a result of JLB Group’s claim was also rejected.

On 25th June 2009, Golden Yuxing was notified by the Supreme Court of the PRC (the “Supreme Court”) that an appeal has been lodged by the JLB Group, and which was accepted by the Supreme Court.

In December 2009, the Group received the (2009) Min Er Zhong Zi No. 53 civil ruling made on 20th November 2009 from the Supreme Court which ruled that upon the hearing, with regard to the litigation, the Supreme Court was of the view that the trial judgement of the Guangdong Higher Court misapprehended the facts and therefore ruled (1) to revoke the civil ruling issued by the Guangdong Higher Court on 23rd December 2008; and (2) to return the case to the Guangdong Higher Court for rehearing.

On 22nd June 2010, the Group received summons dated 10th June 2010 from the Guangdong Higher Court which summoned Golden Yuxing to the court to respond to hearings scheduled on 25th June 2010. The Company has instructed its PRC lawyers to respond to the hearings. As at the date of this report, no judgement for the rehearing has been received from the Guangdong Higher Court. The Board has sought legal advice from its PRC lawyers and is still of the view that the claim submitted by JLB Group is based on invalid grounds. The Group has valid evidence which sufficiently ascertain their 36.66% ownership on the equity interest in JI and therefore no provision is considered necessary.

## BUSINESS REVIEW

Being one of the pioneers engaging in the R&D of broadband set-top boxes, the Group has been focusing on the IPTV and home broadband entertainment markets for ten years. Today, with the favorable policy promoting the integration of three nets (telecom net, broadcast & TV net, as well as Internet) in the PRC and the global economic recovery, the IPTV set-top boxes business, as the Group's principal business, has stepped into a sound momentum of development and reached a new step and successfully tapped into the international market. The overall sales for the Year amounted to approximately HK\$335.1 million, representing significant increase of 99.9% as compared with last year.

Being one of the leading IPTV terminal suppliers, the Group has a strong software and hardware R&D team of IPTV set-top boxes. In hardware design, we had accumulated rich experiences, our products covered single-mode IPTV set-top boxes, dual-mode IP + DVB-C/S/S2/T/T2, etc. series of set-top boxes, and we had flexibly customized a series of high-end and multi-function set-top boxes with DVR/media players according to customers' needs. The Group has attached great importance to the R&D of the software and possessed the leading IPTV video, data and network application technology. In addition, the Group had completed the compatibility of technologies with advanced intermediary software manufacturers at domestic and abroad, such as Huawei Technologies Company Limited, Orca Interactive Limited, Ericsson (China) Communications Company Limited and Cascade Limited. Currently, the Group has a large number of cross-platform codes with independent intellectual property rights and can quickly build products on the brand-new platform. Moreover, the Group has more than 50 set-top boxes related customized versions and also diverse customized versions of the software. These products now serve more than 20 operators in 16 countries from Asia, Europe, Australia and North America, with cumulative shipments of more than 2.5 million units up to now. Meanwhile, the Group is a key partner with the world's leading telecom operators, including, China United Network Communications Group Company Limited, Telefonica, France Telecom and PCCW Limited, etc.

To vigorously develop the IPTV business, the Group made a series of adjustments, and gave priority to improving production and supplier management, and at the same time introduced the Enterprise Resources Planning Management System to strengthen assessment. This has cast significant effects on lowering costs and enhancing products competitiveness, thereby laying a solid foundation for the Group's stable growth.

During the year under review, the Group's domestic IPTV business, after a successful preliminary trial, has begun providing various kinds of TV services based on telecom transmission. Through cooperation with the biggest provider of telecom equipment and systems in the PRC, the Group has successfully penetrated its set-top boxes into a number of key markets such as Guangdong, Hubei, Sichuan, Shanxi, Liaoning, Shanghai and Chongqing. By virtue of these continuing developments, the Group's turnover in the PRC market under IHA segment for the Year increased by 69.1% to approximately HK\$196.8 million as compared with last year.

For the international market, the Group has successfully penetrated the markets into Spain, Australia, Belgium and Russia while maintaining satisfactory partnership with the existing telecom operators and system integration suppliers with secured product supply, as a result of which, the turnover of the Group for the Year in the international market increased by 223.3% to approximately HK\$80.7 million as compared with last year.

While the turnover in Hong Kong market for the Year increased by 111.3% to approximately HK\$53.8 million as compared with last year. During the year, the Group had completed its R&D effort in providing technical support to one of its Hong Kong customers in its product upgrading and function integration. With the newly-developed products for 2010 continuously introducing to the market, the Group's new generation of HD products will bring better entertainment experience to its customers.

## BUSINESS REVIEW *(Continued)*

In relation to the claim submitted by JLB Group regarding the Acquisition, the Group has received summons dated 10th June 2010 from the Guangdong Higher Court on 22nd June 2010, which summoned Golden Yuxing to the court to respond to hearings scheduled on 25th June 2010. The Company has instructed its PRC lawyers to respond to the hearings, and there is no further judgement from Guangdong Higher Court as at the date of this report.

Besides, according to our announcement dated 22nd October 2009, Intermediate Court of Foshan had issued a Notice of Enforcement to JI on 4th September 2009, ordering JI to assist in freezing Golden Yuxing's 36.66% equity interest in JI and its dividend entitlements held by Golden Yuxing and suspending the payment of dividends attributable to Golden Yuxing in respect of its equity interest in JI, for a period from 7th September 2009 to 6th September 2011. According to the legal opinion dated 17th March 2011 from the Group's PRC lawyers, Golden Yuxing is entitled to receive the dividend from JI but the suspension of the dividend payment is still in force.

## BUSINESS PROSPECT

In the future, the global IPTV market will enter into a stage of stable growth, and especially in the PRC, a brighter prospect can be anticipated with the further amalgamation of the three nets.

The Group's IHA business, after ten years' development, has built up extensive experience and human resources in respect of product feature design, core technology R&D, quality control and customer service. Besides establishing in a number of locations in the PRC, the Group has snatched the leading position in some of the well-developed markets in the international market. With the further expansion of the IPTV market, the Group's business will certainly have a brighter future.

For the domestic market, the Group has had a good start in certain local markets. With the accelerated promotion of IPTV application across the country by the telecom operators, the Group will make the most of the opportunities and aggressively penetrate the emerging markets while consolidating the existing customer base. The Group is fully optimistic over the future of the domestic market.

As for the international market, the Group will adhere to the existing principles and aggressively explore opportunities for cooperation with small and medium size telecom operators while maintaining close partnership with global telecom operators in 2011, aiming at penetrating even more regional markets and providing its customers with products of greater quality and more advanced technology.

As for the Hong Kong market, the Group is expecting even better performance in the coming year, by continuously participating in the marketing campaign of one of its local customers in Hong Kong and launching new products to cater for its clients' demands.

# Corporate Governance Report

## CORPORATE GOVERNANCE PRACTICES

The Company is committed to achieving high standards of corporate governance. The Directors believe that sound and reasonable corporate governance practices are essential for the rapid growth of the Group and for safeguarding and maximizing shareholders' interests.

The Group has adopted a set of Code on Corporate Governance ("Company Code") which sets out the corporate standards and practices used by the Group to direct and manage its business affairs. It is prepared by referencing to the principles, code provisions and recommended best practices set out in the Code on Corporate Governance Practices ("GEM Code") contained in Appendix 15 of the GEM Listing Rules, which came into effect on 1st January 2005. The Board will continue to monitor and revise the Company Code and assess the effectiveness of our corporate governance practices in tandem with changes in the environment and requirements under the GEM Code, to ensure the Company Code is in line with the expectations and interests of shareholders and comply with the GEM Code and the GEM Listing Rules.

Subject to the deviations as disclosed hereof, the Company has complied with all the GEM Code during the year under review.

- (a) Under provision A.2.1 of the GEM Code, the role of chairman and chief executive officer should be separated and should not be performed by the same individual. The responsibilities between the chairman and the chief executive officer should be clearly established and set out in writing. Mr. Zhu Wei Sha is the chairman of the Board and the chief executive officer of the Group. As such, such dual role constitutes a deviation from Code Provisions A.2.1. However, the Board is of the view that: (i) the Company has sufficient internal controls to provide checks and balances on the functions of the chairman and chief executive officer; (ii) Mr. Zhu Wei Sha as the chairman of the Board and the chief executive officer of the Group is responsible for ensuring that all directors act in the best interests of the shareholders. He is fully accountable to the shareholders and contributes to the Board and the Group on all top-level and strategic decisions; and (iii) this structure will not impair the balance of power and authority between the Board and the management of the Company.
- (b) Under provision E.1.2 of the GEM Code, the chairman of the Board should attend the AGM and arrange for the chairman of the audit, remuneration and nomination committees (as appropriate) to be available to answer questions at the AGM. Mr. Chen Fu Rong, the deputy chairman of the Company has been performing the above duties in lieu of Mr. Zhu Wei Sha, the chairman of the Company, who was on an overseas business trip on the day of the AGM.

## SECURITIES TRANSACTIONS BY DIRECTORS

Although the Company has not adopted any code of conduct regarding the Directors' securities transactions, it has made specific enquiry of all Directors and all Directors have confirmed that they have complied with all the required standards of dealings set out in rules 5.48 to 5.67 of the GEM Listing Rules during the year under review.

# Corporate Governance Report

## BOARD COMPOSITION

The Board is responsible for managing the Company on behalf of shareholders. The Board is of the view that it is the Directors' responsibility to create value for shareholders as a whole and safeguard the best interests of the Company and the shareholders by discharging its duties in a dedicated, diligent and prudent manner on the principle of good faith.

The Board comprises a total of seven Directors, with four executive Directors, namely, Mr. Zhu Wei Sha (Chairman), Mr. Chen Fu Rong (Deputy Chairman), Mr. Shi Guang Rong and Mr. Wang An Zhong; and three Independent Non-executive Directors, namely, Mr. Wu Jia Jun, Mr. Zhong Peng Rong and Ms. Shen Yan, Ms. Shen Yan has appropriate professional qualifications and expertise in accounting and auditing.

Each of the Independent Non-executive Directors has made an annual confirmation of independence pursuant to Rule 5.09 of the GEM Listing Rules. The Company is of the view that all Independent Non-executive Directors meet the independence guidelines set out in Rule 5.09 of the GEM Listing Rules and are independent in accordance with the terms of the guidelines.

