First Quarterly Report
第一季度業績報告

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on The Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

Hong Kong Exchanges and Clearing Limited and The Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors of Pan Asia Mining Limited (the “Directors”) collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on Growth Enterprise Market of The Stock Exchange of Hong Kong Limited for the purpose of giving information with regard to Pan Asia Mining Limited. The Directors, having made all reasonable enquiries, confirm that to the best of their knowledge and belief the information contained in this report is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or this report misleading.

MANAGEMENT DISCUSSIONS AND ANALYSIS

MATERIAL ACQUISITIONS AND DISPOSALS

The Group has no material acquisition or disposal during the 3 months ended 30 June 2011.

BUSINESS AND FINANCIAL REVIEW

Exploration and exploitation of mineral resources, has not yet generated any income during the 3 month period ended 30 June 2011. Turnover of trading and sales of metals was approximately HK\$2,132,000 (2010: approximately HK\$2,265,000), down by 5.87 % as compared to the same period in 2010. Loss for the period amounted to approximately HK\$42,093,000 (2010: loss approximately HK\$41,559,000), representing a 1.28 % increase compared with that of last year. The slight increase in net loss was the result of the decrease of finance costs from approximately HK\$36,761,000 in 2010 to approximately HK\$32,331,000 in 2011 due to full repayment of the promissory notes in March 2011, offset by an increase of administrative expenses and an approximately HK\$2,654,000 other net loss (2010: net income of approximately HK\$293,000) recorded during the period.

OUTLOOK

The Company has been striving to realize the full potential of the existing mining tenements by continuously implementing exploration program while actively pursuing other business opportunities within the resources industry. Scrap metal recycling is a key component of modern waste reduction and is the third component of the "Reduce, Reuse, Recycle" waste hierarchy. It processes used materials into new products to prevent waste of potentially useful materials, reduce the consumption of fresh raw materials, reduce energy usage, and reduce pollution compared to virgin production. The Group is now entering the industry by setting up a scrap metal trading business in Singapore. Operation is expected to commence in the coming months.

On the other hand, the extreme uncertainty in developed markets has introduced additional level of volatility to the precious metal market. This trend is expected to continue in the near future. Significant pricing volatilities not only minimize the upside potential but make it challenging to maintain a prudent risk profile in the business of precious metal trading. The Group has been reviewing the situation and considering if any adjustment to business strategy is needed.
