(Stock Code : 8117)

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Hong Kong Exchanges and Clearing Limited and the Stock Exchange take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

(b) Discontinued operations

During 2010, the Group started the process to dispose of its mining operations which are represented by a 12.21% equity interest in the registered paid up capital of Xin Shougang Zi Yuan Holdings Limited (新首鋼資源控股有限公司) (“Xin Shougang”) it used to held, a company established in the PRC with limited liability, and the entire equity interest in Zhong Ping Resources Holdings Limited (“Zhong Ping”), a company incorporated in the British Virgin Islands (“BVI”) and its subsidiary (“Zhong Ping Group”) (collectively the “Disposal Group”).

Xin Shougang and its subsidiary are principally engaged in mining business. The principal assets of Xin Shougang as at the date of disposal were the exclusive rights to invest in, develop and to apply for the mining rights for the mining sites with mainly iron minerals located at Yichang City, the PRC.

On 2 December 2010, the Group completed the disposal of its 12.21% equity interest in Xin Shougang, the consideration of which included a cash payment of approximately HK\$25.3 million and the transfer to the Company the entire non-voting redeemable convertible preferred shares (“CPS”) issued by the Company by Great Ocean Real Estate Limited, the sole shareholder of these shares, for repurchase and cancellation by the Company. The disposal of Xin Shougang resulted in a loss of approximately HK\$26.5 million and the repurchase and cancellation of CPS resulted in a gain of approximately HK\$10.7 million to the Group. Details of these transactions are set out in the Company’s circular and announcement dated 8 June 2010 and 2 December 2010 respectively.

On 12 November 2010, independent shareholders of the Company passed a resolution at an extraordinary general meeting to approve the deed of settlement dated 17 September 2010 executed by the Company, the joint and several liquidators of Lehman Brothers appointed by the order of the court of First Instance of Hong Kong (the “Liquidator”), Lehman Brothers Commercial Corporation Asia Limited (“Lehman Brothers”) in relation to the redemption of the 4.5% convertible bonds of the Company in the principal amount of HK\$246,250,000 issued by the Company to Lehman Brothers (the “Convertible Bonds”) and the transfer of the 100% of the issued share capital of Zhong Ping to Lehman Brothers or a party so directed by Lehman Brother (the “Deed of Settlement”).

Details of the terms of the Deed of Settlement are set out in the Company's circular and announcement dated 11 October 2010 and 12 November 2010 respectively. The Company is required to pay HK\$85 million to Lehman Brothers as partial consideration of the redemption of the Convertible Bonds.

Zhong Ping holds a 70% interest in ARIA LLC, a company incorporated in Mongolia with limited liability. ARIA LLC in turn is the owner of the mining rights with an expiry date of 10 August 2035 in the green field mining exploration project, the Mungun-Undur Polymetallic Project located in Mungun-Undur, Khentii Province, Mongolia. The Project has prospects for silver, lead, zinc and tin mineralization.

From discontinued operations

Basic and diluted loss per share for the discontinued operations is HK cents nil per share (three months ended 31 March 2010: loss of HK cents 0.04 per share), based on the loss for the period from the discontinued operations of HK\$nil (three months ended 31 March 2010: HK\$486,000) and the number of shares as detailed above for both basic and diluted loss per share.

As the convertible bonds, convertible preferred shares, share options, where applicable, outstanding during the reporting periods had an anti-dilutive effect on the basic loss per share, the conversion of the above potential dilutive shares was not assumed in the calculation of the diluted loss per share in both reporting periods. Accordingly, the basic and diluted loss per share for the three months ended 31 March 2011 and 2010 are the same.

MANAGEMENT DISCUSSION AND ANALYSIS

Business review and future outlook

After the financial tsunami in 2008, the global economy rebounded quickly in late 2009 and continued to grow in 2010. Most corporations started to be benefited from the economic growth in 2010. The ordinary business of the Group during the period under review was performing better when compared to same period in 2010. Most importantly, the Company has reached settlement on the convertible bonds issue with Lehman Brothers Commercial Corporation Asia Limited (“Lehman Brothers”) during 2010. The settlement represents a big step of the Group as the going concern problem of the Group is resolved. Although the Group still incurred operating loss in 2011, the Directors believes that the Group will perform much better in the near future.

The business segment of the Polyethylene Pipes (“PE Pipes”) was performing well and was the main business of the Group during the period under review. Fibre Glass Reinforced Plastic Pipes have been replaced by the PE Pipes. From 2011 onwards, PE Pipes became the main products of the Group. This business segment has been the core business of the Group for many years. The PE Pipes are products employed for constructions and city development in the People’s Republic of China (the “PRC”). Our major customers are mainly government entities of different provinces and cities in the PRC, or their suppliers. Given the rapid and continuous development of the PRC market, the Directors believe that the demands for our products are both sustainable and look set to increase.

Deed of Settlement and the disposal of subsidiaries

On 17 September 2010, the Company, Lehman Brothers (as Bondholder) and the joint and several liquidators of Lehman Brothers appointed by the order of the Court of First Instance of Hong Kong (the “Liquidators”) signed the deed of settlement (the “Deed of Settlement”) for the redemption of the 4.5% convertible bonds of the Company in the principal amount of HK\$246,250,000 issued by the Company to Lehman Brothers pursuant to the subscription agreement dated 12 June 2007 (the “Convertible Bonds”).

Pursuant to the Deed of Settlement, the Company shall pay to the Bondholder a sum of HK\$85 million in November 2010 and transfer the Sale Interest (as defined below) to the Bondholder or any third party as directed by the Bondholder.

The Sale Interest represents 100% of the issued share capital of Zhong Ping Resources Holdings Limited (“Zhong Ping”) (being the holder of the 70% equity interest in ARIA LLC (“ARIA”), a company incorporated in Mongolia with limited liability), or, at the sole and absolute discretion of the Bondholder, all of the assets held directly or indirectly by Zhong Ping. Zhong Ping, through ARIA, holds the majority interest of the mining right in respect of the green field exploration project namely the Mungun-Undur Polymetallic Project (the “Project”) located at Mungun-Undur, Khentii Province, Mongolia. The Project has prospects for silver, lead, zinc and tin mineralization.

Up to the date of this report, the completion of the Deed of Settlement and the disposal are still in progress and the Company will announce for any further development.

Details are set out in the announcements dated 27 September 2010 and 12 November 2010 and the circular dated 11 October 2010 of the Company.

Financial review

Turnover was approximately HK\$39,834,000 for the period under review, which represented an increase of 4.4% when compared with approximately HK\$38,156,000 in the corresponding period. Such slight increase in sale was mainly due to the stable operation of the core business segment of the Group. The unaudited loss before income tax from continuing operations for the period under review was approximately HK\$6,619,000 while it was approximately HK\$10,236,000 in the corresponding period. The loss attributable to owners of the Company was approximately HK\$6,619,000 (three months ended 31 March 2010: loss of approximately HK\$10,181,000). In the current economic environment, the Board will continue to adopt stringent cost control and maintain a low and effective overheads structure and prudently utilise the Group’s corporate resources to create wealth for the shareholders of the Company.

Liquidity and financial resources

With the funds raised previously and the internal resources of the Company and according to the Deed of Settlement, as at 31 March 2011, the Directors anticipate that the Group has adequate financial resources to meet its ongoing operations and future development.