The primary functions of the Board include:

- Deciding on the overall strategies, overseeing operational and financial performance and formulating appropriate policies to manage risk exposure associated with realizing the strategies and goals of the Group;
- being held accountable for the internal control system of the Group and responsible for reviewing its effectiveness;
- being ultimately responsible for preparing financial accounts and discussing the performance, financial conditions and prospects of the Group in a balanced, clear and comprehensible manner. These responsibilities are applicable to quarterly, interim and annual reports of the Company, other price sensitive announcements published according to the GEM Listing Rules and disclosure of other financial information, reports submitted to regulatory bodies and information discloseable under statutory requirements;
- whilst executive Directors, who oversee the overall business of the Group, are responsible for the daily operations of the Group, the Board is responsible for affairs involving the overall policies, finance and shareholders of the Company, namely financial statements, dividend policy, significant changes to accounting policies, annual operating budgets, material contracts, major financing arrangements, principal investment and risk management strategy. Implementation and execution of such decisions is delegated to the management; and
- regularly reviewing its own functions and the powers conferred upon executive Directors to ensure appropriate arrangements are in place.

The management is well informed of its powers and duties with clear guidelines and instructions, in particular regarding situations under which reporting to the Board is necessary and matters that require the approval of the Board before any decisions or commitments can be made on behalf of the Company.

# Corporate Governance Report

## BOARD COMPOSITION *(Continued)*

The full Board meets at least four times a year, at approximately quarterly intervals, to review the financial performance, results of each period, material investments and other matters of the Group that require the resolution of the Board. Simultaneous conference call may be used to improve attendance when individual Director cannot attend the meeting in person.

In 2010, the Board held seven full Board meetings. The attendance record of each member of the Board is set out below:

<b>Executive Directors</b>	<b>Attendance</b>
Mr. Zhu Wei Sha ( <i>Chairman</i> )	7/7
Mr. Chen Fu Rong ( <i>Deputy Chairman</i> )	7/7
Mr. Wang An Zhong	7/7
Mr. Shi Guang Rong	7/7
<b>Independent Non-executive Directors</b>	
Mr. Wu Jia Jun	5/7
Mr. Zhong Peng Rong	5/7
Ms. Shen Yan	5/7

All the Independent Non-executive Directors are appointed for two-year term, and subject to rotation and re-election pursuant to the Company's Bye-laws. Details of their appointment are referred to the section "Directors' Service Contracts" on page 19.

To the knowledge of the Directors, the Board members have no financial, business, families or other material relationships with each other.

# Corporate Governance Report

## NOMINATION OF DIRECTORS

The Board is responsible for considering the suitability of a candidate to act as a director, and approving and terminating the appointment of a director. The chairman of the Board is mainly responsible for identifying suitable candidates for the Board when there is a vacancy or an additional director is considered necessary. The chairman of the Board will propose the appointment of such candidates to the Board for consideration and the Board will review the qualifications of the relevant candidates to determine the suitability to the Group on the basis of their qualifications, experience and background. The decision of appointing directors must be approved by the Board. Any newly appointed director shall hold office only up to the next following AGM of the Company and shall then be eligible for re-election at that meeting.

## REMUNERATION COMMITTEE

The remuneration committee of the Company was established in October 2005. It comprises Mr. Sun Li Jun (Chairman), Mr. Wang An Zhong and all Independent Non-executive Directors, Mr. Wu Jia Jun, Mr. Zhong Peng Rong and Ms. Shen Yan. The remuneration committee performs its functions, which primarily include assisting the Board in the overall management of the remuneration practices of the Group to ensure that effective policies, processes and practices are implemented in respect of the incentives for the executive Directors and senior management, in accordance with provision B.1.3 of the GEM Code.

During the year 2010, the remuneration committee of the Company convened one meeting, in which the remuneration committee reviewed and approved the remuneration packages of the executive Directors and senior management.

Details of the attendance of the remuneration committee meetings are as follows:

Members	Attendance
Mr. Sun Li Jun ( <i>Chairman</i> )	1/1
Mr. Wang An Zhong	1/1
Mr. Wu Jia Jun	1/1
Mr. Zhong Peng Rong	1/1

## AUDIT COMMITTEE

The Company established an audit committee (the “Committee”) on 20th November 1999 with written terms of reference in compliance with the GEM Listing Rules.

The Committee provides an important link between the Board and the Company’s auditor in matters coming within the scope of the Group’s audit. The primary duties of the Committee are to review and supervise the financial reporting process of the Group. It also reviews the effectiveness of both the external audit and of internal controls and risk evaluation. The Committee comprises three Independent Non-executive Directors of the Company, namely Mr. Wu Jia Jun, Mr. Zhong Peng Rong and Ms. Shen Yan. Ms. Shen Yan was appointed as the chairman of the Committee and she has appropriate professional qualifications in accounting and auditing experience. The Committee held four meetings during the current financial year. The Group’s audited annual results for the year ended 31st December 2010 have been reviewed by the Committee.

The attendance record of each member of the Committee is set out below:

Members	Attendance
Ms. Shen Yan ( <i>Chairman</i> )	4/4
Mr. Zhong Peng Rong	4/4
Mr. Wu Jia Jun	4/4

The Committee has carefully reviewed the Company’s quarterly, half-yearly and annual results and internal control system of the Group and has made suggestions to improve them. The Committee also carried out and discharged its duties set out in the GEM Code.

## DIRECTORS’ AND AUDITORS’ RESPONSIBILITIES FOR ACCOUNTS

Statements of Directors’ responsibilities for preparing the financial statements and external auditor’s reporting responsibilities are set out in the “Independent Auditor’s Report”.

## INTERNAL CONTROL

The Directors have reviewed and are satisfied with the effectiveness of the Group’s internal control system, including, in particular, financial, operational and compliance controls and risk management functions, to safeguard the Group’s assets against unauthorised use or disposition, and to protect the interests of the shareholders.

**TO THE SHAREHOLDERS OF  
YUXING INFOTECH HOLDINGS LIMITED**  
*(incorporated in Bermuda with limited liability)*

We have audited the consolidated financial statements of Yuxing InfoTech Holdings Limited (the "Company") and its subsidiaries (together the "Group") set out on pages 31 to 94, which comprise the consolidated and the Company's balance sheet as at 31st December 2010, and the consolidated income statement, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

## **DIRECTORS' RESPONSIBILITY FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The directors of the Company are responsible for the preparation of consolidated financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

## **AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on these consolidated financial statements based on our audit and to report our opinion solely to you, as a body, in accordance with section 90 of the Companies Act 1981 of Bermuda (as amended), and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Independent Auditor's Report

## OPINION

In our opinion, the consolidated financial statements give a true and fair view of the state of the affairs of the Company and of the Group as at 31 December 2010, and of the Group's profit and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards and have been properly prepared in accordance with the disclosure requirements of Hong Kong Companies Ordinance.

## EMPHASIS OF MATTER

We draw attention to note 30 to the consolidated financial statements concerning the uncertainty related to the possible outcome of an appeal made by the Group to the Higher People's Court of the Guangdong Province in the People's Republic of China against the decision of the Intermediate People's Court of Foshan, Guangdong Province for ordering the Group to pay damages in an aggregate amount of approximately RMB96,200,000 and related interests and costs for infringing the interest of a third party. Upon advice from the Group's PRC lawyers, the directors consider that the order has no legal effect following the appeal and the claim submitted by the plaintiff is based on unsubstantiated and invalid grounds. Therefore, no provision for damages and the related interests and costs is necessary. Therefore, the consolidated financial statements of the Group do not include any adjustments that would result from the outcome of the lawsuit. We consider that appropriate disclosures have been made and our opinion is not qualified in this respect.

# Notes to the Financial Statements

## 1. CORPORATE INFORMATION

The Company is incorporated in Bermuda as an exempted company with limited liability and its shares are listed on The Growth Enterprise Market of The Stock Exchange of Hong Kong Limited (the "GEM").

The addresses of the registered office and principal place of business of the Company are disclosed in the "Corporate Information" section of this annual report.

The principal activity of the Company is investment holding. The principal activities of its subsidiaries are detailed in note 36 to the financial statements.

## 2. PRINCIPAL ACCOUNTING POLICIES

### (a) Basis of preparation

These financial statements have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs"), which collective term includes all applicable individual HKFRSs, Hong Kong Accounting Standards ("HKAS") and Interpretations issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and the disclosure requirements of the Hong Kong Companies Ordinance. These financial statements also complied with the applicable disclosure provisions of the Rules Governing The Listing of Securities on the GEM. A summary of the principal accounting policies adopted by the Group is set out below.

These financial statements have been prepared on a basis consistent with the accounting policies adopted in the 2009 financial statements, except for the adoption of the following new/revised HKFRSs that are relevant to the Group and effective from the current year which, other than those as set out below, has had no significant effects on the Group's results and financial position for the current and prior years.

*HKFRS 3 (Revised): Business Combinations/Improvements to HKFRSs (2009) with amendments to HKFRS 3*

The revised standard introduced a number of major changes including the following:

- acquisition-related transaction costs, other than share and debt issue costs, to be expensed as incurred;
- existing interest in the acquiree to be remeasured at fair value, with the gain or loss recognised in profit or loss, upon subsequent changes in ownership interests;
- non-controlling interest in the acquiree to be measured at either fair value, or at its proportionate interest in the identifiable assets and liabilities of the acquiree;
- contingent consideration to be recognised at fair value at the acquisition date; and
- goodwill to be measured at the excess of the aggregate of the acquisition-date fair value of the acquirer's interest in the acquiree and the amount of any non-controlling interest over the net of the acquisition-date amounts of identifiable assets acquired and the liabilities assumed from the acquisition.

The Improvements to HKFRSs (2009) contains amendments to clarify the measurement of the fair value of an intangible asset acquired in a business combination and to permit the grouping of intangible assets as a single asset if each asset has a similar useful life.

