INTERIM REPORT 2011

## CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

## NOTES:

## **1. BASIS OF PREPARATION**

The Group's unaudited consolidated results have been prepared in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") (which include all Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants, accounting principles generally accepted in Hong Kong and the disclosures requirements of the GEM Listing Rules and the Hong Kong Companies Ordinance. They have been prepared under the historical cost convention, except for an investment property, derivative financial instruments and equity investments, which have been measured at fair value. The unaudited consolidated results are presented in Hong Kong dollars ("HK\$") and all values are rounded to the nearest thousand except when otherwise indicated.

The principal accounting policies applied in the preparation of the unaudited consolidated results are consistent with those adopted in the preparation of the annual consolidated financial statements of the Group for the year ended 31 March 2011.

In the current period, the Group has adopted a number of new and revised HKFRSs, which are effective for accounting periods beginning on or after 1 April 2011. The adoption of these new and revised HKFRSs had no material effect on the results or financial position of the Group for the current and/or prior accounting periods. Accordingly, no prior period adjustment has been required.

The Group has not applied the new and revised HKFRSs, which have been issued but are not yet effective, in the unaudited consolidated results. The Group is in the process of making an assessment of the impact of these new and revised HKFRSs upon initial application. So far, it has anticipated that these new and revised HKFRSs are unlikely to have a significant impact on the Group's results of operations and financial position.

The interim results are unaudited but have been reviewed by the audit committee of the Company.