These changes did not have material impact on the financial statements of the Group for the year ended 31st December 2010.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES (Continued)

### (a) Basis of preparation (Continued)

#### *HKAS 27 (Revised): Consolidated and Separate Financial Statements*

The revised standard requires accounting for changes in ownership interests in a subsidiary, while maintaining control, to be recognised as an equity transaction. It also requires, when the group loses control of a subsidiary, any interest retained in the former subsidiary to be remeasured at fair value with the gain or loss recognised in profit or loss. This principle is also extended to a disposal of an associate through the consequential amendments to HKAS 28 Investments in Associates. The adoption of the revised standard did not have material impact on the financial statements of the Group for the year ended 31st December 2010.

#### *Amendments to HKAS 17 Leases*

As part of *Improvements to HKFRSs* issued in 2009, HKAS 17 *Leases* has been amended in relation to the classification of leasehold land. Before the amendments to HKAS 17, the Group was required to classify leasehold land as operating leases and to present leasehold land as prepaid lease payments in the consolidated balance sheet. The amendments to HKAS 17 have removed such a requirement. The amendments require that the classification of leasehold land should be based on the general principles set out in HKAS 17, that is, whether or not substantially all the risks and rewards incidental to ownership of a leased asset have been transferred to the lessee. In accordance with the transitional provisions set out in the amendments to HKAS 17, the Group reassessed the classification of unexpired leasehold land as at 1st January 2010 based on information that existed at the inception of the leases. There is no leasehold land of the Group that qualifies for finance lease classification, hence, no prepaid lease payment has been reclassified to property, plant, and equipment retrospectively.

#### *HK – Int 5: Presentation of Financial Statements – Classification by the Borrower of a Term Loan that Contains a Repayment on Demand Clause*

The Interpretation concludes that, if a term loan (i.e. a loan that is repayable on a specified date or in installments over a specified period, usually in excess of one year) has a demand clause (i.e. a clause that gives the lender an overriding right to demand repayment without notice or with notice period of less than 12 months at its sole discretion) in its term, the loan shall be classified by the borrower as a current liability in the balance sheet. Similarly, the amounts repayable under such a term loan shall be classified in the earliest time bracket in the contractual maturity analysis as required to be disclosed under HKFRS 7: *Financial Instruments: Disclosures*. This Interpretation has been applied retrospectively by re-presenting the opening balances at 1st January 2009, with consequential reclassification adjustments to comparatives for the year ended 31st December 2009. The reclassification has had no effect on the Group's reported profit or loss, total comprehensive income or equity for any period presented.

#### *Effect of adoption of HK – Int 5 on the consolidated balance sheet:*

	At 31st December 2010 HK\$'000	At 31st December 2009 HK\$'000	At 1st January 2009 HK\$'000
<b>Increase/(Decrease) in</b>			
<b>Current liabilities</b>			
Bank loans	13,131	14,259	13,339
<b>Non-current liabilities</b>			
Bank loans	(13,131)	(14,259)	(13,339)

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (b) Basis of measurement

The measurement basis used in the preparation of these financial statements is historical cost, except for investment properties, available-for-sale financial assets and financial assets at fair value through profit or loss, which are measured at fair value as explained in the accounting policies.

### (c) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and all of its subsidiaries as at 31st December each year. The financial statements of the subsidiaries are prepared for the same reporting year as that of the Company using consistent accounting policies.

All intra-group balances, transactions, income and expenses and profits and losses resulting from intra-group transactions are eliminated in full. The results of subsidiaries are consolidated from the date on which the Group obtains control and continue to be consolidated until the date that such control ceased.

### (d) Subsidiaries

A subsidiary is an entity in which the Group has the power to govern the financial and operating policies so as to obtain benefits from its activities.

In the Company's balance sheet, investments in subsidiaries are stated at cost less accumulated impairment loss. The carrying amount of the investment is reduced to its recoverable amount on an individual basis. The results of subsidiaries are accounted for by the Company on the basis of dividends received and receivable.

### (e) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Repairs and maintenance are charged to profit or loss during the year in which they are incurred.

As the Group's lease payments for its leasehold property located in Hong Kong cannot be allocated reliably between the land and buildings elements at the inception of the lease because similar land and buildings are not sold or leased separately, the entire lease payments are included in the cost of the leasehold property as a finance lease in property, plant and equipment.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (e) Property, plant and equipment *(Continued)*

Depreciation is provided to write off the cost less accumulated impairment losses of property, plant and equipment over their estimated useful lives as set out below from the date on which they are available for use and after taking into account their estimated residual values, using the straight-line method. Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis and depreciated separately:

Buildings	3% or over the relevant lease term, whichever is shorter
Leasehold property	3% or over the relevant lease term, whichever is shorter
Leasehold improvements	5% – 33% or over the relevant lease term, whichever is shorter
Office equipment, furniture and fixtures	20% – 33%
Plant and machinery	10% – 20%
Motor vehicles	10% – 33%

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the year in which the item is derecognised.

### (f) Investment properties

Investment properties are land and/or building that are held by owner or lessee under finance lease, to earn rental income and/or for capital appreciation. These include properties held for a currently undetermined future use and properties that are held under operating lease, which satisfy the definition of investment property and carry at fair value.

Investment properties are stated at fair value at balance sheet date. Any gain or loss arising from a change in fair value is recognised in profit or loss. The fair value of investment property is based on a valuation by an independent valuer who holds a recognised professional qualification and has recent experience in the location and category of property being valued.

### (g) Prepaid lease payments for leasehold land

Prepaid lease payments for leasehold land are up-front payments to acquire fixed-term interests in lessee-occupied land that are classified as operating leases. The premiums are stated at cost and are amortised over the period of the lease on a straight-line basis to profit or loss.

### (h) Intangible assets

#### *Research and development costs*

Research costs are expensed as incurred. Costs incurred on development activities, which involve the application of research findings to a plan or design for the production of new or substantially improved products and processes, are capitalised if the product or process is technically and commercially feasible and the Group has sufficient resources to complete the development. The expenditure capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads. Other development expenditure is recognised in profit or loss as an expense as incurred. When the asset is available for use, the capitalised development costs are amortised on a straight-line basis over a period which reflects the pattern in which the related economic benefits are recognised.

#### *Patents, trademarks and film and musical recording rights*

The initial cost of acquiring patents, trademarks and film and musical recording rights are capitalised.

Patents, trademarks and film and musical recording rights with finite useful lives are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is provided on the straight-line basis over their estimated useful lives.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

### (i) Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments and on a trade date basis.

A financial asset is derecognised when the Group's contractual rights to future cash flows from the financial asset expire or when the Group transfers substantially all the risks and rewards of ownership of the financial asset. A financial liability is derecognised only when the liability is extinguished, that is, when the obligation specified in the relevant contract is discharged, cancelled or expires.

#### *Financial assets at fair value through profit or loss*

Financial assets at fair value through profit or loss include financial assets held for trading and financial assets designated upon initial recognition as at fair value through profit or loss. They are carried at fair value, with any resultant gain and loss recognised in profit or loss.

Financial assets are classified as held for trading if they are (i) acquired principally for the purpose of selling in the near future; (ii) part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or (iii) derivatives that are not financial guarantee contracts or not designated and effective hedging instruments.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Financial instruments *(Continued)*

#### *Financial assets at fair value through profit or loss (Continued)*

Financial assets are designated at initial recognition as at fair value through profit or loss if (i) the designation eliminates or significantly reduces the inconsistent treatment that would otherwise arise from measuring the assets or liabilities or recognising gains or losses on a different basis; or (ii) they are part of a group of financial assets and/or financial liabilities that are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management strategy; or (iii) they contain embedded derivatives that would need to be separately recorded.

#### *Loans and receivables*

Loans and receivables including trade and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are not held for trading. They are measured at amortised cost using the effective interest method, except where receivables are interest-free loans and without any fixed repayment term or the effect of discounting would be insignificant. In such case, the receivables are stated at cost less impairment loss. Amortised cost is calculated by taking into account any discount or premium on acquisition, over the period to maturity. Gains and losses arising from derecognition, impairment or through the amortisation process are recognised in profit or loss.

#### *Available-for-sale financial assets*

Available-for-sale financial assets are non-derivative financial assets that are either designated at this category or not classified in any of the other categories of financial assets. They are measured at fair value with changes in value recognised as a separate component of equity until the assets are sold, collected or otherwise disposed of, or until the assets are determined to be impaired, at which time the cumulative gain or loss previously reported in equity is transferred to profit or loss. The fair value of available-for-sale financial assets is based on a valuation by an independent valuer.

#### *Impairment of financial assets*

At each balance sheet date, the Group assesses whether there is objective evidence that financial assets, other than those at fair value through profit or loss, are impaired. The impairment loss of financial assets carried at amortised cost is measured as the difference between the assets' carrying amount and the present value of estimated future cash flow discounted at the financial asset's original effective interest rate. Such impairment loss is reversed in subsequent periods through profit or loss when an increase in the asset's recoverable amount can be related objectively to an event occurring after the impairment was recognised, subject to a restriction that the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (i) Financial instruments *(Continued)*

#### *Impairment of financial assets (Continued)*

When an available-for-sale financial asset is impaired, an amount comprising the difference between its acquisition cost (net of any principal repayment and amortisation) and current fair value, less any previously recognised impairment loss, is transferred from equity to profit or loss. Impairment losses recognised in profit or loss in respect of available-for-sale equity instrument are not reversed through profit or loss. Any subsequent increase in fair value of available-for-sale equity instrument after recognition of impairment loss is recognised in equity. Reversal of impairment loss of available-for-sale debt instruments are reversed through the profit or loss, if the increase in fair value of the instrument can be objectively related to an event occurring after the impairment loss was recognised in the profit or loss.

#### *Financial liabilities*

The Group's financial liabilities include trade and other payables and bank loans. All financial liabilities except for derivatives are recognised initially at their fair value and subsequently measured at amortised cost, using effective interest method, unless the effect of discounting would be insignificant, in which case they are stated at cost.

### (j) Cash equivalents

For the purpose of the consolidated cash flow statement, cash equivalents represent short-term highly liquid investments which are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value, net of bank overdrafts.

### (k) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost, which comprises all costs of purchase and, where applicable, other costs that have been incurred in bringing the inventories to their present location and condition, is calculated using the weighted average cost method. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

### (l) Revenue recognition

Revenue is recognised when it is probable that the economic benefits will flow to the Group and when the revenue and costs, if applicable, can be measured reliably and on the following bases:

Sale of goods is recognised on transfer of risks and rewards of ownership, which generally coincides with the time when the goods are delivered to customers and the title is passed.

Rental income under operating lease is recognised when the properties are let out and on the straight line basis over the lease terms.

Interest income from financial asset is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (l) Revenue recognition *(Continued)*

Dividend income from investments is recognised when the Group's rights to receive payment have been established.

### (m) Foreign currency translation

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in the currency of Hong Kong dollars, which is the Company's functional and presentation currency.

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

The results and financial position of all the Group entities that have a functional currency different from the presentation currency ("foreign operations") are translated into the presentation currency as follows:

- (a) Assets and liabilities for each balance sheet presented are translated at the closing rate at the balance sheet date;
- (b) Income and expenses for each income statement are translated at average exchange rates; and
- (c) All resulting exchange differences arising from the above translation and exchange differences arising from a monetary item that forms part of the Group's net investment in a foreign operation are recognised as a separate component of equity. On disposal of a foreign operation, the cumulative amount of the exchange differences deferred in the separate component of equity relating to that foreign operation is recognised in profit or loss when the gain or loss on disposal is recognised.

### (n) Impairment of other assets

At each balance sheet date, the Group reviews internal and external sources of information to determine whether its property, plant and equipment and intangible assets with finite useful lives have suffered an impairment loss or impairment loss previously recognised no longer exists or may be reduced. If any such indication exists, the recoverable amount of the asset is estimated, based on the higher of its fair value less costs to sell and value in use. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the smallest group of assets that generates cash flows independently (i.e. cash-generating unit).

If the recoverable amount of an asset or a cash-generating unit is estimated to be less than its carrying amount, the carrying amount of the asset or cash-generating unit is reduced to its recoverable amount. Impairment losses are recognised as an expense immediately.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (n) Impairment of other assets *(Continued)*

A reversal of impairment loss is limited to the carrying amount of the asset or cash-generating unit that would have been determined had no impairment loss been recognised in prior years. Reversal of impairment loss is recognised as income immediately.

### (o) Borrowing costs

Borrowing costs incurred, net of any investment income on the temporary investment of the specific borrowings, that are directly attributable to the acquisition, construction or production of qualifying assets, i.e. assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets. Capitalisation of such borrowing costs ceases when the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

### (p) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and when a reliable estimate of the amount of obligation can be made. Expenditures for which a provision has been recognised are charged against the related provision in the year in which the expenditures are incurred. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. Where the effect of the time value of money is material, the amount provided is the present value of the expenditures expected to be required to settle the obligation. Where the Group expects a provision to be reimbursed, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain.

### (q) Leases

Leases which do not transfer substantially all the risks and rewards of ownership to the Group are classified as operating leases. Rentals payable and receivable under operating leases are charged or credited to profit or loss statement on a straight-line basis over the term of the relevant lease.

### (r) Employee benefits

#### *Short term employee benefits*

Salaries, annual bonuses and paid annual leave are accrued in the year in which the associated services are rendered by employees. Where payment or settlement is deferred and the effect would be material, these amounts are stated at their present values.

#### *Defined contribution plans*

The obligations for contributions to Mandatory Provident Fund Scheme (the "MPF") in Hong Kong are recognised as an expense in profit or loss as incurred. The assets of the scheme are held separately from those of the Group in an independently administered fund.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (r) Employee benefits *(Continued)*

#### *Defined contribution plans (Continued)*

Contributions to the state-managed retirement benefit schemes in jurisdictions other than Hong Kong, which are calculated on certain percentages of the applicable payroll costs, are charged as expense when employees have rendered services entitling them to the contributions.

### (s) Share-based payment transactions

#### *Equity-settled transactions*

The Group's employees, including the Directors, receive remuneration in the form of share-based payment transactions, whereby the employees rendered services in exchange for shares or rights over shares. The cost of such transactions with employees is measured by reference to the fair value of the equity instruments at the grant date. The fair value of share options granted to employees is recognised as an employee cost with a corresponding increase in a reserve within equity. The fair value is determined using the Black-Scholes Option Model, taking into account the terms and conditions of the transactions, other than conditions linked to the price of the shares of the Company ("market conditions").

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the year in which the vesting conditions are to be fulfilled, ending on the date on which the relevant employees become fully entitled to the award ("vesting date"). During the vesting period, the number of share options that is expected to vest ultimately is reviewed. Any adjustment to the cumulative fair value recognised in prior years is charged/credited to the profit or loss for the year of the review, with a corresponding adjustment to the reserve within equity.

At the time when the share options are exercised, the amount previously recognised in share options reserve will be transferred to share premium. When the share options are forfeited after the vesting date or are still not exercised at the expiry date, the amount previously recognised in share options reserve will be transferred to retained profits.

### (t) Taxation

The charge for current income tax is based on the results for the year as adjusted for items that are non-assessable or disallowed. It is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is provided, using the liability method, on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, any deferred tax arising from initial recognition of other asset or liability in a transaction other than a business combination that at the time of the transaction affects neither the accounting profit nor taxable profit or loss is not recognised.

The deferred tax liabilities and assets are measured at the tax rates that are expected to apply to the period when the asset is recovered or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date.

# Notes to the Financial Statements

## 2. PRINCIPAL ACCOUNTING POLICIES *(Continued)*

### (t) Taxation *(Continued)*

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences, tax losses and credits can be utilised.

Deferred tax is provided on temporary differences arising on investment in subsidiaries, except where the timing of the reversal of the temporary differences is controlled by the Group and it is probable that the temporary differences will not reverse in the foreseeable future.

### (u) Related parties

A party is related to the Group if:

- (a) directly, or indirectly through one or more intermediaries, the party controls, is controlled by, or is under common control with, the Group; or has an interest in the Group that gives it significant influence over the Group; or has joint control over the Group;
- (b) the party is an associate of the Group;
- (c) the party is a joint venture in which the Group is a venturer;
- (d) the party is a member of the key management personnel of the Group;
- (e) the party is a close member of the family of any individual referred to in (a) or (d);
- (f) the party is an entity that is controlled, jointly controlled or significantly influenced by or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (d) or (e); or
- (g) the party is a post-employment benefit plan for the benefit of employees of the Group, or of any entity that is a related party of the Group.

### (v) Segment reporting

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

# Notes to the Financial Statements

## 3. FUTURE CHANGES IN HKFRSs

At the date of authorisation of these financial statements, the HKICPA has issued the following new/revised HKFRSs that are not yet effective for the current year, which the Group has not early adopted.

Amendments to HKAS 32	<i>Classification of Rights Issues</i> <sup>1</sup>
Amendments to HKFRS 1 (Revised)	<i>Limited Exemption from Comparative HKFRS 7 Disclosures for First-time Adopters</i> <sup>2</sup>
HK(IFRIC) – Int 19	<i>Extinguishing Financial Liabilities with Equity Instruments</i> <sup>2</sup>
HKAS 24 (Revised)	<i>Related Party Disclosures</i> <sup>3</sup>
Amendments to HK(IFRIC) – Int 14	<i>Prepayments of a Minimum Funding Requirement</i> <sup>3</sup>
Improvements to HKFRSs 2010	<i>Improvements to HKFRSs 2010</i> <sup>4</sup>
Amendments to HKFRS 7	<i>Disclosures – Transfer of Financial Assets</i> <sup>5</sup>
Amendments to HKAS 12	<i>Deferred Tax: Recovery of Underlying Assets</i> <sup>6</sup>
HKFRS 9	<i>Financial Instruments</i> <sup>7</sup>

<sup>1</sup> Effective for annual periods beginning on or after 1 February 2010

<sup>2</sup> Effective for annual periods beginning on or after 1 July 2010

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2011

<sup>4</sup> Effective for annual periods beginning on or after 1 July 2010 or 1 January 2011, as appropriate

<sup>5</sup> Effective for annual periods beginning on or after 1 July 2011

<sup>6</sup> Effective for annual periods beginning on or after 1 January 2012

<sup>7</sup> Effective for annual periods beginning on or after 1 January 2013

The Group is in the process of assessing the possible impact on the future adoption of these new/revised HKFRSs, but are not yet in a position to reasonably estimate their impact on the Group's consolidated financial statements.

## 4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates, assumptions concerning the future and judgements are made by the management in the preparation of the financial statements. They affect the application of the Group's accounting policies, reported amounts of assets, liabilities, income and expenses, and disclosures made. They are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances.

### Fair value of available-for-sale financial assets

As described in notes 6(f) and 21 to the consolidated financial statements, the valuation techniques applied by the external valuers for the available-for-sale financial assets have been agreed with the directors. The directors use their judgment to determine whether valuation techniques applied are appropriate to the circumstances of the Group.

### Useful lives of property, plant and equipment

The Group's management determines the estimated useful lives for its property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions.

### Allowance for inventories

The Group's management reviews the condition of inventories at each balance sheet date, and makes allowance for inventories that are identified as obsolete, slow-moving or no longer recoverable. The Group carries out the inventory review on a product-by-product basis and makes allowances by reference to the latest market prices and current market conditions.

# Notes to the Financial Statements

## 4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS *(Continued)*

### Impairment in respect of trade receivables

The provisioning policy for impairment in respect of trade receivables of the Group is based on the evaluation by management of the collectability of the accounts receivable. A considerable amount of judgment is required in assessing the ultimate realisation of these receivables, including assessing the current creditworthiness and the past collection history of each customer. If the financial conditions of these customers were to deteriorate, resulting in an impairment of their ability to make payments, additional impairment will be required. At the balance sheet date, the carrying amount of receivables after provision for impairment amounted to approximately HK\$89,956,000 (2009: approximately HK\$31,307,000).

### Impairment of investment in subsidiaries

The Company assesses annually if investment in subsidiaries has suffered any impairment in accordance with HKAS 36 and follows the guidance of HKAS 39 in determining whether amounts due from these entities are impaired. Details of the approach are stated in the respective accounting policies. The assessment requires an estimation of future cash flows, including expected dividends, from the assets and the selection of appropriate discount rates. Future changes in financial performance and position of these entities would affect the estimation of impairment loss and lead to the adjustments of their carrying amounts.

## 5. CAPITAL MANAGEMENT

The Group's primary objectives when managing capital are to safeguard the Group's ability to continue as a going concern while maximising the return to stakeholders through the optimisation of the debt and equity balance.

The Group regularly reviews and manages its capital structure to maintain a balance between the higher shareholder returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position, and makes adjustments to the capital structure in light of changes in economic conditions.

Meanwhile, the Group monitors its capital structure on the basis of a target gearing ratio determined as the proportion of debt to equity. For this purpose the Group defines debt as total debt (which includes interest-bearing loans and borrowings, trade and other payables).

In 2010, the Group's strategy, which was unchanged from 2009, was to maintain the gearing ratio at the lower end of the range 5% to 10%. In order to maintain or adjust the ratio, the Group may adjust the amount of dividends paid to shareholders, issue new shares, return capital to shareholders, raise new debt financing or sell assets to reduce debt.

# Notes to the Financial Statements

## 5. CAPITAL MANAGEMENT *(Continued)*

The debt-to-equity ratio at 31st December 2010 and 2009 was as follows:

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

# Notes to the Financial Statements

## 6. FINANCIAL INSTRUMENTS

Exposure to credit, liquidity, interest rate and currency risks arises in the normal course of the Group's business. The Group is also exposed to equity price risk arising from its equity investments in other entities and movements in its own equity share price.

These risks are limited by the Group's financial management policies and practices described below.

### (a) Credit risk

#### *The Group*

The Group's credit risk is primarily attributable to trade and other receivables. Management has a credit policy in place and the exposures to these credit risks are monitored on an ongoing basis.

In respect of trade and other receivables, individual credit evaluations are performed on all customers requiring credit over a certain amount. These evaluations focus on the customer's past history of making payments when due and current ability to pay, and take into account information specific to the customer as well as pertaining to the economic environment in which the customer operates. Debtors with balances that are more than three months past due are requested to settle all outstanding balances before any further credit is granted. Normally, the Group does not obtain collateral from customers.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The default risk of the industry and country in which customers operate also has an influence on credit risk but to a lesser extent. At the balance sheet date, the Group has a concentration of credit risk as 61.2% (2009: 23.9%) and 78.9% (2009: 41.1%) of the total trade and other receivables was due from the Group's largest customer and the five largest customers respectively within the business segment.

In addition, 100% (2009: 100%) of the dividend receivables was due from Shenzhen Jiangnan Industrial Development Co., Ltd ("JI") as mentioned in note 30.

The maximum exposure to credit risk without taking account of any collateral held is represented by the carrying amount of each financial asset in the balance sheet after deducting any impairment allowance. The Group does not provide any guarantees which would expose the Group or the Company to credit risk.

Further quantitative disclosures in respect of the Group's exposure to credit risk arising from trade and other receivables are set out in note 24.

#### *The Company*

The Company's credit risk is primarily attributable to amounts due from subsidiaries. As at 31st December 2010, the Company had a concentration of risk as 53.0% (2009: 52.6%) and 99.8% (2009: 98.5%) of the total amount due from the Company's largest subsidiary and three largest subsidiaries respectively.

### (b) Liquidity risk

Individual operating entities within the Group are responsible for their own cash management, including the short term investment of cash surpluses and the raising of loans to cover expected cash demands, subject to approval by the Company's board when the borrowings exceed certain predetermined levels of authority. The Group's policy is to regularly monitor its liquidity requirements and its compliance with lending covenants, to ensure that it maintains sufficient reserves of cash and readily realisable marketable securities and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

The Group has unutilised borrowing facilities of approximately HK\$73,425,000 (2009: approximately HK\$66,469,000) as of the balance sheet date to meet the liquidity needs.

# Notes to the Financial Statements

## 6. FINANCIAL INSTRUMENTS *(Continued)*

### (b) Liquidity risk *(Continued)*

The following table details the remaining contractual maturities at the balance sheet date of the Group's and the Company's non-derivative financial liabilities which are based on contractual undiscounted cash flows (including interest payments computed using contractual rates or, if floating, based on rates current at the balance sheet date) and the earliest date the Group and the Company can be required to pay:

Specifically, bank loans with a repayment on demand clause are included in the earliest period regardless of the probability of the banks choosing to exercise their rights within one year after the reporting date. The maturity analysis for other non-derivative financial liabilities is prepared based on the scheduled repayment dates.

## 6. FINANCIAL INSTRUMENTS *(Continued)*

### (b) Liquidity risk *(Continued)*

The amounts repayable under loan agreements that include a clause that gives lenders the unconditional right to call loans at any time are classified under the “within one year or on demand” bracket. In this regard, bank loans of approximately HK\$14,259,000 (2009: approximately HK\$15,359,000) (see note 26) as at the balance sheet date have been so classified even though the Directors do not expect that lenders would exercise their rights to demand repayment and thus these borrowings (including the aggregate principal and interest cash outflows) would be repaid according to the following schedule as set out in the loan agreements:

	Group	
	2010 HK\$'000	2009 HK\$'000
<b>Bank loans with a repayment on demand clause</b>		
Within one year	1,472	1,472
More than one year but less than two years	1,472	1,472
More than two years but less than five years	4,416	4,416
Over five years	9,284	10,756
	<b>16,644</b>	<b>18,116</b>

### (c) Interest rate risk

The Group's exposure to market risk for changes in interest rates relates primarily to the Group's secured interest-bearing borrowings and bank deposits.

At the balance sheet date, if interest rates had been 100 basis points higher or lower (but on condition that interest rate would not fall below zero) and all other variables were held constant, the Group's net profit would be decreased by approximately HK\$9,000 or increased by approximately HK\$452,000 respectively (2009: net loss would be decreased by approximately HK\$157,000 or increased by approximately HK\$256,000 respectively).

The sensitivity analysis above has been determined assuming that the change in interest rates had occurred at the balance sheet date and had been applied to the exposure to interest rate risk for non-derivative financial instruments in existence at that date. The 100 basis points increase or decrease represents management's assessment of a reasonably possible change in interest rates over the period until the next annual balance sheet date. The analysis is performed on the same basis for 2009.

## 6. FINANCIAL INSTRUMENTS *(Continued)*

### (d) Currency risk

The Group has transactional currency exposure. Such exposure arises from trading transactions denominated in a currency other than the functional currency of an operating unit to which they relate. The group's exposure to foreign currency risk principally arises from changes in exchange rate of United States dollars against Hong Kong dollars. Management considers that the Group has limited exposure to foreign currency risk since the relevant exchange rate has remained relatively stable. The Group has no significant foreign currency risk in its PRC operations as the carrying amounts of financial assets and liabilities are denominated in RMB.

### (e) Equity price risk

The Group is exposed to price risk arising from securities investments classified as available-for-sale financial assets and financial assets at fair value through profit or loss (see notes 21 and 22).

At the balance sheet date, if the quoted market price had been 20% higher/lower while all other variables were held constant, the Group's net profit would be increased/decreased by approximately HK\$3,008,000 (2009: *net loss would be decreased/increased by approximately HK\$1,276,000*) due to change in the fair value of financial assets at fair value through profit or loss. Investment revaluation reserves would be increased/decreased by approximately HK\$612,405,000 (2009: *approximately HK\$481,052,000*) as a result of changes in fair value of available-for-sale investments. The Group's sensitivity to equity price has not changed significantly from the prior year.

The sensitivity analysis has been determined assuming that the reasonably possible changes in the stock market index or other relevant risk variables had occurred at the balance sheet date and had been applied to the exposure to equity price risk in existence at that date. It is also assumed that the fair values of the Group's investments would change in accordance with the historical correlation with the relevant stock market index or the relevant risk variables, that none of the Group's securities investments would be considered impaired as a result of a reasonably possible decrease in the relevant stock market index or other relevant risk variables, and that all other variables remain constant. The stated changes represent management's assessment of reasonably possible changes in the relevant stock market index or the relevant risk variables over the period until the next annual balance sheet date. The analysis is performed on the same basis for 2009.

## 6. FINANCIAL INSTRUMENTS *(Continued)*

### (f) Fair value

In the opinion of the Directors, the carrying amounts of financial assets and liabilities approximate their fair values.

The following presents the carrying value of financial instruments measured at fair value at 31st December 2010 across the three levels of the fair value hierarchy defined in HKFRS 7, Financial Instruments: Disclosures, with the fair value of each financial instrument categorised in its entirety based on the lowest level of input that is significant to that fair value measurement. The levels are defined as follows:

- Level 1 (highest level): fair values measured using quoted prices (unadjusted) in active markets for identical financial instruments;
- Level 2: fair values measured using quoted prices in active markets for similar financial instruments, or using valuation techniques in which all significant inputs are directly or indirectly based on observable market data; and
- Level 3 (lowest level): fair values measured using valuation techniques in which any significant input is not based on observable market data.

#### *Assets measured at fair value*

	31st December			
	2010 HK\$'000	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000
Financial assets at fair value through profit or loss <i>(note 22)</i>	15,038	15,038	–	–
Available-for-sale financial assets <i>(note 21)</i>	3,062,027	–	–	3,062,027

	31st December			
	2009 HK\$'000	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000
Financial assets at fair value through profit or loss <i>(note 22)</i>	6,378	6,378	–	–
Available-for-sale financial assets <i>(note 21)</i>	2,405,260	–	–	2,405,260

During the year ended 31st December 2010, there were no transfers between Level 1 and Level 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements. The only movement in the Level 3 equity shares since 1st January 2010, excluding the effect of the exchange realignment, was a fair value increase of approximately HK\$573,096,000 (2009: approximately HK\$1,275,063,000) which has been recorded in other comprehensive income.

### (f) Fair value *(Continued)*

#### Assets measured at fair value based on Level 3

Fair value measurement at 31st December 2010:

Description	Available-for-sale financial assets	
	2010 HK\$'000	2009 HK\$'000
Opening balance	2,405,260	1,128,403
In other comprehensive income		
Increase in fair value	573,096	1,275,063
Exchange realignment	83,671	1,794
Closing balance	3,062,027	2,405,260
Total gains or losses for the year included in profit or loss for assets held at the end of the balance sheet date	–	–

Significant assumptions used in determining fair value of available-for-sale financial assets:

Basis of determining fair value of the available-for-sale financial assets has been detailed in note 21. In particular, the market value of A shares of Ping An Insurance (Group) Company of China Limited ("Ping An Shares") as of the balance sheet date of RMB56.16 (equivalent to HK\$66.00) (2009: RMB55.09 (equivalent to HK\$62.57)) per share has been reduced by RMB5.67 (equivalent to HK\$6.66) (2009: RMB14.14 (equivalent to HK\$16.06)) per share because of the lack of marketability during the freezing order as detailed in note 30. Should the reduction in market value of Ping An Shares for the lack of marketability be 10% higher/lower while all the other variables were held constant, the carrying amount of the shares would be decreased/increased by approximately HK\$33,983,000 (2009: approximately HK\$81,901,000).

## 7. SEGMENT INFORMATION

For management purposes, the current major operating segments of the Group are information home appliances, investing and trading.

The information home appliances segment is principally engaged in manufacture, sales and distribution of information home appliances and complementary products to consumer markets.

The investing segment is principally engaged in investing in available-for-sale financial assets and trading of securities.

The trading segment is principally engaged in selling electronic components, plastic and miscellaneous products.

Other operations of the Group mainly comprise the leasing out of properties.

For the purpose of assessing the performance of the operating segments and allocating resources between segments, the executive directors assess segment profit or loss before income tax without allocation of finance costs, changes in fair value of investment properties, directors' emoluments, head office staff salaries, legal and professional fees and other administrative costs and the basis of preparing such information is consistent with that of the consolidated financial statements.

All assets are allocated to reportable segments other than head office bank balances and other unallocated financial and corporate assets which are managed on a group basis. All liabilities are allocated to reportable segments other than unallocated head office and corporate liabilities which are managed on a group basis.

Inter-segment sales transactions are charged at prevailing market rates.

## 7. SEGMENT INFORMATION *(Continued)*

### Geographical information

The Group operates in two principal geographical areas: the People's Republic of China (other than Hong Kong and Macau) (the "PRC") and Hong Kong.

The following table sets out information about the geographical location of (i) the Group's revenue from external customers; and (ii) the Group's non-current assets other than available-for-sale financial assets. The geographical location of customers is based on the location at which the services were provided or the goods were delivered. The geographical location of the non-current assets is based on the physical location of the assets.

	Revenue from external customers		Non-current assets	
	2010 HK\$'000	2009 HK\$'000	2010 HK\$'000	2009 HK\$'000
The PRC	200,624	117,253	104,615	115,424

Overseas markets	80,675	24,957	–	–
	<b>335,099</b>	167,673	<b>141,064</b>	147,558

In addition to the information disclosed above, the Group generated revenue and other income from information home appliances segment of approximately HK\$973,000 (2009: HK\$Nil) and approximately HK\$1,411,000 (2009: HK\$Nil) in the PRC and Hong Kong respectively, and the Group generated revenue and other income from investing segment of approximately HK\$25,949,000 (2009: approximately HK\$8,727,000) and approximately HK\$1,087,000 (2009: approximately HK\$2,811,000) in the PRC and Hong Kong respectively.

The Group also generated revenue and other income from trading segment of approximately HK\$180,000 (2009: HK\$Nil) in the PRC, and the Group generated revenue and other income from other operations segment of approximately HK\$1,148,000 (2009: approximately HK\$348,000) and approximately HK\$1,200,000 (2009: approximately HK\$1,266,000) in the PRC and Hong Kong respectively.

### Information about major customers

Revenues from external customers contributing over 10% of the total revenue from the Group's information home appliances segment are as follows:

	2010 HK\$'000	2009 HK\$'000
Customer A	191,426	114,744

<b>Total for 2009</b>	<b>210</b>	<b>1,967</b>	<b>61</b>	<b>2,238</b>

During the year 2010 and 2009, no emolument was paid by the Group to any Director as an inducement to join or upon joining the Group or as compensation for loss of office. None of the Directors has waived any emolument during the year.

# Notes to the Financial Statements

## 11. INDIVIDUALS WITH HIGHEST EMOLUMENTS

During the year, two Directors (2009: four) are included in the five highest paid individuals of the Group. Details of Directors' emoluments are set out in note 10 above. The emoluments of the remaining three (2009: one) highest paid individuals, who are employees of the Group, are as follows:

	2010 HK\$'000	2009 HK\$'000
Basic salaries, allowances and other benefits in kind	1,738	636
Retirement benefits scheme contributions	91	12
	<b>1,829</b>	648

The emoluments of each of the above highest paid individuals for both years were less than HK\$1,000,000.

## 12. FINANCE COSTS

	2010 HK\$'000	2009 HK\$'000
Interest on bank loans wholly repayable within five years	1,981	484
Interest on bank loans wholly repayable over five years	372	368
Total borrowing costs	<b>2,353</b>	852

The analysis shows the finance costs of bank loans, including term loans which contain a repayment on demand clause, in accordance with the agreed scheduled repayment dates set out in the loan agreements. For the year ended 31st December 2010 and 2009, the interest on bank loans which contain a repayment on demand clause amounted to approximately HK\$372,000 and HK\$368,000 respectively.

## 13. TAXATION

The taxation charged to profit or loss represents:

	2010 HK\$'000	2009 HK\$'000
PRC enterprise income tax	190	–
Deferred taxation		
Origination and reversal of temporary difference	(252)	(245)
Benefit of tax losses recognised	252	245
	–	–
Charge for the year	190	–

No Hong Kong Profits Tax has been provided for 2010 and 2009 as the Group did not have any assessable profit from Hong Kong for both years.

The income tax provision in respect of operations in the PRC is calculated at the applicable tax rate of 25% on the estimated assessable profits for the year based on existing legislation, interpretations and practices in respect thereof. No PRC enterprise income tax has been provided for 2009 as the Group did not have any assessable profit from the PRC.

Reconciliation between tax expenses and accounting profit/(loss) at applicable tax rates:

	2010 HK\$'000	2009 HK\$'000
Profit/(Loss) before taxation	14,999	(24,118)
Tax at a weighted average rate of 24.1% (2009: 23.8%) applicable to the jurisdictions concerned	3,612	(5,736)

### Unrecognised deferred tax assets arising from

	2010 HK\$'000	2009 HK\$'000
Deductible temporary differences	57,244	35,572
Tax losses	103,861	166,884
	161,105	202,456

At 31st December 2010, the Group had unrecognised deferred tax assets of approximately HK\$38,427,000 (2009: approximately HK\$46,379,000) in respect of the tax losses and other temporary differences. As it is not probable that taxable profits will be available against which the deductible temporary differences and the unused tax losses of the Group can be utilised, deferred tax assets have not been recognised. The expiry of unrecognised tax losses are as follows:

	2010 HK\$'000	2009 HK\$'000
Tax losses without expiry date	18,275	42,632
Tax losses expiring on 31st December 2015	6,276	–

Tax losses expiring on 31st December 2013	21,280	15,328
Tax losses expiring on 31st December 2012	19,749	31,475
Tax losses expiring on 31st December 2011	3,213	15,820
Tax losses expiring on 31st December 2010	–	24,242
	104,796	166,884

The profits earned by PRC subsidiaries from 1st January 2008 onwards would be subject to withholding tax if they are distributed. The estimated withholding tax effects on the distribution of retained profits of these PRC subsidiaries were approximately HK\$4,465,000 (2009: approximately HK\$1,164,000). In the opinion of the Directors, all undistributed profits are expected to be retained in the PRC subsidiaries and not to be remitted out of the PRC in the foreseeable future. Accordingly, no provision for deferred tax have been made.

## 14. PROFIT/(LOSS) ATTRIBUTABLE TO OWNERS OF THE PARENT AND DIVIDENDS

The consolidated profit/(loss) attributable to owners of the parent includes a profit of approximately HK\$20,213,000 (2009: a loss of approximately HK\$7,064,000) which has been dealt with in the financial statements of the Company.

No dividend was paid or proposed during the year and up to the date of these consolidated financial statements (2009: HK\$Nil).

Weighted average number of ordinary shares for diluted earnings/(loss) per share	<b>1,658,595</b>	1,629,125
Earnings/(Loss) per share:		
– Basic	<b>0.90 cent</b>	(1.48) cents
– Diluted (Note)	<b>0.89 cent</b>	(1.48) cents

Note: The calculation of diluted earnings per share for the year ended 31st December 2010 is based on the profit attributable to owners of the parent of approximately HK\$14,809,000, and the weighted average number of shares issued during the year of approximately 1,643,189,000 after adjusting for the number of dilutive potential ordinary shares arising from the outstanding share options granted under the Company's share option scheme.

Diluted loss per share is the same as the basic loss per share for the year ended 31st December 2009 because the effect of potential ordinary share is anti-dilutive.

## 21. AVAILABLE-FOR-SALE FINANCIAL ASSETS *(Continued)*

Note:

Pursuant to an agreement dated 10th August 2004, the Group through its wholly-owned subsidiary Beijing Golden Yuxing Electronics and Technology Company Limited (“Golden Yuxing”) acquired a 10.435% equity interest in JI, a company which holds, among others, Ping An Shares which was listed on the Shanghai Stock Exchange in the PRC on 1st March 2007, for a consideration of RMB217,000,000 (equivalent to approximately HK\$204,274,000) (the “Acquisition”) from Sanshui Jianlibao Health Industry Investment Company Limited (“SJHII”), a company in which Mr. Zhu Wei Sha, a Director of the Company, had an effective 8.1% equity interest. Mr. Zhu Wei Sha ceased to have any equity interest in SJHII after November 2004. The said consideration was determined with reference to the value of 51,000,000 Ping An Shares held directly by JI, a company whose principal assets were 479,117,788 Ping An Shares (subsequently reduced to 139,112,886 Ping An Shares as at 31st December 2007).

The purpose of the Acquisition was to enable the Group to acquire a 10.435% economic benefits associated with the 51,000,000 Ping An Shares through a share management agreement entered into amongst Golden Yuxing, JI and other shareholders of JI at the time, specifically to enable the Group to receive its share dividend attributable to the 51,000,000 Ping An Shares and to use shares as security to support its borrowings.

In 2006, Golden Yuxing further acquired 15.175% and 11.05% equity interest in JI for considerations of RMBNil and RMB1 respectively pursuant to a share capital reorganisation of JI and had since held a total of 36.66% equity interest in JI, representing an equivalent interest in 51,000,000 Ping An Shares. In the opinion of the Directors, Golden Yuxing has no significant influence over JI as the other 63.34% equity interest is controlled by another shareholder, who also manages all significant and day-to-day operations of JI.

On 24th October 2007, a moratorium on the 36.66% equity interest in JI, and hence on its undertaking and all assets including the 51,000,000 Ping An Shares, currently held by Golden Yuxing was imposed by the People’s Court of Beijing in relation to the repayment arrangement between Golden Yuxing and Sheng Bang Qiang Dian Electronics (Shenzhen) Company Limited (“Shenzhen Sheng Bang”), both of which are wholly-owned subsidiaries of the Group. The moratorium will be expired on 21st October 2011.

The Intermediate People’s Court of Foshan, Guangdong Province (the “Intermediate Court of Foshan”) imposed two standby moratoriums on 24th October 2007 and 30th October 2007 respectively on the 4.6958% and 11.8371% equity interest in JI held by Golden Yuxing. However, the Directors were not aware of the background and reasons for these two standby moratoriums, as further detailed in the Company’s announcement on 6th November 2007.

Following the expiration of the above mentioned share management agreement, Golden Yuxing entered into a bilateral agreement (the “Agreement”) with another shareholder of JI who holds 63.34% equity interest in JI on 15th September 2009, under which both parties agreed on rights to the interests in Ping An Shares attributed to each of Golden Yuxing and the other shareholder of JI, including rights to profit sharing, share placement rights, the rights to pledge shares and use them for guarantee, voting rights and methods for equity transfers in future, etc. According to the Agreement, Golden Yuxing holds the equity interest in 51,000,000 Ping An Shares through JI, while Golden Yuxing has no significant influence over JI’s financial and operating policy decisions.

As at 31st December 2010, the equity interest in JI held by the Group was revalued by Vigers, to approximately RMB2,605,478,000 (equivalent to approximately HK\$3,062,027,000) (2009: approximately RMB2,117,831,000 (equivalent to approximately HK\$2,405,260,000)). The valuation was arrived at by reference to the PRC audited financial statements of JI as at 31st December 2010 and adjusted by the market value of 51,000,000 Ping An Shares as at 31st December 2010. In determining the market value of Ping An Shares, impact on the freezing order as detailed in note 30 has been taken into consideration. The Group recorded a revaluation surplus on the interests in JI of approximately RMB487,647,000 (equivalent to approximately HK\$573,096,000) (2009: approximately RMB1,122,693,000 (equivalent to approximately HK\$1,275,063,000)) as at 31st December 2010.

### 24. TRADE AND OTHER RECEIVABLES *(Continued)*

The Group grants its trade customers an average credit period of 30 to 120 days (2009: 30 to 120 days). The ageing analysis by delivery date of trade and bills receivables (net of impairment) at the balance sheet date is as follows:

	Group	
	2010 HK\$'000	2009 HK\$'000
0-30 days	48,219	12,794

61-90 days	8,457	989
Over 90 days	4,214	3,528
	<b>89,956</b>	31,307

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivable directly.

The movement in the impairment in respect of trade receivables during the year is as follows:

	Group	
	2010 HK\$'000	2009 HK\$'000

Past due but not impaired	<b>14,216</b>	4,597
	<b>89,956</b>	31,307

Receivables that were neither past due nor impaired relate to wide range of customers for whom there was no history of default.

Receivables that were past due but not impaired relate to a number of independent customers that have a good track record with the Group. Based on past experience, management believes that no impairment is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

## 28. RESERVES (Continued)

Notes:

(a) *Issue of shares under share option scheme*

During the year ended 31st December 2010, options were exercised to subscribe for 3,928,000 (2009: 1,464,000) ordinary shares in the Company at a consideration of approximately HK\$1,169,000 (2009: approximately HK\$436,000) of which approximately HK\$98,000 (2009: approximately HK\$37,000) was credited to share capital and the balance of approximately HK\$1,071,000 (2009: approximately HK\$399,000) was credited to the share premium account. Approximately HK\$353,000 (2009: approximately HK\$99,000) has been transferred from the share option reserves to the share premium account in accordance with policy set out in note 2(s).

(b) *Issue of new shares upon a private placing*

Pursuant to subscription agreement dated 5th August 2010, an independent subscriber subscribed 100 million new shares at a price of HK\$0.30 per share ("Subscription"). Total proceeds of the Subscription amounted to approximately HK\$30,000,000, of which HK\$2,500,000 was credited to share capital and the balance of HK\$27,500,000 was credited to the share premium account. The proceeds will be used as general working capital for the Group.

(c) *Nature and purpose of reserves*

(i) Share premium

The application of the share premium account is governed by Section 46(2) of the Companies Act 1981 of Bermuda (as amended).

(ii) Statutory reserves

Statutory reserves comprise statutory surplus reserves fund of the subsidiaries in the PRC and form part of shareholders' fund. According to the Articles of Association of certain subsidiaries, the subsidiaries are required to transfer 10% of the profit after tax to the statutory surplus reserves fund until the fund balance reaches 50% of the registered capital. The transfer to the funds must be made before distributing dividends to shareholders.

No transfer of statutory reserves has been made for the year (2009: HK\$Nil).

(iii) Contributed surplus

The contributed surplus represents the difference between the underlying net assets of the subsidiaries which were acquired by the Company and the nominal amount of shares issued by the Company for each acquisition at the time of the Group reorganisation.

Under the Companies Act 1981 of Bermuda (as amended), the contributed surplus of the Company is available for distribution. However, the Company cannot declare or pay a dividend or make a distribution out of contributed surplus if:

- (a) it is, or would after the payment be, unable to pay its liabilities as they become due; or
- (b) the realisable value of its assets would thereby be less than the aggregate of its liabilities and its issued share capital and share premium accounts.

## 28. RESERVES *(Continued)*

*Notes: (Continued)*

(c) *Nature and purpose of reserves (Continued)*

(iv) Share option reserves

The share option reserves comprise the fair value of the actual or estimated number of unexercised share options granted to employees of the Group recognised in accordance with the accounting policy adopted for share-based payments.

(v) Investment revaluation reserves

The investment revaluation reserves comprise the cumulative net change in the fair value of available-for-sale securities held at the balance sheet date.

(vi) Translation reserves

The translation reserves comprise all foreign exchange differences arising from the translation of the financial statements of foreign operations.

At 31st December 2010, the total contributed surplus and retained profits of approximately HK\$532,448,000 (2009: approximately HK\$512,235,000) is available for distribution to owners of the parent.

## 29. PLEDGE OF ASSETS

At 31st December 2010, the Group had pledged the following assets to secure the banking facilities:

- (a) Investment properties of the Group with carrying value of HK\$33,120,000 (2009: HK\$28,470,000);
- (b) Prepaid lease payments, buildings and leasehold improvements of the Group with carrying values of approximately HK\$13,604,000 (2009: approximately HK\$7,817,000), approximately HK\$69,155,000 (2009: approximately HK\$50,555,000) and approximately HK\$336,000 (2009: approximately HK\$346,000);
- (c) The trade receivables from third parties of the Group with carrying value of approximately HK\$Nil (2009: approximately HK\$7,208,000);
- (d) A leasehold property of the Group with carrying value of approximately HK\$2,831,000 (2009: approximately HK\$2,931,000); and
- (e) Bank deposit of the Group with carrying value of approximately HK\$8,680,000 (2009: approximately HK\$13,205,000).

## 30. CONTINGENT LIABILITIES

In December 2008, Guangdong Jianlibao Group Company Limited (“JLB Group”) initiated proceedings against (1) Mr. Zhang Hai, former chairman and chief executive officer of JLB Group, and the controlling shareholders, actual controller, directors, supervisors, senior management of Foshan Zhixing Technology Co., Limited (“Foshan Zhixing”) for infringing the interest of JLB Group; (2) Mr. Zhang Hai and the controlling shareholders, actual controller, directors, supervisors, senior management of Shenzhen Sheng Bang for infringing the interest of JLB Group; and (3) Mr. Zhang Hai and the controlling shareholders, actual controller, directors, supervisors, senior management of Golden Yuxing for infringing the interest of JLB Group (collectively the “Actions”). Foshan Zhixing, Shenzhen Sheng Bang and Golden Yuxing are wholly-owned subsidiaries of the Group.

The People’s Court of Sanshui District, Foshan City, Guangdong Province (the “Court of Sanshui”) issued judgments ((2009) San Fa Min Er Chu Zi No. 38-1), ((2009) San Fa Min Er Chu Zi No. 39-1) and ((2009) San Fa Min Er Chu Zi No. 40-1) and summons dated 9th December 2008, which stated that, on application by JLB Group, the Court of Sanshui made orders of (1) freezing the bank deposits of Mr. Zhang Hai and Foshan Zhixing totaling RMB10,100,000 or sealing up and distraining its assets of such equivalent amount; (2) freezing the bank deposits of Mr. Zhang Hai and Shenzhen Sheng Bang totaling RMB40,620,000 or sealing up and distraining its assets of such equivalent amount; and (3) freezing the bank deposits of Mr. Zhang Hai and Golden Yuxing totaling RMB46,000,000 or sealing up and distraining its assets of an equivalent amount, together with a standby moratorium dated 13th January 2009 referring to Golden Yuxing’s 36.66% equity interest in JI from the Court of Sanshui. The Group has been notified in August of 2009 that the Actions have been transferred from the Court of Sanshui to the Intermediate People’s Court of Foshan, Guangdong Province (the “Intermediate Court of Foshan”).

On 20th October 2009, the Group was notified by JI that the Intermediate Court of Foshan has issued a Notice of Enforcement to JI on 4th September 2009, ordering JI to assist in freezing Golden Yuxing’s 36.66% equity interest in JI and suspending the payment of dividends attributable to Golden Yuxing in respect of its equity interest in JI for a period from 7th September 2009 to 6th September 2011 (see note 21). According to the legal opinion dated 17th March 2011 from the Group’s PRC lawyers, Golden Yuxing is entitled to receive the dividends from JI but the suspension of the dividends payment is still in force. As the above freezing order will expire on 6th September 2011, the dividend receivable from JI amounting to approximately HK\$36.0 million was classified as current asset as at 31st December 2010 (2009: approximately HK\$8.7 million was classified as non-current asset).

On 11th January 2011, the Group received five civil judgments all dated 30th December 2010 from Intermediate Court of Foshan which ruled that JLB Group was awarded damages of total approximately RMB96.2 million together with the interests and costs to be borne by defendants including Mr. Zhang Hai, Yuxing Software, Golden Yuxing, Foshan Zhixing and Shenzhen Sheng Bang. The Company has filed an appeal to the Higher People’s Court of the Guangdong Province in the PRC (the “Guangdong Higher Court”) against the said judgements in January 2011, and now such judgements have no legal effect and will be replaced by the final judgement from the appeal. In the circumstance, none of the wholly-owned subsidiaries of the Group which are named as defendants in the judgements stated above will be required to satisfy the judgements and pay the damages together with interests and costs awarded by the Intermediate Court of Foshan.

As at 31st December 2010, certain cash and bank balances of the Group with carrying value of approximately HK\$1.1 million (2009: approximately HK\$1.0 million) were frozen by the Intermediate Court of Foshan.

The Board has sought legal advice from its PRC lawyers and is of the view that the Actions are based on unsubstantiated and invalid grounds. Therefore, no provision for damages and the related interests and costs is considered necessary.

## 31. PENDING LITIGATION

In 2007, JLB Group lodged a petition with the Guangdong Higher Court to institute a civil action against Golden Yuxing and SJHII, claiming, among other matters, that the Acquisition as detailed in note 21 was invalid.

On 18th February 2008, Golden Yuxing received a notification from Guangdong Higher Court, which said that JLB Group claimed that SJHII was actually a trustee holding the shares of JI on their behalf and had entered into the share sale agreement with Golden Yuxing without JLB Group's approval or authorisation. In addition, the fact that the aggregate investment cost exceeded 50% of Golden Yuxing's net assets also violated Rule 12 of the Company Law then in force in the PRC. The share sale transaction was therefore invalid and SJHII did not have the right to transfer the legal title of the JI's shares to Golden Yuxing. JLB Group thereby demanded the reversion and return of the JI's shares from Golden Yuxing to SJHII.

On 7th January 2009, the Group received a judgment dated 23rd December 2008 from the Guangdong Higher Court which ruled that (1) the Acquisition and the registration of the transfer of the related equity interest in JI were legally valid; (2) the claim submitted by the JLB Group to invalidate the Acquisition was rejected; and (3) the counter-claim filed by Golden Yuxing with the Guangdong Higher Court in May 2008 as a result of JLB Group's claim was also rejected.

On 25th June 2009, Golden Yuxing was notified by the Supreme Court of the People's Republic of China (the "Supreme Court") that an appeal has been lodged by the JLB Group, and which was accepted by the Supreme Court.

In December 2009, the Group received the (2009) Min Er Zhong Zi No. 53 civil ruling made on 20th November 2009 from the Supreme Court which ruled that upon the hearing, with regard to the litigation, the Supreme Court was of the view that the trial judgement of the Guangdong Higher Court misapprehended the facts; and therefore ruled (1) to revoke the civil ruling issued by the Guangdong Higher Court on 23rd December 2008; and (2) to return the case to the Guangdong Higher Court for rehearing.

On 22nd June 2010, the Group received summons dated 10th June 2010 from the Guangdong Higher Court which summoned Golden Yuxing to the court to respond to hearings scheduled on 25th June 2010. The Company has instructed its PRC lawyers to respond to the hearings. As at the date of this report, no judgement for the rehearing has been received from the Guangdong Higher Court. The Board has sought legal advice from its PRC lawyers and is still of the view that the claim submitted by JLB Group is based on invalid grounds. The Group has valid evidence which sufficiently ascertain their 36.66% ownership on the equity interest in JI and therefore no provision is considered necessary.

## 32. OPERATING LEASE COMMITMENTS

### (a) The Group as lessee

At 31st December 2010, the Group had commitments for future minimum lease payments under non-cancellable operating leases which fall due as follows:

	Group	
	2010 HK\$'000	2009 HK\$'000
Within one year	2,362	3,121
In the second to fifth year inclusive	304	3,212
	<b>2,666</b>	<b>6,333</b>

Leases are negotiated for term ranging from one to three years with fixed rentals.

### (b) The Group as lessor

The properties are expected to generate rental yields of 3.6% (2009: 4.2%) on an ongoing basis.

At 31st December 2010, the Group had contracted with tenants for the following future minimum lease payments:

	Group	
	2010 HK\$'000	2009 HK\$'000
Within one year	1,915	1,939
In the second to fifth year inclusive	1,358	1,407
Later than fifth year	46	68
	<b>3,319</b>	<b>3,414</b>

## 33. SHARE OPTION SCHEME

The Company's share option scheme (the "Scheme"), which was adopted pursuant to the ordinary resolutions passed by the shareholders of the Company on 18th May 2003 for the purpose of providing incentives to certain eligible participants and unless otherwise cancelled or amended, will expire on 17th May 2013. Under the Scheme, the Directors may grant share options to eligible employees, including executive Directors, or any persons or entities who have contributed or will contribute to the growth and development of the Group, to subscribe for shares in the Company.

The Directors may, at their absolute discretion, invite any person belonging to any of the following classes of participants (the "Eligible Participants") to take up share options to subscribe for the shares of the Company:

- (i) any employee or officer (whether full time or part time, and including any executive Director) of any member of the Group or any entity in which any member of the Group holds an equity interest ("Invested Entity");
- (ii) any non-executive Director (including Independent Non-executive Director) of any member of the Group or any Invested Entity;
- (iii) any supplier of goods or services to any member of the Group or any Invested Entity;
- (iv) any customer of any member of the Group or any Invested Entity;
- (v) any person or entity that provides research, development or other technological support to any member of the Group or any Invested Entity; and
- (vi) any holder of any securities or securities convertible into any securities issued by any member of the Group or any Invested Entity,

and, for the purposes of the Scheme, the share options may be granted to any company wholly-owned by one or more such Eligible Participants.

The total number of shares in respect of which share options may be granted under the Scheme and any other schemes is not permitted to exceed 10% of the shares of the Company in issue at the date of shareholders' approval of the Scheme (the "Scheme Mandate Limit") or, if such 10% limit is refreshed, at the date of shareholders' approval of the renewal of the Scheme Mandate Limit. The maximum aggregate number of shares which may be issued upon the exercise of outstanding options granted and yet to be exercised under the Scheme and any other share option schemes must not exceed 30% of the total number of shares of the Company in issue from time to time. At the annual general meeting which was held on 26th June 2008, the Scheme Mandate Limit was refreshed and approved by the shareholders, so that the maximum number of shares which fall to be issued upon exercise of all options that may be granted by the Company would be 162,794,000 shares, representing 10% of the shares in issue as at the date of approval of the refreshment of the Scheme Mandate Limit at the annual general meeting. The number of shares in respect of which options may be granted to any Eligible Participant in any one year is not permitted to exceed 1% of the shares of the Company then in issue, without prior approval from the Company's shareholders. Each grant of share options to any Director, chief executive or substantial shareholder must be approved by Independent Non-executive Directors. Where any grant of share options to a substantial shareholder or an Independent Non-executive Director or any of their respective associates would result in the shares of the Company issued and to be issued upon exercise of options already granted and to be granted in excess of 0.1% of the Company's issued share capital and with a value in excess of HK\$5,000,000 in the 12 months period up to the date of grant, then the grant must be approved in advance by the Company's shareholders.

# Notes to the Financial Statements

## 33. SHARE OPTION SCHEME *(Continued)*

An offer of the share options shall be deemed to have been accepted by way of payment of a consideration of HK\$1.00 by the Eligible Participants per each share option within 21 days from the date of offer of the share options. A share option may be exercised in accordance with the terms of the Scheme at any time during the effective period of the Scheme to be notified by the Directors which shall not be later than 10 years from the date of grant. There is no general requirement regarding any minimum period of time a grantee must hold a share option granted to him before exercising such share option. However, the Directors may determine from time to time to impose such a requirement of such a minimum period provided that the date at the end of such minimum period of time must be earlier than (a) the date on which such share option lapses; and (b) 10 years from the date of grant of that share option. The exercise price is determined by the Directors, and will not be less than the highest of the closing price of the Company's shares on the date of grant, the average closing price of the Company's shares for the five business days immediately preceding the date of grant and the nominal value of the shares of the Company.

At 31st December 2010, the total number of shares in respect of which share options had been granted and remained outstanding under the Scheme was 119,248,000 (2009: 123,208,000) representing 6.9% (2009: 7.6%) of the shares of the Company in issue at that date.

## 33. SHARE OPTION SCHEME *(Continued)*

- (d) The cost of the options granted on 26th December 2006 and 4th September 2007 for the year ended 31st December 2010 were HK\$Nil (2009: HK\$Nil) and HK\$Nil (2009: approximately HK\$3,283,000) respectively. The cost of share options granted is estimated on the date of the grant using the Black-Scholes Option Model with the following parameters:

Date of grant	26th December 2006	4th September 2007
Number of shares issuable under options granted	104,800,000	55,200,000
Exercise price	HK\$0.2975	HK\$1.265

Expected dividend yield	2%	2%
Expected life	2.8 years to 5.8 years	3 years to 5 years

<sup>#</sup> The volatility measured of the standard deviation of expected share price returns is based on statistical analysis of daily share prices annualized for one year immediately preceding the grant date.

## 34. RETIREMENT BENEFITS SCHEME

The Group operates the MPF for all qualifying employees in Hong Kong. The assets of the MPF are held separately from those of the Group in funds under the control of trustees. The Group contributes 5% of relevant payroll costs to the MPF, which contribution is matched by employees.

The employees of the Group's subsidiaries in the PRC are members of the state-managed retirement benefits scheme operated by the government of the PRC. The subsidiaries are required to contribute certain percentage of their payroll costs to the retirement benefits scheme to fund the benefits. The only obligation of the Group with respect to the retirement benefits scheme is to make the specified contributions.

The total cost charged to profit or loss of approximately HK\$3,968,000 (2009: approximately HK\$3,146,000) represents contributions paid and payable to these schemes by the Group in respect of the current year.
